—Mr. A. A. Sinclair has been spending holidays in Brantford.

—Mrs. Jennie Allen spent New Year's with friends at Listowel.

—Mr. Wm. Rae, jr., is home from Antler, N.D., for a few weeks.

—Mr. and Mrs. Robt. Irving and family arrived back from Listowel last week.

—Miss Ethel Porter, of 2nd Elderslie, spent the New Year holiday in Walkerton.

—Mrs. A. Galbraith went to Toronto to visit her sister and friends over New Year's.

—Mr. John Collins has sold 150 acres of his farm across the Saugeen to Mr. Geo. Craig.

—Mr Jarvis Osborne of Trout Creek was down here on a business trip, returning last week.

—Mr. I. Shoemaker, accompanied by sons Fred and Jolly, spent the New Year's holiday at Berlin.

—Miss Gertie Nichol is down from the west on a visit to her parents, Mr and Mrs Hugh Nicholl,

—Miss Ballachey, of Brantford, is here on an extended visit at the home of her brother, Reeve Ballachey.

—Mrs. A. H. McMorran and daughter, Gladys, were visiting friends at Jamestown, Huron Co., over the holiday.

—Ross Wood, son of Mr. and Mrs. D. Wood, of Lowal, recently enlisted at Swan Lake, Man., and is in training at Winnipeg.

—The regular meeting of the W.C.T.U. will be held in Putnam's hall on Friday evening at 7.30. An interesting program. Come and enjoy it.

—Mr. Alex Bannerman, who is an engineer on a lake steamer, is here to spend the winter at the home of his father, Mr. Geo. Bannerman, Cambridge St.

—Our subscription rate is going up, but until the end of January we will accept $1 00 in advance. We want to give everybody a chance to save 50c, so take advantage of this.

—Mr. John Hammond, of Elderslie, brought in the largest bird that has been delivered in Paisley poultry market this year—a 35-lb. turkey, which he exchanged for $7.00 cash at Ballachey, Laidlaw & Co's store.

—Mr. Geo. Rathwell, of Rilpath, Sask., is down on a few weeks' visit at the home of his parents, Mr. and Mrs. John Rathwell, Paisley. George has got back to the land since going west, and like all others from the prairies says this was a good year.

—Mr. Harry Hyde, of Monteith, in New Ontario, returned to that place on Wednesday, after a visit of a couple of weeks among his friends in Bruce. There was two feet of snow at Monteith when he came away and the thermometer had been down to 64 below zero.

Recruits Wanted

A Recruiting Office for the 160th Bruce Overseas Battalion is now open in Paisley. Major Hay is the recruiting officer in charge, and Dr. Houston medical officer. Recruits wanted between the ages of 18 and 45. Every eligible man is needed to make up the force called from Canada to the help of the Empire and the world's freedom. The men of this section of Bruce are asked to do their share.

Just a Few Words

about our moderate-priced suits—our $15.00 ones.

Not much need be said to those who have ever bought one, about either the cloth or the way they are made.

To those who aren't familiar with them we promise long service in these suits, lots of wear, satisfaction in plenty, and guaranteed goodness.

A proper idea of the variety of the patterns can be had only from a look through the stock.

This is a big $15.00 worth.

PUTNAM & SON

Carpet Factory Sold

This municipality has got rid of its white elephant at last. While the value received ($550) is probably only about the price of a good elephant hide, yet ratepayers generally will be pleased to have this piece of idle depreciating property converted into tax-paying dwellings, as it will be under the bargain made. Mr. John Collins is the purchaser, and he is to erect at least two dwellings. As the amount of land provides ample room for four large village lots, it is possible there may be that number of new houses take the place of the factory building before long. The material obtainable from the present structures is estimated to be worth considerable more than the cost of tearing it down, and as all the machinery also becomes the property of the purchaser, it is considered that Mr. Collins has a very good bargain on his hands. The houses to be built must be of a value not less than $1200 each.

McArthur—Dunlop

The home of Mr and Mrs John Dunlop, 12th Bruce, was the scene of a pretty wedding on Wednesday, when their second daughter Rachel was united in marriage to Charles McArthur. Promptly at 4 o'clock the bridal party took their places under an evergreen arch festooned with wax candles, mistletoe and a large marriage bell. The bride looked dainty in a gown of shadow lace and net, with orange blossoms in her hair and carrying white carnations, while the bridesmaid, Miss Ellen Dunlop, was gowned in white and carried pink carnations. The groomsman supported by his brother, Malcolm McArthur. After congratulations and signing the register the guests, numbering about 50, sat down to a wedding supper. Rev R H Sawer, of Queen Hill, officiated. The honeymoon will be spent in Owen Sound. In the evening there was a large reception held, and almost 150 gathered to wish the young couple much happiness.

Irwin—McDonald

The home of Mr and Mrs Alex McDonald, 10th con Bruce, was the scene of a very pretty but quiet wedding on Wednesday evening, Dec 29th, when their youngest daughter Margaret was united in marriage to Mr James Irwin, also of the 10th line. The Rev Mr Sawers, of Queen Hill, officiated. The bride, who was given away by her father, wore a dress of ivory satin trimmed with net, lace and pearls. Only immediate friends of the contracting parties were present at the ceremony. The happy couple left next morning for a short visit to friends in Wingham, and on their return will be at home to their many friends after Feb 1st. Wishing them long life, happiness and prosperity voices the sentiment of the whole community in which they reside.

Who Have Enlisted

Mr. Wm. Tick, who is a fine clarinet player, has enlisted as a bandsman with the 160th Bruce Battalion. Messrs. M. McDonald (barber), and J. S. Symon (2nd Bruce), are the latest recruits who signed up at Paisley. Messrs. Bernard Blount (blacksmith), Frank B. Wells (Hotel Rosamond), and Wm. Graeper (Port Elgin), who enlisted some time ago, went to Walkerton on Tuesday.

THE

Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER I.

The palings of the grandstand inclosure creaked in protest under the pressure. The shadows of forward-surging men wavered far out across the track. A smother of enshriving dust broke, hurricane-like, around the last turn, sweeping before it into the straightaway a struggling mass of horse-flesh and a confusion of stable-colors. Back to the right, the grandstand came to its feet, bellowing in a madman's chorus.

Out of the forefront of the struggle strained a blood-bay colt. The boy, crouched over the shoulders, was riding with hand and heel to the last ounce of his strength and the last subtle feather-weight of his craft and skill. At his saddlekirts pressed a pair of distended nostrils and a black, foam-flecked muzzle. Behind, with a gap of track and daylight between, trailed the laboring "ruck."

A tall stranger, who had lost his companion and host in the maelstrom of the betting shed, had taken his stand near the angle where the paddock grating meets the track fence. A Derby crowd at Churchill Downs is a congestion of humanity, and in the obvious impossibility of finding his friend he could here at least give his friend the opportunity of finding him, since at this point were a few panels in of fence almost clear. A dog two colts fought out the final decisive furlongs, the black nose [illegible] inch by inch along the bay neck, the stranger's face wore an interest not altogether that of the casual race-goer. His shoulders were thrown back, and his rather lean jaw angle swept into an uncompromising firmness of chin—just now uptilted.

The man stood something like six feet of clear-cut physical fitness. There was a declaration in his breadth of shoulder and depth of chest, in his slenderness of waist and thigh, of a life spent only partly within doors, while the free swing of to-so might have intimated to the expert observer that some of it had been spent in the saddle.

Of the face itself, the eyes were the commanding features. They were gray eyes, set under level brows; keenly observant by token of their clear light, yet tinged by a half-wistful softness that dwells hauntingly in the eyes of dreamers.

Just now, the eyes saw not only the determination of a four-furlong dash for two-year-olds, but also, across the fresh turf of the infield, the radiant magic of May, under skies washed brilliant by April's rains.

Then, as the colts came abreast and passed in a muffled roar of drumming hoofs, his eyes suddenly abandoned the race at the exact moment of its climax; as hundreds of heads craned toward the Judge's stand, his own gaze became a stare focussed on a point near his elbow.

He stared because he had seen, as it seemed to him, a miracle, and the miracle was a girl. It was, at all events, nothing short of miraculous that such a girl should be discovered standing, apparently unaccompanied, down in the bricked area, a few yards from the paddock and the stools of the bookmakers.

Unlike his own, her eyes had remained constant to the outcome of the race, and now her face was averted, so that only the curve of one cheek, a small ear and a curling tendril of brown hair under the wide, soft brim of her Panama hat rewarded him for the surrender of the spectacle on the track.

Most earn, he found himself reflecting with a sense of triumphant discovery, simply grew on the sides of heads, this one might have been fashioned and set by a hand gifted with the exquisite perfection of the jeweller's art.

A few moments before, the spot where she stood had been empty save for a few touts and trainers. It seemed inconceivable, in the abrupt revelation of her presence, that she could, like himself, have been simply cut off from companions and left for the interval waiting. He caught himself casting about for a less prosaic explanation. Magic would seem to suit her better than mere actuality. She was sinuously slender, and there was a splendid hint of gallantry in the unconscious sweep of her shoulders. He was conscious that the simplicity of her pongee gown loaned itself to an almost Greek freedom of carriage with the same readiness as do the draperies of the Winged Victory. Yet, even the Winged Victory achieves her grace by a pose of triumphant action, while this woman stood in repose except for the delicate forward-sending excitement of watching the battle in the stretch.

The man was not, by nature, susceptible. Women as sex magnets had little part in his life cosmos. The interest he felt now with electrical force, was the challenge that beauty in any form made his enthusiasm. Perhaps, that was why he stood all unresisting the discourtesy of his gaping scrutiny—a scrutiny that, even with her eyes turned away, she must have felt.

At all events, he must see her face. As the crescendo of the grandstand's suspense graduated into the more positive note of climax and began to die, she turned toward him. Her lips were half-parted, and the sun struck her cheek and mouth and chin into a delicate brilliance of color, while the hat-brim threw a band of shadow on the forehead and eyes. The man's impression was swift and definite. He had been waiting to see, and was prepared. The face, he decided, was not beautiful by the gauge of set standards. It was, however, beautiful in a better sense of its individuality; the delicacy of the small, yet reasonable and the expressive depth [illegible]. Just now, they were shadowed pools of blue, but he knew they could brighten into limpid violet.

She straightened up as she turned and met his stare with a steadiness that should have disconcerted it, yet he found himself still studying her with the detached, though utterly engrossed interest of the critic. She did not start or turn hurriedly away. Somehow, he caught the realization that flight had no part in her system of things.

The human tide began flowing back toward the betting shed, and left them alone in a cleared space by the palings. Then, the man saw a quick anger sweep into the girl's face and deepen the color of her cheeks. Her chin went up a trifle, and her lips tightened.

He found himself all at once in deep confusion. He wanted to tell her that he had not realized the actuality of his staring impertinence, until she had, with a flush of unnerved wrath and embarrassment, revealed the depth of his felony . . . for he could no longer regard it as a misdemeanor.

There was a note of contempt in her eyes that stung him, and presently he found himself stammering an excuse.

"I beg your pardon—I didn't realize it," he began lamely. Then he added as though to explain it all with the frank outspokenness of a schoolboy: "I was wishing that I could paint you—I couldn't help gazing."

For a few moments as she stood rigidly and indignantly silent, he had opportunity to reflect on the ineptness of his explanation. At last, she spoke with the fine disdain of affronted royalty.

"Are you quite through looking at me? May I go now?"

He was contrite.

"I don't know that I could explain—but it wasn't meant to be—to be—" He broke off, floundering.

"It's a little strange," she commented quietly as though talking to herself, "because you look like a gentleman."

The man flu-hed.

"You are very kind and flattering," he said, his face instantly hardening. "I shan't tax you with explanation. I don't suppose any woman could be induced to understand that a man may look at her—even stare at her—without disrespect, just as he might look at a sunset or a wonderful picture." Then, he added half in apology, half in defiance: "I don't know much about women anyway."

For a moment, the girl stood with her face resolutely set, then she looked up again, meeting his eyes gravely, though he thought that she had stifled a mutinous impulse of her pupils to riffle into amusement.

"I must wait here for my uncle," she told him. "Unless you have to stay, perhaps you had better go."

The tall stranger swung off toward the betting shed without a backward glance, and engulfed himself in the mob where one had to fight and shoulder a difficult way in zigzag course. Back of the forming lines of [illegible]ners with tickets to cash, he caught sight of a [illegible]ding man almost as tall as himself, whose characterized by the wholesome attractiveness of one who has taken much with a good decency. He wore an [illegible]upon feature and hearing the stamp clean aristocracy that is not decades ha[illegible] the [illegible] of this man, the stranger shouldered his way [illegible] to him.

"Since you abandoned me," he accused, "I've been standing out there like a little boy who has lost his nurse." After a pause, he added: "Also I've seen a wonderful girl—the one woman in your town I want to meet."

His host took him by the elbow, and began steering him toward the paddock gate.

"So, you have discovered a divinity, and are ready to be presented. And you are the scoffer who argues that women may be eliminated. You are—or were—the man who didn't care to know them."

The guest answered calmly and with brevity:

"I'm not talking about women. I'm talking about a woman—and she's totally different."

"Who is she, Bob?"

"How should I know?"

"I know a few of them—suppose you describe her."

The stranger halted and looked at his friend and host with commiserating pity. When he deigned to speak, it was with infinite scorn.

"Describe her! Why, you fool, I'm no poet laureate, and, if I were, I couldn't describe her!"

For reply, he received only the disconcerting mockery of ironical laughter.

"My interest," the young man of the fence calmly deigned to explain, "is impersonal. I want to meet her, precisely as I'd get up early in the morning and climb a mountain to see the sun rise over a particularly lovely valley. It's not as a woman, but as an object of art."

On other and meaner days, the track at Churchill Downs may be in large part surrendered to the more rightful patrons, the chronics and apostles of the turf, and racing may be only racing as roulette is roulette. But on Derby Day it is as though the community paid tribute to the savor of the soil, and honored in memory the traditions of the ancient regime.

To-day, in the club-house inclosure, the roomy verandahs, the close-cropped lawn and even the rose-gallery were crowded; not indeed to the congestion of the grandstand's perspiring swarm, for Fashion's reservation still allowed some luxury of space, but beyond the numbers of less important times. In the burgeoning variety of new spring gowns and hats the women made bouquets, as though living flowers had been brought to the shrine of the thoroughbred.

A table at the far end of the verandah seemed to be a little Mecca for strolling visitors. In the party surrounding it, one might almost have caught the impression that the prettiness of the feminine display had been here arranged, and that in scattering attractive types along the front of the white club-house, some landscape gardener had reserved the most appealing beauties, for a sort of climacteric effect at the end.

Sarah and Anne Preston were there, and wherever the Preston sisters appeared there also were usually gathered together men, not to the number of two and three, but in full quorum. And, besides, the Preston sisters, this group included Miss Buford and a fourth girl.

Indeed, it seemed to be this fourth who held, with entire unconsciousness, more than an equal share of attention. Durin Filson was no more cut to the pattern of the ordinary than the Russian name her romantic young mother had given her was an exponent of the life about her. She was different, and at every point of her divergence from a routine type it was the type that suffered by the contrast. Having preferred being a boy until she reached that age when it became necessary to bow to the dictate of Fate and accept her sex, she had retained an understanding for, and a comradeship with, men that made them hers in bondage. This quality she had combined with all that was subtly and deliciously feminine, and, though she loved men as she loved small boys, some of them had discovered that it was always as men, never as a man.

She had a delightfully refractory way of making her own laws to govern her own world—a system for which she offered no apology; and this found its vindication in the fact that her world was well-governed—though with absolutism.

The band was blaring something popular and reminiscent of the winter's gayeties, but the brasses gave their notes to the May air, and the May air smoothed and melted them into softness. Dusky [illegible] were fewed on the green turf of the infield where several trees pointed into the blue.

Mr. Walter Belton, having accomplished the marvelous feat of escaping from the bookmaker's maelstrom with the immaculateness of his personal appearance intact, sauntered up to drop somewhat languidly into a chair.

"When one returns in triumph," he commented, "one should have chaplets of bay and arches to walk under. It looks to me as though the reception-committee has not been on the job."

Sarah Preston raised a f[illegible] mould-ed gravity. Her voice was velvety, but Belton caught its undernote of ridicule.

"I render unto Cæsar those things that are Cæsar's—but what is your latest triumph?" She put her question innocently. "Did you win a bet?"

If Mr. Belton's quick-flashing smile was an acknowledgment of the thrust at his somewhat notorious self-appreciement, his manner at least remained imperturbably complacent.

"I was not clamoring for my own just dues," he explained, with modesty. "For myself, I shall be satisfied with an unostentatious tablet in bronze when I'm no longer with you in the flesh. In this instance I was speaking of another."

He did not hasten to announce the name of the other; for, in the little things of life, this gentleman calculated to a nicety dramatic values and effects. Just as a public speaker in nominating a candidate works up to a climax of eulogy, and pauses to let his hearers shout, "Name him! Name your man!" so Mr. Belton paused, waiting for someone to ask of whom he spoke.

It was little Miss Buford who did so with the debutante's legitimate interest in the possibility of fresh conquest.

(To be continued.)

HANDLING THE BANANA CROP.

How the Planters Rush the Product to Market.

The value of the yield per acre of bananas in the Ceiba district, Honduras, is less than that of wheat, but unlike wheat, the banana cannot be stored. It must be marketed when it is ready for marketing, as the demand in the north fluctuates with the extent of the fruit crop.

The banana planter does not go into his fields and pluck his bananas as he thinks they have properly matured, but receives telegraphic orders from the railway or steamship company to cut bananas on a certain day not more than thirty-six hours in advance of the scheduled departure of the ship. Cars are placed on his sidetrack, usually directly in the plantation.

The planter goes over his fields and cuts all fruit ready for shipping, neither too ripe nor too green, has it hauled to the waiting cars on mule-back or ox-carts and inspected.

At the close of the day the waiting cars are picked up by the banana trains and hauled to the coast. A day is required to load the ship, and three days later the vessel is in New Orleans.

Helping Uncle.

She came down to the drawing room to meet her special young man, with a frown on her pretty face.

"John," she said, "father saw you this morning going into a pawnbroker's with a large bundle."

John flushed. Then he said in a low voice:

"Yes, that is true. I was taking the pawnbroker some of my old clothes. You see, he and his are frightfully hard up.

[illegible]rave me!" exclaimed

SIR JOHN NIXON.

His Campaign in Mesopotamia Is Highly Praised.

Any day now we may hear from Sir John Nixon, commander-in-chief of the British army in Mesopotamia, of the fall of Bagdad, the great Mohammedan capital of the Far East. Most of Sir John's work has been in India. South Africa, where he led a cavalry division with great distinction, was an interlude—a welcome enough interlude in the dusty business of soldiering under the sun of Southern India. Educated at Wellington, he first served in the King's Own Borderers and the Bengal Lancers. One staff appointment after another kept him in the East, and though campaigning took him once to South Africa and several times to the Hills, he has been long years in the heat. When in April he took over the command of our forces in Mesopotamia, he found himself in the hottest spot on earth. Thirst and sand storms—sand storms that carry no refreshing wind with them, but only sand—have been among his troubles. He has

General Sir John Nixon

overcome them, and overcome the Turks into the bargain. Germany is growing a little less confident about a Berlin-Bagdad thoroughfare, and we all know in what terms Mr Asquith, in his statement on the war the other day in Parliament, referred to Sir John's victorious campaign. "In April," said the Prime Minister, "a second division was added to the force, and the command was assumed by General Sir John Nixon. After a brilliant series, and an absolutely unchequered series, of land and river operations, the Turks were driven back both up the Euphrates and up the Tigris. In July their final positions on both rivers were captured, with heavy casualties, and General Nixon's force is now within a measurable distance of Bagdad. I do not think that in the whole course of the war there has been a series of operations more carefully contrived, more brilliantly conducted, and with a better prospect of final success."

STARVATION IN POLAND

Memorial Urging Better Industrial Conditions.

Pleading that 3,000,000 persons dependent on the industries of Poland are starving, the Workmen's Union of Poland has sent to the Governor General, Herr von Beseler, a memorial urging the re-opening of the factories, the adoption of a protective tariff and the return of machines, mechanical fittings, and especially belts and gears, which were taken out of factories and workshops during the early days of German occupation.

The memorial states that "the working population of Poland includes 350,000 workmen in factories, 60,000 in the building trades and 590,000 in small industries." Including the families of these workmen, this industrial population reaches a total of 3,000,000 persons, with a normal income of about $350,000,000 a year.

A certain proportion of this population, it is stated, has been sent to Germany, and another section is receiving aid from former employers—where the latter are still able to help.

"But there is still a great mass of people who are actually starving," says the memorial, "and for the sake of these persons it is advisable to put at least some of the factories into operation, especially the sugar, vinegar and yeast factories, mills, breweries, sawmills, brick yards and foundries."

The memorial deals briefly with the question of articles commandeered by the German military authorities, stating that the complete confiscation of all raw material would paralyze industry, and that enough machinery should be left in the factories to enable them to continue in partial operation.

The customs tariff promulgated on June 22 by the German commander is criticized as unalterable, because it fails to protect Polish industry, and even in normal times would bring about its ruin. Therefore the establishment of the old tariff is asked. There is a further demand for a lowering of railway rates, which are alleged to be now on a burdensome and impossible scale.

Pumice-stone is a mineral thrown out by volcanoes.

Disinfecting Stables.

In any outbreak of infectious diseases among animals thorough disinfection of the premises is essential to prevent the spread of the contagion. Certain substances, such as fresh slaked lime or unslaked lime in powder form, chloride of lime, carbolic acid, corrosive sublimate, formalin, formaldehyde gas, and compound solution of cresol possess the power of destroying bacteria with which they come in contact. To make the use of such substances of value, however, the work must be done with the utmost thoroughness. Careless disinfection is probably worse than none, for it merely serves to give a false sense of security.

In the disinfection of stables and premises the following directions should be carefully observed:

First—Sweep ceilings, side walls, stall partitions, floors and other surfaces until free from cobwebs and dust.

Second—Remove all accumulations of filth by scraping, and if woodwork has become decayed, porous or absorbent it should be removed, burned and replaced with new material.

Third—If the floor is of earth remove four inches from the surface and in places where it shows staining with urine a sufficient depth should be replaced to expose fresh earth. All earth removed should be replaced with earth from an uncontaminated source, or a new floor of concrete may be laid, which is very durable and easily cleaned.

Fourth—All refuse and material from stable and barnyard should be removed to a place not accessible to cattle or hogs and covered with freshly slaked lime. If this manure is spread on fields it should be turned under immediately, while the wood should be burned.

Fifth—The entire interior of the stable, especially the feeding troughs and drains, should be saturated with a disinfectant, as a three per cent. solution of compound of cresol, which would be four ounces of the compound to every gallon of water.

The best method of applying the disinfectant is by means of a strong spray pump, such as those used by orchardists.

This method is efficient in disinfection against most of the contagious and infectious diseases of animals and should be applied immediately following any outbreak, and, as a matter of precaution, it may be used once or twice yearly.

Orchard Helps.

It takes about eight years to get an apple orchard into good bearing, but if during this time the work is well done, a permanent income is practically insured.

It is a mistake to set out trees more than two years old. Many good orchardists prefer yearlings, but two-year-olds generally produce the best results.

A young apple tree does not require much pruning until it is four or five years old, and the tree can be shaped better at that age than when early pruning is resorted to.

The orchard that has been properly cared for requires very little pruning after it comes into full bearing.

New Alfalfa.

New seedlings of alfalfa should not be pastured. The ground in these fields is not firm and considerable damage is done by the trampling of the plants, especially during wet weather. Fields established a year or more may be pastured lightly in the fall, but should never be eaten down close.

If the growth of alfalfa is not very strong the field may be top-dressed any time during the fall, preferably just after the third cutting has been removed. New seedings may be top-dressed at any time except during wet weather when the ground is soft.

Clean Water Essential.

An important factor in dairy feeding is the supply of water. In the summer, with plenty of grass and green forage, and in the winter with roots and silage, the consumption of water is relatively less than when the cows are on dry feed, but cows must always have plenty of pure, fresh water if they are to produce pure milk. Unless the pastures and yards are watered by a brook or a spring, the water should be procured from a well, kept clean and not subject to surface drainage and free from foreign matter and taints of any kind.

MYSTERY OF HEREDITY.

Startling New Theory Shows Unexpected Results.

Scientific studies of heredity are showing some very interesting and unexpected results. We know that the typical character of a man undergoes variations at different periods of a long life, and that the son is likely to "take after" his father. But we notice, often with surprise, that capacities that were dominant in a father, which gave him sometimes great reputation, frequently are entirely lacking in his son.

Literary distinction, genius in any particular direction, which distinguished a certain father are quite frequently absent in the case of his son. In wondering at this we fail to take note of the period in the father's life when he "made his mark." After patient investigation science has come to the conclusion that the son inherits from his father only the qualities that were dominant at the time of his birth.

These conclusions are set forth in the book called "Dynamic Evolution," by Caspar L. Redfield, recently published. The author writes:

"As a general proposition the man between 20 and 30 is aggressive, ambitious and conceited. He would rule the world with a club. This stage gradually merges into another, so that as a general proposition the man between 30 and 40 is in the artistic stage of life. He is a lover of poetry, music, painting and sculpture.

"The artistic stage gradually merges into the practical stage, which may be generally defined as between 40 and 60. The practical man looks at the dollars and cents, wishes to improve government, and has the qualities of statesmanship. As he passes beyond 60 into his older age he becomes philosophic in his sentiments and moral in his maxims.

"These different qualities are simply different forms of one and the same mental energy within the man, and they are spread out through his life much as red rays, yellow rays, blue rays and violet rays, all from the same white light, are spread out by the spectroscope."

That the son will partake of the father's type of mental energy that was dominant at the time of the son's birth is shown to be substantiated by history and biography. Mr. Redfield presents a classified list of world celebrities together with the ages of their respective fathers at the time of their birth. For example, Alexander, Bonoparte, Charlemagne, Grant, Hannibal, Pompey and Roosevelt were all born when their fathers were at the age of less than 31, the age of militarism and aggressiveness.

At the age of 31 to 40, the artistic type, their fathers presented to the world such geniuses as Bach, Beethoven, Goethe, Shakespeare, Raphel, Carlyle and others of their status. In the list of statesmen these were born when their fathers were aged from 41 to 50: Bismarck, Cator Cromwell, Machiavelli, Webster. Great names in philosophy born when their fathers were over 51 are: Aristotle, Bacon, Buddha, Confucius, Franklin, Moses and Solomon.

"While men born in one of these divisions," writes the author, "may show the type of character represented in the next adjacent division, above or below, the extremes do not meet. No mild-mannered moralist of the type represented by Buddha and Confucius is found in the son of a man less than 31 years of age, and no aggressive military commander of the type of Alexander or Napoleon is found in the son of a man more than 31 years of age."

It is remarked that Mohammed, whose father was 25, though a moralist and prophet, would rule the world by the sword; also that a great general, whose father was 51, went to war because his moral obligations forced him to do so and not because he wanted to.

If a man is married to a good woman he may not think it necessary to go to church.

FREE TO HOUSEWIVES

A big 48 page Household Account Book, Calendar and Recipe Book combined, size 7x11 inches, containing hundreds of the best and latest recipes.

HOW TO GET YOUR COPY.

Below are the names and addresses of twelve firms. Select eleven of your best friends and either have them write, or write a postcard yourself in each of these firms asking them to send "Shepard's Housekeeper's Perfect Account Book" to the address supplied.

For instance, supply your name and address to the first firm on the list, a friend's name and address to the second firm on the list and so on. Write your postcards to-day before you forget.

ALL MOTHERS NEED CONSTANT STRENGTH

Their Strength is Taxed and They are Victims of Weakness and Suffering

When there is a growing family to care for and the mother falls ill it is a serious matter. Many mothers who are on the go from morning to night, whose work, apparently, is never done, try to disguise their suffering and keep up an appearance of cheerfulness before their family. Only themselves know how they are distressed by backaches and headaches, dragging down pains and nervous weakness; how their nights are often sleepless, and they arise to a new day's work, tired, depressed and quite unrefreshed. Such women should know that their sufferings are usually due to lack of good nourishing blood. They should know that the one thing they need above all others to give them new health and strength is rich, red blood, and that among all medicines there is none can equal Dr. Williams' Pink Pills for their blood-making, health-restoring qualities. Every suffering woman, every woman with a home and family to care for should give these Pills a fair trial, for they will keep her in health and strength and make her work easy. Mrs. G. Strasser, Acton West, Ont., says: "I am the mother of three children, and after each birth I became terribly run down; I had weak, thin blood, always felt tired, and unable to do my household work. After the birth of my third child I seemed to be worse, and was very badly run down. I was advised to take Dr. Williams' Pink Pills. I found the greatest benefit from the Pills, and soon gained my old-time strength. Indeed, after taking them I felt as well as in my girlhood, and could take pleasure in my work. I also used Baby's Own Tablets for my little ones, and have found them a splendid medicine for childhood ailments."

You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for $2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

A GREAT AMATEUR COOK.

French Nobleman Served in Famous London Restaurant.

Cooking, or the compounding of salads and sauces, has the authority of historic precedent as a suitable hobby for French gentlemen of distinction. It was fashionable among the aristocracy in court circles before the Revolution, and became of essential service to more than one noble fugitive from the Terror during his exile. One young nobleman, after narrowly escaping the guillotine, hid his great name under an alias, and served for several months as an assistant in a famous London restaurant, where he was soon given entire responsibility for the minced meats, entrees, and rageouts. After the partial restoration of his fortunes, he delighted in telling the story of his adventures, always concluding with a grace that may perhaps best be rendered:

"So, you see, I disappointed them finely—the Sans-culottes. By the chopping knife they would have had me die, and behold! by the chopping knife I lived!"

Frenchmen of more than merely aristocratic distinction—authors, artists and scientists—have also, says M. E. De La Rue, "yielded to the clinking lure of little pots and pans, and the bright beckoning of kitchen fires. But among many who learned to cook a little, or even to cook creditably, there was only one who really became a cook. That was Alexandre Dumas, the elder, and for his qualifications we have the word of his chef."

The chef, Monsieur Edouard, after some months in Dumas' service, came to him with a very gloomy face to give notice of his departure.

"But, my dear Edouard, why?" expostulated Dumas. "If it is a matter of money, you shall have more. I do not wish to let you go; you cook admirably. Your omelettes, especially——"

"Ah, monsieur!" cried Edouard, with outflung hands. "So I have always thought, myself; yet it is because of a little matter of omelettes that I depart. Monsieur will remember that we have had omelette for breakfast both yesterday and to-day. Yesterday I prepared for an omelette with parsley and little marrow balls, on which I pride myself. Monsieur approved it, and so did the two gentlemen, monsieur's guests. But to-day it was monsieur's fancy to make the omelette himself, after a recipe of his own, with chicken livers and small red peppers. I, myself, passing by the door, overheard monsieur's guests cry out in ecstasy, 'But, good heavens, Dumas, this omelette is exquisite! It is divine! It is surpassing!' Even the omelette of yesterday is as nothing to this!' There was a little left. I slipped in; I tasted; they were right! 'I must, monsieur will understand, depart at once, to refresh my art by study and experiment. I am willing to admit that monsieur is no ordinary amateur; he may rank with professionals; still, I cannot remain tranquilly in his kitchen, permitting myself to be surpassed. I depart with homage and regret—but I depart."

The best way to get a living is to earn it.

Pte. Chas. Farmer, Aged 78.

Lord Derby's recruiting campaign has not only induced patriotic but supposedly ineligible Englishmen that after all they may be allowed to fight for their country. When a man is 78 years old, for instance, he would hardly think it worth while to offer himself as an able soldier, yet that is what one man did, and he was not rejected. The man was Charles Farmer, a hero of the Crimean war, who had been out of the army for 44 years. It occurred to him recently, after hearing some of Lord Derby's emissaries that in spite of his age he was a pretty fit young fellow, so he applied for enlistment, and was made a member of the King's Shropshire Light Infantry. Private Farmer, who is a joiner by trade and native of Shrewsbury, is very proud of the fact that the doctor who passed him declared him sound in wind and limb.

LIVE IN THE TRENCHES.

Experience of a British Volunteer Officer at Gallipoli.

I am now back again in the firing line. As we came up the Turks must have noticed the dust, for they fired shrapnel at us. Three burst on a parapet above my head, between five and ten yards away. They besprattered me and the company sergeant major with dirt, but, thank God, that was all. I thought something worse would have happened, writes a British volunteer officer, since wounded, in the Manchester Guardian.

We are in a long fire-trench, full of twists and turns, almost a maze; in fact, I have to keep a plan in my notebook to find my way and realize where my men are. The Turks are from 10 to 20 paces away from us. Neither side dare show a finger, and the watch is constant. Both sides have to keep moving the periscopes, as the enemy snipe them.

I never saw so many flies as there are here. I had 10 in a mug of tea as soon as it was handed to me. I had begun to get used to them where I was before, but here they are insufferable, and even perch on one's lips.

I have got a very comfortable place for myself for the little rest I shall get here. It is long enough for me to stretch at full length, and I have got down an oil-sheet and two blankets and have my pack and air-cushion, so I am doing pretty well. Just opposite to me is a cleft in the rock on a level with the ground, where I have put a number of things, and the rest are on the parapet accumulating dust. . . . The climate is so dry that the skin on my hands and arms is peeling. A great many of the men are so brown that they look like niggers.

One of my men is just saying, "I wonder how it would seem to sit down to table with a cloth on." You have no idea how remote all those things of ordinary life seem to us. Tea and and sugar get mixed and float inextricably in the same mug of lime-juice; butter never comes our way, and meat, jam and eggs compete for room on the same plate. I drink on one side of a mug and the sergeant major on the other. I eat sweaty chocolate, intertwined with melted silver paper wrapping. The food is all covered with dust, all sorts of things happen to our utensils, and yet I enjoy my food immensely. That side of it is a great picnic. It is the other side we hate so much.

There are none of us here who have seen war can ever desire another. I hate it and everything belonging to it. It all seems so inadequate that might should be right, or shall I say that right has to prove itself might to gain the victory? Very few can face such a crisis with equanimity. I cannot and never shall. Perhaps men who are born soldiers can laugh at death and revel in war, but I, who am only a poor lawyer who has temporarily doffed the robe to don khaki, must confess I prefer the robe. I do not say that I am not taking pride in doing my duty; I take an immense pride in my work because it is my duty and I like to do my best. But the work gives me no pleasure of itself.

German Officers Killed.

In a private report which has come into the hands of the French, the number of German field artillery officers of all ranks who have been killed up to September 10 since the beginning of the war on the Western front, is put as equal to the officer personnel of 240 batteries.

Exceptional Record By Royal Bank

In Addition to Showing Position of Unprecedented Strength, Bank has Made Increase in Net Profits over Previous Year—Large Increases in Deposits and Total Loans.

The Annual Statement of the Royal Bank of Canada will likely prove one of the pleasant surprises at the end of a peculiar banking year. In practically every respect it is the best report ever issued by the Royal. A position of even exceptional strength was to be expected, but it is doubtful whether anyone had anticipated that under the unprecedented conditions of the past year it would be possible to even make a gain in net profits.

Such a showing, in times like these, is little short of remarkable, and must be accepted as an indication of the strong organization and valuable connections which the Royal Bank has steadily built up throughout the world. Of particular interest in this regard is the satisfactory development of the important connections which the Bank possesses in Cuba and the West Indies.

Increases In All Departments.

In the aggregate the Bank shows gains in every important department, and while it has shown an increase in profits over the previous year, it has, at the same time, established new records in the percentages of both liquid assets and cash as well as in total deposits and total current loans.

In face of such remarkable gains one naturally looks for some special reason for the growth of the Royal's business, and this results in one almost immediately hazarding the opinion that the Bank is now beginning to enjoy the full benefits of the amalgamations it has effected during the past few years. Large savings must gradually have been made and the whole organization steadily rounded out in a way that permitted of the employment of a very large percentage of the Bank's funds even under less active trade conditions.

Profit and Loss Statement.

The profits for the fiscal year ending November 30th, 1915, were $1,305,576.67, equal to 16.48% on the capital, compared with $1,886,142.67, or 16.31% in the previous year. As the amount at the credit of profit and loss at the end of the previous year totalled $614,042.25, this, with the profits for the current year, brought the total amount available for distribution up to $2,519,638.92. Of this amount dividends took $1,387,200, $100,000 was transferred to officers' pension fund, $250,000 written off Bank premises account, $108,066 applied as war tax on the Bank's note circulation, leaving the amount to be carried forward to profit and loss at the end of the year $676,472.16.

Features of Strength.

In the statement of assets and liabilities almost every account seems to contribute something to the general strength of the whole exhibit. Of more particular interest are the striking gains made in liquid assets, deposits, total call and current loans, and, in consequence, in the total assets of the Bank.

The assets reached a new high level at $196,299,123, compared with $179,404,054 at the end of the previous year, a gain of practically $20,000,000. Of the total amount liquid assets reached a record level by touching $84,894,462, equivalent to 40.93% of liabilities to the public, against $71,244,677 or 40.05% last year. Included in the liquid assets were actual cash holdings of $31,923,680, equal to 18.43% of liabilities to the public, up from $27,687,855 or 17.96% in 1914. The deposit in the central gold reserve was increased by a million, bringing it up to $3,000,000.

An indication of the Royal's steady expansion is afforded by the growth in deposits, which amounted to over $18,000,000 in the year, the deposits not bearing interest having increased to $37,856,997 from $31,824,129, and deposits bearing interest to $117,419,360 from $164,827,078, making a total of $154,976,227, against $136,651,208. As indicated by the increase in earning power, there were substantial gains in total call and current loans, the call loans both in and outside of Canada having advanced to $18,951,000, against $14,854,000, and total current loans in and outside of Canada $106,551,000, against $99,387,000, an increase of close to $7,000,000.

Looked upon as one of the younger of the bigger Banks, the Royal has certainly made phenomenal strides, and its ability to exhibit such a statement under the conditions that prevailed during the past year augur well for its further growth and expansion once conditions in the country become more normal.

The principal accounts, with comparisons with previous year, are as follows:—

	1914	1915
Net profits	$1,886,142.67	$ 1,305,576.67
Dividends (actual) paid up capital	16.31	16.48
Total deposits	$136,651,208.22	$154,976,227.52
Total current loans	$99,387,034.26	$106,299,123.29
Liquid assets	$71,244,677.05	$84,894,462.43
Percentage of liquid assets to public liabilities	40.05	40.93
Current coin	$17,963,492.78	$ 19,946,289.68
Percentage of cash to public liabilities	10.09	9.43
Total call loans	$14,854,000.	$ 18,951,000.00
Total current loans	$99,387,034.26	$106,551,000.00
Bank premises at not more than cost less amounts written off	$ 1,000,000.00	$ 1,000,000.00

KITCHENER AS A SPY.

Learned All He Wanted to Know From Two Dervishes.

Although Lord Kitchener's thoroughness is proverbial, it has seldom been better exemplified than on one occasion during his expedition to Khartum.

One evening as the British forces were nearing Khartum a dervish spy was discovered in camp and promptly taken to headquarters. But no threats or bribes would induce the spy to speak. He pretended to be both deaf and dumb. Scarcely was his examination over when another spy was led in, and proved to be equally stubborn. They were bound and led away, and placed in a well-guarded tent. About half an hour afterward there was a fresh stir and hubbub, and a third spy was dragged in, who also would reveal nothing, so he, too, was placed with the others.

Soon the soldiers on guard outside were much surprised to hear the "dumb" spies talking eagerly together in an undertone. It was impossible to hear what they said, but they jabbered away for on hour or more. At last the third spy appeared at the entrance to the tent and asked to be taken to headquarters, as he had something to report. His request was granted, but the soldiers who led him there were never permitted to know that he was Lord Kitchener himself, whose knowledge of the native language and powers of disguise had enabled him to play the spy and learn all that he wanted to know from the two stubborn dervishes.

No matter how rea . . n's hair may be he hates to lose it.

How He Left His Money.

A workman, having had a sum of money left him on the death of his father, went to see his solicitor, who had the matter in hand, for a final settlement. The bill of costs having been presented to him the man glanced over the figures, and thinking the charges were excessively heavy, turned to his legal adviser and exclaimed, in astonishment—"Oi thought my father left his money to me—not to you! Let's have a look at the will."

Minard's Liniment Cures Distemper.

One-Man Jury.

A tailor who was defendant in a case tried in court seemed much cast down when brought up for trial. "What's the trouble?" whispered his counsel, observing his client's distress as he surveyed the jurymen. "It looks pretty bad for me," said the defendant, "unless some steps are taken to dismiss that jury and get in a new lot. There ain't a man amongst 'em but what owes me money for clothes."

MURINE
Murine is prepared by our Physicians, as used for many years in their private practice, now dedicated to the Public. Safe and Reliable. Sold by Your Druggist. Try Murine for Red, Weak, Sore Eyes
Murine Cleanses, and Strengthens Eyes after exposure to Cold Cutting Winds and Dust and to restore healthful tone to Eyes Hardened and made Sore by Overwork and Eye Strain.
Some broad-minded Physicians use and recommend Murine while others perhaps jealous of its success, talk and rush into print in opposition; those whose Eyes need care can guess why, as there is no Prescription fee in Murine. Just heed your Druggist & and you have a Complete Phy. Eye Book—Murine—Dropper—and Eye Remedy—ready for use. Try it in your Eyes and in Baby's Eyes for Eye Troubles—Redness—Itching—Just Eye Comfort. Write for Book of the Eye Free.
Murine Eye Remedy Company, Chicago

Vulnerable.

A visiting minister preaching in a small town, near which a well-known race meeting is held, forcibly denounced the "sport of kings." The principal patron of the church always attended the home meetings, and of this the stranger was afterward informed.

"I'm afraid I touched one of your weaknesses," said the preacher, not wishing to offend the wealthy one; "but it was quite unintentional, I assure you."

"Oh, don't mention it," cheerfully retorted the backslider; "it's a mighty poor sermon that don't hit me somewhere."

Minard's Liniment Cures Garget in Cows

KITCHENER'S GREAT TASK.

More Expected of Him Than Any Man Could Accomplish.

Lord Kitchener, under the special difficulties and uncertainties of the voluntary system, has had to grapple with the most gigantic problem of recruiting and training that any soldier in the world's history ever had to face, says the London Observer. There never has been anything like the magnitude of that work, and it had to be accomplished by improvised machinery. Even after the reconstruction of last May, Lord Kitchener was still expected to combine the functions of a maker of armies with that of a director of campaigns. These two totally different functions cannot be successfully combined.

Philip of Macedon created the national military organization with which his son Alexander the Great swept from the Balkans to India. That is an example of the way in which the making of armies may absorb one famous mind and the use of armies another. If the hereditary genius of a single family, the House of Barcas, shook Rome to its foundations, it was because Hamilcar framed the Spanish infantry with which Hannibal crossed the Alps. Louvois, in more modern times, was an organizer of the armies that Turenne and Conde led to triumph. Frederick William, like another Philip, created the Prussian military machine which Frederick the Great wielded like another Alexander. Carnot organized the French armies which Napoleon led. We come down to a still more recent instance when we remember that von Roon's functions as an army maker were almost as distinct from Moltke's as was the latter's position from Bismarck's.

We need not multiply examples. We have said enough to show that our troubles have been largely due to our obstinacy in looking to Lord Kitchener for the direction of two different and even conflicting kinds of work, either of them big enough to absorb the greatest mind or set of minds. The provision of the requisite armies was, and is, the main affair. Scientific strategy is useless unless it wields efficiency and sufficiency of force. Even with the splendid way in which Lord Derby is helping Lord Kitchener to make a success of the voluntary.

He Asked the Reason.

A clerk was discharged. He asked the reason. "You are an awfully slow about everything," said his employer. "You do me an injustice," responded the clerk. "There is one thing I am not slow about." "I should be delighted to hear you name it," sneered the proprietor. "Well," said the clerk slowly, "nobody can get tired as quick as I can."

The Paisley Advocate

PAISLEY, JAN. 5th, 1916

MUNICIPAL ELECTIONS

GREENOCK TP.

Mr Denis Phelan is it again, defeating Mr Sam Hawthorne for the reeveship by quite a safe majority. The councillors are Jas W Campbell, Henry Kroepfle, Thos Sawyer and Thos Symon.

BRANT

Reeve, R S Nesbitt; Deputy-Reeve, A Weir; Councillors, W Johnston, W A Rowand and M Monto.

SAUGEEN

Reeve, G Christie; Councillors, W Atkinson, M Chappel, W Greathead, J H Webster.

The vote: For Reeve—Christie 140, Jamieson 134, Smith 37. For Councillors—Webster 334, Chappel 286, Greathead 214, Atkinson 188, Brunton 179.

Bruce Tp Nominations

(Intended for last week)

Bruce Tp ratepayers met in the township hall on Monday, Dec 27th, to hear the retiring council air their views and give an account of their stewardship during the past year. After the appointed time for the nominations was closed the clerk intimated that the meeting was then in the hands of the electors. The clerk, Mr J G MacKay, was promptly elected chairman which office he filled to the entire satisfaction of everybody.

Reeve Johnson was first asked to take the platform. In his opening remarks the reeve stated that the taxes collected for the year were $32,232. He explained that the county rate was higher this year on account of debentures on bridges, and would be higher for some years to come. The tp this year paid to the county $6,720 for the general county rate. The municipal equivalent called for $148.04, while the war tax called for $2016 —in all it amounted to $8883.04 By giving $500 from the tp treasury he explained that it took a little from everybody whereas if it had been by subscription there would just be a certain class who would contribute while the rest would enjoy the freedom and protection of Britain's flag and cost them nothing. The county council voted one per cent to the Red Cross, but later at a special meeting decided to give $1,000 a month (less the one per cent) as long as the war lasted. No large bridges were built last year, but a lot of smaller ones The up-keep of roads and bridges last year amounted to $5,952. Willow Creek breakwater on the 10th concession cost $342 and was contracted for and completed by Mr C S Woods. It is a substantial job, and a credit to Bruce's pioneer cement man. The new vault, which was built in the tp hall cost $200, and the reeve maintained it was money well spent, as there had been considerable trouble keeping books and papers intact. That was worth a good deal of money to the tp. The Willow Creek bridge on the 8th con cost $1100, $200 of this being extras, and was built by contractor McKinnon, who also was given good praise for the manner in which he had done his work. The reeve explained how Albemarle's assessment had been lowered on account of the county having evidence at the court, while the tp was looked after in that regard to the fullest extent. The blame seemed to rest on the warden for not having a defence. The business and income tax was also taken up. The business men of the county had opposed it and it was taken before Judge Klein who said they should pay it for county purposes. The case was carried on appeal to Toronto where it was thrown out, but will be taken up again with renewed vigor during 1916. The law costs for the tp this year were heavy — $14.35. The board of health cost $67, while the bill for charity amounted to $13. All told $1246 was expended for school purposes. $198 was granted for wire fence bonus, which is money well spent. Last but not least, it cost the tp $1008.40 in hard cash to pay the officials who have been looking after the interests of the tp during 1915.

Mr Peter Dobson, deputy-reeve, also gave an instructive address on his work of the past year. The rest of the council board also explained their part of the work very satisfactorily.

The electors were favored with a few well-chosen words from ex-warden Mewhinney and ex-reeve A McLean who handed out a good deal of instruction as to the manner of dealing with the weed nuisance. Mr C S Woods declined the nomination of deputy-reeve, and at the same time gave us one of his stirring addresses which never fails to put everybody in the best of humor. Messrs Wm Gilchrist, S Haney, McLean Young and D McGillivray all responded to the call of the clerk but decided not to contest the election for councillor, for which office they were nominated. Before the crowd dispersed they sang in a good lusty, patriotic manner "God save the King."

Recruiting in Bruce

The following letter, crowded out of our last issue, explains itself and shows the method to be adopted in raising a Bruce Battalion:

A public meeting was held at the town hall, Walkerton, on Tuesday, Dec 21st, of citizens to take steps to assist in recruiting for the new Bruce Battalion (the 164th) which is to be formed in this county.

After hearing a number of speakers, including Mr J M Godfrey of Toronto, Mr J R Shaw of Woodstock, and Mr W B Middleton, M P, of Owen Sound, a resolution was passed recognizing the urgent necessity of the quickly of more men to furnish Canada's quota to assist Great Britain in the present struggle, and a large committee was formed with representatives from each municipality of which you are one. We enclose you a list showing the members of the committee and particularly call your attention to the list for your municipality.

You are urgently requested to at once get in touch with the other representatives in your municipality and arrange for a meeting for the purpose of and for recruiting. This should be done as thoroughly as if it were a political contest with the advantage that new men of both parties are working together.

We hope to be able to get some returned soldiers and others to address the ratepayers and others, and if your committee think a meeting should be held we will try to send you men, but a personal canvass is what does the work. We suggest that you get a voters' list and from it and other sources make up a list of all unmarried men between the ages of eighteen and forty-five in your municipality and that the committee and others divide up and canvass the men.

What is wanted is continuous persistent effort and enthusiasm and we believe if all parties take hold of this matter with energy we will get together a regiment that our sons and daughters will ever be proud to remember. If you require assistance write either to the vice-president of your district or to us.

A B KLEIN, President. GEO D MacKAY, Secretary.

THE BRUCE COUNTY WAR AUXILIARY EXECUTIVE COMMITTEE

President—His Honor Judge A B Klein, Walkerton.

Vice-President—Mr David Robertson, K C, Walkerton.

Vice-Presidents—Messrs G Kastner, Wiarton; C J Mickle, Chesley; John Hall, Lucknow; C M Bowman, M P P, Southampton; C R Slaat, Tara; Hugh Clarke, M P P, Kincardine.

Sec'y—Geo D McKay, Walkerton.

Treas—Norman Robertson, Walkerton.

REPRESENTATIVES FROM THIS SECTION OF THE COUNTY

Arran—Reeve J W Sinclair, Tara; Wm Grant, Arkwright; Thos Jacques, Dobbinton; Arch Eagles, Dunblane; Geo Crawford, Allenford; Wm McIntosh, Burgoyne.

Creator Again Mocked

Kaiser Thanks God For His Murderous Heart—Success Near, He Says

The Amsterdam correspondent says that Emperor William has sent the following New Year's address to the army, the navy and the colonial troops: "Comrades—Another year of severe fighting has elapsed. Wherever I have sent you into battle you have gained a glorious victory. What you have begun we shall accomplish with God's gracious help. In impotent madness enemies from the west and east, from the north and south still seek to deprive us of all that long life worth living. They long and buried the hope to conquer us in honest fighting. Their plans will not succeed. With a will to discharge the duty to the fatherland to the last breath and determination to secure victory, we enter the New Year with God for the protection of the fatherland and for Germany's greatness."

Greek King Very Ill

Constantine May Have to Abandon Throne—German Doctors Summoned

The condition of King Constantine of Greece has rapidly become so grave that it is believed that Prince George the King's eldest son and heir to the throne, will soon be made regent. Prince George is 25 years old. This news is contained in a despatch from Athens, which adds that Queen Sophia who is the Kaiser's sister, is seriously alarmed and has summoned the most noted German specialists to Athens. It is recalled that during King Constatine's recent illness, when he was in a grave condition, no such measure as the appointment of a regent was considered necessary. In addition to Professor Krauss, the German specialist, who is on his way to Athens from Berlin, several surgeons have been summoned from Vienna.

Times' Fund $15,000,000

After fifteen months of collecting THE Times' Red Cross Fund reached the stupendous total of $15,000,000. This is by far the largest fund ever gathered by a single newspaper.

"FRUIT-A-TIVES"
THE MARVELLOUS
FRUIT MEDICINE

Has Relieved More Cases of Stomach, Liver, Blood, Kidney and Skin Trouble Than Any Other Medicine

THOUSANDS OWE THEIR GOOD HEALTH TO IT

Made From The Juices of Apples, Oranges, Figs and Prunes Combined With Tonics and Antiseptics.

"Fruit-a-tives" means health. In years to come, people will look back to the discovery of 'Fruit-a-tives' and wonder how they ever managed to get along without these wonderful tablets, *made from fruit juices*.

"FRUIT-A-TIVES" is excellent for Indigestion, Dyspepsia and Sour Stomach. 'Fruit-a-tives' is the only certain remedy that will correct *chronic Constipation and Liver trouble*.

'Fruit-a-tives' is the greatest Kidney Remedy in the world and many people have testified to its value in *severe cases of Rheumatism, Sciatica, Lumbago, Pain in the Back, Impure Blood, Headache, Neuralgia, Pimples, Blotches and other Skin Troubles*.

Farmers' and Women's Institute Meetings

Mr A B G Smith, of New Hamburg, will address meetings of the Centre Bruce Farmers' Institute in the Township Hall at Gillies Hill on Tuesday afternoon, Jan 11th, and in Town Hall, Paisley, on Wednesday, afternoon, Jan 12th. Both meetings will commence at 2 o'clock. Mr Smith is one of the leading farmers in Waterloo Co., one of the best agricultural sections of the province, and is a member of the County Board of Agriculture. He has taken part in club work, improvement of schools and other activities for the betterment of the farmers' condition. His subjects are: "Field Crops and Rotation," "Beef Cattle and Milking Shorthorns," "The Dairy Industry," "Seed Control and Inspection Work," "The Work of Farmers' Clubs." At Paisley meeting of the Women's Institute will be held on Wednesday afternoon at 2 o'clock, to be addressed by Mrs R L Moorehouse. The lady is a graduate optician, who has been an efficient worker in local organizations and has several years' experience as a lecturer for the Department. She speaks on the subjects "The Care of the Eyesight," "A Mother's Influence," "What the Other Institute is doing," "Our Flag and What it Stands for," "Womanly Footsteps," "Keep on the Sunny Side," "For Home and Country," "Hold to Trust." Men and women will be welcome to these meetings whether they are members of the Institute or not. Come out and hear these speakers.

Mrs H Aitchison of Elora, also Mr and W T Halls and son of Alma, at Mr A Jack's.

The Misses Dinsmore, of Fordwich, at Mr T W Dinsmore's, 10th Elderslie.

Miss Edna Burns, of Lockerby, home from Stratford Normal.

The John Scofield, of Owen Sound, at F Carter's.

Miss Rose Breez, teacher, from Lakefield.

Mrs Fred Brown, of Owen Sound, visiting her parents, Mr and Mrs Jas Manwell.

Death of Jos. Mewhinney

After having suffered for some time from kidney trouble and affection of the heart, one of the most prominent and respected pioneer farmers of Bruce Tp passed peacefully away on Dec 27th, in the person of Mr Joseph Mewhinney. The deceased was born in County Derry, Ireland, in 1831, crossed the Atlantic to this new part of the world when he was 16 years of age, and lived in New York state for about 11 years. He came to Bruce Tp in 1855, and took up the early settlers' burden of hard work and its accompaniment of all kinds of difficulties. During the remaining 57 years of his life he continued to reside on his homestead, made a market a success of his agricultural operations, and became one of the foremost stock raisers of the township, devoting himself specially to the breeding of fine cattle. Although a leader in this respect among his fellow farmers, Mr. Mewhinney had no aspirations for public life, and never took a municipal position of any kind. He married Jean Patterson, who died 24 years ago. Their large family consisted of seven sons and three daughters, eight of whom are living, viz: Robert, of the 6th of Bruce; James, of Taber, Alta; George, of Hibbing, Minn; Thomas, of Mashwank, Minn; and Alex P, (ex-warden of Bruce Co) on the homestead; Mrs J M Webb and Eleanor, of Guelph; Margaret, a trained nurse, now at home. Two sons, John and Joseph, are dead. Two brothers of deceased survive, Robert of Paisley, and Frank, of Topeka, Kansas. Mr Mewhinney was a Presbyterian in religion, and in politics a Liberal. The funeral on Wednesday was very largely attended, Rev A McNab conducting the services. Interment was made in the Lovat cemetery.

Parson's Unit Suggested

Gen Sir Sam Hughes returned to Ottawa from his home in Lindsay, where he spent New Year's Day. He goes to Toronto Tuesday night, returning on Wednesday. The Minister is bothered with applications from clergymen of all denominations who are eager to go to the front as chaplains of the new battalions which are being raised or which are to be organized this winter. Sir Sam suggested that these applicants might get together and organize into a fighting unit.

Home Secretary Resigns

The London Chronicle announces definitely that Sir John A. Simon, Secretary of State for Home Affairs, retires from the Cabinet, "thus breaking his brilliant Ministerial career for conscience sake."

The Mayor of London, Ont., was elected by 14 votes.

King Peter of Serbia has reached Salonika.

BRITISH SHIP PERSIA SUNK WITHOUT WARNING

The British Admiralty announces that the Peninsular & Oriental Line steamship Persia, of 7,974 tons, which left London for Bombay on December 15, was torpedoed and sunk without warning by an enemy submarine on Thursday last, off the island of Crete. The vessel carried about 300 in her crew and 135 passengers, including eighty six women, thirty children and three Americans, including Mr. Robert McNeely, United States Consul at Aden.

Lusitania Recalled

As only four small boats escaped, it is feared this culmination of the slaughter of the innocents in 1915 by Teutonic submarines is only eclipsed in horror by the sinking of the Lusitania on May 7, when the sea murderers sent 1,198 persons, including a hundred Americans, to a watery grave. The Persia's death list will reach a little over 300. A despatch to The London Times from Cairo says that two boat loads of people were seen down with the steamer Persia when she sank, as there was no time to cut the ropes. Four boats got away, but it was thirty hours before a trawler picked them up. Several ships passed by without assisting the refugees, being afraid presumably, of decoys. Many passengers were thrown into the water when the vessel heeled over.

Washington Anxious

Anxiety over the news of the sinking of the British steamship Persia increased in Washington when a consular despatch brought the information that the ship had been torpedoed without warning, and that at least one American citizen was missing. At the same time officials were much gratified at the indications, emanating from Baron Erich Zweidinek, charge of the Austro-Hungarian embassy here, that the Vienna Government would be quick to "satisfactorily adjust" the manner should it develop that an Austrian submarine commander had disobeyed instructions in regard to torpedoing passenger-carrying ships without warning.

SCHOOL REPORTS

Continuation School Report

Fall Term, 1915

Below is given the standing obtained by the pupils in their respective classes for the term just closed. As examinations have been held in every subject the report shows fairly accurately the progress being made by any individual pupil. Those pupils whose names appear under classes A or B have made honor or pass standing on their work. Those pupils under the other classes have failed in some feature of their work as indicated by the schedule of classification. Those pupils who have not obtained pass standing in the fall term must strengthen up on their weak subjects in the ensuing term before they can qualify for the different departmental examinations next term. No bonus was allowed in Form 2I or Form 1II as sufficient work had not been covered in the various subjects to warrant this.

Basis of classification: Class A—Honors—40 per cent on each subject and 75 on total; class B—40 on each subject and 60 on total; class C—60 on total but below 40 on one subject; class D—40 on each subject but below 60 on total; class E—failures on two or more subjects or on total, etc.

Form III—Pupils preparing for Entrance to Normal. Standing given without bonus in Latin. Class A—E McLennan 85, V Ross 84, N Johnston 81, Mary Grant 79, A Kirkstown 76, M Warren 75, B Laidlaw 75. Class B—M McKay 74, W Diehl 72, J McLean 72, R Cumming 72, H Collins 70, H Thompson 67, J Brown 67, A McDougall 67, I Allen 61. Class C—L Grant 64. Class D—R McBride 59. Class E—B Rudolph 59, C Winch 53.

Form II—Standing on all subjects. Class A—Gertrude Brown 89, I McKay 81, I McArton 80, G McCallum 80, L Cargill 76, M Bell 75, E McLeod 75. Class B—G Bell 74, J Young 73, W Tanner 72, I Crawford 67, E Stark 67. Class C—E Roberts 70, J Brown 63, L Stewart 60. Class E—A McInnis 61, L McKinnon 51.

Standing on subjects for the department exam in June, 1916—Class A—Gertrude Brown 90, I McArton 82, I McKay 81, G McCallum 79, M Bell 76, L Cargill 76, J Young 76, E McLeod 75. Class B—M Bell 74, I Crawford 71, W Tanner 69, E Stark 65, L Stewart 63. Class C—E Roberts 66, J Brown 65. Class E—A McInnis 57, L McKinnon 51.

Form I—Class A—V Winch 84, W Megraw 79, J Cameron 78, M McLeod 77, B Kuthven 76, K McGillivray 76. Class B—A Shoemaker 72, W Tanner 72, I Winch 70, W Barnett 69, B Butchart 68, D Cottrill 64, D McGregor 64, M Jones 63. Class E—M McKinnon 61, D Lamont 60, A Pearce 57.

—"Advertising is the education of the public as to what you are, where you are, and what you have to offer in the way of skill, talent and commodity. The only man who should not advertise is the man who has nothing to offer the world in the way of commodity or service." — Elbert Hubbard.

I Am "Granny" Chamberlain

"Granny" Chamberlain

Everybody's friend when they have coughs and colds and their children have croup and whooping cough.

Most everyone knows me. I have been going from home to home for nearly fifty years—always welcome, too, for I never fail in their hour of need.

I have helped young mothers whose babies were choking with croup, and been the comfort of parents whose children tramp to school through the wet winter weather. Many a cold and attack of bronchitis I have warded off, and thousands I have helped through the anxious moments of whooping cough. I have come to the aid of mothers and fathers when they had colds and influenza, and have been a relief to old folks suffering from bronchitis and asthma.

I have had a most varied experience; I go everywhere—among the rich and the poor, in cities and the country.

Now don't forget "Granny" Chamberlain! You will see me often now, for I am going to tell you of my experience and what can be done in your home with

Chamberlain's Cough Remedy

Yours for Health — Granny Chamberlain

Special Price Sale of Wall Papers

Commencing Monday, Jan. 10

We have a splendid assortment of Papers of all designs for Parlor, Dining-Room, Hall, Bedroom or Kitchen decoration, which we will sell

AT COST, WHILE THEY LAST

Come and see them at our Show-Rooms—first door south of Davison's Hardware

T. H. GLOVER
Painter and Decorator

BORN

LAMONT—In Sangeen, on Jan. 4th, to Mr. and Mrs. Alex J. Lamont, a son.

IRVING—At Paisley, on Dec. 29th, to Mr. and Mrs. Thos. Irving, a daughter.

MCLEAN—At Paisley, on Dec. 30th, to Mr. and Mrs. Oscar McLean, a daughter.

GOTTSCHALK—In Bruce Tp., on Jan. 4th, to Mr. and Mrs. Robt. Gottschalk, a daughter.

MARRIED

KNAPP—BLUHM—At the residence of the bride's parents, on Dec. 29th, by Rev. G. C. Little, B.A., John M. Knapp, of Sullivan Tp., to Eleanor, daughter of Mr. and Mrs. Wm. Bluhm, Brant.

MCLAREN—MAWHINNEY—At Paisley, on Dec. 29th, by Rev. R. A. Facey, B.D., Mr. James McLaren, of Rockhaven, Sask., to Miss Ella, daughter of Mr and Mrs. Robt. Mawhinney, Paisley.

DIED

FLEMING—At Paisley, on Jan. 2nd, Lela Joy Rowe, infant daughter of Mr. and Mrs. Jas. B. Fleming, aged 14 days.

PUTNAM'S
GREAT ANNUAL SALE
COMMENCED
WEDNESDAY
JAN. 5th

Butter and Eggs taken as Cash.

PUTNAM & SON, Paisley

The Housewife's Corner

Recipes for Simple Dishes.

Baked Finnan Haddie.—Wash haddie, put flesh side down in dripping pan, cover with cold water and let stand on back of range for ten minutes. Drain and rinse with cold water. Place on platter, cover with milk and bake twenty minutes.

Cream Raisin Pie.—Make custard of yolks of two eggs, one-half cup sugar, one level tablespoon flour, lump of butter and one large cup sweet milk. Mix in order given and cook in double boiler. When done add one cup raisins. Fill baked crust and cover with beaten whites of eggs. Return to oven to brown.

Porcupine Apples (Baked).—Pare and core without breaking six large apples. Cook in sweet syrup, boil down syrup and roll apples in it. Place apples on oblong dish. Fill middle of every apple with finely chopped nuts and on top of each place teaspoon of red jelly. Into apples stick blanched almonds or pine nuts. Make and place on ice the morning or the day before using.

Foamy Sauce For Plain Pudding.—Beat one tablespoonful of butter with one cupful of powdered sugar. Add two beaten yolks and little by little a small amount of light wine or vanilla and if you use the vanilla flavor season with a small amount of grated nutmeg. Set the bowl into the top of the teakettle of boiling water and beat for a minute or two. Serve at once.

Vegetable Dressing.—Six large carrots, three onions, one egg, five crackers, one-fourth cup butter or dripping, one teaspoon salt, one-half teaspoon poultry seasoning. Chop carrots and onions very fine. Break crackers in mixing bowl and add as much boiling water as they will absorb. Add remaining ingredients, mix thoroughly and pack around meat roast. Dressing should cook at least one and one-half hours and may be added either before or after meat has browned.

Mock Oyster Soup.—One Spanish onion, one cup diced celery, two cups diced potatoes, one tablespoon butter, salt and pepper to taste and milk as needed. Use outer stalks of celery, reserving hearts for table use. Skin and slice onion, then place three first ingredients in saucepan and cover well with water. Cook until very tender and rub through sieve or fruit press. Add butter and as much milk as will make soup of creamy consistency. Season to taste, then bring to boiling point.

Cauliflower Cream. — Wash the cauliflower carefully. Allow it to stand in slightly salted water for an hour. Drain and boil up enough of the water to keep the cauliflower from burning. When boiling put in cauliflower and cook until tender. The best way, however, is to steam the cauliflower and thus retain the salts. When cooked pass it through a potato ricer and cover with the following sauce: Mix six tablespoonfuls butter into a cupful and a half of hot milk. Add the juice of half a small onion, a Chili pepper and an egg.

Oyster Soup.—Put a quart of milk into a double boiler. When it is scalding hot add a pint of milk in which three tablespoonfuls of cornstarch have been blended. Add a piece of butter the size of an egg, a half teaspoonful of pepper. Stir slowly while adding this to the milk in the double boiler and continue stirring until it is as thick as boiled custard. Drain a quart of oysters and add them to the mixture. Let them cook until they begin to shrivel a little and then serve hot.

Secret of a Light Cake.

Angel cake is a great favorite with most people, and to make it well stamps one as a graduate in cake baking, because the requirements are so deceivingly simple. The following recipes include a Southern recipe for both angel cake and angel's food, which are not quite the same, contrary to the general opinion. The secret in light angel cake, like the secret of any light cake, is in following four directions literally, and in having your flour well sifted. One sifting is by no means enough, the flour must be sifted through the sieve at least four times.

Required for the Angel Cake—1½ cups granulated sugar, 1 cup of sifted flour, the whites of 11 eggs, a teaspoonful of cream tartar, a teaspoonful of vanilla, and ¼ teaspoonful of salt. Sift the flour four times, then put in the cream of tartar, mix well, and sift a fifth time. Sift the sugar four times. Have the whites of the eggs beaten to a very stiff froth, so stiff that it may be cut with a knife clearly. Then add the flour by degrees, beating all the time. Lastly add the flavoring extract. Do not butter the pan for this cake, but turn the mixture quickly into an angel cake pan, and bake for ¾ of an hour, in a moderate oven. Test with a broom wisp. When done, turn the cake upside down, resting on the tube of the pan, and let it cool. The cake will fall out of the pan.

Angel's Food is something like the cake, but is a little harder to make. The requirements are, 1½ cups of sifted white powdered sugar, a cup of sifted flour, the whites of 11 eggs, a teaspoonful each of baking powder and of vanilla, and a quarter teaspoon of salt. Put the baking powder and the salt (or use cream tartar instead of baking powder) into the flour, and sift it seven times. If you use cream of tartar, add it with the last sifting. Sift the sugar 7 times. Beat the whites of the eggs to a very stiff froth, and add the sugar gradually, mixing very carefully. Then add the flour gradually, beating all the while. Lastly add the flavoring extract. Pour the mixture into an angel cake pan and bake for 45 minutes in a moderate oven. Test with a broom wisp, and handle as above.

Hints for the Home.

Put fruit jars away clean and dry.

A clean heater means a warm house.

One way to save work is to keep things in order as you go.

Sponges are great germ collectors and should be scalded frequently.

Begin at the root of an onion, peeling it upward. The juice will not fly in your eyes.

Always beat the butter and milk for the mashed potatoes. They will be much lighter.

The filling in roast fowl will be better and richer if you moisten it with a little white stock.

Never hang a silk garment out to dry. Roll it up in a clean white cloth for about an hour, and iron whilst damp.

When making plain raisin pudding use a grated carrot instead of an egg. It is just as good, and effects a considerable economy.

To find the right side of huckaback towelling, feel it with finger, and [illegible] the roughest will be found to be the right.

The only way to insure a return of the small person's handkerchiefs when he scatters them over schoolrooms, friends' houses, streets, stores, etc., is to write out his whole name plainly. Sometimes the writing looks blurry and blotted. Try this: "First make your letters with an ordinary lead pencil and then trace with ink over the pencil marks." The pencil will prevent the ink from spreading and giving the linen a blotted appearance."

TO WELCOME AN ALLY.

How English Cavalrymen Were Received in France.

In the early days of the war, when English troops were first landing in France, they were often greeted by their allies in the French fashion—with eager kisses and embraces. An American who witnessed the debarkation of a troop of tall English cavalrymen laughed to tearfulness—so he reported afterwards—at the spectacle of small and excited Frenchmen excitedly waving little English flags and reaching up, or actually jumping up, to peck the abashed Britons first on one cheek and then on the other. The victims of the affectionate onslaught endured it patiently, although unhappily; occasionally a resolute sufferer would even rise to the point of reciprocally patting a French back. But no kisses were returned, even when bestowed with laughing audacity by pretty girls, dashing out of the crowd for the purpose, and hastily running back. The only difference was that the man-kissed dragoons looked dazed and miserable, the girl-kissed ones, dazed but complacent.

"The funniest sight I ever saw!" the American pronounced it. "And one that could only have happened in France."

LISTENING FOR BULLETS.

Physicians Can Now Discover Them By Sound.

X rays have enabled doctors to accomplish miracles in the way of finding foreign substances in the human body and of treating internal wounds, and now there has come an invention that actually enables physicians to discover embedded bullets by sound. It is described in London Tit-Bits:

The apparatus consists of a special telephone, with double receivers. One end of the telephone wire is attached to a small piece of platinum, which is placed on the patient's skin near the wound, and held in position by plaster or by a bandage. The other end of the telephone wire is in the form of a disinfected thread of silver, which is used because it can be readily attached to any of the surgeon's instruments—a knife, a probe, a needle, or a pair of forceps. The only precaution necessary is that the terminating wire should be very firmly attached to the instrument.

When the surgeon puts the telephone receiver to his ear and begins to use his instrument on the tissues, he will hear with great distinctness a grating sound that is known as a microphonic rattle the instant the instrument touches any metal embedded in the patient's tissues.

The value of this apparatus to surgeons on the battle-field is naturally very great.

There is only one good point about big troubles—they eat up little ones.

THE STORY OF BARBED WIRE.

Invention of a Boy Named Latta, Aged Ten Years.

Barbed wire, says the Manchester Guardian, the origin of which Sir Ian Hamilton recently attributed with unhistorical picturesqueness to the devil, was actually the invention of an ingenious lad named Latta. Fifty-four years ago, the boy, then aged ten years, saw on a farm at some distance from his home in New York State a novel kind of fence, with a boarding at the top and another at the base, two strands of thin wire strung between. On his asking the reason for that peculiar arrangement, he was told that it permitted the free passage of the wind and prevented snowdrifts in wintertime.

On the boy's suggestion, his father adopted that sort of fencing on his own farm. Then a neighbor allowed his hogs to roam on the highway, and they found Mr. Latta's pasturage attractive. The thought then occurred to young Latta that small barbs inserted in the wire strands at distances of six inches might discourage them. The hogs did not mind the scratches much, but the owner of them objected, and kept them at home.

The first patent taken out for barbed wire was registered in the harmless name of Smith, in 1867.

SEA PRIZES.

Vessels Seized Become the Property of the Crown.

What becomes of vessels which are seized during war time? Theoretically, they belong to the nation capturing them, and they are either retained by that nation or sold, and the profits derived therefrom divided among the officers and crews of the ships responsible for their seizure.

In Great Britain, vessels that are seized become the property of the Crown, and it is the custom for the men on board the merchantman that captures them to be given a sum equal to $25 for each person on board the "prizemen."

[illegible] British sailors fared better when ships were captured. Between the years 1740-7 Admiral Anson seized two vessels, one having on board $2,000,000, and the other $1,500,000. The whole of the money was divided among Anson's crew.

It is interesting to know that the private individual is a lawful object of attack at sea if that individual is helping, in some way or other, the nations that are at war. The Great Powers have acknowledged that any trading ship smuggling coal, or rations, or ammunition can be seized, or sunk if she refuses to surrender. In a neutral country's water private ships cannot be interfered with, but on the high seas, off the coasts, and in the harbors of the enemy, they can be seized.

NERVES FROM NEWS.

Everyone Should Keep as Normal as Possible.

There are many folks, especially women, who allow themselves to lapse into a state of nervous depression owing to the tumultuous things through which we are passing.

Now would seek to underestimate the seriousness of the great issues that are being decided, but everyone owes it to the community to keep as normal as possible.

On the face of it, it appears callous, but if we go about our work and our play in the ordinary way each will be doing his or her little bit towards keeping the calmness and normality so desirable.

Above all, work. Although not always appreciated, work is the greatest boon given to mankind, especially in a period of the type through which we are passing. Every woman can do her part towards her country; and never were willing women's hands more needed than at the present moment. Inside the home her needle can bring comfort to our fighting men, and both inside and outside her aid is needed for those who have fought and for those who will fight.

EVER VICTORIOUS GENERALS.

British Commanders Who Have Never Been Defeated.

The number of generals who have met with uninterrupted success is small, for some of the most renowned have suffered defeat at one time or another. It has usually been the custom to look down on British military genius, because Britain has been engaged in no first-class war for many years; but the chief critics, the Germans, would probably have fared far worse if they had been engaged in South Africa, for instance.

Marlborough was one of the generals who never knew defeat. He was perhaps Britain's greatest military commander, and though he fought the most experienced generals in Europe he beat them all.

Wellington, of course, is another leader whose military genius was supreme. Lord Roberts thinks that Britain has never given him his due as a general, and certainly he met with remarkable success considering that everything was against him in the Peninsula, yet he defeated every one of Napoleon's most brilliant generals.

Moltke never lost a battle, and the same may be said of Wolseley, while Lord Roberts never met with what may be called defeat.

"TRUTH ABOUT GREAT BRITAIN"

A PROMINENT GERMAN'S CANDID CONFESSION.

Says His Country Has Hardly Inflicted a Scratch on Britain.

An active and prominent pan-Germanic politician, Privy Councillor Flamm, who is also recognized as an authority on naval matters, being among other things Professor of Marine Architecture at the Charlottenburg Technical College, has published a grave warning to his fellow-countrymen in Germany not to underrate Britain's efforts in this war nor the magnitude of the task of breaking the British Empire's power, says the London Standard's Switzerland correspondent. After pointing out how small the British losses have been in proportion to the population of Great Britain, Councillor Flamm continues:

Britain is the only country which has so far achieved through this war a great increase of territory. Since the outbreak of hostilities last year Britain has won territories in German South-West Africa, Cameroons, Togoland, the South Sea Islands, Egypt, and so forth, covering an area of something like 2,000,000 square kilometres, or more than five times the size of the German Empire. Britain has gained all this without being seriously injured herself. She has no alien armies sweeping over her land as we Germans had the Russians overrunning our provinces of East Prussia, or as the Austrians suffered the devastation of Galicia. The handful of bombs and shells dropped on Britain by isolated warships and air cruisers have been as nothing compared with the sufferings of all the other belligerents. No, we have hardly inflicted a scratch on Britain.

British Naval Supremacy.

There is very little increase in the cost of living in Britain, and so far as the working classes are concerned any rise in the price of food has been more than counterbalanced by higher wages and liberal war allowances. The working classes of Britain are actually more prosperous now than before the war. The moneyed classes of Britain may feel the pinch of higher taxes, but the general commercial prosperity of Britain seems likely to be augmented by the results of the war. It is absolutely incorrect to pretend, as many blind and foolish Anglophobes are doing, that Britain's naval supremacy has been destroyed. I have already demonstrated in another publication that the British Fleet is stronger to-day than before the war. British naval supremacy is so overwhelming that it has reached the superlative degree. British maritime superiority cannot become greater than it is at the present moment. It is only dangerous and mischievous when Germans have a false impression of these matters. It is a far better policy to see things as they are. Nothing could be more perilous to Germany than to underrate Britain's power and resources.

Practically Unassailable.

The fable spread in Germany that Britain's immunity from invasion has been destroyed is dangerously misleading. It is true that a few airships have flown over the island, but it requires much more than individual Zeppelins to abolish Britain's insularity. There may be some vulnerable points of the British Empire overseas, but Britain herself is practically unassailable. Do Germans realize that British imports and exports are going and coming with the same regularity as in times of peace? When in every week from 1,500 to 2,000 ships of appreciable tonnage enter and leave British ports it cannot be said that British trade has been injured or British maritime supremacy destroyed.

Equally misleading is the statement that British credit has been shattered all over the world. Let us abandon these infantile imaginings and face the hard facts of the formidable task of crushing Britain, "our supreme enemy."

WAR HITS LAUNDRYMEN.

$15,000,000 Drop in Yearly Receipts for Washing in Britain.

Fifteen million dollars worth less collars and shirts have been washed in the British Empire during the last year as compared with normal times; not because the British wear the same collars and shirts longer than in times of peace, but because the khaki has replaced those things with thousands of men who enlisted. This decrease of £3,000,000 in the laundry bill is only one illustration of how hard the war has hit the laundryman. His working expenses have gone up and recruiting and munitions work have depleted his general staff.

As a consequence the launderers have felt themselves justified in adding another 10 per cent. to the total of the weekly bill. The authority who gave the above estimate said the weekly average bill for laundry throughout Britain is about two shillings and that the advance made by the launderers covers in no way the extra cost caused them by the war.

LORD ALVERSTONE.
Former Chief Justice of England

WAR'S FAIRY GODMOTHERS.

Now Numbers in England Nearly Fifty Thousand.

The League of Fairy Godmothers which was started in England soon after the beginning of the war by the wife of Gen. R. F. Johnson now numbers nearly 50,000. The object of the organization is to establish a link between those at home and the gunners at the front.

Because the heavy siege and mountain batteries are recruited from the whole kingdom the gunners have no local societies to look after their interest at home. During the first months of the war, when the soldiers in other departments were receiving little tit-bits through the various societies at home, the gunners felt very much out in the cold, so much so that they become known as the "Homeless Hectors."

Being a fairy godmother to one of the Homeless Hectors is not very taxing. All that is required is the sending each week a copy of some weekly paper or magazine and at stated intervals a small parcel containing a shirt, a colored pocket handkerchief, tobacco and a pipe, or some such useful article, which will give the gunner the feeling that he has some one at home who thinks of him as an individual.

NAVAL TRADITION.

Mementoes of Some of Britain's Proudest Deeds.

At Caneton, a few miles from Southend, England, there stands a church dedicated to St. Nicholas, the patron saint of sailormen. It has seen the British Navy doing its work on many occasions, and even to-day it is not entirely separated from warfare, for many military officers have recently climbed its square tower in order to see how things were going on at the mouth of the Thames. It stands on the spot where Canute camped before the Battle of Ashington.

Just now when British sailors are maintaining their fine reputation so splendidly, it is well to remember the great memories which lie behind them. They carry with them always certain mementoes of some of Britain's proudest deeds.

The three rows of white tape round the edge of the bluejacket's collar commemorate the famous victories of Copenhagen, the Nile and Trafalgar.

And the knotted black silk scarf worn by every sailor is there as a sign of mourning for the death of Nelson. When it became known that Nelson had perished, these black scarfs were adopted by the men quite spontaneously, and have been worn ever since.

TRIANGULAR BANDAGE.

Japanese Taught Modern Armies Its Usefulness in War.

The triangular bandage first introduced by the Japanese during the Russo-Japanese war is now being widely used in the European war. It has been found that bandages of this type are suitable for binding up wounds in any part of the body, and that one can be carried by each soldier without inconvenience. The Germans improved it by printing on the bandage itself, in sterilized ink, various figures showing how it is to be applied. The British War Office then adopted the idea, and every British soldier now carries one of the printed bandages in a special pocket of his tunic. This bandage is often applied without assistance by the wounded soldier.

The Coming Eclipse.

THE SUNDAY SCHOOL

INTERNATIONAL LESSON, JANUARY 9.

Lesson II.—The coming of the Holy Spirit, Acts 2. 1-13. Golden Text: 1 Cor. 3-16.

Verse 1. Pentecost—The "fiftieth" day after Passover, in Lev. 23. 15ff. ordained to be a thanksgiving for harvest. Was being fulfilled (margin)—the same phrase in Luke 9. 51. That momentous first day of the week, which began at Sunset on Saturday, was now about half way through. In one place—Possibly in the "upper room"; probably in the temple, as has been plausibly argued.

2. House.—This was a recognized name for the temple, and there was no other place large enough to hold such a crowd as we hear of shortly.

3. Tongues parting asunder, or, margin, distributing themselves. Compare Paul's rather similar phrase in 1 Cor. 12. 11. The symbolism comes from a thunderstorm accompanied by a hurricane—one blinding lightning flash, and then a curling tongue of flame is seen for a moment on each head. It is the grandest of Old Testament visions repeated with a difference: "after the wind . . . a fire," but Jehovah was in both. But there is a closer connection with the New Testament Elijah, who proclaimed that his greater Successor would "Baptize with Holy Spirit and fire."

4. Began to speak with other tongues—The first impact of this ecstatic state produced a great uprush from the subconscious, very sensational in its spectacular effect, and fulfilling accordingly its primary purpose of arresting attention. Paul found the Corinthians exalting this wholly subordinate "charism" above the greater and more characteristic gifts of the Divine Spirit, and he puts it back into the place it occupies here; it is, as it were, the church bell that gathers the congregation and prepares them for higher things. It will be seen from Acts 14. 11ff. that the "gift of tongues" was not used in missionary preaching. Despite 1 Cor. 14. 18, Paul did not understand the Lycaonians, and he preached in Greek. The subject of these fragmentary utterances was always "magnifying God" (verse 11), brief ejaculations of praise.

5. Devout men from every nation under heaven—And therefore away from home in the Holy City for a period of worship.

6. Came together.—From other parts of the spacious temple court, if our assumption is correct.

9. The catalogue is a striking sign of the extensiveness of the Dispersion. Jewish faces, like Greek speech, were to be found in every country of the then known world. The order of the list, if not intentionally fortuitous, is not explained. Judaea seems out of place, and may even be miswritten for some other district: Ayodhya (Oudh) has been suggested.

10. Proselytes—In this book also called "God-fearing men"—foreigners embracing Judaism, allowed to frequent the outermost court of the temple, that "of the Gentiles."

13. Essentially the same criticism was passed on speakers with tongues at Corinth (1 Cor. 14. 23). New wine—Evidently strongly intoxicating.

THE HORSE IN BATTLE.

It Knows the Trumpet Call as Well as the Rider.

It was recently announced that the Dutch across the border thought the Germans had been routed by the riderless horses they saw galloping about in troops.

The return of riderless horses to camp is an almost certain sign of a rout that amounts almost to annihilation. A horse may lose its trooper, but, unless it is wounded, it will nearly always keep on with the rest.

If the battle is lost, and the army is driven from the field in confusion, the ownerless horses will return to camp or remain on the field, often galloping about in military formation, but avoiding the wounded.

An army horse knows the trumpet call as well as its rider, and when a squadron forms up to charge it will strain at the bit, anxious to be off; but it does not like waiting doing nothing, especially if exposed to fire.

Many attempts have been made to extend the Geneva Convention to animals; the proposal has received sympathy everywhere, but nothing definite has yet been done, though every soldier does his best for his steed so far as in him lies.

INDIA MAY GIVE WARSHIP.

Rajah of Ratlam Wants Princes to Make Britain Present.

The Rajah of Ratlam, who is now on active service in France, writes to the Times of India, says the Bombay correspondent of the London Times, suggesting that the princes and people of India, more particularly the latter, should present one dreadnought to the imperial navy in recognition of the protection afforded by the navy to India and its coast and commerce.

The Rajah asks whether India should be content that the little islands of Great Britain should find the money to spend for all.

BRITAIN'S NAVY KILLS TEUTON HOPE

SLOWLY BUT SURELY CHOKING GERMANY.

Kaiser Would Be Emperor of Europe but for Fleet, Declares F. T. Jane.

Fred T. Jane, the naval writer, contributes to the London Sunday Pictorial an article praising the work done by the British navy since the beginning of the war. While Mr. Jane does not believe that the Allies will ever march into Berlin, he is convinced that an "invisible invasion" is being carried out day by day by the British navy and that the effects are being felt more and more by Germany.

Extracts from Mr. Jane's article follow:

"Many years ago the Kaiser declaimed that Germany's future lay on the water. It does, and a very black future it is!

"Oh, land, the Kaiser has parried every blow. He has conquered Belgium, portions of Russia, and is now busy exterminating Serbia. No hostile army has done more than here and there check his victorious advance. Yet on the throat of the German Empire is an invisible hand, slowly throttling it to death—the hand of the British navy! But for the British navy the Kaiser would by now be Emperor of Europe, and possibly of most of the rest of the world.

"Years ago he saw the shadow across his path, the one possible obstacle to his dreams. That is why any public man in the past who declared that the British navy was 'too big' could draw practically unlimited German gold for the asking. Not directly, of course, for the Kaiser is no fool.

Germany's Chief Obstacle.

"An often as not, perhaps, the 'Little Navyite' apostle knew not why he prospered in business, and regarded it merely as a coincidence that he earned enough to enable him to expound his peculiar views. The fact remains that no 'Little Navyite' was ever hard up. It was the Kaiser's answer to the one danger that he foresaw.

"His answer failed because bodies like the Navy League flogged up public opinion and kept the British navy up to strength, and so insured the defeat of Germany before ever a shot was fired. With the first shot came the invisible invasion of Germany—an intangible pressure against which millions of German soldiers are of no avail. So invisible was the invasion that the Germans felt it before they understood; so silent and invisible also was it that we, too, as a nation found it difficult to see and understand. There have been no Trafalgars; there have been no sea fights, save a few small skirmishes. But these have been merely milestones on the road of the great invasion.

"One by one and without much delay, all German overseas possessions were captured. Germany attempted to distract attention with a commerce war.

"For a while the promised success—the British navy was busy destroying the 'earths,' before it bothered about chasing the vermin which issued therefrom. That accomplished, the rest was easy. And so Germany was isolated and the invisible invasion made complete. Exactly how complete we can as yet only dimly guess. But since all private copper ornaments and utensils have been requisitioned to make up for a deficit in that article, we may reckon that the pressure is extremely severe. Especially is this so when we remember that Germany is, in most ways, a self-supporting country.

"There are, however, certain things which Germany cannot produce at home—as for example cotton, copper, rubber, and, to a considerable extent, iron ore. For all these things she has an urgent need. She requires them for her war material, and, deprived of them, she must eventually find herself in exactly the same position as she would if allied troops occupied all her munition works. Or a worse position, shall we say?

Distant but Effective.

"Hostile invading soldiery in possession of Krupp's great works at Essen might be driven out again—at any rate, there would be always that hope. But what soldier, shout 'Hoch der Kaiser!' or 'Deutschland ueber alles!' as he may, can reach the enemy who strikes him deadly blows from 500 miles away?

"He can bellow 'Gott strafe England!' as he will; but of what avail? Far away out at sea—'somewhere'—lies the British fleet. If his own ships go out to meet it their destruction is certain. It is more certain now than it was twelve months or so ago.

"Twelve months or so ago the German fleet was in a state of high efficiency, due to long practice at sea. Only at sea can a sailor be kept in training. If allowed ashore, love and liquor appeal to him more than battle and bloodshed. If kept on board in harbor he grows flatter still, and as like as not more or less mutinous. In any case he realizes, and has plenty of time to realize, that his superior officers keep him inside because they fear death outside. And he, too, learns to fear it. And the longer he hides in safety the more he comes to fear the ordeal of battle.

"This is no mere 'theory.' Ever and always the sailor who acted on the defensive and kept in harbor has been defeated when driven to come out and try conclusions with his offensive adversary.

"There is small chance that the Allies will ever march into Berlin. But the 'invisible invasion' is there already. The British navy is making its hand felt from the far away.

"Germany flourished on her export trade. That we have killed. She has to fight on what she can import. These imports the British navy is strangling, and will go on strangling. The storm-tossed sailors of Jellicoe are doing their job."

FRANCE HAS FARM ACADEMY.

New Body Will Help and House Workers After the War.

There is a new academy in Paris, which has adopted as its title "The Academy of Agriculture of France," and is in fact only a new form of the ex-National Society of Agriculture. The new academy is actively employed in organizing the agricultural machinery that will be needed after the war and in placing out on farms the refugees from the invaded departments.

The new academy is also providing for the erection of temporary houses and refuges to be put up in districts that have been desolated and razed by the enemy's guns.

There are, of course, several schemes for housing unfortunate families rendered homeless by the war. The Quinkers are putting up and have put up a number of temporary buildings made of planks. An improvement on the type now offered is a rather picturesque kind of chalet built of double wood panels, not planks, placed on a skeleton frame, with an air chamber between, calculated to make the buildings warmer in winter and cooler in summer.

One of these is on view at the designer's workshops on the banks of the Seine, and is worth a visit. The chalets are made in pieces, which only have to be put together on the site chosen a couple of hours sufficing to do the work. The builder of these chalets claims for them ten years of satisfactory existence. They are very inexpensive.

Five hundred dollars provides one which will accommodate a couple, complete down to the statuette of the generalissimo that adorns a tiny niche.

BIRDS AND BATTLES.

Soldiers' Letters Tell Some Astonishing Stories.

A recent issue of the journal of the Royal Society for the Protection of Birds contained notes on bird life made by soldiers in the trenches of France and Belgium. Everyone expected that the din of battle would drive the birds away from the war area, but soldiers' letters record an astonishingly lively bird life. Men write of the pleasure with which they hear larks, thrushes, and even nightingales singing with absolute unconcern in places where the sound of bursting shells and the rattle of the rifle continues day and night. A gunner tells of the eccentric behavior of a family of blackbirds that built their nest in the body of a field gun. The gun had not been fired for four days, and during that time the nest was built and three eggs laid. Although the gun was fired each of the three days afterward, two more eggs were laid. "Last night when the bird came back to her nest," writes the gunner, "the men were standing-to and getting the gun ready for action. The bird sat on a bough above and waited until they had finished." Soldiers who have been through night attacks in which the enemy used gas say that the behavior of the birds gave them warning. Before they could detect the smell of the fumes the noise of the birds awakened from their night perches made the watchers in the trenches aware of the danger.

LADY FRENCH'S CANTEENS.

They Supply Munition Workers With Food at Cost.

Lady French is at the head of the canteens which are being operated in England for the benefit of the munition workers. The need for such canteens is caused by the munition factories taking on such a large number of workers that often it is impossible for these extra hands to get living accommodations within a reasonable distance of the factory.

In some towns where the manufacture of munitions is being rushed to the utmost capacity of the factory there are no restaurants. In others the facilities for supplying meals is by far below the demand. So the women of England, under the leadership of Lady French, have undertaken, to supply the need to do for the munition worker what the army service corps has done for the men in the field. Good food, freshly cooked and well served, is supplied to munition workers at minimum cost, which means that the workers pay for all they get, but not enough for the canteens to make a profit.

IN ENEMY'S ENTANGLEMENTS.

A wonderful snapshot taken over the crest of Linge. Despite a hail of shrapnel, French soldiers are seen getting ready to make the dash forward, which resulted in the capture of the enemy trench at the top of the picture on the right.

MAKING ARTIFICIAL LIMBS.

War's Injuries Alleviated by Clever Counterfeits.

No industry, considered relatively to its importance, seems likely to profit more by the war than the manufacture of false arms and legs. One American concern is said to have already received orders from the British and French Governments for $10,000,000 worth of artificial limbs. The normal producing capacity of this establishment is 250 legs a month but its output is expected soon to be multiplied by five.

Another American manufacturer, who has a factory in France, has just returned to this country to secure additional machinery and workmen. To obtain the latter is not easy, for false legs and arms, especially the former, are complex pieces of mechanism, and to construct them properly requires much practice and long training.

The cork leg is familiar in works of fiction. In real life such a thing is not, and never has been, cork being just about the most unsuitable material for the purpose that could be imagined. Artificial limbs are made of basswood or willow, supplemented to some extent with leather.

The lumber for them is carefully selected, and the first step in the making of a false leg is to cut from the raw material a block eight inches square and of the requisite length. Through it a hole is bored lengthwise with a large auger, and then the block is put aside in a dry place and allowed to season. It ought to season for three years. It is then carved in imitation of a real leg, sandpapered to smoothness, hollowed out so as to convert it into a mere shell, and ordered waterproof by a coating of a special kind of varnish. It may be covered with kid, but methods of manufacture vary.

The leg is made hollow for the sake of lightness, and also to provide room for the introduction of a strong spiral spring and other elements of the mechanism that is to render the limb a useful and comfortable counterfeit of a real one. An artificial leg of up-to-date pattern is an ingenious piece of apparatus, and there is many a man to-day who wears one without betraying the fact to the casual observer.

If course, if the natural limb has been cut off high up, the artificial one must be in two parts, connected by a knee-joint. If one must look a portion of one's ambulatory machinery the most desirable place for the amputation is between the knee and the ankle. Under such circumstances a false member may enable one to walk without limping, or one may even tango satisfactorily, but loss of part of the foot or of the whole foot at the ankle joint means that one must go halting through life.

The foot of the artificial leg is in itself an exceedingly clever counterfeit. Its core is part of the same piece of wood that makes the body of the leg. Enveloping this core is rubber, vulcanized on in a series of thin layers, the result being to give the foot a lively springiness, rendering it comfortable for walking and helping to give the wearer a natural gait.

An artificial arm is of similar construction, with a wooden core for the hand, which is of vulcanized rubber. But as a substitute for the natural limb it is a poor thing compared to a false leg. The hand is useless for purposes of manipulation and has to be kept covered with a glove. Wires extend through the fingers, so that the latter may be bent into any desired position.

Donald Was Fidgety.

A wet Sunday is a trying time for small boys and girls, and still more so for their parents. On one such day little Donald was very fidgety. First he asked his mother if he could play with his bricks.

"Oh, no!" was the shocked reply. "You don't play with bricks on a Sunday!"

In turn his trumpet, his drum and ball were also banned. The little chap was silent for a short time, then he asked for his horse.

"No, no, sonny," admonished his mother. "Horses don't work on the Sabbath."

"But, mother," argued Donald, "mine's a milkman's horse!"

FRENCH READY FOR WINTER.

British Army Also Well Supplied with Warm Clothing.

Signs are plentiful that winter is close upon the troops in the North of France. The nights are already cold, far too cold for comfort, and the characteristic winter-night mist from the marshes is in the air. The trees are not yet bare, but the leaves that remain have turned to a sere yellow, while the roadways are covered with fallen leaves which the soldiers here and there heap into little piles for a fragrant, warming fire.

It is evident that there is to be another winter campaign robbed, however, of much of the horror of last year's ordeal in boggy trenches and along impassable roads. In Northern France, at least, winter will find the rival armies well prepared to receive it. The wet mud, the ice-cold water knee-deep in the communication trenches, the ooze and discomfort of the dugouts, will be the exception rather than the rule this year. The shelters, even in the advance trenches, will generally be fairly livable, thanks to the plentiful use of concrete and tar, and the skilful employment of drainage.

Moreover, the armies will be properly clad and amply fed. The British soldiers will again don their sheepskins, supplemented by ample supplies of warm caps socks and heavy boots of rather better type than last year's.

Many of the trenches now have brick floors, and virtually all are drained and protected against landslide by timbers.

The great problem of the winter will be the billeting of all the new divisions which have come out since last year. In the villages well behind the firing lines, every outbuilding and old barn has been requisitioned, cleaned, repaired and made into shelter against the wind and cold. But nearer the firing lines most of the buildings have been smashed into ruins, and although they were usable for housing purposes during the summer, they are plainly impossible after mid-November. The problem is being dealt with to some extent by the building of portable houses and huts, but the armies grow too fast for the carpenters.

The work of the aeroplane observers gets more difficult as winter approaches. The fogs of the late autumn cling to the ground in little patches well into the day, while the evening mists make observations difficult soon after mid-afternoon.

CANADIANS ARE WELL PAID.

Only Australia Has Higher Pay For Soldiers in the Field.

Canadian soldiers at the front are paid at a rate which compares favorably with those of the rest of the Empire, and is decidedly above that of some of the belligerents.

In the field the Canadian gets $1 per day. Australia pays her men $1.50, and New Zealand $1. The Australian general rate is higher by 50 cents per day, but as far as married men are concerned, the separation allowance in that dominion is considerably less than allowed in Canada. The British soldier gets a shilling per day. In France and Germany, and all countries where the service is universal, the men get little more than a pittance. Germany pays them a cent a day, and France six cents.

Officers of all units of the Canadian divisions, cavalry, artillery and infantry, get the same pay. Including field and mess allowance, it ranges from $3.60 per day for a lieutenant, to $8.60 for a full colonel, and $12 for a Brigadier-General. This scale is slightly higher than the British pay for infantry officers, and a little less than the British pay to artillery and engineering officers. It is practically the same as the rates paid in New Zealand and Australia.

Talking Big.

"Marriage, sir, is a failure."

"Are you in a position to know, sir?"

"I am, sir, and in a position to say so—I've just been divorced."

In blast-furnaces, in which cast iron is made, the fires burn for years without ever going out.

BATTLE CRY OF BLACK WATCH.

Famous Regiment "Transformed Into Howling Fiends."

The Edinburgh Scotsman tells from the lips of one of the Black Watch, how that famous regiment went into the battle of Loos. He says:

"We were over the parapet when the order came, yelling like fiends, and into the Germans almost before they knew what was up. We had no time to wait to polish off the Germans in the first line. There were other bayonets coming behind ours. We spent just a little more time at the second line, but we heard the roaring lines of our chaps coming up and we plunged again. The third line kept us busy. The Germans were steadier there, but we made a good job of that line, and raced for the fourth. Then I got my sick leave. The work in the third trench was slaughter. We did the slaughtering. We were out for trenches, not prisoners, and trenches we got, too.'

"It was just my little 'crowded hour,'" said another Highlander. "I never knew that in less than five minutes a crowd of sober respectable Scottles could be transformed to a perfect torrent of howling fiends. The extraordinary thing about the charge was its beastly methodicalness. We were for the time being just line upon line of white savages run amuck, and yet, sub-consciously if you like, the training held and guided us in our madness. From one rushing group I heard among the strange noises and the panting, a magnificent yell of 'On the ball, Dundee!' Another fellow was gulping as he ran, 'five, five, five.' I wonder if he made it six at the next trench.

"In fact there should be any dispute as to the Black Watch being the finest regiment in the world, I think the matter should be referred to the Germans. The Seaforths and the Gordons and the Camerons and the Argylls might be as good. We'll settle the matter in Berlin. But the Black Watch made a charge on Sept. 26 which is going to take some beating."

Four battalions, 4,000 men, went into the charge, and hardly 800 answered the rollcall afterward.

FOR MISS CAVELL.

New British Cry as Soldiers Charge Trenches of the Huns.

Frederick Palmer, a war correspondent, who recently returned to New York, said that when he left the British front the British soldiers before a charge would shout all along the line, "For Miss Cavell!"

"Miss Cavell's execution did more for recruiting than all the Zeppelin raids," he said. "I happened to be with the French when the news of her death was received. Its effect on the troops was instant, electric. The woman's sacrifice had a Joan of Arc character that struck home to the French heart. Officers spoke of it as an event that had done more to cement the alliance of France and England to fight to the last man than all the speeches of statesmen and conferences of generals.

"Miss Cavell's picture, taken from the newspapers, is pinned on cottage walls all over France. Deep as the impression was on the civil populations of both England and France, it was still deeper that made on the soldiers. I returned from the French to the British front the day after the news, so I was able to judge the effects on both the British and French armies. The thought that went home was the fact that Miss Cavell was a nurse. Men who have been wounded know what a nurse's care means. That a nurse under any circumstances should be shot was an unspeakable horror to them.

"The British are spreading all their bad news broadcast. The Germans are suppressing theirs. If that steel curtain which is drawn over Germany were lifted the revelations might amaze the world. Only peace will lift it, however."

PRAISE BEATS FAULT-FINDING.

Many Parents Have Tried It Successfully With Their Boy.

Praise a boy for his good deeds rather than spank him for his bad ones. Many a parent has tried it, with successful results, as well as pleasant ones for the boy.

Hard-headed business has made a similar discovery. A Pennsylvania Railroad superintendent found that posting in public places the faults of his employes failed to reduce the number of delinquencies.

"I'll try a new game," he said. "The failures I shall keep to myself, but the particularly good bits of work done by the men I shall paste upon a bulletin board where all may read."

And the result of this scheme of heart instead of fist? A quick drop of two-thirds in the number of men who required discipline. This was pure gain, and a big one, for the railroad, but the men profited even more. There was a decrease of more than 70 per cent. in loss of wages through suspensions.

Death Fostered Industry.

It used to be compulsory in England that the dead should be buried in woollen shrouds. This law was introduced in order to encourage the manufacture of woollen cloth within the kingdom.

LADY CHAUFFEURS DOING FINE SERVICE

ON CONSTANT DUTY IN LONDON TO HELP ZEPP. SUFFERERS.

They Are Now Being Used to Transport the Munitions of War.

The old order changes slowly, and only with infinite difficulty in this old country of ours: the woman who chooses to make motoring a profession must look for brickbats ahead in every direction, writes a woman chauffeur in London.

Considering that the day is still alive in our memory when the petrol engines was distrusted as a means of locomotion and regarded as a suspicious alien, it is not surprising that the idea of the lady chauffeur will for a short time be met with much disapproval. It remains for the woman to prove herself competent and careful in driving, efficient in the care of the engine, and, above all, reliable and serious in her work.

This is going to be a great task, for it seems but yesterday (certainly it is not more than a year) when a woman driving a car of any size was a most unusual sight and created quite a stir. To-day there are hundreds of ladies handling cars with the confidence of a man and navigating the traffic with extraordinary skill. The fact, however, remains that it is experience alone that can make the really competent driver. There are but a few women who have this experience, and so to the great majority remains the worthy task of pioneering this great chance for hundreds of women in the future.

Needs Much Resolve.

The only way for this to be done successfully is to dispel the general idea that motoring is too strenuous as a profession for the fair sex. Therefore, let the woman who is not both mentally and physically sound stand aside and be driven—not attempt to drive. Certainly driving and the general care of a car is a strain to both mind and body. The feminine spirit is very apt to allow enthusiasm to run away with discretion and liable to overdo. The lady chauffeur should avoid this above all things; take up her work seriously and soberly, realizing, ere she commences, that while driving a car for pleasure is unrivalled as a sport, it is a far different matter as a work. She must be prepared to face cheerfully and with determination the cold, wet winter days in store.

With that malign influence that certainly governs inanimate objects to contend with, one can always expect magneto trouble, burst tires, and choked petrol pipes—and the thousand and one petty troubles—to come along just on the day when all the world goes wrong and aching heads are to the fore.

Disappointments will be many. An early rising (for hours that might have been spent in well-earned rest) to clean the engine, will often be rewarded by plug troubles and aqualung; an extra polish on the brass will invariably ensure a wet day.

Chauffeurs Resentful.

There are but few cars possessed of sufficient sense of decency to run out of petrol within a reasonable walking distance of a supply, unless when one is open to derision from the men who, having failed to answer the call to fight, are ever ready to jeer and laugh at the woman who is helping at home.

Another great difficulty to be overcome is the attitude of the chauffeurs with whom one will naturally be thrown into daily contact. The majority are careful not to overwork their thinking capacities, and the only thing that occurs to them is that women are doing their work. They fail to realize that to-day men must fight and women must work for the Old Country; and so instead of the good-fellowship usually existing in a garage yard, one is apt to find criticism and resentment. The tactful girl will soon realize that an endless stock of good humor and a smiling face will do infinitely more than the affectations of masculine clothes and manners. As long as a woman retains her femininity she will always find men ready to help her. To smoke and swagger about the garage yard may prove amusing for a time, but it will left both respect and that inborn spirit to help.

A Resourceful Woman.

"I wish, John, that I had had more sense when we were engaged," said the wife, thoughtfully. "Then I wouldn't have destroyed all the letters you wrote to me in the eighteen months of our courtship."

The husband smiled in a gratified way. "I knew you would be sorry for that some day," he said.

"Indeed, I am," was the reply. "I need a little extra money very badly just now, and a man called to-day to buy old papers. How wasteful we were!"

And automatically his hand sought his pocket. A resourceful woman seldom has to ask for money straight out.

SINCLAIR'S

The Hardware Store of Better Values

Happiness and Prosperity to All

For 1916

BOTH Sinclair's Hardware PHONES

EBENEZER

The new skating rink was opened on New Year's night. The frosty weather of last week made a fine sheet of ice. Although the weather wasn't very favorable that night it didn't frighten the skaters, as a good crowd was in attendance. A good time is looked for this winter. Nearly everyone in the vicinity has purchased skates and is going to spend the long winter evenings on the ice.

Mr and Mrs Dright Potts spent New Year's at Alleuford.

Mr Samuel Rathwell, of Saskatchewan, is visiting his sister here, Mrs Sam Fleming.

Miss Annie McKelvey is spending a month with friends in Detroit.

A couple of sleigh loads of young people of the Epworth League drove over to Tara on Thursday evening and were well entertained by the League there.

Miss Mary Kirkland, of Chesley, spent New Year's at Mr Robt Kirkland's.

Miss Annie Hanbidge, who is teaching school at Miller Lake, spent the holidays at her home here.

Martin brothers have purchased a new chopper.

Miss Edna Burns, of Lockerby, who is attending Normal school at Stratford, visited friends here for a few days.

Mr Dixon, who is down from the west, is visiting his sister, Mrs H McFadden.

TENTH CON BRUCE

Happy New Year to all, Cantire correspondent included.

Mrs Thos Haney spent the week end with friends here.

Mr John Irwin has taken up residence on his farm on the 8th concession.

Mr Geo Fletcher is home to spend the winter months under the parental roof.

The sympathy of the entire community goes out to Mr and Mrs Angus McInnis and family in their sad bereavement by the death of their daughter. The funeral, which took place on Thursday afternoon to Lovat cemetery, was largely attended by friends and neighbors. Rev Mr Sawers, of Queen Hill, conducting the last sad rites.

ELORA ROAD NORTH

Mr John McDougall is visiting in Lucknow.

Mr John McArthur, of Owen Sound, is spending a few days at home.

Dick Harcourt and Neil McArthur, jr, went to Saskatoon on Tuesday with Mr Geo Craig's horses.

Mr and Mrs John Bryce, jr, spent New Year's day at Dobbinton.

Mr Harry Rudolph's family were at Walkerton for the New Year.

Mr and Mrs Wm Miller, of Munson, Alta, drove over from Owen Sound last week.

CARD OF THANKS

The family of the late Jos Mewhinney desire to express their appreciation and gratitude for the kindness shown to their father during his illness by neighbors and friends, also for the sympathy shown since his death.

OLAMIS

Mr Edgar Pickard, of Toronto, who spent the Christmas holidays with his sister, Mrs J K McLennan, returned to the city on Thursday.

Mrs J K McLennan returned on Saturday from Clifford, where she was visiting Mrs (Dr) Black.

Mr John Howson, of Toronto, is visiting his sisters, the Misses Howson.

Miss Kate McKinnon, of Chicago, is spending the holidays at the home of her mother, Mrs Arch McKinnon.

Miss Edith Howson is spending a few days at her home here.

Mr John Beehan is visiting friends in Hespeler and Detroit.

The Misses Harrison and Master Campbell Macintyre, of Toronto, are visiting at the home of their grandparents, Mr and Mrs J C Macintyre.

Miss Jennie McKeeman has gone to Toronto to train as nurse in the Wellesley hospital.

Miss Lilly McKinnon returned to Brantford after spending the holidays with her parents, Mr and Mrs Allen McKinnon.

Mrs John Carr and son have gone to Kalamazoo, Mich. to visit her sister.

Miss Lizzie Connolgham returned to Milton after spending Christmas at the home of her brother, Mr Jos Cunningham.

Miss Margaret Campbell, of Harriston, spent Christmas with her mother and sister here.

The entertainment in the Baptist church was a great success. The church was filled and there was an excellent program. Everyone went home satisfied that they got the worth of their money.

A big load of young Glamisites drove down to Kincardine on Friday evening and were entertained by the Misses McKenzie there. They report a good time even if it was pouring and raining when they came back.

Misses Minnie and Nora McNally spent the holidays at their home on the boundary.

Mr Chas McKinnon, of Wallaceburg, spent Christmas and New Year at the home of his parents, Mr and Mrs John McKinnon.

Mr John Kennedy spent the week end in Pinkerton.

Miss Daisy Cronin, who has spent the last few weeks at her brother's in Kincardine, returned to John McKinnon's on Sunday.

Misses Nettie Gunn and Mary Webb have returned to Stratford Normal school.

Miss Mabel Kirkham returned to her school in Bruinkilion, and Miss Alberta to Paisley High School.

Miss Martha Kirkham spent Christmas with friends in Markdale.

We are pleased to report that Miss Verna Husk, who has been so ill with typhoid fever, is improving.

Mr Peter McKinnon, wife and family, from Saskatchewan, are visiting at the former's parents, Mr and Mrs Chas McKinnon.

Mr and Mrs Tufford, of Beamsville, spent Christmas at W J McKeeman's.

The marriage of Mr David Robertson, of Glamis, to Miss Margaret Colwell took place on Wednesday, Dec 29th, at the home of the bride's parents. They have taken up housekeeping in Glamis. Their friends wish them long life and happiness.

Messrs John and Arthur Groves, of Saskatchewan, are visiting their parents, Mr and Mrs Groves.

CANTIRE

(Intended for last week)

Cantire Christmas tree entertainment on Wednesday evening last was a decided success, not so much in point of large attendance, although this was fair, but from the excellent programme which was rendered. Three things seem to be essential to success in gatherings of this kind—good weather, a good chairman and good order. All three were present. The chair was filled by Wm McDonald, M P P, who was inclined to be reminiscent and gave many stories of school life in the early history of Eldcastle. He was glad that in a good many school sections this year the old fashioned examination was being revived, when the parents, with well filled baskets came at least once a year to visit the school. He encouraged the S S teachers in the good work in which they were engaged and hoped they would not become weary in well doing. Short addresses were given by Reeve Cain and Rev Mr Little. Instrumental music was furnished by Buchanan string band and vocal music by Miss McInnes of Paisley, all of which was much enjoyed. The rest of the programme was furnished by the school children, who acquitted themselves as well as to call forth words of praise from all sides. The singing and reciting of three young hopefuls show there is plenty of talent in this community. Miss Jennie Luttrell the youthful organist is deserving of special mention. The part taken by the children reflects credit on our teacher, Miss Oswald, who must have taken some pains in training them. Eldcastle's ventriloquist, hypnotist, optimist anecdoter played the roll of Santa Claus, and his wit as usual pleased the children most immensely.

Visitors here for Christmas: Mr and Mrs Robb of Markham at 11 A McIntyre's; Miss Mary Gillies of Toronto at Don Reid's; Mr and Mrs Dan McLaren of Pense, Sask, and Mr Robt McConachie of Lethbridge at the home of Mrs McConachie.

Mr Tom Sloan, who spent the summer at Wapella, Sask, loaded home on Friday last and is visiting friends in this vicinity. Tom has enlisted for overseas service and leaves for Galt next week, where his brother Archie is already in training. His many friends here will wish him a safe return from the land of the Kaiser.

Miss Annie Reid is home from Hanneb, N D, on a visit.

PINKERTON

The Pinkerton Red Cross Society which was formed here about Oct 1st has issued the following report: Receipts—Proceeds of entertainment $15 50, patriotic dance $63 25, collections and tag money $25 61, donations $5—total $138 86. Money expended in supplies $83 36. Articles shipped—26 pillows, 48 sheets, 65 pillow cases 6 eiderdown bed shirts, 50 surgical shirts 51 pairs stockings. Money in treasury $56 30.

The annual oyster supper of the C O F lodge here was held on New Year's eve. A splendid supper was served and an excellent programme rendered. Speeches were made by Senator J J Donnelly, W D Cargill, M P P, J H Campbell, C O F organizer, Rev Mr Gale, Lieuts Reid and Patterson. A splendid dance was held afterwards which was enjoyed by all.

Pte Elmer Gregg returned on Monday to Galt after being home for a week on sick leave.

Lieut A E Reid at Chatham spent New Year's at his home here.

Miss Edith Hibbert of Walkerton visited her friend Miss Aileen Pinkerton.

Miss Lenora Clark is spending holidays at her home here.

Miss Johnston of Mount Forest is visiting at Mr J Mutrie's.

Mr C Garland has enlisted in the Bruce battalion and went to Walkerton on Tuesday.

Misses Mertis and Marie Donnelly and Messrs Frank Donnelly, Jas Gale, Walter and Russell Birrell returned to Toronto to resume studies, and Mr Gordon Pinkerton to Stratford Normal.

Messrs J B and Hardie Campbell of Chesley drove over to the oyster supper on Friday evening.

TURNER'S

Mr and Mrs McDermid are visiting friends in the Soo, Mich.

Mr John C Pollock has bought a house in Port Elgin, and will soon be moving in.

Mr Harry Hyde, from New Ontario, is down on a visit to his friends here.

Mr and Mrs Geo Gibbons spent Thursday with Mr Chappel.

Mr Oliver Christie, of Sudbury Normal, spent the holidays with his father, Mr G Christie.

Mr and Mrs Andrew Pollock and daughter, of Gladstone, Man, are down here on a visit to his father and other friends.

Mr and Mrs Joe Hyde spent Christmas day with his mother.

Mr and Mrs Matt Bell and children, of Calgary, are down on a visit at the home of her father, Mr Geo Kidd.

Mr and Mrs Robt Muir, of Yellow Grass, are home on a visit to his mother.

Edison Phonographs

WITH the new Diamond Point Reproducer and New Unbreakable Blue Amberol Records. The clear, sweet tone remarkable in its purity is simply a translation of human music into your own home. Unless you have heard the newest Edisons you have no conception of their wonderful realism quality. You never realized that such beauty could be applied to sound. Through the thousands of records for these phonographs the whole world of music, past and present, is open to you.

Bell Pianos and Organs. Small musical instruments and Sewing Machines.

PETER McKINNON, Agt., Paisley
Ross Street

CARGILL

Mr Austin Jordan of the Port Colborne O T R staff, is home on a short visit to his parents here.

Dr Bricker and bride arrived home from Toronto on Thursday and they will reside in the house lately occupied by Dr Murray, whose practice Dr Bricker has acquired. We welcome Dr and Mrs Bricker to our village and trust they may have a long and happy sojourn here.

Mrs Jas Hamilton and grandson Harold Owen returned to their home in Fort William last week after a six months' visit at Mr Wm Matthews'.

Holiday visitors—Miss Ruby Welsford of Guelph at P E Martin's; the Misses Kyle of Chesley at Mrs W D Cargill's; Messrs Clark and Baladon of Pickering at P Baladon's.

Away at New Year's—Mr Heegan to Durham; Mrs J Chambers and Mrs Jas Garland to Millbank; Mr R Hood to Mount Forest.

Lieut Patterson, of the 160th Batt, was in the village last week and secured a number of recruits. Among those from here who have so far enlisted are: Phil Sparling, Ed Young, Fred Anderson, Les Cliff, John Hudson, S Thompson, Jack Hamilton, John Clancy. A number of others are talking of joining also. The late Cargill has twenty of her sons under the colors. Besides the above list are: Wm Thompson, Harold Grice, J Parker, John Anderson, [illegible] Capt Hammore in England; Lieut Young, Otto W Loeghbeer, A Thompson, Ed Sparling in Galt under training; Corp R Loughbeer at Allision, Clar Hettrick at Toronto. Some of the larger towns are not making as good a showing as we are but they are making a heap more noise about what they are doing.

The Purdy League visited the Cargill Methodist Bible Class on Monday night and furnished an excellent programme of solos, duetts, choruses, and a dialogue, besides the topic, which was appreciated by those present. Lunch was served after the programme.

A birthday party was given Sandy Thompson at his home on Tuesday night last, when a goodly number of his friends enjoyed themselves at progressive euchre.

Mr Lorne Keeling returned to Toronto on Tuesday, where he is attending University.

Miss M and Mr Jas Martin and Miss R Welsford spent Sunday in Paisley.

The skating rink is running again full blast.

CASTORIA

For Infants and Children

In Use For Over 30 Years

Always bears the Signature of Chas. H. Fletcher

ORESHAM

Miss Lettie A G Young, who spent the vacation at her home here, returned to Owen Orchard, Ont, where she has been re-engaged to teach at an increased salary.

Messrs Jas A Pace and D McDougall spent holidays in Hamilton. Mr W Parker was in Walkerton. Robert and Bruce McGregor were down the line visiting relatives and friends. Mr Robt Parker was at Chatham and other points.

Mr Wm McManu, jr, who was quite ill last week, is on the road to recovery.

We extend sympathy to the family of the late Mr Joseph Meachinney in the bereavement they have suffered by his death.

Miss P McKenzie, p a teacher of Hamilton, spent vacation at her home on the 10th con.

Mr and Mrs Jas Webb and family and Miss Eleanor Mewhinney of Guelph attended the funeral of the late Mr Mewhinney on Wednesday.

Mr Geo Fullerton had a very successful sound be last week.

Lieut McKay, formerly of Glamis, now of McMaster University, gave a recruiting address here on Sunday which was much appreciated by all who heard him.

Our Christmas tree entertainment on Wednesday evening of last week was largely attended. One of the main features was the presentation by Mr George Brown of ten New Testaments to the public who most regularly attended Sunday school, also the diplomas for memory verses were awarded to John Geo Brown, Lily and Etta Brown, Morris Wood, Jean Brown, Reta Nesbitt, Annie McGregor, Mary Morrison. Miss McKenzie and Mr McDougall deserve much credit for the first-class programme provided.

Mr and Mrs E Brown, who are down from the west, are visiting on the 6th at the home of Mr father, Mr Ed Shipley.

—Our subscription rate is going up, but until the end of January we will accept $1.00 in advance. We want to give everybody a chance to save 50c, so take advantage of this.

THE Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER I.—(Cont'd).

"And who has returned in triumph?"

"George Steele."

Sarah Preston arched her brows in mild interest.

"So, the wanderer is home! I had the idea he was painting masterpieces in the Quartier Latin, or wandering about with a sketching easel insouthern Spain."

"Nevertheless, he is back," affirmed the man, "and he has brought with him an even greater celebrity than himself—a painter of international reputation, it would seem. I met them a few moments ago in the paddock and Steele intimated that they would shortly arrive to lay their joint laurels at your feet."

Louisville society was fond of George Steele, and, when on occasion he dropped back from "the happy round" that lead around the world, it was to find a welcome in his home city only heightened by his long absence.

"Who is this greater celebrity?" demanded Miss Buford. She knew that Steele belonged to Duska Filson, or at least that whenever he returned it was to renew the proffer of himself, even though with the knowledge that the answer would be as it had always been: negative. Her interest was accordingly ready to consider in alternative the other man.

"Robert A. Saxon—the first disciple of Frederick Marston," declared Mr. Bellton. If no one present had ever heard the name before, the consequential manner of its announcement would have brought a sense of deplorable unenlightenment.

Bellton's eyes—despite the impression of weakness conveyed by the heavy lenses of his nose-glasses, missed little, and he saw that Duska Filson still looked at the entirely unconscious head of the homestretch, taking no note of his heralding.

"Does n't the news of the new arrivals excite you, Miss Filson?" he inquired, with a touch of drawl in his voice.

The girl half-turned her head with a smile distinctly short of enthusiasm. She did not care for Bellton. She was herself a exponent of all things natural and unaffected, and she read between the impeccably regular lines of his personality, with a criticism that was adverse.

"You see," she answered simply, "it's not news. I've seen George since he came."

"Tell us about this celebrity," prompted Miss Buford, eagerly. "What is he like?"

Duska shook her head.

"I haven't seen him. He was to arrive this morning."

"So you see," supplemented Mr. Bellton with a smile, "you will, after all, have to fall back on me—I have seen him."

"You," demurred the debutante with a disappointed frown, "are only a man. What does a man know about another man?"

"The celebrity," went on Mr. Bellton, ignoring the charge of inefficiency, "avoids women." He paused to laugh. "He was telling Steele that he had come to paint landscape, and I am afraid he will have to be brought lagging into your presence."

"It seems rather brutal to drag him here," agreed Miss Arden. "I, for one, am willing to spare him the ordeal."

"However," pursued Mr. Bellton with some sort of recital, "I have warned him. I told him what dangerous batteries of eyes he must encounter. It seemed to me unfair to let him go into the lists of loveliness all unarmed, with his heart behind no shield."

"And he——how did he take your warning?" demanded Miss Buford.

"I think it his craven idea to avoid the danger and retreat at the first opportunity. He said that he was a painter, had even been a newspaperman once, but that society was beyond his powers and his taste."

The group had been neglecting the track. Now, for the eighth and last time came once more the noisy onthrust that ushers the horses into the stretch and conversation died as the party came to its feet.

Some of the members noticed for the moment the two young men who had made their way between the chairs of the verandah until they stood just back of the group, awaiting the turn for recognition.

As the horses crossed the wire and the pandemonium of the stand fell away, George Steele stepped forward to present his friend.

"This is Mr. Robert Saxon," he announced. "He will paint the portraits of you girls almost as beautiful as you're really are. It's as far as mere art can go."

There was a trifle abashed at the form of presentation as the group turned to greet him. Something in the distance had caught Duska Filson's imagination-brimming eyes. She was sitting with her back turned, and did not hear Steele's approach nor turn with the others.

Saxon's casually critical glance passed rapidly over the almost too flawless beauty of the Preston sisters and the flower-like charm of little Miss Buford, then fell on a slender girl in a simple pongee gown and a soft, wide-brimmed Panama hat. Under the hat-brim, he caught the glimpse of an ear that might have been fashioned by a jeweller and a curling tendril of brown hair. If Saxon had indeed been the timorous man Bellton intimated, the glimpse would have thrown him into panic. As it was he showed no sign of alarm.

His presentation as a celebrity had focused attention upon him in a manner momentarily embarrassing. He found a subtle pleasure in the thought that it had not called this girl's eyes from whatever occupied them out beyond the palings. Saxon disliked the ordinary. His canvases and his enthusiasms were alike those of the individualist.

"Duska," laughed Miss Buford, "come back from your dreams, and be introduced to Mr. Saxon."

The painter acknowledged a moment of suspense. What would be her attitude when she recognized the man who had stared at her down by the paddock fence?

The girl turned. Except himself, no one saw the momentary of amused surprise in her eyes, the quick change from grave blue to flashing violet and back again to grave blue. To the man the swiftly shifting light of it seemed to say: "You are at my mercy; whatever liberality you receive is at the gift and pleasure of my generosity."

"I beg your pardon," she said simply, extending her hand. "I was just thinking—" she paused to laugh frankly, and it was the music of the laugh that most impressed Saxon—"I hardly know what I was thinking."

He dropped with a sense of privileged good-fortune into the vacant chair at her side.

With just a hint of mischief riffling her eyes, but utter artlessness in her voice, she regarded him questioningly.

"I wonder if we have not met somewhere before? It seems to me——"

"Often," he asserted. "I think it was in Babylon first, perhaps. And you were a girl in Macedon when I was a spearman in the army of Alexander."

She sat as reflective and grave as though she were searching her recollections of Babylon and Macedon for a chance acquaintance, but under the gravity was a repressed sparkle of mischievous delight.

After a moment, he demanded brazenly:

"Would you mind telling me which suit won that last race?

CHAPTER II.

"His career has been pretty much a march of successive triumphs through the world of art, and he has left the critics only one peg on which to hang their carping."

Steele spoke with the warmth of enthusiasm. He had succeeded in capturing Duska for a few minutes of monopoly in the semi-solitude of the verandah at the back of the clubhouse, though he had a hopeless cause of his own to plead, it was characteristic of him that his first opportunity should go to the praise of his friend.

"What is that?" The girl found herself unaccountably interested and ready to assume this stranger's defence even before she knew with what his critics charged him.

"That he is a copyist," explained the man; "that he is so enamored of the style of Frederick Marston that his pictures can't shake off the influence. He is great enough to blaze his own trail—to create his own school, rather than to follow in the tracks of another. Of course," he hastened to defend, "that is hardly a valid indictment. Every master is at the beginning of his career, strongly affected by the genius of some forerunner master. The only mistake lies in following in the footsteps of one not yet dead. To play follow-the-leader with a man of the past century is permissible and laudable, but to give the same allegiance to a contemporary is, in the narrow view of the critics, to accept a secondary place."

The Kentuckian sketched with ardor the dashing brilliance of the other's achievement: how five years had brought him from lethal obscurity to international fame; how, though a strictly American product who had not studied abroad, his Salon pictures had electrified Paris. And the girl listened with attentive interest.

When the last race was ended and the thousands were crowding out through the gates, Saxon heard his host accepting a dinner invitation for the evening.

"I shall have a friend stopping in town on his way East, whom I want you all to meet," explained Mr. Bellton, the prospective host. "He is one Senor Rebora, an attaché of a South American legation, and he may prove interesting."

Saxon caught himself almost frowning. He did not care for society's offerings, but the engagement was made, and he had now no alternative to adding his declaration of pleasure to that of his host. He was, however, silent to taciturnity as Steele's rumbabout chugged its way along in the parade of motors and carriages through the gates of the race-track incloisure. In his puzzle, the cause of melancholy unrest was decided, where ordinarily there was only the hint.

"There is time," suggested the host, "for a run out the Boulevard; I'd like to show you a view or two."

The suggestion of looking at a promising landscape ordinarily challenged Saxon's interest to the degree of enthusiasm. Now, he only nodded.

It was not until Steele, who drove his own car, stopped at the top of the Iroquois Park hill that Saxon spoke. They had halted at the southerly brow of the ridge from which the eye sweeps a radius of twenty miles over purpled hills and polychromatic valleys, to yet other hills melting into a sky of melting turquois. Looking across the colorful reaches, Saxon gave voice to his enthusiasm.

They left the car, and stood on the rocks that jut out of the clay at the road's edge. Beneath them, the wooded hillside fell away, three hundred feet of precipitous slope and tangle. For a time, Saxon's eyes were busy with the avid drinking in of so much beauty, then once more they darkened as he shielded toward his companion.

"George," he said slowly, "you told me that we were to go to a cabin of yours tucked away somewhere in the hills and paint landscape. I caught the idea that we were to lead a sort of camp-life—that we were to be hermits except for the companionship of our palettes and nature and each other—and the few neighbors that one finds in the country, and——" The speaker broke off awkwardly.

Steele laughed.

"It is so nominated in the bond.' The cabin is over there—some twenty miles." He pointed off across the farthest dim ridge to the south. "It is among the hills where—but to-morrow you shall see for yourself!"

"To-morrow!" There was a touch of anxious haste in the inquiry.

"Are you so impatient?" smiled Steele.

Saxon wheeled on his host, and on his forehead were beads of perspiration though the breeze across the hilltops was fresh with the coming of evening. His answer broke from his lips with the abruptness of an exclamation.

"My God, man, I'm in a panic!"

The Kentuckian looked up in surprise, and his bantering smile vanished. Evidently, he was talking with a man who was suffering some stress of emotion, and that man was his friend.

For a moment, Saxon stood rigidly, looking away with drawn brow, then he began with a short laugh in which there was no vestige of mirth:

"When two men meet and find themselves congenial companions, he said slowly, "there need be no questions asked. We met in a Mexican hut."

Steele nodded.

"Thin," went on Saxon, "we discovered a common love of painting. That was enough, wasn't it?"

Steele again bowed his assent.

"Very well." The greater painter spoke with the painfully slow control of one who has taken himself in hand, selecting tone and words to safeguard against any betrayal into sudden outburst. "As long as it's merely you and I, George, we know enough of each other. When it becomes a matter of meeting your friends, your own people, you force me to tell you something more."

"Why?" Steele demanded, almost hotly. "I don't ask my friends for references or bonds!"

Saxon smiled, but persistently repeated:

"You met me in Mexico, seven months ago. What, on Heaven's name, do you know about me?"

The other looked up, surprised.

"Why, I know," he said, "I know——" Then, suddenly wondering what he did know, he stopped, and added lamely: "I know that you are a landscape painter of national reputation and a good fellow."

"And, aside from that, nothing," came the quick response. "What I am—on the side, preacher, parachimbler, bank-robber whatever else, you don't know." The speaker's voice was hard.

"What do you mean?"

"I mean that, before you present me to your friends, to such people for example as will both people and me today you have the right to ask; and the unfortunate part of it is, that, when you ask, I can't answer."

"You mean——" the Kentuckian halted in perplexed silence.

"I mean," said Saxon, forcing his words, "that God only knows who I am, or where I came from. I don't."

(To be continued.)

SOLDIERS ASK PRAYERS.

Canadian Highlander Voiced Sentiments of the Men.

Annie S. Swan, the well-known writer, in a letter to the London Times, says:

The Chaplain General's appeal for more faithful prayer for the troops recalls to my remembrance what a Canadian Highlander, just down from the trenches, said to me one evening in a camp in France.

"Go home and tell the women to pray for us, and never to leave off. We are helped more than you know by the prayers of those at home, and in the trenches we know when they have had a slack day."

Everywhere over there, adds Mrs. Swan, one is astounded and uplifted by the reverent perception in our fighting men of the spiritual forces which are necessary as the material ones to the conduct of the war.

Diplomacy.

Irate Father—If I catch that young fellow around here again I'll break his head.

Sweet Daughter—But he's not as taller, father; he's a prizefighter.

Irate Father—Oh, well, then, of course I will have to treat him as a friend of yours.

The Viscountess Archeson formerly Miss Mildred Carter, of Baltimore, the only daughter of J. Ridgely Carter, former American Minister to the Balkan States, whose work on the Duchess of Marlborough's War Relief Committee of American ladies has been highly commended by Queen Mary.

NOBILITY HARD HIT BY THE WAR

BRITISH ARISTOCRACY SHOW GREAT GALLANTRY.

In Many Cases Children Succeed to Peerages When Heirs are Killed.

The old French adage "noblesse oblige" has never been more true than now, as has been clearly demonstrated by the part played by the aristocracy of Great Britain in the present war. No recruiting officers, no bands, no parades have been needed to bring the sons of the finest families of Britain to the colors. They have rallied, fought, and fallen in no great numbers that there is practically not a noble house in all the United Kingdom to-day which is not mourning.

Sole heirs, eldest sons, youngest sons, fathers, and brothers of the greatest and most famous English families went to the front at the very offset and are now in the trenches in France and at the Dardanelles or on the high seas. There can be no doubt that the peer of England is paying toll, not less willingly, but even for more than the men of the working classes.

An illuminating illustration of this fact was given recently when the members of the much abused House of Lords refused to pass a motion authorizing the return from the front of those of its members who had gone to the firing line.

Already five peerages are without heirs in remainder through the war, namely, the marquesate of Lincolnshire and the baronies of Knaresborough, Playfair, Ribbledsdale, and Stamfordham.

Six peers have already been killed, namely, Lords Congleton, Hawarden, Brabourne, Annesley, De Freyne, and Petre.

Nearly thirty heirs to peerages have been killed and almost as many wounded.

Fifty sons of peers have been killed and the number wounded is in the hundreds.

Brothers of peers, baronets, and knights who have either been killed or wounded number a great total.

How heavily the titled families have contributed themselves to this conflict may best be imagined when it is stated that 213 peers and 424 sons of peers are already serving with the colors.

Boys Inherit Titles.

The basis that this war has played with the aristocracy may be best indicated by a partial list of members of prominent families killed, including Lord S. D. Compton, a lieutenant in the Royal Horse Guards, brother and heir presumptive of the Marquis of Northampton; Capt. M. A. de Tuyll of the Tenth Hussars, youngest son of the Duchess of Beaufort; Major the Hon. C. R. O. Freeman-Mitford, D.S.O., eldest son and heir of Lord Redesdale are serving with the colors, two in the army and two in the navy. The Hon. Colwyn Phillips, elder son of Lord St Davids, was an early victim of the war. His brother Roland, who is now sole heir, is a lieutenant in the cavalry.

When the Earl of Erne died his son and heir, Major Viscount Crichton, who had been equerry to the King, was reported to have been taken prisoner in Germany. Later information showed he died from wounds about the same time as his father. Viscount Crichton left a son born in 1907, who at the early age of eight years has become the Earl of Erne.

Another pathetic case is that of Captain Lord Guernsey, whose little son Michael, born in 1908, becomes the heir to the earldom of Aylesford.

Through the death of Viscount Northland, the only son of the Earl of Ranfurly, the heir to the earldom is Northland's little baby, born on May of this year. Lord Northland came into notoriety some years ago by being named as the correspondent in a sensational divorce case.

Lord Killanin's heir is now the baby son of Lieut.-Col. S. H. Morris, who was killed some months ago.

Lord Ninian Crichton-Stuart, who has lost his life in the war, was a brother to the Marquis of Bute.

When Capt. Charles Monck was killed his nine-year-old son became heir to his grandfather, Viscount Monck.

Lord Congleton is succeeded by his brother, the Hon. John P. Parnell, a lieutenant in the army, and heir to the title is his brother William, who is 11 years of age.

Lord Kinnaird lost his eldest son, Capt. Douglas Kinnaird, while another son is serving in the army.

Lord Balfour of Burleigh's eldest son, the Hon. Robert Bruce, the master of Burleigh, was killed, and his brother is with the colors.

Picturesque Figures.

The death of Lord Annesley resulted from his being shot through the head while making a brilliant aeroplane attack upon Ostend.

The death of Captain the Hon. R. Wyndham, heir presumptive of his brother, Lord Leconfield, the nephew of Lord Rosebery, makes the third member of the Wyndham family to fall in the war.

Lord Cowdray, the head of the famous firm of Weetman-Pearsons, as prominent in the oil fields of Mexico, lost his third son, the Hon. Francis Pearson, who enlisted as a private, was taken prisoner, and shot while trying to escape.

Only recently Captain the Hon. Agar Robartes died of wounds. He was the son and heir of Viscount Clifden and represented a Cornish constituency in the House of Commons. He was a member of an inseparable trio consisting of Neil Primrose, Earl Rosebery's second son, and Jimmy Rothschild. Captain Robartes was the Corinthian of the House of Commons, and his naivete in speaking was greatly enjoyed. He frequently broke the rigid etiquette of the House by uttering such expressions as "I don't mind betting."

Hon. Francis Lambton, the youngest brother of the Earl of Durham, killed, was a lieutenant in the Royal Horse Guards, and before the war maintained successfully a training stable at Newmarket for Sir Francis Cassel.

The death of Capt. Andrew de Ver Maclean leaves that romantic figure Kaid Sir Harry Maclean, the real Sultan of Morocco for so many years, childless.

Great Old Families.

Others who have fallen for their country are: Capt. Lord Richard Wellesley, the second son of the Duke of Wellington; Major the Hon. William Cadogan, the third surviving son of the late Lord Cadogan; the Hon. Hugh Dawnay, the second son of Viscount Downe; Capt. the Hon. John Boyle, the fourth son of the Earl of Glasgow; Lord Charles Mercer Nairne, son of the Marquis of Lansdowne, the Unionist leader of the House of Lords; Lieut. the Hon. H. R. Hardinge, the heir of Viscount Hardinge and nephew of the Viceroy of India, whose eldest son, Lieut. the Hon. E. C. Hardinge, D.S.O., died of wounds in December; Lieut. the Hon. Arthur S. Coke, second son of the Earl of Leicester; Captain the Hon. William Andrew Nugent of the Fifth Hussars, brother and heir of the Earl of Westmeath, who died of wounds; Capt. the Hon R. G. E. Morgan Grenville, Master of Kinloss; Capt. Hon. C. H. M. St Clair, son of Lord Sinclair, and Major Lord John Spencer Cavendish, youngest brother of the Duke of Devonshire.

Lord Ribbledale's only surviving son, the Hon. Charles Lister, was wounded in two engagements previously to sustaining in the third the wounds that caused his death.

Lord Stamfordham, the private secretary to King George, has lost his only son, Capt. J. M. Bigge; Lord Desborough, the famous sportsman, has lost two sons, his eldest, the Hon Julian Grenfell, and a younger, S. W. Grenfell.

Death has also claimed the eldest son and heir of the Earl of Yarborough, and two other sons the Hon. George and the Hon. Marcus Sackville Pelham, are fighting in Flanders.

CRUELTIES UNNERVE MEN.

German Soldiers Suicide Most Moral Torture.

The London Daily Graphic prints the following despatch from Petrograd:

"In view of the statement of General Hindenburg that the 'victory' in this war will fall to the nation whose soldiers have the strongest nerves, it is interesting to note that cases of suicide are increasing largely in the German army. During the Russian retreat the enemy strove to demonstrate the possession of strong nerves by inflicting numberless cruelties on the innocent population of the towns and villages. Near Dumbrun, in the village of Charna, the Germans covered the streets with the bodies of tortured men, women and children, but the next morning nineteen dead bodies of German soldiers were also seen. These had ended their lives by suicide. In common with their fellows these nineteen men had been showing the strength of their nerves by capturing and shooting peaceful people.

"At Przemsyl, when the Germans were firing thousands of guns, some of their soldiers with bloodshot eyes were seen to run into the very thick of the hand-to-hand fighting, shouting the words they received. They appeared to be intoxicated by the fury of the fight. Others, frenzied by the fearful scene, shot themselves dead with their own rifles or pierced themselves to the heart with their bayonets.

"After Przemysl General Mackensen issued an order to the army in which he warned his troops that the wives and children of the soldiers who committed suicide would be deprived of pensions. The number of German soldiers who committed suicide at Przemsyl was 111. On the Dneister and near Jutnivo there were similar cases caused by the dislike of the soldiers to face an overwhelming fire.

"Very often the cruelty of the German officers was responsible for cases of suicide. On the very day that General Mackensen arrived at Vladimir Volynsk he saw the body of a German soldier who had hanged himself. The officers looked confused at each other, but the General was determined to get at the cause of the man's death, and ordered that his body should be searched. He read aloud the contents of the note which was discovered: 'I cannot bear any longer the beating and moral torture inflicted by Lieutenant Glaube. Private Conrad Dummler.'"

THE TURK AS HE IS.

Not the Villain and Ragamuffin He Is Supposed to Be.

There is an old Turkish saying in these words: "When we are driven out of Constantinople, we will go to Brousa; when we are expelled from Brousa, we will fly to Paradise." The saying gives a very good insight into the character of the Turk as he really is.

Fatalism and a simple but profound belief in his religion are two of his strongest characteristics. Although he will tell the most outrageous falsehoods and exercise the deepest cunning in driving a bargain, he is, in the main, a simple soul, contented with little, and blessed with the most enviable powers of endurance.

In many ways, of course, the Turk is an abomination, and utterly out of place in twentieth-century Europe, but he has his points, as only those who have travelled and studied him at home can properly appreciate. He is not the complete villain and ragamuffin he is so popularly supposed to be.

As befits the introducer of the Turkish bath to the rest of the world, the Turk is a scrupulously clean person where his own body is concerned. His towns and streets may be, and mostly are, filthy; but not so the Turk himself. Soap is scarce in Turkey—to the majority of the inhabitants it is an unknown luxury—but the religion of Islam demands daily bathing, as well as certain ablutions before oft-repeated prayers.

The Religion of the Turk.

His religion also keeps him sober, while his kindness to dumb animals certainly puts many more civilized and enlightened folk to burning shame. The prosecution of a Turk for cruelty to animals is an unknown thing; no Moslem would ever overwork his horse or his donkey, or beat his dog. He would as soon assault his own father.

The Turk has an extraordinary and apparently inevitable way of immediately deteriorating when he has any "official" work to undertake, or when he is handed with others of his race for any purpose; but by himself, in private life, he is often quite a charming person. He is courteous, he is kind, he is considerate, he is hospitable, and he has a sense of humor. In fact, when he likes, the Turk can be a perfect gentleman with perfect manners.

But, unfortunately, the bad traits of the Turk far outnumber the good ones. The position which he allows to his women, for instance, is archaic.

For a few years a Turkish girl is allowed to run about and play and mix with little boys in a more or less rational manner, except that not much attention is given to her clothes, and her attendance at school, despite compulsory schooling being in force, is not generally insisted upon.

Marry Their Mother's Choice.

But very early there comes a change. Her mother looks at her and says she is growing big, and she must put on a charshaf. A charshaf is a silk cloak reaching down to the ankles and up to the top of the head, and it impedes the child's movements, naturally. She must also wear a thick veil, never see a little boy again, and never speak to any man but her father until she is married.

The majority of Turkish girls marry the man their mother chooses for them. But as the mother may see no man except her own husband, she must rely upon the advice—based on rumors and hearsay—of other women friends—or else employ a professional matchmaker.

After she is married, a Turkish woman just "sits." She sits for hour after hour, placidly, with her hands folded, in the manner of a sleepy cat. A day's shopping or a combined trip on the Golden Horn is a thrilling event in her life. She plays very distinct second fiddle to her mother-in-law, who retains first call upon her son's purse and larder, and such pastimes as reading books, playing cards, tennis or golf are nearly unknown to Turkish women.

The Turk hates reform; what was good enough for his father—and his father before him—is quite good enough for him; and although he sometimes wakes up for a moment and passes laws for this or that modernizing of his country or his national life, his enthusiasm soon dies down and the laws are ignored or else reduced to an absurdity by reason of the corruption of the officials appointed to carry them out.

LATEST IMPLEMENT OF WAR.

German Trench Mortar Hurls 200-Pound Shells.

Germans on the western front are using a new trench mortar, or minewerfer, as they call it, whose projectiles make a hole big enough to bury an automobile in.

Each shell weighs two hundred pounds and stands three feet. It splits two strips that measure from two to three feet in breadth, the edges of which have jagged teeth like a saw.

These shells come tearing through the air for a quarter of a mile or more, cutting through trees that stand in their way. When one of the shells explodes the concussion can be heard for ten miles. The British soldiers have nick-named the minewerfer "minnie-lovers."

The Housewife's Corner

Selected Recipes.

Custard Sauce.—Two cups milk, two egg yolks, two tablespoons sugar, vanilla flavoring. Add beaten egg yolks and sugar to milk, let come to boil. Add flavoring when custard is taken from fire.

Vermicelli Bean Soup.—Use broth left over from beans, two onions minced fine and vermicelli. Fry minced onions in butter until nicely browned, add broth and season to taste. Let come to boil, add vermicelli and cook ten minutes.

Hungarian Goulash. — Cut two pounds round steak into inch squares. Brown in two tablespoons butter, with one minced onion. Cover with hot water, add one chopped green pepper and sliced carrots. Season and cook slowly for one hour. When done thicken with paste made of two tablespoons of flour and water.

Cheese and Pear Salad.—One and one-half cups grated American cheese, six halves canned pears, mayonnaise and lettuce. Arrange pears for individual service in nests of lettuce leaves, fill hollows with grated cheese and top with mayonnaise. When fresh pears are used, they must be very ripe. In this case, sprinkle them with lemon juice and a tiny bit of sugar, cover and let stand fifteen minutes.

Beef Salad.—Cut cold cooked beets into one-fourth inch slices crosswise, and slices into cubes. Mix with boiled dressing. Take off outside leaves of small round cabbage, cut into quarters, then into thin slicing, using sharp knife, and soak in cold water until crisp. Dry between towels and moisten with boiled dressing. Heat cabbage on salad dish and surround with prepared beets.

Boiled Salad Dressing.—To one cup sour cream add one egg, slightly beaten, and one-fourth cup vinegar. Mix thoroughly two teaspoons each of salt and sugar, one teaspoon mustard, and one-eighth teaspoon pepper. Add to first mixture and cook in double boiler, stirring constantly, until mixture thickens. Strain and chill.

Flemish Carrots.—Parboil carrots and drain thoroughly. If large, cut into halves or quarters. Place in saucepan with one tablespoon butter, one teaspoon sugar and enough water to make necessary sauce. Add salt and pepper to taste and a little minced parsley. Let simmer about fifteen minutes, or until done, shaking occasionally. Beat yolks of two eggs with two tablespoons cream and stir into carrots as you take them from fire to serve.

Almond Cornstarch Pudding.—One pint rich milk, one-half cup sugar, two tablespoons cornstarch, whites of two eggs, almond flavoring. Add sugar to milk and put on to cook in double boiler. Mix cornstarch with a little cold milk and add to hot milk, stirring until it cooks well. Just before taking from fire add almond flavoring. Fold in carefully stiffly beaten whites of eggs, pour into wet molds and set away to cool.

Chicken and Veal Pie.—Put giblets, including neck, tips of wings, gizzards, hearts, livers and left-over pieces from bones of cooked fowls, into saucepan with one pint cold water, one slice onion, one small diced carrot, and one level teaspoon salt. Simmer until the liquid is much reduced, strain and set aside. Cut one-half pound veal into small cubes and cook slowly until well done and light brown. Cut giblets into small pieces, add veal, and also a little salt pork, cut into shreds, and chicken liquid, thicken slightly with flour paste. Cover with rich pie or puff paste and bake in steady oven one and one-half hours.

Cake Recipes.

The following is a very nice, light cake for a light tea or luncheon dish, and is delicious if properly made.

Required: ½ cup of flour, 1 cup of Indian meal, ½ pound of butter, ½ pound of sugar, 8 eggs, a grated nutmeg, a teaspoonful of cinnamon and a half glassful of sherry wine and brandy, mixed. Stir the butter and sugar to a cream and add the well-beaten yolks of the eggs. Beat till very light, then add the meal and the flour, well blended. Beat until light. Add the spices and liquor and finally the whites of the eggs, beaten to a stiff froth. Beat thoroughly, but lightly, and turn into a buttered tin. Bake in a moderate oven for an hour and a half.

Luncheon cake is good, and can be made in three-quarters of an hour. Use 4 cups of sugar, 3 cups of flour, ½ cup of milk, 1 teaspoonful of baking powder, and a teaspoon of peach extract. Beat the sugar and eggs to a cream, then add the milk. Then add the flour gradually, into which you will have sifted the baking powder. Add a teaspoonful of peach or any other extract and bake for ¾ of an hour.

Medley cake is so called because the ingredients are so varied. It is very good, indeed, and easier to make than some of the recipes given before. Required: 1 pound of sugar, ½ pound of butter, 3 cups flour, 12 eggs, a teaspoonful each of baking powder, peach extract and fruit coloring. Beat the butter and sugar to a cream, then add the well-beaten yolks of the eggs. Beat until very light, then add gradually the flour into which you have sifted, in the second sifting, the baking powder. Mix thoroughly and beat vigorously. Then add the whites of the eggs, beaten to a stiff froth. Now divide the batter into two parts and put a teaspoonful of peach extract into one and a teaspoonful of fruit coloring into the other. Mix well and drop by spoonfuls into a buttered cake pan, first a spoonful of the white, then a spoonful of the pink, until the batter is all used up. Bake from 45 minutes to an hour in a moderate oven.

Pearl Cake.—Use ¾ pound of butter, 1 pound of sugar, 1 pint of milk, 4 eggs, 1 teaspoonful of soda, 1 pound of flour, ½ grated nutmeg and a teaspoonful of vanilla extract. Beat the butter and the sugar to a cream, beat the eggs, whites and yolks separately, and add the yolks to the mixture. Then beat till very light. Add the soda, dissolved in a tablespoonful of boiling water, and then add the milk and beat carefully. Add the flour gradually, beating vigorously. Then add the spices and essence, and lastly the white of the eggs, beaten to a stiff froth. Bake for an hour in a moderate oven.

Home Hints.

Sweet oil will remove finger prints from varnished furniture.

Paint can be removed from glass by using boiling hot vinegar.

Try snuffing powdered borax up the nostrils for catarrhal cold in the head.

Beat whalebones can be straightened by soaking them in boiling water, then ironing them straight.

An ink spot may be taken out of white linen by wetting with lemon juice and placing over it a hot iron.

To clean mirrors, use a little methylated spirits and polish with old silk handkerchief or clean chamois.

Warm socks for boots and shoes can be made from old felt hats, and, carefully cut, one can make a good sole for house shoes.

When cane-bottomed chairs become "slack," sponge both sides of the cane with suppuds ig which a handful of salt has been dissolved, and stand chairs in the open air. The seats will be as good as new.

After washing overalls, shirts, etc., that have become very soiled, soak them for an hour in weak cold water starch; wring out and dry. The next time you wash them the dirt will come out easily.

TELLS OF NAVAL BATTLE.

Tiger's Captain Gives Details of Fight With the Bluecher.

Captain Pelly, commander of the Tiger, in a statement to the London correspondent of the Amsterdam Telegraaf, who has visited the British Fleet, says of his great ship's part in the North Sea battle of January 24:

"The Germans said that we broke off the fight on January 24. But there was nothing more to fight. The Bluecher had paid the toll, and the other ships made off. Of course, we were not such fools as to be lured into the German mine-fields. My ship was doing splendidly when we saw the Bluecher keel over and go down. And all my 1,300 officers and crew were sorry that the battle was so soon over." It lasted an hour.

"There must have been great excitement on board?" I asked Captain Pelly. "Oh, no," he said. "No one got excited. In a moment like that one needs complete self-possession. But the whole ship's company glowed with the ardor of battle, and I can tell you that we put our shoulders to the wheel from the moment the enemy appeared. The latter turned tail when they caught sight of our flying squadron.

"Our hundred stokers worked below like troopers to get more speed out of the Tiger. We were doing 29 knots at least, although the ship was only built to do 28. We only stoke oil, and we used up a good mouthful. Our 13.5's worked like fun. The firing began at 15 miles, and we never got nearer than eight miles to the enemy, whose guns did not carry so far as ours. In addition, we were faster, and we gave them the whole broadside in a minute.

"The Bluecher was terribly knocked about, and gave the Tiger her last shot, which with two other shots did us little harm. Look, here a shell struck our wooden deck, came to an iron beam which changed its direction, and it flew over the deck again and overboard. No man was hurt by it.

"Do you see that new piece of steel on the turret? There another enemy projectile made a hole. And if you examine carefully the side of the ship you will find just above the water-line a dent in the thick steel hide of the Tiger. Here, in the armored observation tower, an enemy shell drove in through the opening without asking mission.

"Do you see this new steel plate as a souvenir of the enemy's shot? And now I have shown you all the damage that our ship suffered."

He who meets with no misfortune cannot enjoy life to its fullest value.

THE SUNDAY SCHOOL

INTERNATIONAL LESSON, JANUARY 16.

Lesson III.—Peter's Sermon at Pentecost, Acts 2. 14-47. Golden Text: Acts 2. 21.

Verse 22. Peter has been expounding the significance of what these people have heard by appealing to Joel, who in his turn had developed older aspirations that "all Jehovah's people might be prophets." It is clear that the "tongues" form the smallest part of the Spirit's gift for Peter: that they were speaking God's message is what matters. Ye men of Israel—The name of religious privilege (compare John 1. 47). Approved . . . unto you—The miracles were his credentials, since none could do the signs unless God were with him (John 3. 2). Three features are described with emphasis: the power called forth, the astonishment produced, the inner significance.

23. Delivered up—Compare John 19. 11. Men without the law (margin)—Compare John 10. 25. All through the Passion story it is insisted that the Jews had the responsibility for the murder of their Messiah. Not that Pilate was guiltless; he knew by a Roman's instinct for law that his sentence was an outrage on justice.

24. Not possible—The essence of the great venture of Pas. 16 was in the poet's dimly seeing that God's beloved cannot pass into nothingness, since God's love is almighty. This applies to all who can say, "My God," and supremely therefore to the Anointed One. Pangs—From the Greek Psa. 18. 4. Peter probably used the much more forcible Hebrew "snares."

29. Peter shows that the Psalmist—whom he assumes to have been David, like all his contemporaries—was not delivered from the common lot of men. Now in the Jewish mind there was a complete solidarity between ancestor and descendant; almost till the very end of the Old Testament period, the only immortality a man expected was in his children and children's children. The deliverance from Sheol—therefore, which David expected for himself, must have been reserved for "great David's greater Son." This argument is cogent for Jews of Peter's day; for us, of course, Peter's own testimony—that of one who comes after Jesus Christ—counts for much more than David's, even if we were sure that David wrote Psa. 16. We can see, however, a permanent argument for immortality in the Psalmists conviction that love is mightier than death; it is exactly the argument by which Jesus confuted the Sadducees. The patriarch David—"The darling of the songs of Israel" (2 Sam. 23) was always to posterity the "father" of his country.

30. He would set one—The word "one" is not in the Greek, and is misleading; it is a line of Davidic kings that was predicted in 2 Sam. 7. 12 (compare 16). But the very failure of that line combined with other prophetic inspirations to develop the hope of an individual Messiah and to heighten indefinitely the conception of his person and work.

32. Of whom (margin)—As in 1. 8. Peter speaks for a "cloud of witnesses," every one of whom can say, "I have seen the Lord risen." This witness of what they had seen and heard was the one supreme purpose for which the twelve were called.

33. The opening phrase is identical with that in 6. 31; the margin is quite wrong in both cases. "The right hand of Jehovah doeth valiantly" (Psa. 118. 16) in this the mightiest of God's deeds. Note how close all this is to the Johannine doctrine (compare especially John 16. 7). It is also very close to the Pauline teaching in Eph. 4. 8ff. The coincidence of these very independent reporters has strong evidential value.

34. David did not ascend, because "no one hath ascended into heaven" (John 3. 13), an admitted truth. He saith himself—As in Mark 12. 36, the argument is based on the then unquestioned authorship of Psa. 110. The psalm represents Jehovah as promising the Davidic king unlimited victory, and the vicegerency of God upon earth. We have only to say of it to-day that in Jesus Christ it was fulfilled far beyond its author's dreams.

36. Made him . . . Christ—For it was a title he won by death, to use after death. In his earthly ministry he made this still future dignity a secret, only gradually apprehended by his disciples, forbidden to the multitudes, and confessed only at his trial, when it precipitated the condemnation.

38. The "baptism of repentance unto remission of sins," the preparation preached by John, leads, as in the Baptist's message, to the characteristic baptism of Christ "in Holy Spirit." In the name—In all these New Testament phrases the actual pronouncing of the holy name is implied; its associations produced a powerful impression on men's minds.

39. The great words of Isa. 57. 19 were among the most often recalled prophecies in Christian circles (compare Eph. 2. 18, 17). There is here also an appeal to Joel 2. 32. The gracious words to you . . . and to your children might seem to be a direct response to the savage cry of Matt. 27. 25.

41. They then having received his word (margin)—The whole congregation is represented as persuaded, and a mass movement brings into their fellowship some three thousand. In Acts 4. 4 we hear of five thousand more, and Acts 6. 7 complete the picture of a marvellous expansion.

A Peep Into the Future.

"Papa, what did you do during the great war?"—London Opinion.

GERMANY SICK OF WAR.

Horror of More Fighting Is Outstanding Feature in Berlin.

The first intimate comparison of Germany as she is to-day—subdued and longing for peace—with the Germany of a year ago—rampant and war-mad—is given by Mr. Horace Green, an American correspondent, who is now revisiting Germany after a year's absence.

Mr. Green, in a message sent by mail from Berlin, says that horror of more fighting is Berlin's outstanding feature, "with the rank and file thoroughly sick and tired of the war." He is greatly impressed by the remarkable change which has occurred among Germans since his previous visit early in the war.

"The question of the duration of the war," he states, "is the one I have most frequently heard discussed during the past fortnight. It is on everybody's lips. A year ago the slogan was 'Germany will win'; to-day the cry is everywhere, 'How long will this thing last?'"

Mr. Green, describing his discussions with German passengers in the train by which he travelled from the Dutch frontier to Berlin, says:

"They discussed various subjects, and occasionally, but rather quietly, the war. Last year, under similar circumstances, a carload of German travellers would have filled the air with vitriolic argument about such subjects as the rights of Germany, the treachery of England, and that the Fatherland was united to a man and would fight till England's back was broken. A year ago such groups were bristling, bristling, and full of hate. To-day they are resigned, kind and tolerant.

"Since then I have listened to crowds in the restaurants, streets, and the barracks at Spandauhof, and I have talked to many individuals. They discuss the war. They no longer argue, quarrel and rave. To-day Germany is like a feverish patient to whom nourish has been applied—a war maniac whose blood has been drained.

LIFE STRUGGLE OF THE TREES.

But Some of Them Live One Thousand Years.

An interesting light is thrown on the longevity of the trees that grow along the timber line of the Rocky Mountains by Mr. Enos A. Mills in his recently published "Rocky Mountain Wonderland." He says:

A few timber-line trees live a thousand years, but half this time is a ripe old age for most of the timber-line veterans. The age of these trees cannot be judged by their size or by their general appearance. There may be centuries of difference in the ages of two arm-in-arm trees of similar size. I examined two trees that were growing within a few yards of each other in the shelter of a crag. One was fourteen feet high and sixteen inches in diameter, and had 337 annual rings. The other was seven feet high and five inches in diameter, and had lived 492 years.

One day, by the sunny and sheltered side of a boulder, I found a tiny seed bearer at an altitude of 11,800 feet. How splendidly unconscious it was of its size and its utterly wild surroundings! This brave pine bore a dainty cone, yet a drinking glass would have completely housed both the tree and its fruit.

Plants Bloom When Fed Tea.

A new discovery in horticulture claims to make potted plants bloom as they never did before if they are given an invigorating cup of tea once a day. Lewis Shaw, Jr., the inventor, says: "Twice a day, morning and evening, I give my geranium a drink of cold tea, from one-fourth to one-half cup per plant. While at first this was only an experiment, I was surprised to find how rapidly the plants bloomed and how many of the buds took bloom at once."

ORIGINAL THOMAS ATKINS.

How the British Soldier Came By the Nickname.

That the name Thomas Atkins, the popular word for the British private soldier, originated in the signature to a specimen official model for keeping soldiers' accounts is tolerably certain, says a contributor to the Cornhill Magazine. The difficulty is to identify the particular individual. By far the best case so far made out is that for a gunner in the Royal Artillery.

In the old days when George III. was king, life in the ranks of the British army was very hard, and the men saw little pay. William Cobbett served eight years in the ranks, and he himself speaks of the difficulty he experienced in saving even a halfpenny that he proposed to spend on a red herring to add to his scanty breakfast. Alas! the halfpenny was stolen. Even as late as the nineteenth century, the time when our hero flourished, soldiers' account were anything but well kept. Many of the men could not read and were dependent for their just dues on the honesty of their pay sergeant. Suddenly there arose a born accountant in the person of a gunner in the Royal Regiment of Artillery who was named Thomas Atkins. He soon became an object of admiration to his comrades and an object of awe to the pay sergeants. Even some of the officers at first greeted him with suspicion.

Gunner Atkins was, however, a decent fellow. He had proved himself a man of physical courage in the field, and he soon earned the respect of his officers for his moral courage. He started a book in which he entered and balanced his accounts monthly, and so is believed to have originated the idea of the soldier's pocket ledger, or, as it was called at first in the Royal Artillery and afterward in the army generally, a "Tommy Atkins." There is little doubt that the pocket ledger was generally known by that name in the regiment; and it is equally true that there was then serving in the Royal Artillery a gunner of the name of Thomas Atkins, whose method of keeping his accounts was honored by almost general adoption in the service.

A HAT STORE.

Mr. Homer Croy's Adventure in Honolulu.

In his eagerness to see a whale during the voyage between Honolulu and the island of Hawaii, Mr. Homer Croy, who tells about his adventure in Travel, leaned too far over the rail, and lost his hat.

After arriving at the island he climbed into a taxicab and told the driver to take him to a hat store. "Do you understand?" he asked. "A hat store."

"Yes, for sure, all right," the Japanese chauffeur answered.

They went bumping up the street, swung wildly round a corner, and finally at the far side of the town drew up to the curbing. In the window of the store was a bedstead on which hung the sign, "This week cheap."

"What do you mean by taking me to a furniture store?" Mr. Croy demanded.

"Dis Hats store," replied the Japanese driver, and he pointed to the name of the proprietor, "K. Hats."

"I want a hat, not a bed," Mr. Croy said with feeling. "I want it for this," pointing to his bare head.

"Yes, for sure, all right."

With that the cab whirled down the street and away to the other side of the town, while the taxi bill was merrily running up. This time it stopped before a barber shop.

"No, I don't want anything taken off my head. I want something to put on it," declared Mr. Croy, who was now quite irritated.

"Yes, for sure; I understand all right," replied the chauffeur, with a grin.

They went clattering just as far to the other side of the town as they could, and drew up before a store that as an afterthought apparently carried a line of hats. Mr. Croy had to pay twice the price of a hat on the way to buy it, but this did not seem to worry the driver, who, after the manner of automobile drivers, stood up under it bravely.

The married man who preaches economy usually wants his wife to do all the practising.

FROM OLD SCOTLAND

NOTES OF INTEREST FROM HER BANKS AND BRAES.

What Is Going On in the Highlands and Lowlands of Auld Scotia.

Edinburgh street car fares are being increased 50 per cent.

In Argyllshire 6,935 eggs were collected for the National Egg Fund. Many of the school children assisted.

It is now so dark at Dunbar of a night that the authorities are seriously thinking of whitewashing the lamp-posts.

The number of Allen men killed since the beginning of the war, including one captain and two lieutenants, is 60.

Burntisland has just experienced a terrific gale, accompanied by heavy falls of sleet and snow. Much damage was done.

Damage estimated at about $20,000 was caused by fire in the premises of R. & H. Turnbull, Strathallan Hat Curing Works, Bridge-of-Allan.

The Aberdeen trawler Forth put into port with an unusual catch in the shape of a torpedo. It was about 13 feet in length and was without a nose.

Owing to the scarcity of houses in the Greenock district, the Admiralty has arranged for the erection of hut dwellings at Battery Park for torpedo workers.

Mr. W. A. Craigie, a Dundee man and a former student of the University of St. Andrew's, has been appointed Professor of Anglo-Saxon in the University of Oxford.

Brigadier-General Lord Lovat is one of the latest arrivals at the Endsleigh Palace Hospitals for officers. He has been invalided twice from the Gallipoli Peninsula.

Clydebank Town Council have adopted a recommendation to the Fire and Lighting Committee to employ six women to light the street lamps until the end of the war.

The enrolment figures for the University of Edinburgh this session show a decrease of 180 compared with last year and a decrease of 1,180 compared with two years ago.

A tragic affair occurred in Barlinnie Prison, Glasgow, when two prisoners quarrelled and fell. One of them was killed by the knife used in their work penetrating a vital part.

The question of providing education for from 800 to 1,000 scholars in the Milton district when Dundas Vale and Stow Practicing schools are closed is giving anxiety to the Glasgow School Board.

The report of the medical officer for Maxwelltown, Dr. Maxwell Ross, states that 37 cases of infectious diseases were notified in the burgh last year. The death rate for the year was 14.05 and the birth rate 20.287.

In Elgyth the delivery of assessment notices issued by the Town Council has been undertaken by ladies, who have agreed to hand over the money usually paid for the work to the funds of the local Red Cross Work Party.

A sensation has been created in the Edinburgh printing industry by the announcement that the employes of Ballantyne, Hanson & Co., numbering about 500, one of the biggest printing establishments in the city, have been all given notice.

BRITISH HOME GUARDS.

First Ridiculed by Londoners. They Win Praise.

The Home Guards, composed of brokers, clerks, agents and other men exempt from active service working in London's financial district, showed themselves a well-trained and physically fit body of troops at the recent inspection by Lord Kitchener.

When the civilian troops received permission from the War Office to organize they encountered ridicule in many quarters, but they bought their own uniforms and went to work with a will. Every afternoon squads drilled in the courts and buildings and in the public parks, and on Saturday afternoons and Sundays the men either went to the country to practice trench digging or harden themselves with marching.

Volunteer corps have sprung up all over the country and could face a hard campaign as well as or better than the second line troops in conscriptionist countries. Its members are generally over 40 years of age.

5,000 MILES OF TRENCHES.

Twice as Much Excavation Done As in Panama Canal.

A French soldier with a taste for statistics has calculated the amount of soil that has been moved in the work of trench making. There are about 500 miles of first line trenches all the way from the North Sea to Switzerland. And there are five or six lines of trenches upon each side.

A total of ten lines of trenches on the two sides would give a length of about 5,000 miles, and this, says the calculating soldier, has involved a task of excavation twice as great as that of the Panama Canal. And it has all been done by hand labor and with military shovels, and much of it has been done under fire and by men who have to work while lying on their chests!

The Paisley Advocate

PAISLEY, JAN. 12th, 1916

Paisley Boys on the Honor Roll

Following is a complete list of the Paisley boys who have enlisted for overseas service since the recruiting of Canadian contingents began:

WITH THE 18TH BATT. IN BELGIUM

Sergt. A E Babcock
Corp S H L Tookej
Pte A E Rine
" J A McDougall

Thos H George, went to France, was wounded, and is now home in Paisley.

Jack McLeod, the first Paisley old boy to enlist, wounded, and now back to Calgary.

Geo Purdy in France

Mike Sparrow, with the veterinary corps, in France

Norman Reed, training in Winnipeg

NOT ACCEPTED

Two others who offered to enlist, but were not accepted because of physical unfitness:

Wilbert McLeod
Gladstone McGregor

CANADA'S FIRE LOSS

Badly Handled, Reaches Very Alarming Amount—Causes Controllable

The fire waste in Canada is the worst in the world. The losses in Canada would pay off the National Debt in 20 years. They are seven times as great, per capita, as they are in Great Britain, and we pay five times as much for our insurance as they pay in Europe. The fire loss averages over $3,000,000 per month, or $67,000 per day. Fire commissioners agree that a large proportion of fires are of deliberately incendiary origin, that a still larger percentage are unconsciously incendiary, and that a not inconsiderable number are the result of carelessness or neglect. The number of fires resulting from causes beyond human control constitutes almost a negligible quantity in the year's total.

How this situation should be handled is a difficult question. The law prescribes punishment for arson, but under present conditions and with the machinery available, it is exceedingly difficult to secure convicting evidence. The insurance companies, being private corporations, cannot be expected to prosecute; unless the amount at issue is sufficiently large and the evidence is conclusive, it is cheaper for them to pay the loss than to contest it. The police departments of our cities are seldom interested in fires unless it be shown that there are suspicious circumstances surrounding the occurrence. Even should this be demonstrated, there are no trained men connected with the police forces qualified to thoroughly investigate the circumstances.

—THE ADVOCATE office has a splendid stock of wedding stationery and calling cards on hand, also the most beautiful styles of type, so we are able to turn out the finest lines of wedding invitations, announcements, cards, etc. We can do work fit to invite the best of people to a wedding, so why pay two or three times as much to city printers or engravers for something that isn't a whit better for the purpose? See our samples.

LOCAL AND DISTRICT NEWS

Enlisted Here this Week

Those who joined the colors in Paisley this week to go with the 160th are: Wm Woodcock of Paisley, Mac Campbell of Greenock, Wm Stafford of Bruce Tp.

Child's Leg Broken

A little son of Mr and Mrs Jas McPherson, 4th con Elderslie, had both bones of one leg broken just above the ankle. The accident happened on Saturday, part of a load of fence rails rolling upon the lad when he came up to the sleigh as it was being unloaded. The lad is only three and a half years old, and a restless patient, but is recovering nicely.

Bought Farm

Mr. J. J. Bradley, of Toronto, came up on Saturday and purchased a farm in Elderslie, a 50-acre property, from Mr. Robt. Stoddart, on con. 4. Mr Bradley gave up farming at Bilengowan a couple of years ago, and went to Toronto, where he had a situation as head caretaker at the University buildings, but has decided to return to rural life, and intends moving up this spring.

Won Art Prize

Blanche Collins, of the Paisley entrance class, won the first prize offered by "The School" of Toronto in an art competition open to all public school pupils. The lesson was to be either still life or a landscape—a lesson taken during September or October. Miss Fisher sent work done by Blanche Collins, Reta Cormack, Annie Kilcauld, Mary Laidlaw and Jack Little. Besides Blanche winning first, the others received mention for merit. These pupils are to be commended for their meritorious work.

Death of Mrs. McIntee

Mr and Mrs T H George attended on Saturday the funeral of the latter's aged mother, Mrs Wm McIntee, of North Bruce, who died at her home on Wednesday previous. The deceased was one of the respected pioneer residents of Saugeen and was 77 years of age. Death was due to paralysis. She was predeceased by her husband. Besides Mrs George, there are four other members of the family living—James, at Port William; George, on the homestead; Mrs Wm Bell, Port Elgin; Mrs J H Brooks, of Denzil, Sask.

Badly Fractured Leg

On Thursday last Mr Howard Henderson, 7th con Elderslie, had one of his legs broken in two places at the thigh. He was skidding logs in the bush, and had his team hitched to a small stick which he was merely pulling out of the way. In turning around a tree the log caught firmly in such a position as to spring it. The team continued to pull and broke the chain, when the log sprang back, the end striking Mr Henderson on the upper part of the leg, with the result stated. He was all alone at the time, but the Haney brothers and Mr Duncan Graham were in the woods not far away, and hearing his call for help, came and took him home, where the injuries were attended to by Dr Cage and Houston.

Wark—Wilson

A quiet wedding took place at the Methodist church parsonage, Owen Sound, on Tuesday evening at 8 o'clock, when Mr D D Wark, one of Tara's successful business men, was united in marriage to Miss Elizabeth B Wilson, of Stayner. Rev J W Stewart, pastor of the First Methodist Church, Owen Sound, performed the ceremony. Their union reads like a romance. In their younger days they were sweethearts but drifted apart. Both were married and later were bereaved of their partners. The acquaintance of former days was revived and early love has claimed its own. Mr and Mrs Wark arrived in Tara on Wednesday afternoon and will take up their residence in Mr Wark's home on Yonge Street—Leader.

The late Mrs. John McKee

Another of the old familiar figures in the life of Greenock Tp has been removed by the death of Nancy McAfee, beloved wife of Mr John McKee, which occurred on Jan 5th. The deceased was born in King Tp., and immediately after her marriage (the 50th anniversary of which was celebrated last winter), came up with her husband to the farm on the 14th con., where he had prepared a home for his bride. They lived there until removing to Tunkerton village three years ago. Five members of their family survive—Mrs J A Gregg of Tunkerton; Mrs W Cumberland, of Sedgwick, Sask.; Mrs Caswell, of Success, Sask (who has been home for a few weeks); John and Robert, also in Saskatchewan. Two other sons, Alex and Fred, are dead.

Enlisted as Electrician

Mr Harry Marshall decided on Tuesday to offer his assistance to the field forces of the Empire as an electrician. He was accepted as a recruit, and now awaits orders to report at some point where such a corps is assembled, probably Halifax. Harry has had 30 years' experience that makes his life look like a romance in electrics. He helped to lay the first telegraph cable line from the U.S. to Honolulu, a distance of 5000 miles, and later during the Spanish-American war laid short lines in Havana Bay that connected up explosive mines. He put the first Bell telephone switchboard in Paisley central, and strung the first electric lighting wires in the village. For the past year or so he has been line manager for the Bruce Rural System. He expects to add to his extensive knowledge of the phoney business by the time the war is over, and hopes to bring back a lot of new wrinkles if he can survive the showers of shrapnel and get safely home again.

Hockey Schedule

The following list of games is the revised hockey schedule for this district of the Northern League:

Jan. 1—Owen Sound at Chesley
13—Chesley at Owen Sound
14—Paisley at Southampton
18—Southampton at Chesley
21—Owen Sound at Paisley
24—Owen Sound at Southampton
25—Paisley at Chesley
28—Southampton at Paisley
Feb. 1—Chesley at Paisley
4—Chesley at Southampton
7—Paisley at Owen Sound
10—Southampton at Owen Sound

Middleton and Walkerton will play a double schedule of games, the winners to play off with Wiarton, who drew a bye. The winners of this round will play the winners of the Chesley, Paisley, Owen Sound and Southampton district to decide which team will go into the next round.

ESPECIALLY FOR WOMEN

"Fruit-a-tives" Now Known as Woman's Best Medicine

"FRUIT-A-TIVES," the famous fruit medicine is particularly well suited *for the use of women*, because of its mild and gentle action and its pleasant taste.

In severe cases of *Constipation, Indigestion, Bloating, Sick Headaches, Pain In The Back, Neuralgia, or a General Run-Down Constitution*, "Fruit-a-tives" is the only medicine needed to correct such troubles and restore the sufferer to complete health.

As a tonic, "Fruit-a-tives" is invaluable to purify and enrich the blood and build up strength and vigor.

50c. a box, 6 for $2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Recruiting Rally

IN THE TOWN HALL, PAISLEY on the evening of

Friday, Jan. 14th

at 8 o'clock

Under the auspices of Paisley Recruiting League

Patriotic Addresses

Will be given by LT.-COL. A. WEIR, Commanding Officer 160th Overseas Batt; CAPT. CHAPLAIN DUNCAN, of the 135th Overseas Battalion; CAPT. A. W McNALLY, Adjutant 160th Battalion, who has just arrived home from the front, and was twice wounded while in the fighting lines; MR. R. D. CAMERON of Lucknow.

Music by the Paisley Orchestra, also Vocal Selections

Citizens of town and country invited to attend this meeting and hear the speakers. Ladies specially invited. All are urged to do their part in promoting the organization of the Overseas Battalion to be sent from Bruce County to assist in the tremendous struggle against those powers that threaten the liberties of the British Empire.

I. SHOEMAKER, Ch. Com. G. L. CARTER, Secretary

Recruiting League

At a public meeting on Monday night, called for the purpose, a Recruiting League was organized, following being citizens named to act as a committee to assist in securing recruits for the 160th Batt: I Shoemaker (chairman), Geo J. Carter (Sec'y), A Galbraith, H McKerracher, D McKenzie, J S Dewar, R B Grant, Dr Houston, Geo Craig, D McArthur, Alex Fraser, S Hallachey, J Hamilton, Jas Steele, D Lyons, W H Davison, D McGregor, A Rose, J Coulter, Dr Cage. A sub committe was later appointed to make arrangements for the recruiting rally meeting announced to be held in the town hall on Friday evening. A census committee is to make a list of all the men in Paisley between the ages of 18 and 15, also a canvassing committee, and another to arrange for opening a recruiting office in the Stack Block.

About Hydro-Electric

Below is the letter received by Reeve Hallachey from Chief Engineer Gaby, of the Hydro Electric Commission, in reply to an enquiry as to when power would be available for this section.

DEAR SIR—Replying to your letter of Dec. 16th we beg to advise that until the Eugenia system was put into operation recently we have not been in position to arrange for a satisfactory service for your municipality, but we are now preparing an estimate, the results of which will be forwarded to you as soon as completed, to determine the possibilities of serving you with power from Eugenia Falls development, and also the cost of same. When the time comes for us to develop power at the Saugeen river near Port Elgin, we can take care of your requirements very readily, but the difficulty at the present time is going to be to deliver power to you from Eugenia at a cost per horse power which would be satisfactory. We will, however, advise you later as to the results of our investigations.

Wallace—Hammond

A very pretty wedding took place at the home of Mr and Mrs H Bolender, Market St, Port Elgin, on Dec 22nd, when Miss Bolender's sister, Miss Florence E Hammond, youngest daughter of Mr and Mrs Geo Hammond, of the 12th of Bruce, was united in marriage to Mr John Wallace, son of Mr and Mrs James Wallace, of Saugeen, by Rev Mr Watt, of Burgoyne. The bride, who was given away by her father, was becomingly gowned in white net and voile with tulle veil held in place by orange blossoms, and carrying a bouget of carnations and maidenhair fern. Lohengrin's wedding march was played by Miss Mabel Bowen, cousin of the bride. During the signing of the register Mr Jas Scott sang "Oh, Promise Me." After the congratulations the guests entered the dining room and partook of a fowl dinner. The house was prettily decorated with evergreens, bells and flags. The P. H. band serenaded the bride and groom and were the recipients of a cash donation and dinner. The young people received many handsome and useful presents. The evening was spent in music, songs, etc, after which the bride and groom left for their new home in Saugeen, the bride wearing a blue velvet suit with fur trimming, and black velvet hat.

Knapp—Bluhm

A very pretty wedding took place on Dec. 29 to [illegible] Mr. and Mrs. Wm. Bluhm in Brent, when their eldest daughter Eleanor was united to Mr. John Knapp, of Sullivan. The ceremony was performed by Rev. Mr. Little, of Paisley. About three o'clock the friends started to gather and as the hour of four approached the bride and bridegroom entered the parlor and took their place under an arch of evergreens and flowers while the wedding march was being played by Miss Florence Golem, cousin of the bride. The bride looked charming in a gown of chiffon over pale blue cotillon pleated satin, and wore the groom's gift, a necklace. Miss Clara Knapp, sister of the groom, acted as bridesmaid, being dressed in a gown of blue silk, while Mr Geo Bluhm, brother of the bride, acted as groomsman. After congratulations were over the bride led the way to the dining room where a sumptuous repast was served. Friends numbering about sixty-five were present. The bride and groom received numerous and costly gifts showing the high esteem in which the recipients are held. The evening was spent in music and dancing. They will be pleased to entertain their many friends in Chesley after the 10th of January.—Enterprise.

THE STORE WITH THE QUALITY

Use ROYALITE Coal Oil. We have it.

A Trial Will Convince

"Mrs. Brown, how is it that your lamp chimney never smokes up? Mine is smoking all the time."

"What kind of oil do you use, Mrs. Jones?"

"Why, I do not know, I'm sure."

"That's the trouble. You are paying top price and not getting the good article. No wonder your chimneys smoke. I get my oil at Davison's. I buy

ROYALITE

the best oil on the market. Next time you want oil, go to Davison's, and I'll guarantee you'll have no more smoking lamp chimneys."

Use ROYALITE Coal Oil. We have it.

W. H. DAVISON

Croup

"I don't think there is a more anxious time for parents than when their children have croup. Without they are prepared with Chamberlain's Cough Remedy they must wait for the doctor and listen to the choking, metallic cough and watch their little one gasping for breath.

"Granny" Chamberlain

You know the great danger of croup is the formation of a false membrane in the larynx, and until this is expelled relief cannot be obtained, and the spasmodic choking continues. Give Chamberlain's Cough Remedy in frequent doses. It will loosen this membrane and cause the child to expel it by vomiting.

Chamberlain's Cough Remedy

is an absolutely safe and certain remedy for croup, and if given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack."

Yours for Health—"Granny" Chamberlain

THE YEAR OF VICTORY DAWNS IN ITS GLORY

President Poincare in a Message Inspires His Soldiers—Glorious France Will Uphold Its Traditions

"Nineteen hundred and sixteen will be our year of victory," says President Poincare in a message to "the officers and soldiers of France," which has been distributed along the whole front. The message, which is one of great simplicity, expresses the confidence of the entire nation in its defenders. The letter follows: "Like you, my noble friends, I have read with emotion in the army bulletin messages addressed to you on the eve of the New Year by the Mayors of our large cities. The same language is used by all these French cities, and it is easy to draw from these numerous expressions the unanimous sentiment of the country.

Example Inspires Civilians

"Everywhere you have seen maintained without effort this sacred union spontaneously established seventeen months ago under the menace of the enemy. Why should not the civil population follow the example of agreement and harmony which you give it? In the trenches and on the battlefields you hardly think of considering your personal opinions. While you are thus sacrificing everything to the salvation of the nation, is it not natural that those Frenchmen whose age, health or duties prevent them from meeting at your side the fatigue and perils of war work, should at least repel harmful suggestions of hatred and conserve jealously the public peace? In the war which we are carrying on so valiantly in France, Belgium and the East the part played by implements of destruction has become of essential importance, and it is the imperious duty of the Government to furnish you constantly with the most powerful weapons and an abundance of munitions. But moral power is the foremost consideration for final success. The beaten side will not necessarily be that which has had the heaviest losses or has endured the most misery. It will be the side which becomes wearied first. We shall not become wearied.

France Confident

"France is confident because you are there. How many times have I heard your officers say: 'Never at any time have we had a finer army. Never have the men been better trained, more brave, more heroic than ours.' Wherever I have seen you I have felt a thrill of admiration and hope. You will win. The year which is beginning will bring you, my friends, elation of heart for having accomplished the defeat of the enemy and the joy of returning to your homes, there to celebrate the victory calmly with those whom you love."

Shooting Stars

Shooting stars, or meteors, are small planetary bodies, multitudes of which infest space. It is computed that 20,000,000 enter the atmosphere every day. They have regular laws of movement, as have other stars; a few reach the earth, however, if they come near enough to be influenced by the force of gravitation. The "visible life" of a meteor is contained within the compass of one second. When it "disappears" from our sight it merely ceases to be visible to us; it continues on its path

FARM WORK SHOWN BY MOVING PICTURES

Educational Propaganda Carried to the Farmer's Door—Scientific Management Illustrated in Novel Way

In the Province of Ontario moving pictures are now used in connection with the educational propaganda of the Department of Agriculture to promote better farming. The "Better Farming Special" carries a series of moving picture films illustrating farm work along lines advocated by the Department. In past years much has been written about improved orcharding, and pamphlets have been issued dealing with pruning, spraying, cultivating, picking and packing. But now the farmer can see for himself these various processes in actual operation. He will not have to take a day off, and travel many miles to a demonstration orchard. One series of films visualizes to him the most improved class of work in an orchard. He can see for himself the unnecessary wood being cut out of the trees, and how they look after being properly sprayed. Then the handling of the fruit so that it may reach the market in in the best possible condition is put before his very eyes.

Much has also been said about farm drainage. Now the moving picture tells the farmer how he can go to the district representative of the county, who will come to the farm with level and rod and make a survey of the place. He goes into the fields and views the physical conditions and comes back with a plan showing the farmer just where his drains should go. This is then followed by pictures of a ditching machine at work and the men laying the tiles. Another series of pictures deals with live stock judging, but perhaps one of the most interesting films carried is that relating to school fairs. It shows the distribution of seed to the children, the children working in their plots and the district representative visiting them and giving pointers, concluding with a scene of the school fair where the products are on exhibition and the children are engaged in parades and competitions.

The "Better Farming Special" is a demonstration farm on wheels. Provision is made for showing the pictures in a hall adjoining the stopping place so that a large crowd will have the benefit of both its educational and entertaining features.

THE SPEED OF STARS

In order to obtain more exact figures in connection with the sun's motion through space and other similar problems, astronomers are measuring the velocity and direction of a great number of stars, which, like the telegraph poles along a railroad track, seem to go rapidly backward as we move forward. The motion of a star naturally resolves itself into two parts. One measured along the line of sight representing its amount of approach toward us or its retreat, the other measured at right angles to a line drawn at right angles to the observer.

The first of these motions is measured by a study of change in the star's spectrum, the second by comparing its position as measured accurately at dates many years apart. The velocity of a star seems to be a factor of its effective age. The average velocity of stars ranges from between three and four miles per second for "young" stars to about sixteen miles per second for "old" ones. These high velocity stars are sometimes described as runaways, because they seem to be quite beyond the control of the gravitational power of the universe.

Simon Newcomb once calculated that the maximum velocity attainable by a body starting with velocity zero at an infinite distance and passing through a stellar system containing 100,000,000 stars each five times as massive as our sun and distributed throughout a disk-like spheroid of certain extent cannot exceed 40 kilometers per second. Yet the star "Groombridge 1830" has a speed nine times this value, and the massive star Arcturus has a speed probably four times this value. If existing velocities owe their magnitudes to the gravation of the system, the quantity of attracting matter in the whole stellar system would have to be at least 80 times that assumed by the calculations of Professor Newcomb.

Royalties Pocket-Money

The King and Queen do not make the mistake of giving their sons unlimited pocket-money. The younger princes, George and Henry, have never had more than $1.25 a week, a sum which they all receive until they are sixteen. At the same time nothing within reason is denied them, and their tutor has permission to order things for them. Princess Mary, on her seventeenth birthday, was promoted to a cheque book, and has proved herself well able to take care of it.

Operations in no fewer than 80 countries are carried on by the Salvation Army.

How to avoid Operations

These Three Women Tell How They Escaped the Dreadful Ordeal of Surgical Operations.

Hospitals are great and necessary institutions, but they should be the last resort for women who suffer with ills peculiar to their sex. Many letters on file in the Pinkham Laboratory at Lynn, Mass., prove that a great number of women after they have been recommended to submit to an operation have been made well by Lydia E. Pinkham's Vegetable Compound. Here are three such letters. All sick women should read them.

Marinette, Wis.—"I went to the doctor and he told me I must have an operation for a female trouble, and I hated to have it done as I had been married only a short time. I would have terrible pains and my hands and feet were cold all the time. I took Lydia E. Pinkham's Vegetable Compound and was cured, and I feel better in every way. I give you permission to publish my name because I am so thankful that I feel well again."—Mrs. FRED BEHNKE, Marinette, Wis.

Detroit, Mich.—"When I first took Lydia E. Pinkham's Vegetable Compound I was so run down with female troubles that I could not do anything, and our doctor said I would have to undergo an operation. I could hardly walk without help so when I read about the Vegetable Compound and what it had done for others I thought I would try it. I got a bottle of Lydia E. Pinkham's Vegetable Compound and a package of Lydia E. Pinkham's Sanative Wash and used them according to directions. They helped me and today I am able to do all my work and I am well."—Mrs. THOS. DWYER, 989 Milwaukee Ave., East, Detroit, Mich.

Bellevue, Pa.—"I suffered more than tongue can tell with terrible bearing down pains and inflammation. I tried several doctors and they all told me the same story, that I never could get well without an operation and I just dreaded the thought of that. I also tried a good many other medicines that were recommended to me and none of them helped me until a friend advised me to give Lydia E. Pinkham's Vegetable Compound a trial. The first bottle helped, I kept taking it and now I don't know what it is to be sick any more and I am picking up in weight. I am 20 years old and weigh 145 pounds. It will be the greatest pleasure to me if I can have the opportunity to recommend it to any other suffering woman."—Miss IRENE FROELICHER, 1923 Manhattan St., North Side, Bellevue, Pa.

If you would like special advice write to Lydia E. Pinkham Med. Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Special Price Sale of Wall Papers

Commencing Monday, Jan. 10

We have a splendid assortment of Papers of all designs for Parlor, Dining-Room, Hall, Bedroom or Kitchen decoration, which we will sell

AT COST, WHILE THEY LAST

Come and see them at our Show-Rooms—first door south of Davison's Hardware

T. H. GLOVER
Painter and Decorator

Byron Pink Tomato

FREE

A post card addressed to us as below, with your name and address ONLY on the other side, will cost but one cent. Drop it in the nearest mail box, and it will bring promptly a copy of our illustrated 80-page catalogue for 1916. With it will come also—free—a 15c. packet of

Byron Pink Tomato

A perfectly formed tomato, the Byron Pink is uniform, large, and attractive. The flesh is firm, and the flavor delicious and full-bodied. It is a robust grower and a heavy cropper. It is an ideal tomato for forcing. You are going to buy seeds anyway; then you might just as well send for our catalogue and get this free premium for yourself.

The Catalogue tells about the other valuable premiums which we give with every order.

DARCH & HUNTER SEED CO., LIMITED, LONDON, ONTARIO, CANADA

ANOTHER SEA TRAGEDY

Austrians Continue Murderous Career—Answer to American "Justice"

The British liner Glengyle, bound from Yokohama for Genoa has been sunk in the Mediterranean Sea by a submarine. The loss of life is believed to be ten. Several Americans are reported to have been among the passengers. One hundred survivors were picked up by other ships. The Glengyle was bigger than the P. & O. Liner Persia. It displaced 9,000 tons. The Glengyle was owned by McGregor, Gow and Company of Glasgow and was one of the finest steamers in the Oriental service. Reports that the Glengyle was destroyed near the spot where the Persia was torpedoed gave rise to the belief that both may have been attacked by the same submarine. The heavy destruction to shipping in the Mediterranean indicates that the Teutonic powers have a large fleet of underwater boats watching the steamer lanes in the Mediterranean, particularly near the Suez Canal. The Glengyle was a new boat, having been built in 1914. She hailed from Glasgow. Her length was 500 feet and she was 62 feet in the beam.

The Copyright Act in 1911 requires the publisher of every book, sheet, and pamphlet to deliver a copy to the trustees of the British Museum. Under the old Acts tradesmen who published advertisements, used not to deliver copies to the trustees, but to register the publications at Stationers' Hall. The Act of 1911 abolished registration, and it is now complained that many tradesmen have taken advantage of the Act, and have delivered in some cases thousands of advertisements to the British Museum trustees, demanding a separate written receipt for each. Other libraries complain of a plague of bun-bags and tramcar tickets.

"BIG EATERS" IN FACT AND FICTION

INTERESTING TALES OF VALIANT ACHIEVEMENT.

A Subject Which at This Season Is Entirely Proper and Permissible.

Boys are especially noted for eating well, but not always wisely. Take Penrod, for instance. It is recorded that on a certain afternoon, when a circus was in town, he consumed the following articles in the order here set down: A pickle, raspberry, lemonade, sardines, cider, watermelon, peanuts, popcorn, waffles, ice cream, taffy, sausage. He survived, as almost all boys do under similar circumstances, albeit the doctor was called to the aid of Providence.

A Comic Song Cure.

As we increase in stature we are supposed to increase in dietary discretion. This is, indeed, more or less a supposition, according to particular cases. If the case, perchance, should require a doctor, let a word to the wise be sufficient. Esculapius is said to have written comic songs to promote the digestion of his patients. Perhaps, if you make the request tactfully, your doctor will sing you a comic song. Maybe it will cure you of dyspepsia, but maybe not. You never can tell till you try.

We confess to a liking for the very phrase, "valiant trencherman." We shall not hold to a strict interpretation, but employ the words as will best suit our present purposes.

Our thought turns at once to the pages of Dean Swift, wherein he describes the noonday meal of a farmer fairly well known in literature. In the middle of the table was set "a substantial dish of meat (fit for the plain condition of a husbandman) in a dish of about four and twenty feet diameter." Queen Glumdalclitch, to accept the statement of the same author, was another Big Eater. "She would craunch the wing of a lark, bones and all, between her teeth, although it were nine times as large as that of a full grown turkey, and put a bit of bread in her mouth as big as two twelve-penny loaves. She drank out of a golden cup about a hogshead at a draught." This description would be quite unfair to any reasonable turkey, but for the fact that it is quoted from the "Voyage to Brobdignag."

While we are absent from the world of ordinary proportions we may visit the Northland, where Thrym brought home the fraudulent Freya as his bride. Mr. Bulfinch is authority for the statement that Thrym was "greatly surprised at seeing her eat for her supper eight salmon and a full-grown ox, washing the whole down with three tons of mead." No wonder he said:

> I never saw a bride
> Eat so much,
> And never a maid
> Drink more mead.

The Escape From Grub Street.

"Washing it down," is a delectable expression and reminds one of old Samuel Johnson, whose remarkable way of washing his food down has been described in one of the impeccable essays of Mr. Macaulay. Johnson's century is famous for its solid eating and hard drinking. Not that the dictionary maker was a hard drinker. As to the other matter, his Grub Street experiences had made him anything but delicate in his eating when he had something to eat. "Being often very hungry when he sat down to his meals," says Macaulay, he contracted a habit of eating with ravenous greediness. Even to the end of his life, and even at the tables of the great, the sight of food affected him as it affect wild beasts and birds of prey." At the tables of the great in that period sat the six-bottle men and dinners were often eight hours long.

A little earlier than Johnson's time Swift describes a dinner at the house of Lord Smart, where the fare consisted of:

First course—Sirloin of beef, fish, shoulder of veal and tongue, claret.

Second course—Almond pudding fritters, chickens, black puddings and soup. Wine and small beer.

Third course—Hot venison pasty, a hare, a rabbit, some pigeons, partridges, a goose and a ham. Beer and wine.

A tankard of brown October passed from hand to hand, and when the ladies withdrew to sip their tea the men remained to drink Burgundy.

Mrs. Montagu, Lady Mary's cousin by marriage, wrote the following amazing confession: "I wake generally about 7 and drink half a pint of warm asses' milk, after which I sleep two hours; as soon as I am risen, I constantly take three cups of milk coffee, and two hours after that a large cup of milk chocolate: two hours more brings my dinner, where I never fail swallowing a good dish of (I mean plate) of gravy soup, with all the bread, roots, etc., belonging to it. I then eat a wing and the whole body of a large fat capon and

A Veal Sweetbread.

concluding with a competent quantity of custard and some roasted chestnuts. At five in the afternoon I take another dose of asses' milk; and for [illegible] 12 chestnuts (which would weigh 24 of them in London), one new-laid egg and a handsome porringer of white bread and milk. With this diet, notwithstanding the menaces of my wise doctor, I am now convinced that I am no longer in danger of starving."

Even in France, where epicureanism flourishes, there are Big Eaters. Dumas tells of the Viscount de Vieil-Castel and the wager he made. To a company of friends the Viscount said:

"A single person can eat a dinner costing 500 francs."

"Impossible!" was the simultaneous exclamation.

"It is well understood," resumed the Viscount, "that by the term eating is included drinking as well."

"Parbleu!" replied his friends.

"Very well; I say that a man, and by a man I do not mean a carter, but an epicure—a pupil of Montron or of Courchamps—can eat a dinner of 500 francs."

"You, for example?"

"I, or any one else."

"Can you?"

And he did, at the Cafe de Paris. He had breakfasted as usual and his bill for dinner was close to 500 francs. Ah, but the rates were high? Ah, again, but you should read the story as Dumas tells it. The Viscount won a place for all time among the biggest of Big Eaters.

Two "Valiant Trenchermen."

Among the statesmen to whom the term "valiant trencherman" has been correctly applied was Bismarck. He was also a hard drinker, and if we may follow the precedent set by the Viscount de Vieil-Castel and include drinking under the head of eating, let's have the story. An American officer tells of an evening he spent with the creator of an empire. "I thought," says the officer, "that I had seen hard drinkers, but I found during the evening with Bismarck that the drinking men I had met were tipplers in comparison with this great man." Tossing off a pint of violent brandy had no visible effect on Bismarck, and he must have deserved his title as the Iron Chancellor.

LIFE IN UGANDA.

Where the Efficiency Engineer Is Needed.

Building, when you have any to do, writes Mr. A. L. Kitching in "On the Back Waters of the Nile," is a very worrying piece of business in Uganda; for the incapacity of the workmen is exceeded only by their laziness. One gang of men engaged in building a church in Kaharole was told to deepen the hole for one of the poles and then to put the pole in place.

Two hours afterward the entire gang was discovered seated round the pole, each with a hand upon it lest it should fall over and crush them. They were waiting patiently for some one to come and tell them whether the hole was now deep enough. They would have sat there contentedly for the rest of the day, if no one in authority had appeared.

The general desire to "boss" some one else interferes with speedy accomplishment. A considerable crowd of men will turn up to work on a job—the making of a road, the building of a house, or the clearing of an area of jungle. At the head comes the chief, who does no more than walk about and give tone to the proceedings by his presence. The men are set to work on different parts of the job by the subchiefs. Having argued the matter to a finish, the subchiefs leave each a katikiro in charge of their men and retire to discuss the news of the day.

These overseers then in turn choose katikiros from the men of each village. In all probability these katikiros again will each appoint one or two deputies, and as no one labeled "katikiro" expects to do any work himself, the number of ordinary unvarnished laborers left to do the real work is very small. As the day goes on, even these men often put boys to work in their places and join the ranks of the "sitters-out"; some who have been at work for an hour or two will recollect that once they were appointed vice subdeputy to somebody's under-assistant katikiro. They will thereupon join one of the groups in the shade; and at length there will be left only a half dozen boys, and they scarcely make more than a pretense of working.

TAKING PLACES OF MEN.

150,000 Women to Be Employed as Clerks in England.

Women are to take the place of 150,000 clerks employed by the British Government, who will be released for active service.

Preference will be given to the wives and sisters of the recruits in filling the vacancies. There are more than 300,000 Government clerks employed in England and Wales alone who are of military age, but part of them are physically unfit for the army and others have a specialized knowledge of their work that makes them invaluable in their departments.

The women clerks, after a short training course, will receive the wages of the men whose places they take.

Luck.

Jack—Congratulate me, old man.

Tom—What's up? Are you engaged?

Jack—No. Miss Roxleigh refused me the day before her father made an assignment.

THE TASTE OF GOOD FOOD.

Why Your Mouth Waters for Certain Dishes.

"You get precisely as much stimulation from a bill of fare as you do from seeing the food itself." So says Dr. Anton J. Carlson.

The times you have stood with your nose flattened against the plate glass that separated you from the tempting spread of viands in the restaurant window might well have been spent in reading a menu for all the good it did you. Your digestion received exactly the same benefits.

The fact is that you get hungry from remembering how those things tasted. "A pleasurable recollection of the tastes of good food," Dr. Carlson calls it. The scanning of the printed lists of food stir your memories of just how certain things tasted. If you see unfamiliar foods in the window your mouth doesn't water. Strange smells wafting upward from unrecognized dishes do not whet your appetite like the familiar scents from roast turkey or frying potatoes.

As a matter of fact neither sight nor smell of food does what you think it does. You imagine that it actually makes you hungry, and that they make your mouth water. Dr. Carlson says "No."

"The fact that a man smells and sees food has no effect whatever on his hunger contractions and only a negligible effect on the flow of gastric juice."

What it does is to stir your imagination of just how things you have eaten would taste again. The effect they produce is mental, not physical. The hunger contractions do not occur at such times than at any other.

Hunger itself is frequently not recognized. It is indicated by headaches. When the blood pressure is high the head throbs and pains. When hunger is keenest the blood pressure rises in height correspondingly and consequently the presence of headaches is quite apt to indicate the necessity of a large meal.

THE CANALS OF MARS.

Said to be Life and Intelligence on That Planet.

Latest observations of the so-called canals on Mars indicate more clearly than ever before, according to Professor William H. Pickering of Harvard University, that there is life and intelligence on that planet and that these mysterious lines are some of the results of the presence there of thinking creatures.

The canals, Professor Pickering believes, indicate a shortage of supplies for vegetation, and he surmises that the Martians may be struggling along on a scanty allowance of nitrogen or oxygen or carbondioxide, each of which is essential to vegetation. Water, too, probably is scarce on Mars, he adds, saying:

"According to this theory, invisible water vapor is evaporated by the heat of the sun from the snowy pole in the springtime and transported by the planetary circulation to the other pole, where the sun is setting for the long winter night. Here the vapor, which forms a much larger proportion of the planet's atmosphere than with us, is condensed as snow, a constant distillation going on by the sun's heat from pole to the other.

"During the night time a portion of this travelling vapor is deposited as fog, and this fog is possibly artificially directed to form elongated areas by means of liberated electrons or otherwise.

"In the early morning on Mars when the sun is rising we can sometimes see the fog clear away, and it is in these moistened regions that the vegetation springs up and forms the so-called canals."

AS TO THE KILT.

More Popular With the Scottish Highlanders Than Ever.

The exact origin of that interesting garment, the kilt, is lost in the mist of antiquity, although its history goes back to the time when it was a part of national dress of Ireland and Wales as well as of Scotland, says a writer in Pearson's Magazine. In the Middle Ages the kilt was a kind of a shirt called a "lenn." It was worn with a jacket and a single piece of cloth thrown over the shoulders. In those days, although the "lenn" was colored, it had nothing like the variety of colors of the present-day plaids.

The Scot found that this garment, reaching below the knees, interfered with his freedom of movement in a fight or an athletic game, and so he tucked or kilted it just above his knees.

Back in the Middle Ages the Scottish clans were always fighting amongst themselves, and each clan found it advisable to wear a distinctive color. Why tartans were chosen no one knows. As a matter of fact tartans were not very common even as late as the early eighteenth century.

In 1747 a special act—the Highland Garb Act—was passed in the effort to abolish the costume of the Scottish Highlanders, but fortunately its only effect was to make the kilt more popular than ever.

For every man who seeks glory at the cannon's mouth, ninety-nine seek it at their own mouths.

NEW PREMIER OF BRITISH COLUMBIA

HON. WILLIAM BOWSER IS COLD AND CLEVER.

He Is a Native of New Brunswick and Forty-Eight Years Old.

British Columbia's new Premier, Hon. William Bowser, is, like most prominent Westerners, an Easterner. Mr. Bowser is from a long way East, having been born in Rexton, New Brunswick, forty-eight years ago—the year of Confederation. He was graduated from Dalhousie University, Nova Scotia, with honors and the degree of LL.B., and was called to the bar in New Brunswick in 1890. In the following year he left for the West, which was then very raw and undeveloped, and located in Vancouver, where he became one of the leading lawyers of the Coast Province.

Mr. Bowser took naturally to politics, and since his election to the British Columbia Legislature in 1903 he has steadily advanced in prominence, having been since 1907 the Provincial Attorney-General and Sir Richard McBride's right-hand man, or, in fact, "the man behind" the Government. It is the general impression while McBride was the picturesque figure round which diversified elements among the electors were rallied, the smooth, skilful Mr. Bowser was looking after the organization and things in general.

Hon. William Bowser.

New Premier of British Columbia.

He is said to resemble Napoleon Bonaparte in features and stature. And his methods also suggest the Little Corporal. No other Attorney-General in the history of British Columbia has enforced the law so majestically as he. But there is one man in Victoria, a chauffeur, who occasionally unfolds a tale of collision between Mr. Bowser and the law.

Concluding his part of a public function at Esquimalt, the historic naval base on the pretty little harbor about three miles from the border of Victoria, Mr. Bowser, who was to attend an important meeting in Vancouver the same evening, hastened on to a taxicab and instructed the chauffeur to drive him to the C.P.R. wharf in Victoria Harbor.

"There is just time to catch the steamer if you hurry," said the Attorney-General.

"Yes, Sir."

Stuck to the Law.

Half way to the wharf Mr. Bowser looked at his watch.

"I said I wanted to catch the steamer to Vancouver," said Mr. Bowser incisively.

"Yes, sir," the chauffeur replied, but he neglected to do anything to accelerate the speed of the taxi.

A little later Mr. Bowser again consulted his watch.

"There are just three minutes left," he shouted, able to contain himself no longer. "Why don't you hurry?"

"I must not drive any faster," said the chauffeur. "I am making ten miles an hour, and that is the speed limit in Victoria."

"Oh bother the speed limit. Never mind the regulations. I am the Attorney-General," thundered Mr. Bowser.

"I can't help that, sir; I know the law," replied the chauffeur, glancing at a blue uniform as he passed a corner and recalling a fine for speeding a few days before.

When the chauffeur deposited his fare at the wharf, the steamer was two cable-lengths out. Thus it came to pass that the speed regulations of Victoria were still intact, but Mr. Bowser missed an important political meeting in Vancouver.

Summer Resorts in Galilee.

It is generally agreed that the victory of the allies will result in freeing the Holy Land completely from the Turks, in opening it up to all civilized people as well as to the Hebrews, and in making it a safe, delightful and supremely interesting resort for tourists and travellers. An enterprising British syndicate, backed by religious organizations, is already planning the network of resorts and railroad lines connecting them, with which they will cover the Holy Land after the war.

ORIGIN OF BLIND MAN'S BUFF.

How the Game So Dear to Children Originated.

Liege and Louvain, in this year of war and desolation, are names that breathe the very echo of tragedy. It is hard to associate them with anything as gay and innocent as the children's game of blindman's buff—although that game, indeed, owes its origin to a tragic feud between two warriors of the rival cities, as long ago as the year 999.

Jean Colin of Liege was a mighty fighter of gigantic stature and strength, whose chosen weapon was neither sword nor spear, but a heavy mallet, which he wielded with such terrific effect that it soon earned him the nickname of "Maillard," or the mallet-man. Throughout his own and all the neighboring provinces he became known and dreaded as Colin Maillard. Everywhere he was victorious, until only one chieftain, the Count of Louvain, still held the fight against him. At length they met in final battle. At the first onset, before the terrible mallet could reach him, the Count of Louvain, with his long spear, thrust straight for the giant's face, and destroyed the sight of both his eyes. With the leader of his foes thus disabled, he had no doubt of putting them to flight; he counted the victory as good as won.

But the blinded giant rallied presently from the shock, ordered his esquire to take him into the thickest of the fight, and dashed raging against his enemies, brandishing his mallet on either hand as he rode. He slew many a man he could not see, and the terror inspired by his dreadful aspect, the execution done by the swinging mallet, and the renewed courage of his followers, charging close at his heels, first dismayed and then destroyed the men of Louvain. Not one survived to tell the tale.

Robert the Devout, then King of France, was an ardent admirer of deeds of valor. Such an exploit as Colin Maillard's was entirely to his taste. He not only showered gifts and honors upon the hero, but caused the players of the court to produce a pantomime, representing his achievements, on the stage. They made, as may easily be imagined, an exciting melodrama, which soon became so popular that it was played everywhere, and imitated even by the children on the streets. The great scene was, of course, the blind man seeking for his enemies; and the lad who played Colin was blindfolded and given a stick, while his playmates dodged and ran as he pursued and struck or clutched at them.

To-day the drama, the chieftains and the king are forgotten; they are relegated to dry and dusty chronicles. But the game still lives. To English and American children it is blindman's buff; in Europe it is still called "colin-maillard."

BENEFITS OF SOUR MILK.

A Vigorous Phosphate Food, Says Medical Profession.

Why is sour milk good for you? Why should it be so when everything else in the realm of edibles is thrown away when it "sours"? Sour grapes are a by-word for unsleasing; cooked food set away too long "turns" and is delivered to the pigs.

But sour milk, the medical profession insists, not only is better than sweet milk but in it lies the secret of longevity.

Science marshals these facts and advances them in formidable array. The rich lactic ferment in curdled milk cleans the intestines of microbes and does much to prevent intestinal poisoning, which is generally believed to be the most pernicious force in bringing on old age. The digestive tubes contain these germs that bring on senility and lack of vigor. When the sour milk fluids come in contact with these microbes the little forms of animal life give up the ghost. The antiseptic forces in the lactic substances are too strung for the bugs.

Sour milk is a strong vigorous phosphate food, acquiring this quality in the process of clotting, which takes place when it is left in a warm place for some little time before being taken as food. It excites the intestines and acts as a brisk tonic upon the whole digestive system.

The long lives of the Balkan mountaineers is attributed by scientific men to their copious use of sour milk as a drink. In times of peace Servia was known to have more septuagenarians and more inhabitants over 100 years of age in proportion to its population than any other country in the world. The Bulgars, too, boast of their longevity. Each nation uses curdled milk as food and refreshment.

Massage Cure for War Ills.

Mrs. Almeric Paget is organizing and equipping massage camps in England. Miss French, a daughter of Gen. Sir John French, is in charge of one of these. It is reported that great benefits have resulted in many cases of wounded men from the front and those suffering from the result of shattered nerves.

Just a Lapse.

Hokus—I actually caught Longbow telling the truth yesterday.

Pokus—Wasn't he embarrassed?

Hokus—Only momentarily. He immediately tried to lie out of it.

HOLY SANCTA SOPHIA.

A Mosque Since Constantinople Became Moslem.

Constantinople just now, as an object of absorbing interest to the world because of the attempt of the allied nations to force the Dardanelles, to take the ancient capital of the Eastern Empire, and to restore it and its famous church—Sancta Sophia—to the keeping of a Christian people. Prof. Edwin A. Grosvenor, in his "Constantinople," speaking of the mosque—for Sancta Sophia has been a mosque since Constantinople became Moslem—says:

"The first question every stranger asks as his steamer rounds Seraglio Point from the Marmora, or descends the Bosphorus from the Black Sea, is, 'Where is Sancta Sophia?' To catch the earliest possible glimpse of its outline, every traveller strains his eyes. In after years it is the colossal form of Sancta Sophia that stands out most distinct among the memories of Constantinople. To many Constantinople means only Sancta Sophia. To all it is the symbol of what is grandest, most historic, and most sacred in Christian architecture.

"The Ottomans regard Sancta Sophia with the utmost reverence. The first official act of Mohammed II., the conqueror of Constantinople, was to convert it into a mosque. Alone, of all the churches seized by Islam, it retains its Christian name. The Moslems have tried hard to transform Sancta Sophia, but its Christian characteristics can be effaced only by destroying it. It resembles a mighty captive, ever mutely protesting against its chains. The long rows of prayer carpets stretch in diagonal lines, inharmoniously, across the floor, and the devotees, facing Mecca, are forced to bend in an unnatural direction toward the corner of the church.

"In the prostituted church, the Christian, weary of Arabic inscriptions and Ottoman traditions, grows heartsick and hungry for something that is his. Let him ascend the southern gallery and gaze from among the six colonnaded columns toward the vaulted ceiling above the five windows of the central apse. Gradually, in the dim, half-veiled surface, he discerns the mosaic form of a colossal Christ. The hair, the forehead, the mild eyes of the Saviour may be traced, and the indistinct outline of His form. The right hand, gentle

as when

In love and in meekness He moved among men,

is extended still in unutterable blessing, and in its comprehensive reach seems to embrace the stranger. Within the shadow, you feel that Christ is keeping watch above His own."

BY THE SKIN OF HIS TEETH.

Thrilling Exploit of a British Airman When in Mid-air.

The flying corps of all the armies have distinguished themselves for daring and gallantry during the present war. An eyewitness at the British headquarters, says the World tells about one thrilling episode that was more sensational than most of the adventurous exploits that occur along the front almost daily.

A British airman, alone in a single-seated aeroplane, saw and pursued a German machine. While trying to load his machine gun he lost control of his steering gear, and the aeroplane turned upside down. The belt round the man's waist was rather loose, and the jerk almost threw him out of the machine; but he saved himself by clutching hold of the rear centre strut while the belt slipped down round his legs.

As he hung thus, head downward, making desperate efforts to disengage his legs, the aeroplane fell from a height of eight thousand feet to about twenty-five hundred feet, spinning round and round like a falling leaf. At last he managed to free his legs and reach the control lever with his foot. Then he succeeded in righting the machine, which turned slowly over completely "looping the loop." Thereupon the pilot slid back into his seat and came composedly to the ground.

Calming Wild Waters.

"Pouring oil on the troubled waters" has long been known as an effectual method of preventing the breaking of the waves. A novel invention which will pour oil from a sea anchor to windward and spread it for two or three hundred feet around the vessel has recently been offered. The apparatus consists of a small oil-tank on the vessel, a suitable pipe for the oil, supported by a hawser from which a drag anchor is hung. A drag anchor is made of heavy canvas stretched over a framework so as to form a large cone-shaped object that floats in the water to windward as far as necessary. Upon the drag anchor is a nozzle through which the oil is discharged on each side of the drag.

London Crime Decreases.

There has been no increase in crime in London as a result of the darkening of the streets, says a report from the superintendent of police. All classes of offences but one show a steady decrease since the beginning of the war. The one exception is in pocket-picking during the daylight hours.

MOTHERS OF LITTLE ONES.

No mother of young children should be without a box of Baby's Own Tablets. The Tablets are mothers' best friend and are as good as a doctor in the house. Concerning them Mrs. F. Wurger, Ingersoll, Ont., writes: "I have used Baby's Own Tablets for the past eight years and would not be without them. I can highly recommend them to all mothers of young children." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

RING'S QUEER HISTORY.

Czar Peter of Russia Hanged the Man Who Gave It.

A napkin ring, reputed to have been used by Peter the Great, Czar of Russia, until he learned the significance of the carving on it and hanged the man who presented it to him, is in possession of E. A. Rosenberg, a Detroit insurance man. Mr. Rosenberg tells a strange story about the carved ivory circlet, which is not more than an inch high, but is covered with scores of tiny ivory figures.

"This ring," he says, "was presented to Peter the Great by Adolph Orloff. See, the initials, 'A.O.', and the date of presentation, '1703,' on the ring. The figures show the poor bowed down under the weight of the palaces and beautiful gardens maintained by the Czar. As you turn it you see these down-trodden people carrying their petition to the Czar and the judges of the land. See, here are three judges sitting at a table before an open book, and beside them is an executioner beheading the petitioners as fast as they arrive.

"When I was in the coal business in Odessa I hired a man from what is known as 'the barefoot district.' He was down and out, but he had papers to prove that he was a member of the Orloff family. When he was dying he asked me to save his body from a pauper's grave, and I gave him 25 roubles to arrange for a decent burial. In gratitude he gave me the ring and the papers relating to its history. The police in Odessa heard that the ring was in my possession and searched my house for it. They never found it."

"What would you take for it?" Mr. Rosenberg was asked as he wrapped the relic in cotton batting and tissue paper.

"No money could buy it."

GERMANS ARE OUTFOUGHT.

For First Time the Allies' Artillery Shows Superiority.

The Rotterdam correspondent of the Mail says: "The morale of the German soldiers in Belgium has been shaken by the terrific and sustained artillery fire of the Allies. Wounded who have arrived at Ghent say that the allied guns never give the Germans a moment's rest. All are deeply impressed by the vast quantity of ammunition expended. After the hard frost of last week the roads were almost impassable and there was great discomfort in the trenches. 'The shells pour into the trenches as fast as hailstones,' say the Germans. 'It is horrible. For the first time in the war we are outfought and outranged in artillery.'"

LACK OF MONEY

Was a Godsend in This Case.

It is not always that a lack of money is a benefit.

This lady owes her health to the fact that she could not pay in advance the fee demanded by a specialist to treat her for stomach trouble. In telling of her case she says:

"I had been treated by four different physicians during 10 years of stomach trouble. Lately I called on another who told me he could not cure me; that I had neuralgia of the stomach. Then I went to a specialist who told me I had catarrh of the stomach and said he could cure me in four months but would have to have his money down. I could not raise the necessary sum and in my extremity I was led to quit coffee and try Postum.

"The results have been magical. I now sleep well at night, something I had not done for a long time; the pain in my stomach is gone and I am a different woman.

"Every time I had tried to stop coffee I suffered from severe headaches, so I continued to drink it although I had reason to believe it was injurious to me." (Tea, also, is harmful, because it contains caffeine, the same poisonous drug found in coffee.) "But when I had Postum to shift to it was different.

"To my surprise I did not miss coffee when I began to drink Postum.

"Coffee had been steadily and surely killing me, and I didn't fully realize what was doing it until I quit and changed to Postum." Name given by Canadian Postum Co., Windsor, Ont.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

MUSIC IN THE HOME.

The desire to have music taught in public and high schools in Ontario is evidently growing, as music is now on the curriculum for teachers' examinations. We have yet to learn of any mother who does not desire her children to be taught music. We heard a debate recently on the relative merits of music and oratory, and after hearing arguments advanced by debaters on both sides, we came away more strongly convinced than ever that both subjects should be given greater prominence in Canadian schools.

The following essay on Music in the Home, is worthy of careful perusal and serious consideration by all parents, teachers and school authorities:

It has been said that in no country on earth, not excepting music-loving Germany, are there found so many pianos and organs in homes as in this country. All agree that this is as it should be. Music is invaluable as a means of recreation. Amusements in the home should have these characteristics—they should unite the family, deepen childrens love of home and guard them against temptation. To accomplish the first object we need recreations in which parents and children can join. Is there anything more genial and heart warming than to hear the whole family joining in a hymn or song? We read a great deal to-day about making far homes more attractive. Why should not the farmer's household be as cheerful, as full of pleasure, as that of the town or city man? Music affords effective means of doing this. One of the greatest attractions for old and young people when visiting in cities is the music that may be heard there. No family can really afford to do without some kind of music. It is a luxury and an economy. Of course, we all know music can influence to evil as well as to good, and that in some of the lowest music halls of the city skilled musicians may be found. But if we cultivate a taste for good music in the homes, girls and boys will have little taste for the coarse variety. The hymns sung by a mother to her little boy may in after days be a voice that will recall him from the path to ruin. For "A voice from the past calls out midst the throng, His mother's sweet voice in her lullaby song." Every song soothes and uplifts. It is just possible that at times a song is as good as a prayer; indeed, the Sweet Singer of Israel wedded his sincerest prayers to melody and wafted them upward on the night air from his throbbing heart. The soul that has been touched and made tender by the fingers of pain, music finds a place where it may murmur its sweetest chords. It was Henry Ward Beecher who said: "You can sing your cares away when you cannot reason them away." One morning the sweet voice of a woman was heard singing a ballad in one of the tenement house districts of a city. The effect was almost magical. Not only did children swarm out of their dingy homes and surround the singer, but adults leaned out of windows for several blocks on either side, and when the music ceased, the listeners turned again to their work refreshed in spirits. Someone has said, "Sing to the wicked man, sing to the disconsolate, sing to the old, sing to the children; for music will inspire them all." Truly, there is power in music—an almost unlimited power. Who does not know the softening power of music? Many are the incidents that could be given as to the power of music. Reporters on British battle-fields have written accounts of the Gordon Highlanders in this respect. They have told us that when the day seemed lost to Britain, and you could see naught but grim despair written on the faces of the stern Gordons, a piper at the same time wounded unto death, with his last remaining strength, grasped his bagpipes, and soon the martial strains of a familiar air floated out over the battle-field, and as line after line of those Gordon Highlanders caught up the familiar air you could perceive a slight emotion pass over them, and when the order came: "Gordon Highlanders, charge!" they fired, and rushed with such a mighty onslaught against the foe that the foe was driven back, and thus some of Britain's grandest victories have been won. "Play up the feet of the army," said the great Napoleon. When courage wavers lift up a song. You can write the history of lives and great events, but you cannot write the history of "Rock of Ages." Why is it that hearing such songs as Annie Laurie, Home, Sweet Home, Old Black Joe, and the old hymns Duke Street, Dundee, Antoch, along with many others, stir emotions as nothing else will do? Can any thing surpass them?

Songs learned in childhood, their notes will be heard and lived in after years. Music means not merely tunes adapted to particular emotions, a set of notes, a warbling voice—Oh, no. Music can be acted as well as sung. A simple word may be full of music, and stir the pulses to new and better emotions, the soul to higher joys. Someone has said, "The harmony of a well ordered life is most gracious music." When we think how much the world needs awakening, we can think of no power better calculated to do it than that which dwells in the mysterious melodies of music.

Music appeals largely to the emotional temperament, and it is probably, for this reason that it has been given such prominence in the service of the church, even from the days of the temple, when the Psalms and prayers of the people were chanted. One result of this is the constant use of music in divine worship. "Worship without praise would be an impossibility." The best efforts of our great masters have been brought to bear upon the sacred form of music. Let us render unto God our best and most sincere efforts, and be satisfied with nothing lower.

"If His love is in the soul
And we yield to His control,
Sweetest music will the lonely hours beguile.
We may drive the clouds away,
Cheer and bless the darkest day,
If we keep our hearts singing all the while."

CANADIAN EGG MARKET.

British Dealers Prefer the Canadian Variety.

For the first time in a number of years eggs have taken a prominent place in Canada's export trade. This is largly due to the unprecedented demand for eggs on the part of the British market and the fact that British dealers have shown a marked preference for Canadian eggs over United states eggs and willingness to pay a distinctly higher price for them.

So great in fact has been the demand that Canadian dealers have shipped practically all of the available Canadian storage product to the Old Country. As a result there is not in Canada at the present time, sufficient eggs in storage to supply home consumption until fresh receipts in appreciable quantities begin to come in.

Quantities of eggs from the United States, however, are being imported into Canada, some in bond for export, but the larger part to take the place of the Canadian product exported. On account of the keen demand for Canadian eggs above mentioned, United States eggs can be laid down in Canada at the present time, duty paid, at several cents per dozen less than the price at which Canadian eggs are selling for for export and they should be procurable by the consumers accordingly.

On the other hand the Canadian market at the present time is very firm for Canadian "Specials" (new laid) the production of which is not enough in most instances to supply the demand of local country markets. This means that high prices will have to be paid in consuming centres in order to draw a portion of these supplies from local points. Producers may therefore definitely expect reasonably high prices during the period of low production for fresh gathered eggs that will grade "Specials."

The question has been raised as to whether the phenominal demand on the part of the British market for Canadian eggs will continue. This depends entirely upon the quality of Canadian eggs exported. Canada has tremendous possibilities as an egg producing country. The poultry industry is at present but a mere fraction of what it might be. [illegible] therefore, for those most in[illegible] the development of this trade to make the best possible use of their present opportunities, and by careful supervision of the quality of Canadian eggs going forward to pave the way for an extensive and profitable export trade in the future.

Which is Which.

Mr. Exe—There goes Miss Muggs and her collie—beauty and the beast.

Miss Scratchy—You're right. That collie is a beauty.

Fighters: Their Little Troubles

THE Constable: Now, then: be says you hit him first. The Workman: Well, an' if I did. 'E bloomin' well insulted me—tellin' me ter go to the Kaiser.—London Sketch.

A Five-Cent Breakfast in five minutes! What a boon to the busy housekeeper! Two Shredded Wheat Biscuits, heated in the oven to restore crispness and served with hot milk, make a complete, perfect meal, supplying all the strength needed for a half-day's work at a cost of four or five cents. The richest man in America can buy nothing better. Contains more real nutriment than meat or eggs and is more easily digested.

Made in Canada.

RUSSIA'S FINE POSITION.

Her Financial and Economic Situation First-class.

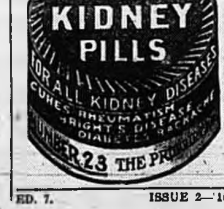
The Ministry of Finance has presented to the Council of Ministers a summary of the economic situation in Russia. The grain harvest for the current year, the summary states, was 512,000,000 poods (a pood equals 36 English pounds), about 350,000,000 bushels above the five-year average. Counting grain carried from the previous season, Russia had available for the current year 4,766,000,000 poods of grain and potatoes, equalling about 3,177,000,000 bushels, the excess of the available surplus over 1914 amounting to 789,000,000 poods, equalling about 526,000,000 bushels.

Deducting the probable consumption of the country, it is estimated that the new available surplus will be about 887,000,000 bushels. Reports regarding the winter crops are of the most favorable nature.

"According to the statement, the financial position of the population is shown by the growth of savings bank deposits. October's figures of these deposits showed the reaching of the high-water mark, with deposits of 74,000,000 roubles, as against 22,000,000 roubles in October, 1914. Since the beginning of the war, it was announced, the savings of the people have increased 499,000,000 roubles, and now amount to 2,468,000,000 roubles.

In spite of the loss of revenues because of the prohibition upon the sale upon spirituous beverages, and a diminution in imports amounting to 682,000,000 roubles during the last fiscal year, the decrease in ordinary revenues, the statement says, amounted only to 182,000,000 roubles, increases in revenue from other sources swelling the total. During the first nine months of the current year Russia immediately imported products to the amount of 610,000,000 roubles. Her exports during the same period, it was announced, amounted to 247,000,000 roubles.

How to Cook Roman Meal Porridge.



Invariably use double boiler, or set boiler in basin of boiling water. Have water boiling in both vessels, that in inner one salted to taste. Slowly stir in one cup Roman Meal to each two cups water. Cover, set in outer vessel, and never stir again even while serving. For early breakfast cook at evening meal and warm in morning, using a little less Roman Meal. It's dark, nutbrown, granular, rich porridge. It nourishes better than meat, prevents indigestion and positively relieves constipation or "money back." Ask your doctor. All grocers, 10 cents and 25 cents.

Made by Roman Meal Co., Toronto.

"Ough."

An exchange prints the following list of words ending in "ough," and adds the pronunciation of the more obscure words, so far as ascertainable from the dictionaries: Messrs. Gough (goff), Hough (huff), and Clough (cluff), though tough enough, thought through the day that they would visit Mr. Brough (broo), who, having a hiccough (hiccup) and a cough, lived in a clough (cluff or clou), with plenty of dough, and a tame though (chuff) kept near a plough in a rough trough, hung to a bough over a lough (loch). A slough (sluf) of the bank into the slough (slou) injured his thoroughbred's hough (hock). No wonder the foreigner shuddrrs at those four terrible letters!

The virtue of a cold bath lies in, "in quickly, and out quickly."

HOW HE WAS WOUNDED.

Thoughts of Danger Vanish in the Charge.

How the mad intoxication of the charge makes one forgetful of danger is told by a British soldier in explaining how he was wounded.

"I was about ten yards from the enemy's trench when the butt of my rifle was blown clean away, leaving the barrel and bayonet still in my hands. How I escaped I do not know, but I did not stop to think of that then. There was nothing for it but to rush on with the rest. On reaching the trench I was about to make a grab at a German rifle which lay beside a huddled figure when I saw a Prussian officer near by pointing a revolver at me.

"I bent down and at the same time made a thrust at him with my broken weapon. The bayonet caught him under the jaw, and he toppled over among his men in the trench. I left the weapon with him as a keepsake, for one of our men had fallen and I seized his rifle instead. I was not spared to use it long, though it proved useful, for I got in the way of a bullet which laid me out."

Throw Away Your Eye-Glasses!

A Free Prescription

You Can Have Filled and Use at Home.

Do you wear glasses? Are you a victim of eye-strain or other eye-weaknesses? If so, you will be glad to know that there is real hope for you. Many whose eyes were failing, say they have discarded their eye-glasses through the principle of this wonderful free prescription. One man says, after trying it, "I was almost blind, could not see to read at all. Now I can read everything without any glasses and my eyes do not water and pain more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them if a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. The trouble of many drugging and doctoring is needless. By following the simple rules. Here is the prescription: Go to any active drug store and get a Bottle of Bon-Opto. Fill two ounce bottle with warm water, drop in one Bon-Opto tablet and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you even a little, take steps to save them now and not wait till it is too late. Many needlessly blind might have been saved if they had cared for their eyes in time. If your own druggist cannot fill this prescription, send $1 to the Visions Drug Co., Toronto, for a complete Bon-Opto Home Treatment outfit—tablets and all.

Frigid Repartee.

Mrs. Finnegan kept a boarding house, and one day young Johnsen came to her with several complaints. She listened in silence for a few minutes, but as the young man waxed eloquent she lost her patience.

"Don't I know every one of the tricks of your trade?" said Johnson with considerable heat. "Do you think I have lived in boarding houses 15 years for nothing?"

"Well," replied Mrs. Finnegan icily, "I shouldn't be at all surprised?"

Minard's Liniment Cures Diphtheria.

How to Shoot Humming Birds.

To shoot a humming bird with the smallest bird shot made is out of the question, for the tiniest seeds of lead would destroy the delicate plumage. The only way in which the bird can be captured for commercial purposes is to shoot it with a drop of water from a blowgun or a fine jet from a small syringe. Skillfully directed the water stuns him. He falls into a silken net, and before he recovers consciousness is suspended over a cyanide jar. This must be done quickly, for if he comes to his senses before the cyanide whiff stuns out his life he is sure to ruin his plumage in his struggles to escape. Humming birds vary in size from specimens perhaps half as large as a sparrow to those bigger than a bee.

Women in London.

Extract from a school girl's essay on "Women's Work in War Time": "Women are now driving tram cars instead of their husbands."

Sore Eyes Granulated Eyelids, Syes inflamed by exposure to sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Smarting, just Eye Comfort. At Your Druggist's 50c per Bottle. Murine Eye Salve in Tubes 25c. For Book of the Eye free ask Druggists or Murine Eye Remedy Co., Chicago

Fires Which Never Go Out.

The following are some of the perpetual fires in the world. The sacred fire of Baherent, reputed to have been kindled 1,200 years ago, burns in a temple in the village of Judwada, India. The fire was consecrated by the Parsees in commemoration of their safe voyage to India. In the vaults where the Czars of Russia are buried two great candles, one at the head and the other at the feet, are always kept burning. When the tomb of Pallas, son of Evander, was opened in the twelfth century they found a lighted lamp hung over his head, which had presumably been burning for 2,000 years. A lamp was burning in the Temple of Venus which is reported to have been burning from time immemorial.

Minard's Liniment Cures Distemper.

Thorough.

Melindy, bereaved of her husband, consulted her young mistress on the proper wear to disclose her grief.

"Ah wants a black hat, an' a black dress, an' black shoes, an' black gloves, an' a whole black hank'chief, ma'am."

"Oh, no, Melindy," her mistress protested. "Not a solid black handkerchief."

"Honey," remarked Melindy, impressively, "when Ah mourns, Ah mourns."

Minard's Liniment Cures Colds, Etc.

Dubious Economy.

An old couple who used to buy a quart of ale every night were persuaded by a friend to purchase a keg of the beverage on economical grounds. The evening that the keg was broached and the first quart consumed the old wife said:

"Well, George, we've saved five cents on our ale to-night, and five cents saved is five cents earned."

"That's so," replied her husband. "Let's have another quart and save ten cents."

TAKE NOTICE.

We publish simple, straight testimonials, not press agents' interviews, from well-known people.

From all over America they testify to the merits of MINARD'S LINIMENT, the best of Household Remedies.

MINARD'S LINIMENT CO., LTD.

Making a Hit.

An advertisement of a recent sale ran thus: "The choice collection of bric-a-brac offered for sale is so unusual that it may safely be said each piece in it is calculated to create a sensation among people of artistic sense. Immediately upon entering the room the visitor's eye will be struck by a carved walking stick of great weight and beauty."

Minard's Liniment Cures Garget in Cows

Literary Note.

"I see," said Dobbleigh, "that in a recent volume of essays Henry James says that Zola lacked taste."

"Lacked taste!" echoed Bilkins. "Well, I like that. Why, I read one of Zola's books some years ago and I haven't got ride of the taste yet."

"How do you give your little dog exercise?" "I speak kindly to him and he wags his tail."

MOTHERS

REMEMBER! The ointment you put on your child's skin gets into the system just as surely as food the child eats. Don't let impure fats and mineral coloring matter (such as many of the cheap ointments contain) get into your child's blood! Zam-Buk is purely herbal. No poisonous coloring. Use is always. *50c. Box at All Druggists and Stores.*

GLAMIS

Miss Kate McKinnon returned to Chicago on Monday.

John Howson and Miss Edith left on Friday, the former to Toronto and the latter to Clifford.

Lieut. Wilfred McKay was in Glamis on Monday. He looks quite soldierly in his new uniform.

Miss Maggie Symons spent last week visiting friends in Paisley.

Quite a number attended the box social on the 6th of Bruce and report a good time. The school was packed, and they made over $80 for the Red Cross.

Miss Bell Armour and James ... on Monday for Calumet, Mich. Before their departure about forty friends and neighbors met and made a presentation to Miss Armour, with the following address:

DEAR FRIEND—After a long residence on the boundary of Kincardine and Bruce you have decided to take up your residence and make your future home in another land, and we your friends and neighbors have met on this occasion to manifest to you in thus congregating our sincere regret at your departure from among us. As a good neighbor and true friend, hospitable and kind, you have lived in our midst. In the years that have gone no one was ever let go away hungry or cold from your home. You have shared trials and triumphs in common with neighbors, friends and acquaintances. You leave us all with no unkind feelings lurking behind. We trust and pray that your new home may prove congenial to your desires and that new friends may prove to you as true as the old ones you leave behind. It is with reluctance we part with you and we hope your health, vigor and ambition may continue and that a kind Providence may favor you with many happy days and years to come. As a token of our sincerity and good will we present you with this suitcase and purse, and in saying a parting good bye we wish you both health and happiness hereafter.—Signed on behalf of the donors and dated at Glamis Jan 8th, 1916. Duncan McLennan, Hector McLean.

PINKERTON

The sad death of one of our oldest and most respected citizens took place on Wednesday in the death of Mrs John McKee. The deceased had suffered long from an incurable disease, and the end came on Wednesday. The heartfelt sympathy goes out to the sorrowing husband and family.

Pte Elmer Gregg, of Galt, attended the funeral of his grandmother, the late Mrs J McKee.

Mr Hugh and Miss Jean Cameron, of Chesley, visited friends in this vicinity.

Pte Gordon Garland, of Walkerton, Sundayed at his home here.

CARGILL

Miss E. Ledgerwood, a former milliner here but recently of Spokane, wash., is renewing acquaintances in this neighborhood.

Mr E McKenzie of Paisley spent Sunday and Monday at Mr F L Martin's.

Mrs H Winkless and Mrs Kohler left for their homes—the former to Ravenna, Ohio, and the latter to New York—on Saturday, after a two weeks' visit at Mrs J Loughleen's.

Mrs Bell attended the wedding of a friend in Toronto on Thursday last.

Mrs and the Misses Cargill are at present in Toronto.

Ptes S Thompson and H Hanson of the 160th, spent Sunday at their homes.

A couple of sleighloads from here attended the Capt McNally reception in Walkerton on Friday night.

Mrs Saunders was in Galt last week attending the wedding of her sister-in-law, Miss K. Saunders.

Rev Fiddis was in Hamilton on Monday attending the wedding of an uncle.

The Public Library Board held their annual meeting on Monday night, electing officers, etc. Miss Newman was engaged as librarian again at an increased salary.

UNDERWOOD

Miss Mary Drummond, of Kincardine, is visiting friends down the 6th.

Mr Mac Brown underwent an operation for appendicitis on Thursday. Although the case was pretty well advanced, the operation seems to have been quite successful, and we hope he will soon be around again.

Mr Douglas Matheson, of Moosejaw, Sask, is visiting his mother, Mrs Dan Matheson.

Mrs R D McKenzie returned from a trip through eastern Ontario on Thursday.

Mr Fletcher Johnson is down from the west on a visit to his father, Mr C R Johnson.

Mrs Wm McKenzie spent a few days last week with her sister, Mrs W A Cole.

Pte Claude Orford, of Owen Sound, visited his grandmother, Mrs Orford, a week ago.

Mrs Robert Bradley, and Mrs Parker of Greenock, visited at Mr Alf Bradley's last week.

Good luck at the present seems to be in having escaped the measles and the grippe.

SECOND CON. ELDERSLIE

Walter Jankie of Desboro visited over New Year's with his friend Jimmie Allen.

Mrs Geo Addison spent last week with his parents in Owen Sound.

Mr John Young is home from Winnipeg on a visit and spent last week with her parents in Owen Sound.

John Young is home from Winnipeg on a visit, and spent last week with his brothers Andrew and William on this line.

Chas Allen visited Bruce and Sangeen friends recently.

Miss Maud Davison has been laid up for some time with a very severe cold.

Walter McGregor of Gull Lake, Sask., son of Donald McGregor, formerly of this con, is spending a few weeks here with relatives.

Neil McMillan is engaged with Chas Allen to cut wood.

Mr and Mrs A McGregor entertained a number of friends one day last week.

Jack Walks, who enlisted in the 160th Bruce Batt., is the first resident of this con to answer the call for King and Country. Well done, Jack! May there be many more follow his example.

Peter Catto is the new trustee elect in S S No 2, and Henry Yeurs was re-elected in S S No 12.

W J Allen was in Toronto for a few days on business.

Alex Campbell and J B Allen delivered a pair of fine colts to buyer Craig of Paisley last week.

Hughie Campbell spent last week with Greenock friends.

While working with his team in the bush last week, Howard Henderson, a former resident here, met with the misfortune of having his leg broken.

EDEN GROVE

Some of our gallant young men are talking of putting their name in history by joining the 160th Battalion. Success to these noble young men.

Wes Overend is feeding cattle and cutting wood, and is making good use of his time.

Herb Pearson, the section foreman, is nursing a cold. It looks strange to see Herb taking it easy.

Angus Blue, our popular blacksmith, is attending well to his harvest these days. Icy roads mean good crops for him.

Rich Bailey returned this week to resume his duties as messenger in the House of Commons, Ottawa.

Tom Desmond, the grain merchant, is so busy buying grain that it takes his two men in the elevator storing it away.

We understand Mack Scott is putting a chopping and grain crushing outfit in the old sawmill. If this is right Pinkerton and Cargill mills might just as well shut down.

The Women's Patriotic League meets every Tuesday afternoon in Todd's hall to discuss the affairs of the League in general.

ELORA ROAD NORTH

Mr David Armstrong, of Wetaskiwin, Alta, is visiting at the home of his sister, Mrs Winch.

Mr Jim Miller is learning the barbering trade in Paisley.

Mr and Mrs Jas Hammond had a delightful little dance last week.

Mr Thos Irwin is buying horses for shipment to the west.

Mr and Mrs John Bryce, of Ogema, Sask, arrived from the west on Saturday to spend the winter with his parents, Mr and Mrs Arch Bryce.

Mr Kenneth McNeill spent a few days in Chesley last week.

Mr Arthur Thomas, who went to Deloraine, Man, last August, has come back for a few weeks' visit.

Mr John Campbell drove his son Garnet down to Ripley where he will remain for some time.

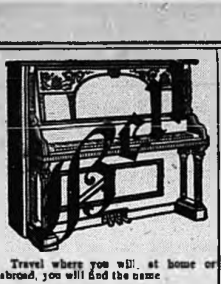
Mr Jim McGillivray has completed his term with Mr A L McKinnon, and is now engaged with Mr Harry Rudolph.

A very enjoyable evening was spent last Wednesday when a large party gathered at the home of Mr and Mrs John Wallace and presented the young couple with a handsome parlor suite.

TURNER'S

Mrs John Schrank is spending a few days in Hamilton.

A number of the young people took in the dance in Port Elgin on Friday evening. All report a good time.



Mrs J J Hillis has returned home after visiting her father in Hanover.

Mr and Mrs Ed Forrester, of Kincardine, spent a few days visiting friends here.

Mr Jas Moore is engaged cutting wood with Albert Dier.

Mr Wm Hyde, of Rocanville, Sask, is visiting his mother, Mrs Jos Hyde, and other friends.

Mr J C Pollock spent New Year's with friends at Ethel

Children Cry
FOR FLETCHER'S
CASTORIA

This Telephone Man Got His

Bruce Telephone System managers and patrons have found in Mr Henry Dent a most capable and attentive central operator at Underwood, and on Christmas Eve they demonstrated their appreciation by presenting him with a well filled purse, accompanied by the following address:

DEAR FRIEND,—We, the subscribers of the Bruce Municipal Telephone System having Underwood as our Central desire to express our sincere appreciation of the excellent service you have rendered our whole community in the Central office. You have always been on the job and have performed the arduous, insistent and trying duties of your office with unfailing urbanity and good temper. Your unchanging gentlemanliness and readiness to serve the subscribers to the fullest extent of your power we could not fail to note. It has become common to hear it said that Underwood has such a central operator that it would be hard to imagine the possibility of a better. We have met with you to-night, therefore, for the purpose of conveying to you our high appreciation of your service and of yourself. We desire your acceptance of this purse as a tangible token of our esteem. We wish you a very enjoyable Christmas and a long and prosperous life. In the name and on behalf of the subscribers we append our names—David Wittig, James Schmidt, H D McNaughton.

Killed in Action

The name of Wellington S Garbutt, of Vancouver, is among the list of casualties in Monday's papers. The deceased is a son of Mr J A Garbutt, formerly of 16th con Greenock, and a grandson of Mrs Garbutt, late of Ross St, Paisley, but now living in Toronto with her daughter, Mrs Jas Walker.

Recruits Wanted

A Recruiting Office for the 160th Bruce Overseas Battalion is now open in Paisley. Major Hay is the recruiting officer in charge, and Dr. Hewetson medical officer. Recruits wanted between the ages of 18 and 45. Every eligible man is needed to make up the force called from Canada for the help of the Empire and the world's freedom. The men of this section of Bruce are asked to do their share.

—Mrs. M. Andrews is visiting her daughter at Elmvale.

—Mr and Mrs A Pearce were in Toronto for a few days, and witnessed the military parade on Monday.

—Mr Neil McAllister has rented his farm at Gillies Hill (the L Munn place) to Mr J K White, from Sullivan Tp.

—Artillery man Jas Patterson has been transferred to the 16th Bruce Batt. He joined the latter on Monday, after spending Sunday here.

—Rev John McNeill, of Toronto, lectured in Walkerton on Tuesday evening, on the attempts of Napoleon and the Kaiser to gain world power.

—The annual meeting of the Paisley Agricultural Society on Saturday brought out a larger number of members than usual. A list of the officers will be given in our next issue.

—Our subscription rate is going up, but until the end of January we will accept $1 00 in advance. We want to give everybody a chance to save 50c, so take advantage of this.

Women's Patriotic League

Meets on Friday afternoon at 3 o'clock in Putnam's hall. Any having clothing or articles ready are requested to bring to the meeting.

Enlisted in the 160th

Four new recruits have been secured here for the Bruce Overseas Battalion since our last issue, viz: Stewart McLaren and Wilbert McLeod of Paisley; Christopher Maloney of Flora road north, and Andrew Bain, jr, of Greenock.

To Make Ontario Dry

All temperance people have the opportunity of joining in the campaign being inaugurated by the Committee of One Hundred, the aims of which are set forth in the large advertisement on another page of this issue of THE ADVOCATE.

Surgical Operations

Mr Malcolm McArthur, Church St, was operated on for appendicitis on Thursday last, and on the same day Mr W H McLean, of Ellengowan, had an operation for hernia. Dr Lucey was the surgeon in both cases, the local doctors assisting

Accepted Call to Paisley

The Rev M Neilson of Winchester has accepted the unanimous call extended to him by the Baptist churches of Paisley and Willisroft, and will preach Feb 6th. Mr Neilson is a man of wide travel and varied experiences, also an able preacher, and will be an acquisition to the town.

Lost at Southampton

The Paisley hockey team lost their first game in the Northern League at Southampton on Friday last by a score of 11-5. Southampton started out in whirlwind fashion and before the Paisley boys got limbered up the score was 6 to against them. From then on, however, by clever combination play they forced Southampton to the limit in scoring goal for goal. The Paisley players were: Stewart, Bine, Heppenstahl, Hopper, Rines, Riehl and Rendall. The locals play their first home game here with the Owen Sound Soldiers on Friday night.

Judge Dismisses Case

Judge Klein handed down judgment on Friday in the case of W. H. McFarlane, registrar, against Geo. D. McKay, dismissing the case. On Mr. McKay's counter claim he gave a verdict of $100 for Mr. McKay. The libel actions by Mr. McFarlane against the town newspapers are abandoned by Mr McFarlane.—Telescope.

THE

Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER II.—(Cont'd).

Of all the men Steele had ever known, Saxon had struck him, through months of intimacy, as the most normal, sane and cleanly constituted. Eccentricity was alien to him. In the same measure that all his physical bents were straight and clean-cut, so he had been mentally a contradiction of the morbid and irrational. The Kentuckian waited in open-eyed astonishment, gazing at the man whose own words had just convicted him of the wildest insanity.

Saxon went on, and even now, in the face of self-conviction of lunacy, his words fell coldly logical:

"I have talked to you of my work and my travels during the past five or six years. I have told you that I was a cow-puncher on a Western range; that I drifted East, and took up art. Did I ever tell you one word of my life prior to that? Do you know of a single episode or instance preceding these few fragmentary chapters? Do you know who, or what I was seven years ago?"

Steele was dazed. His eyes were studiously fixed on the gnarled roots and twisted bole of a scrub oak that hung over the edge of things with stubborn and distorted tenacity.

"No," he heard the other say, 'you don't, and I don't."

Again, there was a pause. The sun was setting at their backs, but off to the east the hills were bright in the reflection that the western sky threw across the circle of the horizon. Already, somewhere below them, a prematurely tuneful whippoorwill was sending out its night-call.

Steele looked up, and saw the throat of the other work convulsively, though the lips grimly held the set, contradictory smile.

"The very name I wear is the same, not of my family, but of my race. R. A. Saxon, Robert Anglo Saxon or Robert Anonymous Saxon—take your choice. I took that because I felt that I was not stealing it."

"Go on," prompted Steele.

"You have heard of those strange practical jokes which Nature sometimes—not often, only when she is preternaturally cruel—plays on men. They have pathological names for it. I believe—loss of memory?"

Steele only nodded.

"I told you that I rode the range on the Anchor-cross cutfit. I did not tell you why. It was because the Anchor-cross took me in when I was a man without identity. I don't know why I was in the Rocky Mountains. I don't know what occurred there, but I do know that I was picked up in a pass with a fractured skull. I had been stripped almost naked. Nothing was left as a clue to identify, except this—"

Saxon handed the other a rusty key, evidentally fitting an old-fashioned lock.

"I always carry that with me. I don't know where it will fit a door, or what lies behind that door. I only know that it is in a fashion the key can open my past; that the lock which it fits bars me off from all my life except a fragment."

Steele mechanically returned the thing, and Saxon mechanically slipped it back into his pocket.

"I know, too, that a scar I wear on my right hand was not fresh when those many others were. That, also, belongs to the veiled years.

"Some cell of memory was pressed upon by a splinter of bone, some microscopic atom of brain-tissue was disturbed—and life was erased. I was an interesting medical subject, and was taken to specialists who tried methods of suggestion. Men talked to me of various things: sought in a hundred ways to stimulate memory, but the reminder never came. Sometimes, it would seem that I was standing on the verge of great recollections—recollections just back of consciousness—as a forgotten name will sometimes tease the brain by almost presenting itself yet remaining elusive."

Steele was leaning forward listening while the narrator talked on with nervous haste.

"I have never told this before," Saxon said. "Slowly, the things I had known seemed to come back. For example, I did not have to re-learn to read and write. All the purely impersonal things gradually retrieved themselves, but, wherever a fact might have a tentacle which could grasp the personal—the ego—that eluded me."

"How did you drift into art?" demanded Steele.

"That is it: I drifted into it. I had to drift. I had no compass, no port of departure or destination. I was a derelict without a flag or name.

"At the Cincinnati Academy, where I first studied, one of the instructors gave me a hint. He felt that I was struggling for something which did not lie the way of his teaching. By that time, I had acquired some little efficiency and local reputation. He told me that Marston was the master for me to study, and he advised me to go further East, where I could see and understand his work. I came, and saw, 'The Sunset in Winter.' You know the rest."

"But, now," Steele found himself speaking with a sense of relief, "now, you are Robert A. Saxon. You have made yourself from unknown material, but you have made yourself a great painter. Why not be satisfied to abandon this unknown past as the past has abandoned you?"

"Wait," the other objected, with the cold emphasis of a man who will not evade, or seek refuge in specious alternatives.

"Forget to-night who I am, and to-morrow I shall have no assurance that the police are not searching for me. Why, man, I may have been a criminal. I have no way of knowing. I am hand-tied. Possibly, I have a wife and family waiting for me somewhere—needing me!"

His breath came in agitated gasps.

"I am two men, and one of them does not know the other. Sometimes, it threatens me with madness—sometimes, for a happy interval, I almost forget it. At first, it was insupportable, but the vastness of the prairie and the calm of the mountain seemed to soothe me into sanity, and give me a grip on myself. The starlight in my face during nights spent in the saddle—that was soothing; it was medicine for my sick brain. These things at least made me physically perfect. But, since yesterday is sensed, I must remain to some extent the recluse. The sort of intercourse we call society I have barred. That is why I am anxious for your cabin, rather than your clubs and your entertainments."

"You didn't have to tell me," said Steele slowly, "but I'm glad you did. I and my friends are willing to gauge your past by your present. But I'm glad of your confidence."

Saxon raised his face, and his eyes wore an expression of gratification.

"Yes, I'm glad I told you. If I should go out before I solve it, and you should ever chance on the answer, I'd like my own name over me—and both dates, birth as well as death. My work is, of course, to learn it all—if I can; and I hope—" he forced a laugh—"when I meet the other man, he will be fit to shake hands with."

"Listen," Steele spoke eagerly. "How long has it been?"

"Over six years."

"Then, why not go on and round out the seven? Seven years of absolute disappearance gives a man a legal death. Let the old problem lie, and go forward as Robert Saxon. That is the simplest way."

The other shook his head.

"That would be evasion. It would prove nothing. If I can discover responsibilities arriving from the past, I must take them up."

"What did the physicians say?"

"They didn't know." Saxon shook his head. "Perhaps, some strong reminder may at some unwarned moment open the volume where it was closed; perhaps, it will never open. To-morrow morning, I may awaken Robert Saxon—or the other man." He paused, then added quietly: "Such an unplaced personality had best touch other lives as lightly as it can."

Steele went silently over, and cranked the machine. As he straightened up, he asked abruptly:

"Would you prefer calling off this dinner?"

"No." The artist laughed. "We will take a chance on my remaining myself until after dinner, but as soon as convenient——"

"To-morrow," promised Steele, "we go to the cabin."

CHAPTER III.

Perhaps, the same futile vanity that led Mr. Bellton to import the latest sartorial novelties from the Rue de la Paix for the adornment of his person made him fond of providing foreign notables to give color to his entertainments.

Mr. Bellton was at heart the poseur, but he was also the fighter. Even when he carried the war of political reform into sections of the town where the lawless elements had marked him for violence, he went stubbornly in the conspicuousness of ultra-tailoring. Though he loved to address the proletariat in the name of brotherhood, he loved with a deeper passion the exclusiveness of presiding as host at a board where his guests included the "best people."

Senor Ribero, who at home used the more car-filling entitlement of Senor Don Ricardo de Ribero y Pintels, was hardly a notable, yet he was a new type, and, even before the ladies had emerged from their cloak-room, and while the men were apart in the grill, the host felt that he had secured a successful ingredient for him mixture of personal elements.

After the fashion of Latin-American diplomacy, educated in Paris and polished by great latitude of travel, the attache had the art of small talk and the charm of story-telling. To these recommendations, he added a slender, almost military carriage, and the distinction of Castilian features.

A punctured tire had interrupted the homeward journey of Steele and Saxon, who had telephoned to beg that the dinner go on, without permitting their tardiness to delay the more punctual.

The table was spread in a front room with a balcony that gave an outlook across the broad lawn and the ancient trees which bordered the sidewalk. At the open windows, the May air that stirred the curtains was warm enough to suggest summer, and new enough after the lately banished winter to seem wonderful—as though the rebirth of nature had wrought its miracle for the first time.

Ribero was the only guest who needed presentation, and, as he bowed over the hand of each woman, it was with an almost ornate ceremoniousness of manner.

Dusky Filson, after the spontaneous system of her opinions and prejudices, disliked the South American. To her imaginative mind, there was something in his jetlike darkness and his quick, almost tigerish movements that suggested the satanic. But, if the impression she received was not flattering to the guest, the impression she made was evidently profound. Ribero glanced at her with an expression of extreme admiration, and dropped his dark lashes as though he would veil his eyes from which he could not hope to banish flattery too fulsome for new acquaintanceship.

The girl found herself seated with the diplomat at her right, and a vacant chair at her left. The second vacant seat was across the round table, and she found herself sensible of a feeling of quarantine with an unrecognized companion, and wondering who would fill the empty space at her left. The name on the place card was hidden. She rather hoped it would be Saxon. She meant to ask him why he did not break away from the Marston influence that handicapped his career, and she believed he could entertain her. Of course, George Steele was an old friend and a very dear one, but this was just the point: he was not satisfied with that, and in the guise of lovers only did she ever find men uninteresting. It would, however, be better to have George make love than to be forced to talk to this somewhat pompous foreigner.

"I just met and made obeisance to the new Mrs. Billie Bedford," declared Mr. Bellton, starting the conversational ball rolling along the well-worn groove of gossip. "And, if she needs a witness, she may call on me to testify that she's as radiant in the part of Mrs. Billie as she was in her former role of Mrs. Jack."

Miss Buford raised her large eyes. With a winter's popularity behind her she felt aggrieved to hear mentioned names that she did not know. Surely, she had met everybody.

"Who is Mrs. Bedford?" she demanded. "I don't think I have ever met her. Is she a widow?"

Bellton laughed across his consomme cup. "Of the modern school," he enlightened. "There were 'no funeral baked meats to furnish the marriage feast.' Matrimonially speaking, this charming lady plays in repertoire."

"What has become of Jack Spotswood?" the older Miss Preston glanced up inquiringly. "He used to be everywhere, and I haven't heard of him once lately."

"He's still everywhere," responded Mr. Bellton, with energy; "everywhere but here. You see, the papers were so busy with Jack's affairs that they overlooked work out of his own life." Mr. Bellton smiled as he added: "And so he went away."

"I wonder where he is now. He wasn't such a bad sort," testified Mr. Clenver solemnly. "Jack's worse portion was his better half."

"Last heard," informed Mr. Bellton, "he was seen in some town in South America—the name of which I forget."

Senor Ribero had no passport of familiarity into local personalities, and he occupied the moment of his own conversational disengagement in a covert study of the face and figure beside him. The girl was looking away at the indolently stirring curtains with an expression of detachment. Flippant gossip was distasteful to her, and, when the current set that way, she drew aside, and became the non-participant.

Ribero read rightly the bored expression, and resolved that the topic must be diverted, if Miss Filson so wished.

"One meets so many of your countrymen in South America," he suggested, "that one might reasonably expect them to lose interest as types, yet each of them seems to be the centre of some gripping interest. I remember in particular one episode—"

The recital was cut short by the entrance of Steele and Saxon. Ribero, the only person present requiring introduction, rose to shake hands.

The attache was trained in diplomacy, and the rudiments of diplomacy should teach the face to become a mask when need be, yet, as his eyes met those of Saxon, he suddenly and involuntarily stiffened. For just a moment, his outstretched hand hesitated with the impulse to draw back. The lips that had parted in a casual smile hardened rigidly, and the eyes that rested on the face of Steele's friend were so intently focused that they almost stared. The byplay occupied only a moment, and, as Ribero had half-turned from the table to greet those entering at his back, it escaped the notice of everyone except Saxon himself. The newcomer felt the momentary bar of hostility that had been thrown between them and as quickly withdrawn. The next moment, he was taking the extended hand, and hearing the commonplace:

"Much pleased, senor."

(To be continued.)

Just So.

Success has turned many a man's head—in fact, it's a long head that has no turning.

Scene: New York.

German-American—"Holloa, Irishman! Vot you doing now?" Pat—"I'm making war ammunition." German—"Vell, dot's a nice vay to be neutral." Pat—"But I'm making it for the Germans." German—"Oh, vell, dot's different; but how you get de ammunition to de Germans?" Pat—"I ship it to the allies and they shoot it at 'em!"

THE BULGARIAN CHURCH.

By Chas. M. Bice, Denver, Col.

The church, as usual throughout history, plays an important role in the present great war in Europe. The report, now a verity, that King Ferdinand had communicated to Pope Benedict his intention to make Bulgaria a Catholic country after the war, indicates a peculiar conception of the religious and political history in that Balkan State.

It will be recalled that the National Church of Bulgaria survived the Turkish conquest nearly 400 years ago, and that from about 1396 to 1777, the Bulgarian patriarch recognized by Turkey as the civil and Ecclesastical head of the Bulgarian Church, sat in Ochrida, the ancient capitol of the Bulgarian Czars in Macedonia.

In 1777 the Greek patriarch of constantinople succeeded by intrigue with the Turks in abolishing the Bulgarian patriarchate and annexing the see to his own jurisdiction.

Greek Bishops were everywhere appointed whose chief work was to Hellenize the Bulgarians by substituting Greek schools and books for Bulgaria, and the establishment of the Greek language and customs.

Before this step was consummated some Bulgarians of the old National Church were cruelly massacred. But the "reforms", if such they may be termed, were continued. The Bulgarians finally became aroused and began to assert their rights.

This is undoubtedly the root of the Bulgarian question and the true cause of the Balkan troubles of recent times.

The religious question is so intimately interwoven with the national aspirations and ambitions of Bulgaria that Ferdinand would, indeed, be rash if he agreed, as the report says, to turn over the country to any particular ecclesastical creed or control.

For over 70 years the struggle between the Bulgarian and Greek Church continued, until finally in 1870, when the question had long since become thoroughly incorporated in the demand for national existence and recognition, the Porte, to avoid trouble, called the Chief Bulgarians to Constantinople and there granted the imperial firman or decree re-establishing the Bulgarian exarchate.

In 1872 Archbishop Autim was appointed exarch of the Autocephalus, or self-governing Bulgarian Church, the Church of the Czar Boris, the Church of St. Kyril and St. Methodius.

The revolutionary movements of 1877 cast suspicion on the Exarchate Autim and he was promptly deposed by the Porte and duly exiled.

Bishop Yovtcheff was appointed head of the Church, and was hailed as Josephus I. the Grand Vizier of Turkey receiving the Berat in 1877.

There were many in Bulgaria who desired the exarchate to direct the Church from one of the ancient Bulgarian sees, but the Church and its head was, and still is, a political, as well as a ecclesastical institution whose aim is the freedom and unification of the Bulgarians.

The new exarch began his propaganda for National freedom at once, and was promptly exiled by the Turks, who had been careful to keep the head of the Church at Constantinople, where he could always be under surveillance.

But little else than intrigue and plot characterized the National Church up to 1877 when the war broke out, and the treaty of San Stefano in 1878 secured Bulgaria's independence. This excellent treaty was torn up later at the congress in Berlin, and this was only the start of the Balkan trouble.

In the meantime the exarchate was confined in Constantinople, but worked constantly for national independence.

In 1886 the Russians proposed a consolidation of the Greek and Bulgarian Churches and the removal of the exarchate to Sofia, but the Bulgarians saw in the proposal a plan to remove Macedonia from the Jurisdiction of the exarchate and successfully resisted the proposed union.

It should not be overlooked that the Russian Greek Church considers Prince Boris, the son of Czar Ferdinand, as one of its members, this being a concession to Russia by Ferdinand, who is himself a Roman Catholic. The Pope refused to give his consent to this change, but Russia forced it by political pressure at Sofia. Obviously Ferdinand would not wish to offend Turkey by removing from the control of the Porte, the entire religio-political system of one of its allies in a common struggle.

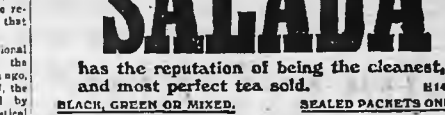
This is inconceivable at present, though the Bulgarians should be ready to accept Roman Catholicism, or any form of Ecclesiastical Government rather than their own.

A Success.

Mr. Brown's colored valet desired to entertain some of his friends, and his master contributed generously to the cause. The next morning Mr. Brown asked Mose if his party had been a success. Mose drew himself up a couple of inches above his usual height.

"Was it a success, suh?" he exclaimed delightedly. "Well, suh, it sho' was! Dey was sixteen invited and twenty dat came."

Iron utensils, pump handles, etc., are very cold because they are good conductors of heat, and draw the heat from our hands. The sudden loss produces the sensation of intense coldness.



"Nothing But Leaves"

Not Tea Leaves intermixed with Dust, Dirt and Stems but all Virgin Leaves.

"SALADA"

has the reputation of being the cleanest, and most perfect tea sold. B147

Potatoes as Hog Feed.

Many experiments have been conducted to determine the value of potatoes if feed for swine. In Ireland and Germany farmers feed large quantities of potatoes annually. From experimental data it has been concluded that four to 4¾ bushels of potatoes when cooked are equal to about one bushel of corn for putting gains on hogs. Therefore, if corn is worth 80 cents a bushel, potatoes when fed to hogs would be worth only eighteen to twenty cents a bushel. There may, however, be instances where it would be more advantageous for the farmer to feed to hogs right on his own place at least part of his crop rather than to haul these potatoes to an already overloaded market.

According to the consensus of opinion, potatoes are fed to the best advantage when cooked or steamed and mixed with other feeds. Experiments in which raw potatoes were fed alone have been reported. In certain instances the raw potatoes are said to have caused scours. However, raw potatoes in small quantities and in diet lacking succulence may be conducive to health in pigs.

In cooking potatoes, only enough water should be used to make a mealy mash and prevent burning. The resultant meal should then be mixed with cornmeal or other grain supplement. Tankage, skim milk or meat meal would probably add to the profit of the mixture. Potatoes when prepared in the manner described and under the conditions mentioned can often be fed to pigs with advantage.

Profit in Good Seed Potatoes.

The right kind of potatoes bring better prices than the wrong kind, and the right kind can usually be grown with very little added trouble.

The right kind of potatoes is the kind the public wants. To find out the taste of the public as to potatoes, D. E. Willard of the Northern Pacific Railway company not long ago made an extended investigation—in homes, hotels, restaurants and commission houses. He found the demand was for sound potatoes, of good flavor, medium size, and regular shape. He also found that such potatoes commanded higher prices than mixed lots of large and small, diseased and sound, regularly and irregularly shaped potatoes.

To grow the kind of potatoes the public wants, then, is the thing to do, and the way to begin is to plant the kind of potatoes you wish to grow. This means careful selection from the hills observing the following rules:

Select only from hills in which a larger part of the potatoes answer the description mentioned. Potatoes from such hills are more certain to breed true to type.

Select potatoes weighing from five to eight ounces.

Use for seed no potatoes grown in fields showing a considerable amount of wilt or russette.

Avoid potatoes showing brown ring discolorations at the stem end.

Save for planting no potatoes which are bruised, cracked or decaying or which show discolorations at stem end.

Store carefully in moderately warm dry and well ventilated place.

Treat with corrosive sublimate four ounces to 30 gallons of water—for 1½ hours before planting.

Farm Notes.

Cover crops can be converted into hay.

Quarrelsome cocks are a nuisance on the farm or in the poultry-yard.

A good cow is better than two poor ones—yes, better than three that can't more than pay for their feed.

A liberal system of management of a good dairy herd is necessary to achieve satisfactory milk production.

Keep plenty of broken or crushed bone before the growing chickens. It will help to develop strong, healthy fowls.

Ventilation is absolutely essential for the health of the cows, but is one of the hardest problems to solve in most barns.

The farmer should receive the same returns for his capital invested and labor performed as other men do in other business.

Go over the fence corners and unused yards with a scythe and remove the burdock and other weeds that have found a home there. It will reduce the weed crop next year and makes the place look better.

The successful dairies are the ones represented by vigorous cows that are liberally treated in the matter of appropriate rations, generous treatment and methodical management in the hours of milking and feeding.

Perfectly Simple.

During a school tea a kindly lady sat regarding one of the young guests with evident alarm. Undismayed by the lady's glances, the young hopeful demolished plate after plate of bread and butter and cake. At last the lady could stand it no longer. Going up to the urchin, she said:

"My boy, have you never read any book which would tell you what to eat, what to drink, and what to avoid?"

"Why, bless yer, ma'am," replied the young gentleman, with his mouth full of cake. "I don't want no book. It's very simple. I eats all I can, I drinks all I can, an' I avoid bustin'."

A Marvel of Training.

Rose had called on her afternoon out to see her friend Arabella. Arabella's mistress had just purchased a parrot, and Rose was much interested in the bird.

"Birds are shore sensible," she observed. "You kin learn them anything. I uster work for a lady that had a bird in a clock, an' when it was time to tell de time oh day, it uster come out an' say 'cuckoo' jest as many times as de time was."

"Go along. Yo' don't say so," said Arabella, incredulously.

"Shore thing," replied Rose, "and de mos' wonderful part was dat it was only a wooden bird, too."

Rheumatism!

How is rheumatism recognized? Some have said—

Rheumatism is a dull pain.
Rheumatism is a sharp pain.
Rheumatism is sore muscles.
Rheumatism is stiff joints.
Rheumatism is a shifting pain.

All have declared—*Rheumatism is Pain.*

Sloan's Liniment applied:—

The blood begins to flow freely—the body's warmth is renewed—the congestion disappears—the pain is gone.

Sloan's Liniment

KILLS PAIN (GUARANTEED)

Rheumatism and allied pains yield to the penetrating qualities of this warming liniment.

THREE VITAL QUESTIONS

Are you full of energy, vital force, and general good health? Do you know that good digestion is the foundation of good health? Pains and aches, pressure in stomach and chest after eating, with constipation, headache & dizziness, are sure signs of indigestion. Mother Seigel's Syrup, the great herbal remedy and tonic, will cure you.

AFTER MEALS TAKE MOTHER SEIGEL'S SYRUP. AND BANISH STOMACH TROUBLES

At all Druggists, or direct on receipt of price, 50c. and $1.00. The large bottle contains three times as much as the smaller. A. J. WHITE & CO., LIMITED, Cavendish House, Montreal.

PAIN IN THE BACK

Usually Comes From Muscular Rheumatism.

Do not worry about a pain in the back. The worry will do you more harm than the pains. The cause of most backaches is muscular rheumatism, which is painful enough, but not fatal. Lumbago is a form of muscular rheumatism, so is a stiff neck. Sufferers from any form of rheumatism should keep their general health up to the highest standard by the use of a blood building tonic like Dr. Williams' Pink Pills, while taking good, nourishing food, without too much meat. Proper nutrition and pure blood are the best means of fighting rheumatism. Rheumatism comes from an acid in the blood, build it up, strengthen the system, and drive out the poisonous acid that causes rheumatism. In this way sufferers have found complete recovery as is shown by the following case: Mrs. Samuel Childerhouse, Orillia, Ont., says:—"About three years ago I was greatly afflicted with a severe pain in the back, which I thought at first was due to kidney trouble. I tried a number of remedies, but they did not help me any, in fact, the pain was growing worse, and got so bad that I was quite unable to do my housework. I could not even sweep a floor. I was advised to try Dr. Williams' Pink Pills, and I am glad I acted upon the advice, for before I had been taking the Pills long the pain began to subside, and under the continued use disappeared entirely, and I have not since been bothered with it in any way. My husband was also cured of a severe attack of indigestion by this same medicine, so that we both have much reason to be grateful for it."

You can get Dr Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box, or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WAR FOR PEACE'S SAKE.

Is Now the Creed of the Women of France.

The National Council of French Women, after deciding not to take part in any international political congress during the war, has issued the following manifesto:

"The German women are making demonstrations for peace. We mothers, wives, daughters and sisters, who have not lost but have given all that is most precious to us, must make demonstrations for war.

"We must not let a word of peace be uttered until our dear dead are avenged, our country liberated, and a great victory achieved. We do not want war for war's sake; we want war for the sake of peace.

"French women, love and be worthy of your country. If we cannot give our blood, let us give our heart and soul."

Epidemic of German Suicides.

Another epidemic of suicides is reported among the German forces in the vicinity of Dvinsk by prisoners captured in that region. Nine officers, including the commander of a battalion, ended their lives within a period of twelve days. Cold and hardships of the campaign are alleged to be the cause. Polish and Serbian landsturms captured from the Austro-German forces along the southern front report that a new alignment of Austro-Germans has been detached to forage food and stores from the captured territory at points near the frontier.

PUZZLED

Hard, Sometimes, to Raise Children.

Children's taste is oftimes more accurate, in selecting the right kind of food to fit the body, than that of adults. Nature works more accurately through the children.

A lady says: "Our little boy had long been troubled with weak digestion. We could never persuade him to take more than one taste of any kind of cereal food. He was a weak little chap, and we were puzzled to know what to feed him on.

"One lucky day we tried Grape-Nuts. Well, you never saw a child eat with such a relish, and it did me good to see him. From that day on it seemed as though we could almost see him grow. He would eat Grape-Nuts for breakfast and supper, and I think he would have liked the food for dinner.

"The difference in his appearance is something wonderful.

"My husband had never fancied cereal foods of any kind, but he became very fond of Grape-Nuts and has been much improved in health since using it.

"We are now a healthy family and naturally believe in Grape-Nuts.

"A friend has two children who were formerly afflicted with rickets. I was satisfied that the disease was caused by lack of proper nourishment. The children showed it. So I urged her to use Grape-Nuts as an experiment, and the result was almost magical.

"They continued the food, and today both children are as well and strong as any children in this city, and, of course, my friend is a firm believer in Grape-Nuts, for she has the evidence before her eyes every day." Name given by Canadian Postum Co., Windsor, Ont.

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

WORLD'S BIGGEST ARSENAL.

Britain Overtaking Germany in Production of Munitions.

A visit to a locomotive works in Leeds, England, is a good example of the conversation of commercial factories to war purposes, writes a correspondent. So remarkably reticent are we about our own modest efforts that few people know how much we have done. The railway company we have been visiting has been making munitions for more than a year in connection with one of the large armament firms, and it now makes nothing else in its extensive locomotive works. The other large railway companies are doing the same thing, and some of them are even making guns.

Ours has not attempted that, but it is making several other things, and some of them in large quantities. It has ceased building locomotives.

We are fast overtaking arrears, and I have little doubt that eventually we shall be found to have turned the tables on the much-advertised enemy.

We went out to Sheffield, where we spent the rest of the day in two of the great armament works. Sheffield is to-day one vast arsenal, and the greatest in the world. Essen bears no comparison to it. The large steel works alone exceed Essen in the aggregate, but Sheffield combines with them a vast number of small ones, which are making a great many things for the war.

On the outbreak of war two establishments in particular were making nothing for the army; now they are making high explosive shells of all sizes for the army, as well as all kinds for the navy up to the great 15-in. armor-piercing projectiles. The large-sized shells are the great feature of the place. One huge shop after another is filled with them, and there are stacks awaiting removal. They are made complete from the pig onward, and here all the processes are to be seen in perfection. There are 12,000 men employed.

How to Save Your Eyes

TRY THIS FREE PRESCRIPTION

Do your eyes give you trouble? Do you already need eyeglasses or spectacles? Thousands of people wear these "windows" who might easily dispense with them. You may be one of these, and it is your duty to save your eyes before it is too late. The eyes are peculiar inasmuch as they are the only organ of the entire body. After you finish your day's work you sit down and rest your muscles, but how about your eyes? Do you rest them? You know you do not. You read or do something else that keeps your eyes busy; you work your eyes until you go to bed. That is why so many have strained eyes and many other eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches; they never cure. This free prescription, which has benefited the eyes of so many, may work wonders for you. Use it a short time. Would you like your eye troubles to disappear as if by magic? Try this prescription. Go to the nearest wide-awake drug store and get a bottle of Bon-Opto tablets; fill a two-ounce bottle with warm water, drop in one tablet and allow it to thoroughly dissolve. With this liquid bathe the eyes two to four times daily. Just note how quickly your eyes clear up and how soon the inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment, but marvelously effective in multitudes of cases. Note that you have been warned don't delay a day, but do what you can to save your eyes, and you are likely to thank us as long as you live for publishing this prescription. If your own druggist cannot fill this prescription, send $1 to the Calmas Drug Co., Toronto, for a complete Bon-Opto Home Treatment (until tablets and all).

EVERYBODY VOTES BUT MOTHER

J. W. Bengough.

Everybody votes but mother,
She used to vote once, too,
But when she got married to father
The law said it wouldn't do.
When mother was just a spinster,
Like any spectacled sister, Ann,
She had a right to the ballot,
But, alas, she married a man!
So everybody votes but mother:
Father, Sister Ann, and I,
My widowed aunt and my brother,
And mother wants to know why.

Everybody votes but mother,
'Cause mother, she changed her name;
Looks as though some how or other,
Getting married must be a shame;
They take away the votes from fellows
Who have been convicted in court,
And it seems that spinsters who marry
Are branded with a disgrace,
So that's where they rank poor mothers;
They've struck her name from the roll,
While sister, aunt and father
And I all go to the poll!

Everybody votes but mother,
Through our stupid and senseless law,
And there's not on the list another
Who needs the vote more than maw;
She cares for the home and the children,
And has a right to say
On the laws that affect the household
In any possible way.
So we must have a vote for mother
Without waiting for dad to die;
For the wife as well as the widow
And spinster—or we'll know why.

Look out for the knife grinder; he's a regular sharper.

JAPAN'S EMPEROR A GOOD SOLDIER

WAS ENSIGN IN THE ARMY WHEN A YOUTH.

Japanese Royal Family Will Henceforth Be Western Regarding Succession.

With elaborate ceremonies and rites dating back in some cases thousands of years, Yoshihito, Emperor of Japan, was formally installed on his throne recently, although it is three years ago since his father, Mutsuhito, died.

Japan is proud of her Emperor, because he is a zealous soldier and a true son of the people, while no man in Japan is more proud of his country than Yoshihito, who rules its destinies, for the Emperor, although only 36 years of age, is practically all-powerful.

Yoshihito's youth reminds one of that of the King of Italy, for he had to triumph over a dullcuty constitution. Outdoor life and systematic exercise, however, built up his physique. He indulged in walking, mountain climbing, and riding, and displayed an early passion for soldiering by studying the military literature and military methods of other countries. As a youth he became an ensign in the Imperial Infantry.

A remarkable fact regarding the present Emperor of Japan is that he

The Emperor of Japan.

was educated in what was known as the Peers' School—not unlike the famous Public schools of England—where he had for his friends sons of noblemen.

Abolished Harem.

His father ordered that his son should not be treated in any way different from his classmates, and today, as far as possible, the Emperor moves freely among his people.

Personally, he is a man of great simplicity. He prefers to dress in European costume, photography being one of his favorite hobbies. He is also an accomplished poet. His wife, Empress Sadako, is a woman of remarkable culture and accomplishment. The Emperor married in 1900, and has three children, all boys.

It is interesting to note, by the way, that his father was the last Emperor of Japan to have a harem. According to the ancient custom, the Emperor of Japan is allowed a chief wife, or "Kogo," and twelve secondary wives, who are allowed separate establishments in the palace grounds, each having her own attendants. In the case of the "Kogo" being childless, the children of the secondary wives would be acknowledged as legal heirs to the throne. Yoshihito himself is a child of a secondary wife, but henceforth the Japanese royal family will be Western in so far as the succession to the throne is concerned.

SHORTAGE OF DOCTORS.

Young Physicians Told Not to Go to the War.

An appeal to save medical students from the ranks of combat has been made by Prof. E. Barclay-Smith, of the University of London, who says that the shortage of doctors is already serious, and will be far more so in time. He writes:

"The opinion has gone forth that it is the duty of the medical students, with the exception of those in their fourth and fifth years, to forsake their profession and volunteer for combatant service.

"Let the medical student once realize that this is his duty and he will go, of that I have not the shadow of a doubt. He has already gone in larger number than the authorities are probably aware, and this in spite of the restraining leash of his teachers and advisers.

"Whether his going will be an ultimate gain to the nation is not for him to judge, but it is a matter of the greatest concern. The demand for medical service for military purposes at home and abroad, to say nothing of the needs of the lay population, is increasing daily, and by leaps and bounds."

The more indignant some of our neighbors can grow over scandal the more they seem to enjoy it.

"The Perfect Day" is the day when you work in harmony with law. Health comes from Harmony. Get in harmony with Nature's laws by eating Shredded Wheat, a simple, natural, elemental food which supplies the greatest nutriment with the least tax upon the digestion. Try it for breakfast with hot milk or cream. Delicious with sliced bananas or other fruit. Made in Canada.

RUSSIANS ARE KIND.

Austrian Officer Exchanged After Year in Siberian Prison.

Lieutenant Hans Kranders has just returned to his home in Vienna after having been a prisoner of war in Russia for more than a year, through an exchange of incapacitated prisoners between Russia and Austria.

At the beginning of September, 1914, Lieutenant Kranders was wounded severely in the leg during a battle with the Russians near Lublin. He was left helpless on the field for two days, and finally was found by a Russian patrol, who took him to the nearest hospital. He was transferred to Gomel, where, despite the excellent treatment, his condition grew worse and it was deemed necessary to amputate his leg. He remained in Gomel until December, when, in company with other prisoners, he was taken to Siberia.

The prisoners travelled in second class cars and were privileged to take their meals in the station restaurants whenever stops were made.

On reaching Omsk the prisoners were transferred to fourth class cars, which were in filthy condition. They had no means of changing their clothing and did not even have enough water to wash their hands. The vermin was almost unbearable. Finally, on December 28, they arrived at Kausk, in the government of Jenissen, where they were housed in an old two storey building. Here they met numerous Turkish prisoners and several German officers, and a warm friendship sprung up between them. Life here was pleasant enough, as food was cheap and plentiful and the residents of the town were kindly disposed toward them.

Despite the bitter cold—for it was below zero all the time—the prisoners took daily walks under guard of a Russian soldier. But all this was changed when two of the officers tried to escape.

"As a result we were all confined to our rooms for thirty days, and even our windows were nailed down," he said. "The officers, too, had to do their own cooking and menial labor, which was done for them previously by servants.

"On July 30 they were told that an exchange of invalid prisoners would be made with Austria, and on August 6, Lieutenant Kanders was on his home journey, and great was his joy when he reached Vienna."

SWITZERLAND'S LOSS.

The War Has Kept Tourists Away From That Country.

The Swiss hotel industry is suffering greatly from the war, with a consequent bad effect on the country at large. Statistics prepared for the National Exposition at Berne place the amount of money annually put in circulation by tourists in Switzerland at $100,000,000. Of this sum about $1,000,000 represents increased postal receipts, $400,000 increased telegraph and telephone receipts, while customs receipts are likewise much augmented during the tourist season. Further, the national railways derive $3,000,000 to $4,000,000 from tourist traffic annually. In 1912—which may be taken as an average year—there were 3,585 hotels for tourists in Switzerland, employing 43,000 people, whose salaries exceeded $5,600,000, while the amount of capital invested in the hotel industry reached the sum of $227,000,000. The hotelkeepers have asked the federal council that some extraordinary measures be taken to relieve the unfavorable conditions now prevailing. Among proposed measures are the creation of a government system of mortgages on furniture and other assets, and a legal delay of two years after the end of the war for the payment of interest on mortgages.

KEEP YOUR BABY WELL.

Mothers can keep their little ones happy and healthy by the occasional use of Baby's Own Tablets. There is no minor ailment of little ones that the Tablets will not cure, and above all they are absolutely safe and positively no injury can result from their use. Concerning them Mrs. Henri Huard, Kingston, Ont., writes: "There is no medicine I know of so good for little ones as is Baby's Own Tablets. They have certainly been of great service to me." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Reconciled.

We observe that our friend has a bad cold in his head, and of course we tell him exactly how to cure it.

From his pocket he takes a large memorandum book and enters our prescription on one of the final pages thereof. Then he snaps a rubber band about the book, sneezes and smiles happily.

We observe to him that we are glad our instructions for a cure have made him so happy.

"It isn't that," he says. "Since I got this cold I have written down every sure cure recommended, and whenever the cold gets so bad I feel as though I couldn't stand it an other day I read over the cures and think how much better it is to have the cold than to endure all the remedies."

How Much Rye Do You Eat?

Most people eat little, if any, rye. Yet rye is one of the most healthful and nutritious cereals.

Dr. Jackson's Roman Meal, the most nutritious cereal food known to science, contains 26 per cent. whole berries of rye.

In addition it contains whole wheat, decorticated flax seed, and bran. It differs greatly in composition from any other food on the market. It will positively relieve constipation or "money back."

Roman Meal looks different and requires a simpler way of preparation. So be absolutely certain to follow directions implicitly and do not stir while cooking porridge or you spoil it.

Sold by grocers at 10c and 25c.
Made by Roman Meal Co., Toronto.

Not a Fault-finder.

"Was your husband good to you, Mandy?"

"Deed he was, miss. I wo'ked 18 hours a day fo' years fo' dat man an' he never once found fault wif a thing I did fo' him."

Minard's Liniment Co., Limited.

Gentlemen,—Theodore Dorais, a customer of mine, was completely cured of rheumatism after five years of suffering, by the judicious use of MINARD'S LINIMENT.

The above facts can be verified by writing to him, to the Parish Priest or any of his neighbors.

A. COTE, Merchant.
St. Isidore, Que., 12 May, '08.

A Clash of Wits.

He—I love you.

She—But I haven't a cent in the world.

He—Excuse me, you didn't allow me to finish. I love you not—

She—So! I only wanted to try you. I have a fortune of $50,000.

He—Yes, but you interrupted me again. I love you not for your money's sake.

She—Well, I'm so glad, for that was only a joke about the $50,000.

Minard's Liniment Cures Garget in Cows

Found Wife Married Again.

Some time ago the German army administration officially reported that Heinrich Lehberger, a Pomeranian farmer and reservist, had been killed. A week later the supposed dead man returned to his native village alive and well, although a cripple. He had been badly wounded when his death was reported. When he arrived at home the veteran found his wife married again.

The Paisley Advocate

PAISLEY, JAN. 19th, 1916

The Recruiting Rally

The town hall was comfortably filled on Friday evening by old and young people of both sexes, who came out to hear the speeches and get enthused on the subject of service for king and country. The platform was occupied by the speakers, also several officers and soldiers in khaki uniform.

Reeve Ballachey occupied the chair and introduced the speakers.

The first called upon was Capt Whitehead of Walkerton, who brought before his hearers the purpose of Germany in making this war, and reviewed some of the list of atrocities of which the militarism of that nation is guilty, showed the improved position of the allied army in the field since the war began, and what Canada is doing as her share of the Empire's tasks. We have been living on the fat of the land, he said, and is it square that we should remain at home while men of other parts of the Empire are fighting the battles. He appealed to young men to enlist, also to mothers and fathers to allow their sons to do so. Some think that it would be all right to turn out if the fighting were in Canada, but that there is no call for us to go across the ocean to war. This attitude is a mistake, as Canada is the prize for which Germany would first grasp as the fruit of victory.

Pte T H George, home to Paisley from the front after being wounded, was greeted with rousing cheers as he rose to respond to the call to address the audience. He wished at the outset to correct the impression that there are some things returning soldiers are forbidden to tell. This is not true. He related in a humorous way his experience at the front, with incidents of the Ypre and Festubert fighting period. If there is a yellow streak in a man at all, he says, the order for a bayonet charge appears to widen it out. His experience is that there is nothing much to it, however. "The Germans did not wait for us, but presented us with a mile of trenches. We crept up quietly until near the enemy and then started to yell in such a manner that Indians would not have much on us. When we got into the German trench there was nobody there but ourselves. I did not see anything in the campaign, and I was there when the fighting was on, that would prevent any young man from going. Many get hurt, and some get killed, but just think of the vast number who escape." He could not see why young men could not go from the farms here. In France there were no able-bodied men on the farms. Our young men have been going west, he would like now to see them going east.

Lieut. Cameron, of Lucknow, the recruiting officer here, made a neat speech in which he warmed up the brains of the people towards that officer, whom they are inclined to shun.

Chaplain Duncan, of the 136th Batt., made perhaps the most impressive address of the evening. The rev. gentleman's eldest son was killed in France, another is training at Toronto camp, and a third also desires to join the colors. When this speaker dilated upon the subject of loyalty all felt that he clearly had the right to rally his fellow-citizens. The pioneer spirit had made this county a garden, and it was now the duty of their sons to do a bit of fighting where alone no other men could do the work. Bruce is a great name, that makes one think of a man who tried, tried and tried again. Protection, he argued, is not the idea of to-day, although it was prominent a year ago. There is no class in our land to-day who has the right to say "We'll stay at home." There is in Canada to day the spirit of sacrifice that prompts men to leave all behind. "What shall a man give in exchange for his soul?" he quoted in deprecating the inclination to cling to material things. We have had more than enough of temporal prosperity, so much that we have come to think that life consists of pleasure. But it is the things of the spirit that make a nation great. "Are you going to sweep into line? Are you coming forth in your strength?" queried the speaker in making his appeal for more men. "Get rid of the idea that we are going to starve," as he pleaded for service as soldiers rather than as profiteers. "He who gives quickly gives twice"—the men are needed now, for we want the fighting over. There are no better soldiers than the Canadian farmers' sons, as they are practical, of good physique and splendid will power. He also appealed to mothers to give their consent to enlistment, and to boys to come to fight against the monstrous enemy.

Mr R D Cameron, of Lucknow, is one Bruce county's best orators, who is giving much of his time and talents to the cause of Empire at present. His son, Lieut Cameron, left university to take part in the struggle, and is now recruiting officer at Paisley. Mr Cameron made an eloquent and forceful address. It is a serious and important business that is before us, he said. A more important meeting has never been held in Paisley, as the cause we are fighting for embodies the first principles of liberty and freedom. Germany has dethroned love and emblazoned upon her banners fraud, force and frightfulness, as instanced by the invasion of Belgium. While Belgium saved others she could not save herself. Had that brave people not done what they did there would have been a different tale to tell to-day. He alluded to the slowness of Britain in awakening to a realization of the situation, also pointed out that the great trouble in Canada is that we are not awakened to a realization of what the outcome means to this country. There is no part of the world that Germany would covet more than Canada. Should we become a German colony, the first thing we would lose would be our greatest birthright—self government—and our sons would become conscripts. Such is the situation that faces us. But we have the race to prevent such a thing happening, if we but do our duty. He quoted statistical facts to show that Canada is not doing her share, and unless we do better the boast can not longer be made that Canada is the brightest gem in the British crown. We should be thankful that we can end this struggle without having bloodshed on our own soil. The crisis demands the exercising of the spirit of sacrifice. The pioneers of this county left a grand heritage behind them. Shall we, their sons, not be willing to confer similar benefits upon posterity. The call has come to us.

Adjutant McNally, of the 160th, just home from the front, referred to the number of Bruce men at the front. Pte George was in the same battalion as the speaker. He gave considerable interesting information as to trench warfare, emphasized the shortage of men, recalled the ready response of Bruce when a battalion was needed in 1866, and spoke in 1885. "Are not the men of to-day of the same stuff as their fathers?" he asked, and put the question straight from the shoulder. "What are you going to do?"

Col. Weir, commanding officer of the new 160th Batt., came in as the meeting was in progress, having arrived from Walkerton on the late train. He was given a splendid ovation, the soldiers on the platform leading in singing "He's a jolly good fellow." In his brief address Col Weir stated there were then over 300 enrolled in the 160th, of whom 150 were single. This, he said, was a great compliment to the county. We should still be as patriotic as in 1885, he said, when the only rural battalion called out was mobilized in Bruce county within a week.

"God Save the King" brought the meeting to a close.

The speeches were interspersed with orchestra selections, also solos by Miss Netta Johnston, Miss Edna Carter and Mr F C Ryan.

LOCAL AND DISTRICT NEWS

Fined for Selling Watered Milk

Anthony Oppenhauser, a Millbmay milk dealer, was fined $30 and costs, or a total of about $70, for selling watered milk. A Dominion food inspector stopped the dealer's rig in Millbmay in April last, and the prosecution was made after the sample had been analyzed. The dealer claimed that it was the farmer from whom he bought the milk who watered it.

McLaughlin—McNeill

A quiet wedding was solemnized in High Park Presbyterian church, Toronto, on Wednesday, Jan. 10th, at 10 a.m., when Miss Celena McNeill, only daughter of the late Mr. and Mrs Jas. McNeill, Paisley, and Mr. Irwin McLaughlin of Grand Forks, North Dakota, were united in marriage. The ceremony was performed by the pastor of the church, Rev. Dr. Wilson.

A Loyal Family

Loyalty in words and acts rightly describes our town constable, Mr. Harry Roberts, and his three eldest sons, who are all serving their King and Country. Victor is fighting in France, Herb is in training in England, Herbert in Owen Sound and the father in Tara. We doubt if there is another family in this district that can boast of having four members in the king's uniform.—Tara Leader.

Elderslie Meeting

A meeting to organize the Tp of Elderslie in connection with the campaign of the Committee of One Hundred to make Ontario dry, will be held in the Tp Hall at Gillies Hill on Friday, Jan 21st, at 8 p.m. Everybody interested in making the map of Ontario white, come. The aims of the Committee will be explained by W McDonald, M P P, and Mr M A Halliday of Chesley. Revs R A Pacey and G C Little of Paisley, and others.

Red Cross, S.S. No. 9, Bruce

The following is the first shipment of goods that was sent to the Canadian Red Cross Society of Toronto by the Red Cross workers of S.S. No. 9, Bruce: 13 doz. bandages, 1 doz. sheets, 3,000 mouth wipes, 63 wash cloths, ½ doz. surgical shirts, 108 handkerchiefs, 5½ doz. towels, 5 doz flannel night shirts, 13½ doz. pairs socks, 2 doz. pillow slips. Mrs. Jas. McKinnon, President; Mrs. Thos. Wrightman, Vice-president; Mrs. Geo. Hellerton, Treasurer; Mary E. Nixon, Secretary.

The Fire Brigade

The annual meeting of the Firemen was held on Monday evening, Jan. 10th. The Brigade has now a membership about 50, and it was thought advisable to slightly increase that. The following officers were elected for the year: Chief, Jas Ellis; vice-chief, R. Bailey; captain, A. Pearce; lieutenants, J. Heath and W. Tooke; secretary, S. F. Hallachey; treas., F. Carter; foreman of hook and ladder, F. Pearce; foreman of hose, Thos. Sproat; branchmen, R. Skinner, N. McMahon, Jas. Dewar, A. Archer; hydrant men, D. Lyon, W. Archer.

District L.O.L.

Cargill District L.O.L. met in annual session in the village of Cargill on Jan. 11th. In the absence of the Worshipful District Master Bro. John Nelson, Worshipful Bro. Jas A. Garland occupied the chair, assisted by Worshipful Bro. F. E. Baldwin in the District Deputy Master's chair. After the regular business of the district lodge was disposed of, an order was drawn on the treasurer for $5 in favor of the Cargill branch of the Canadian Red Cross Society, after which Worshipful Bro. J. S. White and Worshipful Bro. D. E. Crawford conducted the election and installation of officers for the ensuing year, which resulted as follows: Dist. Master, Bro. F. E. Baldwin; Dist. Deputy Master, Bro. Rud. Klotz; Dist. Chaplain, Bro. Geo. Carbert; Dist. Rec. Sec., Bro. Wm. Van Horne; Dist. Fin. Sec., Bro. W. Dobson; Dist. Lecturer, Bro. Sylvester Parker; Dist. Director of Ceremonies, Bro. I. Chambers. At the conclusion of the installation, the newly elected officers gave short addresses pertaining to the duties of their respective offices. It was decided that the next annual meeting would be held in the village of Paisley on the second Tuesday in January, 1917.

The Late Mrs. Somerville

There passed to her reward on Christmas Day a pioneer settler of Elderslie in the person of Mrs. David Somerville. Deceased was born in the county of Perth 73 years ago, and came to Elderslie nearly 50 years ago. It is 24 years since her husband departed this life. For ten years Mrs. Somerville had been a sufferer from rheumatism which left her an invalid, and for the last five years she had been confined to her chair. But disease did not destroy the charm of a kind and intelligent disposition, nor old age diminish her unselfish solicitude for her friends and loved ones. She was a member of Geneva Church and when health permitted loved to attend its services. A devout christian woman has been called hence and the members of her family, all of whom were present at the funeral, who remain to revere the memory of this grand old mother in Israel are: Mrs W A Hargreeves, Toronto; Mrs D Keith and Mrs Richard McGill of Elderslie; Mrs John Fraser, at whose home the subject of our sketch passed away, and Mrs D Menzies of Brant; Mrs J B McGill, Langham, Sask; Mrs L J Robertson of Niagara Falls, N.Y., and Mr Geo Somerville of the 4th con Elderslie.—Enterprise.

HOW LONG WILL THE WAR LAST?

The War Against Health Is Quickly Ended By "Fruit-a-tives".

MRS. DEWOLFE

East Ship Harbour, N.S.

"It is with great pleasure that I write to tell you of the wonderful benefit I have received from taking 'Fruit-a-tives'. For years I was a dreadful sufferer from *Constipation and Headaches*, and I was miserable in every way. Nothing in the way of medicines seemed to help me. Then I finally tried 'Fruit-a-tives' and the effect was splendid. After taking one box, *I feel like a new person* and I am deeply thankful to have relief from those sickening Headaches".

Mrs. MARTHA A DEWOLFE.

"FRUIT-A-TIVES", the medicine made from fruit juices, has relieved more sufferers from *Headaches, Constipation, Stomach, Liver, Kidney and Skin Troubles than any other medicine.*

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

have overcome the misty vision that creeps on with the advance of years, and now I am the most pleased man I know."

A pleased patron is the best advertisement.

ARRAN COUNCIL

Council met as per statute. Each member subscribed to the necessary declaration. Clerk submitted statement showing the following composed the members of council for 1916, viz. Reeve J W Sinclair councillors—F J Scarrow, A J Morrow, J H McFadden and Joseph Johnston. The minutes of the last meeting were read and adopted. Thomas Ash asked the council if it would be agreeable to increase the number of lots in regard to ditching as provided by section 6 of the Ditches and Watercourses Act. Left over. Thos Tambling interviewed council in regard to sending non-resident pupils to school. Council had no jurisdiction in the matter. Snow boards were ordered to be put on Inverray, Brunton's, Bailey's, Crowe and Strange's bridges, and also two sleepers for Bailey's bridge. The Tara Leader asked for an increase in print for contracts. Left over. Communication from the Minister of Public Works re road improvement. No action. On motion of Morrow and McFadden F J King and Chas B White were appointed auditors. On motion of Johnston and McFadden, W J Underwood was re-appointed weigher, on motion of Johnston and Scarrow. Thos Aitchison was appointed member of Board of Health. The sheep valuators of 1913 were re-appointed. By-laws appointing auditors, assessor, member of the B. of H. and fixing salaries were passed and executed. Appointment of collectors was left over until next meeting which will be held on February 12th. Orders to the amount of $— were issued.

H T Porter, Clerk

That Albemarle Appeal Case

Editor ADVOCATE:

My attention has been drawn to the report in your late issue of the Bruce Township nominations, and the statement therein attributed to Reeve Johnson that the Albemarle appeal was settled because the county had no evidence ready, for which the warden was responsible. I do not think Mr. Johnson could have made such a statement. He was at the meeting when the matter was fully discussed, and it was agreed to settle because the council had at June session adopted the report of a committee recommending a reduction of 25 per cent. It was thought it would be impossible to get over that on the appeals and the small balance at which settlement was made was not worth fighting about. As to evidence, we had plenty of evidence of the very best kind, and I am entirely at a loss to know on what Mr. Johnson based his statement if he made such a statement.

I am yours truly,
ALEX McCANNEL.

Port Elgin, Jan 10th, 1916.

Christmas in the Trenches

Mr. Sam Babcock received the following letter: DEAR BROTHER — This is Christmas Day and here I am, away out here in the muddiest country on the face of the earth. I am out in the first line of trenches, but worse still, in the Battalion Reserve. We should have been in the trenches, but some person pulled the wires, so here we are. Everybody wanted to be in the first line, just for the novelty of the thing. Last night, Christmas eve, I was up to the first line with ammunition, etc. I was in charge of the carrying party, and we had to traverse about a mile of the trenches to get to our destination. The boys all seemed to be in the best of spirits, and I noticed that the majority of them were smoking cigars from old Canada. Nearly all the fellows out here have learned to smoke—seems to be contagious. I suppose it helps to steady the nerves and while away the long lonesome hours of the night when on sentry duty. I haven't learned to smoke myself, yet—haven't the least inclination. Well, it is nearing dinner time and I hear the boys saying that the cooks have a Christmas pudding prepared. But, oh, how we will miss the turkey. However, I hope this may be the last Christmas we will have to spend out here. A couple of weeks ago I ordered a pair of rubber boots from London, England. One arrived alright, and I had to pack it around for a week before the other one came. They had been sent in separate parcels, being too heavy to be sent together by parcel post. The boys had a laugh at my misfortune, but now that the other boot has arrived I have the laugh on them. (He that laughs last laughs best). Well, it is dinner time, so I will conclude. Wishing you all a Happy New Year.

The "Poor" Farmer

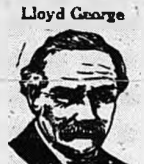
Talk about the "poor farmer." Last week Harley Teeple, of Jaffa, brought in a load of clover seed and sold it to G. A. Bingham & Co. for $532, and it wasn't a very big load either. There are so many ways for a farmer to get rich quick these days that they hardly know which one to select, although we notice that many of them take the one with the least work. All a farmer has got to do now is to keep half a dozen hens laying and the problem of living is solved. If he raises two or three hogs also, he is safe in erecting a new bank barn. A good three-year-old fat steer would pay off the biggest mortgage in the county. Half a dozen dairy cows would produce more profit than half the mines in Cobalt, while an average-sized flock of turkeys, which will hunt their own living all summer, will enable the farmer and his family to spend the winter months in Florida. When you add to this list butter, hay, wheat, corn, oats, horses, sheep and other products of the farm and remember that he gets cash for everything he sells, the mystery of why every farmer who comes into this office to renew his subscription, pulls out a roll of bills as big as your leg (with nothing smaller than a five) is solved. After a long, wistful look at the object of so much money, the poor printer turns his back on the farmer and his wad and brushes away a few silent tears, and then goes out among the other business men of the town for one who can change a five. But such is life. The money does not seem to be properly divided in this world. The printer has to look for his reward in the next.—Aylmer Express.

PAINS IN SIDE AND BACK

How Mrs. Kelly Suffered and How She was Cured.

Burlington, Wis.—"I was very irregular, and had pains in my side and back, but after taking Lydia E. Pinkham's Vegetable Compound Tablets and using two bottles of the Sanative Wash I am fully convinced that I am entirely cured of these troubles, and feel better all over. I know your remedies have done me worlds of good and I hope every suffering woman will give them a trial."—Mrs. ANNA KELLY, 710 Chestnut Street, Burlington, Wis.

The many convincing testimonials constantly published in the newspapers ought to be proof enough to women who suffer from those distressing ills peculiar to their sex that Lydia E. Pinkham's Vegetable Compound is the medicine they need.



This good old root and herb remedy has proved unequalled for these dreadful ills; it contains what is needed to restore woman's health and strength.

If there is any peculiarity in your case requiring special advice, write the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for free advice.

The Empire's Call to Ontario:

"ECONOMIZE"

Lloyd George

"We are fighting Germany, Austria, and drink, and, so far as I can see, the greatest of these three deadly foes is drink."

Lord Kitchener

"The men who have recently joined the Colors are facing their utmost to prepare themselves for active service with the least possible delay. This result can only be achieved if by hard work and strict sobriety they keep themselves thoroughly fit and healthy."

Admiral Jellicoe

"In the Navy there are three qualities upon which efficiency mainly depends. They are discipline, straight shooting, and endurance; and Temperance unquestionably leads greatly to the promotion of these qualities."

Baron French

"There is no doubt that the work which the Royal Army Temperance Association carries on makes men infinitely better soldiers and better men. If men want to be regiments, battalions, squadrons batteries, smart and efficient, they must practise these great qualities of self-control and self-sacrifice."

The existence of the British Empire depends upon the outcome of the War. All our resources must be thrown into the scale.

The Empire's call is for men, munitions, food, clothing, and, above all things, MONEY. We are being called upon to give our millions to carry on the war. Sir Geo. E. Foster has stated that the Dominion Government might even ask for a Domestic Loan of $300,000,000. It is only a few weeks ago that Canadians subscribed over $100,000,000 to a War Loan.

These facts bring right home to us that this is, as Premier Asquith stated, "A War of Money as well as Men."

Sir Robert Borden, Sir Thomas White, Finance Minister, and other prominent men have emphasized the necessity of economy.

Conserve our wealth. Cut down expenses. This is what we must do.

Something to Think About

Did you ever seriously think about the millions of dollars expended annually for alcoholic beverages in the Provinces of Ontario?

As nearly as can be estimated from figures, based on Dominion Government returns, the consumption of alcoholic beverages in the Dominion in 1914 was $103,049,129. Assuming that Ontario, whose population is one-third of the Dominion, consumes one-third of the alcoholic beverages, her share amounts to $34,349,709.66. Let us say $33,000,000.

In other words, Ontario's Annual Consumption of Alcoholic Beverages represents the cost of—

1st. Rifles, Machine Guns and Field Guns for an army of 690,523 men on active service for a period of 12 months.

2nd. Or Accoutrements, Camp Equipment, Harness and Saddlery, Transport Vehicles, Signalling and Telephone Equipment, Tools and Miscellaneous Requirements for 1,269,231 men at the front.

3rd. Or one year's Clothing and Necessaries for 330,000 men.

4th. Or Rations, Subsistence or Money Allowances for 226,027 "boys" on active service for one year.

5th. Or the Canadian Government's Separation Allowance for 117,773 dependents for the entire year of 1916.

The foregoing figures are based on the war estimates of the Department of Militia and Defence for 1916-17, as published on December 31st, 1915, in The Toronto Globe.

Eliminate This Expenditure

The Citizens' Committee of One Hundred believes that as a war-time measure, if for no other reason, this colossal expenditure for alcoholic beverages in Ontario should be eliminated. The Committee also has every confidence that the Provincial Government will move in this important matter as rapidly as public opinion will support them.

The function of the Citizens' Committee of One Hundred is to organize, crystalize and give expression to the present state of public opinion on the question of prohibition. The Committee believes that it can demonstrate to the Government that Ontario is overwhelmingly in favor of prohibition. The people will shortly be given the opportunity of signing a petition for presentation to the Government.

The Citizens' Committee of One Hundred is the executive head of this big new prohibition movement. It represents the whole Province. It numbers men of both political parties—men who welcome this chance to work for prohibition now that it has been taken out of politics—earnest men who are working together for the common good.

The public, and this includes those living in DRY municipalities, are urged to join hands with the Committee and insure the success of the movement. Doing so will show that you appreciate the benefits of prohibition in your own municipality and add great strength to the Committee's campaign.

If you live in a Local Option municipality your signature to the petition is just as urgently wanted as it would be if you were under license. Province-wide prohibition would not only confer a benefit on people living where Local Option does not prevail, but would also help to enforce the law in Local Option municipalities.

Signs of the Times

England

The sale of Beer has been restricted to five and one-half hours per day. WHY?

France

The French Government has prohibited the manufacture or sale of Absinthe, and provided heavy penalties for any person supplying any such liquors to soldiers. WHY?

Russia

The most outstanding example in the world's history of the prohibition of the liquor traffic is Russia. Our ally has enacted absolute prohibition with incalculable results—both economic and moral. Vice and poverty have given way to happier homes and enormously increased savings accounts. WHY?

Germany

On February 27th, 1915, the General Commander issued proclamations that any saloonkeeper serving alcoholic drinks to any soldier would be sentenced to one year's imprisonment, and his business closed up. WHY?

United States

Seven more States voted "yes" on December 30th, for State-wide prohibition of the manufacture and sale of liquor. WHY?

Canada

Prince Edward Island is dry.

Nova Scotia is all under prohibition except the city of Halifax.

New Brunswick has prohibition in ten out of fifteen counties and in two of its three cities.

Quebec has 908 dry municipalities and only 227 wet.

Manitoba will vote on prohibition this year.

Saskatchewan — Every bar was closed on June 30th last.

Alberta—Declared for prohibition on July 21st last by 58,250 votes, as against 37,000

British Columbia—The Government is pledged to take a plebiscite.

Ontario

573 municipalities are now dry and there are licenses to only 274. This counts as dry the municipalities voted dry on January 3rd. During the next five years only a single municipality in Ontario has gone back from prohibition to license. Local prohibition has proved an immense success. You are asked to join with the Committee of One Hundred in the demand for a chance to pronounce on Province-wide extinction of the traffic.

Citizens' Committee of One Hundred

GREENOCK COUNCIL.

McNab's Hotel, Clayton, Jan 10, 1916.

The council elect for the Tp of Greenock met as per statute. Members present—D Phelan, Reeve, Councillors Jas H Campbell, T Sweiger, H Kropelin and T Symon, who, after taking their declaration of qualification and of office, took their seats. The minutes of last meeting were read and adopted. The following accts were presented for payment and were ordered to be paid: A Cashenette, bal gravel contract, on C, $23 63; Jas Symon, inspecting Cashenette contract, $8 75; Dr Harvey, bal salary as M O of H, $8 50, visit to Mrs Connor, $1; $9 50; Canada Compiler, issue Hount, town line acct, $1 15; J McNab, room for Indrea court of revision, $1, council meeting 68—$3. Campbell—Sweiger—That the D H officers, poll clerks and owners of polling booths be paid $2 each, and bail $4 for nomination. Carried. The following checks were issued in accordance with above motion: D H O, J J Connolly, $2 for O H Greenwich $3 50; T Mullin, $1 50; F Taylor, $1 75; A E Knox, $9 5; H J Harrison, $1 75; W Pomerton $4 50; D McDonald, $1 0; Poll Clerks, $2 each—P Cashenette, J Sweyth, J Greenwood, J Clark, J Howley, D Donaldson, A McFarland; polling booth owners, $2 each—D Donaldson, H C Chambers, M McNab, T Smith, W Trotter, G Davison, J Purdy, S McMaster, Wm Trotter, for hall for nomination meeting, $4.

Symon—Greenwich—That this council charge the Bruce Telephone Co the sum of $10 for collecting their telephone taxes.—Carried.

Greenwich—Symon—That this council grant the sum of $15 on the 15th con west of 20th s l, to be expended by the mover.—Carried.

Salaries of officers of the corporation were fixed as follows for the year: Treasurer $75; clerk $160, assessor $90, collector $80, auditors $5 each and 10; per mile one way, 4 c officers each $1 and 10c per mile one way for attending ballot boxes, poll clerks $2 each, selectors of jurors each $4, medical officer of health $25, sanitary inspectors $2 for inspecting stables and slaughterhouses and $2 for disinfecting houses and 10c per mile one way, secretary of B of Health $10, members of council $2 50 per day and 10c per mile one way.

Mr John Meagher was appointed a member of the Local Board of Health in Sydney and Chas Webb as sanitary inspectors. J H McKinnon and Thos Hewston as auditors.

Sawyer—Symon—That this council do now adjourn to meet at Riverdale on Monday Feb 7th, for the transaction of general business, and to receive applications for the office of assessor and collector for the current year, and tenders for the township printing for the year 1916.—Carried.

SAUGEEN COUNCIL.

The Saugeen council met on Jan 10 h. Present—G Christie, reeve elect, J H Webster, Maurice Chappell, Wm Greathead and Wm Atkinson, councillors elect. The necessary declarations having been signed Reeve Christie called on Hey W J Watt, who was present, to conduct electoral business.

Officials were appointed as follows: Auditors, Geo R Webb and J W McKinney; member board of health, Wm Rowe; sanitary inspectors, Alex Bell and A J Rowland; assessor, Jas Towle; pound keepers, John Teah, Robt Hoult, Jas Hoult, Neil Muir, J H Lyons; bridge inspectors—Zaal's, M Zaal; Schwass', H Daniels; Mellan's, A McDonald; Keating's, Nelson; McEwing's, D Thompson; Bells, Jas Bell; Stewart's, W Greenwich, H Greenwich's, Wm Greenwich, Jr; McCubbin's, J Shank; Elliston's, W H Atkinson.

The clerk was instructed to advertise for cedar timber.

Mr D Brooks requested the council to pass a by-law repealing him poor to dam the Saugeen river, the motion of Webster and Chappell the council declined to take any action.

A letter from Mrs. J. E. Trotter was read, thanking the council of 1915 for their action in remembering the sacrifice of the late Capt Trotter.

An appeal from the Sick Children's Hosp was read. No action taken.

On motion of Greathead and Chappell the treasurer was instructed to pay $15 to cremas collector from the township for every section.

On motion of Chappell and Greathead the salaries of township officials were fixed as same as last year.

The following accounts were passed: J Cottrell, boulder timber $14 G E Hay Rep account to Jan 1st, 1916, $21 25; F W Kline election expenses, $10 10; G Christie, $2 70; J Webster, $7 30; M Chappell, $2 40; Wm Greathead, $7 95; Wm Atkinson $7 85.

Council adjourned to meet Feb 15th, unless nominations, etc, will be published.

The Housewife's Corner

Dainty Dishes.

Prune Pie.—Line deep pie dish with rich pastry. Cover bottom with stewed and stoned prunes. Pour over these one egg beaten with one-half cup sugar, one-half cup milk, one-half cup cream and sprinkling of nutmeg. Bake without upper crust.

Tomato Celery Sauce.—Chop fine one onion, one green pepper and one large bunch of celery. Mix, add two and one-half cups canned tomato (from which some of the liquor has been drained), one and one-half teaspoons salt, two tablespoons allspice berries (if flavor is liked) and two-thirds cup vinegar. Simmer one and one-half hours.

Winter Fruit Salad.—Mix and chop thoroughly one cup figs, one cup seeded raisins and one-half cup stoned dates. Combine with this three or four oranges cut into small pieces and sweetened, one-half cup canned pineapple and sugar to taste. Mask individual portions with mayonnaise and top with whipped cream.

Breaded Pork Chops.—Have pork chops cut thicker than usual, wipe, cut out bone and skewer into rounds. Season with salt and pepper, put into bread-baking pan. Sprinkle top of each with dried bread crumbs and add boiling water to half the depth of chops, cover closely and bake in slow oven one and one-half hours. Remove lid, cover with buttered bread crumbs and brown. Arrange on hot platter and garnish with celery tips.

Corn Fritters.—Cut from the ears a pint of green corn, or take canned corn, drain off juice and chop it. Beat together a cupful of milk, two tablespoonfuls of melted butter, one egg whipped light, salt to taste and enough flour to make a thin batter. Into this stir the grated corn. Beat hard and cook, as you would griddle cakes, upon a soapstone griddle.

Hot Buttered Rice.—Throw one cup raw rice into two quarts boiling water, slightly salted. Boil fast twenty minutes or until each grain is softened, not broken. Drain in colander and set in open oven to dry while tablespoon of butter is being heated in frying pan. Drop in teaspoon grated onion and stir until fat is hot again, then turn in dried rice, toss lightly for a minute, season with salt and pepper and serve in deep dish. Onion may, of course, be omitted.

Fruit Tapioca.—One-quarter cup prepared tapioca, one and one-half cups water, pinch of salt and fruit as needed. Sliced apples, canned or fresh peaches, or pineapple may be used for this dessert. Place liberal layer of fruit in bottom of small pudding dish, sugar to taste, and if apples are used, add a little cinnamon. Put water and salt in double boiler, and when hot stir in tapioca and stir until clear. Pour this over fruit and bake until fruit is tender. This can be told by testing with straw. Serve with cream or thin custard sauce.

Roast Duck.—Prepare a duck for roasting and stuff with the following: Take the firm outside stalks of a head of celery, wash and wipe dry and with a sharp knife shave off the strings. Peel two or three medium-sized onions and chop them and the celery fine. Put a piece of butter the size of an egg in a skillet and let it get hot; then put in the celery and onions and let them cook till soft, stirring often; season with salt and pepper and stuff the duck with as much of the stuffing as it will hold. Sew it up, put a few pieces of butter, salt and pepper over the top and roast in a hot oven from a half to three-quarters of an hour, according to taste. Remove the duck from the pan, skim the fat from the gravy, add a little bouillon and thicken with a little flour, made smooth in a little cold water.

Toothsome Cakes.

A very nice cake to bake for a silver wedding anniversary, or for any occasion where this effect is desired, is obtained by following the directions given below. The cake isn't really silver, of course, but the illusion is suggested by the name. Here is the recipe:

Required, ½ cup of butter, 1¼ cups of sugar, 1 cup milk, 3 cups of flour, 2 tablespoonfuls of baking powder and the whites of 6 eggs. Beat the butter to a cream, then add the well-beaten sugar and beat well; add the yolks of the eggs and beat till very light. Then add the milk and mix carefully. Now sift the flour and baking powder together, and add gradually to the mixture. Turn into a buttered pan and bake in a moderate oven for 45 minutes.

Imperial cake is another favorite recipe. Take a pound of butter, a pound of sugar, a pound of flour, the juice and rind of a lemon, a pound of blanched almonds, ½ pound citron, ½ pound of raisins, 9 eggs and a teaspoonful of baking powder. Blanch and peel and pound the almonds and crush them in a mortar. Seed the raisins, cut the citron into shreds, and quarter-inch dice, very fine. Grate the zest of the lemon. Beat the butter to a cream, as in the other recipe; add the sugar gradually, beating till light. Then add the yolks of the eggs, beaten to a cream. Beat till very light, then mix the sifted flour and baking powder with the almonds, and add them gradually to the mixture, beating vigorously. Add the raisins, dredging with flour, and the citron; mix well. Add the juice of the lemon and, finally, the whites of the eggs, beaten to a thick froth. Turn into a buttered tin and bake for an hour in a moderate oven. Use the broom-wisp test before removing from the oven.

White lady cake is a pretty delicacy and is easy to make, too. Use 1½ cups of flour, 1 cup of sugar, ½ cup of butter, the whites of 4 eggs, ½ cup of milk, 1 teaspoonful of baking powder and a teaspoonful of peach extract. Cream the butter, add the eggs, beating the whites to a stiff froth, and mixing well. Add the milk and gradually add the flour, blending thoroughly and beating till very light. Add the essence and bake in a moderate oven for an hour.

Madame John's cake is expensive but very good. Use a pound of sugar, 7 ounces of butter, the whites of 16 eggs, and a pound of sifted flour, and the juice of an orange. Cream the sugar and butter, then add the whites of the eggs, beaten to a stiff froth, and stir in gradually the flour and a teaspoonful of baking powder. Flavor with the juice of an orange extract, and bake from 30 to 45 minutes in a quick oven, using the broom wisp test.

Household Hints.

When watering house plants a little sweet milk added will often be a benefit to them.

The only way to insure shiny, clean dishes is to insist on clean, sweet dish towels.

Dried lemon peels sprinkled over the coals will destroy any disagreeable odor in the house.

When frying oysters try adding a little baking powder to the crumbs in which they are rolled.

When a vegetable is tender enough to be pierced with a fork it is perfectly done and should be removed from the fire.

Set the flour on the top of the warming oven of the range the night before baking. Warm flour will make the bread rise more quickly.

Charming little candle-shades can be made at home by the artistically inclined member of the family. They should be cut from heavy drawing paper and painted decoratively before putting together with clips.

IF YOU WERE THE "BOSS."

Here Are a Few Pointed Questions For You to Answer.

If you applied to yourself for a job—would you get it?

Think it over.

Just be "boss" for a few minutes—then check up your record for the past month as an employee.

Remember now, it's your money meeting the payroll.

Have you, as an employee, filled your hours with productive conscientious labor, or have you been too busy watching the clock?

Have you produced enough in that month to make you a profitable investment?

Have you put your shoulder to the wheel—forgotten petty differences and difficulties—or have you put sand in the bearings?

Have you asked questions and improved—or have you been too wise to learn?

Have you analyzed what you are doing, and why, or used instinct instead of reason, and got an indifferent and methodless result?

Have you allowed your mind to become poisoned with anger, worry or envy, and by so doing contaminated and reduced the efficiency of others?

Have you gone through the month, a vision of pay day the oasis in your desert of work? And have you let this vision shut out from view all else in the day's work that would build you to a site where you would give yourself a job?

Or have you been heart and soul in the work—on the job every minute with a breadth of vision that made of the desert of work an oasis of opportunity?

Check up. Be truthful. Would you give yourself a job?—J. R. Worden, in The Artisan.

A Curious Will.

A curious will has just been settled in England containing a moral worth a wider circulation than a miser's last testament often obtains. The poor man died, when to general surprise it was found he left $170,000. The $150,000 in a package, signed and sealed, was to be given to his native town; five thousand each to three brothers, and five thousand to a friend with whom he had quarrelled. It was stipulated that none of the four should follow the body to the grave, which suggestion the three brothers gladly accepted, but the quarreller walked alone, and forfeited his $5,000 for the sake of paying a last mitigating honor. When the package was opened for the town it disclosed another will, giving the $150,000 to any of the four who should disregard the stipulation.

GERMANY PAYING THE PRICE OF MILITARISM.

The return to the Fatherland of maimed German soldiers who have been exchanged for Russian prisoners. They were photographed at Haparanda, in Sweden. The four cripples in front are all from the same German company. Even as they are, they consider themselves lucky, for the majority of their comrades were killed in an unsuccessful attack on the British positions near Bethune.

MYSTERIOUS EXPLOSIONS.

More Than 100 American Lives Lost in Munition Plants.

One hundred lives approximately have been lost in mysterious American munition plant fires and explosions since the European war began. The following is a list of the more important fires and explosions:

Aug. 30, 1914.—Du Pont de Nemour's powder plant, Pompton, N.J.; explosion; one killed.

Aug. 1, 1915.—Buckthorne plant of John A. Roebling's Son's Company, Trenton, N.J.; fire; loss, $1,500,000.

March 6.—Du Pont de Nemour's powder plant, Haskell, N.J.; explosion; five killed.

April 1.—Equitable powder factory, Alton, Ill.; explosion; five men killed.

May 12.—Anderson gunCotton warehouse, Wallington, N.J.; explosion; three killed.

May 15.—Du Pont de Nemour's still house, Carney's Point, N.J.; explosion; six injured.

June 26.—Du Pont de Nemour's plant, Wayne, N.J.; explosion.

July 7.—Harrison Brothers' benzol factory, Philadelphia; fire; loss $500,000.

Aug. 10.—Aetna Powder Works, Stanemahoning, Pa.; explosion; five killed.

Aug. 12.—Du Pont plant, Wilmington, Del.; explosion.

Aug. 29.—American Powder Company's factory, Acton, Mass.; explosion.

Aug. 29.—Du Pont plant, Wilmington, Del.; explosion; two killed.

Sept. 1.—National Conduit and Cable Company's shell factory, Hastings, N.Y.; explosion.

Oct. 6.—Aetna Powder factory, Emporium, Pa.; explosion; four killed.

Oct. 28.—Russians' munitions warehouse, Seattle, Wash.; fire; loss, $500,000.

Nov. 10.—Bethlehem Steel Company's ordnance plant, Bethlehem, Pa.; fire; loss, $1,500,000 (estimated).

Nov. 10.—Midvale (Pa.) Steel and Ordnance Company; fire; two buildings destroyed.

Nov. 10.—Baldwin Locomotive munitions plant, Eddystone, Pa.; fire; loss, $50,000.

Nov. 11.—Roebling steel rope plant, Trenton, N.J.; fire; loss, $1,000,000.

Nov. 30.—Du Pont powder plant at Wilmington, Del.; explosion; 30 men killed, seven injured.

WAR GRAVES MARKED.

French Keep Careful Record of Burial Place of Fallen.

Interesting details regarding the manner in which the graves of soldiers who have fallen on the field of battle are identified are given in the following article, translated literally from the Paris Matin:

"Leave for a minute those trenches and earthworks. Let your gaze wander in that orchard or there in that copse, or yet again on that crest. See, one, two, three, twenty little mounds. On every mound a wooden cross and on every cross a little khaki or red cap. The orchard is full of them; the copse is studded with them; the brow of the hill is fringed with them.

"Along the whole battle line from the wooded mountains of the Vosges down to the sand dunes of Belgium every single sector has been placed under a separate officer, whose sole duty it is to identify and collect matter concerning every one of those little mounds.

"Not a single piece of information is allowed to slip by uncatalogued; each cross has its own humble chronicle all written down and indexed and catalogued.

"Each tragedy once chronicled is then copied in duplicate, one always accessible in case additional information should crop up and the other deposited at the nearest general headquarters.

"Nothing is omitted which could possibly afford a clue to the dead hero's identity—name, surname, regiment and rank—and then each grave given a number corresponding to the document."

It is difficult to convince a pretty girl that love is blind.

BATTLE IN THE AIR.

British Officer Tells How German Machine Was Sent Down.

A spectacular air battle is described in a letter from an officer who witnessed an engagement in Flanders between a British and a German aeroplane. His letter reads:

"Thursday morning about 8 o'clock I heard the aeroplane sentry blow his four whistles and put my head outside to see where the German was. The 'Archie' (anti-aircraft guns) were at him, and getting pretty close to him as he came over the battery. I could hear one of our machines up, and looking around saw him after the enemy. 'Archie' evidently didn't see him as they went on firing at the German until one round nearly hit our machine. Then they stopped.

"Then the real fight began. The German turned tail (they are much faster machines than ours), but our machine had his speed up and we could hear the two machine guns crackling up there in the blue—they looked like two wild birds.

"Then our machine got on top, and, looking through my glasses I saw some spars cut away from the German and fall. The German did a nose-dive; righted himself for about three seconds, and then pitched head first—to the ground. Evidently his propeller was shot away too, as his engine was roaring, making a terrific noise as he came down. Both the pilot and his passenger were killed and fearfully mangled, and the engine went about six feet into the ground. The machine fell about 8,000 feet.

"The troops round here cheered our machine like mad—not that he could hear them. The two men who were in our aeroplane are absolute devils for this sort of thing, and have brought down several machines lately, although this is the first to fall in our lines. Altogether it was a magnificent sight, although one couldn't help feeling a little sorry for the Germans, but an one of our telephonists said: 'I dunno, sir—he shouldn't try to come and play in our back yard.'"

LEARN SPANISH.

It Is Far Easier to Learn Than the French Language.

Spanish is the simplest language to learn in the world, and, commercially, it is one of the most valuable.

Six months' tuition should enable the average person to acquire a sufficient knowledge of Spanish for business purposes. It is quite simple, too, to compose an ordinary business letter in this language at the end of that period.

One fact that makes the language so easy is that Spanish is pronounced exactly as it is spelt—there are no accents to trouble about, and the letter "h" is always silent. It is far easier to learn than French, and a knowledge of Latin helps one considerably.

An ambitious man, familiar with the Spanish tongue, is offered enormous opportunities in the continent of South America. German success in the Spanish markets has been largely due to the fact that they have mastered the language and conducted their business in it. Their catalogues are drawn up in Spanish, and their agents speak it well enough for all commercial purposes, though with the inevitable Teutonic accent.

MEDAL FOR WRONG MAN.

Soldier Never Heard of Cancellation —He Had Been Killed.

A pathetic case of decoration by mistake has come to light in the case of the late Lieutenant J. H. Musson, of the Royal West Surrey Regiment. The name of this young officer had been confused with the name of another officer for whom the reward was intended, so the London Gazette of June 23 last stated that Lieutenant Musson had been recommended for the Military Cross. On July 24 the War Office, having discovered the mistake, cancelled the award. But Lieutenant Musson never heard of the cancellation. He was killed in action five days previously.

THE QUEEN AND THE TEACUP.

How She Came to the Rescue of An Old Servant.

The mother of the present Queen of Holland married King William when the King was pretty well along in years; it was his second matrimonial adventure. He was so pleased with it that one day he purchased a tea set of costly porcelain as a gift for his queen. He felt that it was quite an extravagance, and threatened to discharge any servant who was careless enough to break a part of the set.

One day, says Novellen-Schatz, a man who had been in the service of the royal house for many years, had the misfortune to break one of the precious cups. He was heartbroken. Tearfully he went to Queen Emma and told her his story. The sympathetic queen took the broken pieces and put them together, saying, "I think we can fix that. Just paste it together with cement. The edges are smooth and won't show much. Leave the rest to me. I'll do what I can to save you."

When the royal family sat down to tea the next time, the injured cup was at Queen Emma's place. The queen, pretending to be very thirsty, drank all the tea at once; and then, as if struck with a sudden idea, she turned quickly in her chair toward the king, and her arm swept the cup to the floor. As it crashed into a thousand pieces, the queen affected an expression of deepest regret, and said timidly, "There, Your Majesty, see what an awkward servant I am. Now, the only thing you can do is to dismiss me from your service."

But William was in a happy mood; seeing how grieved his wife appeared, he made light of the loss and consoled her affectionately, while the old servant stood trembling by, thanking his good fortune for a mistress whose tact and kindness had saved him his position.

INVENTIONS BY WOMEN.

Have Perfected Many Useful Articles For the Home.

Women inventors are constantly increasing in number, and among those who have recently achieved success is a woman who has perfected spout kettles, tea kettles, coffee pots and like utensils. She not only has a specific spout design in these, but also a baffle plate at the bottom of the kettle, which in conjunction with the spout causes a smooth, controllable stream to issue from the spout.

Another woman has invented an egg beater that consists of a single piece of resilient wire bent spiral shape over the handle strand. It is said to conform to the size and shape of the dish or bowl in which it is used.

One of the newest clothes-pins is fitted with a spring so that it can be clamped upon the wire and the garment suspended from it. A groove is cut in the upper end of the pin, in order that the clothes line will fit in it, and the inner lower surface of the pin that clamps the garment is corrugated, so that the drying article will not slip.

Excellent lunch boxes are now provided for children, thermos bottles included, at comparatively little cost, an invention of a woman. These boxes are of metal or tin, that permit of daily scalding. Lots of them have adjustable compartments, so that the contents can be neatly packed and kept in place.

PAYING OUR DEBTS.

Man Ought to be as Honest as the Earth.

Any man making a pretence at being honest will try and pay for what he gets. But having admitted the fluidness of his claim that he do so he may be surprised at the wideness of the application of the principle that lies at the back of it. The earth pays for what it gets—the rain and the sunshine, and the breezes of Heaven—with fruitfulness, waving grain, buds and blossoms and fruits, and the smiling green of fields. It is not a mere sponge, receiving always and never responding to the giver. It gives back everything, with an added something of its own. The earth is honest, generously honest. And a man ought not to be any less so. He is getting every day and hour and moment of his life, getting from all sides and in all possible ways.

HAVE WEDDING RING FAMINE.

British Firms Report It Is Growing Serious.

The London Daily Mail says there is a wedding ring "famine" in Great Britain, although gold is abundant. The paper cites three main causes for this shortage in wedding rings: The great number of war weddings, unprecedented investment in gem rings by workers since the rise in wages, and the absorption of the jewellers' workmen by aircraft and munitions factories.

The manager of a leading wholesale firm in London is quoted as saying his concern has orders in the value of $125,000 which cannot be filled for the reasons mentioned. These orders have been accumulating since last May.

Clerk (run into by somebody in the dark.—Clumsy idiot (perceiving that it is his employer) that I am!"

And many a man has lost money through the hole at the top of his pockets.

THE SUNDAY SCHOOL

INTERNATIONAL LESSON, JANUARY 23.

Lesson IV.—The Spirit of Life, Rom. 8. 12-30. Golden Text: Rom. 8. 14.

Verse 12. The sentence was to end "but to the Spirit, to live after the Spirit." Paul, dictating to his too slowly writing amanuensis, was constantly liable to change his constructions. The flesh, in Paul, means our sinful lower nature; in John, simply the human body.

13. Life (true, eternal life) consists in what is spiritual; if we live without reference to anything higher than the body, we shall die. We must therefore anticipate the ultimate death of the bodily functions by learning to depend on something higher which will not die.

14. Led by the Spirit.—Nearly the same words as in Luke 4. 1, a suggestive parallel. See also Gal. 5. 18.

15. Again.—Yielding to sin meant slavery (John 8. 34); yielding to God is not a mere change of bondmasters; it is re-entering a Father's house. Abba.—The first word of the Lord's Prayer in its original Aramaic. It is kept in its sacred original, but immediately translated.

1. Our spirit.—The part of our humanity in which we have conscious contact with God; it is dormant in the "unspiritual." The heartfelt cry "Our Father" is produced by the meeting of the Divine Spirit with the human. Children by birth; sons by privilege—they might be adopted.

17. Joint heirs.—Compare Mark 12. 7; Heb. 1. 2; and such passages as Col. 1. 12. If—Emphatic. Compare Acts 14. 22. This does not mean that happiness has a curse on it, so that suffering should be sought. It will come to all, and when it comes it is to be accepted as a sharing in Christ's lot. Compare 1 Pet. 4. 13. Of course, Christians in that age need not consider the temptations of a life without suffering; suffering was the normal condition for them all.

26. Meanwhile the apostle turns to the blessedness of the "installment" of our promised possession. Though the "groans" (verse 23) are inarticulate, though prayer be but "the burden of a sigh," it is "inwrought" or "inspired" (James 5. 16, as it should be read) by the Spirit, and God needs no interpreter. We pray better than we know if our hearts are open to the Spirit's influence.

27. For the saints.—The (as it were) official name of believers; holiness is an essential. It is necessary if this "inspired" prayer is to be offered. Note, James speaks of "the supplication of a righteous man."

28. God worketh all things with them for good (margin).—So read with the best MSS. Pain, sorrow, disaster, God transmutes them all into fruitful discipline, and the harvest is only good.

29. Who are these "called" ones? (Compare Rom. 1. 7.) God's "foreknowledge" being absolute, mere knowledge as to the destiny each individual will choose cannot be included. God "knows" those whom he recognizes as his own. (Compare Amos 3. 2; Deut. 34. 10; 2 Tim. 2. 19.) For all such there was a type devised from the beginning: God's sons are to bear a "family likeness" to his Son. It is the thought of 1 John 3. 3, which tells how a "hope set on" Christ enables its possessor to purify himself after his purity. Conformed.—Compare Phil. 3. 10. First-born among those whom "he is not ashamed to call brothers." So he declared his ascension "unto my Father, and your Father."

30. The objects of all these divine actions—or rather different aspects of one action—are to be defined as those who of their own choice accept God in Christ. They answer to a divine ideal, obey a divine invitation, receive God's verdict of acquittal on any charges the past may bring, and are clothed in the glory which God designed to be the portion of his own. Called—a word of Jesus; see especially Mark 2. 17. Justified—A metaphor from legal procedure, expressing simply the verdict, "Not guilty." Immense harm has been done by pushing one illustration too far. It takes a whole series of illustrations to make the atonement even partially clear; and the point of this one is only that the acquitted person can start afresh unencumbered by the burden of the past. Why God can acquit on the ground of faith in Christ, and how the consequence attained is future freedom from sin, we have to learn by the aid of other parables. There is nothing in human jurisprudence which illustrates this side of the atonement, and the parable accordingly leaves us with no further help.

How Rough House Started.

They were talking about various things at the club, when a member not especially noted for his cleanliness remarked: "Would you call a bath a luxury or a necessity?"

"In your case," replied the man addressed, "it would be both—a necessity because you need it so badly, and a luxury because you take it so rarely."

How the Nations Feel.

It's pretty hard to think of suing for peace when you feel as if you ought to be suing for damages.

The AUTOMOBILE

Some Ways to Avoid Skidding.

Ask the average motorist what he fears most in the daily handling of his machine, and the answer will be "skidding," for if there be one thing more than all others that the motorist fears, it is that sickly sinking of one's interior that comes with the sudden and entire loss of control inevitably accompanying a bad skid, writes F. W. Muller.

The reckless, the foolish and the incompetent pedestrian can be guarded against—even the man who loses himself in a brown study in the middle of a busy street and the old lady who flutters back and forth in the path of a car like a befuddled hen, can be taken care of with the brakes. But with a skid once started only Providence and the skilful hand at the wheel are of any avail. The side slip is almost always entirely unexpected, but, unlike the former, it is not always unavoidable. The case is distinctly one for preventives and not for remedies. There is no remedy for a bad skid but to patch up the damage and gather together the shaken nerves as best you may.

Best Anti-Skid Rule.

As an absolute preventive of skidding non-skid chains will naturally suggest themselves at once to the reader, and it may be added that two of the insurance companies that write automobile accident policies have taken cognizance of the frequency of accidents caused by skidding and recommend the use of chains. In truth, if the chains are in their proper place on the tires our "ever present danger" has been exorcised, so that the remarks which follow may be taken merely as advice for that day when somebody forgot and left his chains in the locker at home. And right here we can offer the best anti-skid rule of all: Make it an invariable rule to keep the chains in the car and not trust to remembering to put them there just before you start out.

Skidding is the result of the failure of one force to counteract another—in other words, the momentum of the machine is in excess of its traction and almost invariably has its origin in an attempt to alter the direction of travel when on a slippery surface. Consequently, the first precaution to be observed is to drive slowly over the occasional strip of wet asphalt. A slow pace will also obviate the necessity of using the brakes in the majority of instances, for braking is one of the things that should be avoided by all means when attempting to regain control during a skid, as if the rear wheels can be made to resume their usual function of rolling after the front ones the slide will be over. The average motorist's first impulse is to jam on the brakes hard, with the result that the driving wheels immediately lock and continue to travel sidewise on the small section of the tire that lost its traction and caused the skid in the first place.

To Counteract Obstructions.

If it be possible to avoid the use of the brakes and the front wheels be thrown immediately in the same direction as the rear of the car started to slide, the tendency to keep up this process until the car lands up against the curb or some other equally unpleasant obstruction, will be counteracted and its progress erabsive arrested. For example, if in attempting to pass another vehicle to the left the rear wheels refuse to take part in the manoeuvre, but start on a swing for the curb at the right, the steering wheel should be immediately swung in the same direction, thus presenting the four wheels of the machine as a broad "V" against the sliding action.

Where the pace is overtaxt, considering the slipperiness of the surface, the energy of the moving body cannot be absorbed in a short distance either by the brakes or the turning of the steering wheels to counteract the slide. Then occurs that most to be dreaded of all skids—the "sashay on all four," against which only a swift mental appeal to Providence and a resolution to use the tire chains next time are of any avail. The rolling momentum of the car is transformed into a force that sends the whole machine along sidewise, its progress aided by the locking of the rear wheels, and the driver finds himself utterly helpless.

As the only sure and dependable means of preventing skidding anti-skid chains stand supreme. I always have a set with me. They are easy to put on and easy to take off, and if they were twice as hard to handle I should still believe that the element of safety they add to my pleasure would make them well worth while.

THE AUSTRIAN EMPEROR.

Franz Josef Is Dying at the Top, Berlin Report Says.

Word comes from Berlin that while the war seems to have endowed the Kaiser with almost superhuman energy and endurance, it has completely shattered the nerves of the aged Emperor Franz Josef, whom nobody in Vienna nor anywhere else, as far as the general public is concerned, has seen for many months. This is the story:

Though it has often been stated in Vienna for the benefit of the foreign press that the emperor is at the Hofburg, the gigantic imperial palace there, in frequent conferences with Count Tisza, the Hungarian premier, and Herr Berlan, the foreign minister on diplomatic and military questions, the truth is that for almost a year he has never left Schoenbrunn, where he lives the life of a hermit in total ignorance of everything that happens in the outside world.

No matter what is sent to the world about interviews and all that, no word of the war is permitted to pass the gates of the imperial hermitage and so Franz Josef hears absolutely nothing of the conflagration in which he gave the signal himself when he declared war against Servia.

The old emperor is apparently in good health, though exceedingly weak, but mentally he is an absolute wreck, and it is a question whether he had any idea whatever of the fact that his empire is struggling for its existence. Very often it is said he gives way to violent attacks of weeping.

Franz Josef, who, before the war, used to be up at dawn, now rises very late, though he goes to bed with the sun. He spends an hour every day in the winter garden of Schoenbrunn palace, sleeps or dozes for 20 hours out of every 24, speaks only to his personal valet, and very rarely receives any one in audience, not even any of the numerous imperial highnesses.

When he does consent to see any of his nearest relatives he nods his head as a signal that they may enter, and shakes it when he thinks the audience has lasted long enough, which is never longer than three minutes. Archduchess Zita is generally dismissed in a minute, but Archduchess Valerie, an old favorite of the emperor, is occasionally permitted to stay a little longer.

It was with the greatest difficulty that he was recently persuaded to see Frau Katharina Schratt, who formerly had a finger in every diplomatic and political pie, and who came from Vienna to Schoenbrunn every morning to keep Franz Josef company as he drank his coffee.

The old monarch has now only one desire—to be left in peace and be allowed to die in peace.

WARSHIPS WITHOUT FUNNELS.

Device Would Promote Efficiency and Serve as a Protection.

From a French source we learn that the day of the funnelless battleship is near at hand, says The Liverpool Journal. The details available are very meagre, and too indefinite to be of much interest, but the idea is interesting because the title "funnelless battleship" expresses in apposite form one of the most important advantages incidental to a particular method of propulsion. In a merchant vessel funnels do not form a serious obstacle to the working of the vessel, and owners have no desire whatever to possess motor-driven vessels simply because they need not be fitted with a funnel. The case of the battleship is very different. The funnels, especially in large, high speed ships, are not only in the way, but they are a positive danger. The designer would be very pleased to see the funnels disappear, because they seriously interfere with the arcs of training of his guns. But the ships' officers would be still better pleased because funnels form an excellent guide to the target, and a big ship is best seen and recognized by her funnels. They practically form the indelible birth-mark, the most prominent distinguishing mark by which the enemy recognizes the vessel to which he is opposed. We hear many tales of tricks with dummy funnels, but a four-funnelled cruiser cannot hide herself.

The search for an efficient type of propelling machinery in which funnels could be dispensed with has been a long one. That the problem will one day be solved cannot be doubted, but even this improvement is only one step in the direction of constructing a battleship which will combine the qualities of the surface ship and submerible. That is the great problem which confronts the experts of the future, and every step which brings us nearer to its accomplishment is received with interest.

Asquith's Loss.

No one has felt the loss of the members of the House of Commons in the war as much as Mr. Asquith, British Prime Minister. The last four to fall were all young men, and Mr. Asquith has an affection for youth. One of his social intimates was a young Unionist member with a pretty taste in verse-making, and he and the Prime Minister would spend many a pleasant hour in capping verses. In the House of Commons his liking for young members and his appreciation of their ability were most marked. He watched with obvious pleasure the displays of the debating swashbucklers, and he never exercised his own debating skill to crush a young antagonist.

TAKING THE KING'S TWO SHILLINGS AND NINEPENCE.

In the recruiting campaigns of other days the newly enlisted man was frequently described as "taking the King's shilling," representing a day's pay. Pay of soldiers, like that of other occupations, has gone up considerably lately, even in the Old Country, where he gets two shillings and ninepence now to bind the bargain, instead of one shilling.

LORDS AND DOCKERS ARE GREAT PALS

OFFICERS AND MEN UNITED BY WAR.

Duke of Rutland ad Ben Tillett Speak at the Same Meeting.

One of the most striking assemblages the war has drawn together was that at His Majesty's Theatre, London, when Ben. Tillett, head of the Dockmen's Union, gave what he called a "message from the trenches."

The theatre was jammed with a throng comprising men and women of the highest caste—lords and ladies among them—down to the laboring element of which Tillett is typical.

The meeting was presided over by the very precise Duke of Rutland of the stately House of Manners, who looked a Duke to the tip of his six feet of stature, even to the monocle through which he squinted at the audience and at Tillett. As the Duke expressed it in opening the meeting: "Mr. Tillett and I, before this war did not exactly see things eye to eye."

Fighting Like Devils.

Before Tillett was through with his address he paid the most eloquent compliment he could to the nobility in the fighting lines by saying:

"Among our officers you'll find chaps of title—nuts, you might say some of them are—fighting like devils along with their men in the ranks. They're the pals of the dockers and the miners and all of 'em. There never in the whole world were better soldiers, braver fighters, or truer men than they."

A roar of applause swept through His Majesty's Theatre. Tillett had a solemn warning to give his audience and the people of England. He had just returned from one of his periodical visits to the trenches.

"It's all right to sit in this hall quite comfortable and think in a sympathetic way of the boys in the trenches," he said, walking down the platform, a stodgy yet strangely impressive figure, for Tillett isn't more than 5 feet tall. "Yes, we're safe enough here. And why? Simply because of our navy. It's the navy that hurried troops over to France at the beginning of the war and stopped the Germans from getting to Calais. It's the navy that's bottled the German fleet up. It's the navy that protects our shores.

"While we're all feeling secure that the Germans won't get here and overrun our land, how about the boys in the trenches, who're withstood the tornado of the German guns these long months? How about 'e, I say? I'll tell you what—they need ammunition and guns, and they need 'em badly—all the time.

The leader of the dockman gave a picturesque idea of a heavy battle.

Twenty Miles of Shell Fire.

"Take this table here," he said, putting his hand on the one at which the Duke of Portland sat, behind his monocle. "Say that on this side," indicating that where the Duke sat, "are the German lines.

"Now on this other side," Tillett proceeded, "we've got the allies. The distance between the two lines is 20 miles. That's the distance at which the big German guns can fire. Now, say our boys are charging the Germans. The enemy, being careful in marksmanship and having guns of every range from twenty miles down to the rifle that can shoot a man at two miles or a mile, simply rake this whole field with a terrific fire.

"We've got to give our men at least as much ammunition as the Germans have got. They must have enough stuff to poor out that same curtain of fire the Germans have been giving them. When that's done we'll drive the Germans out of France and out of Belgium, and not before.

"We all know the Kaiser had been preparing for this war for forty years," he said. "We've been trying, peace-loving England has, with her allies, to catch up ever since the war began, and we're doing it. We're going to win, right enough. But it's a tough job waiting for the day when we've got all the materials in hand so we can rush the enemy out."

The Prince of Wales.

Tillett spoke of the anxiety of officers in the field over a "certain young man" out there who, an officer himself, kept getting into danger.

"He would insist on getting out into the open, where he could see things," said Tillett. "He never was satisfied staying back in the distance, where he could observe things without danger of a bullet finding him.

"Well, the officers told me they were worried all the time over him, and they warned him to be careful, but it wasn't any use. He kept on 'doing his bit.'

"And that young man," exclaimed Tillett, with a flourish of pride, "is the Prince of Wales."

TRAINING MAIMED SOLDIERS.

England Teaching Wounded Men to Use Their Left Hands.

It is proposed to start in England a school where disabled heroes of the war who have lost their right hands or are debarred from using them through wounds shall be taught to do things with their left.

The feat is not difficult of accomplishment. It is all a matter of practice. Typewriters, violinists, and pianists, not to mention pugilists, use their left hands equally with their right. So do most men who shave themselves with an ordinary razor, and shaving with an ordinary razor is about the most delicate operation conceivable.

Some time ago, in order to teach ambidexterity—that is, two-handedness—at an English public school, boys who were given lines of poetry to copy as a punishment had to write them with the left hand. It was found that they very quickly acquired the knack.

At a certain London high school for girls, where ambidextral culture is made a specialty of, the pupils may be seen almost any day executing on a blackboard freehand drawings with both hands simultaneously.

No Strikes in France.

The world, Germany included, is learning to admire France and Frenchmen. In these days, when the labor question is so acute, it is a remarkable fact that since the beginning of the war there has not been a strike or the threat of a strike in any part of the French Republic. The men in the factories who are producing war material work ten or twelve hours a day and half of Sunday, although of late they have a half holiday once a fortnight. Even that they did not ask for, but the employers offered it, as they also made an increase in wages, although the men did not ask for that, either. A gentleman who has investigated the matter writes to the London Times that in no case has an industrial dispute hampered the government or reduced for a single day the full output of the factories of France.

Selfishness never made anybody happy, not even the men who has the disease.

ALL ABOUT SNOW.

Solid ice is lighter than water.

A mixture of salt and snow is colder than snow.

Snow is the best preservative for plants against frost.

Nine cubic inches of water will become, frozen, ten cubic inches of ice.

Snow is the condensed vapor of the air frozen and precipated to the earth.

Snow nourishes the earth, as it supplies moisture containing carbonic acid.

Water contracts until it is reduced to forty degrees, and then expands till it freezes.

Pipes are bound in straw during the frost because straw is a non-conductor of heat.

Sleet is snow which has passed through air above the freezing point, and thus falls half melted.

Mortar crumbles during frost because it was not dry, and its own moisture expands and crumbles it.

If ice were heavier than water it would sink, and rivers would become solid and undissolvable ice.

Ice melts because heat forces its particles asunder, and when they are parted the ice becomes liquefied.

Icebergs produce echoes by presenting a barrier to sound-waves. The echo of a syren thus indicates danger.

One of the coldest mixtures known is made by adding three pounds of muriate of lime to one pound of snow.

Three pounds of snow added to one pound of salt makes the mixture fall thirty-two degrees below freezing point.

The absence of fogs during frost is because the vapor is frozen on the ground before it can rise, and becomes hoar-frost.

Clothes dark in color are warmest for winter wear. A piece of black cloth laid upon snow will melt it; white cloth would not.

Deep water retards the freezing, because the whole volume must be reduced to forty degrees before the surface will freeze.

Bricks cannot be laid in frosty weather because frost expands the water in the mortar, and the bricks are thrust from position.

When the earth is covered with snow its temperature rarely falls below freezing point, even if the air is twenty degrees colder.

Frost-tracery on bed-room windows is caused by the warm breath of the sleeper being condensed and frozen on the ice-cold window.

Islands are less cold in winter than continents, as the sea is warmer than the frozen land, and mitigates the coldness of the land air.

Snow obstructs the passage of sound; frost helps it. In cold, clear, frosty weather, voices have been distinguished one and a half miles away.

THE PRINCE OF WALES.

Gossip About a Wife For the Heir to the Throne.

Speculation as to royal marriages, always a lively topic of gossip, has been increased since the war began, for the field of possibilities, so far as the royal houses of Great Britain and Russia are concerned, has been narrowed by the war. Thoughts of marriage between the princes or the princess in Buckingham Palace with anybody of Hohenzollern associations are now out of the question.

Meanwhile the Prince of Wales is in the 22nd year, his brother Albert will be 21 on December 14 and the Princess Victoria passed her 18th birthday in April last. The three younger brothers range from 16 to 18 years of age, so their brides need not cause their royal parents any concern yet awhile.

The choice of the next Queen of Great Britain is of such importance that even this great war cannot obscure the popular interest in the selection of a wife for the Prince of Wales, and it is recalled that while he is 22 now, his father was married to the Princess of Teck when he was 28 years old, and his grandfather married Queen Alexandra when he was not as old as the Prince is now. The exceptionally late age at which King George was married may, in part, have been due to the fact that the heir to the throne, the Duke of Clarence, did not die till 1892, and his brother, the present King, was married the next year.

That there are five boys in the royal family here is a fact that widens the field of speculation. A weekly paper in its last issue, for example, published the portraits of the two beautiful Rumanian princesses with the hint that they might later be better known in Britain, a safe and indefinite suggestion in the circumstances.

Similarly, it is equally vague to make suggestions with regard to the large royal family in Petrograd, but all the gossip selects no mate either for the Prince of Wales or Princess Mary. The cleverness of the Hohenzollerns in placing their children in so many of the royal families of Europe has been the subject of many articles in the British press during the war, and it has been pointed out how this has affected the diplomatic situation in Holland, Sweden, Bulgaria and Greece. Meanwhile, there has been no wedding in the immediate royal family since the King's sister Maud married King Haakon VII. of Norway in 1896.

Nothing jolts a smart man so hard as being beaten at his own game.

DEATH NOT GREATEST EVIL.

Sir Oliver Lodge's Message to the Bereaved.

Sir Oliver Lodge, whose faith in life after death carries him to the point of believing that communications have been actually established between the living and the dead, has issued a "message to the bereaved," which is published in the Christian Commonwealth of London.

Sir Oliver's message reads: "The amount of mourning and suffering throughout Europe at the present time is something terrible to contemplate. The loss of those who have gone over is not to be minimized; violent death while young is a serious calamity—a man-made tragedy with dire consequences—and lamentation is natural and inevitable. But it must be remembered that, from the point of view of the individuals who have gone over, there are many mitigating circumstances. They have done their duty; they have sacrificed a useful career here; they have given up all they possessed; and it will be requited to them. By such a death a burden of sin is lightened; some atonement is made, good friends are waiting for them; their help can be utilized and is much wanted for their fellows who are coming over; and they themselves will continue in the joy of service.

"They would like their friends here to recognize that, and not to mourn them unduly; above all, not to consider them as gone out of existence, as extinguished and no longer real. Sorrow at their departure is inevitable, but grief which is excessive causes them pain.

"They did their work here, they will do it there; and in good time the union may confidently be looked forward to. Death alone is not to man the greatest evil, and in some sort they are happy in the opportunity of their death. This ought to be recognized by those who survive, and we should not grieve unduly for those who have only gone on before us."

SAVED ANCIENT GREECE.

Wonderful Oratory of Demosthenes, Born 2,300 Years Ago.

The modern world holds Demosthenes, whose birthday occurred on December 6, 386 B.C., in the same fame in which he was held by the ancients, namely, as that of the orator in whom artistic genius was united with moral enthusiasm, and intellectual grasp more perfectly than in any other man.

Demosthenes appeared at a period when his commanding powers found a fruitful theme in the approaching degeneracy of Athens.

The great Athenian statesman and orator became the ablest champion of Greek freedom against Philip of Macedon, his craftiest enemy, but he told the Athenians that it was the decay of public spirit within themselves that made it possible for the Macedonian despot to seek to overthrow Greek independence.

Demosthenes was one of the first to see through the designs of Philip, which were aided by the decline of public spirit in Athens. Among the most brilliant specimens of his eloquence are the Philippics, so-called because they are aimed against the policy of Philip. He employed his extraordinary power to urge the union of the Grecian states against the devouring danger that threatened, but he had to contend against deep and widespread corruption and the demoralization of public affairs, and his efforts at last were successful.

Philip of Macedon was assassinated and Alexander, his son, took up his work. At last, Demosthenes was condemned, and fleeing for refuge to Calauria, was pursued. In the presence of his enemies he killed himself with poison, which he carried in a quill, on September 16, 322 B.C.

THE ONE COMPLETE SUCCESS.

British Navy Has Grip on Germany's Throat.

The British Navy is the one instrument, on either side of the conflict, which has performed its work with complete and unchallengeable success, says the London Nation. It has reckoned, as by a sudden hammer-blow, the whole of Germany that lived upon or trafficked in deep waters. It has rendered the German High Sea Fleet as innocuous in its hiding place as if it never existed—as if the £300,000,000 spent in its construction had been thrown carelessly into the North Sea. And slowly, but surely, like the slaying of a man in the darkness by an unseen hand, it has laid its grip on the throat of Germany, never henceforth to be released until the end comes. The victim may struggle, slash out with hands and feet, writhe in agony, and in its struggles damage all surrounding things; but despite the struggles the grip will remain secure, the pressure continued and intensified. And it is all dependent on some tiny aggregate of ships and men "somewhere in the British Isles."

The more fickle a woman is the more it always hurts her when told of it.

The bricklayer was a source of great interest to little Tommy. He had never seen anything like him, and when he took up his trowel to apply more mortar Tommy's excitement new no bounds. "Oh, mummy," he cried, "look at that man buttering bricks!"

"Granny" Chamberlain

"My Best Advertisement"

Is a mother who has once used Chamberlain's Cough Remedy, for she makes a point of telling other mothers about it, who in turn pass the news on. It is this that has made Chamberlain's Cough Remedy a household word throughout the world. Just ask some mother in your community what she thinks of Chamberlain's Cough Remedy—she will tell you that it enables her to get her children through the winter without coughs, colds or croup, and that at first approach of a cold she herself takes

Chamberlain's Cough Remedy

She will tell you that it is as thoroughly reliable for the youngest child as for the oldest member of the family. You can give it to the baby, the children going to school, or take it yourself, always with the same result—a quick relief."

Yours for Health.—Granny Chamberlain

—Renew your subscription to the city dailies or weeklies before the term ends and save interruption in the year's reading. We can get you any paper you want and save you a little money.

GLAMIS

Miss Kate Urquhart, of Tiverton, is spending some time with her friend, Miss Flossie McLennan.

Mr Clyde McKeeman and Miss Pauline Moffat visited the latter's father, Major Moffat, of Walkerton, on Saturday.

Mr and Mrs Dan McLean, of Fort William, are visiting friends on the 10th of Kincardine.

Mr and Mrs Kitchen, of Detroit, are visiting the latter's parents, Mr and Mrs J B McCormick.

The public library held their annual meeting on Friday. Last year's officers were re-elected. The report shows a large increase in membership, also about fifty new books are added to the library.

Lieut McKay spoke in the Presbyterian church on Sunday night.

Mr and Mrs Jack McLean and Mrs Dan McLean, of Fischer Creek, Alta, are visiting at Mr Lachlin McLean's.

Over thirty of the young people of the Baptist church assembled at the home of Mr Kenneth McLennan on Friday night, the occasion being the presentation to Mr Duncan McLennan of a music cabinet to show their appreciation of his valuable services as organist. Mr John Currie made the presentation and Miss Reta McKinnon read the address which was as follows:

OUR DEAR FRIEND McLENNAN—We the members and friends of the Baptist church desire to place on record our appreciation of the services you are rendering in the work at Glamis. It is said, and is probably true, that we take much of your life for granted, we fail to express our appreciation of such other. But there are some cases where we hesitate because we feel that anything we can say or do would fail far short of what we could wish. We need not try to tell you how fitting music is the place of music in the worship of God, but we are convinced that the appreciation of your work as organist and choir leader and the appreciation of your singing is much more general and much more pronounced than you could possibly imagine. The services have always been given with zeal and dignity, the attitude of worship has been intensified, and our hearts draw nearer to God through the subtle influence of the divine instrumentality that you have used so well in His service. What ever progress God's work is making in our midst depends largely on the part music plays in that work, and we are deeply grateful to have one among us who is so sensibly fitted to take charge of that part of the divine service. We have often envied your gifts and have often thought you could fill a higher place, but we are glad—perhaps selfishly selfishly glad—that your sweet duty has kept you in our midst, and we assure you that while we may not be capable of the appreciation of your powers that there might be shown there here, we do honor your work and believe that your God and our God will richly reward you for the consecration of your gift to His service. Accept, dear brother, this slight evidence of our love and esteem and of our deep appreciation of the help you are rendering in the good work in this part of God's world, and while you lead us to the throne of grace in the prayer of song, know that we are the while thanking Him that He has given you to us. On behalf of the church and Sunday school—Bell Currie, Gertie McKinnon, Christopher Young, Walter Webb.

Glamis, Jan 11th, 1916.

Special services will be conducted in the Baptist church next week. Mr Barker, of Port Elgin, will assist.

The young people of the Presbyterian Guild met at the home of Mr W J McKeeman on Friday night and made a presentation to Mr Clyde of a wrist watch. Clyde McKeeman was one of the first young recruits around here to volunteer for service for his king and country, and we trust that should he be called to go to the front that he may be spared to return to his home again. Mrs Keith made the presentation and Mr Tom Thomson read the address which was as follows:

TO CLYDE MCKEEMAN—We members of the Young People's Guild have learned that You, our comrade, friend and fellow-worker, may at any time be called from our midst since you have responded to the call of the Empire. We desire to express our profound appreciation of your loyalty, courage and unselfishness in enlisting for overseas service. We cannot help but feel deep regret that the pleasant relations that have always existed shall now be interrupted for a time at least. However, as we meet from week to week in our Guild, and as we go about from day to day at our common tasks, we shall think of you, talk of you and pray for you, and we trust that in the new surroundings in which you shall be placed and the different tasks in which you shall be engaged, you will think sometimes of the Guild of which you are a member, Glamis, and always be guided by the principles for which our church and society stand. We cannot help but remember that many have gone from our shore highly appreciated as you are and with an earnest prayer attended for their success and safe return who have fallen in the way of duty. Yet we sincerely cherish the hope and earnestly pray that the severance of our happy relations may only be temporary, and when, the conflict over and the victory won, you may return in health and strength of body and mind and with such honor, to your home in Glamis where a hearty welcome shall always await you from your friends and companions. As a slight token of our esteem and good wishes for you we ask you to accept this wrist watch. Signed on behalf of the Y P G. Mrs P Reith, Thos W Thompson.

Glamis, Jan 11th, 1916.

CARGILL

Mrs C Briggs of Paisley visited at Mr C W Keeling's last week.

Roy Sperling, late of the G T R staff, Goderich, and a son of Mr H Sperling, has enlisted with the Huron Co batt.

R Zimmerman and N Pereio have joined the 160th.

Pte Thompson, of C Co, 71st Batt, was home for a week with blood poisoning in his arm. He returned to Galt on Wednesday, in shape to resume his training.

Mr Watt Clark, who is working in a munition box factory in Southampton, spent Sunday at his home here.

Mr and Mrs D McKerracher of Walkerton, spent Sunday at Mrs Thos Keyes'.

The Dominion Well Supply Co and Mr Saunders are having telephones installed this week.

Mr Jas Anstett has severed his connection with the Powers House. The new manager is Mr Wm Myers, who took charge this week.

Mr Jas Neilly and family have moved to Walkerton, having sold their farm a couple of miles from the village to Wm Lambertus, from near Walkerton, who takes possession at once.

The Forestry ball here on Friday night was well attended, and a pleasant time was spent. About a dozen South soldiers were present from the county town.

School re-opened on Monday after being closed almost a month on account of measles.

WHAT ONTARIO FOLKS SAY.

Hamilton, Ont.—"This is to state that I have received great benefit from the use of Dr. Pierce's Favorite Prescription. Some time ago I was run down and weak, suffered loss of appetite and was miserable. Four bottles of the 'Prescription' cured me up in fine shape; it did wonders for me and I can recommend it very highly to women who are ailing."—Mrs. Maud Millen, 127 Hess St., Hamilton, Ont.

Brantford, Ont.—"Some few years ago I got in a very much run-down condition. Was very weak; could not do anything; had no strength at all. I began taking Dr. Pierce's Favorite Prescription; I only took five bottles and it put me in splendid condition. I felt better than I had for years. Other members of my family have used this medicine and found it equally as beneficial. I can highly recommend it to weak women."—Mrs. A. Gilbuch, 71 Brighton Row, Brantford, Ont.

The use of Dr. Pierce's Favorite Prescription makes women happy by making them healthy. There are no more crying spells. "Favorite Prescription" makes weak women strong, sick women well.

Like an open book, our face tell the tale of health or disease. Hollow cheeks and sunken eyes, listless steps, sleepless nights—tell of wasting debilitating disease some place in the body. It may be one place or another, the cause is generally traceable to a common source.

Get the "Prescription" to-day—either in liquid or tablet form—if you want to better your physical condition speedily

Dr. Pierce's Pellets regulate and invigorate stomach, liver and bowels Keeps the body clean inside as well as outside.

—Maslee, son of Mr A Gowanlock, Elderslie, was badly shaken up by being thrown from a horse he was riding.

—Willie, son of Mr W S Mitchell, had the small bone in his wrist broken when he fell while playing at school on Monday.

—Quartermaster Sergt. Norman Reed, of the 90th Batt., Winnipeg, is here on a short visit to his parents, Mr. and Mrs. H. Reed.

—Mr. and Mrs. J. M. Bryce, of Ogema, Sask., are down on a visit, and are at the home of their parents, Mr. and Mrs. Arch. Bryce, Doubline.

—Mrs. (Dr.) Love (nee Grace Burgess) is spending a few days in town renewing acquaintances. She is the guest of Mrs. I. Cruickshanks.

—Among the soldiers home for Sunday were Pte. Wm Bryce of the 122th Batt., Bandsman L. R. Putnam of the 93th, and Gillerymen Wilmer Sparrow and Guy Purdy from Toronto.

—Mr. and Mrs. Louis Rankin removed to Walkerton last week, Mr. Rankin having engaged to work with Mr. Hunk Irwin there. Section foreman Gregg has rented the Rankin residence.

—Mr. Frank Neelands, of Elderslie, was badly cut by falling on his axe blade one day lately. The injury was caused by his slipping on the ice while chopping in the bush. Several stitches were required to close the wound.

McNab is Warden

At the opening of January session of the County Council on Tuesday, the election for Warden resulted in the honor going to Reeve McNab of Walkerton.

Four More Recruits

John Ralston, John Beaton, Gladstone McGregor, all of town, and Jas McGillivray (son of Mr. Hector McGillivray, 12th Bruce) have been enrolled here during the past week.

Petitions in Circulation

The local committees in both town and township wards are out with the "Dry Ontario" petitions in connection with the campaign of the Citizens' Committee of One Hundred.

New Recruiting Officers

James Patterson and Wilmer Sparrow, who enlisted with Toronto artillery, and lately got transfers to Bruce Battalion, have been raised to the rank of corporal and made recruiting officers at Paisley. Corp. Patterson is well known here, having been a resident of Paisley for a few years past, and recently closed up his garage to answer the call to arms. Corp. Sparrow was on The Advocate staff before he donned the khaki and is also well known. Both officers have the respect and confidence of the young men of town and vicinity, and should be able to secure as many recruits here as any who could be selected for the work. They are now on the job, extending to their most persuasive way the urgent invitation to others to "come with us and fight for the cause of freedom."

Patrons who left baskets at the store kindly call and get them before this date.

SIMCOE POULTRY CO.

Greenock Man as Chairman

The chairman of the Toronto Board of Education for 1916 is Mr. Wm. Houston, of the Globe staff, an old Greenock boy who in the sixties took his first degree in the educational course when he walked to Southampton to write for his third-class certificate and thereafter entered upon a teaching career. Since then he has continued to fill an active place in educational circles of this province.

About the House

Useful Hints and General Information for the Busy Housewife

Dainty Dishes.

Orange Salad. — Peel large, juicy oranges and slice round. Half fill and line shallow bowl with lettuce and lay the orange in bowl. Mix well with French dressing.

Banana Trifle.—Put thin slices of bread and butter into a glass dish; then cut three or four bananas into round slices and place these on top of the bread and butter; make a pint of custard, and pour over. Beat half a pint of cream to a stiff froth and pour over the trifle when cold.

Cranberry Sherbet. — One quart fruit, one pint sugar, one and one-half pints water. Boil fruit in water until soft, strain, add the sugar and boil three or four minutes. Freeze fairly hard and remove dasher. Beat whits of egg to stiff froth, add tablespoon powdered sugar and beat until it will stand alone. Stir this into the sherbet, beat well, cover and set away to ripen.

Scalloped Cabbage.—One small head cabbage, three cups bread crumbs, one tablespoon butter, one and one-half teaspoons salt, one-eighth teaspoon cayenne, milk to cover. Put crumbs and shredded cabbage alternately in layers in buttered baking dish until dish is two-thirds full. Sprinkle top with crumbs, dot with milk. Bake in moderate oven until cabbage is tender.

Tapioca Cream Soup.—Soak one-third cup pearl tapioca in a little cold water. Add to 2 cups quarts white stock and simmer until until tapioca becomes transparent. Cook together one pint water, one onion, two stalks celery, a little mace and seasoning. Strain, add to stock and just before sending to table add one cup cream and generous piece of butter.

Mutton Pot Roast.—Wipe, roll and skewer forequarter of mutton from which bones have been removed. Brown in small amount of fat in hot pan. Parboil four potatoes and drain. Put layer of potatoes in casserole or deep pudding dish, cover with layer of sliced onions, sprinkle with flour, salt and pepper. Lay meat on vegetables, add one cup water or stock, cover and cook in slow oven three hours. Add more liquid if necessary. If oven is right no more should be needed.

Apple Compote With Rice.—Two cups rice, six apples, four slices lemon, three and one-half cups sugar, two and one-half cups water. Cook sugar and water together ten minutes. Pare, core and cut apples in thick, round slices. Add lemon slices to syrup and cook apples, a few at a time. Arrange rice in bottom of serving dish. On top of rice arrange slices of apple, overlapping each other. Boil syrup until thick and pour over apples. Cool and serve. Pears, peaches or oranges do well with this dish.

Cheese Cake.—One cup sweet milk, one cup well-soured milk, one cup sugar, four egg yolks, one-fourth cup blanched almonds, juice and rind of one lemon, one-fourth teaspoon salt and pastry. Scald sweet and sour milk together and strain through cheesecloth. Keep one tablespoon almonds and put rest, together with other ingredients, into curd and pour into six patte pans lined with pastry. Sprinkle top with chopped almonds and bake in moderate oven until firm to touch about twenty-five minutes. Three tablespoons cottage cheese may be used instead of milk.

Peanut Soup.—One cup peanut butter, one cup chopped celery, three cups rich stock, one tablespoon chopped onion, one tablespoon each of butter and flour, three tablespoons chopped red or green sweet peppers, one teaspoon salt, one-eighth teaspoon pepper, one and one-half cups boiling water. Cook celery and onion in water until tender, adding water to keep amount one and one-half cups. Add one cup milk to peanut butter and blend. Heat remainder of milk in double boiler, thicken with flour and butter creamed together, add celery stock and peanut butter mixture; season and serve garnished with pepper.

Cakes That Keep.

There is always demand for cakes that keep—that can be kept in the cake box for a week or two, ready to furnish savory slices for afternoon tea or the glass of lemonade offered to a guest on a warm day or to add to the luncheon dessert if need be. Here are the recipes for some very good cakes that can be relied on for freshness for a good many days.

Pork Cake.—This is an old recipe for a very good cake and it is rather odd that it is not made often nowadays, for it is not very difficult to prepare. It will keep for a year, and there are stories of old-time housekeepers who used to make next year's pork cakes on the day when they began to eat those made last year. The recipe for this cake calls for a pound of salt pork chopped fine. Pour a pint of boiling water over this and add two cupfuls of molasses and two of sugar, sifted with a teaspoonful of cinnamon and half a teaspoonful each of cloves and nutmeg. Then add eight cupfuls of pastry flour and a pound of seeded raisins, threequarters of a pound of currants and a quarter of a pound of citron, shredded, all the fruit dredged with some of the flour. To the last add a heaping teaspoonful soda dissolved in boiling water. Bake for about two hours in a moderate oven.

Nut Spice Loaf.—Cream half a cupful of butter with two cupfuls of sugar, add the yolks of four eggs well beaten and half a cupful of molasses. Sift two and a half cupfuls of flour (sifted once before measuring) with a teaspoonful of cinnamon, half a teaspoonful of cloves and a quarter of a teaspoonful of nutmeg. Dredge a cupful of raisins chopped, half a cupful of cleaned currants and half a cupful of English walnut meats in the flour and add to the liquid ingredients. Then add a teaspoonful of soda and a teaspoonful and a half of baking powder and bake. These ingredients make two loaves, but half the amount can be made satisfactorily.

Coffee Cake.—Cream a cupful of butter with two of sugar and add four beaten eggs, two tablespoonfuls of molasses and a cupful of cold boiled coffee and three and threequarters cupfuls of flour sifted with five teaspoonfuls of baking powder, a teaspoonful of cinnamon, half a teaspoonful of cloves, half a teaspoon of mace, half a teaspoonful of allspice. Dredge three-fourths of a cupful of seeded raisins, a quarter of a cupful of shredded citron and three-fourths of a cupful of dried currants in some of the flour before mixing with the spices and add the fruit last with two tablespoonfuls of brandy, which may be omitted without injury to the cake. Bake slowly and carefully in one or two loaves. The recipe may be divided for a smaller amount.

Molasses Pound Cake.—Cream two-thirds of a cupful of butter with three-quarters of a cupful of sugar. Add two eggs, two-thirds of a cupful each of molasses and milk and two and an eighth cupfuls of flour, sifted with a teaspoonful of cinnamon, a quarter of a teaspoonful each of mace and cloves and half a teaspoonful of allspice. Mix a third of a cupful of citron, cut in thin shreds, and half a cupful of raisins which have been put through the coarse part of the meat chopper with some of the flour, and add with three-fourths of a teaspoonful of soda.

The Fashions

Forecasts for Spring.

Comfort and convenience—these are the two qualifications attributed to sport clothes since the first woman dared don a skirt short enough to uncover the tip on her boot. Should these same sport clothes be quite so generally favored, think you, if these were the only words with which to commend them? If there were not something particularly youthful and becoming in the chic severity of these same sport togs, their sale would be quite limited I am sure.

Wool Jerseys for Suits and Frocks.

One of the most attractive of the new materials for suits and dresses is the latest phase of Jersey cloth. It is being used for the dressier frocks and the semi-tailleurs, for afternoon wear, indoor skating, tea, dancing, calling and like purposes, as well as for the regulation sport suit. It comes in all the new shades, blue, green, brown,

6469—6479

The Cape Dress.

and the various other tones now modish. Often on the more trimmed of these Jersey costumes there is a touch of taffeta or a bit of braid. These suits are fashioned after the belted Russian models, the smart flared coats and skirt, and for the strictly correct sport suit along the Norfolk lines combined with an equally severe skirt.

The New Cape Appears.

Among the new features which, of course, are but a revival of the old, is the cape. This appears upon all types of frocks and suits in the form of the shoulder cape, sleeve cape, and cape collar. The full-skirted, simple-bodiced frock of taffeta, worn at an afternoon tea, the skating rink, or the concert, displays its cape, collar, or series of collars, when it is not featuring a Puritan-like shoulder drapery, crossing surplice-fashion in front, and held in place in back by a girdle, from below which tiny coat tails or tabs appear. There is some indication too, of the cape returning as a separate wrap; in fact pelerines of quaintly quilled taffeta, are being shown to wear over light summer frocks and are now being worn in the south. Many of these display the unfitted, rather bunchy-looking collar which accentuates the slope of the shoulders thereby living up to one of the chief requirements of the present modes. Many circular and Directoire capes matching the hat are among the season's attractive fancies.

Alarming Width of Skirts.

Paris is reported as practically losing her head over the width of the skirt. She gave out the pleasing dictum of—"a trifle more length," just a while ago, and proceeded straightway to offset it by adding to their breadth. Many of the new skirts on Paris models, it is said, are gathering material in about the waist with no regard whatever to the figure beneath, in fact a woman wearing such a skirt or frock has much the appearance of an animated barrel or something equally ungraceful. The medium skirts with just a bit of fulness about the waist, combined with the simple quaint bodices now smart, are dainty and becoming, suggestive of the grace of the figure beneath, as they are. The new models so reminiscent of the

6485—6488

Zouave Faille Suit.

days of 1830 and 1850, are full of charm if extremes are not indulged in.

Batiste Collars on Tailored Suits.

Collar and cuff sets of organdy, batiste, linen, and other like fabrics, are to be worn for spring with dark tailored suits and dresses. They serve to brighten the costume and add a fresh touch which is dainty and grateful to the wearer. Colored sets, in Russian embroidery, are particularly pretty. Neckwear in general is simple and plain.

Combination of Sheer and Heavy Fabrics.

The popularity of using a sheer fabric and one somewhat heavier in the same frock or blouse, is a notion that is attractive and economical. Crepe Georgette combines well with crepe de Chine, taffeta, or failla in blouse and frock. Serge and satin or taffeta, broadcloth and satin or taffeta, are favored combinations for the street dress, the touch of silk or satin in the same, or a contrasting shade, adding much to the beauty and the becomingness of the model. A simple serge frock gains much by the addition of a tiny turnover cuff, or a small collar of satin. Often the entire upper section of the skirt or bodice in the more dressy gown is entirely of taffeta or satin, while the lower section is of serge, broadcloth, or gabardine. Among the new materials for these simple dresses and suits, even for the more dressy models, one sees wool poplin and similar lightweight weaves.

Patterns can be obtained at your local McCall dealer, or from The McCall Co., Department "W," 70 Bond Street, Toronto, Ontario.

Whalebone is often used in Greenland for making boats and sledges.

Frogs have the power of changing their color very much as chameleons do.

CANADIAN HIGHLANDERS IN FRANCE.

This happy looking outfit is a detachment of Canadian Scottish on the way from the base in France to the trenches.

SEERS SEE VICTORY FOR THE ALLIES

Duration of War Is Subject of Disagreement, But Majority Predict the End Will Come on May 22.

The war will end on or before the 22nd of May, 1916.

In their forecast of what will happen during 1916 the seers, prophets and astrologers differ widely over the duration of the world war, although the majority profess to see an early ending with the allies victorious. Dethronement of the Kaiser is also predicted.

Among the almanacs compiled by leading prophets and astrologers are those of Prof. Zadkiel, Prof. Raphael and "Old Moore" of London. The usual annual published by Madame de Thebes of Paris is delayed. Mme. de Thebes, however, is uttering prophecies concerning the future in her usual picturesque and impressive manner.

Remarkable Prediction.

Perhaps the most remarkable and definite prediction regarding the war is that it will come to an end on May 22. Prof. Raphael says that "the passage of Jupiter to Aries and his trine aspect to the planet Mars is a strong indication of success to the arms of the allies in April."

One prophet finds that the heavens foreshadow either ill-health, accident or trouble for General Joffre, from May to July. This is apparently the astrologer's way of predicting that the victorious general will pass away not later than July.

Sue for Peace.

Venus and Jupiter enter Aries, England's ruling sign, on February 13, and Jupiter remains in this sign until the middle of the year. A notable confirmation of the indications of peace is found by studying this diagram of the winter solstice at Berlin, which rules the first three months of 1916. Prof. Zadkiel divines from this that:

"The last decanate of Virgo ascends and the moon and Saturn are in the tenth mansion and Jupiter is setting. This seems to presignify that the terrible losses of the German and Austrian armies and the sufferings of the civilians will compel their rulers to sue for peace."

A further augury for an early peace is to be found in the horoscope of the King of Belgium, whose forty-first solar revolution (birthday) on April 8, 1916, shows Venus, the planet of peace, close to the upper meridian, and the sun nearly in conjunction with Jupiter and in trine with Mars. A good direction of the ascendant to the major benefic is due very shortly after. The Czar also has an especially favorable aspect for peace (sun in conjunction with Venus), coming up with the summer months.

Germany Doomed.

It is going to be a very bad year for Germany, according to nearly all the astrologers, and the climax will come in September, a disaster even more serious than defeat in war.

"On the 18th of September," says one noted astrologer, "Saturn reaches the opposition of the place of the sun at the foundation of the German empire in 1870, and this transit will complete the disruption of the empire."

Kaiser to Lose Throne.

The heavens in January are particularly ominous for the Emperors of Germany and Austria. The dethronement of the Kaiser is scheduled by one prophet for the beginning of February. Prof. Zadkiel says the Kaiser's career will be ended in July.

Earthquakes are promised for Mexico, Constantinople and China in March. In July Italy is to have an earthquake lasting five days.

"Old Moore" predicts a terrible epidemic of plague in France, brought about by the war. This will continue in various countries, including Germany, even after the war. Holland will suffer from floods in May.

Zadkiel says Ireland will get home rule in August, and that Poland and Persia will realize their national aspirations about the same time.

Seer's Gloomy View.

In January, we are told, there will be a great disaster to English shipping. A great strike will nearly cripple England. We may expect serious reverses and a terrible blow.

An attempt on the life of the King of England is foretold. To make up for the misfortunes of England, the French army will win a great victory.

Upset for British Government.

Other predictions of the astrologers are:

Sensational divorce case in British aristocracy.

Serious financial panic in New York, London and other financial centres.

British Government to be upset in October.

Revolutions in Spain and Hungary in November. Hungary to gain independence.

Austrian empire will be completely wrecked.

Attempt will be made to assassinate Alphonso of Spain.

Pirates to commit many outrages on coast of China.

Serious rioting in Rome during the winter.

Widespread epidemic of disease in Prussia.

Famine in Two Lands.

Famines in Holland and Switzerland.

Serious dispute between Britain and United States.

Plague of locusts in India.

United States will go to war with Japan or some other country during the summer.

Failure of wheat crop and famine in Australia in July.

Trouble for U. S.

Trouble between the United States and Canada leading to the verge of war.

New race to be discovered in the unexplored part of the Arctic regions.

Woman leader will appear in Mexico.

Earthquake in Southern United States.

New York sky scraper to collapse.

British battleship to be blown up off the southern coast.

Gold strike in Montana.

Montreal's Portion.

Meteor to fall in Montreal and do great damage.

Grand Opera prima donna to be murdered in Chicago.

Volcanic eruption in Canada.

Sea serpent to appear in the Pacific.

Forest fires in Canada.

Island to appear in the Arctic Sea.

Flight Across Pacific.

Aeroplane will make flights across the Pacific ocean.

Chinese scientist is to get message from Mars.

Dreadful plague to break out in Germany.

Japan to have women suffrage.

Rich American woman to marry Afghan.

Great steamship to be sunk.

Great Naval Victory.

England to win great naval and air victory.

Queen Wilhelmina of Holland to die.

King of Sweden divorces the Queen.

Convicts to revolt in Siberia.

Shah of Persia to be driven from his throne.

Old Arabian Kingdom restored.

King of Siam will dismiss his harem.

Human sacrifice in China and devil worship in India.

Kaiser May Die.

The chief points of Gabriel Keith's forecast are as follows:—

War probably will continue until 1916, although March, 1916, may bring strong hopes of peace.

As the sub-cycle of Mars continues until 1944, this will not be the last conflict of the nations of the world.

March and June will be memorable months in the United States because of internal troubles as well as external dangers.

Germany may suffer adverse conditions in January and March. Death of a person of rank, possibly a member of the royal family, is indicated.

Air Raids on England.

England should expect peril from air raids from February 3 to February 7. Personal danger for the King or one of his sons in March.

Italy has a forecast of alternate victories and reverses. Trouble for a member of the cabinet in May.

Belgium has little hope of escaping from its overshadowing cloud of calamities until 1918 or 1919.

France may suffer reverses in March and April, followed by heavy losses in July and August. President Poincare should safeguard his life.

Russia will uncover a long train of treachery. Personal injury to the Czar is probable. April will be unlucky, with adverse direction until August.

Invasion of Holland.

Holland has the forecast of much trouble and possible invasion.

The United States may expect many surprising events that will affect both business and political conditions.

Strikes and riots, with great loss of property, are prognosticated.

There will be sharp rises and declines in the money market.

Death will remove two financiers at times of critical crises, one in January and one in July.

Great naval activity is predicted for the autumn.

A stormy national election in the U.S. is prophesied. Bitter personalities, unexpected political complications, and a party split of far-reaching effect are foretold.

President Wilson has the augury that 1916 will be the most active year of his life. New international problems will multiply, political trenchery may be revealed.

Halley's Comet Blamed.

The astrologers point out that ever since the return of Halley's Comet in 1910 wars and disasters have fallen upon Europe. This is what their "science" would lead us to expect, as the appearance of the great comet in Aries was said by ancient astrologers to presignify "evil and detriment to the Eastern part; sorrows to the peoples under Aries; the clash of arms and bloodshed; death or dethronement of some king." Since the comet appeared two local wars have occurred in the Balkans, Italy has been at war with Turkey, King Edward VII., the leading monarch of Europe, has died, and now the greatest war of all time is raging.

The astrologers assert that they gain their foreknowledge of coming events by studying the heavens from many different points of view. The position of the sun with regard to the planets and stars is the most important heavenly influence on human actions and earthly occurrences. The position of the moon, owing to its nearness to us, and the important gravitational influence it exerts upon our minds and bodies, is next in importance.

Household Hints.

An empty baking powder can makes an excellent nut chopper.

Medicine stains can be removed from linen with strong ammonia.

Ginger cookies are improved if mixed with coffee instead of water.

A piece of cheese grated over a simple salad is a great improvement.

Red currants added to the raspberries give raspberry jam a delicious flavor.

Flour the cake pan after you have greased it, to keep the cake from sticking.

Tooth brushes should be dried in the open air and the sun should shine on them.

Nutmegs will grate more satisfactorily if started from the bottom end.

Vinegar and honey mixed in equal parts is a great relief for a cough.

To make perfect tea, remember—good tea, boiling water and a hot teapot.

Carbolic acid is a good disinfectant, but useless unless diluted with at least 20 times its bulk in cold water.

A bit of vaseline will remove mildew or stains from any kind of leather.

Always start the rice pudding on top of the stove, allow it to boil, stirring it frequently, until the rice is done, then set it in the oven to brown.

When fish comes into the house a few hours before it is cooked, it should be cleaned, wiped dry and put into a closely covered vessel, not tin, and put as near the ice as possible.

His One Triumph.

Trouble never catches the chronic grouch off his guard. He was expecting it.

Quite Evident.

Old Lady Customer—Do you guarantee these nightgowns?

Sly Young Clerk—They can't be worn out, madame.

Eider down is one of the worst conductors of heat, hence its use as a bed covering.

HOW AND WHY THE PUMP WORKS

The Difference Between the Lift Pump and the Force Pump—Interesting and Instructive Facts By An Expert.

Every farmer has become acquainted with a pump handle from long and personal contact, and he has gained by experience—sometimes painful—a practical knowledge of how a pump works. Fewer, however, understand the theory of the pump's action. This latter is both interesting and instructive. Every man who wishes to install a new pump or to repair an old one should study it.

Dr. C. J. Lynde of Macdonald College, in his excellent Text book, Home Waterworks, explains very clearly and simply the principles involved in pumping water. From this source much of the following, which appeared in a recent issue of the Canadian Countryman, has been secured.

Contrary to general belief a pump does not draw water nor raise it by exerting a pull. What causes the water to rise is really atmospheric pressure on the surface of the water after the plunger has decreased the air pressure inside the pump. That is the first point that requires explanation.

By experiment it has been proven that a cubic foot of air at 32 deg. F. weighs 1¼ ounces, while the great sea of air above us, called the atmosphere, exerts a pressure upon every square inch of the earth's surface equivalent to nearly 15 pounds. Than the air acts, in this way, just the same as would any other substance of immense volume and great weight resting upon the earth.

This atmospheric pressure is made use of by two distinct classes of pumps, viz., the lift pump and the force pump. The former is used for lifting water to the level of the pump and the latter or forcing it higher.

In Fig. 1 the parts of the lift pump are shown. To the left is illustrated one-type in which the lift-bucket or plunger works in the pump barrel. One valve is in the plunger, and the other, the suction valve, is at the bottom of the barrel. Below the suction valve is the suction pipe, and at the lower end of the pipe is the foot valve and strainer. The foot valve is not essential, but is generally used on long pipes.

To the right another type of lift pump often used is shown. The principle involved is identical to that in the foregoing case. The cylinder is below the barrel. This arrangement is made sometimes to decrease the suction distance by bringing the cylinder nearer to the water in the well. It also helps to make the pump frost proof. For the latter purpose a small hole is tapped in the pipe just above the cylinder.

A study of Fig. 2 will show just how and why the lift pumps work. The first two or three strokes of the plunger pump the air out of the barrel and pipe of the pump, and thus decrease the atmospheric pressure on the water in the pipe and the atmospheric pressure on the water in the well forces the water up the pipe and into the barrel. After this the plunger lifts water against the pressure of the atmosphere, and the atmospheric pressure on the water in the well forces more water up the pipe into the barrel.

Let us follow this operation step by step.

In (1) the pump is full of air at atmospheric pressure. In (2) the plunger is being raised, the air in the barrel of the pump is thus given more room and expands to fill it; this decreases the air pressure on valve C; the air in the pipe P, being thus at a greater pressure than that in the barrel, lifts the valve C and expands into the barrel. This decreases the pressure on the water in the pipe P, and the atmospheric pressure on the surface of the water in the well forces some water into the pipe. In (3) the plunger is moving down and some of the air in the barrel escapes through the valve A; the air in the pipe remains the same, since valve C is closed. In the next one or two up strokes the operation illustrated in (2) is repeated, until the air in the pipe and barrel is removed, and until the atmospheric pressure on the water in the well has forced water into the barrel. After this the water above the plunger is lifted against the atmospheric pressure by the up-strokes of the plunger and the atmospheric pressure on the water in the well forces water in the barrel.

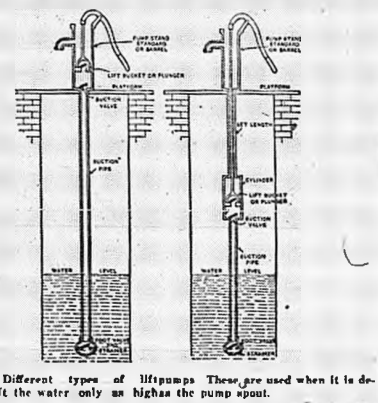

Fig. 1. Different types of liftpumps These are used when it is desired to lift the water only as highas the pump spout.

Compressed Air Aids in Pumping.

There are several styles of force pumps, the one in most general use being explained herein in detail. Of course all the others have the same principle involved. It will be noted in Fig. 3, that this style has a valve in the plunger and one in the bottom of the cylinder similar to those in the lift pump. It differs from the lift pump, however, in that the top of the pump is closed and there is an air chamber on the discharge pipe. There are many modifications of these parts.

The air chamber makes the stream continuous and it prevents strains. It does both through air pressure according to the well known law that as the pressure upon air increases the volume decreases in exact proportion and that the compressed air exerts a back pressure.

Thus when the water is forced into the pump barrel and discharge pipe as in the case of the lift pump, the air in the air chamber is compressed. If the air chamber is full of air at atmospheric pressure, 15 lbs. per square inch, then when it has been compressed to one-half its volume, the pressure will be 30 lbs. per square inch, since as the volume decreases the pressure increases in inverse ratio.

On the up-stroke of the plunger in Fig. 3 water is driven partly into the discharge pipe and partly into the air chamber. The air in the chamber is compressed and, during the down-stroke of the plunger, it expands and forces water into the discharge pipe and thus keeps up a continuous stream.

The air chamber prevents strains because of the following facts: Water is practically incompressible and it can escape from the discharge pipe at only a limited rate. If there is no air chamber and the pump and discharge pipe are full of water, any extra force exerted by the engine must be taken up in some way. The water cannot do this, therefore, it is taken up by the pump or engine, that is the pump or engine gives at some point and is strained. If, however, there is an air chamber, any extra force is taken in compressing the air and all straining is prevented.

With these points in mind every farmer who is planning to buy a pump should be able to decide just which type will best serve his purpose. And if the pump already in use is not working satisfactorily he will know just what to examine in putting it in order. Faulty valves or a defective air chamber are often at the bottom of the trouble.

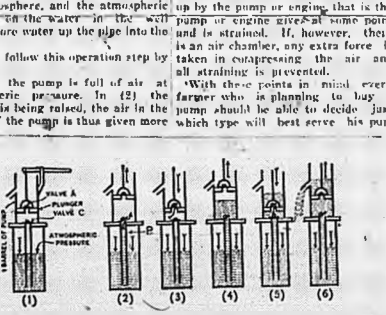

Fig. 2. The lift pump in action, illustrating the action of atmospheric pressure in the well.

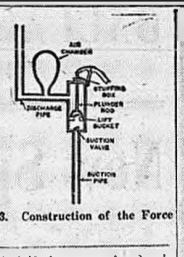

Fig. 3. Construction of the Force Pump.

THE SICK SULTAN.

Death of Mahommed V. Would Make Difference in Turkey.

The Sultan of Turkey, Mahommed V., the head of Islam and the 36th ruler of the house of Osman, is sick. Once such a report would bring up visions of royal relatives mysteriously poisoned, bowstring or dropped, bound and sacked, into the dark waters of the Bosphorus, and of fortune tellers, wizards and exorcisers crowding around the ailing sovereign's bedside. Now the people talk of prospective heirs and of regents, while the Sultan's Christian ally commends him to Allah and sends his ablest physician.

When the Young Turks lifted Rashid Effendi upon the throne from which they had shoved his brother, Abdul Hamid, they dragged a man of from a palace where he had been all his scarcely more than a prisoner, in years of inactivity his body had grown big, big with width, breadth and length, a burden for his short legs. He was a sick man then. On the semlik Fridays the chalky paleness of his heavy face and the dullness of his eyes were accentuated by the troops of young guardsmen in brilliant uniforms and the officers in glittering gold braid who surrounded him. The picture had in it more of pathos than imperialism.

When he went to appeal to the layalty of the Albanians on the field of Kassovo, Macedonia, he was the first Ottoman sovereign to visit his provinces on a mission of peace. But the Albanians, who had imagined the Sultan had wings and few of humanity's frailties, were disappointed at the sight of the heavy feeble man in a black frock coat, and the mission failed. He seemed to lack either the knowledge or the physical force to combat the shrewd politicians around him, and he became merely a figurehead for the dominant party of the Committee of Union and Progress.

Many things may happen with the passing of this sick man. He may be the last of the Osmanli to rule in Europe; he may be the last to wear the honors and title of the Caliphate. But he has been a part of the almost forlorn hope to restore the glories of the empire, and has lived to see a Turkish army with munitions of war and supplies making a desperate and so far successful attempt to hold the almost sacred Dardanelles against a great enemy.

A COSMOPOLITAN VOLUME.

The New Testament Is Translated into Many Languages.

On the continent of Africa alone the New Testament, or parts of it, have been translated into 118 languages and dialects. The two latest additions are Dahida—a language of British East Africa and Limba—the language of a tribe in the hinterland of Sierra Leone.

Parts of the New Testament have actually been translated into pidgin English, that strange lingo, half baby talk and half slang, which is the chief means of communication through all the East.

The difficulties presented in translating the New Testament into this barbarous hotch-potch must have been tremendous, but they have been surmounted.

Another language of the same sort is Chinook. This consists of about two-fifths Chinook, two-fifths Red Indian tongues, and the rest English and Canadian-French. It is the tongue of barter on the Pacific Coast of Alaska and the Dominion. At least 20,000 Indians speak it, and lately St. John's Gospel has been issued in this jargon for their special benefit.

There is also a version of the Scriptures translated into the primitive language of the head-hunters of Borneo.

It was made by German missionaries, printed in South Africa, paid for with British money, and circulated in Papua.

German Dividends Drop.

The Berliner Tageblatt publishes a series of tables showing the dividend reductions of big German firms since the war. Among those who suffered most were the potash manufacturers, because of the complete cutting off of their export markets; the cement manufacturers, because of the collapse of the building trade, and in general, all firms manufacturing luxuries for which there is no longer any demand.

RUSSIAN ROYALTY AT PLAY

CZAREVITCH AND COUSIN. ©INTERNATIONAL SERVICE

This picture shows how the heir to the throne of "All the Russias," enjoys himself in the winter time. The Czarevitch is shown standing on his sled, while his cousin, Prince Rotoslav Alexandrovitch sits at the back.

MUSHROOM GROWING.

Some Valuable Advice in Regard to the Industry.

Professor O. M. Morris, horticulturist of the Experiment Station at Pullman, Ill., gives the following advice with reference to mushroom growing:

The species commonly known as "Agaricus compestris" is one of the most commonly grown in the beds for table use. The mushroom grows best in moist, rotting vegetation and soil in a moderately low even temperature. This can be provided in cellar, cave or under the benches in a green house. A temperature between 53 and 58 degrees Fahrenheit will give best results. The mushrooms will grow in higher temperatures but more pests and other troubles are encountered under such conditions.

The surface of the mushroom bed must be kept moist to prevent a crust forming. The house must be kept well ventilated, but free from drafts or strong light. Excessive moisture in the bed or air is injurious and liable to destroy the entire life of the bed. The same degree of moisture in the bed should be maintained throughout the entire life of the bed. The surface should be sprinkled frequently, but not enough to wet the bed more than an inch or two from the surface. The temperature of the bed and air should be as nearly as possible the same. It is often advisable to sprinkle the walls and floor as well as the bed.

The bed is best prepared by using manure from the horse stables in which is a good proportion of straw. Wheat, oat, and rye straw is the best material to use for bedding for mushroom growth. If the material is fresh, it is much better than if having gone through the partial process of decay, although if it has been tramped and pounded into fine particles, it will still produce satisfactory results. The manure is piled into large piles and moistened, but not given all the water that it will hold. It is allowed to stand in this condition for three or four days and then packed firmly into the beds. The best plan is to make the beds in a level floor and pack the manure about one foot deep. If the manure is nearly half straw it will be better for the bed. Letting the manure heat until the straw changes from its bright golden color to that of a dull brown will be of advantage to the bed; it can then be firmed, stamped, or packed in the bed and left there until the temperature of the bed has run down to 60 degrees or below. If many small mushrooms with a slender stem and dark carp appear, it is a good indication that the bed is well prepared and that the manure is well suited to the purpose. However, good success will often be obtained without this evidence. If there is not a good proportion of straw mixed in the manure it will frequently be found advantageous to mix in a portion of good garden loam so that it will pack well. Let this stand for two or three days after packing until it assumes the temperature desired, then the mushroom spawn should be placed in the bed. This is usually done by cutting the bricks of spawn into pieces about one and a half inches square. Place these in the bed about twelve inches apart in each direction. If you know your spawn is good, it can be placed from twelve to eighteen inches with good results. These bits of brick are buried about two inches deep in the manure. The manure is then drawn over them and packed again to a level surface. The beds can then be finished and left for the final growth of the crop.

The finishing or facing process consists of covering the bed with about one and a half inches of fine garden loam. If it is a little sandy in character it is that much the better as this character of soil will not bake or crust badly on the surface. This soil should be packed firmly and smoothed down as nearly perfect as possible. Moisten the surface occasionally by sprinkling with water, and see that the temperature of the room is properly maintained, that a reasonable amount of ventilation is given and that drafts do not enter the room and dry off spots of the bed. The length of time required for the development of the crop after the placing of the spawn will ordinarily vary from 40 to 60 days, sometimes reaching nearly 70 days before a good cutting can be obtained.

Mushroom spawn can be obtained from almost any of the large seed houses.

SHORTAGE OF MEN.

British Women Workers Increasingly in Demand.

Owing to active recruiting, the shortage of men in the British labor market has become more acute and has greatly increased the demand for women and young girls as substitutes. Virtually every one capable of working, says the Board of Trade Labor Gazette, has an opportunity of being employed, and it is evident that still larger numbers of women and girls not previously employed in trade and industry are required in many occupations.

Compared with October, 1914, there was a general improvement, especially marked in industries engaged in supplying the requirements of the [illegible] and [illegible] wages, taking effect in October and affecting 180,000 work people, amounted to about $115,000 a week.

There is a general scarcity of cutlery workers, farm hands and navvies, and the demand for work people is still greatly in excess of the supply in engineering and shipbuilding trades. Shortages are reported in the glass, chemical, building and metal trades, and with regard to women, the demand for textile workers is still unsatisfied.

Canary Export Trade Ruined.

The business of the canary breeders of the Harz, (Germany) Mountains has been almost utterly destroyed by the war. Tens of thousands of canaries were exported yearly to America, France, England and Russia. The war has stopped this, and the domestic trade is almost completely at a standstill. Virtually all the breeders have already abandoned the business.

ENGINEER SAVED THE SHIP.

Repairing a Warship's Boiler During a Battle.

During the war in the Sudan in 1884-5, Lord Charles Beresford took the steamer Safieh up the Nile to the rescue of Sir Charles Wilson's party, which was isolated in a hostile country between the strong force at Wadi Halfeehi and the Mahdi's host marching down from Khartum. The expedition was once in great peril through an accident to the ship's boiler. The skill and courage of its engineer officers saved the ship, however, as Lord charles tells in his interesting "Memoirs":

The Safieh had passed the fort at Wadi Halfeehi, when a great cloud of steam or smoke rose from the after hatchway. Instantly the rifle fire of the enemy increased. Chief engineer Benbow ran to the engine room. A Maltese carpenter ran up to me, crying, "All is lost, sare, myself and my brother, sare! The ship he sink, sare!" I promptly kicked him out of the way.

The black stokers came rushing up from the stokehold hatchway. I did not know whether the ship was on fire or the boiler injured; but as the ship still had way upon her, I ordered her to be headed toward the bank.

Mr. Benbow soon reported that the boiler was pierced by a shot, that the shot had entered above the water line, and that the vessel was safe.

In the meantime the two engine-room artificers had been carried up from the engine room so terribly scalded that the flesh of their hands, fore-arms and faces was hanging in strips. They had been stationed by Mr. Benbow between the boiler and the ship's side, with orders to insert shot plugs if the sides were pierced. In that position they were further from the exit than the Sudanese stokers, and therefore were more severely injured.

I asked Mr. Benbow if he could repair the boiler, and he replied, "I think I can do it."

Mr. Benbow, assisted by the leading stoker, drew the fires and pumped out the boiler. He found a hole some three inches in diameter, round which the plate had bulged inward. Mr. Benbow then set to work to make a new plate with his own hands. With no other assistance than that of the leading stoker, he cut a plate sixteen inches by fourteen, drilled the bolt holes in it, drilled holes in the injured boiler plate corresponding to the first, and cut the threads of the screws on bolts and nuts. Since the new plate was too thin to take the boiler pressure, he had also to bolt a new iron bar across it, drilling the holes through the injured boiler plate. During the whole time he was below in the stifling-hot engine room at work upon a task demanding at once great exertion and the utmost nicety, the fire from the fort never ceased. Bullets pattered continually on the hull; some of them pierced it and struck the wounded men who lay below. At any moment another shell might burst into the engine room; but Mr. Benbow went on with his work.

About two o'clock, Sir Charles Wilson's wounded, and some guns, ammunition and stores, and a small guard of the Royal Sussex, came down-stream in a nuggar, under the command of Captain Gascoigne. With them were two engine-room artificers of the naval brigade.

When the artificers joined Mr. Benbow, he had been toiling single-handed, except for the leading stoker for three hours. At five o'clock, after another three hours' work, the plate and bar were made, the holes drilled in them and in the boiler, and the threads cut upon the bolts and nuts; but the boiler was still so hot that it was impossible for any man to go into it, and the plate could not be fixed because it was necessary to pass the bolts through the plate from the inside of the boiler. Mr. Benbow pumped cold water into the boiler and out again once or twice, but it was still too hot for a white man to endure. We smeared a negro boy with tallow, and I promised him a reward if he would go into the boiler. He was only too glad to go. He was lowered down, but he climbed out again faster than he went in. After a short pause he made another try. That time, in a frying heat that only a black skin could bear, he stayed inside and passed the bolts through, while Mr. Benbow called both plates and bolts and screwed the bolts home. The boy was none the worse in body and richer in possessions than ever in his life. By seven o'clock the job was done.

You can see what it was for yourself, for the plate is now in the museum of the Royal Naval College, Greenwich.

CHEMICALS COSTLY.

English Chemists Are Making Up for Lack of Supply.

Among the consequences of the war is the cutting off of supplies of synthetic chemicals from Germany. This resulted in a scarcity of certain drugs and in a considerable increase in the prices.

Such preparations as antipyrin, aspirin and phenacitine, too, have been subjected to extensive government demands. The British, Russian and Italian Governments require them in considerable quantities.

Carbolic acid, from which salicylic acid and its variants are produced, has advanced by more than 600 per cent.

English chemists are making up for the lack of German supplies, however.

The Paisley Advocate

PAISLEY, JAN. 26th, 1916

LOCAL AND DISTRICT NEWS

Public Library Board

The annual meeting of the Board was held as per statute. Officers for the ensuing year are: Chairman, G L Carter; secretary and librarian, Miss McCallum; treasurer, Thos Mair. The other members of the Board are S F Ballachey, A Jack, and J Shoemaker. According to the Librarian's report, there were 7,855 books issued during 1915, 138 new books purchased, and the total number of volumes now in the library is 5,644.

Nightwatch in Danger

The gale on Friday night blew out the electric lights in nearly all sections of the town. It fell to the lot of Nightwatchman Howe to discover the break in the wiring system. He was on his beat, and near the Willow Creek bridge on Queen St., when a feeling in his feet warned him that there were strong electric currents playing about on the ground. Being cautious as well as watchful and sensitive, the night officer stepped about somewhat gingerly for a few moments until he had sized up the situation. The result of his reconnoisance was the location of fallen wires, very much alive with electricity, and he had walked so close to the danger spot that a step or two in the wrong direction might have brought him in contact and caused his electrocution.

Strong on Bruce Men

Vancouver city has chosen a Bruce boy as mayor for 1916. Mr. Malcolm McBeath, who first saw the light of day at Allenford, being the choice of the electors of that important coast city in the golden west. Mr. McBeath is a nephew of Mrs. J. Harper of Paisley. In the contest for mayor he won in a field of four other candidates—Hon. Jos. Martin (Fighting Joe), — Kirkpatrick, Walker Henburn and John McNeill—the last named being an old Blum road north boy. Mayor McBeath is only 36 years of age, and was the youngest member of the old council, also the youngest man ever elected as mayor of Vancouver. He is president of the Northern Securities Company. Mr. C. R. Mahon, formerly of Paisley, brother of Mrs. Wm. Walker of town, is one of the eight aldermen returned this year.

McLennan—McLaren

The marriage of Miss Janet McLaren, daught ef of the late Mr and Mrs John McLaren of Clyde St., and Mr Kenneth McLennan of Ripley, North Dakota, was solemnized at the home of the bride's sister, Mrs H M Hay, Greenock, on Wednesday, Jan 19th. The ceremony was performed by Rev G C Little, and was witnessed by a company of about forty friends. The bride, who was given away in marriage by her brother, James McLaren, looked charming in her wedding gown of white tulle over taffeta, with trimmings of soft lace on the corsage. Miss Marie Stark was bridesmaid, wearing a pretty gown in white voile and lace. The groom was supported by Kenneth McLaren, the bride's brother. Mr and Mrs McLennan leave in a few days for their home in the west.

Owen Sound Won Here

In the first Northern League game played here this winter the locals were whitewashed by the 14th Batt. team of Owen Sound, the soldiers winning by 12 0. Though the score was very much one-sided, the visitors had to work for every goal they got. It was not until after eleven minutes of play that they scored their first, and at half-time it was only 3 0 which, considering the youthfulness of most of the local team, was a most creditable showing. Little or no combination play was shown on either side, the sloppy condition of the ice making it almost impossible to pass the puck accurately. It was one of the cleanest games ever played here, and was well handled by Referee McLaughlan, of Chesley. The Paisley players were: Goal, Stewart; right defence, Irwin; left defence, Hepperstall; rover, Elwer; centre, Bue; right wing, Rendall; left wing, Diehl.

Knox Church Annual Meeting

The annual business meeting of Knox Church congregation was held on Thursday evening last, when there was a large attendance of members and adherents. The membership of the congregation is now 304. Financial receipts of the past year amounted to $756.85, the contributions for revenue being $450 42, and for missions $816. The Sunday school raised $122 the W F Guild $24 66, and the W M S $164 81. The aggregate of receipts from all sources was $1,908 84. The liabilities amount to $868 66. All retiring members of the Board of Management were re-elected. The Board is constituted as follows: John Brown, chairman; J R McArthur, secretary; J C Gibson, treasurer. J S Campbell, G Hood, Jas Sheepy, Dan McGillivray, Alex Thornburn, D A McIntyre, J R Laidlaw, Robt Fullerton, Duncan McGillivray. It was decided by vote at the meeting that these 12 men, or their successors in office as managers, be trustees of the church property. Jas Miller, D H Campbell, John Little and Donald Bines were appointed ushers. The choir was occupied by the pastor, Rev G C Little, B A.

A Case of Mistaken Identity

Editor Advocate:

Dear Sir—I received to-day a postal card from one of your citizens signed "An Admirer" complimenting me upon my stand in introducing a bill in the House of Commons, Ottawa, for the purpose of doing away with the sale of intoxicating liquors during the period of the war, and referring to The Globe as the source of information. Being somewhat modest, I feel it my duty to point out to my Paisley friend that I am not a member of Parliament and consequently could not take such action, also to state that the H. H. Stevens referred to by The Globe is a lawyer and Conservative member for Vancouver. As the writer of the card did not sign his or her name I am unable to write a personal letter, so take this means of straightening out the matter, and in order that honor may be given to whom it is due I will mail the card to the correct H. H. at Ottawa.

Yours truly,
H. H. STEVENS

Port Elgin, Jan. 25th, 1916.

Pte. Alex. Blue's Budget of News from the Front

The following letter dated Dec 22nd, 1915, was received by Mr C L Carter:

Just a few lines in answer to your letter received in the firing line a few days ago. I got a couple of ADVOCATES, which I am always looking for. We had one fine day this week, which was quite a change, but now it is raining as usual. Just seems to be our luck where we are going into the trenches. But we don't worry. It has been likely here for a few days. Fritz has been getting it hard, and we were ready just about 1000 yards back, but did not get a chance to use the steel. The artillery got him this time, and not very many of the Hineys returned. They were left lying around all over. They tried to take us by surprise, and began to shoot the gas, which we were ready for. You would think we were crying, for it got in our eyes and it was hard on them, too. But the wind was not strong enough to carry it over. It just changed in time and gave Hiney the gas back again. Our respirators are all right. The smell of gas is sure dopey. It smells like wood alcohol, is very poisonous, and if we did not have our respirators on we sure would get it right. It comes over in a kind of yellowish cloud. I don't think Fritz will try it on again, by the way our artillery worked on them, and we have lots of it backing us. I think there will be some thing doing along here before long. Our boys are getting impatient. They and the Highlanders want to go at them with the steel. When the dirty work has to be done the Canadians and Scotties are sure to be in it. The Scotchmen want to make the charge and us to follow. They tell us we don't know when to stop. That is why they want to lead. They are as fine a lot of fellows as one could meet, at least we think so. We can't go anywhere out here without seeing Canadians and Scotchmen walking together. I know a bunch of them, too, so when I get a pass I'm going to try and go up to Bonnie Scotland. The pass has been promised me, but that is knocked on the head for the present, because we were expecting an attack from Hiney, and as he has tried it I think we stay get the pass now, as Hiney sees we have the goods. It is very interesting to watch a battle in progress, and it never one up, all right. In one little skirmish we had we were all ready with hand bayonets waiting for the order to go to it, but it did not come off. We were more surprised in that case when it was all over. It was a little excited—I guess, mad—and before knowing what I was doing I was in the open. When my mate pulled me in the bullets were coming from every direction, pop, pop, pop, all around me—but I got under cover then. I will never forget my first experience going to the trenches. As we were going into our communication trench one half of our company lost the other, and I was in the last half. Fritz turned the machine guns on us, and we thought it was all up, but Jed not give up hope. We flopped on the ground and the bullets that hailed the position did not get any of us. We got to the communication trench all right, but it was some experience. Now the next division call us the old fourth, because we don't look for the communication trench, but go over land to the firing line. But that's getting on our nerves—seeing our comrades fall in front of us, got by a cursed machine gun.

It's nothing but hell out here. I don't know who wants Belgium. I don't. I would not give that little spot on the Saugeen for the whole of Belgium. It will be years before they get it right again. Nothing but trenches and Jack Johnson holes here—although a coal box hole makes a good place to wash in when we feel like it.

Things along the front have been quiet to-day, but not yesterday. Oh! Listen that far away back-ground was pom, pom, pom-ming, with little Jimmy a short distance back going bang, bang, bang at Fritz. Every time Fritz opens up for a scrap he is always sorry, for we give him as to it, which does not take long to shut him up. Our Canadian artillery is hard to beat. Fritz can't compete with them at all. Fritz's shells are not up to the standard now, for many a number do not explode. But he has a variety—from a rifle grenade to a Jack Johnson. A Jack Johnson makes a hole big enough to bury a battalion in. It weighs a ton or more. A coal box does not do so much damage. Then he has a sausage, which is danger, and in the trench, for you can't tell where it is coming. It is shaped like a sausage. Then there is a whizz bang, which is a terror in the trenches, as it comes without warning, and I guess Fritz thinks the same of ours, especially our Lizer, which is more powerful than his Jack Johnson. But he had us guessing one day, when he gave us a bunch of coal boxes, that kept us going first to the front line and then to the reserve, which is only about 15 yards back at one part of the line. He had his gun mounted on an armoured train, but one boy got the armoured train one day and blew it up, so we are not bothered with that now.

I have seen some good air fights out here, in which Fritz had to beat it. Our bird man took one down on the left of us and another a few days later. Which was a beauty painted with iron crosses on it. Our boys are using it now, I suppose, for it was not much damaged, and the German who was in it seemed to be happy.

I have met Geo Purdy here and he is quite well. He was telling me about himself and his chum being buried by the explosion of an aerial torpedo, and had to be dug out. These torpedoes are as bad as a coal box. George is all right now.

I was in my dugout the other morning while my mate was away to get rations for the day, when a bomb dropped in front of me. "Say, did the shrapnel fly around!" Luckily hurt, however. We can get used to rifle fire, but not shell fire. When we hear the coal boxes coming we flop into the first ditch and wait to see where it falls. If it lights far away we pay no more heed, but if it drops close, say about 50 or 50 yards, we get out of the road on the double. My mate and I were down in a ruined town about 1500 yds from the firing line to see if we could get some relics, when we found a notice posted up, "Don't hang around here. A machine gun trained on this corner." We turned around and started for our billet, which was an old barn. While walking back a bullet hit by the other fellow's side, then one by me and another in front of us. "Well," I says, "Mr Sniper is around," so we doubled to cover. We had our faithful old friend with us and lots of ammunition, but we could not locate the enemy. Now I am going to tell you that if we had, there would have been no mercy, for there is no mercy shown to those fellows. The enemy snipers get the nickel bullet and steel just the same as at the battle of Ypres. When our boys were going over to Hiney they would look into a dugout and see four or five Huns, ask "How many are here?" throw a bomb in and say "Divide that among you." When the Huns see the steel coming they get down on their knees and holler, "Mercy" me big family!" But in goes the steel. Nothing doing in the mercy line since they crucified some of our chaps on a barn door. We are fighting where the gallant Princess Pats were doomed and made that bloody charge.

Well, George, I will close, as you will be tired of reading this writing, which I have written on my knee.

From Gordon Daniel

On Dec 18th Pte Gordon Daniel wrote from Belgium to his brother Richard. He mentions the very wet weather, and says he would rather have our old Canadian winter. It was mud up to the knees, and pretty near all their horses were used up with what is called mud fever. The animals become so leg weary that they can hardly get along. It seems hard to get remounts, and those supplied are not worth hitching up. Gordon saw his brother Stewart with the R C R, which corps is on the front, not far away.

FRUIT, THE GREAT PHYSICIAN

Healing Powers of Fruit Proved by "Fruit-a-tives"

The simple juices of apples, oranges, figs and prunes, when transformed into 'Fruit-a-tives' will relieve diseases of the *Stomach, Liver, Kidneys and Skin.*

The truth of this statement has been proved in thousands of cases of Indigestion, Dyspepsia, Torpid Liver, Constipation, Kidney and Bladder Troubles, Skin Diseases, Rheumatism, Neuralgia and Chronic Headaches.

The enormous sales of 'Fruit-a-tives,' are the best proofs of the value *of this fruit medicine.*

50c. a box, 6 for $2.50, trial size 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

—"Advertising is the education of the public as to what you are, where you are, and what you have to offer in the way of skill, talent and commodity. The only man who should not advertise is the man who has nothing to offer the world in the way of commodity or service." — Elbert Hubbard.

"Croup" Chamberlain

Whooping Cough

"The disease I most dread is Whooping Cough, for children are often permanently injured by the awful straining of the cough. You should never neglect it, and treatment should be started at the first symptom. You cannot mistake the symptoms: protracted coughing, worse at night; peculiar whoop; labored expectoration of mucus; apparent suffocation after coughing.

Chamberlain's Cough Remedy

is a positive remedy for this disease—repeat the dose frequently, for if given freely it liquifies the tough mucus, makes it easy to expectorate and counteracts any tendency toward pneumonia. There is no danger whatever from Whooping Cough when Chamberlain's Cough Remedy is freely given."

Yours for Health.—Granny Glenn Lorimer

Byron Pink Tomato

FREE

A post card addressed to us as below, with your name and address on it on the other side, will cost but one cent. Drop it in the nearest mail box, and in writing promptly a copy of our illustrated 80-page catalogue for 1916. With it will come also—free—a 15c. packet of

Byron Pink Tomato

A perfectly formed tomato, the Byron Pink is uniform, large, and attractive. The flesh is firm, and the flavor delicious and full-bodied. It is a robust grower and a heavy cropper. It is an ideal tomato for forcing. You are going to buy seeds anyway; then you might just as well send for our catalogue and get this free premium for yourself.

The Catalogue tells about the other valuable premiums which we give with every order.

DARCH & HUNTER SEED CO., LIMITED, LONDON, ONTARIO, CANADA

Ahiram Lodge, No. 205, I.O.O.F

Meets every Tuesday evening at its room in the Hall (Middleton's Block. Visiting brothers always welcome.

J. PARKER, N.G.
H. H. GRANT, R.S.

Rewards for Invention.

It is not always the greatest invention that brings the largest financial reward. Roller skates are said to have brought their inventor nearly $5,000,000, while nearly half a million was realized by the man who first devised shoelaces. The inventor of the safety pin, who took the idea from the reproduction of a Pompeiian fresco, made $10,000,000. On the other hand, Charles Bourseul, who discovered and described the principle of the telephone in 1855, died poor; Michaux, the inventor of the bicycle, ended his days in the utmost penury; and Frederick Sauvage, who is credited with the invention of the screw propeller, was imprisoned and died bankrupt and insane.

"King" Chaplin

The class had been having a lesson in English history, and King Charles had been the subject.

Wishing to see how much the children were "taking in," the inspector put the following question:

"Can anyone tell me, who was the monarch who had long black curly hair?"

No response.

"Come, come, children, his name begins with a C."

Then up went one little hand.

"I know, sir; it's Charlie Chaplin."

"ANURIC!"

THE NEWEST

DISCOVERY IN CHEMISTRY

This is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Doctor Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "Anuric," manufactured by Dr. Pierce, or send 10 cents to Dr. Pierce for a large trial package. If you suspect kidney or bladder trouble send him a sample of your water and describe symptoms. Doctor Pierce's chemist will examine it, then Dr. Pierce will report to you, without fee or charge.

NOTE:—French scientists affirm that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using one box—or more in extreme cases—as "Anuric" (thanks to Doctor Pierce's achievement) is by far the most perfect kidney and bladder corrector obtainable.

Dr. Pierce's Pellets are the original little Liver Pills. One little Pellet for a laxative—three for a cathartic.

HOW TO SHIP GRAIN—ADVICE OF AN EXPERT

Complete Guide For Western Farmers in Handling Cars—Cleaning and Measuring

Advice to western farmers in shipping grain is given by H. H. Wingeard, Grain Exchange, Winnipeg. Briefly his suggestions are: Get your application in early for what cars you need to the station agents and if you cannot be served promptly by one railway whenever possible try another and lose no time. Having secured your car or cars proceed as follows:

Sweep the cars well, both floor and sides, especially if it has carried coal or wood recently. Examine cars carefully for defects, and secure same against leakage. In loading flax, it is just as well to use car liners if available, if not you should cover floor and sides with building paper (don't use tar paper as it is apt to damage your sample of grain or seed.) If the grain door does not fit closely do not drive nails through the door as that interferes with the opening at the terminals. Instead, drive a three-inch nail into place and bend the nail against it. This will hold it secure and will not interfere with the opening of the door as nails driven through would.

Measuring and Weighing

Whenever possible weigh your grain before loading and keep accurate record of the weight of same. Be particular to level the grain accurately in the car, and keep a record of the depth in inches of the grain and put it on the shipping bill. In case of leakage or damage in transit this is invaluable evidence in establishing your claim for shortage against the railway companies. Do not load cars much in excess of the amount allowed, but always be sure and load up to capacity as you do not want to pay freight on grain the companies are not carrying for you, through being below the minimum weight allowed in any cars.

Whenever possible clean all grain that shows more than say 2 per cent. dockage. I have handled many cars that show 12½ per cent. Now what does this mean? It means that you are paying freight and practically making a present to terminal elevator of about three tons of first class screening in each car, which should be very valuable to you when crushed and used for cattle and pig feed at home.

How to Use Stencil Strips

I would advise you to use stencil strips. Strips for six feet are in two sections and for eight feet in three sections. To secure best results with stencil strips place one about four feet from each end of the car and one about two feet each side of the door on both sides of the car. See that strips are placed so that they just touch the floor and are kept perfectly straight. I have found small wire shingle nails, with clippings of cardboard (to protect the strips) the most convenient to fasten the strips in place, tack about four inches apart in the strips. Use six feet lengths for wheat or flax in all cars and barley in 60,000 pound cars, and the eight foot strips for barley and oats in 80,000 pound cars.

In a car of standard size 36 feet long by 8½ feet wide grain of standard weight should weigh at loading points about 20½ bushels to the inch in depth of the grain, and heavier and lighter grain can be computed accordingly. When placing your name on car order book state the size of car required. Advise your commission man by mail when shipping, car number, kind of grain, grade expected when you want to sell, that is, when inspected or on arrival at Port Arthur or Port William or only on further orders. Send the right side of the bill of lading and not the railway company way bill.

Ducks Oust Mosquitoes

A few years ago much was heard about the utility of bats as a means of destroying mosquitoes. According to experiments the most formidable animal enemy of the mosquito is the duck, and the introduction of this bird is recommended for eliminating mosquitoes, and the diseases which these insects spread, from marshy regions where draining would be too costly. Two artificial pools were constructed of equal area, ducks being placed in one and fish in the other. The former pool was quickly freed from mosquito pupae and larvae, while in the other they continued to abound. Wild ducks are said to prefer mosquitoes to all other food.

Comfort for Travellers

The Canadian Pacific Railway has introduced a novel feature on their dining cars in the form of a special buffet in the dining room, on which cold meats, salads, etc., are tastefully displayed under glass covers, giving passengers an opportunity to select their salads or cuts of cold meat, which are served from the buffet by a chef in white uniform. This is the first time a cold buffet has been introduced on a dining car.

MISSING THE NIGHTS

We are too much indoors. Even when night comes we turn up the lamp and sit within its excluding circle to read what other indoor men have written, or we go out, hastily and under cover of the street lights, to get within other walls where folks are gathered to see or hear something of what others have done in films and plays and lectures. Or we sit on a shaded porch with trees about, so that the vast encircling night is only coolness and a breeze. The stars do not get much chance at us. Thus we keep the universe away from our souls. Such living makes for pettiness of the spirit. These scandalizing, gossiping little villages always live under roofs and behind blinds and curtains as if in ambush, that each inhabitant might lie in wait against the reputation of the other. Almost all of those who wrote the Bible lived in flat-roofed houses and went up on the house-top when day was done so that the wheeling planets and the whole host of the stars were their familiars. It was in that light that they thought of man and his destiny. In this modern confusion of change we need the eternal influences—the moon etching patterns on lake and roadway, the night gleaming of the rivers, the solemn beauty of the Milky Way, the steadfastness of the North Star. Night ought to free us from the littleness of the day's doings and lift the heart to the things that are above and beyond our days.—Colliers.

Character and Clothes

Fred Church

Fred Church is one of the "cowboys" of the "movies"! There are few players who can more completely change themselves by dress than he. In a dress suit he looks the polished gentleman in every detail. But in ten minutes, with the aid of chaps, a sombrero, a red bandana handkerchief, a flannel shirt and a belt of cartridges, he can transform himself into a regular cowboy off the range. He has played cowboy characters in many of the popular pictures.

THE KING LEAVES TOWN

Some Idea of Routine for Journeys of Royalty

Half past noon at the Palace. There is a busy stir in all the chief departments of the Household this morning, for the King and Queen are to leave London in a couple of hours' time for the country, where they will both take a few days' rest. The King has finished a long and strenuous morning's work, ending with a half hour's interview with Lord Kitchener, who has just taken leave of His Majesty. Lunch is to be served at one o'clock, and the King hurries to his room to change into tweeds from the khaki uniform he has been wearing in the morning, and which, it may be incidentally remarked, he has had on since seven o'clock.

Upstairs in the luggage room three men servants are busy getting the Royal and Household luggage together. The luggage is taken to the station in one or two of the Royal motor-luggage wagons. In peace time the luggage is always sent on by a train some hours in advance of the Royal train, but now-a-days with curtailed railway facilities, the luggage is taken in the same train as that by which the King travels. Lunch is a light meal as it always is when the King is leaving London. Cold roast beef, salad, some fruit and cream and coffee is what is on the menu, but in point of fact the King's lunch consists of nothing but fruit and cream and a few biscuits, and a cup of coffee. In a few minutes the Royal Party are gathered together in the equerry's entrance hall. As the cars whirl out of the Palace yard, an official goes to the telephone and a couple of minutes later they know at the station that the King is on his way to the station, and two minutes after the arrival of the Royal Family the train will be ready to start.

WOMAN AVOIDS OPERATION

Medicine Which Made Surgeon's Work Unnecessary.

Astoria, N. Y.—"For two years I was feeling ill and took all kinds of medicines. I was getting worse every day, I had chills, my head would ache, was always tired. I could not walk straight because of the pain in my back and I had pains in my stomach. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try Lydia.' I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I now am in the best of health and did not have the operation."—Mrs. JOHN A. KOPPIG, 502 Flushing Avenue, Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do; but many times doctors say they are necessary when they are not. Letter after letter comes to the Pinkham Laboratory, telling how operations were advised and were not performed; or, if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.

If you want advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

From Nurse Fletcher at Salonika

We are kindly furnished the following interesting excerpts from letters to her home here from Miss Mary Fletcher, who is on the Toronto University field hospital staff in the near east:

After having been tossed about for 18 days on the Bay of Biscay and the blue waters of the Mediterranean, we reached the island of Malta. Here we were distributed in different hospitals, but only remained for a short time before receiving orders to embark on a hospital ship for Salonika. As this meant 761 more miles to travel by sea, the trip was not looked forward to with pleasure excepting by the good sailors among our number.

Arriving at Salonika, we were taken out to our hospital tent, which is in a field three miles from the city. As we came along we got a glimpse of a portion of Salonika, which seems to be built on the side and face of a hill. But the city is anything but desirable. All nationalities are represented here, and everything looks primitive and crude. Oxen and mules are largely the beasts of burden, and it all seems strange to our eyes.

It has been cold since we landed, with a good deal of rain, and since we first took up our abode in our respective tents we went about clad in our sweater coats, rain coats, gum boots and rubber hats, and were continually seeking new places out of the rain. But now we are much more comfortable. There are four of us occupying each tent appropriated for the nurses. Just peep into ours and you will see matting on the floor, two coal oil stoves to keep us warm, and two coal oil lamps by which we read our letters from Canada. These boxes are our washstands. That large table in the centre of the tent, and which contains writing material, books, etc., is another box, and that is where we sit to write our letters to Canada. Our beds, though not downy, are very comfortable and are placed one in each corner of the tent.

And if, in spite of these blessings we enjoy, we sometimes feel homesick and sad, we think better of it when we go on duty in the hospital tent and see how good and cheerful are the poor men who have been brought to us wounded from the scene of battle. They truly are to us an object lesson of cheerfulness and bravery. Again, if we do not keep up a stout heart, it's not the fault of the Red Cross. Their work has been done so well that many times a day we say, "God bless the Red Cross workers."

BRANT COUNCIL

Council met on Dec 20th at the Township Hall. Members elect: Reeve, R. S. Nesbitt; Deputy-Reeve, A. Weir; Councillors—Messrs Rowand, Johnston and Gregg, all present.

Members of council were appointed to supervise in the various districts of the township as follows: Wm Johnston, that part of the 1st west of the Saugeen river and south of and including the 6th con; H W Gregg, all that part of the township south of the 6th con and west of the Saugeen river; W A Rowand, cons 1, 2 and 3 north and south of the Durham Road, east of the Saugeen river to the 1 of Bentinck; A Weir, that portion of the Tp north of and including the 4th con to the 1 of Elderslie, east of 24th sideroad.

Salaries of the various Tp officers were fixed as follows for 1916: Clerk $700, treasurer $300, assessor $150, to include postage; auditors, $6 each; medical officer of health, $50; sanitary inspector, $2 50 per day, with 10c per mile one way for disinfecting, and $3 per day with 10c per mile one way for other work inspecting included; deputy returning officers, $3 50 per day while taking the poll and $1 for returning the ballot box to the clerk, with 10c per mile one way; poll clerks, $2 each per day; $3 for polling booths; the reeve, deputy-reeve and councillors, $2 50 each per session with 10c per mile one way, and for committee and other work $2 per day with 10c per mile one way.

Alex Robertson and Chas Kyle were appointed auditors for 1916.

A grant of $10 was made to aid the Richardson family, check to be issued to C W Keeling of Cargill.

The treasurer was authorized to pay Mrs Powers $2,105, being principal and interest on note given by the Corporation of Brant Tp.

The clerk was instructed to subscribe for 7 copies of Municipal World for members of council, treasurer and clerk.

Wm Rowand was appointed member of board of health, and Dr Bricker as medical officer of health, he agreeing to furnish Henry Richardson, indigent, with all necessary medical attendance.

The clerk was instructed to advertise for an assessor, also tenders for printing.

The reeve and clerk were authorized to issue orders for all accounts passed.

The Council will meet again on Tuesday, Feb 1st.

H MOULTON, Teacher

TESTS OF CHARACTER

Manners One Fairly Certain Way, Says Lord Rosebery

Lord Rosebery, in giving schoolboys some good advice on the formation of character, said that he did not know how to define character. It was the individuality of the individual, which sounded like the famous definition of an archdeacon—namely, that he was a person who performed archdeaconal functions. Character was the sum of the moral qualities of a man. As to character, he believed they were born with it. He did not know whether that went counter to theological dogma, but he was firmly persuaded of the fact, and he had noticed that the way a baby took a bottle was a fine indication of character. The world was constantly carving and chiseling on their characters. Not a day passed but had some influence on their characters. Carving and chiseling some woods was useless because they were so soft that they never repaid the trouble or were worth anything. And some woods were split so easily that they were not worth anything either; but there are also some finer woods, like old mahogany, which got richer and nobler the older they got.

He firmly believed that the years they spent in school were far more important in the formation of character than all the many years they might spend afterwards. The school moments were the supreme moments, the moments which decided for them whether they were going to be men in the highest sense of the world, or whether they were going to pass through life as atoms. There was one way only by which the character of a man best showed itself, and that was by his manners. He had known many people who through shyness had the most execrable manners, and who, if they were judged by them alone, would undoubtedly be dragged to the block without benefit of clergy. He had known scoundrels with the most charming and fascinating manners possible, which were given to them by nature for much the same purposes as the web was given to the spider.

But those were not the manners he meant. He meant those simple, manly manners which were the index of a manly, straightforward character. He said to the boys, let them make their manners worthy of their character and their character worthy of their manners. The two processes went hand in hand. They could form for themselves a noble character, and they could express this in noble manners, the manners of a man who respected himself and respected others as well. If they had noble manners, they would not have them, he thought, without a noble character.

Hydro Radial Success

Sir Adam Beck's New Scheme Meet With Phenomenal Success

Toronto and district voted solidly on Saturday in favor of Hydro radials and in spite of the opposition, which was vigorously waged against it, declared itself in favor of public ownership by 15,000 majority in Toronto alone. The campaign which was put up by the Toronto Board of Trade Council netted only 5,766 votes, and this after an expenditure estimated at something like $5,000 for advertising and general publicity purposes. Toronto also selected a new board of control and a new city council. The result is that one new face will be seen on the board, and ten new faces in the city council.

Cream Quality Varies

Patrons of cream gathering creameries frequently complain of the variations which occur in the percentage of fat as revealed by the test of the cream delivered from time to time. These variations have given rise to more or less dissatisfaction on the part of the patrons, and have been the cause of unnecessary friction between them and the managers of creameries.

THE

Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER III.—(Cont'd).

Ribero felt a momentary flash of shame for the betrayal of such undiplomatic surprise, and made amends with added courtesy when he spoke.

The artist, dropping into his seat at the side of Miss Filson, felt a flush of pleasure at his position. For the instant, the other man's conduct became a matter of negligible importance, and, when she turned to him with a friendly nod and smile, he forgot Ribero's existence.

"Mr. Ribero," announced Mr. Bellton, "was just about to tell us an interesting story when you two delinquents came in. I'm sure he still has the floor."

The diplomat had forgotten what he had been saying. He was covertly studying the features of the man just beyond Miss Filson. The face was turned toward the girl, giving him a full view, and it was a steady, imperturable face. Now, introduced as raconteur, he realized that he must say something, and at the moment, with a flash of inspiration, he determined to relate a bit of history that would be of interest at least to the narrator. It was not at all the story he might have told had he been uninterrupted, but it was a story that appealed to his diplomatic taste, because he could watch the other face as he told it and see what the other face might betray. This newcomer had jarred him from his usual poise. Now, he fancied it was the other's turn to be startled.

"It was," he said casually, "the narrowest escape from death that I have seen—and the man who escaped was an American.

As Saxon raised his eyes, with polite interest, to those of the speaker, he became aware that they held for him a message of almost sardonic challenge. He felt that the storyteller was only ostensibly addressing the table; that the man was talking at him, as a prosecutor talks at the defendant though he may direct himself to the jury. The sense that brought this realization was perhaps telepathic. To the other eyes and ears there were only the manner of the raconteur and the impersonal tone of generality.

"It occurred in Puerto Frio," said the South American, reminiscently. He paused for a moment, and smiled at Saxon, as though expecting a sign of confusion upon the mention of the name, but he read only courteous interest and impenetrability.

"This countryman of yours," he went on smoothly, his English touched and softened by the accent of the foreigner, "had indulged in that dangerous, though it would seem alluring, pastime of promuting a revolution. Despite his unscrupulous character, he was possessed of an engaging personality, and, on brief acquaintance, I, for one, liked him. His skill and luck held good so long that it was only when the insurgents were at the gates of the capital that a summary court-martial gave him the verdict of death. I have no doubt that by the laws of war it was a just reward, yet so many men are guilty of peddling revolutions, and the demand for such wares is so great in some quarters, that he had my sympathy." The speaker bowed slightly, as though conceding a point to a gallant adversary. It chanced that he was looking directly at Saxon as he bowed.

The painter became suddenly conscious that he was according an engrossed attention, and that the storyteller was narrowly watching his fingers as they twirled the stem of his sauterns glass. The fingers became at once motionless.

"He bore himself so undeniably well when he went out to his place against a blank wall in the plaza, escorted by the firing squad," proceeded Senor Ribero evenly, "that one could not withhold admiration. The picture remains with me. The sun on the yellow cathedral wall . . . a vine heavy with scarlet blossoms like splashes of blood . . . and twenty paces away the firing squad with their Mausers."

Once more, the speaker broke off, as though lost in retrospection of something well-remembered. Beyond the girl's absorbed gaze, he saw that of the painter, and his dark eyes for an instant glittered with something like direct accusation.

"As they arranged the final details, he must have reflected somewhat grimly on the irony of things, for at that very moment he could hear the staccato popping of the guns he had smuggled past the vigilance of the customs. The sound was coming nearer—telling him that in a half-hour his friends would be victorious—too late to save him."

As Ribero paused, little Miss Buford, leaning forward across the table, gave a sort of moan.

"He was tall, athletic, gray-eyed," announced the attache irrelevantly; "in his eyes dwelt something of the spirit of the dreamer. He never faltered."

The speaker lifted his sauterns glass to his lips, and sipped the wine deliberately.

"The teniente in command inquired if he wished to pray," Ribero added then, "but he shook his head almost savagely. 'No, damn you!' he snapped out, as though he were in a hurry about it all. 'Go on with your ratkilling. Let's have it over with.'"

The raconteur halted in his narrative.

"Please go on," begged Dorka, in a low voice. "What happened?"

The foreigner smiled.

"They fired." Then, as he saw the slight shudder of Dorka's white shoulder, he supplemented: "But each soldier had left the task for the others. . . . Possibly they sympathized with him; possibly, each of the six secretly calculated that the other five would be sufficient. Quien' sabe? At all events, he fell only slightly wounded. One bullet—" he spoke thoughtfully, letting his eyes drop from Saxon's face to the table-cloth where Saxon's right hand lay—"one bullet pierced his right hand from back to front."

Then, a half-whimsical smile crossed Ribero's somewhat saturnine features, for Miss Filson had dropped her napkin on Saxon's side, and, when the painter had stooped to recover it, he did not again replace the hand on the table.

"Before he could be fired on a second time," concluded the diplomat with a shrug, "a new presidente was on his way to the palace. Your countryman was saved."

If the hero of Ribero's narrative was a malefactor, at least he was a malefactor with the sympathy of Mr. Bellton's dinner-party, as was attested by a distinctly audible sigh of relief at the end of the story. But Senor Ribero was not quite through.

"It is not, after all, the story that discredits your countryman," he exclaimed, "but the sequel. Of course, he became powerful in the new regime. It was when he was lauded as a national hero that his high fortune intoxicated him, and success rotted his moral fibre. Eventually, he embezzled a fortune from the government which he had assisted to establish. There was also a matter of—how shall I say?—of a lady. Then, a duel which was really an assassination. He escaped with blood on his conscience, presumably to enjoy his stolen wealth in his own land.

"I have often wondered," pursued Ribero, "whether, if that man and I should ever be thrown together again, he would know me . . . and I have often wished I could remember him only as the brave adventurer—not also as the criminal."

As he finished, the speaker was holding Saxon with his eyes, and had a question in his glance that seemed to call for some expression from the other. Saxon bowed with a smile.

"It is an engrossing story."

"I think," said Dorka suddenly, almost critically, "the first part was so good that it was a pity to spoil it with the rest."

Senor Ribero smiled enigmatically into his wine-glass.

"I fear, senorita, that is the sad difference between fiction and history. My tale is a true one."

"At all events," continued the girl with vigor, "he was a brave man. That is enough to remember. I think it is better to forget the rest."

NEURALGIA KILLS PAIN BRUISES

RHEUMATISM

Mothers! Your cares in comforting the aches and pains of the family from youth to old age, are lessened when you use this old and trust-worthy remedy—

CHESEBROUGH MFG. CO.
(Consolidated)
1880 Chabot Ave. Montreal

It seemed to Ribero that the glance Saxon flashed on her was almost the glance of gratitude.

"What was his name?" she suddenly demanded.

"He called himself—at that time—George Carter," Ribero said slowly, "but gentlemen in the unrecognized pursuits quite frequently have occasion to change their names. Now, it is probably something else."

After the dinner had ended, while the guests fell into groups or waited for belated carriages, Saxon found himself standing apart, near the window. It was open on the balcony, and the man felt a sudden wish for the quiet freshness of the outer air on his forehead. He drew back the curtain, and stepped across the low sill, then halted as he realized that he was not alone.

The sputtering arc-light swinging over the street made the intervening branches and leaves of the sidewalk sycamores stand out starkly black, like a ragged drop hung over a stage.

The May moon was only a thin sickle, and the other figure on the darkly shadowed balcony was vaguely defined, but Saxon at once recognized, in its lithe slenderness and grace of pose, Miss Filson.

"I didn't mean to intrude," he hastily apologized. "I didn't know you were here."

She laughed. "Would that have frightened you?" she asked.

She was leaning on the iron rail, and the man took his place at her side.

"I came with the Longmores," she explained, "and their machine hasn't come yet. It's cool here—and I was thinking—"

"You weren't by any chance thinking of Babylon," he laughed, "or Macedonia?"

She shook her head. "Mr. Ribero's story sticks in my mind. It was so personal, and—I guess I'm a moody genie. It was when he was lauded as a national hero that his high fortune intoxicated him, and success rotted his moral fibre. Eventually, he embezzled a fortune from the government which he had assisted to establish. There was also a matter of—how shall I say?—of a lady. Then, a duel which was really an assassination. He escaped with blood on his conscience, presumably to enjoy his stolen wealth in his own land.

"I have often wondered," pursued Ribero, "whether, if that man and I should ever be thrown together again, he would know me . . . and I have often wished I could remember him only as the brave adventurer—not also as the criminal."

As he finished, the speaker was holding Saxon with his eyes, and had a question in his glance that seemed to call for some expression from the other. Saxon bowed with a smile.

"It is an engrossing story."

"I think," said Dorka suddenly, almost critically, "the first part was so good that it was a pity to spoil it with the rest."

Senor Ribero smiled enigmatically into his wine-glass.

"I fear, senorita, that is the sad difference between fiction and history. My tale is a true one."

"At all events," continued the girl with vigor, "he was a brave man. That is enough to remember. I think it is better to forget the rest."

His genius was intended to be an argosy, bearing rich cargo between the ports of the gods and those of men. If, in the fulfillment of that destiny, the shallop of his own lesser talent and influence might act as convoy and guide, luring the greater craft into wider voyaging, he would be satisfied. Just now, that guidance ought to be away from the Marston influence where lay ultimate danger and limitation. He was glad that where people discussed Frederick Marston they also discussed his foremost disciple. Marston himself had loomed large in the star-chart of painting only a dozen years ago, and was now the greatest of luminaries. His follower had been known less than half that long. If he were to surpass the man he was now content to follow, he must break away from Marston-worship and let his maturer efforts be his own—his ultimate style his own. Prophets and artists have from the beginning of time arisen from second place to a preeminent first—pupils have surpassed their teachers. He had hoped that these months in a new type of country and landscape would slowly, almost insensibly, wean Saxon away from the influence that had made his greatness and now in turn threatened to limit its scope.

The cabin to which he brought his guest was itself a reflection of Steele's whim. Fashioned by its original and unimaginative builders only as a shelter, with no thought of appearances, it remained, with its dark logs and white "chinking," a thing of picturesque beauty. Its generous stone chimneys and wide hearths were reminders of the ancient days. Across its shingled roof, the sunlight was spotted with shadows thrown down from beeches and oaks that had been old when the Indian held the country and the buffalo gathered at the salt licks. Vines of honeysuckle and morning-glory had partly preempted the walls. Inside was the odd mingling of artistic junk that characterizes the den of the painter.

(To be continued.)

IRELAND'S POPULATION.

Increasing Birth Rate and Fewer Deaths Reported.

The latest census figures for Ireland show an increasing population. However common this may be in America, or in the other countries of Europe, this feature is for Ireland an agreeable novelty. For the quarter ended September 30 last the number of births in Ireland was 27,779, a rate of 20.8 per thousand, and the deaths 14,670, a rate of 13.4 per thousand. There were only 2,511 emigrants, so that the net increase in population is 9,558.

It is the decrease in emigration which has turned the scale. The situation might be even more satisfactory if it were not for the heavy death rate of children under a year old. About one Irish child in every dozen dies before it has reached the age of 12 months. Leinster and Ulster have the predominance in this respect. In them one child in every seven or eight dies an infant; in Connaught only one child in every 15. Dublin and Belfast no doubt account for this, for poverty-stricken Connaught has more fresh air than can be found in the cities, especially in Dublin, which has a system of tenement houses where scores of families live in one house, and often more than one family in a single room.

That Ireland is a less distressful country than it used to be, and now is on the mend, is further evident from the statistics of pauperism. Here there has been a very marked decrease. There were nearly 8,000 fewer people in the workhouses in the quarter under review than the average of the same period for the last 10 years, and there were 12,225 fewer people in receipt of outdoor relief from the rates.

The least satisfactory feature of the returns is the maintenance of a high death rate from tuberculosis. Enormous effort, inspired by Lady Aberdeen, has been devoted in every part of Ireland to stamping out this scourge. It has been by no means unfruitful. But the scourge is still there, and yearly takes a great toll of Irish lives.

A Daring Feat.

Snooks was one of those conceited, make-believe bold hunters and was always spinning his yarns about his experiences in Africa, and he generally wound up by saying he never yet saw a lion he feared. One night, after he had finished yarning, he was a little taken aback by one of the audience, who said:

"That's nothing. I have lain down and actually slept among lions in their wild, natural state."

"I don't believe that. I'm no fool," said the bold hunter.

"It's the truth, though."

"You slept among lions in their wild, natural state?"

"Yes, I certainly did."

"Can you prove it? Were they African?"

"Well, not exactly African lions. They were dandelions."

A Tragedy.

"How's that black-an-tan dog of yours?"

"Dead."

"Dead?"

"Yes, swallowed a bunch of watch keys, and they wound him up."

Try It.

Young Enthusiast (after hearing lecture on Uplift, etc.): "I want to do something for the good of humanity. Can thing I have never done in my life before."

Candid Friend (unfeelingly): "Try paying your bills!"

Cost of Concrete Manure Pit.

"In the summer of 1915 Mr. Carman Metcalfe, Cherry Valley, one of the enterprising farmers of this county, built a concrete manure pit, the particulars of which are rather interesting. For some time previously Mr. Metcalfe had been aware that he was suffering some loss due to waste on account of the manure lying exposed in the yard, but was somewhat at a loss as to how to eliminate it. At our suggestion he finally decided to build a concrete manure pit 16 ft. in diameter, 3½ feet deep, with walls 1 ft. thick, and a concrete floor, with the floor and walls plastered to make it waterproof. The following is an itemized account of the costs:

4 bbls. cement at $2	$ 8.00
2 loads gravel at 15c.	0.30
Hauling gravel and stone ...	3.50
Hauling silo rings	2.00
1 man 1 day at $2.50	2.50
1 man 1 day at $2	2.00
	$18.30

Mr. Metcalfe is more than delighted with the results. It holds about 25 tons of manure, thus it is only necessary for him to have it drawn out once a month, and one man with a team will do this job in a day. He has never found any of the manure burned by overheating, nor has it ever been frozen so that it could not be removed, even when it was 30 degrees below zero. He considers that it pays for itself at least once a year, in fact he thinks it paid for itself during the past summer. In connection with this he said, "Before we had the pit the manure which was made during the summer was dumped right on the yard, and in the fall it couldn't be found. This year we drew enough manure out of the pit to pay for it. Before, the liquid manure was all lost, but by having the pit it was all saved. Some of the neighbors said I should have made it square and with a door so that the waggon could be backed in, but if I had done this the liquid manure would have been lost, and besides, there isn't much to be gained by backing the waggon or sleigh in when you can drive all around it."—A. P. MacVannel, Prince Edward County.

Hot Water in Creamery.

A creamery that uses a steam engine and permits exhaust steam to escape unused is wasting a valuable by-product. Exhaust steam can be used successfully for heating milk, cream, boiler-feed water, wash water and the building. The heating of boiler-feed water and wash water only will be considered in this circular, says a circular issued by the Dairy Division, U.S Dept. of Agriculture.

In the majority of small creameries the boiler is fed by means of an injector, but this is not an economical apparatus for this work, because it requires live steam for its operation and cannot handle hot water. For every 10 degrees F. that water is heated before approximately one per cent. less fuel is required to generate a given amount of steam, and for each 10 degrees F. increase in feed water temperature the boiler capacity is increased approximately one per cent. When hot feed water is used a constant pressure on the boiler can be more easily maintained, and there will be an additional saving of fuel, attributable to even firing.

The heating of feed water from a temperature of 50 degrees F. to that of 200 degrees F. by means of exhaust steam will reduce the fuel consumption about 13 per cent., or will reduce a $600 fuel bill to $435.

The use of exhaust steam for heating wash water will still further reduce the fuel cost. It is estimated that in a creamery making from 100,000 to 300,000 pounds of butter annually a maximum of 800 gallons of hot water are used daily. It is customary to heat this water with live steam from the boiler. To heat so much water from a temperature of 50 degrees F. to that of 170 degrees F. requires approximately 127 pounds of coal. When the heating is done with exhaust steam there is a net saving of 127 pounds of coal a day, or, if operated 300 days a year, an annual saving of 38,100 pounds. At $5 a ton this is worth $95. In a creamery of this size the heating of the boiler feed water from a temperature of 58 degrees F. to that of 200 degrees F. will effect a further saving of approximately $100 annually. As equipment, consisting of a 20 horse power heater, a hot water storage tank of 220 gallons capacity, and a boiler feed pump, can be installed for about $200 and will effect an annual saving of $195.

ASQUITH'S BURDEN.

Sir F. E. Smith Defends Prime Minister From Attack.

Sir F. E. Smith, the new British Attorney-General, has paid this high compliment to the Prime Minister. He said:

"The London Globe said this of the Prime Minister: 'It will not do for him to attempt to find cover for his Government behind the rampart of the dead.'

"In other words, it is said that Mr. Asquith is attempting to cover up the delinquencies of his Government behind the rampart of those who have died for this country.

"Whether you agree with the Prime Minister or disagree with him, whether you admire or do not admire his public record, he is at least a man who has grown grey in the public service, and who has contributed three brilliant sons—not soldiers until this war arose—to the trenches, two of whom have already been wounded, and all three of whom are serving in infantry battalions. He is a man who is to-day bearing a burden of responsibility the like of which has never fallen upon the shoulders of any English statesman in all the history of this country.

"To say of such a man that he has attempted to find cover for his Government behind the rampart of the dead is a gross travesty of his speech and a statement which is discreditable to journalism."

PAINS AFTER EATING

WIND IN THE STOMACH—ACIDITY. HEADACHES—CONSTIPATION

ARE SIGNS OF INDIGESTION.

Indigestion—the complete or partial failure of the digestive processes—frequently throws out of gear the whole machinery of the body. You can't enjoy the vigour and vitality of good health unless your stomach, liver and bowels do their work regularly and effectively.

MOTHER

SEIGEL'S SYRUP

As a digestive tonic and stomachic remedy, Mother Seigel's Syrup is esteemed in tens of thousands of homes wherever the English language is spoken. If you suffer much or little from disorders of the stomach, liver or bowels, try the effect of taking 15 to 30 drops of this famous remedy in water after meals, for a few days and note its beneficial effects.

ASSISTS DIGESTION

The new 1 Oblox containing three times as much as the trial size sold at 50c per bottle.

SPOHN'S DISTEMPER COMPOUND

For Distemper PINK EYE, EPIZOOTIC, SHIPPING FEVER, and CATARRHAL FEVER.

Have safe and positive preventive. No matter how horses at any age are affected or "exposed." Liquid, given on the tongue, acts on the blood and glands; expels the poisonous germs from the body. Cures Distemper in Dogs and Sheep and Cholera in Poultry. Largest selling live stock remedy. Cured a college-raising human beings, and is a fine Kidney remedy. Try this out. Keep it. Show it to your druggists, who will get it for you. Free Booklet, "Distemper, Causes and Cure." Special agents wanted. SPOHN MEDICAL CO., Chemists and Bacteriologists, Goshen, Ind., U.S.A.

A COMPLETE BREAKDOWN AFTER LA GRIPPE

It Leaves the Sufferer a Victim of Many Forms of Weakness

Ask those who have had la grippe regarding the present condition of their health and most of them will answer "Since I had the grip I have never been well." There is a persistent weakness of the limbs, bad digestion, shortness of breath and palpitation of the heart caused by the thin-blooded condition in which grip almost always leaves its victims after the fever and influenza have subsided. They are at the mercy of relapses and complications, often very serious. This condition will continue until the blood is built up again, and for this purpose nothing can equal a fair treatment with Dr. Williams' Pink Pills, which quickly make the blood rich and red, drive the lingering germs from the system and transform despondent grip victims into cheerful, healthy, happy men and women. Mr. John Battersby, London, Ont., says:—"Just before Christmas, 1914, I was taken down with an attack of la grippe, and the trouble left me in a deplorable condition. I was almost too weak to walk about, as I was then working on a farm in Western Ontario, I was quite unable to follow my usual work. I tried several kinds of medicine, but it did not help me. As a matter of fact I felt steadily growing weaker, and in this condition, when reading a paper, I saw Dr. Williams' Pink Pills advertised and decided to try them. I got a supply and by the time the second box was finished I felt considerably better, and after continuing the pills for some time longer I felt better than I had done for months. This was my first experience with Dr. Williams' Pink Pills, but you may depend upon it that if I find medicine necessary again I will know what to take."

You can get these pills from any dealer in medicine or by mail, post paid, at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

CUTTING OUT WASTE.

Britain Will Save $5,000,000 a Day on War Expenditures.

Great Britain is spending about $25,000,000 a day on the war, and it is estimated by experts that about $5,000,000 of this is avoidable waste. There is much more waste that is unavoidable in war conditions, taking into consideration the fact that England was not a military nation and was not organized for raising, feeding, transporting and generally providing for armies that are counted in the millions, rather than in the thousands. The avoidable waste to-day is chiefly in the buying departments and is due to the system of buying which, so far, has ignored the trained business man, and left this most important branch of national economy in the hands of officials, whose appointment is due to their having attained a certain degree of excellence at school and university, and passed a civil service examination on literary subjects that have no possible bearing on their duties.

After sixteen months of war the nation has waked up and at last has called its great business men into council. An informal committee is being organized which will advise the army authorities on the proper organization of its supply and purchasing departments, and will generally supervise the national expenditure. The members will not be paid and will hold no official appointments, but they have placed themselves unreservedly at the service of the government. Among the first members of this new committee are Sir Wm. Lever, the great soap manufacturer; Sir George Gibb, the great railway manager; Lord Cowdray, head of Pearsons, Limited, the biggest contracting firm in the world; Sir Robert Hadfield, a great ironmaster, and Richard Burbage, the manager of Harrod's Stores, one of the biggest London retail dry goods houses.

HOW YOU MAY THROW AWAY YOUR GLASSES

The statement is made that thousands wear eyeglasses who do not really require them. If you are one of these unfortunates, then there chances may be running your eyes needlessly and injuriously. Thousands who wear these "windows" to the soul could prove that they can dispense with glasses if they will get the following prescription filled at once, go to any optician, put a few drops of Bon-Opto tablets in a two-ounce bottle with warm water and shake well. Then bathe the eyes with this lotion and after a few days the eyes will be astonished at the results right from the start. Many who have been told they required glasses for eye strain, catarrh, sore eyelids, weak eyes, conjunctivitis and other eye disorders report wonderful benefits from the use of this prescription. Get this prescription filled and if you find you do not require glasses at present, you may at least be assured that you will not be necessary. Thousands who are blind, or nearly so, or who have glasses might never have required them if they had cared for their eyes in time. Save your eyes before it is too late! Do not become one of those victims of neglect. Eyeglasses are only the crutches and even the eyes they must be changed to fit the ever-increasing weakness. In addition, as better use if you can, like many others, get clear, healthy, strong, magnetic eyes through the prescription here given. Your own druggist can supply you the prescription, send it to the Valmar Drug Co., Toronto, for a generous package, Bon-Opto Home Treatment outfit—tablets and all.

Too Noisy.

"Is your papa asleep, Dorothy?"

"His eyes is, auntie, but not his nose."

The appearance of much white in the eye of a horse indicates a vicious nature.

MAJOR-GEN. F. L. LESSARD, who leaves for the front at once to secure all information and experience necessary to him in his position of Inspector-General.

TURKISH GIRL SNIPERS.

One Shot Seven Soldiers at the Dardanelles.

From five officers, who have just returned to London from the Dardanelles, separate stories of girl snipers are told.

In one case a girl who could not have been more than eighteen was found in a marvellously prepared and concealed "dugout," with water, ammunition and food "to hold on for weeks."

In the other case the platoon commander found that his men were being shot in the back.

"It took hours to locate the spot whence the bullets came, and she had got rid of seven of my men. She was so well hidden that it was more or less by chance that we sighted her from twenty yards. She had 2,000 rounds of ammunition.

"She was as quiet as a lamb when we took her. She was one of the bravest creatures I have met. I shook hands with her and had her sent as prisoner to our base."

BABY'S BATTLES AGAINST SICKNESS

Can best be fought with Baby's Own Tablets—the little pleasant tasting Tablet that never fails to regulate the stomach and bowels and drive out all minor ills of little ones. Concerning them Mrs. H. Hower, Eastburg, Alta., says:—"I have four healthy children thanks to the use of Baby's Own Tablets. I have been using the Tablets for the past eight years and think them the best medicine in the world for little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

RED CROSS PUBLICITY.

The Canadian Red Cross in London.

The Information Bureau of the Canadian Red Cross in Cockspur St., London, England, has become one of the busiest places in the imperial metropolis. Occupying a strategic position in the very heart of London it has given to the English people striking evidence of the solicitude and zeal of Canadians and the Canadian Red Cross for our sick and wounded.

Here with four floors of office space at her disposal, Lady Drummond presides over the activities of 103 voluntary lady helpers who are distributed through the various departments.

The Enquiry and Visiting Department under the direction of Miss Erika Hovy and Miss Taylor, has a voluntary staff of 48. This department selects visitors to visit the wounded in the hospitals and to make reports on their condition. Six ladies are busy in transcribing this information to a card index system. From this reports are made out to relatives in Canada by a staff of ten. This department also handles all inquiries about men in hospital or missing. It is difficult to exaggerate the importance of this work.

Another department handles all matters connected with prisoners of war. Twenty-seven ladies are busily engaged in packing parcels for Canadians in prison camps in Germany. A parcel is sent each week to every prisoner on the list.

The Countess Pignatorre with two other ladies is in charge of a newspaper department which sends Canadian news to the men in hospital.

Another department which has done much to endear the Canadian Red Cross to convalescent soldiers is the Drives and Entertainment Department, the work of which is as its title would indicate. It enlists the sympathy of Canadians in London and hospitable English people, and provides carriage drives and various forms of hospitality and amusement for men who are sufficiently far advanced in convalescence to leave the hospital for short periods.

This information department is doing a remarkable work for our Canadian wounded. It gives a warm personal touch to the work of the society in England and makes our wounded feel that the Canadian Red Cross is in every sense a personal friend to them.

Our Patriotic Indians.

If there is anyone who can with good title lay claim to the name of Canadian, it is the Indian who is the descendant of the original inhabitants. It is only natural therefore that they should have especially ardent feelings of patriotism in this present period of crisis. Indeed in this matter there are few of us who cannot take humble lessons from our Indian compatriots, who in all the Indian reserves have given many generous contributions—large indeed considering their financial means—to the Red Cross and Patriotic Funds.

There attitude and enthusiasm is very eloquently expressed in a letter sent by the Indians of Split Lake, Man., to Mr. John R. Bunn, of the Department of Indian Affairs, accompanying a donation of $37.50 for patriotic purposes. It reads as follows:

We, the Indians of Split Lake, wish to manifest our loyalty by giving a small contribution to the Empire in this her hour of trial. We regret the circumstances will not permit us giving very much, and we hope that the amount of our offering will not be taken as an adequate showing of our loyalty, and we wish the spirit in which the contribution is made rather than the amount to be remembered. So that everybody share and share alike, we have agreed to give twenty-five cents (25c.) per head, this to be deducted from our treaty money.

May the Great Spirit give the Victory to the King and Country, and more especially to the King who has never neglected even the poorest of his Indian subjects.

For our country's welfare we pray.

MORE BOYS THAN GIRLS.

British Births Show a Preponderance of Boys.

In the birth column of one of the London newspapers three-fourths of the births announced are of the male sex, according to a correspondent who puts forth the theory that there are more boys than girls born during war times.

The Registrar-General's department, however, does not encourage this theory, as on being questioned on the subject, the following statement was elicited:

"After the early great war the nation has waged since accurate statistics have been recorded, the Crimea, there was no marked increase in the proportion of boys. The excess of boys over girls during the years 1851 to 1860, which included the war, was less in fact than during the previous ten years."

JAPAN SUPPLIES TOYS.

Orientals Succeed to German Trade in Britain.

Japan has helped out the English shopping season by providing the bazaars with enough toys to supply the world with. Before the war Germany controlled almost the entire British toy trade. English toy industries have since started up, but could not fill all the orders from the shops. Then as importing firm sent samples of German toys to Japan. In some ways the Japanese output has exceeded expectations.

The new Japanese toys include clockwork animals, such as jumping frogs and horses, cheap speaking dolls and imitation skin animals. While not a musical people in the European sense, the Japanese also manufacture toy musical instruments.

PRESSED HARD.

Heavy Weight on Old Age

When people realize the injurious effects of tea and coffee and the better health that a change to Postum can bring, they are usually glad to lend their testimony for the benefit of others.

"My mother, since her early childhood, was an inveterate coffee drinker, had been troubled with her heart for a number of years and complained of that 'weak-all-over' feeling and sick stomach. The effects of tea on the system are very similar to those of coffee, because they each contain the drug, caffeine.

"Some time ago I was making a visit to a distant part of the country and took dinner with one of the merchants of the place. I noticed a somewhat unusual flavour of the 'coffee' and asked him concerning it. He replied that it was Postum.

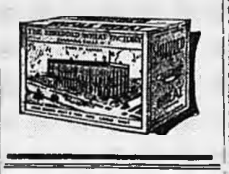
"I was so pleased with it that I bought a package to carry home with me, and had wife prepare some for the next meal. The whole family liked it as well that we discontinued coffee and used Postum entirely.

"I had been very anxious concerning my mother's condition, but we noticed that after using Postum for a short time she felt much better, had little trouble with her heart, and no sick stomach; that the headaches were not so frequent, and her general condition much improved. This continued until she was well and hearty.

"I know Postum has benefited myself and the other members of the family, especially my mother, as she was a victim of long standing." Name given by Canadian Postum Co., Windsor, Ont.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c packages.



Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

You Can't Work with hand or brain when the body is poorly nourished. Get warmth and strength for the day's work by eating for breakfast Shredded Wheat with hot milk. Contains all the body-building material in the whole wheat grain prepared in a digestible form. Its crisp goodness is a delight to the palate and a life-giver to tired brain and jaded stomach. Made in Canada.

FARM SEED SUPPLIES.

Field and garden seed supplies are practically assured for the 1916 planting. There is a scarcity in American grown crops, including beans, onions, and to a lesser extent sweet corn. Amongst the imported stocks, swede turnips are rather short, also spinach and salsify and some varieties of carrots. Red clover and alfalfa are unusually short and show an advance in price from 30 to 75 per cent. Other kinds that might be used as a clover substitute, as alsike, are higher in price than the supply would otherwise warrant. Well-established Canadian seed houses with contracts made two or three years in advance will have no serious trouble this season in taking care of their regular trade. Seed merchants, who depend from year to year on the surplus stocks that may be offered, may have less assurance as to the character of their supplies.—Seed Branch, Ottawa.

For Breakfast To-Morrow.

serve Dr. Jackson's Roman Meal. You'll find this dark, nut-brown, coarsely granulated food very delicious. It has a taste different from any other cereal. It is exceedingly nutritious. It prevents indigestion. It is guaranteed to relieve constipation or "money back."

Ask your doctor about Dr. Jackson's Roman Meal.

10c and 25c at grocers. Follow directions closely and do NOT stir while cooking porridge.

Try Roman Meal Nuggets, the ready-cooked form of Roman Meal. Serve with hot milk or soften with boiling water. Pour off and add milk and sugar.

Made by Roman Meal Co., Toronto.

What He Might Do.

"Ma, may I go out to play?"

"No; must sit still where you are."

Pause.

"Ma, may I go down into the kitchen?"

"No; I want you to sit perfectly quiet."

Pause.

"Ma, mayn't I sit on the floor and play marbles?"

"I have told you twice that I want you to sit just where you are and be quiet, and I mean exactly what I say."

Pause.

"Ma, may I grow?"

Minard's Liniment Cures Colds, Etc.

Her Reply.

"Alexander," said a pretty girl to her bashful beau, "I wish you'd tie this ribbon at my throat. I can't see to do it without a glass." "Of course I shall be glad to!" he said. After an unsuccessful effort of five minutes, during which he got red in the face, he stammered, "I—I don't think I can tie a respectable knot, Miss Mary!" "Suppose, Alexander," she whispered, with a pretty blush, "suppose you call in a clergyman to assist."

Turks Give Women Jobs.

Turkey's participation in the war is bringing a greater degree of freedom to the Turkish women. The Turkish ministry of posts, telegraphs and telephones announces that women are to be employed in the money order departments of the postoffices. They must not be less than 17 years old and unmarried. The pay is about $10 month. Damascus reports the opening of a girls' school.

Comparisons.

"Marriages," said the old-fashioned sentimentalist, "are made in heaven."

"Yes," replied Miss Cayenne. "But some of them are like motor cars. They run badly after they leave the factory."

BIGGER THAN U. S. NAVY.

Number of British Warships Built During the War.

Commander Fowers Symington, the American naval attache at London, who was ordered to Washington to lay before the General Board the information which he has gathered concerning the British navy, has reported to the Navy Department.

Commander Symington's report may be summarized in the following manner:

Admiral Jellicoe is virtually dictator of the navy, and the entire organization has absolute faith in him. His activities are shrouded in mystery, but the navy is satisfied that when the test comes he will be prepared to obliterate the German fleet. Every available yard in the British Islands is working right around the clock in turning out ships at an unprecedented rate. Great Britain has laid down or completed more vessels since the war began than the entire tonnage in the American navy. This means that within a year the British navy will be about 300 per cent. stronger than America's, unless Germany destroys a section of the fleet.

Beautifies While You Sleep

Before retiring, bathe the face and neck with hot water, then dry and rub "USIT" into the skin with the finger tips. By persistent treatment you will soon restore to your complexion the wonderful freshness and beauty of youth. Make this treatment a nightly habit and "USIT" will beautify you while you sleep.

"USIT" is a skin food and wrinkle chaser. It builds up firm elastic tissues, removes wrinkles, fills out depressions and gives the skin a wonderful smoothness and fineness of texture which alone indicates perfect skin health.

"USIT" is put up in handsome opal bottles, and until the Drug Stores in Canada are completely stocked we are filling mail orders. Accept no substitute.

Send 50 Cents to-day for trial bottle, sufficient for six weeks' use. We pay postage to any address in Canada.

UNIT MANUFACTURING CO., LTD.
476 Roncesvalles Ave., TORONTO

A Deep Thought.

They had not been married very long, and that complete blissful trust which young husbands and wives have in each other had not yet been broken. But one morning wife meekly remarked: "I mended the hole in your trousers pocket last night after you had gone to bed, John, dear. Now, am I not a thoughtful little wife?" The husband dubiously remarked:—"Well-er—yes, you are thoughtful enough, my dear; but how in the mischief did you discover there was a hole in my pocket?"

Minard's Liniment Cures Distemper.

A Considerate Wife.

One afternoon Bates was having a little gabfest with an old acquaintance, when the latter spoke of married life and the beauty of having a happy home.

"That's where I have a whole lot to be thankful for," said Bates. "I have a wife who looks after me constantly. As a matter of fact there are times when she even takes off my shoes for me."

"I see," thoughtfully mused the acquaintance. "I suppose that is when you come home tired at night."

"No, no," smilingly corrected Bates. "It is when she thinks that I am about to slide out early in the evening."

Minard's Liniment Co., Limited.

Gentlemen—Last winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of LaGrippe, and I have frequently proved it to be very effective in cases of Inflammation.

Yours,
W. A. HUTCHINSON

An Ideal Arrangement.

"You ought to propose to my sister," simpered the young lady. "She is a splendid cook, while I have nothing to recommend me save what you are pleased to call my good looks."

"I want to marry you," maintained the young man. "Still I realize that a good cook is a great boon. Maybe your sister would come and cook for us," he continued hopefully.

The poisons of certain snakes are used as medicine.

Customary.

"On the train out Medford way Subbubs got into conversation with a stranger, who remarked:

"I see you are putting up a good many new buildings."

"Yes," answered Subbubs, "new buildings are the only kind we put up."

Minard's Liniment Cures Diphtheria.

A Long Walk.

A learned professor was paying a visit to his married niece and listening to her praise of her first born. When she paused for breath the professor felt that he must say something. "Can the little fellow walk?" he asked, with every appearance of interest. "Walk?" cried the mother indignantly. "Why, he's been walking for five months!" "Dear me!" exclaimed the professor, again relapsing into abstraction. "What a long way he must have gone!"

TENTH CON. BRUCE

Richard Christie and son Willie are confined to the house severely afflicted with colds, and both under the doctor's care.

Underwood L.O.L. met on Monday of this week. A large number of members were present, including John Howe, who is home on a visit from the prairie country. Mr Howe gave the members of old Underwood a very instructive address. He also asked and received his certificate in order that he might start a new lodge in his district in the West, where he has been promised as many as fifty members if he will undertake to start them up, a work which Mr Howe is very capable of doing. The W. M. gave a good account of the district meeting, and numerous speeches and songs helped to make the meeting a most pleasant and profitable one.

Mr and Mrs A McDonald spent Sunday at Mr W McLean's at the Grove.

While delivering His Majesty's mail on Tuesday of last week, Geo. Hoath had a rather exciting experience on the 12th line, in the shape of a regular old-time runaway. Some people who witnessed the mishap said Geo did not know whether to holler whoa or give old Captain the sign of distress in the Royal Arch degree. However, by the aid of the telephone and some kindly neighbors, old Captain's wild escapade was soon cut short, and George, after gathering up the fragments, continued on his way with old Captain's bells playing the breakdown tune of "The Irish Washerwoman" with variations, the variations being played with a piece of rawhide about six feet long.

The weather of the past few weeks has been anything but like a good old Ontario winter. Billy Minto says that when it comes mild like this it always rains, and when it freezes it's so cold that he has to light his pipe with his mits on.

It would be nice if somebody would tell us the truth about this conscription business in Ireland. Is the British Government not going to enforce conscription there because the Irishmen are enlisting fast enough, or are they afraid to enforce conscription for fear they will start a riot? One thing sure, it is a pretty sore spot to a good many loyal Irishmen in Canada. I wonder if there is any truth in the story that German gold has cut quite a figure in Ireland. If we are going to admit that—well, we might admit the same thing about the Province of Quebec. Now, what kind of a roar the Scotties would put up if the story went out to the world that they were to be treated differently to other parts of the British Empire proper. The heather would be afire in no time. Anyhow, nobody need ever try to tell us that good Irishmen would rather see Germany win than the Allies. They haven't forgotten Belgium yet. They say at the present time there is a scarcity of Scotch on the firing line—not hot-Scotch, but the real, live Scotch soldiers. In trying the other day to explain the reason why, Charlie McDonald said that the English are all hiding behind the Irish, and the Scotch have got to put up with the best cover they can find back somewhere in the rear. We don't think Charlie believed that story himself, although he seemed to take it very seriously.

ELORA ROAD NORTH

Mr and Mrs Hamilton, of Gladstone, Man., visited at Mr. Jd. H. Fraser's.

Mr Wm Bryce, who has enlisted, spent Sunday with his uncle, Mr Dave Bryce.

Miss Lillie McDougall spent a few days in Paisley.

Mr and Mrs Richard Daniel, of the 6th of Saugeen, visited at Mr John Walker's.

Mrs John S Campbell has been ill with la grippe.

We understand that Chris Maloney will be a bugler in the Bruce Battalion. Chris has always been a general favorite, and we wish him good luck with the boys of the Allies.

Children Cry
FOR FLETCHER'S
CASTORIA

TURNER'S

Henry Dier of Park Head is down visiting his mother.

Wm Hyde has returned home to Rocanville, Sask., after spending a few weeks with his mother.

Arch Pollock, sr., has returned home after spending a month with friends at Peterboro.

We regret that our teacher, Mr A Stewart, who has enlisted, will be leaving us this week. We hope for his safe return, as he was well liked as a teacher.

Wedding bells are ringing in our burg.

CARGILL

Messrs Ruttle and Kirvan spent Sunday with friends in Mildmay.

Julius Kupferschmidt has disposed of his farm east of the village to Gordon Taylor, who has lately returned from the west. We understand the price paid was in the neighborhood of $2800.

Bert Hoover, our tousorial artist, has disposed of his business to Martin Bester, whose home is just west of this burg. Bert has not yet decided what he will do.

Lieut Krug, of Chesley, is the new recruiting officer in charge here in place of Lieut Patterson, who was recently transferred to Cape Croker.

Corp Loughleen is home on sick leave from Alliston.

J H Taylor is home from Southampton for a few days owing to the factory in which he is working being loaded up with munition boxes.

W M Cameron held a patriotic card party last Friday night at which nearly $15 was raised.

Mesdames Winkless and Neal returned to their homes in Ravenna, Ohio, and Elmira, N Y, respectively, after a month's visit with their parents, Mr and Mrs John Loughleen.

Wm Merchant has secured a position as sectionman at Dunkeld, and moved his effects there on Saturday last.

Mr and Mrs W D Cargill spent over Sunday in Toronto.

Roy Hood, of the Keeling staff, was in Paisley on Monday evening.

Owing to the soft weather our skating rink is out of business. We hope it will not be long until ice forms again, so that the bachelors our contemporary, the Telescope man, refers to will be able to finish their lessons and take out their diplomas before the cold weather has left.

We are sorry to report that Mr Karl Cliff's baby is very sick, and no hope is held out for its recovery.

Milton McCarter spent Sunday with friends in the village.

Miss Greenlow, of Walkerton, is at Mr Geo Sirrs' this week.

Miss Lillie Brown is home from a month's visit with her sister in Ayton.

UNDERWOOD

Mr and Mrs Percy Brown, from Saskatoon, are visiting at Mrs Colwell's, in this village.

Mr and Mrs H Drummond, who are down from the west, recently spent a few days with Mr and Mrs Jas Leggett.

There passed away on Sunday one of our most respected ladies, Mrs Wm Skipper. The deceased was taken ill about ten days ago with la grippe, which soon developed into a severe attack of pleurisy and pneumonia. Her condition steadily grew worse, until on Sunday her release came. Mrs. Skipper's maiden name was Alice M. Paul, and she was born at Norwich, England, about 40 years ago. She had lived here since coming to Canada about four years ago. She was married in 1915. The many friends in this neighborhood will miss her cheery presence and join in extending sincere sympathy to the bereaved husband. The funeral took place on Tuesday afternoon from the Presbyterian church to Bainsdore cemetery.

GLAMIS

W J McKeeman went to London on Monday on a business trip.

Mr and Mrs Thos Ferris and Mr and Miss Pate of Oxbow, Sask., spent a week at Mr Ferris's on the boundary.

Miss Lizzie Campbell was called to Harriston to attend her sister Margaret, who has been sick. Latest reports are that the patient is improving.

Mr Barker, of Port Elgin, is assisting Mr McCauley at special meetings this week.

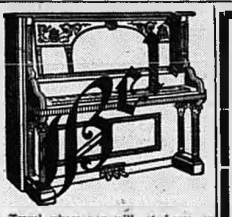
Miss Ada Cunningham is spending a few weeks at Murd McKay's.

Mr Kitchen, of Detroit, who is visiting his father-in-law, Mr McCormick, has enlisted with the new Bruce Battalion.

GRESHAM

(Intended for last week)

Geo Brown sold three valuable horses last week, two to Mr Irwin and one to Mr Rose.



The W.M.S. held a meeting at Mr Snowden's last week which was largely attended. The next meeting will be held at the home of W Foster.

Mrs Jas McKinnon is at present down with la grippe.

Mrs Knapp intends leaving shortly for Chesley. On Friday evening the neighbors gathered and gave her a handsome present, together with an address.

Andrew McArthur delivered a valuable horse in Paisley last week.

We welcome the Irwin family to our burg.

Travel where you will, at home or abroad, you will find the name

BELL

a leader in the realm of music. If you would have the best, it must be a **BELL**.

Sewing Machines of all makes, Edison Phonographs and Records, and other small instruments.

PETER McKINNON, Agt., Paisley
Ross Street

EBENEZER

The young men here have organized a hockey club. There are some very promising young players here who are anxious to show their speed. With lots of practice and careful training we have no doubt but they will soon become stars. The following officers were elected: President, Ed Martin; sec.-treas., Eph Grant; captain, R Wagner. The first match of the season was played on Thursday night with the River Road boys. It was a close game until the last quarter, when the Ebenezer boys scored three goals in rapid succession. The final score was 7 to 3 in Ebenezer's favor.

Miss Ida Jory, of Peterboro, is visiting friends here.

Mr Arthur and Miss Ina Alexander, of Pinkerton, are visiting with friends on this line.

Miss Ida Burns, of Toronto, attended the wedding of her cousin, Miss Ida Grant, last week.

Mr C A Thomas, who attended the stock judging course at Guelph, has returned home.

Peacock—Grant

At "The Maples," the home of Mr and Mrs Wm Grant, there took place on the 19th inst. a very happy event, being the marriage of their only daughter, Ida M., to Thos S. Peacock, son of the late Samuel Peacock of Elderslie. As the bridal chorus from Lohengrin was being played by Miss Vina Peacock, sister of the groom, the bride entered the room and was given away by her father. The bride was prettily attired in ivory Duchess satin with an overdress of shadow lace and pearls. She carried a boquet of bridal roses and fern, and wore a bridal veil caught with orange blossoms, together with the groom's gift, a cameo necklace set with pearls. Her only attendant was her little cousin Mabel Lippsett of Chesley, as maid of honor, who was dressed in pink voile and carried a basket of pink carnations. The groom's gift to her was a locket and chain, and to the pianist a pearl sunburst. The ceremony was performed by Rev R L Ockley of Arkwright, in the presence of about eighty immediate relatives and friends. The gifts were costly and beautiful, showing the esteem in which the young couple are held by their friends. Among the gifts were a mahogany music cabinet and an oak pedestal from the congregation of Ebenezer church, of which the bride was organist. Mr and Mrs. Peacock will take up their residence at the groom's home in Elderslie.

PINKERTON

The Red Cross social which was postponed from last week until Monday of this week was held at the home of Mr Thomas Birrell, where a very enjoyable time was spent by all present.

Mr Mel Reid attended the Stratford Normal "At Home" on Friday evening, and reports a good time.

A number from here attended the skating rink on Thursday evening.

Mrs Jas Thompson, of Glamis, is visiting at Mr Cecil Garland's.

—Mr Geo Hyde, from the west, has been visiting friends in Paisley and vicinity for a few weeks.

—Mr. D. McArthur attended the funeral of the late Mrs. Bruce in Toronto on Tuesday of last week.

—Mr. L. L. Woodward, of Hanover, was in town for a few days, visiting his friend Elroy McKenzie.

—Pte. T. H. George was one of the speakers at a recruiting meeting at Lucknow on Thursday night last.

—Mr. Robert Dickson, of Portage la Prairie, is a visitor at the home of his sister, Mrs. Gordon, Albert St.

—Snakes crawling about and mushrooms growing are some of the untimely things reported early this week.

—Mr. and Mrs. Alf. Robinson, of 12th Elderslie, went to Harriston on Wednesday to visit friends for a short time.

—While going to Sunday School on Sunday afternoon, Mrs Geo Grant fell on the ice walk and sustained a fracture of the elbow.

—Mr Blakely Scott, of Moosejaw, is visiting friends in Elderslie and Paisley, the guest of his cousin, Mrs J Cavill, while in town.

—Mr Jas Hyde came up from Toronto on Thursday, and left on Tuesday for Vancouver, B C, in charge of a load of horses for Mr Cruz.

—Mr. Austin Ryan, of Toronto, has been secured as teacher for S S. No. 6, Saugeen (Allenhurst) and took charge of the school on Monday.

—Mrs. McMillan and daughter Miss Addie went to Toronto before the death of the former's sister, the late Mrs. Bruce, and remained until after the funeral.

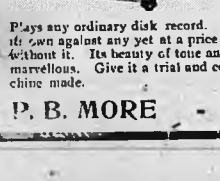
—Mr. Geo. Greer, of 12th Bruce, is able to be around again after being confined to the house for several weeks from a fester on his foot, the trouble developing from a slight blister.

—Mr Newton, of Lucknow, has been secured as entrance teacher in Paisley school, and began his duties this week. Mr Newton is a young man who has the highest recommendations as a teacher.

—Artillerymen Leslie Shaw, John Hamilton and Guy Purdy, also Bandsman Emerson Pearce, 95th Bat, were home from Toronto over Sunday. These men expect to be sent overseas this month.

Skating Carnival

A grand masquerade carnival in Paisley skating rink, Friday, Feb. 11th. Watch for the prize list and keep the date open. This is the first carnival of the season. Get ready for it.



BIG JANUARY CLEARING SALE

to make room for New Spring Goods

G. B. IRWIN

Tailor and Furnisher - Paisley

The Vanophone

$15.25

The Latest Wonder in Phonographs

Plays any ordinary disk record. A Phonograph that will hold its own against any yet at a price that no home can afford to be without it. Its beauty of tone and clearness of reproduction are marvellous. Give it a trial and compare it with any other machine made.

Our Great Sale is Over

OUR Stock-Taking is completed and now for our Spring trade.

With the arrival of the Spring Goods to fill all lines depleted by our 10 Days' Sale, we are now ready for business in all the wants for Spring.

See our RUGS, POLES, SQUARES, CURTAINS, WINDOW SHADES and all the wants of housekeeping.

H. B. PUTNAM & SON

—Mr and Mrs Wm Wrightson, of Unity, Sask, are visiting their friends in this locality for a few weeks, guests at the home of her parents, Mr and Mrs H Lamont, at Lovat.

—Another old boy from here who is now wearing the khaki is Sergt Hugh Megraw, of the 74th Kootenay Battalion. This corps was in training at Vernon, B C, but crossed the sea in November, and is now at Barnshott Camp in Rugland. The Sergt is a brother of Mr Wallace Megraw, of Greenock.

—Messrs. D. McGregor and J. Smart have formed a partnership in the blacksmith business carried on at the old stand on Church St. This shop has been in the hands of the McGregors for two generations, and the new partner is no stranger to its patrons, as he has been employed there for a number of years.

—The Mildmay Gazette says: Robt. Wightman of Clifford, owner of the Wightman rural telephone line, which covers a section of Carrick, has given public notice to his subscribers not to allow a certain party the use of the phone (giving the offender's name). He has made a nuisance of himself and has been caught listening on the line. This ought to prove a cure for people who abuse their telephone service.

Two More Enlisted

Messrs Geo Stewart of town (son of W T Stewart, 12th con Greenock), and Bel Campbell of Pinkerton, signed up here with the 160th Batt. last week. It is expected that the local contingent will commence training here in a few days.

January Flood

The unseasonably mild weather conditions prevailing this month have almost turned winter into spring. Instead of snowfalls there have been heavy downpourings of rain. The streams have overflowed, also the ice broken up and carried lakewards in great masses. According to the most reliable prognostications we are not likely to have any more sleighing worth mentioning this winter.

Foster—Hall

A quiet wedding took place at the residence of Mrs John Hall, of Greenock, on Jan 26th, when Mrs McGregor, nee Violet V Hall, was united in holy matrimony to Mr Joseph Foster of Bruce Tp, by Rev Mr Gale of Pinkerton. Only the immediate friends and relatives were present. The bride was becomingly attired in brown silk, and carried a bouquet of lillies of the valley. The happy couple went on a trip to Toronto and Niagara Falls.

Fish Under the Ice

There were large areas of skating ice on the overflows river flats on Saturday, and youth took full advantage to enjoy itself. In the new school grounds the boys discovered a large red-finned mullet swimming excitedly beneath their feet as they skimmed over the smooth surface. The fish had got there in the overflow and became impounded. The boys broke the ice in several attempts to catch the piscatorial stray, but it escaped in eluding them until on Monday morning, the water having gone down, it had smaller scope in which to play, and was quickly taken, together with four others.

The Mean Man

Caleb Peaslee and Lysander Hyne sat comfortably upon the fence of Mr. Peaslee's "upper paster," absorbing the warm June sunshine. In the road below them a peddler's cart, drawn by an emaciated horse, creaked along. Caleb Peaslee regarded the horse pityingly.

"I don't believe," he observed slowly, "that I've seen a hoss run down quite as bad as that one since the time Needham Bonsey sold a hoss to Wilder Blake for two dollars. You never knew Needham Bonsey, Lysander—he died 'fore you ever moved here.

"There's varyin' degrees of snugness," said Mr. Peaslee, reflectively. "There's prudent and snug and stingy and downright p'ison mean. Bonsey was p'ison mean. When I tell you he never weighed within thutty pounds of what he ought to weigh, 'count of scantin' himself of victuals, you'll know that what critters he had in his barn didn't get fed very heavy. In times everything Bonsey owned in the way of animals got so thin you c'd scarcely see 'em edgeways.

"Bonsey had a hoss that he used to tote his truck to Bangor with—a pretty good hoss it was, too, in the beginnin'; but workin' all the time and eatin' 'bout the same as never, soon got him where he wa'n't much more'n jest the runnin' gear of a hoss.

"Bonsey was comin' back from Bangor one day, and had got jest about abreast of Wilder Blake's place, when all at once the hoss began to weave from one side of the road to the other, 'tsif he was dirxy, and down he went in Wilder's dooryard, flat on his side, with his eyes shut, and 'parently with no more life in him than there would be in a hemlock log!

"I was workin' for Wilder at the time, and we both come runnin' down where the hoss was; when we saw his eyes shut and how thin he was, we both made up our minds he was dead.

"'There,' Bonsey whimpered. 'There's two dollars one! A man offered me two dollars for the hoss's hide to-day, and he tol' me the critter wouldn't live to git me home, but I didn't b'lieve him. And now he's up and died on me, and it'll cost me more'n two dollars to move him off out of here, and I shan't come out a cent ahead.'

"While he was talkin', Wilder looked at Bonsey same's you would at a toad; fin'ly he up and spoke.

"'Rather'n have a good, honest hoss, even if he is dead, b'long to you a minute longer,' he says, 'I'll give you the two dollars and take care of him. That hoss has earnt a decent burial, with his skin on him, and I'm goin' to see that he gets it. Now you git off'n my premises till I get kind of cooled off toward you, or I won't undertake to say what may happen.'

"Bonsey grabbed the two dollars and started off up the road.

"Well,' Wilder says, after Bonsey left, 'I guess mebbe the hoss's as well off there as anywhere till after supper, and then you'n' I'll make some disposal of him.' So we left him layin' there in the shafts, with the harness on him, and went into the house.

"When we got through supper I started out a mite ahead of Wilder. When I got round the corner of the house, where I c'd see down into the front yard, I let out a hoot that fetched Wilder runnin'.

"Whether it was that the hoss'd got rested, or whether it was the smell of that sweet grass there in the yard that feched him to, I don't know, and never shall, but there he was on his feet and feedin'. After Wilder had looked at him a minute, he broke out gigglin'.

"'Jest for the notion of it, Caleb,' said he, 'a'posin' we don't tell Bonsey that he's sold me a live hoss for two dollars, 'stead of a dead one—jest let him think we hauled the hoss away 'fore he come back after his wagon. I got a kind of idea that I'd like to put that hoss down in my lower paster, where there won't anybody see him; and mebbe I'll feed him a little grain from time to time, and see what he looks like in a couple of months. What say?'

"'We took and led the hoss into the barn, and the next day Wilder led him down to the back paster, which was all shut in by trees, and turned him loose.

"'When I saw that hoss again, 'bout three weeks later, I almost wouldn't have known him. His head was up and his eye was bright, and he was kickin' round that paster like a colt. I asked Wilder what he was calc'latin' to do with him, but he jest shook his head and grinned a little.

"'You wait an' see,' he says. 'I got a plan, mebbe.'

"Well, meantime Bonsey'd been hurtin' for another hoss to take the place of the one that died, as he sposed. But hosses was high and Bonsey hated to pay out money wuss'n cuttin' off a finger, so he hadn't traded for one, and was hirin' folks to haul his stuff into Bangor for him, and grumblin' 'bout payin' for it.

"After it had run on that way for 'bout three months, Wilder hitched up the hoss one evenin' and drove down to the post office, where he knew he'd find Bonsey. Mebbe there was a dozen of us settin' out there, and Bonsey was among 'em. I see him eyein' the hoss kind of diabellevin' when Wilder halted him, and he half rix up and then settled back akain, 'alf he couldn't credit his eyes.

"'Quite a hoss you've got there, Wilder,' says Ben Gullison. 'Somethin' you've traded for lately?'

"'Well,' says Wilder, 'it's one I bought 'bout three months ago, and 'tween you and me, I think he's wuth all I give for him, anyway. Pretty good hoss for two dollars, I call him.'

"Bonsey come up on his feet with a jerk, and he fairly hollered, 'Wilder Blake! Is that my hoss you're drivin'?'

"'No, sir!' Wilder says. 'That ain't your hoss—that's a hoss I bought of you for two dollars, before a witness!'

"He didn't say any more jest then, but sat there lookin' pretty straight at Bonsey. Bonsey turned red at fust, and then white, but he never said a word.

"After a bit, Wilder says, slow and thoughtful, 'alf he was weighin' every word, 'Needham Bonsey, I'm goin' to do somethin' that mebbe you won't understand. I paid you two dollars for this hoss, and I've given him the run of my lower paster ever since, and fed him 'bout ten dollars' wuth of grain, and now I've got a hoss there that's wuth a hundred and twenty-five dollars of any man's money, and he stan's me, at the outside, not over twenty dollars. Now,' says he, 'I'll tell you what I'll do.

"'I'll sell you that hoss,' he says, 'for seventy-five dollars, and that's fifty dollars less'n you can buy one anywhere near as good. But you've got to sign an agreement to bring this hoss to me once a month—I'm a public weigher—and put him on my scales. If you ever bring him there and he weighs over fifty pounds less'n he does this minutes, he ceases to be your property and becomes my hoss again, without my payin' you a single cent! There's the conditions. What've you got to say?'

"'I s'pose some men would have had pride 'nough to refuse, but Bonsey was too fond of money for that. They made out the writtings and he took the hoss and went away with it.

"'And,' concluded Mr. Peaslee, 'you might not credit it, but from that time on I d'know's there was a better-kept hoss in this town than the one Needham Bonsey drove.'—Youth's Companion.

WAR COSTS RUN UP.

Nine Thousand Million Pounds Per Annum for Britain.

Nine thousand million pounds a year! In exact figures £9,147,900,000, more than 43 times as much as the total annual revenue of the United Kingdom. That is the total direct and indirect cost of the war, estimated up to July 31 next, says London Tid-Bits. Of that amount our share will be £1,258,000,000, which covers the direct expenditure of the Government, the capitalized value of the loss of human life and the loss of production.

It is pointed out however, by Edgar Crammond, a recognized authority on war finance, that the accumulated wealth and national income of Great Britain is on such a sound basis that these have only been slightly affected by the war. While Germany is utilising all her means, only the fringe of our resources in men, money, foodstuffs and raw material has been touched, in spite of this estimated vast expenditure to the end of July.

Our bill is less than that of France, Russia, Austria or Germany, the total loss to Belgium, which includes £250,000,000—the value of property destroyed—being £52,500,000. Germany suffers most in pocket, and by the end of July it will have expended £2,775,000,000. Germany's loss of production will amount to at least £625,000,000 in the first 12 months of the war, while she is spending £2,000,000 a day, or at the rate of £730,000,000 per annum, on the upkeep of her army in the field.

France's bill for the maintenance of her 3,000,000 men now available for active service and the 1,000,000 in the Reserve is very heavy. Mr. Crammond puts it at 7s. 6d per man per day—say £1,500,000 a day, while virtually the whole of the male population between 19 and 50 has been withdrawn from production, the total loss of production amounts to £625,000,000. The total cost to France up to July 31 next is estimated at £1,686,400,000 a year, £226,400,000 more than the total cost to Russia.

Rich in Love But Poor.

A poor young Irish couple went to the priest to be married, rich in love, but so poor in earthly goods that they did not even possess the few necessary silver pence for the wedding fee. The priest was relentless in his demands. "No money, no ceremony," he declared. "Let me go home, Reverend Father," begged the girl, "and I will get the money." She soon returned with the small amount required, when the knot was duly tied to the entire satisfaction of all concerned. "Could any one now oppose our union, Holy Father?" she inquired. "Nobody, my daughter." "Not even your own reverence?" she persisted. "Not even I, Catherine!" "God bless your reverence! Here is the pawn ticket for your hat and overcoat, which I took from the vestry to-day."

Too Bad.

Ralph was going into the third grade, having successfully passed the holiday examinations, and his parting with his beloved teacher was tearful.

"Oh, Miss Ruby!" he wailed. "I wish you knew enough to teach the third grade, so you come along an' teach me next year."

GERMAN SHIPS RUSTING IN NEW YORK HARBOR.

Five German ships, the pride of the Kaiser's merchant marine, photographed where they have lain rusting in the port of New York since the British cruisers closed the seas to German ships in August, 1914. It is estimated that over $5,000,000 in German ships, including the Vaderland, the world's largest and most luxurious ship, are indefinitely tied up in New York Harbor, costing hundreds of thousands in up-keep alone, while bringing absolutely no return to their owners. Every neutral harbor in North and South America has similar evidence.

INDIA COVETED JEWEL OF THE EAST

MEANS SUPREMACY IN EUROPE, SAID PETER THE GREAT.

Have the Germans Designs on the British Dominions In Asia?

"On to India!" The cry has been raised in Berlin. A highway of battle and conquest and imperial power from Berlin to Bagdad, and on through Mesopotamia to the head of the Persian Gulf, even to Britain's Asian treasure houses of wealth, seems too vast an undertaking, with foes on every side, foes behind and before; but the bigger the task and the more stupendous the effort the stronger seems the appeal to the war managers of Germany. Thirteen months ago the well-known General von Bernhardi named India as the certain goal of the Teuton armies. "We shall go to India," he said, "and the native peoples will welcome us."

But the Teutonic designs on India are older. They are at least as old as the "Berlin-to-Bagdad" project. The Bagdad railway is Germany's "Suez Canal," the symbol of her dreams for empire eastward, the connecting link from Berlin to the Persian Gulf—and beyond lies India, the pearl of the British Empire's crown. From the standpoint of war strategy, India, as Von Bernhardi said, is England's feet of clay.

France and England struggled for possession of India. Peter the Great of Russia dreamed of a far-stretching empire balanced between Europe and Asia, with Constantinople, the capital of the Caesars for 1,100 years, as the capital of Russia, and left to his successors the following injunction: "Keep in mind that the commerce of India is the commerce of the world, and that he who can exclusively control it is the dictator of Europe." This injunction has never been quite forgotten.

"Money Graveyard of the World."

The aim of each nation that has ever sought dominion in the great region known as India has been commercial and not colonial. As Admiral Mahan pointed out in "The Problem of Asia," India constitutes a highly important "base" of military and naval power as well as an area valuable in itself. As a source of wealth it is the richest "possession" on the face of the earth. It yields annual revenues of $600,000,000. The balance of trade is always in favor of India. As a reservoir of precious metal India is barbarically splendid. This fabulous accumulation of concrete wealth is an interesting theme.

From the latest commerce reports comes a vast amount of interesting information concerning the absorption of treasure by this great country. India is what two different writers have called respectively "the great sink of precious metals" and the "money graveyard of the world." For twenty-five centuries there has been a constant flow of gold and silver into India from the Western nations. It has been one of the unchanging economic conditions of the world, and one which rulers of different lands, depleted for it, have tried in vain to stop.

Complaints of India's appetite for gold began in the time of the Carthaginians, who in the fourth century B.C. disposed of gold they procured from Spain to that country. Pliny tells of unavailing protests made in the first year of the Christian era of exportations of the precious metal from the Roman Empire, nearly $15,000,000 of it being sent annually to India. Queen Elizabeth, in 1600 tried in vain to counteract the flow of gold from her country to India.

Small inroads into this enormous hoard of treasure have been made unwillingly in times of famine, but as long ago as 1864 a writer estimated that precious metals locked up in India, in trinkets alone, amounted to $2,000,000,000. Gold has been used through the centuries by India as other peoples have used gems and paintings and objects of art for the gorgeous ornamentation of public buildings and palaces. Gold is locked up in the treasure chambers of the princes, it is used as a basis of credit for merchants and traders, and the poor people, who have secreted it in nooks and crannies, as well as in the earth, have sometimes died of starvation rather than part with it.

One of the most important Maharajahs of India has cannon of solid gold that precede him when he goes about. He has chairs, tables and a bed, as well as water jugs, of silver and gold. It is said that London bullion dealers have exquisitely polished bars of gold to supply the wants of Indian princes. All classes in India are affected by this spirit of hoarding. They prefer to put their savings in gold to anything else. Coins are converted into necklaces, bracelets and anklets.

Fortunes in Jewels.

Immense fortunes in India are in jewels, but there is no authoritative method of computation of the extent of this form of wealth. The Imperial Gazetteer of India described fifty years ago a shawl of pearls, with an arabesque border of diamonds, rubies, sapphires and emeralds, valued at $6,000,000. There are tales of carpets of pearls and great diamonds which have become world-famous.

Estimates and statistics which show in detail how this vast amount of treasure has reached India are interesting. By the authentic records kept by the British Government since 1835 it is shown that $1,500,000,000 more of gold has gone into India than has come out. In less than a century $3,000,000,000 of the two precious metals has been absorbed, and these figures show only a continuation of a movement going on since the days of the Phœnicians.

The Prize of the World was sought from the earliest periods of history. The attempts of Holland, Portugal, and France, in the period just preceding the modern age, to secure the largest share of India's trade form an important chapter in the history of the world. The desire to find a short route thither by sea furnished much of the impetus given to exploration during the fifteenth century and led to the achievement of Vasco da Gama. The conquest of Constantinople by the Turks had laid a heavy obstacle in the path of the overland traders. Columbus sought the Orient and found the Western Hemisphere. In the seventeenth century the famous East India Company joined in the rivalry for the trade of India and opened the way for the extension of English influence and power over the whole country. Then came that remarkable experiment of government by

A Commercial Corporation.

and it was not until the middle of the nineteenth century that this control was finally and fully transferred to the British Crown and not till then that "welfare work" for the people of India began to make substantial progress.

India, probably, has never been well understood by Occidental peoples. British exploitation and philanthropy present a story mixed in reasons for praise and blame. Certain it is that in India may be found the most heterogeneous aggregate of peoples in the world. Mongols, Aryans, Persians, Greeks, Scythians, Huns, Arabs, Afghans, Turks and Moguls have passed into this vast region, founding kingdoms and empires, mixing in greater or less degree with their predecessors, and leaving some mark on language, customs and religions.

If India is still a mystery even to her rulers, it was only a name to the Greek and Roman world. Alexander's visit was brief. Greece was Greece and Rome was Rome, and beyond were the barbarians. East was East and West was West after the crusades. Marco Polo brought back a little information and traders of the Middle Ages returned to Europe with the goods of the Orient. British rule wrote new chapters of romance and cold facts of history. Kipling is not so much an interpreter of India, as of the British occupation.

Romance and History.

The period of British rule is but a small fraction of India's history. Eastward from the Iranian plateau the Aryans descended into the Punjab as early as 2000 B.C., and spread through the peninsula, expelling or subduing the aboriginal tribes. Here grew up long before the time of Christ two of the most influential religions of the world, Brahminism and Buddhism, and a literature rich in poetry and mystic philosophy. The epics of the Mahabharata and Ramayana contain legends of wars which must have been of much importance in the early history of the Volic Empire. In this India, at a later time, the celebrated Tamerlane flourished. It is the country of Sikh princes and the rajahs of Mysore; of astral bells and occult wonders; of the Taj Mahal and Benares, sacred city of the Hindus; of Delhi and the Durbar; of Clive and Hastings; of the Black Hole of Calcutta and the Relief of Lucknow; of famines and mutinies; of tyranny and enlightened government; of caste and Christian missions; of an ancient and now broken civilization, beside which our own, in the eyes of the true Hindu, is like outer darkness. And India has always had the fatal gift of beauty and wealth, and the strife of the nations of Europe for possession of "the pearl of the East" is not done.

A MARTYR VILLAGE.

Loos as it Was Under the Heel of Germany.

The Cure of Loos, Abbe Camsagne, who was released with 200 other French men and women when the village was taken by assault by the Scottish regiments in the offensive of September 25, has given a very interesting account of his experiences to the Petit Parisien.

The German occupation of Loos had lasted from October 9, 1914. "The first measure that marked it was the assassination of seven civilians, two of them old men of 80, one of 70, one of 40, and three between 32 and 35 years of age. The Germans tied one of our miners to a tree, where he remained throughout the night, and the next morning they made him dig graves for those who had been shot. We were then nearly 300 in number, mostly women and children. There were six or seven able-bodied men only, and the Germans employed them in taking all the pieces of copper goods from the mine works and packing them, to go to Germany.

"Despite my protests they forced me to act as mayor and to take the responsibility for any unfriendly acts. They then informed me that the village had been subjected to a war contribution of 7,000 francs. With great difficulty this amount was found, and paid on August 14 last. The then commanding officer, Major Backraus, showed me what purported to be a proper receipt, but did not leave it, and only gave me one in his own name. I am afraid the money went to pay for the banquets the major gave to officers who visited him, when a great deal of drinking went on.

"You may imagine how sad was our life during these long months. Food became more and more scarce. At the beginning of May we were on the point of dying from hunger. We had half a three-pound loaf for six days per person. I had secretly collected a little grain from the granaries, and this we ground in our coffee mills.

"On Saturday, May 8, began an unprecedented bombardment. Usually Loos received daily about 100 shells. I had some 50 of my parishioners in my house for mass, for the church had been demolished long before. The day seemed interminable. Many houses took fire, and the Germans had many killed and wounded.

"On the night of May 9-10 a French shell completely demolished the German headquarters in the village. A number of the French inhabitants were killed and wounded. The survivors had to bake their bread in their cellars."

SOME GLIMPSES BEHIND THE SCENES

HOLLAND'S DIFFICULT LOT IN THE WAR.

Book Relates, in Guarded Language, Some Narrow Escapes for Neutrality.

Ever since the outbreak of the war the little state over which Queen Wilhelmina rules has been on the edge of an abyss, says a despatch from The Hague.

Holland possesses territory and strategical positions which would be most useful both to the Teutons and the British. Scores of incidents have occurred which might have dragged Holland into the war. That the independent Dutchmen have avoided the many pitfalls and snares in their path is due largely to the skill of one man, Jonkheer Loudon, the Foreign Minister of the Netherlands.

Subject to pressure from Berlin on the one side and from London on the other, his every movement jealously watched by both, surrounded by an army of spies, what a story of intrigue and counter-intrigue he could tell if his lips were free!

Some glimpses behind the scenes carefully shrouded in official language, are afforded by the Orange book which the Dutch Government has just issued. It is significant that not a word is said of the events which preceded the outbreak of hostilities. The history of those critical days is still hidden in the archives.

There is a narrow strip of Dutch territory which thrusts its way southward between Germany and Belgium. It was round that strip of territory that the German hosts poured into Belgium in the early days of the war. The invaders moved right along the Dutch frontier. And something happened, or is alleged to have happened, in that narrow strip.

Did Germans Cross?

What that something was no pen is yet allowed to put on paper, for important personages were involved. Immediately afterwards an important diplomatic personage arrived post haste from Britain. There are many who believe to this day that the secret visitor was no less a person than Sir Edward Grey.

The time is not yet for the publication of the true story of those critical days. Suffice it to say that a rumor, happily ill-founded, arose to the effect that German troops had crossed Dutch territory. The French found a document on a captured German officer which appeared to prove the assertion. This is the first incident relating to the war with which the Dutch Orange book deals. The commander-in-chief of the Dutch army, General Snijders, instituted an inquiry. The result proved that German troops had not crossed Dutch territory. That was the first danger safely passed.

Submarine Problem.

German submarines were a prolific source of anxiety to the Dutch in the early days of the war on commerce. The Dutch are a practical people. They were the first to paint the names of their ships in large letters. Nevertheless, two Dutch ships were sunk and others were subject to aerial attacks. Jonkheer Loudon protested. He was polite but forceful. The Orange book describes the note addressed to Berlin on "an emphatic protest," and adds that the German Government was asked to state whether the series of attacks represented a change in policy. Hence it came about that the attacks, both from under the water and the air, ceased as suddenly as they began.

The Zeppelins.

The constant passage of Zeppelins over Holland on their way back from attacks on London is another subject dealt with in the Orange book. These famous aircraft never pass over Holland on their way to London. The reason is simple. As long as they do not pass over Dutch territory the Government subjects all telegrams reporting their movements to a delay of six hours. So far the Dutch have found no solution. Every fresh offence is met with a fresh protest from The Hague and a fresh expression of regret from Berlin.

Three Extension Dining Tables

No. 54—Made of selected Lard wood in surface oak finish. Extends to six feet. 3 well formed leaves to fit. Top diameter 44 inches. Price $9.98

No. 55—A solid, substantial, well constructed table. Made of selected hardwood in surface oak finish. Large pedestal on a platform with claw legs. Extends to six feet. Three well finished leaves with each table. Top 44 inches in diameter. Price $11.70

No. 58—Made of hardwood, in a rich golden finisher in surface oak. Extends to six feet, with top to accommodate leaves to fit. Size of top 42 inches square. Price, golden finish ..... $4.35 Price, surface oak finish $5.65

Freight paid for Ontario and Quebec, $15 and up. We defy competition. Our prices are the lowest in the Dominion of Canada. Write for catalogue to

THE AGONIES OF NEURALGIA

A Nerve Trouble, Always Due to Weak, Watery Blood.

Only those who have been attacked with neuralgia can form the faintest idea of what its victims suffer. A tingling of the tender skin, a sharp sudden stab from some angry nerve; then piercing paroxysms of pain—that is neuralgia. The cause of the trouble is disordered nerves, due to weak, watery blood. The cure is Dr. Williams' Pink Pills, which make new, rich, red blood, and thus sooth and strengthen the disordered nerves and cure neuralgia. Mr. Louis Martin, Mildmay, Ont., says:—"I am writing to let you know the great benefit Dr. Williams' Pink Pills have been to me. Two years ago I was a physical wreck. My nerves were all unstrung and I suffered tortures from neuralgia, in the head and throughout the nervous system generally. I was almost unfit for work, and only managed to get along with the greatest difficulty. I doctored for about five months, and in this time took over forty dollars worth of medicine without any benefit. More, I was actually growing worse, and finally had to take to my bed. My nerves got so bad that I could not turn over in bed without help, and the pain was something awful. As I am a farmer, you can easily see that necessary work was being neglected, so I sent for a brother who was in Alberta, to come and take charge of the work. When my brother arrived he at once urged me to try Dr. Williams' Pink Pills, telling me of some cures that had come under his observation. I got half a dozen boxes, and before they were all gone there was no doubt they were helping me. Altogether I used nine boxes of the Pills, and by that time I was a well man, and it is impossible to say how thankful I was for my release from pain."

You can get Dr. Williams' Pink Pills from any dealer in medicine or by mail, post paid, at 50 cents a box or six boxes for $2.50, from The Dr. Williams Medicine Co., Brockville, Ont.

REVIVING THE MONITOR.

Used Wherever Possible in the Present War.

The monitor, which played such an important part in the naval history of the American Civil War, has been revived by the British naval authorities. They have succeeded in producing vessels of that type that can carry the heaviest guns and that are virtually invulnerable to torpedoes. The monitors have been particularly serviceable in the shallow waters off that part of the coast of Belgium which is in the hands of the Germans, including the German submarine base at Zeebrugge. Monitors can be run in waters that are too shallow for the submarine. Two vessels of the monitor type, the Severn and the Mersey, were able to follow the Konigsberg up the Rufiji River on the east coast of Africa and, although she was much more heavily armed and a larger vessel than both of them put together, to destroy her. Monitors, too, have been used to support the French and British troops in the fighting on the Gallipoli Peninsula. Some of these shallow-draft, heavy-armed craft carry 14-inch guns in the central turret; others have on 9.2-inch gun in the bow and a 6-inch gun in the stern. The 14-inch guns fire projectiles weighing sixteen hundred pounds for a distance of fifteen miles. The vessels are slow—a quality that does not matter much, since they are virtually invulnerable.

NO "FRILLS"

Just a Statement About Food.

Sometimes a good, healthy commercial traveller suffers from poorly selected food and is lucky if he learns that Grape-Nuts food will put him right.

A travelling man writes: "About a year ago my stomach got in a bad way. I had a headache most of the time and suffered misery. For several months I ran down until I lost about 70 pounds in weight and finally had to give up a good position and go home. Any food that I might use seemed to nauseate me.

"My wife, hardly knowing what to do, one day brought home a package of Grape-Nuts food and coaxed me to try it. I told her it was no use, but finally, to humor her, I tried a little, and they just struck my taste. It was the first food that I had eaten in nearly a year that did not cause any suffering.

"Well, to make a long story short, I began to improve, and stuck to Grape-Nuts. I went up from 135 pounds in December to 164 pounds the following October.

"My brain is clear, blood all right and appetite too much for any man's pocketbook. In fact, I am thoroughly made over, and owe it all to Grape-Nuts. I talk so much about what Grape-Nuts will do that some of the men on the road nicknamed me 'Grape-Nuts,' but I stand to-day a healthy, rosy-cheeked man—a pretty good example of what the right kind of food will do.

"You can publish this if you want to. It is a true statement without any frills."

Name given by Canadian Postum Co., Windsor, Ont.

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

"LIGHT OF THE HAREM."

An English Woman Tells of Some Inside Secrets.

Most English woman have but a faint idea of life in the harem (or harem, to be correct). The most prevalent notion poor over-tired Mrs. Smith has of it is that, anyway, the women are not overworked, and that is true enough.

Recently it has been my privilege to have quite a long talk with an English woman who has spent several months as companion to the wife of a high personage in India. Many good-class Indians are educated at our Universities in these days. They form friendship with Englishmen, and become enamoured of many of our English ways of living, says a writer in London Answers.

They cannot understand the freedom allowed to our women, but are charmed with the result of such an upbringing, and when they return to their own land they try to introduce many things to relieve the monotony of life in the harem.

It seems almost incredible to an English girl that her little Indian sister never sees her husband until after the marriage ceremony. The parents choose the wife for the son of the house without consulting either party. Sometimes the bride is as young as fourteen. The child is gorgeously dressed, and placed on a dais behind a sheet; the women of the family being in attendance.

On the other side of the sheet is the bridegroom and many of his young men friends. The groom keeps throwing over jewels attached to flowers, which the women of the bride's side remove and place in her lap or on her person.

This first ceremony is called the Shahdee, and although a man is allowed four wives, no other ever holds the same position as the first chosen for him. The others are of little importance, living their lives more or less as servants to the first wife. As the first wife gets to middle age she is known as The Begum.

COST OF WAR TO FRANCE.

To End of Year, Expenses Will Be $6,204,800,000.

The appropriations committee of the French Chamber of Deputies, reporting upon the requirements of the Government for the first quarter of 1916, summarizes the cost of the war thus: The total expenses of the Government from Aug. 1, 1914, to Dec. 31, 1915, were $6,204,800,000, of which the purely military expenditures were $4,869,400,000. While the average expenses of the Government during the first five months of the war were $256,000,000, the estimates for the first quarter of the new year average $501,000,000 monthly.

A WONDERFUL MEDICINE FOR CHILDREN

Mr. Geo. Huffman, Willington, Ont., writes:—"I have used Baby's Own Tablets and can recommend them as a wonderful medicine for children. I am the mother of five and have used no other medicine for any of them." Thousands of other mothers say the same thing of the Tablets. That is why once a mother has used them for her little ones she would use nothing else. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

THE PSYCHOLOGY OF DEFEAT.

What General Foch, the Famous French Commander, Says.

In "Behind the Scenes at the Front" Mr. George Adam, Paris correspondent of the London Times, tells a good deal that is interesting about the opinions of General Foch, who for five years lectured on strategy and tactics at the Ecole de Guerre. There he used often to quote a saying of Joseph de Maistre, which summed up the psychological element in defeat: "A battle lost is a battle that you think is lost, for battles are not lost materially."

To that military summary of the doctrine of Christian Science, General Foch added this formula of victory: "Battles are, accordingly, lost morally, and it is, therefore, morally that battles are gained; and a battle won is a battle in which you refuse to admit yourself beaten."

That is the more convincing since it comes from a soldier with a scientific mind. Moreover, on at least one occasion, when he had been forced three times to retire, he put his faith into practice:

After each retirement General Foch refused to admit defeat. He and the men under him had the moral strength, in which science plays no part, to refuse to know when they were beaten. On the third day the retirement began early in the morning. In the course of the day General Foch once more took the offensive, and by nightfall he had delivered the decisive blow on the centre of the German army that led to its final precipitate retreat all along the line.

DISPOSED OF WAR'S DEAD.

Rapid Disintegration Urged by French Academy of Medicine.

The French Academy of Medicine recommends the employment of the urea serum for the rapid disintegration of bodies picked up on the battlefield.

The application of antiseptics at the time of burial is a mistake, says the report. Hygiene requires the rapid dissolution of flesh, which can be ensured by urea injections. In recent experiments the carcass of a horse weighing half a ton was reduced to a skeleton three weeks after an urea injection.

A RAPID RISE.

Private of Year Ago Commands a British Regiment.

The most rapidly promoted man in the British army is Lieutenant Colonel W. F. Austen, of the 17th Reserve Battalion of the Cheshire Regiment, who enlisted as a private in that regiment on August 20, 1914.

He enlisted as a stranger, with only some militia experience behind him, and rose rapidly through the non-commissioned ranks to a commission, and then from quartermaster to adjutant, company commander and battalion adjutant, with the result that at the end of 11 months he was commanding a regiment.

She Gives Them All the Credit

Says Dodd's Kidney Pills Made Her Well.

Miss Gertie Newman, After Two Years' Suffering, Tells How She Found a Complete Cure.

Boy's Cove, Notre Dame Bay, Nfld., Jan. 24th (Special). — "After two years of weakness and suffering I am again in perfect health and I give all the credit to Dodd's Kidney Pills."

That is the statement made by Miss Gertie M. Newman, an estimable young lady living here. She is so overjoyed at her recovery that she wants all suffering women to know how she found her cure.

"I had a cold to start with," Miss Newman continues, "and then things just seemed to go from bad to worse. My back ached, I had cramps in my muscles, and I suffered from headaches. My sleep was broken and unrefreshing, my eyes were puffed and swollen and I perspired freely with the least exertion. I was always irritable and in the mornings I had a bitter taste in my mouth.

"Reading of cures by Dodd's Kidney Pills I decided to give them a trial. I took a dozen boxes in all, and you can see how they helped me. I recommend Dodd's Kidney Pills to all suffering women."

Dodd's Kidney Pills are suffering woman's best friend.

29 WARS NOW WAGING.

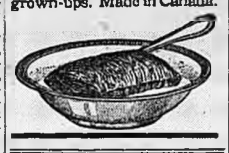
The Way Germany Looks at Huge World Conflict.

The present war really consists of 29 different wars, says the Cologne Zeitung. There are 14 nations or states fighting each other. On one side are Germany, Austria-Hungary, Turkey and Bulgaria, and on the other England, Russia, France, Belgium, Italy, Japan, Serbia, Montenegro, Monaco and San Marion. The latter must be accounted a part of Italy for war purposes.

Germany is at war with eight powers (Italy excepted)	8
Austria-Hungary with all of the allies	9
Bulgaria with Russia, England, France, Italy, Serbia and Montenegro	6
Turkey with the same powers as Bulgaria	6
Russia with Germany, Austria-Hungary, Bulgaria and Turkey	4
England with the central powers and their allies	4
France with the same powers	4
Belgium with Germany and Austria-Hungary	2
Italy with Austria-Hungary, Turkey and Bulgaria	
Japan with Germany and Austria-Hungary	
Monaco with the same powers	2
Serbia with Germany, Austria-Hungary, Bulgaria and Turkey .	4
Montenegro with the central powers, Turkey and Bulgaria	4
	58

As the wars are counted double in the above list the sum has to be divided by two to get the number of wars that are now being fought out all over the world.

Why Roman Meal is Best for Your Child



The intestinal muscles must have work to properly develop. The growing muscles and organs must have abundant nutrition. The teeth and bones, nerves, muscles, organs and blood must all have abundant inorganic salts. Roman Meal is filled with tranny waste which gives the intestinal muscles exercise, preventing constipation and indigestion. It has more inorganic salts than any other known food. It's the most nutritious food sold. Ask your doctor. Do not eat Roman Meal Pie-dge. At grocers, 10c and 25c.

Roman Meal is made by Roman Meal Co., Toronto, and your grocer can procure it from any wholesaler.

Mrs. Anderson—"I hope you can come next Thursday. We're having some music by my daughter before supper?" Mr. Jackson—"Oh, yes, I'll come. But—er—I may be late!"

Minard's Liniment Cures Colds, Etc.

Is Your House a Home—or is it a collection of brick walls, carpets, chairs and tapestries? Make it a home by serving for breakfast Shredded Wheat, the food of health and strength. Being ready-cooked it is so easy to prepare a delicious meal with Shredded Wheat in a few minutes. Contains all the goodness of the whole wheat—better than porridges for children or grown-ups. Made in Canada.

TO REDUCE FIRE LOSS.

More Attention Should Be Paid to Inspection.

"Locking the barn-door after the horse has been stolen," is a time-honored expression; but it applies with peculiar emphasis to many of our supposedly modern municipal governments. Especially is this true in the matter of the fire loss.

While enormous sums are spent annually in the equipment and upkeep of fire departments for the purpose of controlling and extinguishing fires, it is almost a novelty to find a municipality with a department charged with the inspection, and with authority to enforce the correction, of conditions favorable to fires. In some of our larger cities some progress has been made by the fire departments, which have set apart small details of their staffs, charged with inspection work. The result of their work is minimized, however, by the fact that the inspectors have not sufficient authority.

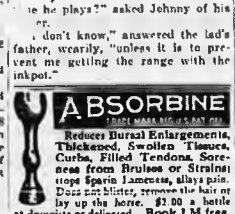
The fire chiefs have it in their power to advance the fire prevention campaign and secure results. If a fire chief's record depended upon his keeping down the number of fires, instead of his ability to handle fires after they have broken out, there would be greater effort at inspection. Fire chiefs should insist upon sufficient men for inspection work; these men should be held responsible for the inspection and correction of dangerous conditions, and, to make their work effective, the inspectors should be clothed with fire marshal authority, in order that any fire breaking out in their inspection districts might be thoroughly investigated and the cause definitely assigned. In this way an inspector's reputation for thoroughness would be at stake, and, with the knowledge that a fire would be investigated by one familiar with the conditions, there would be fewer fires of a suspicious character or due to carelessness.

Municipalities can well afford to make generous appropriations for fire-preventive inspection work. It is an investment which will yield large returns, not only in reduced fire loss but in reduction in the cost of upkeep of fire departments and equipment.

Sore Eyes Granulated Eyelids. Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Smarting, just Eye Comfort. At Your Druggist's 50c per Bottle. Murine Eye Salve in Tubes 25c. For Book of the Eye Free ask Druggists or Murine Eye Remedy Co., Chicago

A Moving Target.

A Highlander with bagpipes entered the street and commenced his plaintive lay, and at the same time marching up and down in time-honored fashion.



"Why does he move about all the time he plays?" asked Johnny of his father.

"I don't know," answered the lad's father, wearily, "unless it is to prevent me getting the range with the inkpot."

ABSORBINE (TRADE MARK REG. U.S. PAT. OFF.)

Reduces Bursal Enlargements, Thickened, Swollen Tissues, Curbs, Filled Tendons, Soreness from Bruises or Strains; stops Spavin Lameness, allays pain. Does not blister, remove the hair or lay up the horse. $2.00 a bottle at druggists or delivered. Book 1 M free. ABSORBINE, JR., for mankind—an antiseptic liniment for bruises, cuts, wounds, strains, painful, swollen veins or glands. It heals and soothes. $1.00 a bottle at druggists or postpaid. Will tell you more if you write. Made in the U. S. A. by W. F. YOUNG, P. D. F., 316 Lyman Bldg., Montreal, Can. (Formerly in Price 225 Temple Building, Toronto)

VALUABLE NATIONAL ASSET.

Canada's Balance on Fish Trade in 1914-15 About $17,000,000.

In view of the exceptional importance which at present attaches to a favorable balance of trade, the unique position of our fishing industry is worthy of note. No other branch of Canadian industry contributes to our exports so large a proportion of its total output as the fisheries. During 1914-1915, out of a production valued at $31,000,000 in round numbers, Canada exported fish products valued at more than $19,000,000, or nearly 63 per cent. of the total. As we imported about $2,000,000 worth of fish products, the net balance in our favor on this branch of trade is about $17,000,000. The fisheries must, therefore, be regarded as a valuable national asset. But it is scarcely open to question that the fishing industry would be in a much stronger position, and the prosperity of those engaged in it more solidly based, were it rendered less dependent upon foreign markets by the development of the domestic demand to absorb a large portion of its output.

TO SAVE EYES

Is the Object of This Free Prescription—Try It If Your Eyes Give You Trouble.

Thousands of people suffer from eye troubles because they do not know what to do. They know some good home remedy for every other minor ailment, but none for their eye troubles. They neglect their eyes because the trouble is not sufficient to drive them to an eye specialist, who would, anyway, charge them a big fee. As a last resort they go to an optician or to the five and ten-cent store, and oftentimes get glasses that they do not need, or which, after being used a few months, do their eyes more injury than good.

Here is a simple prescription that every one should use: 5 grains Bon-Opto, 2 ounces water. Use three or four times a day to bathe the eyes. This prescription and the simple Bon-Opto system keeps the eyes clean, sharpens the vision and quickly overcomes inflammation and irritation; weak, watery, overworked, tired eyes and other similar troubles are greatly benefited and oftentimes cured by its use. Many people state that users of glasses have discarded them after a few weeks' use.

It is good for the eyes, and contains no ingredient which would injure the most sensitive eyes of an infant or the aged. Try it, and know for sure what real eye comfort is. If your own druggist cannot fill this prescription, send $1 to the Vulcan Drug Co., Toronto, for a complete Bon-Opto Home Treatment outfit—tablets and all.

Fees.

"How much does that stylish doctor of yours charge?"

"Ten dollars a visit."

"Gee! How often has he called at your house this month?"

"Twenty times."

"Gosh. You owe him $200 then?"

"Nope, only $10. He's made the other nineteen calls trying to collect it."

Minard's Liniment Co., Limited.

Sirs,—I have used your MINARD'S LINIMENT for the past 25 years and whilst I have occasionally used other liniments I can safely say that I have never used any equal to yours.

If rubbed between the hands and inhaled frequently, it will never fail to cure cold in the head in 24 hours. It is also the Best for bruises, sprains, etc.

Yours truly,
J. G. LESLIE.

Dartmouth.

Steam Roller Cracks Eggs.

We have often heard of using a steam hammer to crack a nut, but who ever heard of using a steam roller to crack an egg? Millions of bad eggs intended for human consumption are seized every year in London, and the way they are destroyed is to tip them out of their cases and run a steam roller over them.

The Aeroplane Gunner.

Most of the aeroplanes used in the great war carry two persons, the pilot and the "gunner-observer," who sits forward and mans the land or handles the machine gun. When an aeroplane armed with a machine gun attacks a hostile aeroplane, the pilot at once manoeuvres the machine into position so that his companion can bring his gun into action. In firing, the gunner does not take deliberate aim, but swings the gun up and down and round so that a fan-shaped stream of bullets shall be sure to fill all the space through which the opposing aeroplane has to travel. When both aeroplanes are armed with machine guns, the most skillful pilot usually wins the fight, although luck often plays a part in the result.

Minard's Liniment Cures Diphtheria.

"Mr. Anderson," said the doctor, "I fear your wife's mind is gone!" "That doesn't surprise me," replied Mr. Anderson. "She has been giving me a piece of it every day for the last ten years."

Some small minds have great thoughts.

PAISLEY, FEB. 2nd, 1916

COUNTY COUNCIL

The opening session of the county council for 1916 was held in Walkerton, commencing on the 25th as per statute. All members were present except D B McDonald, of Tiverton, absent through bereavement in his family. Time and electors had dealt gently with the members since last year, with the result that there were but four changes among the members instead of the usual ten or twelve changes.

The election of a warden was at once proceeded with, the following being nominated: Dr Wilkinson, D Phelan, David Scott, G Kastner, A R McNab, E Kuntz, D J Izzard, M Filsinger, J E Grant, W H Brown and Jas Douglass, all of whom withdrew except Messrs McNab, Izzard and Douglass, and Mr McNab was elected warden. Mr McNab thanked the members for the honor done him and the town he represented, and outlined a number of important matters likely to engage the attention of the council this year, mentioning particularly patriotic matters, good roads and hydro-electric.

The standing committees were appointed as follows: Finance—Messrs Kastner, Brown, Grant, Anderson, Nesbitt, Doering, Forbes.

Road and Bridge—Messrs Case, Weir, Johnson, Izzard, Sinclair, Filsinger, Kuntz, Whicher and Wilkinson.

Equalization and Salaries—Messrs Douglass, D A McDonald, Whicher, Hunter, Craig, Dobson and Ferguson.

House of Refuge—Messrs Kuntz, Filsinger and the Warden.

Petitions and By-laws—Messrs Scott, Munn, Ballachey, Phelan and D A McDonald.

Education and Printing—Messrs Ballachey, Burns, Christie, Douglass, Doering, Munn and Rutledge.

Property—Messrs Nesbitt, Izzard, Phelan, Dobson and Burns.

Warden's—Messrs Brown, Ferguson and Forbes.

The usual grants were made, of $75 to each Agricultural Society, $150 to the Children's Aid Society, $500 to the four northern townships, $25 to the Sick Children's Hospital, $25 to each Farmers' and Women's Institutes. All newspapers were ordered for the House of Refuge, and usual library grants made.

Hugh McLaren and W J Taylor were appointed county auditors, A E McNab and Norman Robertson to the Board of Criminal Audit; H McLaren, Port Elgin, M E Boose, Chesley, F Sellery, Kincardine, H M Ley, Walkerton, and Wm Beckie, Wiarton, high school trustees. F M Hicks, Southampton, and H A Doupe, Lucknow, were appointed on Board of Examiners.

The only changes made in salaries of officials was an increase of $50 in the salaries of the keeper and matron of the House of Refuge.

A long communication was read from the Ontario Dept of Public Works, urging the county to adopt the good road system, and pointing out the benefits. Mr Anderson, of Lucknow, took up the question urging that some action be taken. He pointed out that this question had been before the council for some years but nothing had been done. Had the scheme been adopted the county would have received from the Government $[illegible]00 on account of the bridges alone that we have had to build, which the county had to pay for anyway. The Government has now increased the portion it pays to 40 per cent, and also pays 20 per cent of the cost of maintenance. Many other counties have entered into the scheme and all are well satisfied. The engineer of the Department in his letter points out that with the material Bruce has for roads the cost in this county would not be half what it is in some counties not so favored with good material. Messrs Kastner and Hunter also urged that action be taken at once. A committee of Messrs Case, Anderson and Hunter was appointed to look fully into the matter and report at June session.

Patriotic matters again loomed large, and the opinion seemed pretty general that while the county had done fairly well it had not done what it could or should. It was also pointed out that as it was, subscriptions were continually being asked for and those easily got at were called upon to bear a good deal more than their fair share, whereas others though they may be as willing to give were not asked on account of being more difficult to get at. It was felt that if the county made the grant everyone would then be asked to contribute his or her fair share and no more. It was decided to increase the county grant from $4,000 a month to $7,500 a month while the war lasts. This amount will be divided, $2,500 to the 160th Overseas Battalion of Bruce, $2,500 to the Red Cross, $1,600 to the Belgian Relief Fund and the balance to the Canadian Patriotic Fund. The money therefore will be raised by debenture as required, payment being spread over ten years, the council thinking its future might well bear a part.

Messrs Nesbitt and Weir asked the council to assume the bridge on the 6th con of Brant, claiming it is a county bridge. A committee was appointed to investigate and report.

The usual number of accounts were presented for payment, and repairs to bridge authorized.

It was decided to recommend that J H Armstrong be dismissed as a county constable.

The council was entertained by Mr J Rowland to lunch at the Soldiers' Tea Rooms, and by the ladies of the Presbyterian church at a banquet in the basement of the church where they met the 160th Batt and enjoyed a very pleasant hour. The council thoroughly believe that if the men of Walkerton and vicinity "deliver the goods" on their part to be delivered as efficiently, freely and smilingly as the ladies do their part, that section of the county, at any rate, will do their share. The council was much pleased with having the opportunity of meeting the regiment and are quite satisfied that the men in the regiment will fully uphold the honor of the county they represent. They are indebted to Knox church congregation for the opportunity of meeting with the regiment.

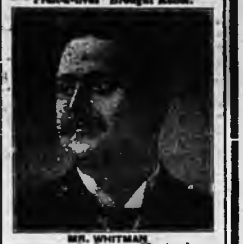
THE REEVE OF SAUGEEN TOWNSHIP

Mr Gilbert Christie, the newly elected reeve of Saugeen, had his council proceedings opened this year with a minister present and divine blessing invoked on the business of the new year. The proceeding is not new, although it is quite a new thing in this section. But Mr Christie has ideas, and not only in the introductory methods of his council, but the first session was prolific in good work, the rural problem being tackled in real earnest.

The subject of this little sketch was born of Scottish parents in the township of Keach, County of Ontario, in 1855, and is therefore in his 61st year, although he is still a man of splendid vigor. He came to Saugeen in 1857 and settled on the same farm where he still resides at the little corners, Aberdour. The rural mail is obliterating a lot of these old time places, and it is to be regretted. But at Aberdour the Christies have been prominent people for many years, from father to

son, and now that the present generation are taking hold with the farming operations, the name and farm will endure for many years.

Mr Christie's attention has largely been taken up with the feeding and breeding of Shorthorn cattle, and while through this district there are many of the foremost breeders of that kind of stock in Canada, the Christie farm is helping to keep up the high reputation. He believes that all products of the farm should go through the stables and back to the land.



In the life of the community Mr Christie has been of great service. He has been treasurer on the school board for 21 years. One of the chief things in his life is Sunday school work. For 35 years he has been connected with the Dunblane Presbyterian church, and in this little church he has found much enjoyment in the Sunday school, and it is one of the things which has given him great satisfaction.

In politics he is a Liberal, and in his lifetime has been in many offices of the rolling organizations.

Saugeen township has always had, and apparently will demand in the future, that a good type of man must be its reeve. At the present time there are living in the township such prominent and qualified men who have been reeve of this splendid township, the following: John Pierson, Malcolm Cook, Robert Smythe, Allan McKinnon, Alex McCannel. In the present reeve there is no doubt that the township will be well served, for Mr Gilbert Christie is a man of high character and ability, much respected and esteemed in the whole district.—Port Elgin Times.

HE STRUCK IT RIGHT AT LAST

After Suffering Almost Two Years, "Fruit-a-tives" Brought Relief.

MR. WHITMAN

1874 Esplanade Avenue, Montreal.

"In 1912, I was taken suddenly ill with *Acute Stomach Trouble* and dropped in the street. I was treated by several physicians for nearly two years. I was in constant misery from my stomach and my weight dropped down from 223 pounds to 180 pounds. Several of my friends advised me to try 'Fruit-a-tives' and I did so. That was eight months ago. *I began to improve almost with the first dose.* No other medicine I ever used acted so pleasantly and quickly as 'Fruit-a-tives', and by using it I recovered from the *distressing Stomach Trouble, and all pain and Constipation and misery were cured.* I completely recovered by the use of 'Fruit-a-tives' and now I weigh 208 pounds. I cannot praise 'Fruit-a-tives' enough".

H. WHITMAN.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

To Our Subscribers

$1.00 Rate will be Accepted Until March 31st.

We do not wish to spring the increased subscription rate upon any subscribers without giving ample time to pay up to the end of 1916 at the old rate of $1 per year. Therefore we have decided to defer enforcement of the new rate until March 31st.

During the next week we will have our mailing lists all corrected, so that every label will show date to which the subscription is paid up.

LOCAL AND DISTRICT NEWS

A Large Congregation

By a report in the Montreal Gazette we note that the First Presbyterian Church of that city, of which Rev. Malcolm A. Campbell is pastor, has now a membership of 760, their having been a considerable increase during the past year. There were 35 baptisms, 19 marriages and 30 deaths during 1916, while 92 of the young men enlisted for active service. The financial report showed that $11,000 had been raised, the givings to missionary and benevolent purposes being all reported as very satisfactory. The adult Bible class is the largest in the city, and an athletic association is doing good work among the boys and girls of the association. The pastor is quite a young man, well known to many of our readers, being a son of Mrs. Campbell, of Saugeen.

Rathwell—Brown

The home of Mr. and Mrs. T. W. Brown, of Hundas street, Paisley, was the scene of a quiet but pretty wedding on January 26th, when their eldest daughter, Sarah Ellen, was united in marriage to Mr Samuel James Rathwell, of Herbert, Saskatchewan. The bride entered the the room on the arm of her father to the accompaniment of the wedding march played by Miss Mary Buchanan. The bride was very daintily attired in a dress of white silk eolien trimmed with spotted Brussels net, and carried a boquet of white carnations. Miss Grace Brown attended her sister, wearing a dress of white embroidered voile. The groom was assisted by Private Bernard Brown, brother of the bride. The ceremony was performed by Rev. E. W. Diehl, of the Church of the Ascension. About thirty-five guests were present. The presents were numerous and costly, showing the esteem in which the young couple are held.

Liquor Case

John Armstrong was the defendant in a couple of prosecutions before Magistrates Gibson and Ballachey on Friday. One charge was that of selling liquor and the other for attempting to induce witnesses to give false evidence. It appears from the evidence that Armstrong had deliberately sought by treacherous hospitality to load up and lay out a man who is trying hard to avoid and resist the temptation of liquor and lead a sober life. Armstrong carried with him a pocket supply of whiskey, after repeatedly offering to his companion, finally broke through the latter's resolution and got him drinking, but not to the laying out stage, as designed. The job was not a satisfactory one from Armstrong's satanic point of view, but he gets his reward in the form of a heap of trouble, all of which he surely and richly deserves. As the magistrates reserved decision for a few days, it is not certain yet whether the charges will [illegible] satisfactory punishment to the defendant.

BALLACHEY, LAIDLAW & CO.
"The Store with the Stock"

Apron Week!

We have just received 300 Aprons, made in many patterns, of a good washing print. These are regular "overalls," big enough and roomy enough to protect a dress from neck to hem, and they even have short sleeves with a turn-back cuff. These are easily washed and ironed, and are worth twice their price in protecting good clothes from dirt. Special price ..... 48c Each

Also 5 dozen plain, every-day Kitchen Aprons. These are cut good and full and have one pocket, but no bib. Many patterns of print to choose from. Our special price..... 25c Each

WARDEN McNAB

The newly elected Warden of Bruce county is a member of the legal fraternity in Walkerton and reeve of that municipality. In the early days of his professional career Mr. McNab hung out his shingle in Paisley, but it was only a few months later an opening was offered him in the county town, which he accepted, and has since not only developed in his professional capacity, but also as a municipal man, as well as becoming a heavyweight physically. He is big and broad, brainy and capable, and altogether one upon whose brow the honor now bestowed will rest with becoming grace and dignity.

PAISLEY FAIR DIRECTORS

Following are the officers elected for 1916 at the annual meeting of the Paisley Agricultural Society: Hon Pres, R H Grant; Pres, D McHeath; 1st Vice-Pres, J F Richardson; 2nd Vice-Pres, J M Hopper; Sec'y-Treas, W R Barnett; directors—W Pearce, A Galbraith, Geo McKay, J B McBride, W T Stewart, John McDermid, jr, Jas Lewis, R Fullerton, Jas McFadden, John Brown, A L McKinnon, Geo Grant, Wm Grant, W T Hopper, A Jack, S Ballachey, W Megraw, F N Collins, W Archer, A Brown, C Fraser, D Darroch, jr; honorary directors — John McDermid, sr, Wm Budgeon, George Thomson, Wm Lamb; delegate to meeting of Ontario Association of Fairs and Exhibitions, D McHeath.

The financial statement submitted shows the Paisley Society to be in a flourishing condition, and the large attendance at the annual meeting displays a deeper and more general interest in the interests of the society, all of which augurs well for the fall exhibition of this year.

It should not be forgotten that one item of 1915 disbursements was that of $75 for Red Cross and Patriotic Funds.

AUCTIONEERS

R. C. PEARCE, Licensed Auctioneer. Sales attended to in all parts of the County of Bruce. Satisfaction guaranteed. Orders left at the ADVOCATE Office will receive prompt attention. Telephone at house.

R. J. NESBITT, Licensed Auctioneer for the County of Bruce, is prepared to conduct sales in any part of the county. Terms reasonable. Leave order at ADVOCATE office or address Dromore P.O.

PURDY'S LIVERY

Rates Reasonable, and every effort made to satisfy

Influenza

"No one who has not had Influenza can realize the suffering it causes or how it defies treatment. I know of nothing that will give such prompt relief as Chamberlain's Cough Remedy, for when it is taken the pain in the chest disappears, the fever subsides and the whole body becomes more comfortable.

Then again, the after effects of Influenza are often even more distressing than the disease itself, but they can be avoided if you use

Chamberlain's Cough Remedy

Though the greatest danger from this disease is Pneumonia, I have never known a single case of Influenza to result in it when Chamberlain's Cough Remedy was freely given. The persistent cough that frequently follows Influenza can be relieved by Chamberlain's Cough Remedy, and should not be allowed to run on until it becomes troublesome."

Yours for Health. —Granny Chamberlain

RUSSIANS MAY JOIN HANDS WITH BRITISH

Victorious Slave Trying to Make Junction With British in Mesopotamia—French Have Reverse

The Russian Caucasian operation is widening, flanks, to the westward, southwestward and southward with the possibility of a juncture being formed with the British Mesopotamia expedition. The Russian advance is pushing west of Melazgherd, where the important town of Khnyrzuhala, 56 miles south of Erzerum, has been captured. At the same time, progress is reported in the direction of Van and likewise toward Urumiah, where it is officially announced that the Turks have been repulsed with heavy losses. Further southeast, in the region of Kandahanski Pass, southwest of Hamadan, another Russian victory is reported. Although a broken mountainous country intervenes, the latter positions are still far removed from the head of the British coleman in the vicinity of Kut-el-Amara. It is pointed out that the Turks evidently fear a junction, this being indicated by the retreat towards Musk of a large part of their army that was recently reported to have been reunited, the evident purpose of the move being to cover Bitlis and Diarbekir.

German Gain in France

The German offensive on the western front, coincident with the Kaiser's birthday, which began with the attack on the allied positions at Nieuport and continued with an attack in the region of Neuville-St. Vaast, attained success Friday in attacks at three points in Artois. The offensive was the most powerful drive which has been made by the Germans in this theatre within a year. Its most important accomplishments were, according to the German official report, taking of 1,859 feet of trenches in the Napoli farm sector, and, most important of all, the capture of the village of Frise, with 4,000 yards of French trenches. The prisoners made comprised 1,247 officers and men at the Napoli farm.

Air Gain in Balkans

An Athens despatch says: "Allied aviators flew over the camp of the German and bulgarian troops at Zanarli, northwest of Lake Doiran, dropping bombs and doing considerable damage, according to reports here. Many soldiers were killed. The enemy troops were thrown into a panic. The aviators returned safely to their lines."

Prisoners Confirm Austrian Losses

The official statement issued by Rome reads: "On the middle Isonzo one of our batteries bombarded the railway station at Santa Lucia, in the Tolmino sector. Enemy hostile artillery fired a few shells on the Village of San Martino di Quisca'e, causing some casualties among the inhabitants. Prisoners confirm that heavy losses were suffered by the Austrians, particularly by the 27th Landwehr Regiment, during the recent fighting on the heights west of Gorizia."

England Asks For More Canadians

Britain has asked for the despatch across the Atlantic of 20,000 additional Canadian fighting men. Nearly twice the number are ready, and within the next two or three months twenty more Canadian battalions will encamp in England to wait the summons to the front. Major-General Sir Sam Hughes, Minister of Militia, said that while the plans for the transportation of the troops cannot, of course be made public, it is understood that the Admiralty has made arrangements which will mean as little delay as possible.

OUR GALLANT MEN

Eye-witness Reports Heroic Deeds From the Canadian Front

Major-Gen. Sir Sam Hughes has received the following communique from the Canadian general headquarters in France: "Canadian General Headquarters in France, via London, Jan. 20—During the week Jan. 13-26, the general situation on the Canadian front has undergone no material change. The superiority of our artillery has been well maintained. No combats between aeroplanes have been recorded over our lines. Several times hostile machines, acting in conjunction with the German artillery, have been beaten back by our anti-aircraft and machine guns. On the afternoon of Jan. 24 a Zeppelin crossed the Canadian area. On Jan. 24 Lance Corp. Mintle, of the 27th City of Winnipeg battalion, by accurate shooting accounted for two Germans out of a party of five. On the night of Jan. 23-24 Scouts Bole, Gunn and Mackie, of our 8th Winnipeg battalion, while near the enemy wire, observed two parties of Germans moving in the opposite direction. Crawling forward our scouts opened fire with revolvers on the enemy party of five, killing one German and forcing the hostile patrol to retire. On the night of Jan. 24-25 a patrol of our 19th Western Ontario Battalion, under Lieutenants Hooper and Burnham, cut a path through the German wire up to the enemy parapet. The Distinguished Conduct Medal has recently been awarded to Private Harris, of the 29th City of Vancouver battalion, for an exceptionally courageous act. Private Harris was attending the Grenade school in December and while throwing a live bomb slipped and fell. The bomb rolled into a trench in which a number of men were standing. All except one were able to gain cover. Harris, who saw that this man was unable to move, flung himself on top of the bombs. Almost immediately the bomb exploded. Harris was very seriously injured. Another deed of exceptional gallantry has recently been reported. On January 11 a large mortar shell was thrown into a trench of our thirty-first Alberta Battalion [illegible] where Private A. H. Jackson and a party of men were at work. At first there was little chance for any of the party. Private Jackson threw himself on the bomb and at the [illegible] bulog blown to pieces, seized the [illegible] arming base fuse and wrenched it [illegible]

CITY OF PARIS BOMBED BY ZEPPELIN RAIDERS

French Capital Suffers Heavy Loss of Life by German Murderers—Raid Lasts 90 Seconds

A Zeppelin dirigible passed swiftly over a section of Paris Saturday night, dropping about a dozen great bombs. The raid lasted about one minute and a half. The fog seriously interfered with the work of the Paris aerial guard. The fact that only one German machine appeared, leads to the belief that the Zeppelin was making a reconnoitring trip, and the supposition is that the Germans have in view a similar operation on a larger scale. Fifty-two persons were killed or wounded in the raid, according to the more complete reports available Monday. Nine women were killed and 14 wounded; 10 men were killed and 15 wounded. Included among the killed was a baby of 18 months. Two children were injured. Ten houses were damaged by the raiders. Three houses were the scenes of eight killed and injured each. In another house seven persons were killed or injured. One of the houses in which the most serious damage was done was a home in which the family had met to celebrate the return of a son, a Zouave, on leave of absence from the front. Warnings of the presence of a Zeppelin were hastily given and the lights of Paris were dimmed. At the hour of the raid the theatres and cafes were open, and householders had hardly yet retired. Almost immediately all the aeroplanes guarding Paris were made ready, and about 18 of them took the air. One of these machines fired 28 shots from a quick-firer at the invading craft, which, pursued by several of the little machines, sped at top speed westward. Apparently the bombs carried by the Zeppelin were let loose indiscriminately and without thought of where they should strike.

Searchlights Useless

One of the pursuing aviators said that the searchlights were useless in the fog, he himself being hardly able to see more than 24 feet above with the aid of his light. The Paris newspapers demand that measures of retaliation be taken immediately. Thirty French aeroplanes searched the remote air regions above Paris for the raider. By the time it had reached the edge of one of the old quarters of the city several of the airmen were able to make out its pale yellow shape 14,000 feet from the earth. Frightened, doubtless, by the numerous war planes rising toward it, the Zeppelin wheeled and drove at full speed northward, dropping in its trail into the darkness a cargo of about 3½ tons of bombs. Then, continuing its flight, at a great altitude, the airship vanished.

Gay City Warned

Parisians had been warned half an hour before by fire engines rushing through the streets, trumpeting the call known as "Stand to arms" of the presence of the raider. The electric street lights went out, and policemen cautioned careless householders to close their shutters and darken their windows immediately. It was still early in the night, close to ten o'clock, and many persons were in the streets, the cafes were open and the moving picture theatres and playhouses still entertaining their audiences. Then in all parts of the city could be heard the whirr of numerous aeroplane propellers, while everywhere people went upon the balconies to watch for Zeppelins. Few Parisians appeared to believe that the raiders were likely to come, as they had been turned back many times previously. But suddenly in one of the northeastern parts of Paris there was a great flare in the sky as the Zeppelin dropped an illuminant so that it might be seen by those on the airship whether they were over the city. Then a bomb fell into a street, crushing through into the subway and tearing a hole 15 feet in diameter. Quickly a series of other detonations occurred, sounding dully throughout the city.

British Steamer Missing

Mystery Attached to Wreckabouts of Large Vessel—Feared Lost

Since the disappearance of the Waratah in 1909 nothing has so mystified shipping circles as the vanishing of the Appam, the crack boat of the Elder-Dempster Line, which left Dakar, on the African coast, for Plymouth, on Jan. 11, with 200 passengers and 124 in the crew. Wireless communication abruptly ceased when the steamer was about four days out. The recovery of a smashed lifeboat of the Appam has increased the fears of the loss of the steamer with all on board. The Appam, called at all ports on the West coast of Africa, picking up officials coming home on furlough, and these formed a considerable portion of her passenger list. She also carried a valuable cargo and some German prisoners. The captain of the steamer Tregantic, which is at Hull, says that the lifeboat which he passed was capable of holding 40 persons. When it was examined it showed no signs of having been occupied and had no oars aboard. "I searched around for wreckage," the captain adds, "but could find no trace of any. Had any vessel picked up passengers they should have been landed before now."

America's Pride Falls Flat

The Daily Express Geneva correspondent quotes the Frankfurter Zeitung to the effect that Germany's final answer to the Lusitania case has been submitted to Washington, and that "the action of the submarine commander is not disapproved and Germany will make no further concession."

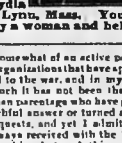
Russian Leader Dead

Reuter's Petrograd correspondent reports the death of Count Von Verontzoff-Dashkoff, formerly viceroy of the Caucasus, at his castle at Alupka, in the Crimea. Count Von Verontzoff-Dashkoff was born in 1837. He was appointed viceroy of the Caucasus in 1905 and ruled there until last September, when he was succeeded by Grand Duke Nicholas.

Health for Sick Women

For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine —Here is More Proof.

To women who are suffering from some form of woman's special ills, and have a constant fear of breaking down, the three following letters ought to bring hope:—



North Crandon, Wis.—"When I was 16 years old I got married and at 18 years I gave birth to twins and it left me with very poor health. I could not walk across the floor without having to sit down to rest and it was hard for me to keep about and do my work. I went to a doctor and he told me I had a displacement and ulcers, and would have to have an operation. This frightened me so much that I did not know what to do. Having heard of Lydia E. Pinkham's Vegetable Compound I thought I would give it a trial and it made me as well as ever. I cannot say enough in favor of the Pinkham remedies."—Mrs. Mayme Asbach, North Crandon, Wis.

Testimony from Oklahoma.

Lawton, Okla.—"When I began to take Lydia E. Pinkham's Vegetable Compound I seemed to be good for nothing. I tired easily and had headaches much of the time and was irregular. I took it again before my little child was born and it did me a wonderful amount of good at that time. I never fail to recommend Lydia E. Pinkham's Vegetable Compound to ailing women because it has done so much for me."—Mrs. A. L. McCasland, 509 Have St., Lawton, Okla.

From a Grateful Massachusetts Woman.

Roxbury, Mass.—"I was suffering from inflammation and was examined by a physician who found that my trouble was caused by a displacement. My symptoms were bearing down pains, backache, and sluggish liver. I tried several kinds of medicine; then I was asked to try Lydia E. Pinkham's Vegetable Compound. It has cured me and I am pleased to be in my usual good health by using it and highly recommend it."—Mrs. B. M. Osgood, 1 Haynes Park, Roxbury, Mass.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

That Box Social Chairman's Address

Mr Roscoe Teeple, of Greenock, in reply to newspaper reports, vindicates his position as follows in a letter to the press:

Dear Mr. Editor

I have just been handed by a friend a copy of the Kincardine Review of the 11th inst, in which there is a report of a recruiting meeting held in Tiverton on Tuesday, the 11th. In that report the charge is made by Mr A P McWhinney and Lieut McKay that they made recruiting speeches at a box social in Bruce township and upon which the chairman threw cold water. Will you please allow me through your paper to correct these accusations. In the first place Mr McWhinney made no speech whatever, so that disposes of the charge that I threw cold water on that speech.

Mr McKay delivered a recruiting speech to which I took no exceptions, neither do I now. At the conclusion of Mr McKay's speech I, as chairman of the meeting, asked a few words along the line of recruiting, also about our soldiers and also as to the position of Great Britain at this time. Let me give you a few of my expressions upon that occasion. My first remark was I was sure the audience were all pleased with the remarks of Mr McKay. I hope Mr McKay will not go away under the impression that the young men here are not loyal subjects because no one has held up his hand as being willing to enlist. Many young men have gone from Bruce county, of whom some are now home, others are in hospitals, many in the trenches, while others are preparing to go forward, having allied themselves with the various battalions throughout the province. I hope he will not forget that this is an agricultural community, whose numbers have already been depleted to such an extent that many farmers find it very difficult to carry on their farm work whilst others have been compelled to give up farming altogether, and these conditions have not been brought about by enlistment either. I have just returned from Galt, Hamilton, St Catherines, Niagara Falls and Toronto, in each of the foregoing cities I met many of our volunteers, in fact hundreds of them, and only one did I hear say one unbecoming word. It is in my opinion an insult to our soldiers that when they have shouldered their rifles and gone out to meet the enemy, there should be hurled after them such expressions as we too often hear, that they must be surrounded with certain restrictions, inferring therefrom that they were not citizens capable of maintaining their respectable manhood. With such expressions I have no sympathy. We frequently hear on the streets that Germany has bit off more than she can chew (she has been chewing it mighty good so far, too good (Mr Editor) to suit me. I am charged by those gentlemen as having said that Bruce had done her bit when she produced farm products. I made no such statement or statements from which such inference could possibly be drawn. I said I was proud of what Bruce had been doing when the cry went out for Patriotism and Production. Bruce had responded nobly, not as individual under the sound of my voice within this building and resident in this community but had responded nobly to every call that had been made, whether for farm products or any other helpful organization that was sprung in connection with the war, and Bruce would ever be found doing her part, and I wish the 160th Battalion every success. I ask you, Mr Reader, do you think those utterances pro-German?

Just a few words in conclusion. It has fallen to my lot to have been selected by the people in the community in which I live to take some what of an active part in some of the organizations that have sprung up incidental to the war, and in my canvassing for such it has not been the persons of German parentage who have given me a reprouchful answer or turned a deaf ear to my requests, and yet I admit that I was not always received with the kindliest of sympathies, but such things has always existed, and no doubt will to the end of time. At that box social in Bruce township a handsome sum for that noble order, the Red Cross, and as one of those who attended it I am glad to say it was a success.

Trusting that too much space has not been taken in your paper

Roscoe Teeple

THE BRUCE BATTALION

The Kaiser looked down and said with a frown:
"Is the Bruce Battalion coming, I wonder?"
The Crown Prince said, "Yes!"
The Kaiser replied, "I guess this war is settled, by thunder!"

"I have heard of Bruce County and heard of its boys,
They are loyal, spirited, splendid,
And if they come here, we have reason to fear
That this great war will be ended."

"I fear not the submarines, torpedoes or 'planes,
Nor the men of all other battalions,
But the Bruce County boys are no Crow's Prince's toys,
And my Kingdom is sure to go under."

So he'll saddle his horse, as a matter of course,
And make for his home without plunder
And shout as he goes, "The worst of my foes
Have come as Bruce County Battalion!"

"So I'm conquered, it seems, in spite of my dreams
(To be monarch of Europe, my boast),
By this well equipped host who will stick to their post,
The brave boys of Bruce County Battalion."

So here's to the heroes who fought under Weir
And made them a name that is glorious
When we think of their fame we should shout and exclaim—
"The brave boys of Bruce County Battalion!"

Written by E. M. S., Welkerton.

Allies Defy Washington

Great Britain and her allies have rejected the proposals of the United States for an agreement to disarm merchantmen, contingent upon promises of the Central powers to give up illegal submarine warfare. President Wilson will give serious consideration to the question of adopting a new policy with reference to the admission of armed merchantmen to American ports. The rejection of the offices of the United States in the submarine question is the second rebuff received by them to the last few days.

Britain Recommending Thrift

The Parliamentary Committee which has been considering the best method to encourage small investors to participate in war loans, will shortly make a report recommending the formation of numerous local thrift associations and urge that postal savings banks be authorised to accept deposits at five per cent. compound interest when the depositor agrees to allow the sum to remain on deposit undisturbed for five years.

THE Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER IV.—(Cont'd).

Saxon's enthusiasm had been growing that morning since the automobile had left the city behind and pointed its course toward the line of knobs. The twenty-mile run had been a panorama sparkling with the life of color, tempered with tones of richness and soft with haunting splendor. Forest trees, ancient as Druids, were playing at being young in the almost shrill greens of their leafage. There were youth and opulence in the way they filtered the sun through their gnarled branches with a splattering and splashing of golden light. Blossoming dogwood spread clusters of white amid endless shades and conditions of green, and, when the view was not focussed into the thickness of woodland interiors, it offered leagues of yellow fields and tender meadows stretching off to sobered woods in the distance. Back of all that were the hills, going up from the joyous sparkle of the middle distance to veiled purple where they met the bluest of skies. Saxon's fingers had been tangling for a brush to hold and his lids had been unconsciously dropping, that his eyes might appraise the colors in simplified tones and values.

At last, they had ensconced themselves, and a little later Saxon emerged from the cabin disreputably clad in a flannel shirt and briar-torn, paint-spotted trousers. In his teeth, he clamped a battered briar pipe, and in his hand he carried an equally battered sketch-easel and paint-box.

Steele, smoking a cigar in a hammock, looked up from an art journal at the sound of a footstep on the boards.

"Did you see this?" he inquired, holding out the magazine. "It would appear that your eccentric demi-god is painting Southern Spain. He continues to remain the recluse, avoiding the public gaze. His genius seems to be of the shrinking type. Here's his latest sensation as it looks to the camera."

Saxon took the half-tone, and studied the half-tone reproduction.

"His miracle is his color," announced the first disciple, briefly. "The black and white gives no idea. As to his personality, it seems to be that of the poseur—almost of the snob. His very penchant for frequent wanderings incognito and revealing himself only through his work is in itself a bid for publicity. He segregates to himself the attributes of travelling royalty. For my master as the man, I have small patience. It's the same affectation that causes him to sign nothing. The arrogant confidence that no one can counterfeit his stroke, that signature is superfluous."

Steele laughed.

"Why not show him that some one can do it?" he suggested. "Why not send over an unsigned canvas as a Marston, and drag him out of his hiding place to assert himself and denounce the imposter?"

"Let him have his vanities," Saxon said, almost contemptuously. "So long as the world has his art, what does it matter?" He turned and stepped from the low porch, whistling as he went.

The stranger strolled along with a free stride and confident bearing, tempted by each vista, yet always lured on by other vistas beyond.

At last, he halted near a cluster of huge boulders. Below him, the creek reflected in rippled counterpart the shimmer of overhanging greenery. Out of a tangle of undergrowth beyond reared two slender poplars. The middle distance was bright with young barley, and in the background stretched the hills in misty purple.

There, he set up his easel, and, while his eyes wandered, his fingers were selecting the color tubes with the deft accuracy of the pianist's touch on the keys.

For a time, he saw only the thing he was to paint; then, there rose before his eyes the face of a girl, and beyond it the sinister visage of the South American. His brow darkened. Always, there had lurked in the background of his thoughts a spectre, some Nemesis who might at any moment come forward, bearing black reminders—possible accusations. At last, it seemed the spectre had come out of the shadow, and taken the centre of the stage, and in the spotlight he wore the features of Senor Ribero. He had intended questioning Ribero, but had hesitated. The thing had been sudden, and it is humiliating to go to a man one has never met before to learn something of one's self, when that man has assumed an attitude almost brutally hostile from the outset. The method must first be considered, and, when early that morning he had inquired about the diplomat, it had been to learn that a night train had taken the man to his legation in Washington. He must give the problem in its new guise reflection, and, meanwhile, he must live in the shadow of its possible tragedy.

There was no element of the coward's procrastination in Saxon's thoughts. Even his own speculation as to what the other man might have been, had never suggested the possibility that he was a craven.

He held up his hand, and studied the scar. The bared forearm, under the unrolled sleeve, was as brown and steady as a sculptor's work in bronze.

Suddenly, he heard a laugh at his back, a tuneful laugh like a trill struck from a xylophone, and came to his feet with a realization of a blue gingham dress, a girlish figure, a sunbonnet and a huge cluster of dogwood blossoms. The sunbonnet and dogwood branches seemed conspiring to hide all the face except the violet eyes that looked out from them. Near by stood a fox terrier, silently and alertly regarding him, its head cocked jauntily to the side.

But, even before she had lowered the dogwood blossoms enough to reveal her face, the lancelike uprightness of her carriage brought recognition and astonishment.

"Do you mind my staring at you?" she demanded, innocently. "Isn't turn-about fair play?"

"But, Miss Filson," he stammered, "I—I thought you lived in town!"

"Then, George didn't tell you that we were to be the closest sort of neighbors!" The merriment of her laugh was spontaneous. She did not confide to Saxon just why Steele's silence struck her as highly humorous. She knew, however, that the place had originally recommended itself to it-guardianship by reason of just that circumstance—its proximity.

The man took a hasty step forward, and spoke with the brusqueness of a cross-examiner.

"No. Why didn't he tell me? He should have told me! He—" He halted abruptly, conscious that his manner was one of resentment for being led, unwarned, into displeasing surroundings, which was not at all what he meant. Then, as the radiant smile on the girl's face—the smile such as a very little girl might have worn in the delight of perpetrating an innocent surprise—suddenly faded into a pained wonderment, he realized the depth of his crudeness. Of course, she could not know that he had come there to run away, to seek asylum. She could not guess, that, in the isolation of such a life as his ancestors had trailed, associates like herself were the most hazardous; that, because she seemed to him altogether wonderful, he distrusted his power to quarantine his heart against her artless magnetism. As he stood abashed at his own crassness, he wanted to tell her that he developed these crude strains only when he was thrown into touch with so fine grained a nature as her own; that it was the very sense of his own pariah-like circumstance. Then, before she had time to speak, came a swift artistic leaping at his heart. He should have known that she would be here! It was her rightful environment! She belonged as inherently under blossoming dogwood branches as the stars belong beyond the taint of earth-smoke. She was a dryad, and these were her woods. After all, how could it matter? He had run away bravely. Now, she was here also, and the burden of responsibility might rest on the woodsprites or the gods or his horoscope, or wherever it belonged. As for himself, he would enjoy the present. The future may walk destiny. Of course, friendship is safe as long as love is barred, and of course it would be only friendship! Does the sun shine anywhere on trellised vines with a more golden light than where the slopes of Vesuvius bask just below the smoking sands? He, too, would enjoy the radiance, and risk the crater.

She stood, nut angry, but a trifle bewildered, a trifle proud in her attitude of uplifted chin. In all her little autocratic world, her gracious friendliness had never before met anything so like rebuff.

Then, having resolved, the man felt an almost boyish reaction to light-hearted gayety. It was much the same gay abandonment that comes to a man who, having freed ruin until his heart and brain are sick, suddenly decides to squander in extravagant and riotous pleasure the few dollars left in his pocket.

"Of course, George should have told me," he declared. "Why, Miss Filson, I come from the world where things are commonplace, and here it all seems a sequence of wonders: this glorious country, the miracle of meeting you again—after—" he paused, then smilingly added—"after Babylon and Macedonia."

"From the way you greeted me," she naively observed, "one might have fancied that you'd been running away ever since we parted in Babylon and Macedon. You must be very tired."

"I am afraid of you," he avowed.

She laughed.

"I know you are a woman-hater. But I was a boy myself until I was seventeen. I've never quite got used to being a woman, so you needn't mind."

"Miss Filson," he hazarded gravely, "when I saw you yesterday, I wanted to be friends with you so much that—that I ran away. Some day, I'll tell you why."

For a moment, she looked at him with a puzzled interest. The light of a smile dies slowly from most faces. It went out of his eyes as suddenly as an electric bulb switched off, leaving the features those of a much older man. She caught the look, and in her wisdom said nothing—but wondered what he meant.

Her eyes fell on the empty canvas. "How did you happen to begin art?" she inquired. "Did you always feel it calling you?"

He shook his head, then the smile came back.

"A freezing cow started me," he announced.

"A what?" Her eyes were once more puzzled.

"You see," he elucidated, "I was a cowpuncher in Montana without money. One winter, the snow covered the prairies so long that the cattle were starving at their grazing places. Usually the breeze from the Japanese current blows off the snow from time to time, and we can graze the steers all winter on the range. This time, the Japanese current seemed to have been switched off, and they were dying on the snow-bound pastures."

"Yes," she prompted. "But how did that—?"

"You see," he went on, "the boss wrote from Helena to know how things were going. I drew a picture of a freezing, starving cow, and wrote back, 'This is how.' The boss showed that picture around, and some folk thought it bore so much family resemblance to a starving cow that on the strength of it they gambled on me. They staked me to an education in illustrating and painting."

"And you made good!" she concluded, enthusiastically.

"I hope so," he smiled, he smiled.

After a pause, she said:

"If you were not busy, I'd guide you to some places along the creek where there are wonderful things to see."

The man reached for his discarded hat.

"Take me there," he begged.

"Where?" she demanded. "I spoke of several places."

"To any of them," he promptly replied; "better yet, to all of them."

She shook her head dubiously.

"I ought not to begin as an interruption," she demurred.

"On the contrary," he argued confidently, "the good general first acquaints himself with his field."

An hour later, standing at a gap in a tangle of briar, where the paw-paw trees grew thick, he watched her crossing the meadow toward the roof of her house which topped the foliage not far away. Then, he held up his right hand, and scrutinized the scar, almost invisible under the tan. It seemed to him to grow larger as he looked.

CHAPTER V.

Horton House, where Duska Filson made her home with her aunt and uncle, was a half-mile from the cabin in which the two painters were lodged. That was the distance reckoned via driveway and turnpike, but a path, linking the houses, reduced it to a quarter of a mile. This "air line," as Steele dubbed it, led from the hill where the cabin perched, through a blackberry thicket and paw-paw grove, across a meadow, and then entered, by a picket gate and rose-cumbered fence, the old-fashioned garden of the "big house."

Before the men had been long at their summer place, the path had become as well worn as neighborly paths should be. To the gracious household at Horton House, they were "the boys." Steele had been on lifelong terms of intimacy, and the guest was at once taken into the family on the same basis as the host.

"Horton House" was a temple dedicated to hospitality. Mrs. Horton, its delightful mistress, occasionally smiled at the somewhat pretentious name, but it had been "Horton House" when the Nashville stage rumbled along the turnpike, and the picturesque little village of brick and stone at its back had been the "quarters" for the slaves. It would no more do to rechristen it than to banish the ripened old family portraits, or replace the silver-laden mahogany sideboards with less antique things. The house had been added to from time to time, until it sprawled a commodious and composite record of various eras, but the name and spirit stood the same.

GREEN FEED IN WINTER.

Green feeds for poultry contain only a small percentage of actual food nutrients, but are important because of their succulence and bulk, which lighten the grain rations and assist in keeping the birds in good condition. The poultryman should secure a sufficient supply of such feeds to last through the winter months in sections where growing green feeds can not be obtained. When chickens are fattened without the use of milk, green feed helps to keep them in good condition.

Cabbage, mangel wurzels, clover, alfalfa, and sprouted oats are the green feeds commonly used during the winter. Cabbages do not keep as well in ordinary cellars as mangel wurzels, so where both of these feeds are available the cabbages are fed first. They are often suspended, while the mangel wurzels are split and stuck on a nail on the wall of the pen. Clover and alfalfa may be fed as hay, cut into one-half to 1 inch lengths, or may be bought in the form of meal. Alfalfa meal has a feeding analysis equal to bran, but is not as digestible on account of its larger percentage of fibre. Clover and alfalfa should be cut while slightly immature, if they are to be cured and fed to poultry. The leaves and chaff from such hay are especially adapted for poultry feeding.

Sprouted oats make a very good green feed and are used quite extensively in this country. The oats can be soaked for 12 hours in warm water and then spread out in a layer of from one-half to 1½ inches deep on a floor, or in a tray or tier of flat shelves have openings or holes or a three-sixteenths (3-16) inch mesh wire bottom, so that the water drains freely. They may be stirred daily and sprinkled, or allowed to sprout without stirring, until ready for feeding. They are usually fed when the sprouts are from 1 to 1½ inches long, although some poultrymen prefer to allow the sprouts to grow to 2 or 3 inches long. Oats need a moist and warm atmosphere in which to sprout quickly, so that it is necessary to furnish heat or to keep them in a warm room during the winter, while they may be sprouted out of doors during the rest of the year. It takes from 6 to 10 days to sprout oats, depending on the temperature of the room. Oats frequently become moldy while sprouting. To prevent this, they may be treated with formalin, using 1 pint of formalin to 30 gallons of water, which is sprinkled over and thoroughly mixed with 30 bushels of oats. Cover the oats with a blanket for 24 hours; then stir until they are dry. Keep them in a sack which has also been soaked in formalin. Oats thus treated and dried may be held for a long time for sprouting.

Where the double-yard system of confining poultry is used, one of the yards is kept in green feed, into which the hens are turned when the crop attains a height of 4 or 5 inches. This method of alternately yarding poultry furnishes green feed for the birds and at the same time freshens the yard. Rape, wheat, rye, oats and barley are usually sown for this purpose. Rye is good for late fall and early spring feeding, as it will live through the winter in most sections. Oats, wheat and barley are used throughout the spring, summer and early fall. Several of these grains may be sown together to secure a greater variety of green feed and any quick-growing grains may be used for this purpose.—Canadian Farm.

Up or Down.

First senior—I'm going to marry a poor girl and settle down.

Second senior—Better marry a rich girl and settle up.

Clear Profit.

"If I could get someone to invest a thousand dollars in that scheme of mine I could make some money."

"How much could you make?"

"Why, a thousand dollars."

A linen shirt is much colder than a cotton one, linen drawing away more of the body's heat.

Ice contains latent heat. It will absorb 140 degrees of heat when melted over a fire or by the sun.

PRACTICAL FARMING

The Cream Can.

A writer signing herself "Farmer's Wife" in the Ohio Farmer recently gave an account of the value of the cream can, which is worth reproducing here. Here it is:

The cream can is an important factor in many farm homes. No utensil has become popular more rapidly than it. It is the cream check that pays the grocer and dressmaker, builds houses and barns, buys the piano, sends the children to college and buys oil and gasoline. And what could do more than the cream can?

"Get another cow," was the slogan of the owner of the cream can; but the 1916 slogan is "Get a better cow." Then weigh your milk and use the Babcock tester. Scales are a necessity on every farm and the testing outfit is not expensive, neither is it so complex that it takes an educated person to use it as many suppose. With scales and Babcock test no one need keep cows, the cows will keep him. Don't guess; it pays to know. Weigh your cream—then if you ship 36 pounds when the check comes you will not be positive it was 38.

A man may pay 25 cents to guess on the number of beans in a can and consider himself a sport. But he is not in it with the man who loses from one to two per cent. to as high as 30 per cent. of the butterfat for the privilege of guessing twice a day on the speed of his separator. Why not buy a speed recorder, made especially to attach to any make of cream separator, and quit guessing? The common error is turning the separator too slow. The result of one extra turn per minute in the bowl running 600 to 700 revolutions too slow. This is losing money by turning the cream into skim-milk.

Besides timing to give the cream can a square deal, wash the separator every time it is used. If you do not do this, run some clean water through the separator after it has stood over night; then taste the water from the cream spout and you will know why it should be washed. The machine rusts after a time when not washed. Any one can afford to care properly for as high-priced a machine as the separator.

Have all cream the same temperature—as cold as possible when mixed. Keep the cream stirred as a smooth, velvety cream is more accurately sampled; hence, it gives a better test than the hard, lumpy cream. Cover cream with cheese cloth to avoid dust and insects and to give the cream air. Don't bring your cream in the kitchen to sour it, thinking you will get a better test for sweet cream tests the same as sour. The amount of butterfat in cream is not affected by souring. Don't ship a thin cream, for you simply donate the skim-milk to the creamery, make transportation higher and besides a heavy cream keeps in better condition.

The owner of the cream can has endorsed and adopted a system by which the old-time burdens have been removed, and the net results are greater than before. When you sell butterfat you are selling sunshine. When you sell grain you are selling the fertility of your farm. Can the farmer make a better investment than the cream can?

Backyard Environment.

A great part of the home life of [illegible] is associated with the backyard, which, of all places around the farm home, is usually the most neglected. The front yard may be fairly well attended for the occasional passer-by to see, but flowers and shrubs should be placed where they will do the most good—where they will be seen and enjoyed by the occupants of the house. Children and young people especially are often influenced by their environment more than they know, or are willing to admit, and the unattractiveness of their home surroundings has driven many boys to the city.

The backyard, seen and traversed many times daily, should receive especial attention. If it is a bare place with muddy pools and unsightly accumulations, it should undergo a radical change. Such change costs little, but, when made, should be carried out with care and a view to permanency. Take time to plan the planting and decide once and for all where the shrubs will be most effective and attractive.

The women usually have to take the initiative in work of this kind, and should be given every assistance possible by the men. During the winter the subject should be discussed at Farmers' Clubs and plans made for an active campaign in the spring. Several clubs in Quebec have organized competitions in this line of work with excellent results. These improvements involve little or no expense and may be accomplished in the time that the busiest farmer and his family can easily find if they appreciate the importance of the work and are disposed to undertake it. The farmer owes to his wife and to himself, but chiefly to his children, the best that he can do towards increasing the attractiveness of his home. The improvement often need not cost a cent. One first item, greater neatness, costs only an effort. The second item of improvement, the plan, costs nothing but study. The third item of improvement, the plants, can often be wholly secured from the wild.—F.C.N. in Conservation.

It Pays to Paint.

It pays to paint all permanent buildings that are made of planed lumber and properly finished. If tastily colored with paint properly applied, it adds greatly to the appearance of the place. This is a source of delight to the owner and helps make the family contented. A building that is kept well painted will last indefinitely. A good grade of paint well applied keeps moisture from reaching the nails, the lack of which allows buildings to become weatherworn, and its parts become loose, weak, rotten and misshapen. A well painted piece is not only more desirable to keep, but is more readily sold, as buyers prefer a well kept place and will pay more for such. It pays to paint machinery because of the better appearance, and because it will keep the bolts and other parts from rusting or rotting, causing expensive breakdowns and making it difficult to repair. It is especially profitable to keep waggons and buggies well painted, for it keeps the wood from checking and the wheels from shrinking. Every time a tire is set it puts more dish into the wheel, which weakens it. For 50 cents a year a vehicle can be kept tight and be made to last almost as long as one will keep up the painting.

So far as is known the greatest age attained by an insect is that reached by a queen ant which was nearly fifteen years old when it died.

A rhinoceros rolls in the mud because little insects get between the folds of its skin and worry it. If it gets its body covered with mud, they are unable to reach the skin.

NEURALGIA KILLS PAIN BRUISES RHEUMATISM

Mothers! Your cares in comforting the aches and pains of the family from youth to old age, are lessened when you use this old and trust-worthy remedy—

Sloan's Liniment

Bruises—Rheumatism—Neuralgia

Mothers: "Keep a bottle in your home"

Price 25c., 50c. and $1.00

GOOD DIGESTION — When your digestion is faulty, weakness and pain supervene and disease is invited.

Mother Seigel's Syrup corrects and stimulates the digestive organs, and banishes the many ailments which arise from indigestion.

FOR 40 YEARS THE STANDARD REMEDY

MOTHER SEIGEL'S SYRUP

FOR STOMACH AND LIVER TROUBLE

At all Druggists, or direct on receipt of price, 50c. and $1.00. The large bottle contains three times as much as the smaller. A. J. WHITE & CO. LIMITED, Cradd Street West Montreal.

SPOHN'S DISTEMPER COMPOUND

SHIPPING FEVER Influenza, Pink-Eye, Distemper and all nose and throat diseases cured, and all others no matter how "exposed," kept from having any of these diseases with SPOHN'S LIQUID DISTEMPER COMPOUND. Three to six doses often cure a case. One bottle guaranteed to do so. Best thing for blood mares; gets on the blood. Druggists, stock harness shops or manufacturers sell it. Agents wanted.

The Housewife's Corner

Banana Dainties.

The bananas is one fruit which is always available at a low price, is easy of preparation and has infinite possibilities. Fully 50 ways of cooking are claimed for it. Whether they are all practical is doubtful, but at any rate between the first breakfast course and the late supper dessert there is a wide range of uses in which at least one dish may be found to suit every palate.

Banana Fritters.—Make a batter of the yolks of two eggs, a half cup of cold water, a teaspoonful of melted butter or olive oil, and one cup of flour sifted with a scant teaspoonful of baking powder and a pinch of salt. Cut in the stiffly beaten whites of the eggs and add four bananas cut crosswise. Drop from a tablespoon and fry quickly in hot fat. Dry on brown paper, dredge with sugar and serve at once. These ingredients will make ten fritters.

Banana Salad.—Peel ripe bananas, split them lengthwise, roll the halves in peanuts which have been chopped or put through a meat grinder, place on white lettuce leaves and serve with a stiff mayonnaise (made with lemon rather than vinegar). Balls of cottage or cream cheese may be added if desired.

Fruit Salad.—Bananas combine with any of the fruits ordinarily used for salad—pineapple, grapes, oranges, apples, berries—and "go" equally well with either a mayonnaise, a sweet or a wine dressing.

Baked Bananas.—Take firm, ripe bananas carefully out of their skins. Split lengthwise; dredge heavily with sugar; dot with bits of butter; sprinkle lightly with cinnamon or squeeze lemon juice over them; put back in the skins and bake until soft; slip them out of the peelings and eat hot. If intended as a side dish of a meat course use less sugar and omit the cinnamon altogether.

Bananas With Meat Dishes.—Bananas are seldom served with meats in the home, although extremely popular on hotel menus. In certain high-class cafe, for instance, a baked banana is served with a portion of rare, broiled steak as one of its prides. They can also be baked—previously peeled—with fresh pork or fried with kidneys and bacon for breakfast.

Banana Souffle.—A rich banana dessert to be eaten hot is made by lightly combining a half cupful of mashed banana with the yolks of three eggs, one cupful of sweetened whipped cream and lastly the stiffly beaten whites of the eggs. Half fill a buttered dish and bake quickly in a hot oven. Eat at once, as like cheese fondu or any dish of this character, it fails quickly.

Banana Pie.—Line a pie pan with a very short crust and slice enough bananas to fill it. Arrange in two layers, sprinkling sugar between and dotting with bits of butter. Squeeze a lemon over the top layer, cover with sugar and a little cinnamon and bake without a top crust. A meringue may be added if desired.

Banana Charlotte.—Mash the desired quantity of chilled, sweetened bananas and pour over this the cold, thick cream to be used. Set the bowl in a pan of cracked ice or cold water and whip gently. When stiff pour into a bowl lined with strips of sponge cake or lady fingers.

Selected Recipes.

Prune Salad.—Wash, soak and steam prunes until tender. Do not sweeten. When cold remove stones and fill with chopped nuts. Arrange on lettuce leaves, sprinkle with lemon juice, top with mayonnaise and serve very cold.

Peanut Cookies.—One cup sugar, one egg, one cup chopped peanuts, five tablespoons flour. Beat egg and sugar until very light, stir in nuts, add flour and drop from tip of spoon on buttered tins. Bake in medium oven about ten minutes.

Turnip Surprise.—One yellow turnip, one-fourth pound thinly sliced bacon, dash of pepper, pinch of salt. Select large, firm turnip. Wash, pare and cut into strips two inches long and one-fourth inch wide. Soak for some time in cold water. Drain and cook gently in boiling, salted water until tender. Drain and salt and pepper to taste. Dice bacon and fry until slightly crisp, but not brown. Turn contents of pan over turnips, cover and shake gently until bacon flavor permeates turnips.

Corn Pone Bread.—One pint corn meal, one small tablespoon lard, one teaspoon salt, milk. Place lard in centre of meal and pour over enough boiling water to scald meal. Add salt and enough sweet milk to make dry batter. After dipping hands in cold water take up enough of mixture to form oblong pones, a little larger than croquettes. Have baking pan hot and greased. Place pones in baking pan, but do not let them touch, as they must have all over brown crust. Brown in oven. Leftover batter may be utilized by adding more sugar and baking in little cakes in hot baking pan. Serve hot.

Beef and Horseradish Sauce.—Four pounds round or top sirloin, one quart water, salt and pepper, two tablespoons each butter and flour, one tablespoon horseradish, chopped parsley. Wipe meat carefully and skewer into shape, if necessary. Put in kettle; add water, bring to boiling point, and let simmer gently until done, reasoning toward end of cooking. Blend flour and butter together, add two cups of water in which beef was cooked and stir gently until thoroughly cooked. Add horseradish, pour over round of beef, sprinkle with parsley and serve. This makes excellent fireless cooker dish.

Blanquette of Veal.—Use shoulder of veal, cut into two-inch squares. Soak in cold water for one hour, drain and put on to cook in saucepan with just enough water to cover. Add sliced carrot and two small onions cut in two; also two stalks celery, two sprigs parsley, two sprigs parsley and one sprig each of thyme and sage, tied together. Season with salt and pepper and let boil gently forty-five minutes, removing scum occasionally. When cooked transfer veal to another saucepan and strain broth to remove vegetables and herbs. Blend one tablespoon flour with one tablespoon butter and add to veal broth. Mix juice of one-half lemon with two beaten egg yolks, add one-half cup milk and pour into sauce. Beat with egg beater until well blended. Strain over veal, sprinkle with parsley and serve.

Useful Hints.

Mildew on leather may be removed by rubbing the affected part with vaseline.

One teaspoon of water or milk should be allowed for each egg in an omelet.

To keep black stockings a good color before washing dip them in a weak solution of tepid water and vinegar.

To clean discolored water bottles put in some garden mould, fill them with cold water and shake well, and they will become clean and bright.

To keep sandwich cakes from rising in the centre spread the mixture away from the centre of the tin towards the sides. When baked it will be quite even and very light.

Rub the shoelaces of children's shoes with beeswax and they will not come untied easily. A bit of the wax applied to the end when the metal tip is lost will facilitate the lacing.

Onions are at their best when boiled whole in milk, or when steamed. When prepared in either of these ways and eaten with bread and butter and cheese they make a satisfying and nutritious meal on which you can do brain work or manual labor.

Here is an excellent way to kill moths in carpets which never fails. Wring a coarse crash towel out of water and spread it smoothly on the carpet; iron it dry with a good hot iron, repeating the operation on all parts of the carpet infested with the moths. There is no need to press hard and neither the pile nor the color of the carpet will be injured, and the moths will be destroyed by the heat and steam.

Gold rings, brooches, and other articles of jewellery that are set with precious stones can be cleaned with warm water with white swan soap and very little ammonia. Use a soft old toothbrush to get in between the setting and the stone. For rings set with turquoise and pearls the water cleaning should be avoided, but for the hard, transparent gems it is allowed. Polish the rings and pins with a soft chamois and they will be wonderfully bright and sparkling.

WHAT SCHILLER WROTE.

A Story Which Makes the Germans Gnash Their Teeth.

The following story which is going the round of the continental papers, including even those of Austria, must make the Germans gnash their teeth. A German and a Dane met recently in Schiller's house in Weimar. As they stood gazing reverently on the scene, the German swelling with pride, remarked to his fellow-visitor, "So this is where our national poet, Schiller, lived." "Pardon me," said the other, "not national, but international." "How so?" asked the German, with surprise. "Why, consider his works," the Dane replied. "He wrote 'Mary Stuart' for the English, 'The Maid of Orleans' for the French, 'Egmont' for the Dutch, 'William Tell' for the Swiss——" "And what did he write for the Germans, pray?" broke in the other. Pat came the Dane's answer: "For the Germans he wrote, 'The Robber.'"

What Tommy Told.

Tommy: "Do you go to bed very early, Mrs. Graymare?"

Mrs. G.: "Yes, Tommy, sometimes—when I feel tired."

Tommy: "You wouldn't go as early if you were married to my pa, would you?"

Mrs. G.: "Oh, Tommy, you funny boy; why not?"

Tommy: "'Cos my pa told my ma that if he were your husband he'd make you sit up!"

A WAR TRAGEDY IN THE RUSSIAN

Translated by M. Gmelevsky.

Nika, forgive my tears! I will not cry any more, dear! Write me, write me every day!"

"And you, also, Miljal . . . Well, now, don't cry. . . . Stop. . . . Better return home to our poor little Pavlik. He is quite by himself, with only nurse. The train might be delayed. Really, dearest, I think you had better go."

"No, no, I will wait. . . . You know he was so much better when you left. . . . Do you remember he said 'Good-by, papa'! And you could not keep back your tears and ran out of the room. Every evening, after the doctor's visit, I will write to you. Don't be alarmed. . . ."

"Yes, do write. . . . ."

"Take your seats, gentlemen, the train will leave in a minute."

"Miljal . . . ."

"Nika! . . . ."

(A few lines from a letter). . . . Why do I only remember just now the three little stars on your shoulder-strap? When the war is over you will certainly return as a colonel, and the three little stars will have given place to the plain strap of a colonel. You see, dearest, what I am writing about. Pavlik asked me to repeat to him all details about how papa left. My God, why was it necessary that he should get scarlet fever two days before you had to leave? But, thank heaven, he is feeling so much better now. Only take care of yourself, dearest, and don't fear for Pavlik. He is recovering. . . .

(A few lines from a letter). . . . We had visitors. Anna Michailovna brought Pavlik a lovely little horse. Pavlik is awfully pleased with it. He took it on his bed, kissed it, and said that to-morrow he will go on horseback, just as Papa. Well, I feel relieved now; our boy has quite recovered. You see how unnecessary it is to worry beforetime. You have apparently not received one of my letters. Number your letters, please; that will be better. I am knitting for you now a warm, nice waistcoat. I repeat once more, don't worry about Pavlik. . . ."

. . . . . .

"Our office, madam, will send the sun. Please do not trouble about the pail. We shall supply everything of the best."

"Oh, do anything you like; only everything should be all right. The coffin must be pale blue and polished."

"Madam, the disinfectors have come. They are in the kitchen."

"What is the matter now? Oh, yes, take them to the nursery. And what is this? Flowers? Oh, flowers for Pavlik . . . for Pavlik . . . for Pavlik . . ."

"Madam, do not grieve so much. It is the will of God."

"Stepanavna, my dear old woman!"

. . . . . .

(A few lines from a letter). "It is always the same rainy weather here. I wonder how it is at the front. I heard someone say that you had already some front there. Is it really possible that you will soon be in the firing line? I am certain I shall read the name of Major Parpoy in the list of the heroes who have won the cross of St. George. How proud your wife and Pavlik will be of you! Pavlik . . . My dearest Nika, I also wanted to write to you how our darling son got up for the first time, but I have still such a lot to do. I must take his temperature, and it is already very late. Nika, darling, I must still be very careful with him. He is still so weak, but quite, quite well again. But now Pavlik and I kiss you many, many times. The Lord bless and keep you.—Your wife, your Miljal"

. . . . . .

"Sir, the gun in the third company has been knocked out of action."

"Call Lieutenant Gavrilov."

"Yes, sir."

"Lieutenant, just give me your field-glasses; mine have been destroyed by a piece of shell."

"The right battery of the enemy is silenced, Colonel."

"It looks like it."

"Sir, in the second company a shell has just wrecked the ammunition wagon, killing all the men serving the gun."

"Guns forward! Get away! To a new position!"

"Forward, Colonel!"

"Yes, forward! We are advancing on the whole line. Look to the left, Lieutenant. A battery of the enemy."

"It grows weaker. Never mind! The battery of Colonel Karpoy is a happy one. This is our fifth victorious battle."

"Forward. It is the 15th to-day, isn't it?"

. . . . . .

(A postcard). "Just a few lines, my dear, in a hurry. There is such a lot to do, although I have not yet been in battle. I am still in X. You see, there is no reason to worry. Take care of yourself for Pavlik's sake. Although your letter relieved my anxiety, still my heart is heavy. I kiss you both. Yours, N. Karpov. The 15th of October."

. . . . . .

"Spare a copper for a beggar, for Christ's sake. May the souls of your parents and relations rest in the Lord!"

"Masha, take some coppers from the bag. . . . It is on the bench, here. . . . Give them to him. . . .

"May the Lord take him to His Heavenly Kingdom! . . . Thank you, little mother benefactress."

"Masha, we must put straight the wreath on the grave. . . . So. . . . God, how the ravens are cawing!"

"Madam, let us go home. . . . You will be ill."

"Oh, no! It does not matter. . . . My God! Pavlik! . . . Oh, oh!"

"Madam, dear madam, have mercy on yourself. . . . You have not dried your eyes for more than a month."

. . . . . .

(A few lines from a letter). "To-day I went for a drive in a motor car with Pavlik in the fresh air of the woods of Lesnoy. His cheeks are quite rosy again, and he is so merry. On the way we met some soldiers with their bands. Pavlik cheered them and was so happy."

. . . . . .

"No, he will not live till the morning. . . . Peritonitis has set in. . . . The pulse is hardly audible."

"Shall we prepare him, doctor?"

"Yes, sister, do it."

"Maximov, go and fetch the priest. Tell him he is wanted for Colonel Karpoy—with the Holy Sacraments."

"Yes, sister. . . ."

"Sister . . . ."

"Did you awake Nikolai Alexandrovitch?"

"Yes, give me a drink. . . ."

"Does your hand hurt?"

"Yes, sister, I am feeling badly. I feel death is approaching. . . . Write a letter for me. I will dictate. . . . Is it to see me that the priest is coming?"

"Yes, Colonel, to see you. . . . You won't feel worse after your preparation. . . . You will feel better. . . ."

"Yes. . . . No. . . . I feel death coming. . . . But, before, write me the letter. . . . There might be no time? . . . Write. . . . I am dictating. . . ."

. . . . . .

(A few lines from a letter). "I was under fire, Miljusha. Do not be afraid. I am wounded by shrapnel. But not dangerous. Nothing at all. Only a few scratches. I do not write myself because my hand is bandaged."

Novel Readers and Truth.

"Miss Braddon, the English novelist who died recently," says a publisher, quoted in the Washington Star, "made $500,000 out of her books. Miss Braddon's great success, she once told me, was due to her avoiding the truth. Truth, she said, is the one thing the average novel reader doesn't want. For truth, you see, is often unpleasant.

"She illustrated her point by the story of a wife who asked her husband, 'George, how do you like the new way I've done my hair?'

"'Well, my dear,' George began, 'to tell you the truth—'

"'Stop right there, George,' his wife interrupted. 'Stop right where you are! When you begin like that, I don't want to hear you!'"

Sufficiently Humbled.

Mrs. Mellen did not wish to offend her new cook.

"John," she said to the man servant, "can you find out, without asking the cook, whether the tinned salmon was all eaten last night? You see, I don't wish to ask her, because she may have eaten it, and then she would feel uncomfortable," added the good soul.

"If you please, ma'am," replied the man, "the new cook has eaten the tinned salmon, and if you was to say anything to her, you couldn't make her feel any more uncomfortable than she is."

What Would Happen.

A very crusty gentleman advertised for a coachman, who must be thoroughly familiar with the district. He got no replies, however, a fact upon which he commented to the local saddler. "What's the meaning of it, do you think?" he asked. "Oh, well, sir," replied the saddler, "you advertised for a man that knows the district, didn't you?" "Yes." "Well, then, sir, you see, a man that knows the district is likely to know you."

Something Deeper.

"Willie," said an interesting mother to her first-born, "do you know what the difference is between body and soul? The soul, my child, is what you love with; the body carries you about. This is your body," touching the little fellow's shoulder; "but you know, my child, there is something deeper in. You can feel it now. What is it?" "Oh, I know," said Willie, with a flash of intelligence in the eyes, "that's my flannel shirt."

A Poor Bet.

"Mr. Redink," said the boss severely, "you got off yesterday afternoon under the plea of being sick. I saw you afterward going to the races, and you didn't appear to be at all sick."

Mr. Redink was fully equal to the occasion.

"You ought to have seen me after the second race, sir," he said.

Natural.

"Tankey is an awful braggart when he gets a load on."

"Well, I suppose it's natural for a man to blow his own horn when he's on a toot."

The AUTOMOBILE

Remedy for Knocking Motor.

One of the worst things with which the autoist has to contend mechanically is the accumulation of carbon in the cylinders, clogging the piston rings, filling and short-circuiting the spark plug and causing a knock which is not only annoying, but productive of trouble sooner or later, writes H. C. Brokaw.

There are various reasons for the accumulation of carbon, such as poor gas, defective ignition, insufficient pressure and wrong mixture, but few have assigned as a cause of carbon trouble and knocking a too high cylinder compression.

Too high compression occasions much of the knock ordinarily assigned to other causes. Engines are designed with a certain size compression chamber and with a chamber of that size to get a certain compression in pounds per square inch, the nearer we can get to the point of preignition without actually reaching preignition the more efficient will the engine be. Preignition, of course, would make a knock.

A good many manufacturers make the compression figure just as high as they dare, with the result that when the carbon forms, the size of the compression chamber is reduced and the pressure is raised to such a degree that it will cause pre-ignition and its resultant knock. When a manufacturer tells you that his engine is proof against carbon and the knocking occasioned thereby, he is probably trying to offset more serious "knocks" the car is receiving from disgruntled users. A friend of mine has a four-cylinder engine in one of the later models of a well-known car of high speed and power. On several occasions we have been out driving in and near the city and after about 125 miles we seemed to always have trouble with knocking in climbing hills. On one trip my friend had the carbon burned out carefully before starting. About the time we reached the end of the journey the engine began to knock on the hills from the collection of carbon. On our return to the city he had the carbon burned out again, and the knock ceased.

I advised him to raise the cylinders one-fourth of an inch by a fibre gasket under each cylinder casting, thus increasing the capacity of the cylinders and naturally lessening the compression. He also had to adjust the water connection and raise the valve push rods, and a few things of that sort. When I last saw him he had run the car 2,000 miles since making the change, and it was just beginning to show signs of knocking under severe conditions, indicating that the cylinders needed to have carbon removed.

Where the knock is caused in this way by a slight compression increase it indicates that the manufacturer had put the pressure as high as he dare, as one would stand, and the only way to cure it is by raising the cylinders or lowering the pistons by having shorter rods cast. The gasket I have described is the simplest method.

The chauffeur and the auto owner who learn this remedy for knocking, due to carbon and high compression, will be saved a lot of worry and be enabled to cure the engine's ills, or have it done at the shop. But that carbon accumulation will cause any of the high-powered engines to knock and the only way to cure it is to lessen the compression. Also the only simple way to lower the compression is to raise the cylinder with a more gasket.

THE SUNDAY SCHOOL

INTERNATIONAL LESSON, FEBRUARY 6.

Lesson VI.—The Boldness of Peter and John, Acts 4, 1-31. Golden Text: 1 Cor. 16. 13.

The scene is the Sanhedrin, and the inquisition is in the hands of the Sadducee aristocracy, the "high priests"; that is, the one who by grace of the Roman governor was reigning at the time, Caiaphas, and the living ex-high priests, Hanan the father-in-law of Caiaphas at their head, and members of "the kindred of the high priest" who might at any time be appointed to the pontificate. Luke represents their special concern at the nemesis which had overtaken their judicial murder of the Nazarene. Now his resurrection proclaimed by many witnesses and attested by undeniable miracles, was humiliating them in their standing debate with the Pharisees, who were actually joining the new sect (compare Acts 15. 5) because of the tremendous impulse it had given to the great doctrine of the hereafter.

Verse 8. Rulers—The high priests. Elders — Ordinary members of the Sanhedrin. The latter title (Presbyters in Greek) was taken over from the Jews—he shared it with heathen gallions, as the Egyptian—by the Christian church. See Acts 22. 5.

9. We—Emphatic, like ye in verse 7 —"men like you!" Examined—A technical word for a preliminary inquiry; the Sanhedrin must naturally begin with a fishing inquiry, for it was not easy to discover a crime in "a benefit done to a sick man." The work of the Holy Spirit is seen in the skill with which they reduce their persecutors to futility and seize the opportunity to exalt their living Master in the most convincing way. By what means—Margin "in whom"; anticipates the in him of verse 10.

10. In the name—See Acts 2. 38, and also verse 30, for Christ, the title the assertion of which would anger these Sadducees beyond anything. They had doomed him to the cross for claiming it (Mark 14. 61f.), and now this irrefutable sign has proved that they only gave him thereby the step to his throne. Of Nazareth—The Greek adjective here is that of Matt. 2. 23, which is distinct from that of Mark 1. 24, and may possibly denote a Messianic title.

11. Psa. 118. 22 took a very conspicuous place among the Old Testament proofs used by the apostles, following their Master.

12. Salvation—Or "the (Messianic) salvation," as in John 4. 22. Note that salvation and, saved are the same word as that rendered made whole in verse 9. Christ came to redeem the whole man, body and soul. The rest of the verse may be paraphrased: "for there exists no different" (compare Gal. 1. 6) "name under the sky than this which is God's gift among men, that by its power we ourselves—we, the privileged people of God—must be saved if we are to be saved at all."

13. Unlearned—The word constantly used in the Egyptian papyri for a man or woman who cannot write. These academic persons affected to regard Jesus himself (John 7. 15) and his disciples as mere illiterates. Took knowledge—The imperfect tense in the Greek suggests that the recognition of his thoughts and style kept pressing itself upon them throughout the address summarized in verses 8-12.

15. How did Luke learn the substance of this consultation behind closed doors? In Acts 26. 11 we have the confession of one who took there.

16. Notable miracle—Or "a known sign." The word is repeated from verse 20; the deed was recognized throughout Jerusalem as no deed of man, but done by God through them.

17. Spread—Like an infectious disease. Threaten—Two important authorities read, "with threatening let us threaten," a well-known Hebraic idiam for "threaten sternly." It is quite likely that they said right. In this name—They will not mention the hated name themselves. The next verse does not contain their actual words as this does. "To speak in the name" implies primarily the actual pronouncing of it continually in connection with teaching and healing. A people whose instinct taught them to see deep significance in names would quickly realize that this was something more than a new "Joshua"; the resurrection gave "Jehovah is salvation" a new meaning. Hence the refusal of Jews to name him. In the Talmud he is generally indicated by opprobious allusion.

19. Judge ye—The pronoun is not emphatic, like the we in verse 20; the whole stress lies on the choice that has to be made, not on those who have to make it.

21. The renewed threats were futile enough now, but they remembered that fear of the people had kept them from laying hands on Jesus—for a time. Glorified God—Compare Mark 2. 12, the similar sequel of a similar miracle. Anything less wonderful might have made them praise the human wonder-worker. The comparison of the two stories makes us recognize afresh that both "signs" were among the "things which Jesus did" (John 21. 25).

ONE MILLION WOUNDED.

Number of Patients Cared for in French Hospitals.

There are 500,000 beds in the military and auxiliary hospitals in France. The cost of their maintenance is $200,000 daily. This figure, however, gives no idea of the expenditure per patient for the number varies constantly and a considerable proportion of the beds are always empty.

About $16,000,000 has been spent in France thus far by three Red Cross Societies. At present they are maintaining 115,000 beds in 1,200 hospitals, at an outlay of between $800,000 a d $1,000,000 monthly.

It is estimated that not more thar. 1,000,000 wounded have been cared for thus far in France.

Daylight Darknesses.

There are a number of daylight darknesses recorded in history, among them being thoss in B.C. 295, A.D. 740 and 775. There was a dark day in England in January, 1807, and another in October 21, 1810. There was also a dark day in Detroit on October 19, 1762. On May 19, 1780, there was such atmospheric gloom over Hartford, Conn., that the Legislature adjourned for the day.

CARGILL

Two members of the 160th had one of the most thrilling experiences of their lives, and perhaps will not encounter anything during the war that will cause them to turn as pale around the gills or make their hair stand up so like bristles on a pig's back, as when they attempted to drive with a buggy through the Saugeen, which had flooded the road on the 8th of Brant making travel unsafe. The boys in khaki got along very well until their horse stumbled and fell into the water and was unable to pick itself up again. Then came a noise from the stalwarts in the buggy, loud enough to wake the dead. Finally Archie Young appeared in a row boat, and after unhitching the horse got the recruits and the animal safely on terra firma. The boys, who were on their way to the Eden Grove box social, made a right-about face and quick march for the armories. They came back next day and fished the buggy out of the water, attached the horse hereto, and drove back to the county town. Thus ended happily what might have been a tragedy.

While hewing timber at Joseph Schmidt's last Thursday, M Hansen received a nasty gash in his arm with an axe that required eleven stitches.

We are pleased to see Miss Mary Schrittzler able to be around again after being laid up for about five months with rheumatism.

Mr and Mrs H Spitzig lost their infant son on Thursday last, the child dying from pneumonia. We extend our sympathy to the parents.

Ass't P. O. Inspector Johnston was here last week looking over a proposed mail route from this office.

Quite a few from here attended the box social and dance at Eden Grove last Friday night, and report a very pleasant time.

A patriotic card party was held at Mr Jas Garland's last Thursday evening.

Mrs Horatio Parker spent a few days with her daughter in Paisley last week.

Misses Nellie Clancy and Verna Loughleen have been engaged as stenographers at the armories, Walkerton, and left for the county town on Monday morning to commence their duties.

Miss M McCoy is in Toronto this week, the guest of Mr John Sirrs.

Our recruiting officer was on Saturday trying to persuade one of our bachelors to enlist in the ranks of the benedicts. We understand he has decided to enter the latter ranks. He is foolish. He need never expect peace there.

Pte W Loughleen, of C Co, 71st Batt, Galt, spent over Sunday at his home here.

SECOND CON ELDERSLIE

Red Cross Box Social, S S No 14, Bruce (12th con), Friday, Feb 4th.

Mrs F McLeod is visiting at the home of her brother, Geo Addison.

Miss Tena Henderson is spending a few weeks with her brother, Howard, who recently met with a serious accident.

Mrs Green, sr, has been confined to her room for the past two weeks with a very severe cold.

Sam Patterson had the misfortune to run a nail through the palm of his hand last week. At time of writing the wound is healing nicely.

Mr and Mrs J Ward, of Toronto, spent a part of last week at the home of the former's parents, Mr and Mrs John Ward, of this con.

Congratulations are extended to Mr Fred Schilling, who has taken to himself a partner in life. His many friends here wish him a long and prosperous voyage.

Jas Vancise and D Walks have been out canvassing this concession for signatures to the provincial temperance petition.

On Friday evening of last week a large number of friends and neighbors gathered at the home of Mr D Walks, the occasion being the presentation to their youngest son Jack of a wrist watch and a sum of money. Jack has enlisted in the 160th Bruce Batt for overseas service, and is at present under training. His many friends here wish him a safe return to the home land again after he has "done his bit" for king and country. A very enjoyable evening was spent in games and dancing.

In Owen Sound, on Wednesday, Jan 26th, Miss Mary Ward was united in marriage to Mr John Anderson, of Calgary. Rev Mr Ardill was the officiating clergyman. On their return to the bride's home on Thursday they were met and welcomed by a few of the immediate relatives of the bride, and a dainty tea was prepared which all partook of. In the course of a few days Mr and Mrs Anderson will leave for Calgary, where the groom has a large farm. Mrs Anderson will be much missed here among her many friends and relatives, and especially in the home circle. All join in wishing them a bright and prosperous trip through life.

WILLOW CREEK

Red Cross Box Social, S S No 14, Bruce (12th con), Friday, Feb 4th.

Mr Fred Schnittker had a litter carrier installed this week, which makes a great improvement in the stable. Mr Schnittker has had the waterworks operating in the house, bars and hog pen for some years. All that's missing now is the hydro light.

Mr John Lunow was out to Kincardine one day last week with about one ton of wheat and brought home about two ton of coal. Pretty heavy loads for the condition of the roads.

Miss Lena Wittig, daughter of Mr John Wittig, is at present down with la grippe.

The U B church will be closed for a time. The elder will conduct quarterly service in the near future.

ELORA ROAD NORTH

Red Cross Box Social, S S No 14, Bruce (12th con), Friday, Feb 4th.

Mr Sterling Hunt, of Wiarton, visited at Mr Dave Bryce's last week.

Roger Darroch is cutting wood for Mr Andrew Miller.

Garnet Campbell is home from Ripley.

Mr and Mrs Andrew Miller visited friends at Burgoyne last week.

Mr and Mrs John M Bryce left for their home in the west on Monday.

Miss Edna Sparrow has been suffering with la grippe.

BRUCE TP. COUNCIL

Underwood, Jan 10, 1916

Bruce Tp Council elect, viz: Jas Johnson, reeve; Peter Dobson, deputy reeve, councillors Geo Baker, Jas McKenzie and Murdoch McNeill, met in the tp hall on above date as per statute. After subscribing and making the requisite declarations of qualification and office the council sat for the transaction of business.

Minutes of previous meeting were read, adopted and signed.

A number of communications were then read and dealt with one by one.

Baker—McKenzie—That this council grant the Sick Children's Hospital the sum of $5.—Carried.

Dobson—McNeil—That this council accept the resignation of Mr Hugh McDougall as a member of the B of H.—Carried.

Baker—Dobson—That this council appoint I K McLennan, John Nuttall and W J Farrell sanitary inspectors for 1916.—Carried.

McNeill—McKenzie—That we appoint John R Hunter a member of the B of H for 1916.—Carried.

Dobson—McKenzie—That J B Struthers and J B Richardson be auditors for 1916.—Carried.

McKenzie—Dobson—That the clerk send an order to the Municipal World for the necessary supplies, also 6 copies of the World.—Carried.

McNeill—Baker—That the following committees be appointed, viz:

N E Div—McKenzie and Dobson; N W—Dobson and McKenzie; S E—Baker and McNeil; S W—Johnson and McNeill; G Road—Johnson and Baker.—Carried.

It was decided on motion of Baker and Dobson to advertise for cedar.

McNeill—Dobson—That we accept H E Steinkamp's tender for printing for 1916-17.—Carried.

Baker—McNeill—That we appoint Jas Kippen as collector of taxes, and Alex McGillivray, 16 13, as assessor for 1916.—Carried.

Dobson—McNeill—That the 1915 sheep valuators be re-appointed for 1916, viz: Jos McKay, Wm Gilchrist, Alex McLeod, Thos Nelson.—Carried.

McNeill—Baker—That we accept C S Woods' tender for cement and tile, and the clerk order 100 of 10 in and 100 of 12 in.—Carried.

McKenzie—Baker—That this council give $35 to each of the Red Cross Societies in Bruce Tp for purchase of wools to be made up for the soldiers, and that the secretaries of the societies send in a report of the work done to the council.—Carried.

McKenzie—Baker—That the following salaries be paid for the year 1916: Assessor $100, collector $100, including phone tax, treasurer $120, clerk $250, auditors $7 each, council meetings $3 50 and 10c mileage one way, committee work $2 50 a day, caretaking $1 50 per meeting.—Carried.

McNeill—Dobson—That by-laws Nos 213, 214, 215, 216 and 217 as read be finally passed.—Carried.

McKenzie—Dobson—That this council approves of the reeve asking H McArthur for the $15 given him as a recruit, and we instruct the clerk to write him for the same.—Carried.

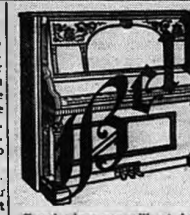
Accounts amounting to $214 55 were passed, and council adjourned to meet on Saturday, Feb 5th.

J G MacKay, Clerk.

Children Cry FOR FLETCHER'S CASTORIA

MARRIED

McGillivray—Brown—At the residence of the bride's father, on Jan. 26th, by Rev. A. McNab, M.A., Mr. John P. McGillivray, con. 12, Bruce, to Florence, youngest daughter of Mr. Robt. Brown, con. 8, Bruce.



Houston—Mooney—At the residence of the bride's mother, 257 Brunswick Ave., Toronto, on Jan. 27th, by Rev. Dr. Wallace, Mr. John Hamilton Houston, of Glenglarry Plains, Sask., to Mary, daughter of Mrs. Hessie Mooney, formerly of Paisley.

DIED

Cliff—At Cargill, on Jan. 25th, Stanley Alexander, infant son of Mr. and Mrs. Carl Cliff, aged 7 months and 14 days.

CARD OF THANKS

Mr and Mrs Alvery Smith desire to express their sincere appreciation and gratitude to all who so generously and sympathetically came to their assistance during the recent illness of Mr Smith.

Travel where you will, at home or abroad, you will find the name

BELL

a leader in the realm of music. If you would have the best, it must be a BELL.

PETER McKINNON, Agt., Paisley Ross Street

INTERESTING SUIT

Defendants Released from Payment of Notes Given for Western Real Estate

Division Court was held at Underwood on Thursday, Jan. 13th. Two cases occupied the day until lamp light. Great interest was taken in the cases as was evidenced by the crowded court room.

It appears that two McKenzie Bros. were around for a couple of months in 1913 selling real estate in Melfort, Sask., representing it to be gilt edge stuff. Afterwards these representations were found out to be absolutely untrue and McKenzies were found out to be anything but what they represented themselves to be. They sold these notes, which they agreed not to sell, and which are now beginning to come due. The cases concerned at this court were Wadell vs Geo. H. McKay and Farquharson vs J. B. Struthers. It was clearly proven at the trial and admitted by the plaintiff side of the case that there was fraud and false representation made. But the matter rested on whether the third parties were bona fide owners of the notes, it being generally understood that the third party is always an innocent party and must be protected. This is the law as far as that goes, but if such party is aware, or tries to keep from finding out circumstances which point out to him in any way that things are not what they should be, or in other words which was explained at the trial, shut his eyes and make no inquiry whatever, knowing second party to be unreliable, he must look in the man who sold him the note. Evidence was brought out to show that the McKenzies were not very industrious fellows and would not be expected to have much money, notes or property, without causing some suspicion as to whether they came by notes of amounts, as these real estate notes were, without making some inquiry as to what they got them for. In this case McKenzie was sued along with the defendants but did not appear. After hearing the evidence of all parties Judge Grieg gave a verdict in favor of the defendants, McKay and Struthers.—Reporter.

Children Cry FOR FLETCHER'S CASTORIA

Oldest Paper in Huron County Will Make Increase April 1st

In a logical and convincing editorial, the Huron Expositor, the oldest paper in its county and one of the oldest in Ontario, has declared in favor of the $1 50 subscription rate, and announced that it would be put into effect April 1st. We quote from this editorial as follows:

"Hereafter the subscription price of The Expositor will be One Dollar and Fifty Cents per year, instead of One Dollar as formerly. The reason for this is that ever since the subscription price was reduced from One Dollar and Fifty Cents to One Dollar some years ago, the cost of living and the price of everything that goes into the make-up of a newspaper has gradually, year by year, advanced, until now it is fully fifty per cent higher than at that time. In other words, we have been giving what costs us, as nearly as we can figure it, One Dollar and Sixty Cents for One Dollar.

The dry goods merchant, the grocer, the baker, the butcher, the blacksmith have all been obliged to advance their prices to a paying basis. Even the farmer receives much larger prices for everything he sells. In view of these facts, which are patent to all, it should not be a matter for surprise that the newspaper man should also require to increase the price of his product.

For this same reason most, if not all of the city papers, and all of the magazines, not only in Canada but in the United States, have been forced to increase their subscription prices.

After all, the increased price is a mere bagatelle to the individual subscriber, amounting to scarcely a cent a week, while the whole price will not amount to five cents. The difference, while insignificant to the individual, in the aggregate will make the difference to us of enabling us to pay our way and avoid a heavy annual loss."

Ontario Ashes for Munitions

Mr. John Joynt, of Lucknow, is the most extensive wholesale dealer in wood ashes in Canada, handling about 75 per cent. of all collected in the Dominion, which he has been shipping to the Eastern States to be used for fertilizing purposes. Hereafter the ashes will all go to St. Catharines, says the Sentinel, where a large potash plant is being put in operation, and they will be used in making potash. Mr. Joynt has had two teams collecting ashes throughout Ontario, and has now contracted to supply not less than 10,000 bushels yearly at St. Catharines, and as much more as he can turn in. The new factory there is called into existence by the cutting off of the supply of potash by Germany, where it is found in great quantities in mineral form. Potash is an essential factor in the making of explosives, and since the outbreak of the war there has been a tremendous demand for it.

THE CITY BAKERY

"The Bread that is Making Paisley Famous"

Every day brings its own needs. Anything you need for the table is in our place of business. Shelves refilled weekly by fresh Groceries.

Now is the time to buy Rolled Oats—in 90-lb., 40-lb. or 20-lb. sack, package or bulk.

Syrups are in great demand. We have them in 35-gal. jars, 6-lb. and 10-lb. pails, also bottled goods. Maple flavor.

Oysters are very large and of excellent quality.

Oranges are at their best.

Our bakers are kept busy. Even with the high price of flour, our bread is at the old price.

If you are needing a Wedding Cake trimmed or made, we can do it. Our baker is an expert in the trimming and decorating line.

'Phone us your orders and we'll do the rest

WOMEN OF CANADA.

Fort Coulonge, Quebec.—"I am happy to tell you that your medicine did me

wonderful good. I was troubled with weakness and I tried wines and other things but received very little benefit. I was young at the time and knew very little about medicines till a lady friend came to me with a bottle of Dr. Pierce's Favorite Prescription. I became strong and a year afterward had twins."—Mrs. J. Leary, Fort Coulonge, Quebec.

Thousands of women right here in Canada who are now blessed with robust health cannot understand why thousands of other women continue to worry and suffer when they can obtain for a trifling sum Dr. Pierce's Favorite Prescription, which will surely and quickly banish all pain, distress and misery and restore the normally health.

Young mothers who preserve the charms of form and figure in spite of an increasing family and the care of growing children are always to be envied. "Favorite Prescription" gives the strength and health upon which happy motherhood depends. It enables the mother to nourish the infant life depending on her, and enjoy the happiness of watching the development of a perfectly healthy child.

A GREAT BOOK THAT EVERY WOMAN SHOULD HAVE.

Over a million copies of the "The People's Common Sense Medical Adviser" are now in the hands of the people. It is a book that everyone should have and read in case of accident or sickness.

Send fifty cents (or stamps) for mailing charges to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and cut out this notice and you will receive the volume, postpaid, by return mail, at

—Mrs. John Crowe, formerly of Arran, died at her home in Port Elgin on Monday. The funeral will be held on Saturday afternoon at 1.30 o'clock.

—Mr and Mrs. J. G. Klingsborough, of Little Current, have been the guests of Mr. and Mrs. Thos. Switzer. Mr. Klingsborough is a brother of Mrs. Switzer.

—There has been a great deal of sickness among our people during the past few weeks, there being many cases of very severe colds, la grippe, pleurisy and pneumonia.

—Rev. Mr. Neilson, the new pastor of Paisley and Walkerton charges, arrived in town with his family last week, and has entered actively upon his ministerial duties.

—Pte. Stuart Ewing, of the 151st Batt., training at Vermillion, Alta., is another Elora road boy to add to the honor roll. He is a son of Mrs. Wm. Ewing, east of Maxwille, Alta.

—Paisley hockey team defeated Cheslley by a score of 11-6 in the last Northern League game of the season here. Play was fast and clean and the teams evenly matched. The Paisley line-up: Stewart, Blue, Heppenstahl, Dewar, Rivers, Diehl, Rendall.

—Pte. John McArthur was over from Owen Sound visiting his parents, Mr. and Mrs. Neil McArthur, Elora road north, for a couple of days. John has been employed in the G.T.R. office in the Grey Co. capital, but last week enlisted with the 147th Batt.

—Mr. Elias Bailey had an uneasy day following the Ottawa fire. His brother Dick is on the House of Commons police while Parliament is in session, and as he could not be located in the city at once, it was feared he was one of those who perished in the fire. He is still alive and on the job, however.

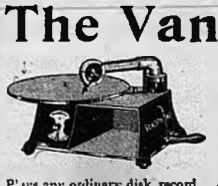
—Miss Cora R. L. Fisher, late teacher in the Entrance Department of Paisley school, left on Wednesday last for Brandon, Man., where she will take the position of teacher in art and literature. Miss Fisher has won the reputation of being one of the most capable lady teachers in Bruce, and has attained the standing of a specialist in art and literature.

WE MAKE SUITS

as cheap as the kind of suits that we make can be made for.

But we never go so low in prices that something must be slighted to get things to come out right.

Our lowest priced suits are good ones—neat, stylish, perfect fitting.



And as our prices advance, quality keeps them company.

We take pleasure in showing you.

H. B. PUTNAM & SON

Threshermen Meet

The Bruce Co. Threshermen's Association held a meeting in Paisley on Tuesday. A large number were present. Mr. Alex McCullivray (12th Bruce) is president, and N. E. Leeder, of Sangeen, is secretary of the organization.

Soldiers Training Here

The Paisley contingent of the 160th Battalion have started training at the armory here, under the direction of Lieut Horace Parker, a former Paisleyite, who enlisted with the 71st. He has been given a commission in the machine gun section of his home battalion.

Died in the West

Mr. John Collins received a letter on Monday telling of the death of Mr. Alex Campbell, formerly of Paisley, and at one time landlord of the old Northern Hotel. The deceased had been living with his son George, and had been in failing health for some time. The remains were buried in the cemetery at Shaunavon, Sask.

Fined $100 and Costs

Magistrates Gibson and Ballachey gave their decision on Wednesday in the charges against John Armstrong. The evidence was not sufficient to convict for selling liquor, but both of the charges for intimidating witness they found to be proven, and imposed fines of $50 and costs on each count. Counsel for Armstrong is moving to have one of the convictions quashed on technical grounds. D. Forrester appeared for the prosecution and A. E. McNabb for the defendant.

Locomotive Bell for School

The School Board have received on approval from the G.T.R. Co. a locomotive bell which will likely be purchased and hung in the school belfrey, to be used in sounding out the periods of study and play for the young generation of the village and section. This bell is probably taken from a wrecked or scrapped locomotive. It is of good bell metal, gives forth a strong, clear tone, and at the price asked for it, $21.05, is considered about the best bargain of anything purchased for the new school equipment. It will be installed as soon as weather will permit the work being done.

Tom Marks Coming Again

Tom Marks and his clever company with his Klilie Band will return to Paisley Town Hall for one night only, Saturday, Feb. 12th, presenting the rollicking comedy drama, "The Irish Attorney," with new vaudeville between acts. The prologue of the play: Two sworn friends, a musician and a poet, struggling for name and fame, find themselves in the clutches of poverty. Having no money or scarcely anything to eat, they are forced to sell every article of furniture in their humble apartments. So poor had they become that one suit of clothes must do the two of them. When one goes out the other one must stay at home, the poor are they to afford two suits of clothes of any description. They have reached the end of their existance, and unless aid arrives immediately they will be turned into the street as beggars. Prices 25c, 35c and 50c. Seats on sale at McArthur's bookstore.

The Housewife's Corner

What Farmers' Wives Want.

The farm women of the country, in response to inquiries from the United States Department of Agriculture, have been telling of the needs of housewives in rural sections.

They represent the average farmhouse as a model of inconvenience, and the housewive's facilities for efficient work as inadequate, clumsy and nerve-racking.

They pronounce many of the men indifferent as to how hard the women may have to work, what they must be deprived of, or as to any share they should have in farm finances.

They say that women must carry in wood, carry out garbage, pump water from outdoor wells and cisterns, work in poorly-lighted rooms, waste hours in cleaning and filling old lanterns and lamps that even then give no light, fight the fly pest in unscreened porches, put up with a thousand unnecessary hardships, and take millions of needless steps every year, all because men don't care so long as they get their food regularly and their own comfort is provided for.

One woman says she has to do the churning by hand, while her husband drives to town after a pound of nails or a pouch of tobacco.

Another says her greatest work is carrying wood and cobs to the kitchen range and removing the ashes.

Another says the main entrance to her house is the kitchen door, through which everyone enters, letting in flies, tramping in dirt, and that in her kitchen all the men wash their dirty hands and comb their hair, sometimes within three or four feet of the stove or table where the food is.

Another says her house is infested with mice and rats, that none of the rooms are decorated, and most of the floors are without carpets, rugs or matting; that there is no drain from the sink, no indoor sanitary closet or conveniences, no bathroom or hot-water heater.

Most women want pretty homes, or at least convenient ones, not just boxes with a few partitions and ill-advised arrangements.

They want blooming shrubbery in their yards, good fruit in their orchards, and gardens that yield something for the table. They want their lawns mowed and flower beds spaded. They do not want the chickens, hogs, horses and cows around the dooryard.

One woman affirms that her men have all the modern farm implements and machinery they require, while she has not an oil stove, a washing machine, a gasoline iron, a bread mixer or other such utensils about the house. She says her men are not unselfish or penurious, but they do not stop to think.

There is complaint of lack of walks about the house, absence of poultry fences, destitution as to handy helps, like vacuum cleaners, dumb waiters and kitchen articles.

Poor water supplies are the drawbacks in many cases. One protests in this way: "Why, here is dinner all ready; the men are coming now; baby is crying; the kettle has gone dry; no water in the bucket. She has to let the baby howl, run to the creek or pump, if such is in order; come in all heated up; hustle around; make things appear pleasant, so these men can enjoy their meal. Now, can this woman expect any benefit from her dinner?"

There is no land to the expression of want, but the burden of it is that country women want at least some of the comforts, conveniences and consideration shown to their sisters in city homes.—Selected.

Famous Old Desserts.

In days gone by the mistress of the house did not trust to her cook and maids to prepare dainties and special dishes intended for the honored guest. With her own hands, waited on by cook and maids, she made puff paste, fine pounderkake, custards, jellies and fancy trifles.

Sugar must be sifted, sometimes rolled or crushed fine, spices ground and fresh butter made, but the delicacies that were the result would today gratify our last esteems.

Some delicacies which have been handed down from one generation to another:

Peach Potpie.—Line the side of a deep dish with a paste made in proportion of one-half pound of butter or lard to a pound of flour. Then pare and slice in some peaches and sugar them to taste. The canned fruit will make a fair substitute at this season. Fill with cup of water, cover with top crust; leave opening in centre to permit steam to escape while baking in moderately hot oven. When cold serve with whipped cream.

Quince Pie.—Quinces are prepared in the same way as for quince marmalade. Make the paste and line the pie plates. Fill them with the marmalade; cover with lid of paste and bake. Quince pies made in this way with the canned variety are excellent during the winter when fruits are scarce.

Plum Pie.—Cut your plums in two and take out the stones. Make paste; line your pie plates and put in layer of fruit cake and one of sugar in the proportion of three-quarters of pound of sugar to one pound of fruit. Roll out some paste, cover the pies and bake in moderate oven. Leave an opening in the centre of the lid to allow the steam to escape while baking.

Guernsey Pudding.—Half-pound of beat suet, one pound of flour, half-pound of dried currants, half-pound of stoned raisins, two eggs. Nutmeg and cinnamon to taste and half a saltspoon of salt. Shred the suet, chop it fine and rub it through the flour. Wash, pick and dry the currants; seed the raisins and mix the currants and raisins together and dredge over them as much flour as will adhere to them. Beat the eggs until they are very thick and light and add enough milk to form a batter. Stir in the eggs, then the spices and salt and lastly the fruit. Dip your pudding bag into cold water, turn it inside out and flour it well. Then turn it back again and pour in the batter; tie the mouth of the bag with a strong string, but take care to leave space enough for the pudding to swell. Have ready a pot of boiling water; with a plate in the bottom to prevent the pudding from touching the bottom of the pot, put in the pudding and let it boil for two hours and a half. Keep a kettle of boiling water to fill up the pot as may be required. When the pudding is done, take it out of the pot, dip it for an instant in cold water, untie the bag and turn it out on dish. Serve with a sweet sauce.

Uniting the Family.

How many households have a family hour—a definite time in the week when all the members of the family gather in perfect serenity for an interval of genuine communion? Although civilization brings many advantages in its train, it has the great fault of tending to disrupt family intercourse. Each member has too many individual activities. Fathers have their business; sons, their business or education; mother, their domestic duties or social occupations; daughters, their business, their education, or their social life.

All these things are right and worthy in themselves, but they do not tend to weld the family. If members of a family will make it a rule to devote themselves for one hour in the week wholly to one another, the spirit of family life will be quickened and strengthened. Often the members of a family pursue parallel courses that do not intersect. It is mere platitude to point out that great events—travel, marriage, death, and the like—must inevitably cause disintegration. But so long as the family is together under one roof, the spirit of union and common interests should be fostered.

Useful Hints.

Run a thread around the hole in the stocking before you darn it.

Insects dislike both salt and alum.

Always boil new ironware before using it.

Don't put simple milk puddings in a very hot oven or the milk will curdle.

Turquoise ornaments should never be wet, but cleaned with a dry chamois.

Unless a turkey is very young it should be steamed for an hour before roasting.

Mix mustard with vinegar instead of water and it will remain fresh twice as long.

When chestnuts are in season they are a delicious addition (boiled) to a simple salad.

Pour olive oil into the bottle if you open a large bottle of olives. It will preserve the flavor.

When boiling vegetables never let them stop boiling until they are done, or they will be soggy and heavy.

Silver that is in daily use can be kept bright if it is left for several hours in very hot, strong borax water once a week.

Put a good big piece of charcoal in the dish in which bulbs are planted; it will keep the water from turning sour.

Water window plants through a funnel, holding the small end close to the soil and you will have no spattered wallpaper.

A teaspoonful of powdered borax added to the water in which clothes are rinsed will be found to whiten them considerably.

There is poor economy in buying cheap blankets; and all-wool blanket not only outwears the cheaper one, but is much warmer.

If a boot or shoe pinches, damp a sponge with very hot water and hold over the part that hurts. The leather will expand and so afford relief.

Paraffin oil is excellent for waterproofing kitchen floors. Apply it cold, with a soft rag, and it will dry instantly.

When you get anything in your eye do not rub it, but, if possible, plunge the eye into water, winking when the eye is full. The speck will probably float out.

The Visitor: "What crime brought you here?"
The Man in Stripes: "I burned down a fifty dollar shed.
The Visitor: "Great Scott! We settlers burned down a million dollars worth of Ontario's forests last summer and nobody said 'Boo!'"

(Newspaper note: "Eighty-five out of every hundred forest fires in Ontario during 1915 were caused by careless settlers. Unlike British Columbia and Quebec, settlers in this province have no supervision of their clearing fires during the danger season.")

THE SUNDAY SCHOOL

INTERNATIONAL LESSON, FEBRUARY 13.

Lesson VII.—Humbled and Exalted.

Phil. 2. 1-11. Golden Text—

2 Cor. 8 9.

The profoundest theological exposition in Paul's writings gets its supreme importance from its practical and casual nature. Paul teaches us to bring the commonest things into the light of the Incarnation.

Verse 1. The Greek is a little uncertain and is hardly translatable as it stands; the omission of a single letter in one thrice-repeated little word makes all clear and grammatical, and suits some ancient evidence. **Exhortation in Christ**—The preacher who "cheers" his people is speaking in a divine atmosphere: Christ is all round him and within him, so that his words are not his own. **Consolation of love**—When Love lies bleeding, it is only Love that can heal. **Fellowship**—For we can never enjoy the Spirit alone: the Gift is "forever shared, forever whole," as Whittier says.

2. **Make full**—Paul has more joy out of the Philippian church than from any other. But their very earnestness had indeed an element of strife; and Paul deals with this one sinner. Of the same mind—Like the stronger phrase at the end of the verse, this was never meant to forbid honest differences of opinion, the word does not include mental processes: it refers to the heart, and not the head.

3. The cure of partisanship and vanity is to be always looking for other people's virtues and not our own faults. This does not mean blindness to our successes, if we are mindful to set them all down to the indwelling Christ.

4. The word **each** of you, on its second occurrence, standing at the end of the verse in the Greek, may possibly be transferred to verse 5.

5. **Which was**—It seems impossible to get "which was" out of the Greek, which compels us to supply you have; in Christ Jesus will thus have the same meaning as elsewhere, the mystical. The "mind" they had "in Christ" was a perpetual heavenly-mindedness: let this reign also in their relations with one another. But the only way of attaining this is by Christ's living over again in us his human life of utter obedience. Hence the significant addition of Jesus, and the master strokes of the appended picture of that supreme life on earth.

6. Discussion of this problem verse being impossible, we will simply expound the view that seems most suitable. Since the purpose of this passage is to commend humility by Christ's example, the central thought must be that the earthly life of Jesus was one in which self-assertion had no part. He counted not his equality with God a reason for grasping what he was entitled to. He was always surrendering even the elementary rights of a man born in lowly station. And he did this because he was existing in the form of God, and was therefore embodying in human life God's own activities, who uses not force, but love, to win his way with us.

7. **Emptied himself**—"Of all but love," as Wesley adds in his great hymn. To become a real man he must leave behind all divine attributes incompatible with humanity—omnipresence, omnipotence, omniscience; but not love, for God is love. And since man was made in God's image, love is the essence of the Perfect Man. The "self-emptying" is described as **taking the form of a servant**; the King of kings becomes the subject of subjects. **Likeness**—As in Rom. 8.3, Paul is thinking of human nature as it is, which makes him put in the word that suggests the immense difference between Jesus and other men. The phrase **in fashion** (verse 8) similarly hints that, while the resemblance was deep and real it was temporary.

8. **Humbled**—The keynote again, for "lowliness" in verse 3 is the same Greek word. It had an undiluted flavor of meanness in non-Christian Greek, which used it only for grovelling, but in the life and death of the Nazarene men found the path to empire such as the world never saw. **Obedient**—To the Father, as in Heb. 5.8. It is in this perfect human obedience offered to God for the first time in history, and crowned by death itself, which was accepted because to avoid it would have been apostasy, that Paul finds the kernel of the atonement doctrine. For that Perfect Man has now taken up again all the powers of the very God, and he can live his life of obedience over again in his disciples' heart. Yes—The climax needs no expounding. A death which was verily the masterpiece of Satan reserved for slaves and ruffians, and by the Jewish law laid under the special curse of God—that was to be the final test of his obedience.

9. **Highly exalted**—Literally, "supersexalted," like "supercompuer" in Rom. 8. 37—favorite types with Paul. We have allowed Nietzsche to translate Paul above. The name—Compare Acts 1. 12. The supremacy of that Name is that it alone can be brought as a warrant in prayer. Angels and man living and dead whisper his name and are heard.

11. The phrase, combined with that of verse 10, is taken over from Isa. 45. 23 (compare Rom. 14. 11). Nothing could exceed the emphasis with which the prophet reserves this tribute to the one God. Paul appropriates it for Jesus and gives no sign that anyone would find the appropriation startling. It is just this incidental allusiveness of New Testament writers which makes the most impressive evidence that they took his deity for granted as a truth that needed no proof. **Jesus Christ is Lord** was the creed of the first age, sufficient and all-inclusive. Compare Col. 2. 6; 2 Cor. 4. 5; 1 Cor. 12. 3.

LUNGS OF A BATTLESHIP.

Ventilation of the Boiler and Engine-Rooms.

One of the most difficult problems in building a modern battleship is to secure satisfactory ventilation. She is such a complicated creature, made up of so many steel boxes, large and small, for the accommodation of officers, men, coal, ammunition, and stores; dotted here and there with so many steel ladders, automatic lifts, steel bulk-heads, and water-tight doors, varied here and there by miles of electric wires belonging to lights, telephones, bells, and motors, to say nothing of the endless mileage of pipes for flooding, draining, pumping, fresh water, fresh air or compressed air, and speaking-tubes.

First in importance comes the ventilating of the boiler and engine-rooms. When you begin to think of gangs of coal-black demons working away in the bowels of a ship at a temperature of 120 degrees; when, too, you commence to realize that unless the furnaces receive their required draught the speed of the battleship drops to below that of her sisters in the squadron, you appreciate the importance of the steam-driven fans to the furnaces and boiler-rooms. The supply of air comes down through large water-tight trunks which are continued right up to the weather-deck, armored gratings being provided at the protective deck.

For ventilating engine-rooms large electric fans are employed. So, too, the coal bunkers have to be ventilated, owing to the gas which the coal gives off. This gas when mixed with air forms an explosive; so, in order to prevent the possibility of injury to men or ship, a supply and exhaust-pipe are fitted in such a manner as to cause a current of air.

During the winter it is best to air blankets and bedding well.

SHADE TREE BUTCHERY.

"Rights" of Telegraph and Telephone Linemen Is a Fiction.

For years the people of Ontario have permitted themselves to be victimized by all sorts of specious claims regarding the rights of telephone and telegraph linemen, building contractors and others to destroy or mutilate shade trees.

As a matter of Ontario law, no one other than a specially deputed municipal officer has the "right" to remove or trim a shade tree. Linemen, contractors, etc., have no authority whatever in such matters and cannot legally remove any part of a tree without the permission of the owner or municipality. A few legal contests such as have recently occurred in the United States would impress this fact once and for all time upon the shade tree owners of Ontario. Only a few months ago a contractor was obliged by an American court to pay nine hundred dollars for cutting down two trees.

The chief flaw in our system or protection is that we have very few skilled tree inspectors in municipal employ, so that municipalities are themselves responsible for a great deal of the everyday butchery.

The Ontario statutes give a municipal officer delegated by the City Engineer power to remove a tree from private or public property on forty-eight hours' notice, but the owner must be recompensed for planting and protecting the tree. No live tree, unless within thirty feet of other trees, may be removed without consent of the owner of the property in front of which the tree stands.

The municipality shall not be liable for damage for the trimming of trees in parks or whose branches extend over streets if reasonable care has been exercised in the operation.

Any person destroying or injuring (even tieing a horse to) a street tree is liable to a fine not to exceed $25 and costs or imprisonment for not more than thirty days, half of the fine to go to the informant.

The "rights" of telegraph and telephone linemen to butcher trees is a fiction. They have no rights whatever over any tree on public or private property. This Association submitted several questions to the Attorney-General who replied: "I think it is quite clear that the owner would have the right to prevent a telephone company from stringing its wires in a tree planted by him in the street, because under Section 2, of the Ontario Tree Planting Act such a tree is deemed to be his property.

"It is also an offense under Section 510-b of the Criminal Code to destroy or damage a tree in park, pleasure ground, or garden or in any land adjacent to or belonging to a dwelling house, injuring it to an extent exceeding five dollars.

"It was expressly enacted by 4 Edw. VII., Clause 10, Section 74, that a telegraph or telephone company should not acquire any easement by prescription or otherwise as to wires attached to private property or passing through or carried over such property, so that no matter how long telegraph or telephone wires have been attached to a tree, the municipality or owner, if he has property in the tree, could compel the removal of the wire."

Since the law gives considerable latitude to any amateur municipal officer it is our plain duty as citizens to oblige our city and town councils to entrust shade tree supervision to a skilled person, and in the case of larger municipalities to appoint a technically-trained inspector or "city forester" as he is called in the United States. Municipal initiative is the weak point in shade tree inspection; the Ontario law is quite sufficient.—Robson Black, Secretary The Canadian Forestry Association, Ottawa.

STRANGLING ON LAND AND SEA.

The Allies Are Strengthening Their Grip on Germany.

Germany is starving in consequence of the cordon of battleships, cruisers, destroyers and submarines which is keeping her commerce from the seas, says the New York Herald. The situation of her armies may be likened to a blockade by land—to a great siege. Within a circle of many thousand miles the Teutonic and Turkish forces are hemmed. They have overrun Serbia, but they have put themselves in a pocket. They may overrun Arabia, but they will do the same thing, always extending their fighting line but never getting any nearer the much desired peace. They cannot move south to Paris, they cannot move west to Calais, they cannot move north or east into Russia, they cannot move south against the Italians, they cannot advance against the Intrenchments which have made the Allies masters of the situation in Macedonia and able to choose their own time for striking.

Thus the pressure is being applied and will continue until all the fight is squeezed out of the enemy.

Torres-Vedres gave Napoleon his first smashing blow, which was followed by expulsion from the Peninsula, the retreat from Moscow, the abdication at Fontainebleu and Waterloo. Now comes every indication irrevocable destiny is being worked out. The Allies have been slow but they have been sure, and the grip will strengthen as time passes, on land, on sea.

Other things are no scarcer than the teeth of a hen—a rooster's for instance.

THE GREATEST OF CEMETERIES

THOUSANDS OF GRAVES IN FRENCH LORRAINE.

Shifting of Battles May Be Traced By Following Lines of Wooden Crosses.

French Lorraine is the greatest cemetery in the world. Colonies of dead, marked by lines of crude wooden crosses, lies everywhere under newly-formed sod at the edges of woods and thickets and in ravines—German and French. The shifting of battle scenes may be traced by following them. They are thickest there where was fought the great battle for Nancy that began with the retreat of the French from Morhange and reached its climax during the battle of the Marne. The number has been continually swelled since in the 14-months' struggle in the Woevre and the Vosges.

Saint Genevieve Essey, the Amances, the Heights of Cuttes, Veaine, Gerbevillers of the Grand Couronne deNancy, Etain, the Epargen, the Bois Brule, the Bois Apremont, the Bois Saint Mansuy, and the Bois Le Pretre in the Woevre are so many cemeteries, nearly all of them with crosses bearing names already illustrious. Lionel Rieux, the poet, lies at Essey; Paul Vial, who received a bullet in his heart, in the Saint Mansuy Woods. Among the French buried at Gerberviller is Jean Martin, one of the most promising pupils of the French Art School at Ronie. He fell with the heroic handful of Chasseurs that held the Morteme there against 40,000 Germans during the 11 hours. Marcell Drouet is among those who lie at the summit of the Samagneux hill.

"To-morrow in Nancy."

The dead lie thickest perhaps at the Loisy Gap. After the Germans had captured Nomeny and Pont-a-Mousson, they sent a regiment to force this passage between two heights, held by a single company of French infantry. That gap became the tomb of the entire regiment.

The cemetery of St. Genevieve is not so dense, but far more extended than that of the Loisy Gap. The Germans, forced by the resistance of the company of infantry at Loisy to try a flank movement around the heights of Sainte Genevieve, obtained a success before the heights of Cuttes, where French crosses predominate. It was then, thinking he saw the route opening up for his troops, the Emperor of Germany issued his famous order of the day: "To-morrow in Nancy." Sainte Genevieve was still between His Majesty's troops and the Lorraind capital; it is to-day the cemetery of most of them. The French, too, fell in such numbers there as to disquiet the officers, who called the attention of Commandant M—— to the losses.

"No matter," replied the commandant, "we won't give an inch." It required an order from the general to induce him to take up a stronger position a little in the rear.

"In the Name of His Majesty."

During the attacks upon the plateau of Amance, captured on the 7th and retaken by General Dubial on the 8th, Emperor William is said to have observed the action from the edge of the Moral Woods, behind which were concealed the 10,000 horsemen of the Prussian Guard—his escort into Nancy. Velains fell and Uhlans and Bavarian infantry surged into the passage between the two heights of Amance. "If we can hold out the day it will be a miracle," said the French General in command. The three-inchers increased their fire to the maximum speed just then and mowed those Uhlans and Bavarians down before they could debouch from the defile; they lie there to-day in serried ranks over which a weedy sod has formed. The 10,000 cavalry of the guard galloped off toward Metz, and a parlementaire with a white flag asked, "In the name of His Majesty," for an armistice of 24 hours to bury the dead.

"In 24 hours," replied the French General, "when the Emperor shall have given sepulchre to his thousands of dead, we shall be ready for him again."

Flowers on French Graves.

An estimated proportion of three Germans to one Frenchman buried in the battlefields of the Grand Couronne de Nancy, extending in a semi-circle from Gerbevillera to Pont-a-Mousson, on the east bank of the Moselle, naturally takes no account of the thousands of Bavarian dead removed at night by rail toward Metz, after the battle of Sainte Genevieve, which decided the issue of the struggle for Nancy; nor does it comprise the heavy death roll of the French in annexed Lorraine, just over the frontier, in the disaster of Morhange.

The evidence of those who have visited all the battlefields of Lorraine and those who helped pick up the dead after the battle of Nancy tends to the belief that, taking the French dead in German Lorraine and the German dead carried from the field of battle, there is no exaggeration in the estimate of three Germans to one Frenchman as the proportion of those killed in the operations in the attack and defeat of Nancy.

Pious hands are caring for these cemeteries, even so close to the battle-front that the German heavy artillery often rakes up the sod and sends the crosses flying in splinters. Flowers are planted on all the French graves and the tricolor floats over many of them. The graves of the Germans are sacredly protected, but not decorated.

RESPECT KITCHENER.

German Press Likens Him to Duke of Wellington.

The most remarkably frank appreciation of any Englishman that has appeared in the German press since the beginning of the war is published by the Berliner Tageblatt, as the immediate result of Lord Kitchener's mission, about the effects of which serious Germans are plainly uneasy.

Lord Kitchener is evidently regarded by the writer as the modern Wellington, to whom he freely compares him, whilst the whole article is an appreciation of Lord Kitchener's military and organizing genius as follows:

Nothing is more stupid than to underestimate an adversary, and when England sends its best military man to the district in which possibly the war will be decided we have every reason to examine the man, his capabilities and determination, as impartially as possible. To begin with we cannot but admit that what Lord Kitchener has done in the course of this war as an organizer is deserving of the greatest respect. One must judge not from the English point of view, for it is impossible to apply the same standard to the work of a German and an English Minister of War. A German Minister of War would be ashamed of himself if he needed so much time and trouble as Lord Kitchener has needed to get together and prepare a similar force for operations. No such improvisation is necessary in our case, but in England, where in times of peace preparations have never been made for a land war on such a scale, it must be recognized that Lord Kitchener has created his armies and organization out of nothing.

It is easily understood, therefore, why the leading classes are not to be shaken in their confidence in him. Who is this man with whom we have to reckon in the future in the development of the struggle of struggles in the Eastern Mediterranean? He is a typical representative of English militarism, which, notwithstanding all disclaimers, has always existed and once had a similar representative, a man of the same stamp, like Wellington.

Lord Kitchener, like Wellington, determines his acts on grounds of practicability only.

REVOLT WHEN TRUTH TOLD.

Berlin People Already Doubt Some German Versions of War.

To the Paris Figaro a French-woman has written a letter from Berlin, describing in a very interesting manner certain conditions in the German capital. After telling of the daily increasing difficulty in procuring sufficient provisions and other necessities of life, the correspondent continues:

"Life here is becoming unbearable, and I am glad that it will soon be time for me to leave. The people here hate everything that is not German. They are absolutely self-sufficient, and nobody else is of any account. They will not admit the superiority of anyone, except God, perhaps.

"There is one thing in particular which exasperates them, and that is when they are referred to as 'barbarians.' They hate France well enough, but it is nothing compared to their hatred of England. To the English are credited the blackest crimes under the sun, and every German prays and hopes most fervently that the powers of heaven will some day strike and utterly blot out England.

"We are quite a few sympathizers of the allies here, and in spite of all the bad news we are treated to in the war bulletins, we are not getting discouraged. At the time of the latest French successes in Champagne, the German version of the event read like this on the bulletin boards: 'The French occupied a few of our advanced trenches, but we retook them presently.' But htey forgot to mention that these trenches cost them 120,000 men. Many have begun to doubt the veracity of the War Office and are murmuring over the unreliability of the news from the front. It is my opinion that these people, who have hitherto let themselves be led like sheep to the slaughter block, will become like wild beasts when they finally learn the truth."

And the Nurse Was Offended.

Doctor—Well, Casey, are the eyes improving?

Patient—Sure, they are, sir.

Doctor—Can you see better? Can you see the nurse now?

Patient—Sure, I can, sir. Faith, she gets plainer and plainer ivery day.

A False Note.

"I hear you ca-a-lling me," warbled daughter from the parlor.

"Yes," sang mother from the kitchen. "I want you to come here and help me with the dia-a-shes."

And then a profound silence reigned.

THE MAORI IN HIS "TOMMY ATKINS" AND HIS NATIVE UNIFORM.

Men of the New Zealand Maori contingent to the British Expeditionary force, when they got the King's uniform on, are men of a different color, so to speak.

GERMANY'S ARMY.

It Has An Increasing Tendency to Shrink.

Some calculations on Germany's wastage and reserves are given by Mr. Warner Allen, the British correspondent with the French armies. These calculations, he writes, are confirmed by a variety of sources.

From August, 1914, to the end of October, 1915, the total German losses amounted approximately to four and a half million men on the combined fronts. Of this total three millions may be taken as definitely hors de combat (dead, prisoners, or permanently disabled), while the remaining 1,000,000 may be considered as having returned to the fighting line.

There is a considerable amount of evidence to show that the German losses are much greater than they admit. The writer comes to the conclusion that during the last nine months of the war the German casualties have reached 300,000 a month, exactly as they did during the first six months. Not more than one-third of this total is able to return to the front, so that the German net losses amount to 200,000 a month.

To meet further losses Germany will be compelled to raise the age limit of military service above 45, and already a secret circular has been issued instructing the authorities to proceed to the preparatory registration of men between 46 and 50.

For some time past the numerical strength of the German Army has been stationary on the various fronts, with an increasing tendency to shrink. The number of men called up for active service since February last certainly does not exceed the number of casualties, and at the present moment the number of men in the depots does not exceed the number at that date.

To keep pace with the wastage Germany has been forced to exhaust almost all the reserves of men, and the work has been carried out with ruthless severity. Her last reserves are being rapidly used up, and if the numerical strength of her army can still be kept up for a limited time its quality has deteriorated, and must deteriorate more and more.

BOASTFUL BOMBARDIER.

A Tea-Party Meeting of Five of His Sweethearts.

Wounded heroes form many attachments in our county towns, says the London Daily Mail. Some men glide happily into one affair and let it ripen; but there are others who drift along the pleasant path to convalescence making a fresh conquest every afternoon. The story of a boastful bombardier illustrates the danger of falling in love more than twice at the same time.

The fire was glowing red in the recreation room of a hospital, and the men turned lightly to romance. Regarding the achievements of his colleagues as mediocre, single-string affairs, the boastful bombardier described no fewer than five simple maids who carried his photograph. The other men asked the names and addresses of the lucky girls, and the bombardier gave them with intense fervor. Late at night the other men issued five postcards inviting the maids to tea and signed "Joe," the name of the bombardier.

On New Year's Day the bombardier, sitting by the fireside, was pleasantly surprised to receive a visit. "Joe," said the girl, "how sweet of you to ask me." Secretly amazed, the bombardier coaxed her to the fire and winked a triumphant message to the other men, who stood about apparently glum with envy. But a horrible thing happened. Another maid, bringing gifts and tenderness, suddenly appeared. Two hearts the bombardier was fully competent to hold.

Conversation became jerky when a third girl arrived, and when the fourth skipped in the boastful bombardier crawled away "to order tea." He fled to the garden in a somewhat feverish condition. On the step he stumbled upon the fifth attachment. "Dear old Joe," she said, "where shall we sit?" "Let's go to the pictures," he answered quickly; "it was getting too hot in that ward."

ELECTRICITY ON THE FARM.

Being Taken Up By the Farmers of Great Britain.

During the past two or three years the employment of electricity upon the farm has undergone considerable development in Great Britain, says Chambers's Journal. One great objection to this system of illumination has been the fear that highly skilled labor is essential to its installation and maintenance; but the increasing utilization of oil-engines as a source of power has dispelled this illusion. Accordingly a British firm conceived the idea of putting on the market a complete electric-lighting installation of simple design, highly efficient, virtually "fool-proof" and capable of being installed and maintained by a farmer of average intelligence. At the same time the question of initial expense had to be borne in mind. However, an experimental installation was prepared, and displayed at an exhibition. It aroused instant and widespread attention, the average farmer having long since appreciated the inconveniences and dangers attending antiquated oil-lamp illumination. The result is that the farmer's electric set has come into extensive favor, and is having a promising vogue. The installation has everything that is required, including a small petrol-engine, some seventeen lights of various types to meet the decorative scheme of different apartments and buildings, sufficient supply of wiring, fuses, lamps, switch-board, dynamo, and a special type of storage-battery. Moreover, the set is made up in such a manner that nothing else whatever is required, while the task of installing can be carried out by the owner himself without any extraneous aid. The whole equipment is of substantial construction, the parts which ordinarily demand careful handling and supervision being unusually robust. The battery is of sufficient capacity to supply two-thirds of the lights at the rated candle-power for eight hours continuously, the battery being recharged during the hours when the light is not required.

Miss.

Ad in a paper: "Wanted—Bookkeeper and salesman. Must have one leg shorter than the other."

We were about to telephone this opportunity to a friend, when we suddenly remembered that what he had was one leg longer than the other.

Accommodating.

Her Father—The fact is, I cannot give my daughter a dowry just at present.

Suitor—That's all right, sir. I can love her for herself alone in the meantime.

"Hello, old man! Have you had any luck shooting?" "I should say I did! I shot seventeen ducks in one day." "Were they wild?" "Well, no—not exactly; but the farmer was!"

GO BACK TO OLD REMEDIES.

War Brings Return of Medicines of Grandfather's Day.

Physicians have been jumping from one drug or chemical to another ever since Lister found a way to check or prevent the infection of wounds. Doctors have tried friars balsam, carbolic acid, iodoform and dozens of other antiseptics, some of them very costly, and now seem to have gone back to old fashioned household dressings of past years and even past centuries.

On the battlefields of Europe sugar, salt, tincture of iodine and common garlic have superseded drugs and chemicals with high sounding names. The New York Commercial states. Sugar is used as a dressing for wounds already infected. The British Government has found that wounded men on ships, whose injuries have been washed with common sea water, make better recoveries than those treated in field hospitals, the conclusion being that the waters of the ocean are an ideal antiseptic. Tincture of iodine, a preparation as old as the hills, is the favorite protection against lockjaw; and so it goes.

Of all these reversions to grandmother's specifics, however, the discovery that garlic is almost a cure-all is the most striking. Doctors who prescribe and use only the most costly and new-fangled preparations imported from Germany will have to give respected attention to garlic, for its efficacy is vouched for by the London Lancet on the testimony of two eminent London surgeons. Garlic applied to a wound stops the infection and heals quickly, whereas modern antiseptics used in fashionable practice injure the tissues. Garlic has been tested thoroughly at the Paddington Infirmary, in London, as well as in field hospitals in France.

The story of the rediscovery of garlic possesses human interest. An old French peasant woman was found to have dressed the sores and wounds of soldiers in the war zone with remarkable results. An army surgeon investigated, and garlic is sold by the ton where it was formerly sold by the ounce in England chemists' shops. Garlic juice, diluted with three or four parts of distilled water, seems to be the standard dressing.

Garlic is also found to be effective in preventing tuberculosis and in curing it in its early stages. The common onion, cousin of the clove of garlic, is good for colds. Hindus have used plasters of garlic for ages. Just when speculators have cornered the drug and chemical market, army doctors find substitutes in things that are cheap and plentiful.

TRENCH LUXURIES.

Soldiers Have Wire-Netting Beds and Paved Trenches.

The French armies are undertaking their second winter campaign under conditions which are luxury compared with the improvised arrangements for their comfort made last winter. Warner Allen, representative of the British press with the French forces, states that so highly organized are the conditions now that not only has the army very little to fear from cold, but also the life of the soldier in the trenches apart from the dangers inseparable from war, is more healthy than his ordinary existence in time of peace.

While Germans in the first line are given only one meal a day and have to be contented at night with the coffee served out to them and with such provisions as they have been able to buy for themselves, the French commissariat has never failed to provide the entire army with two good meals a day. An extra ration of meat is now given to the men most exposed, and when the temperature requires it, hot drinks.

The most radical form, however, is in making the trenches comfortable and healthy. They are even being drained and paved, and powerful pumps have been installed to clear out the water. The walls of the trenches have been strengthened. To make the shelters damp-proof the ground has been beaten down, levelled, and covered with planks or straw, the earthen roofs strengthened with sheets of zinc, and due attention paid to ventilation and heating. In the second line wooden huts have been erected. The beds in these shelters consist of wire-netting stretched on a wooden frame.

He Knew Father.

The philosopher is born, and not made. Even in tender youth the precious gift is often observed, remarks the Manchester Guardian.

One juvenile philosopher was discovered the other day, when the news arrived at a certain house that the head of the family, fighting with his regiment in France, had been wounded. Tears were the order of the day, until the small boy thought to inquire, "Whereabouts was dad wounded?"

He was told, "In the hand."

"That's just like father," he responded, going on methodically with his breakfast; "he's been trying to catch the bullet!"

Speedy Dogs

The swiftest dog in the world, the borzoi, or Russian wolfhound, has made record runs that show 76 feet in a second, while the gazelle has shown measured speed of more than 80 feet a second, which would give it a speed of 4,800 feet in a minute if the pace could be kept up.

"TRENCH RABBITS."

Many Children Haunt the Lines at the Front.

In Lady Inglis's narrative of her experiences during the siege of Lucknow, half a century ago, nothing caught the attention of the public more generally than her description of how quickly the children in the beleaguered residency became accustomed to living under fire. They lost all fear of bullets, were only momentarily startled by the crash of a shell close at hand, and used to beg hard for the privilege of leaving the more sheltered women's quarters to play in a little inclosed garden, despite the fact that their swing had been carried away and their pet goat slain there by cannon fire, while bullets pattered so frequently against the walls that it had ceased to be fun to run and pick them up while they were yet hot. Before the siege ended, some of their little playmates had been killed and some wounded; but the survivors, pining in the heated rooms, were not a whit less eager for tag and hopscotch in their dangerous playground.

Few, indeed, were the children who shared the perils of that time, compared with those endangered, injured, and slain in the fearful European war of to-day. Leaving aside atrocities, or intentional injuries to children,—of which one can scarcely bear to think,—the exigencies of warfare along so many hundred miles of trenche running through so many ruined and half-ruined villages, have brought many scores of children within the danger zone. Often they become, like the Lucknow children, quite fearless, learning to disregard the most terrifying sights and sounds. They help their mothers to work in the fields under fire quite as a matter of course; and it is their frequent tendency, with the natural curiosity of childhood, rather to approach the firing line than to keep away from it. Despite rules and orders, they occasionally reach the second, and even the first line of defense, and pay surreptitious visits to the soldiers in the trenches. There they are both scolded and welcomed. In some cases orphan waifs have been practically adopted as individual, company, or regimental pets and mascots. So numerous are the children who haunt the lines in certain regions that the soldiers have nicknamed them "trench rabbits."

Not always to the poor little "rabbits" escape unscathed from their dangerous tasks in the open, or from associating with their soldier chums. Wounded children are not common; yet, unfortunately, they are not very rare in the hospitals near the front. When they are brought in, a nurse has testified, they are often clinging tightly for consolation to the toys contrived or carved for them by their grown-up playfellows in the trenches, in the monotonous hours of waiting between assaults.

One little lad, wounded in the foot by shrapnel, went under ether to have his mangled toes removed, still clutching tightly in his hand a woolly lamb, made for him by a British "Tommy" from a scrap of his own torn sheepskin coat and a few bits of whittled wood. As the child's fingers relaxed, it was removed and forgotten. But no sooner had he recovered consciousness than his first inquiry and demand was "Where is my lamb? I want my lamb that Monsieur Tommee made for me."

The lamb was found, but it had been allowed to fall to the floor, and the white fleece was stained with blood. The nurse offered to wash it off, but the little fellow was not willing to wait.

"Let me have my lamb now," he begged. "You can tie a bandage round him, and I will play that we have both been wounded by the enemies of our country."

When his friend, "Monsieur Tommee Atkins," and "Monsieur Tommee's" comrades heard about it, they made a number of other lambs and sent them to the hospital, so that the boy's convalescence was cheered by shepherding a noble flock, of which he never tired, among the hills and valleys of the "Land of Counterpane."

TERRIBLE IN TRENCHES.

Winter Campaign Worst in History, German Experts Say.

An exceptionally frank admission of the terrific conditions faced by German troops going through the second winter's campaign is contained in an article by Major Moraht, military expert of the Berliner Tageblatt and the best known German military critic. He described unparalleled hardships and sufferings by the Kaiser's men and calls the winter campaign the most terrible in the world's history.

"Superhuman deeds still are being accomplished in the struggle against wind, weather and winter. I will not depict in detail the agonies which the flesh is undergoing out there while the spirit remains steadfast, but in order that we at home may not minimize the magnitude of this suffering, I can only describe as fully justified the wish which is so often expressed in my correspondence, namely: 'Let no one be misled by pretty pictures which now and then reach the German papers from some alleged point at the front.'

"On our western and eastern fronts and along the lines held by our Austro-Hungarian allies the conditions under which we must stubbornly hold out are such as never in the history of the world's most terrible winter campaign had to be endured before."

A little fish in a small paddle imagines he is big.

The Paisley Advocate

PAISLEY, FEB. 9th, 1916

Prof. Reithdorf, in a recent lecture at Milverton, dealt with the life of the boy in Germany. He showed why the man became submissive to authority in that from his birth he was kept under a rigid discipline and was not permitted in any way to act for himself, being state controlled in religion as in everything else. His address was a revelation to many, says the Milverton Sun.

—Under the voluntary recruiting system Britain has enlisted 14.2 per cent. of the male population for the present war. Germany, with conscription, cannot put more than 10.7 to 11 4 per cent. of her population into the field, and France only about 10 per cent. This is a fact which history will remember, says "The Nation," of London, Eng. In the face of this fact, there are some British politicians who will not be satisfied until they see conscription in force.

—The Tp. Councils of 1916 may already be getting down to pulling weeds in a formal way, so to speak, but throughout the coming season the actual work of eradicating the noxious crop should be attended to much more effectively than heretofore. Delegates to the Experimental Union meeting at Guelph last month had no hesitation in saying that the enactment of the weed eradication act as at present is a joke, and its abuses make it almost ridiculous. It is supposed to be in force in about 150 townships, and it was shown that in only 15 of these was the measure operative. Let the townships in Bruce become leaders in the weed-destroying campaign and it will both redound to their credit and be a pecuniary benefit to every farmer.

—The burning of the Parliament buildings at Ottawa on Friday night will do more than anything that has previously occurred to awaken Canadians to the German menace. While there is as yet no positive evidence that the fire was caused by an incendiary plot of the enemy, there are some circumstances connected with the conflagration that are sufficient to cause strong suspicion at least, and by many are accepted as evidence of such a crime. We have a great many Germans in Canada, the majority of whom are right loyal citizens, and scores are enlisted with our troops on the side of world freedom. There are, however, all too many Teutons in the Dominion who remain German in sympathy and would readily promote the cause of Kaiserism in this country. The Canadian authorities would do well to place these dangerous aliens under surveillance and guard, first using reasonable discrimination in spotting those who should be put under the ban. The German bomb planters have already demonstrated in both Canada and the United States what they are capable of doing as opponents of Britain. Unless the Allies can make an impression on the enemy's fighting position in Europe soon, we in Canada may look for trouble from the German American direction. It would be a move worth while, if only to make it necessary for Canada to hold her soldiers for home protection rather than allow them to be added to the Allies' strength on the fighting line. The report that thousands of rifles have been distributed as German munitions in the U.S. along the Canadian border is one that may prove true at any time.

MAKING FOR PROHIBITION

From 75 to 90 per cent of the voters in ready municipalities attached their signatures to the petitions put in circulation throughout Ontario by the Committee of One Hundred.

The Toronto Star says that Mr. Warburton, chairman of that committee, declares that he "has absolutely no doubt that the Government will act favorably" on the immense petition when it is presented, Mr. Warburton is reported to have put himself in touch with Premier Hearst and other members of the Government, and when he now speaks so confidently it evidently means that he was not met in any hostile spirit, and gathered the impression from them that if the Committee of One Hundred could produce evidence that public opinion favored prohibition the Government would not put obstacles in the way.

It looks as if Ontario would have prohibition. The petitions were signed overwhelmingly. It is fair to suppose that Mr. Warburton has good ground for his confidence in the coming action of the Government, for it is not reasonable to think that those behind this movement would have been encouraged by leading men of both parties to go ahead and circulate petitions in every polling subdivison in the province unless, when the work was done, importance was to be attached to the result.

At this moment prohibition seems nearer than it ever did before in this province. No petition was ever signed as this one has been. It has been circulated with the assistance of some men supposed to be close to the Government, and Mr. Warburton, who has been in charge of it, declares himself confident of the Government's action in carrying out the popular desire as manifested by the support the petition has received.

THE SUPPLY OF MEN

The Toronto News considers that the aim of Canada in reaching 500,000 men bearing arms will practically include all the men this country can spare, without crippling it, industrially and agriculturally. The News says in part:

"It is doubtful if the enlistments in the various military districts have been on a proportionate equality. Three military districts are formed in Ontario. So far they have enlisted 31,766 men. The total population of men over 21 years of age in this province is 703,127, less 50,000 aliens, which gives 653,127 of human resources. The percentage of enlistment to population in Ontario so far is a shade over 12. We propose to raise four more divisions, practically as many as are already enrolled. Quebec's two military districts have enlisted 24,701 from a population of males over 21 years reaching 475,666, less 16,500 aliens, from 460,166, a per centage not much over five. Three divisions are expected from Quebec province—60,000 men—nearly three times as many as have joined the colors so far.

"The west—three divisions have provided, so far, 80,794. The population of British men over 21 in the four provinces west of the Great Lakes is 414,334. The magnificent enrollment of 19 per cent has not wearied the west. Seven more divisions will be called for, 114,000 men. Can the country afford to lean so hard upon the west? Should it not be possible to take count of our human and agricultural resources, husband them as carefully as possible and—avoid riding a too willing horse to death?"

The Brantford Expositor considers that the tone of the News' article makes it certain that there is need for system in recruiting men, and that the Government should move in the matter. It may not be easy politics to assume this responsibility, but the half-million men who are being asked for are not likely to be raised until the present haphazard methods of securing recruits are replaced by something better.

SHE RECOMMENDS "FRUIT-A-TIVES"

Mrs. Corbett Read the Advertisement and Tried It

Avon, May 14th, 1914.

"I have used 'Fruit-a-tives' for *Indigestion and Constipation* with most excellent results, and they continue to be my only medicine. I saw 'Fruit-a-tives' advertised with a letter in which some one recommended them very highly, so I tried them. The results were more than satisfactory, and I have no hesitation in recommending 'Fruit-a-tives'" ANNIE A. CORBETT.

Time is proving that 'Fruit-a-tives' can always be depended upon to give prompt relief in all cases of *Constipation and Stomach Trouble*.

50c. a box, 6 for $2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

To Our Subscribers

Our Mailing Lists

have been corrected right up to Feb'y 8th, and all payments on subscription are duly credited by a change in the date on label.

The date to which subscriptions are paid is indicated by the month and figures found thereon.

If the label reads Jan 17, it is paid to Jan 1st, 1917. A label marked Jan 16 is paid to Jan 1st, 1916—and so on down. Where the figures read anything less than 17 the subscription is in arrears, and the subscriber has a little duty to perform to get right with the publisher. Do it now, and save a little money.

Look at Your Label.

$1.00 Rate will be Accepted Until March 31st.

WE do not wish to spring the increased subscription rate upon any subscribers without giving ample time to pay up to the end of 1916 at the old rate of $1 per year. Therefore we have decided to defer enforcement of the new rate until March 31st.

LOCAL AND DISTRICT NEWS

Red Cross Shipment

The following supplies contributed by Paisley Red Cross ladies were sent to headquarters in January: 16 pairs socks, 1 pair trigger mittens, 1 scarf, 23 flannel shirts, 2 pair pillow cases, 54 handkerchiefs, 78 face cloths, 12 bed pan covers, 6 fomentation wringers, 36 bandages, 1,682 mouthwipes.

Death of Oldest Bruce Co. Publisher

Mr. William Wesley, of the Walkerton Herald and Times, succumbed on Friday last to an acute attack of lagrippe. Mr. Wesley had been almost continuously in the printing and publishing business in the county town for about 35 years, and was the dean of the fraternity of Bruce. He was 62 years of age.

Four Months in the Trenches

Sergt. A. E. Babcock, in his last letter from Belgium to his brother Sam here, says they have been somewhat busy for the last few weeks. He is in the best of health, although he has been almost four months continuously in the trenches. "They have started to give us leave now, however," he says, "and I expect a few days in England before very long. We haven't had any snow here (Jan. 17th), although it seems cold enough at times. But it is the dampness that makes it so disagreeable, and I forgot to mention that I haven't seen Tom for about a month, but got a card from him a few days ago, which left him quite well. They seem to go into the trenches now about the time we go back to divisional reserves. I will have to close before I see too much, as the censor is very strict this while back. One man got six months for saying too much a short time ago."

Osborne—Kelly

A quiet but pretty wedding was solemnized at the home of Mrs. Theo Kelly, on Wednesday morning, Jan. 26th, when her daughter, May became the bride of George Osborne, a popular young farmer of the 2nd of Saugeen. Promptly at ten o'clock to the strains of the wedding march played by Miss Sawers, the young couple who were unattended took their places under an arch of evergreens and union jacks and conventional wedding bells, where Rev. E. H. Sawers securely tied the nuptial knot in the presence of a few immediate relatives of the contracting parties. The bride, who was given away by her brother Charles, looked charming dressed in a gown of net over white satin, and carried a bouquet of carnations and ferns. After a dainty wedding breakfast was served the young couple left for Toronto and other places, carrying with them the good wishes of all present. Having returned from the trip, Mr and Mrs Osborne are at home to their friends.

Recruits May Help in Seeding

Men training for overseas service will be allowed to take part in the spring seeding throughout the Dominion. A short time ago Mr. R. N. Lewis, M.P., called the attention of the Minister of Militia to the fact that it would be desirable for Canada to plant as large an acreage as possible this year, that a great crop be grown and garnered for the benefit of Canada, of Great Britain and of the Allies. General Hughes is therefore issuing orders through the divisional commanders that men in units throughout the country may obtain leave of absence from their military duties in the spring for a sufficient length of time to enable them to plant the seed for the crops in every province in Canada. In doing this, Gen. Hughes is following the precedent of last autumn when the soldiers in training were allowed to help with the harvest.

School Board

At the regular meeting of the School Board on Monday evening the report of Continuation School Inspector J. P. Hoag was received. The report was considered quite satisfactory as to the working of the classes. Some recommendations as to the purchase of books for library, etc. will be carried out. Mr. Hoag made the following comment in referring to the school: "I congratulate the Board and the citizens generally on the fine new building which has been erected for school purposes. The building is a credit to the village and indicates that Paisley is alive to the need of affording suitable advantages to its youth." The Board decided to increase the insurance to $15,000 on building and $1,500 on equipment. The salaries for January and the following accounts were ordered to be paid: Bell Telephone Co., $2 30; G. T. R., on bell, $21 05; Mail, for advertising, $7 68; Globe, $7 56.

Death of Wm. Adams

There passed away in Paisley on Thursday last one who came into this part of the country at the early age of seven years, and began life on a farm whereon not a single tree had been cut before his arrival. That was in 1851. The Adams family arrived in Canada from Glasgow that year, and after a couple of weeks' stay in Hamilton, trekked northwestwards to the wilds of Bruce. From Walkerton they came down the Saugeen river on a raft, disembarking at Dunblane, and made their way to the farm the father had bought on the Elora road north. There William Adams, the subject of this sketch, spent 59 years, in the quiet but industrious life of a tiller of the soil, coming three years ago with other members of the family to live in Paisley. For five years the deceased was afflicted with a nervous trouble and was not able to be out much. His final illness was of only a few days' duration, from meningitis. The deceased was not married, and is survived by two sisters, Misses Jane and Margaret, and one brother, Robert. The funeral took place on Saturday afternoon to Salem cemetery, Rev. G. C. Little conducting the services.

—As an illustration of the Irishman's fondness for war, the following story is told: An Irish soldier, terribly wounded, was being cared for in a hospital in France. "This is a terrible war," said the doctor, while engaged in dressing Pat's wounds. "Y—s," said Pat. "It is indeed a terrible war, but it's better than no war at all.

VILLAGE COUNCIL

Met on Friday, Feb 4th, members all present. Minutes of last meeting read and adopted.

Communications were read from Muskoka Free Hospital for Consumptives and from Hospital for Sick Children, soliciting grants, and from Paisley Public Library board for usual annual grant.

Mrs Bain and Mrs Muir addressed the council, requesting arrangements for a clubroom for the volunteers for overseas service during their stay in Paisley.

The clerk reported a shortage of 2255 lbs of coal on car delivery.

George—Nicholls—That the usual annual grant be made to the Sick Children's Hospital and to the Muskoka Free Hospital for Consumptives, each $5.—Carried.

Moss—Sparrow—That payment of $100 be now made to Paisley Public Library Board as part of annual grant of $175, hereby granted.—Carried.

George—Nicholls—That payments be made as follows: Mrs Leitch $21 66, W T Howe $25 00, Electric Light Co $47 19, Hospital for Sick Children $5, Muskoka Free Hospital for Consumptives $5, Library Board $100, Frick Coal & Coke Co $89 93, G T R, $159 58, E F Boyle $43 42, D Sutherland 75c, W Sparrow $1 32, Thos Sparrow $1 22, Alex Blue $1 21, John Shaw $1 22, John Beaton 58c, Rich Pearce 48c, John Stoddart $24 15, J C Gibson, J P, $13 73, weighmaster $9 18.

McGillivray—Brown

A quiet and pretty wedding was solemnized at the home of Mr. Robt. Brown, con. 8, Bruce, on the evening of Jan 26th, at 6 o'clock, when Rev. A. McNair united in marriage the youngest daughter, Florence Alma to Mr. John H. McGillivray, son of Mr. and Mrs. Alex McGillivray, con. 12, Bruce. The bride, who was given away by her father, looked charming wearing a lovely gown of rich ovetface over silk, and corsee of duchess satin, and wore the customary veil caught in cap effect with orange blossoms, and carried a shower bouquet of maiden hair fern and carnations with lilies of the valley. Little Vera McLean, cousin of the bride, assisted the bride as flower girl, carrying a basket of ferns and carnations. The wedding music was beautifully rendered by Mrs Thos Brown, cousin of the bride, who also looked charming in white satin with beaded embroidery over net. The groom's gift to the bride was a beautiful pearl crescent, and to the flower girl a gold locket set with brilliants. At the signing of the register Mrs. Thos. Brown sang "O Perfect Love" in a most pleasing manner. After the ceremony a sumptuous dinner was served in the dining room. The guests were limited to near relatives. The popular young people were the recipients of many handsome and costly gifts tending to show the high esteem in which they are held by their many friends.

Eye Aid.

Just how much is required must be accurately measured. Too little would only partly relieve the trouble. Too much would injure the eyes. We use the best modern optical appliances, absolutely correcting optical defects and guarantee satisfaction.

A STOPPED WATCH

—one that will not go AT ALL—does not cause as much bother as one that runs now fast, now slow, in an erratic fashion.

The first you don't pretend to depend upon—the other is a constant source of annoyance.

Most people can afford a watch, but no one can afford an uncertain fast and slow one.

And when our Repair Department is so close at hand there is really no excuse for carrying anything but an accurate time-piece, no matter what the first cost was.

Consult us about any watch troubles that may arise.

MESOPOTAMIA AND GREAT BRITAIN

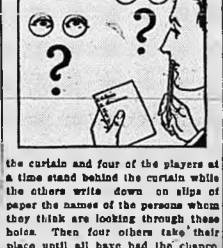
Great Variety of Agricultural Wealth Throughout Varied Season Always Invited Strong Powers to Seize the Fat Valleys —Willcocks Planned to Surpass Egypt.

Whatever may be the fate of other neighboring regions Mesopotamia seems certain to be subject to an external power. Its position, along with its character, has prevented it often or long, if ever, playing a really independent part. The great rivers have never been boundaries or barriers. The country has always been desirable. It has never had natural boundaries. The Arabian desert on the west serves to raise but not support hordes of greedy fighters who have periodically swept in for plunder and for temporary overlordship in the cities. The plains of Persia are not separated from the fat valleys by any mountain or river barrier and these plains have been the breeding place of marauders perhaps less fierce but certainly better organized than the Arabs. Never have the dwellers in the valleys succeeded in establishing themselves in the mountain strongholds of Armenia so as to prevent the mountain dwellers from passing each other down into the plains. The armies of Egypt and Greece and Rome have always found the way around from the northwest between the desert and the mountains whenever they wished to contest with the forces of the east for the mastery of the wealth of the Eden country. Even the British Indians will need the energizing power of British leaders if they are to retain their strength of body and spirit beyond the period when the toil of reclaiming the land shall have been succeeded by the lighter toil of reaping the great harvests of the land.

The Seasons Reversed

The enervating nature of this land of trying climate and easy crops is indicated both by the unhappy history of the land and by an account of the productiveness of its various districts and natural divisions. Everywhere vegetation begins in November, thus reversing the Occidental seasons. In December the first rains clothe the plains with verdure. By January many bulbous plants are in bloom. By June there is a full summer development of crops and by September vegetation is entirely burned up. August and September are low water in the rivers and March to May is the flood season, so that the most water is available for irrigation during the very season when the crops can also get direct rainfall.

Exceedingly fertile is the tract between the Belikh river and the Euphrates is in its middle section exceedingly hopeful. The plain from Urfa or Edessa to below Harran, whence Abraham came, is a rich red-brown humus, capable of great prodcetiveness and year-round crops if irrigated. And this section is but one portion of the land and one far remote from the heart of the Mesopotamian country. Then the rolling plains west of Mosul are intersected by the many streams of the Khabur system, 360 in all, which under favorable political and administrative conditions would produce a marked fertility.



Willcocks Hoodwinked Huns

Around Bagdad Sir William Willcocks threatened before the war to draw every drop of the great Twin Rivers and to leave the city high and dry. This could not prevent Bagdad from being still a great city, while it would make of southern Mesopotamia a great country. Now the Bagdad region is a steppe, covered with selenite and beset with nomads. The purpose of Herr Moltsner, the German lord of the Bagdad railway, was to use the brains of Willcocks to make Mesopotamia a vast German granary, but Willcocks had other ideas in his head as the Germans have found since the war. In twenty years under Willcocks Mesopotamia would have outstripped even the fertility of Egypt. Once upon a time this part of the world supported twenty men to one that it supports now, and it can do so again. It is merely a question of water.

Already the variety of production in Mesopotamia gives promise of enormous quantity. The list includes wheat, barley, rice, millet, lentils, vetches, cotton, hemp, tobacco, cucumbers, melons, watermelons, figs, dates, plane, poplar, willow and sumach trees. Such animals thrive as camels, goats, sheep, buffalo, Indian zebus, in order of importance. The big items in the future will be wheat, rice and cotton—if Mesopotamia gets water everywhere instead of rivers.

"Whoa! Eyes"

Hang a sheet in a doorway and in the sheet cut small holes at proper spaces apart for persons to look through and at different heights from the floor. Half the players go behind

the curtain and four of the players at a time stand behind the curtain while the others write down on slips of paper the names of the persons whom they think are looking through these holes. Then four others take their place until all have had the chance. Then the others change places with them, so that the guessers become the guessed. The holes are numbered 1, 2, 3, 4 in groups so that the answers may be written opposite the numbers

E B MCCURDY, Teacher

Old Germany has done her worst,
The blood has now been shed:
He struck the blow, and struck it first
The Belgium's helpless head.

This dreadful work we'll not allow,
The Allies all do say,
To Germany we'd have to bow
If they should win the day.

But let us hope and trust to-day
That such can never be;
We'll strike aright with all our might,
And defeat old Germany.

Now mothers, wives and sweethearts, too,
Your men we do admire;
It will take those darlings brave and true
To save the old Empire.

So keep your banner floating high,
The Allies will defend her;
For the British boys are no play toys,
They're shouting "No surrender!"

—COM.

BORN

PACE—In Bruce Tp., on Feb. 6th, to Mr. and Mrs. Geo. Pace, a son.

Thinks He Is Poor

That young man who thinks he is poor because he has no bank account little understands the value of God's free gift of health and strength, little appreciates the fact that the brightest and best of the country are self made, and come to the notice of the world from just such beginnings. Not by life meaning that they are poor, but by going carefully to work, perfecting themselves in their chosen pursuits and becoming so useful to those about them that their services are always in demand whether it be on the platform, in the shop or in the kitchen, for all are honorable alike.

Children Cry

FOR FLETCHER'S

CASTORIA

—An Illinois woman who is 103 smokes a pipe regularly and never wore a corset. Still, we must say, remarks an exchange, we prefer a modern woman who wears corsets and doesn't smoke a pipe, even if she shuffles off the mortal and corset coils before attaining the years of the Illinois veteran.

HEAT FLASHES, DIZZY, NERVOUS

Mrs. Wynn Tells How Lydia E. Pinkham's Vegetable Compound Helped Her During Change of Life.

Richmond, Va. — "After taking seven bottles of Lydia E. Pinkham's Vegetable Compound I feel like a new woman. I always had a headache during the Change of Life and was also troubled with other bad feelings common at that time — dizzy spells, nervous feelings and heat flashes. Now I am in better health than I ever was and recommend your remedies to all my friends." — Mrs. LIZZIE WYNN, 2812 E. O Street, Richmond, Va.

While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound.

Such warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness.

For these abnormal conditions do not fail to take Lydia E. Pinkham's Vegetable Compound.

THE

Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER V.—(Cont'd).

Saxon began to feel that he had never lived before. His life, in so far as he could remember it, had been varied, but always touched with isolation. Now, in a family not his own, he was finding the things which had hitherto been only names to him and that richness of congenial companionship which differentiates life from existence. While he felt the winelike warmth of it in his heart, he felt its seductiveness in his brain. The thought of its ephemeral quality brought him moments of depression that drove him stalking away alone into the hills to fight things out with himself. At times, his canvases took on a new glory at times, he told himself he was painting daubs.

About a week after their arrival, Mrs. Horton and Miss Filson came over to inspect the quarters and to see whether bachelor efforts had made the place habitable.

Dusks was as delighted as a child among new toys. Her eyes grew luminous with pleasure as she stood in the living-room of the "shack" and surveyed the confusion of canvases, charcoal sketches and studio paraphernalia littered its walls and floor. Saxon had hung his canvases in galleries where the juries were accounted sternly critical; he had heard the commendation of brother artists generously admitting his precedence. Now, he found himself almost fearfully anxious to hear from her lips the pronouncement, "Well done."

Mrs. Horton, meanwhile, was sternly inspecting the premises from living-room to pantry, with Steele as convoy, and Saxon was left alone with the girl.

As he brought canvas after canvas from various unturned piles and placed them in a favorable light, he found one at whose vivid glow and masterful execution, his critic caught her breath in a delighted little gasp.

It was a thing done in daring colors and almost blazing with the glare of an equatorial sun. An old cathedral, partly vine-covered, reared its yellowed walls and towers into a hot sky. The sun beat cruelly down on the cobbled street while a clump of ragged palms gave the contrasting key of shade.

Dusks, half-closing her eyes, gazed at it with uptilted chin resting on slender fingers. For a time, she did not speak, but the rapt head bent her delight in her eyes. At last, she said, her voice low with appreciation:

"I love it!"

Turning away to take up a new picture, he felt as though he had received an accolade.

"It might have been the very spot," she said thoughtfully, "that Senor Ribero described in his story."

Saxon felt a cloud sweep over the sunshine shed by her praise. His back was turned, but his face grew suddenly almost gray.

The girl only heard him say quietly:

"Senor Ribero spoke of South America. This was in Yucatan."

When the last canvas had been criticised, Saxon led the girl out to the shaded verandah.

"Do you know," she announced with severe directness, "when I know you just a little better, I'm going to lecture you?"

"Lecture me! His face mirrored alarm. "Do it now—then, I shan't have it impending to terrorize better acquaintance."

She gazed away for a time, her eyes clouding with doubt. At last, she laughed.

"It makes me seem foolish," she confessed, "because you know so much more than I do about the subject of this lecture—only," she added with conviction, "the little I know is right, and the great deal you know may be wrong."

"I plead guilty, and throw myself on the mercy of the court." He made the declaration in a tone of extreme abjectness.

"But I don't want you to plead guilty. I want you to reform."

Not knowing the nature of the reform required, Saxon remained discreetly speechless.

"You are the first disciple of Frederick Marston," she said, going to the point without preliminaries. "You don't have to be anybody's disciple. I don't know a great deal about art, but I've stood before Marston's pictures in the galleries abroad and in this country. I love them. I've seen your pictures, too, and you don't have to play tag with Frederick Marston."

For a moment, Saxon sat twisting his pipe in his fingers. His silence might almost have been an ungracious refusal to discuss the matter.

"Oh, I know it's sacrilege," she said, leaning forward eagerly, her eyes deep in their sincerity, "but it's true."

The man rose and paced back and forth for a moment, then halted before her. When he spoke, it was with a ring like fanaticism in his voice.

"There is no Art but Art, and Marston is her prophet. That is my Koran of the palette." For a while, she said nothing, but shook her head with a dissenting smile, which carried up the corners of her lips in maddeningly delicious fashion. Then, the man went on, speaking now slowly and in measured syllables:

"Some day—when I can tell you my whole story—you will know what Marston means to me. What little I have done, I have done in stumbling after him. If I ever attain his perfection, I shall still be as you say only the copyist—yet, I sometimes think I would rather be the true copyist of Marston than the originator of any other school."

She sat listening, the toe of one small foot tapping the floor below the short skirt of her gown, her brow delightfully puckered with seriousness. A shaft of sun struck the delicate color of her cheeks, and discovered copper glints in her brown hair. She was very slim and wonderful, Saxon thought, and out beyond the vines the summer seemed to set the world for her, like a stage. The birds with baneful delirium provided the orchestration.

"I know just how great he is," she conceded warmly; "I know how wonderfully he paints. He is a poet with a brush for a pen. But there's one thing he lacks—and that is a thing you have."

The man raised his brows in challenged astonishment.

"It's the one thing I miss in his pictures, because it's the one thing I must admire—strength, virility." She was talking more rapidly as her enthusiasm gathered headway. "A man's pictures are, in a way, portraits of his nature. He can't paint strong things unless he is strong himself."

Saxon felt his heart lean. It was something to know that she believed his canvases reflected a quality of strength inherent to himself.

"You and your master," she went on, "are unlike in everything except your style. Can you fancy yourself hiding away from the world because you couldn't face the music of your own fame? That's not modesty—it's insanity. When I was in Paris, everybody was raving about some new pictures from his brush, but only his agent knew where he actually was, or where he had been for years."

"For the man," he acceded, "I have as small respect as you can have, but for the work I have something like worship! I began trying to paint, and I was groping—groping rather something—I didn't know just what. Then, one day, I stood before his 'Winter Sunset.' You know the picture?" She nodded assent. "Well, when I saw it, I wanted to go out to the Metropolitan entrance and shout Eureka up and down Fifth Avenue. It told me what I'd been reaching through the darkness of my novitiate to grasp. It seemed to me that art had been revealed to me. Somehow," the man added, his voice falling suddenly from its enthused pitch to a dead, low one, "everything that comes to me seems to come by revelation."

Into Dusks's eyes came quiet light of sympathy. He had halted before her, and now she arose impulsively, and laid a light hand for a moment on his arm.

"I understand," she agreed, "I think that for most artists to come as close as you have come would be triumph enough, but you—" she looked at him a moment with a warmth of confidence—"you can do a great deal more." So ended her first lesson in the independence of art, leaving the pupil's heart beating more quickly than at its commencement.

In the days that followed, as May gave way to June and the dogwood blossoms dropped and withered to be supplanted by flowering locust trees, Saxon refused to himself that he had lost the first battle of his campaign. He had resolved that this close companionship should be platonically pegged about; that he would never allow himself to cross the frontier that divided the realm of friendship from the hazardous territory of love. Then, as the cool, unperfumed beauty of the dogwood was forgotten for the somnolescent fragrance of the locust, he knew that he was only trying to deceive himself. He had really crossed this forbidden frontier when he passed through the gate that separated the grandstand at Churchill Downs from the club-house inclosure. With the realization came the resolution of silence. He was a man whose life might at any moment renew itself in untoward developments. Until he could drag the truth from the sphinx that guarded his secret, his love must be as inarticulate as was his sphinx. He spent harrowing afternoons alone, and swore with many solemn oaths that he would never disturb his feeling's calm, which he regarded as the most sacred and binding vows he swore by his love for Dusks.

Because of these things, he sometimes shocked and startled her with sporadic demonstrations of the brusquerie into which he withdrew when he felt too potential an impulse urging him to the other extreme. And she, not understanding it, yet felt that there was some riddle behind it all. It pained and puzzled her, but she accepted it without resentment—helping her customary autocracy. While she had never gone into the confessional of her heart as he had done, these matters sometimes had the power of making her very human.

His happiest achievements resulted from sketching trips taken to points she knew in the hills. He had called her a dryad when she first appeared in the woods, and he had been right, for she knew all the trysting places in the tangle of the knobs, unbroken and virgin save where the orchards of peach-growers had reclaimed bits of sloping soil. One morning at the end of June, they started out together on horseback armed with painting paraphernalia, luncheon and rubber ponchos in the event of rain. For this occasion she had saved a coign of vantage she knew, where his artist's eye might swing out from a shelving cliff over miles of checkered valley and flat, and league upon league of cloud and sky. She led the way by zigzag hill roads where boughs caught stinging blows from back-lashing branches and up steep, slippery acclivities. It was one of the times when Saxon was drinking the pleasant nectar of today, refusing to think of to-morrow. She sang as she rode in advance, and he followed with the pleasure of a man to whom being unmounted brings a sense of incompleteness. He knew that he rode no better than she—and he knew that he could ride, for his ears was the exuberance of the birds saluting the morning, and in his nostrils the loamy aroma stirred by their horses' hoofs from the steeping fragrance of last year's leaves. At the end was a view that brought his breath in deep draughts of delight.

For two hours, he worked, and only once his eyes left the front. On that occasion, he glanced back to see her slim figure, sketched with childlike and unconscious grace in the long grass, her eyes gazing unblinkingly and thoughtfully up to the fleece that drifted across to the blue of the sky. Clover heads waved fragrantly about her, and one long-stemmed blossom brushed her cheek. She did not see him, and the man turned his gaze back to the canvas with a leap in his pulses. After that, he painted feverishly. Finally, he turned to find her at his elbow.

"What is the conflict?" he demanded.

She looked with almost tense eyes. Her voice was low and thrilled with wondering delight.

"There is something," she said slowly, "that you never caught before; something wonderful, almost magical. I don't know what it is."

With a swift, uncontrollable gesture, he bent a little toward her. His face was the face of a man whose heart is in insurrection. His voice was impassioned.

"I know what it is," he cried. Then, as she read his look, her cheeks crimsoned, and it would have been superfluous for him to have added, "Love." He drew back almost with a start, and began to scrape the paint smears from his palette. He had quelled the insurrection. At least in words, he had not broken his vow.

For a moment, the girl stood silent. She felt herself trembling; then, taking refuge in childlike inconsequence, she peered over the edge of the cliff.

"Oh!" she exclaimed as though the last few moments had not been lived through, "there is the most wonderfulest flower!" Her voice was disappointment-laden. "And it's just out of reach."

Saxon had regained control of himself. He answered with a composure too calm to be genuine and an almost flippant note that rang false.

"Of course. The most wonderfulest things are always just out of reach. The edelweiss grows only among the glaciers, and the excelsior crop must be harvested on inaccessible pinnacles."

He came and looked over the edge, stooping close to her shoulder. He wanted to demonstrate his regained command of himself. A delicate purple flower hung on the cliff below as though it had been placed there to lure men over the edge.

He looked down the sheer drop, appraised with his eye the frail support of a jutting root, then slipped quietly over, resting by his arms on the ledge of rock and groping for the root with his toe.

With a short, gasping exclamation, the girl bent forward and seized both his elbows. Her fingers clutched him with a strength belied by their tapering delicateness.

"What are you doing?" she demanded.

She was kneeling on the ledge, and in her eyes, only a few inches from his own, he read, not only alarm, but back of that in the depths of the pupils something else. It might have been the reflection of what she had a few moments before read in his own. He could feel the soft play of her breath on his forehead, and his heart pounded so wildly that it seemed to him he must raise his voice to be heard above it. Yet, his words and smile were sane.

"I am going to gather flowers," he assured her. "You see," he added with an irrelevant whimsicality, "I want to see if the unattainable is really beyond me."

"If you go," she said with ominous quietude of voice, "I shall come, too."

The man clambered back to the ledge. "I'm not going," he announced.

For a time neither spoke. Each, with a consciousness of being much shaken, was seeking ground for the safe ground of commonplace. The man's face had suddenly become almost drawn. He was conscious of having been too close to the edge in more ways than one, and with the consciousness came the old sense of necessity for silence. He was approaching one of the moods that puzzled the girl: the attitude of fighting her off; the turtle's churlish defence of drawing into himself.

It was Dusks who spoke first. She laughed as she said lightly:

"For a man who is a great artist, you are really very young and very silly."

His voice was hard.

"I'm worse than that," he acceded.

For a moment more, there was awkward silence; then, Dusks asked simply:

"Aren't you going to paint any more?"

He was gazing at the canvas moodily, almost savagely.

"No," he answered shortly; "if I were to touch it now, I should ruin it."

The girl said nothing. She half-turned away from him, and her lips set themselves tightly.

As he began packing the impedimenta, storm-pregnant clouds rolled swiftly forth over the valley, and emptied themselves in a deluge on the two wanderers. The girl, riding under dripping trees, her poncho and sou'wester shining like metal under the slanting lines of rain, went first ahead. In her man's saddle, she sat almost rigidly erect, and the gauntleted hand that held the reins of the heavy cavalry bridle clutched them with unconscious tautness of grip. Saxon's face was a picture of struggle, and neither spoke until they had come to the road at the base of the hill where two horses could go abreast. Then, he found himself quoting:

"Her head was still in her sweet hair,
Her hair was still on her head,
She had not cast her harness of gray war-dinted steel,
High on her red-splashed charger, brave-tiffit, bold and browned,
Bright-eyed out of the battle, the Young Queen rode to be crowned."

He did not realize that he had repeated the lines aloud, until she turned her face and spoke with something nearer to bitterness than he had ever heard in her voice:

"Rode to be crowned—did you say? And she laughed unhappily.

A Good Rack for Fodder.

Cattle do not relish fodder after it has been trampled on or is soiled and muddy. A long narrow, portable rack which can be moved from place to place is an excellent pen in which to feed such roughage.

Kingfishers make their nests of fish bones.

Up-to-Date.

"How is Dr. Wombat as a physician?"

"Best ever. When you get exhausted over bridge he prescribes dancing as a rest cure."

Every dog has his day, but, like men, they always want more.

Windows are colder than walls because glass parts with its heat more quickly.

If your foot slip you may recover your balance but if your tongue slip you cannot recall your words.

Sea water is rarely frozen, because its mass takes a long time to cool down to the requisite forty degrees.

"What is your reason for wanting to learn to dance?" "Well, it looks allier to sit still and look ally than it does to get on your feet and look ally."

The Man—"If you are so forgetful, how is it you remember me?" The Girl—"Lots of times I remember little things when the big ones escape my notice."

Fresh from the Gardens

of the finest Tea-producing country in the world.

"SALADA"

TEA B74

Sealed Packets Only.

Try it—it's delicious. BLACK GREEN or MIXED.

Farm Notes.

Sheep are very dainty. Keep the feed troughs clean.

The legumes gather nitrogen from the air for the building up of the soil.

Prevent waste and make every pound of feed bring the best results possible.

Before calving, the cow's food should be reduced in quantity and of a laxative nature.

Fat hens produce fewer eggs and at the same time a large percentage of them are infertile.

Carrots and beets keep better if a little dry sand is put over them. This prevents drying out.

Discard the cow which has failed at the end of the year to pay market price for all the feed she has consumed.

Exercise is an important factor in keeping hens healthy and in laying condition. Scatter all grains in deep litter.

Better have a stable too cool from too many cracks than too close and no fresh air at all. This has proven true in poultry culture.

The production of milk is a great draft on a cow's vitality and she needs to be a rugged animal to endure the strain for a succession of seasons.

Dock the lambs at a week or ten days old. A block, a sharp hatchet, a whack, and it's done. Pull the skin towards the lamb before giving the whack.

In behalf of every living thing, your stock and your family, we plead for a good supply of fresh air, the staff of life. It is free. Make use of it in the barn, the home, day and night.

The milk of cows, goats, mares and camels, is used as an article of food consumption, but in the economy of production cows stand at the head of the list of milk-producing animals.

At the Ohio station, silage produced milk for 68 cents per 100 pounds and butter fat at thirteen cents per pound. The grain ration produced milk at $1.65 per 100 pounds and butter fat for 22 cents a pound.

Have little bedding in the pen at farrowing. Wait until the pigs get large enough to take care of themselves before bedding heavily. Have the pen dry and clean and keep it thus. Make liberal use of the well known disinfectants. Prevention cheaper than cure.

Caring for the Colt in Winter.

As the pastures dry up and winter approaches, the question of how to care for the growing colt through the winter confronts the farmer. Many colts will be taken from pasture with a goodly store of fat only to be turned out to a straw pile for feed and shelter, and will come out next spring lighter in weight than they are in the fall. On the other hand, not a few colts may be ruined by heavy feeding in stalls, where they cannot take exercise.

The ideal shelter for colts is a tightly built shed, open to the south, where the animals may go in and out at their own pleasure, and where they may have the run of a good big field for exercise. Idle farm horses can best be sheltered in the same way. A dry bed and protection from cold winds and rain is all that is needed.

Two parts of oats (preferably crushed) and one part of bran, makes a very suitable feed for growing colts. In cold weather a little corn may be added not to exceed 25 per cent. of the ration. If clover or alfalfa is used one half of the roughage ration, no oil meal will be needed, but if the roughage consists of wild hay or corn stover, about eight per cent. of oil meal should be added to the grain ration. Where oats are high in price and barley is plentiful, a ration of crushed barley 60 per cent., bran 30 per cent., and oil meal ten per cent., should give good results.

Sunflowers for Poultry.

This feed for chickens is not valued as it should be. It is easily grown and very productive of seed.

In the winter and spring it increases laying to a marked degree. One-fourth of an acre will give feed for a large flock the season through. Some plant the Mammoth Russian variety. It will grow even under great neglect, and a little attention makes it very productive.

The seed finds a ready market in the States at five or six cents a pound for use by poultry men.

The plant thrives best on sandy soil, and the cultivation is similar to that of corn. Birds begin picking out the seed before ripe. On a small scale one can prevent this by covering the heads with mosquito netting.

When the seeds begin to drop, the head should be cut and hung in a dry place, never put in a heap after cutting.

Keeps Hogs Well.

Less grain, more pasture, less confinement and more exercise in the pure air of the alfalfa, clover or blue-grass fields will tone up the system so that disease is not readily contracted. Yet with the best of care and feed a few forms of disease appear to baffle us, and when it comes, it is not safe to deal with it, especially if it seems infectious. Letting sick hogs have the run of the herd is sure to spread disease, therefore, it is a safe rule to lose no time in removing the first sick hog to some remote lot where it can not infect the herd as its disease progresses.

A Well-Braced Gate.

Nothing more surely gives a farm a rundown appearance than sagging, poorly constructed gates. A little more care when building the gate will save time, money and labor, and greatly improve the looks of the place.

AN IDEAL TONIC

When your head is dull and heavy, your tongue furred, and you feel done-up and good for nothing, without knowing what is really the matter with you, probably all that is needed to restore you to health and vigour is a few doses of a reliable digestive tonic and stomachic remedy such as Mother Seigel's Syrup.

FOR THE STOMACH AND LIVER

Take it after each meal for a few days and note how beneficial is its action upon the stomach, liver and bowels—how it restores tone and healthy activity to these important organs, and by so doing enables you to gain new stores of vigour, vitality and health.

MOTHER

SEIGEL'S SYRUP

The new 1.00 size contains three times as much as the trial size sold at 50c per bottle.

HORSE SALE DISTEMPER

SPOHN'S DISTEMPER COMPOUND

You know that when you sell or buy through the sales you have about one chance in fifty to escape sale stable distemper. "SPOHN'S" is your true protection, your only safeguard, for as sure as you treat all your horses with it, you will soon be rid of the disease. It acts as a sure preventative, no matter how they are "exposed." SPOHN'S is sold by all good druggists, horse goods houses, or delivered by the manufacturers.

SPOHN MEDICAL CO.,
Chemists and Bacteriologists, Goshen, Ind., U.S.A.

Does Pain Interfere?

There is a remedy

Sloan's Liniment

Read this unsolicited grateful testimony—

Not long ago my left knee became lame and sore. It pained me many restless nights. So serious did it become that I was forced to consider giving up my work when I chanced to think of Sloan's Liniment. Let me say—less than one bottle fixed me up.
Chas. C. Campbell, Florence, Tex.

HEALTH WRECKED THROUGH LA GRIPPE

It Generally Leaves the Patient Debilitated and an Easy Victim to Other Diseases.

One of the foremost medical writers says: "It is astonishing the number of people who have been crippled in health for years after an attack of la grippe or influenza." The real danger from this disease, which swoops over Canada every winter, is during convalescence, when the characteristic symptoms, the fever, the catarrh, the headaches and the depression of spirits pass away. Grip leaves behind it weakened vital powers, thin blood, impaired digestion and over-sensitive nerves—a condition that makes the system an easy prey to pneumonia, bronchitis, rheumatism, nervous prostration and even consumption. It is a condition that calls most emphatically for a tonic for the blood. Dr. Williams' Pink Pills are a tonic especially adapted to meet this need as they purify and enrich the blood. They tone up the nerves and give vigor, strength and health to the debilitated system. Mrs. Howard D. Chaffey, Indian Island, N.B., says: "For several winters in succession I was attacked by la grippe, which left me weak and badly run down. In each case I used Dr. Williams' Pink Pills with the most beneficial results. Last winter when the trouble was again prevalent I took the precaution of fortifying my system with Dr. Williams' Pink Pills and escaped the trouble, while many of my neighbors were down with it. In fact I enjoyed the best of health all spring and feel sure this medicine will so fortify the system as to prevent the trouble."

These Pills are sold by all medicine dealers or may be had by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

EAT MORE CHEESE.

A Cheap and Wholesome Substitute for Meat.

Eat more cheese. This, in brief, is the advice of the United States Department of Agriculture, expressed recently in a bulletin. It recommends cheese as a cheap and wholesome substitute for meat.

A Swiss investigator backs up the government findings by the statement that cheese is valuable not only for its content of proteids and carbonhydrates, but for the beneficent bacteria found in it.

Naturwissenschaften of Berlin says: These kinds of bacteria, especially those in Emmenthal and similar cheeses, resemble in effect those lactic acid bacteria which play an important part in all sorts of sour milk preparations such as kumiss, kephir and, according to recent reports by Dr. Burri, especially in yogboort. Above all, certain undesirable processes of decomposition are to a great extent suppressed, or at least diminished, by the bacteria referred to."

Another interesting and important assertion is to the effect that persons who make cheese a considerable part of their regular diet are very resistant to many intestinal diseases, such as dysentery and the dreadful typhus fever, which has desolated Serbia. According to Dr. Burri, the daily meat ration in the Swiss army has already been partly replaced by cheese with excellent results.

CAUSES TROUBLE

People Slowly Learn the Facts.

"All my life I have been a slave to coffee. I kept gradually losing my health, but I used to say 'nonsense, it don't hurt me.'

"Slowly I was forced to admit the truth and the final result was that my nervous force was shattered. (Tea produces about the same effect as coffee, because they both contain the drugs, caffeine and tannin).

"My heart became weak and uncertain in its action and that frightened me. Then my physician told me that I must stop drinking coffee or I could never expect to be well again.

"I thought of Postum but could hardly bring myself to give up the coffee.

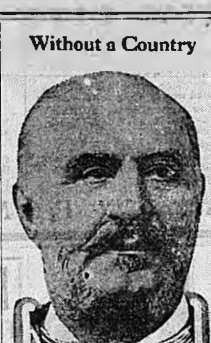
"Finally I concluded that I owed it to myself to give Postum a trial. I got a package and carefully followed the directions, and what a delicious, nourishing, rich drink it was! Do you know, I found it very easy to shift from coffee to Postum.

"Almost immediately after I made the change I found myself better, and as the days went by I kept on improving. My nerves grew steady, I slept well and felt strong and well-balanced. Now the old nervousness is gone and I am well once more."

It pays to give up the drink that acts on some like a poison, for health is the greatest fortune one can have. Name given by Canadian Postum Co., Windsor, Ont.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c packages.



Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

Without a Country

KING NICHOLAS.

of Montenegro, the third monarch driven from his capital by the Hun invaders.

THREE SONS KILLED.

This Very Sad Story Comes From Germany.

Vorwaerts, the Berlin Socialist daily, vouches for the following story and publishes it without comment: "The other day a woman travelling from Bremen to Oldenburg had a terrible experience. In the compartment into which she mounted, two young girls and a man accompanying a woman were already seated. The woman began almost at once to count on her fingers, 'one, two, three,' repeating these words at short intervals. The two girls tittered and made remarks to one another about the extraordinary behavior of the woman. Every time the woman counted her three fingers the girls, without thinking that probably there was something behind her strange conduct, renewed their giggling.

"The man who accompanied the woman, irritated at their silly laughter, turned to them with the remark, 'You will perhaps cease your stupid giggling when I tell you that this is my wife, and that she has lost three sons in battle. I am taking her to an asylum.'

"It was terribly quiet in the carriage."

NO MEDICINE TO EQUAL BABY'S OWN TABLETS

Mrs. E. Cutler, St. Lazare, Man., writes:—"I have used Baby's Own Tablets for the past ten years for my five children and can truthfully say there is no medicine to equal them." The Tablets regulate the bowels and stomach, cure constipation and indigestion, expel worms and make teething easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

DEATH ROLL INCREASING.

The War Is Decimating Europe's Population.

The great war, which has called to arms at least 25,000,000 men, nine million of whom have been killed or disabled, permanently or temporarily, is having an enormous influence in checking the normal growth of population. Apart, too, from the deaths of soldiers, the war is increasing the death roll of civilians all over Europe.

In the ninety-six great towns of Great Britain the decrease in the number of births is at the rate of 40,000 a year, while the increase in the number of deaths is 50,000 a year, compared with 1913, the year before the war began.

In the County of London the decrease in the number of babies born during the last thirteen weeks compared with the number in the corresponding weeks of 1913 is more than 3,000, while the increase of deaths is 1,270. Taken over the whole year, London's natural increase of population is reduced by 12,000, while the natural decrease by death is increased by more than 5,000. Thus the net natural increase is reduced by 17,000 a year.

In Greater London, which includes the suburbs contiguous to London, there is a decrease in births of 25,000 a year and an increase in deaths of 15,000 a year. If you add what the Registrar-General calls the Outer Ring, with its population of nearly 2,000,000, showing a decrease of 8,000 babies born and an increase of 5,000 deaths on the year, you have a total decrease in the number of babies born in London and its environs of 33,000 and an increase in the number of deaths by 20,000. This gives a total net decrease on the normal figures of the peace year of 1913 of 53,000.

Fortunately there are very few English towns where the number of deaths is exceeding the births, but in Germany this is the case in most of the big towns and cities. Paris, with a population of less than half that of the County of London, is experiencing a big decrease in the number of births, some thing like four hundred a week, or about half the number in peace time.

THIS IS GRATITUDE.

Prisoner Whom Kitchener Freed Now Working Against Allies.

The British press is stirred over the report from German sources that Karl Neufeld, the German trader and traveller, well known in the Near East, has been trying to influence the Mahommedan tribes in Persia and Arabia against the Allies. Neufeld was rescued from prison by Lord Kitchener and the British troops at Omdurman in September, 1898. For ten years he had lain in a Mahdist jail, subjected to horrible tortures, according to his own account. In his book describing his adventures, Neufeld tells how, on being thrown into prison, three sets of iron shackles were attached to his feet and rings and chains fastened about his neck. He was often flogged, and on one occasion he received 500 lashes. From these horrors he was saved by the British, and returned to freedom.

Heard of Them From Her Brother

WHY MRS. MARCHBANK USED DODD'S KIDNEY PILLS.

She Found Quick Relief and Now Recommends All Women Who Suffered as She Did to Use Dodd's Kidney Pills.

St. Martin's, St. John Co., N.B., Jan. 31st (Special). — Mrs. Violet Marchbank, wife of a well-known farmer living near here, is telling her neighbors of the splendid results she has got through using Dodd's Kidney Pills.

"My trouble started from a cold," Mrs. Marchbank states. "I had backache, my joints were stiff and my muscles cramped. I was irritable and always thirsty. My appetite was fitful and I felt heavy and sleepy after meals. Rheumatism was added to my troubles as well as headaches, and heart flutterings made me very anxious at times.

"I suffered for about two years and was far from being a well woman when my brother told me what great things Dodd's Kidney Pills had done for him, and I made up my mind to try them.

"I sent and got three boxes and they helped me right from the start. I can recommend Dodd's Kidney Pills to all women who suffer as I did."

Every one of Mrs. Marchbank's symptoms was a symptom of kidney trouble. That is why she found such quick relief in Dodd's Kidney Pills.

PROUD OF HIS RACE.

General Joffre is a Catalan of the Roussillon.

General Joffre belongs to that very distinct type, the French Catalan. He is a Catalan of the Roussillon, and retains the homely "tang" in his speech that the southerner loves. In the old days, when he was engaged on fortifications, he once spent a holiday in mufti in the Pyrenees, and was so deeply interested in a fort guarding one of the passes that he was suspected of being a German spy! Just as he drew near to examine the fort in detail he was suddenly arrested by a detective and carried before the commissaire de police:

"Are you a German?" asked the latter. "A German of the Roussillon," returned the young officer, in the broadest Catalan. The magistrate, who knew enough of the tongue to recognize the purity of the accent, laughed and let the prisoner go with apologies for the mistake. With his speech, too, Joffre has retained, what is also inherent in the Catalan, fidelity in friendship.

Throw Away Your Eye-Glasses!

A FREE PRESCRIPTION.

You Can Have Filled and Use at Home.

Do you wear glasses? Are you a victim of eye-strain or other eye-weaknesses? If so you will be glad to know that there is real hope for you. Many whose eyes are failing, say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who tried it says: "The atmosphere seemed hazy with or without glasses but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. For troubles of many descriptions this is wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Optic. Fill a two ounce bottle with warm water, drop in one Bon-Optic tablet and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time. If your own druggist cannot fill this prescription, send it to the Optona Drug Co., Toronto, for a complete Bon-Optic Home Treatment outfit—tablets and all.

Hare's Palate Joy for You

—also stomach comfort beyond belief. Heat a Shredded Wheat Biscuit in the oven to restore crispness, then cover with sliced bananas and pour over it milk or cream. Sweeten it to suit the taste. A complete, perfect meal supplying more strength-giving nutriment than meat or eggs and at a cost of three or four cents. A warm, nourishing breakfast—a delicious lunch.

Made in Canada.

THOUGHTS FOR THE DAY.

When women do things well they do them better than men.—Arnold White.

Our grand business is, not to see what lies dimly at a distance, but to do what lies clearly at hand.—Carlyle.

I don't believe in anybody who has not had a tiff. It means a complete absence of character.—Mr. Justice Avory.

There are no chagrins so venomous as the chagrin of the idle; no pangs so sickening as the satieties of pleasure.—Ruskin.

Manners are an art. Some are perfect, some commendable, some faulty; but there are none that are of no moment.—Jodbert.

There is no greater sign of a general decay of virtue in a nation than a want of zeal in its inhabitants for the good of their country.—Addison.

Write it on your heart that every day is the best day in the year. No man has learned anything rightly until he knows that every day is Doomsday.—Emerson.

Let none stand back as if his sins were too great to be forgiven, or his case too bad to be cured. Jesus is an advocate who never lost a cause, a physician who never lost a patient.—Dr. Guthrie.

The light of the understanding is not a dry or pure light, but receives a tincture from the will and affections, and it forms the sciences accordingly, for men are most willing to believe what they most desire.—Bacon.

You know well enough what I mean by youth and age; something in the soul, which has no more to do with the color of the hair than the vein of gold in a rock has to do with the grass a thousand feet above it.—Holmes.

Use Any Household Recipe

with Dr. Jackson's Roman Meal, and bake anything from it. If you like, eat it just from the oven. It won't ferment. It makes most delicious baking, prevents indigestion, is very nutritious, relieves constipation or money back. That's why a leading physician says it is a godsend to humanity. Especially try it in porridge, pancakes, and gems, but carefully follow directions on package for making porridge. For an early breakfast, soak the night before in a double boiler without stirring and warm in the morning by setting in boiling water while dressing. At grocers', 10c and 25 cents.

Made by the Roman Meal Co., Toronto

Not Doing His Share.

The big sister decided the children could not sit up until mother came home. Tommy did not care; Willie cried lustily. When the sister retired he cried still more loudly. She waited for a few moments at the foot of the stairs to hear if he became quiet. At last he stopped, and this is what the sister heard—"Tommy, you may cry a bit now; I'm tired!"

THE DREARY NIGHT.

Without, the stars shine cold and high,
The moon floods earth with light,
The trees moan wild and weirdly sigh,
And toss throughout the night.

Within, the household rest and dream,
The world and noise shut out;
Yet mother's eyes are open wide
For one is still without.

Among his comrades in his bunk
She sees him tired lie;
The soldiers' barracks now his home,
She heaves his troubled sigh.

She wonders if his heart ever turns
From what he bravely chose;
Or if determined still he spurns
The life no conflict knows.

She hopes she fears, the night drags on,
"What will the outcome be?
Will stormy nights bring peaceful dawn,
My boy, or death, to me?"

E. T. S.

Ottawa, January 20, 1916.

ZAM-BUK CURED IN 2 MONTHS

After 2 Years' Useless Treatment.

The healing power of Zam-Buk is so much greater than that of other ointments, that it has cured in many cases when all other ointments have failed. One such instance is that of Mr. Earle E. Gardiner, of Margala, Sask., who writes: "For two years I suffered with a bad attack of eczema on my feet. During those two years I tried every known remedy, but could find nothing that would cure the disease. Then I heard of Zam-Buk, and commenced using it. After the first few applications I noticed an improvement, and this encouraged me to continue. Although I had suffered for two years, after only two months' treatment with Zam-Buk I am completely cured."

Zam-Buk is equally good for eczema, ulcers, abscesses, blood-poisoning, piles, old sores, chapped hands, chilblains, eruptions, etc. At all drug stores, 50c. box, or from Zam-Buk Co., Toronto.

A Watch Runs Backward.

A jeweller has devised a watch which runs backward, the figures on the dial being arranged in opposite direction to the usual kind, says Popular Mechanics. The watch was invented at the suggestion of a left-handed person, who complained that it was always hard for her to tell time on the average clock, because she thought "left-handed." With the new type of dial the process of reading the hands was easier. Other left-handed persons seeing the new watch agreed that they could read it with more facility than the other type.

Poor Fellow.

Sick Man—It doesn't make much difference whether I die now or not.

Doctor—Why, my good man, why not?

Sick Man—Well, I must owe you several hundred dollars by now, and I'll be in the hole anyway.

Minard's Liniment Cures Garget in Cows

Sad Tears.

"What's the matter, little boy?"

"M-ma's gone and drowned all the kittens!"

"Dear, dear! Now that's too bad."

"Yes, sir she p-promised—boo-hoo!—that I could do it!"

The publisher of the best Farmer's paper in the Maritime Provinces in writing to us states:

"I would say that I do not know of a medicine that has stood the test of time like MINARD'S LINIMENT. It has been an unfailing remedy in our household ever since I can remember, and has outlived dozens of would-be competitors and imitators."

Germans Know Where He Was.

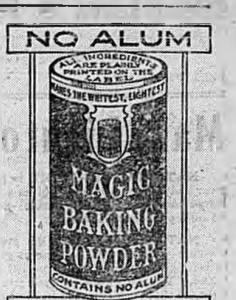
The German commander in Brussels sometimes issues passports to Belgians who wish to cross the Dutch frontier, half of several thousands frances being taken for their return by a certain day. A Belgian recently obtained such a ticket-of-leave, and went to Holland, and then thought he would take the opportunity to see his family in London. He came over to England, but returned to the Belgian frontier in good time. There the German officials asked: "Where have you been?" "In Holland," was the reply. "Anywhere else?" "No." On this the German officer produced two snapshots. One showed the Belgian stepping on board ship for England. The other had been taken in his London hotel.

Minard's Liniment Cures Distemper.

Promised to Call.

Aurelia (anxiously)—"Have you seen George this evening, papa? He promised to call."

Papa—"Yes, he did call, and I entertained him for an hour before you came downstairs."



Aurelia—"You entertained him, papa?"

Papa—"Yes. I gave him a list of all the new dresses you had last year, and the cost of each. I never saw a man more interested, yet he left very hurriedly."

Minard's Liniment Cur Diphtheria

Never judge a hen by the cold storage eggs you have for breakfast

NO ALUM

MADE IN CANADA

Carrots and Roses.

Sir Andrew Clarke, the well-known physician, advised an old lady who took her daughter to him suffering from anaemia to "give her claret." Six weeks later the old lady returned with the girl, now rosy-cheeked and healthy. "I'm glad she has taken her medicine," said Sir Andrew. "Oh, yes," replied the old lady. "I gave her plenty of them. We boiled them, and stewed them, and gave them to her at every meal." She thought the doctor had ordered—carrots!

Minard's Liniment Cures Colds, Etc.

Elderly Lady (to workman who has given her his seat in the train)—"Oh, thank you very much." Workman—"Oh, that's nothing at all, miss. Many men get up when the lady is pretty, but it never makes any difference to me."

GLAMIS

Miss Lizzie Campbell returned from Harriston accompanied by her sister Margaret who is recovering from a spell of sickness.

Mrs Reith was called away to Toronto owing to the serious illness of her brother there.

Mr Barker returned to Port Elgin on Saturday after spending two weeks with the church here and assisting Mr McCauley with special meetings.

Mr R J Nesbitt has been confined to the house for a few days suffering from lagrippe.

Mr Fred Attou, of Cut Knife, Sask, who has been visiting friends and relatives around here, left on Saturday to visit at Milton. Then he goes to London, where he expects to enter the matrimonial state before returning to the west.

(Intended for last week)

Mr and Mrs Titos Splan and Miss Vera Dagg, from the west, are visiting at Mr Thos Splan's, 10th of Greenock.

Mr McCauley took the services in North Bruce and Port Elgin on Sunday, and Mr Barker remained here.

Mr Jack Thompson has enlisted with the 160th Bruce Batt.

We are sorry to learn that Mrs Donald McKinnon, 10th Kincardine, has had another stroke and is in quite a serious condition.

Mr. Hodgkinson, of Kinlough, formerly of this village, was in our burg last week and called on some of his old friends.

EDEN GROVE

Mr Gordon Connell, our station agent for the past three year, has given up his position and enlisted in Walkerton with the 160th Overseas Battalion. Gordon will not begin training until Feb 28th, as he is going to Stratford to spend a while with his mother and sister there. He will be missed here very much.

Mr Chas A Reed, who has for the past two years been travelling salesman for the W T Rawleigh Co, Ltd, last Monday went to Walkerton and enlisted with the 160th Bruce Battalion. Charlie throws up a good position in which he has made a success, and now goes to do his bit, as he thinks he is needed. Mr Reed intends to turn his agency over to another man.

Mr John Connor passed away early Thursday morning, after a long illness. The remains were interred in the North Brant cemetery on Saturday, a large crowd turning out to the funeral.

Mr Dan Desmond, of Berlin, and Miss Matty from Toronto, were home to attend their grandfather's funeral.

Recruiting is the order of the day here. Your king and country need you, boys. Why not get the khaki suit on right now?

ELORA ROAD NORTH

Miss Sinclair, of Toronto, has been spending a few weeks at the home of Mrs John McNeill.

Mr and Mrs John S Campbell visited friends at Lockerby.

Miss Olive Robb, of Williscroft, spent a few days at Mr Wm Beech's.

Miss Violet Thornburn, of Kilsogowan, visited last week at Mr John McDougall's.

Mr Dave Bryce had a very successful wood bee last Friday.

Mr John McArthur, who has enlisted, spent the week end with his parents.

Mr Dave Bryce has purchased a heavy team from Mr Wm Atkinson, of the 4th of Saugeen.

The funeral of the late Wm Adams was attended by a large number of his old neighbors. The deceased was one of the pioneers of the Elora road.

Miss Edith Fortune, of Vesta, spent the week end at Mr S Winch's.

Children Cry
FOR FLETCHER'S
CASTORIA

WILLOW CREEK

Mr and Mrs Wm Berndt were in Walkerton last week on business.

Mr J Hyde and Mrs Dan Munro have gone to Bay City, Mich, to visit the former's daughter, who at present is very ill.

Mr and Mrs Ezra Thede are spending a week in Port Elgin.

The Farmers' Club at Underwood are holding a special meeting on Feb 17th. Some good topics are on for discussion.

WILLISCROFT

Anniversary services will be conducted by the pastor, Rev M Neilson, in Williscroft Baptist church on Sunday, Feb 20th, at 11 a m and 7 p m. Everybody welcome. On Monday evening an oyster supper will be served in the basement of the church. Adults 35c, children 20c. Come and enjoy yourselves.

CARGILL

Miss Eleanor and Mr Norman Jordan are visiting friends in Montcelle and other places near.

W D Cargill and Geo Sirrs attended the funeral of the late Wm Wesley in Walkerton on Sunday.

A number from here attended the funeral of the late John Connors of Eden Grove, which took place to North Brant cemetery on Saturday.

We are sorry to have to report the death of an aged and respected farmer in this vicinity, Mr George Routledge, which occurred on Saturday, at the ripe age of 82 years. The remains were interred in the Walkerton cemetery on Tuesday. We extend our sympathy to the bereaved ones.

Wouldn't you like to be in France now? In a letter to his home here, written on Jan. 21st, Trooper H. Grice says the trees are starting to leaf. Different here. The past few days have been cold enough to make everybody want to leave.

Misses N Clancy and V Loughleen, stenographers at the 160th Batt. headquarters in Walkerton, spent Sunday at their homes here.

Military Police Anderson, Ptes. Jack Hamilton, Zimmerman, J Henderson, and Signaller Peglo of the 160th Batt., spent Sunday at their homes here.

Miss L Seiling of Mildmay spent Saturday in the village.

Mr. and Mrs H. M. Cargill and Miss Isabella, from Hensall, Man., are here on a visit to friends.

Mr. and Mrs. F. Balsdon entertained a number of friends Monday evening.

Pte. Sandy Thompson has returned to his battalion at Walkerton after being laid off with an attack of measles.

The Presbyterians are preparing for their church anniversary, which occurs the end of this month.

PINKERTON

Lieut. A. E. Reid, of 71st Batt., Chatham, spent a few days at his home here.

Ptes. Elmer Gregg of Galt and Gordon Garland of Walkerton, are both home on sick leave.

Rev. Mr. Gale preached at preparatory services in Glamis on Friday night.

Mr Harvey and Miss Aileen Pinkerton spent Sunday at Mr. D. Robertson's at Glamis.

A number from here skated in Paisley on Saturday night.

Mrs D Robertson of Glamis spent a few days last week in the village.

Bruce County Patriotic Association

The Bruce County Patriotic Association met at the county council chamber on Wednesday afternoon, Jan. 26th. There was a good attendance present. The chair was occupied by Mr W H McFarlane, president. Mr H M Lay, the secretary-treasurer, presented the financial statement which we have summarized as follows:

SEC. REPORT

Subscriptions during the year amounted to:—

Cargill	$ 80 22
Chesley	300 00
Lucknow (John Joynt's $500)	683 93
Walkerton (inclu. $762 15. town grant $400)	1160 15
County Out Fund	1491 26
Cos. grant	11000 00
	$14361 14

Grants paid to beneficiaries from:

Aug 19, 1914, to Dec 31, 1915	$6585 10
For month of January, 1916	757 00

In January there were on the list 60 families of beneficiaries comprising 57 wives or widowed mothers and 03 children, or 150 beneficiaries altogether, distributed in the county.

Arkwright 1 family, $12; Cargill 3 families, $58; Chesley 11 families, $148; Hepworth 1 family, $12; Kincardine 3 families, $50; Lucknow 5 families, $71; Paisley 1 family, $20; Southampton 1 family, $22; Tara 4 families, $70; Teeswater 1 family, $10; Tobermory 1 family, $10; Walkerton 22 families, $394; Wiarton 5 families, $100.

The schedule of assistance for the county is $10 for the wife or widowed mother and $2 for each child. There are no officers' families from this county receiving assistance. If any officers' families require assistance, special application must be made to Ottawa.

The financial statement was adopted.

The matter of raising further funds for the Patriotic Association was taken up. Mr L C Beaton spoke briefly as to the best methods of raising money throughout the county. He felt that committees should be appointed in every municipality throughout Bruce county, and a systematic canvas made.

Mr D Robertson thought concerted action should be taken. There were a number of ways such as Mr Beaton suggested, or there was the method of the county raising the money similar to what had been done before.

Mr J A Rowland said that the farmers had not been doing their share and he thought they should do more. Never had crops been better and prices better. They needed money for the Empire at this time.

Mr J J Hunter, of Kincardine, said he could not agree with Mr Rowland and his attitude. In canvassing he had found people in the towns who refused to give a dollar unless it came in the way of taxes. It was no time to condemn any section of the community. It was the duty of the meeting to try and devise ways and means to raise the necessary funds. Bruce county had approximately 46,000 of a population. Placing the per capita at $2 per head this would mean $92,000. He suggested that a recommendation be made to the county council and that they pass a by-law for this amount and assess the municipalities pro rata. The municipalities in turn could issue debentures to meet these payments if necessary. This would be fair and equitable to all. Taking the men who are not on the roll as taxpayers a canvass could be made of them for a personal subscription.

Mr G Kastner, Wiarton, agreed with the other speakers. He felt, however, that the fair way was to put it in the taxes and then all would bear their share of the burden. A personal appeal could be made, as Mr Hunter suggested, to those who were not ratepayers, such as bankers, clerks, doctors, etc. He was in favor of all these funds being assessed for.

Mr I Douglass, Hepworth, was also in favor of the assessment plan.

Judge Klein spoke along the same lines pointing out that all should pay. He knew cases where some with large incomes would not pay a cent. The only way to get at them was in putting it on the taxes.

The election of officers resulted as follows: Honorary president, W H McFarlane; president, Warden A McNab; vice-president, L C Beaton; sec-treas, H M Lay. These officers together with the reeves of Brant, Carrick, Culross and Greenock and the executive officers of the Walkerton branch form the executive committee of the Bruce county branch of the Canadian Patriotic Fund. Four members form a quorum.

At the conclusion of the meeting the following resolution was made: Moved by Reeve Johnston of Bruce Tp, seconded by Reeve Kastner of Warton, that this association would recommend the county council to increase their annual grant to $92,000 payable at the rate of $7,500 a month.—Carried.

BRANT COUNCIL

Council met on Feb 1st, at the Tp hall. Members all present.

Gregg—Johnston—That the auditors' report be received and adopted, and that the reeve have 200 copies printed for distribution.—Carried.

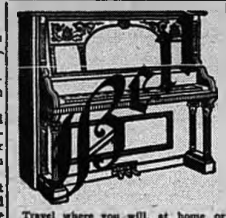
Gregg—Rowand—That a grant of $10 be made to the Richardson family, destitute, Cargill, to provide the necessaries of life, cheque to be issued to Rev Homer, of Cargill.—Carried.

Weir—Rowand—That this council accept the tender of the Walkerton Telescope for the township printing for the sum of $150.—Carried.

Rowand—Johnston—That the east half of lot 32, con 12, be changed from road division No 75 to road division No 74.—Carried.

On motion of Gregg and Johnston the application of Sidney Parker as assessor for 1916 was accepted

On motion of Rowand and Weir the by-law fixing salaries of tp officers was amended by changing the salary of treasurer from $150 to $120 per year.



Weir—Rowand—That this council hereby authorize the clerk to advertise for applications for the office of treasurer for the tp of Brant. Alterations have been made in the system of bookkeeping whereby the treasurer has only to countersign the orders instead of writing cheques and is required to provide only $5000 security. Salary $100, applications to be placed with the clerk before two o'clock p m on Friday, 11th Feb, 1916, when the council will hold a special meeting for the purpose of appointing a treasurer.—Carried.

Rowand—Johnston—That the collector's roll be accepted and Jos Monk, collector, be paid his salary in full, $100.—Carried.

The reeve was empowered to have the late treasurer's books put in shape for the special audit. Alex Robertson and Chas Kyle were appointed to audit the treasurer's accounts for 1916 up to date.

Gregg—Johnston—That this council wishes to express to Mrs Coulter and family their sincere sympathy in this their hour of bereavement and the clerk be authorized to draft a suitable letter of condolence on behalf of this Board.—Carried.

Council adjourned. A special meeting will be held on Friday, Feb 11th, at 2 p m, and the next regular meeting will be held Monday, March 6th.

Most Eminent Medical Authorities Endorse It.

Dr. Eberle and Dr. Braithwaite as well as Dr. Simon—all distinguished authors—agree that whatever may be the disease, the urine seldom fails in furnishing us with a clue to the principles upon which it is to be treated, and accurate knowledge concerning the nature of disease can thus be obtained. If backache, scalding urine or frequent urination bother or distress you, or if uric acid in the blood has caused rheumatism, gout or gallstones or you suspect kidney or bladder trouble trust write Dr. Pierce as the Surgical Institute, Buffalo, N.Y.; send a sample of urine and describe symptoms. You will receive free medical advice after Dr. Pierce's chemist has examined the urine—this will be carefully done without charge, and you will be under no obligation. Dr. Pierce during many years of experimentation has discovered a new remedy which he finds in thirty-seven times more powerful than lithia in removing uric acid from the system. If you are suffering from backache or the pains of rheumatism, go to your best druggist and ask for a 50-cent box of "Anuric" put up by Dr. Pierce. Pierce's Favorite Prescription for weak women and Dr. Pierce's Golden Medical Discovery for the blood have been favorably known for the past forty years and more. They are standard remedies to-day—as well as Doctor Pierce's Pleasant Pellets for the liver and bowels. You can get a large trial package for 10c. of any one of these remedies by writing Dr. Pierce.

Doctor Pierce's Pellets are unequaled as a Liver Pill. *One tiny, Sugar-coated Pellet a Dose.* Cure Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.

7,500 in Bruce Co. Eligible for Enlistment

According to returns from a majority of the local committees of the Bruce War Auxiliary, there should be no difficulty in recruiting a full battalion in this county that would compare with the king's best. There are about 7,500 eligibles, and from such a number there will surely be a sufficient percentage volunteer to serve in Bruce's own contingent.

For terms apply to MAC MCNEILL, Walkerton, R.R. No. 3.

Gave Whiskey to the Cow

People in local option towns have become acquainted with most of the excuses put forth by the thirsty ones for bringing into town more whiskey than they can use personally at one time. But Robert Collison, of Goderich, has a brand new one. He could not account for three gallons of whiskey he was known to have received, but at the sojourned hearing of the case he stated that in a week's time he gave that quantity to his cow. He was fined $50 and costs, but the magistrates did not say whether it was for a violation of the liquor law, giving false evidence or polluting the milk supply.

—Mrs. Geo. L. Carter is visiting her sister in Hamilton.

—Miss Alice Lamont, of Lorne, has gone to visit friends in Toronto.

—Mr H B Putnam and Mrs L R Putnam spent a few days in Toronto last week.

—Pte. Roddie McLennan, of the 91th Batt., was up from Toronto over Sunday.

—Mr. John Thompson is down from Brandon, Man., on a visit to his father, Mr. D. Thompson.

—The new cement block residence built on Albert St. by Mr J S Dewar has been sold to Mr David Thompson.

—Pte. Jas. Hepburn, of the 124th Batt., Toronto, is home on two weeks' sick leave, after being in hospital with measles.

—Rev. J. B. Mullan, the well-known Presbyterian minister of Fergus and Elora, was called to his reward on Feb. 7th. He was 83 years of age.

—Alton, second son of Mr and Mrs W R Keyes, of London, is another old Paisley boy who has enlisted. He joined the A. M. C. at London.

—Mr. Peter McArthur, of Calgary, who was visiting his sister, Mrs. Campbell, 2nd Saugeen, was called away suddenly by the death of their brother Duncan at Edmonton.

—Mr Melvin McArthur, who has been in Guelph hospital for several weeks following an operation for appendicitis, arrived home last week in a convalescent condition.

—Mr. Wm. Johnston, son of Mr. D. Johnston, of con. A, Elderslie, and formerly of the Royal Bank staff, has enlisted with the 43rd Battery of Artillery at Guelph. He was home for a few days recently.

—Mr. E. G. Eckel has removed his household from the rooms above his store to the Hyde residence on Tokersman St. Mr. I. S. Cruickshank, having sold his home to stattonmaster Brigham, will move to the rooms vacated by the Eckel family.

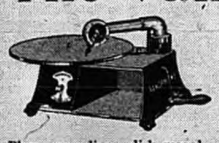
—Mr. John McGillivray and Mrs. Peter McLean of Lorne left on Monday to attend the funeral of their sister, the late Mrs. Ross, who died at her home in West Superior, Wis. The deceased lived here formerly, but had been fifty years in the west. She was twice married, her first husband being Dan Morrison, a blacksmith here. She is survived by three sons.

Red Cross Meeting

Paisley Red Cross Society meets Friday afternoon at 3 o'clock, in Putnam's hall. All having articles finished please bring to the meeting.

Four Paisley Brothers in the 160th

A quartette of the Dobson boys of Paisley are now enlisted with the Bruce Battalion—John, Robert, Edmund and Frank—sons of Mrs. Thos. Dobson of Paisley. Three of the brothers signed up at Chesley, where they had been working of late. Three of them will likely train in Paisley. Not many families in this county or even in the province, will be so well represented in the ranks of the fighting men of Canada.



Military Rally at Paisley

Full particulars of programme for the patriotic meeting and recruiting rally to be held in Paisley on Wednesday next, Feb 23rd, are given in the advertisement on another page. Everybody in town and surrounding country should be out to see the soldiers, enjoy the music of the military band and hear the rousing speeches to be delivered in the town hall. The Port Elgin detachment of soldiers will be driven to Paisley by farmers' teams, and the band comes from Walkerton. The speakers include Major Osborne, of London, who was wounded in France, Rev Mr Walker, pastor of Walkerton Methodist church, Lieut-Col Weir, Judge Klein, Mr John Rowland, Paisley clergymen and others.

Red Cross Tea Room

The tea room opened on Saturday afternoons in the Stark Block, under auspices of the Women's Institute, is gaining a larger patronage from week to week. Last Saturday, when the ladies of Elora road south were in charge, over $32 was taken in for lunches served at the tables and for eggs, butter, cooking and vegetables sold to patrons, all provided by the ladies of the district mentioned. To date the tea room receipts amount to $181 00 The arrangement is that a different groupe of ladies undertake to collect the necessary provisions and manage the room each Saturday, and if more ladies of the town or country would like to do their "bit" for the Red Cross by participating in this work their assistance will be gladly accepted, Those desiring to do so might arrange with officers of the Women's Institute or Red Cross Society.

H. B. PUTNAM & SON

Returning from the Front

On the solicitation of Col. Weir, who is anxious to get some Bruce boys, who have been fighting at the front, to return and assist with the recruiting of the 160th Battalion, the Militia Dept. has granted permission to Bobbie Rowland, who went into the trenches in France last fall, to return and take a commission as lieutenant in the Bruce Battalion. As a result, Bob, who is the eldest son of Mr and Mrs John Rowland Walkerton, will return from the war zone shortly.—Herald and Times.

Carnival a Success

The first carnival of the season came off in the rink here on Friday evening last and from nearly every standpoint was a success. The costumes were many and varied, though perhaps the costly or imported outfits were less in evidence than in previous years. However, both the spectators and masqueraders themselves appeared to have just as good a time as formerly. In the gents' comic class Dave McGregor and his bunky mule created considerable merriment for the spectators. The prize-winners were: Ladies' fancy, 1st Aggie Pearce, as wheat field, 2nd Mrs. G. B. Irwin, Irish lady; Girls' fancy, 1st Isabel McArton, 2nd Jean Fullerton, both as Valentines; gents' fancy, 1st Allan Shoemaker, 2nd Frank Ballachey; National, May Warren, Irish lady; gents' comic, Dave McGregor; ladies' comic, Ethel Pearce, Rag-Time; best couple skaters, Edna Rose and Roy Heppenstall; musical keg race, Jimmie Sutherland; boys' race, Allen Shoemaker.

WE MAKE SUITS

as cheap as the kind of suits that we make can be made for.

But we never go so low in prices that something must be slighted to get things to come out right.

Our lowest priced suits are good ones—neat, stylish, perfect fitting.

And as our prices advance, quality keeps them company.

We take pleasure in showing you.

By CHARLES NEVILLE BUCK

CHAPTER VI.

For more than a week after the revie to the cliff, Duska withdrew herself from the orbit in which Saxon revolved, and the man, feeling that she wished to dismiss him, in part at least, used the "air line" much less frequently than in the days that had been. Once, when Steele had left the cabin early to dine at the "big house," Saxon protested that he must stay and write letters. He slipped away, however, in the summer starlight, and took one of the canoes from the boat-house on the river. He drove the light craft as noiselessly and gloomily as a funeral barge along the shadow of the bank, the victim of utter misery, and his blackness of mood was intensified when he saw a second canoe pass in mid-channel, and recognized Steele's tenor in the drifting strains of a sentimental song. There was no moon, and the river was only a black mirror for the stars. The tree-grown banks were blacker fringes of shadow, but he could make out a slender figure wielding the stern paddle with an easy grace which he knew was Duska's. His sentiment was in no wise jealousy, but it was in every wise heart-hunger.

When they did meet, she was cordial and friendly, but the old intimate regime had been disturbed, and for the man the sun was clouded. He was to send a consignment of pictures to his Eastern agent for exhibition and sale, and he wished to include several of the landscapes he had painted since his arrival at the cabin. Finding creative work impossible, he devoted himself to that touching up and varnishing which is largely mechanical, and made frequent trips to town for the selection of frames.

So much of his time had been spent at Horton House that unbroken absence would have been noticeable. His visits were, however, rarer, and on one occasion Mrs. Horton made an announcement which he found decidedly startling.

"I have been wanting to take a trip to Cuba early in the fall, and possibly Venezuela where some old friends are in the diplomatic service," she said, "but Mr. Horton pleads business, and I cant persuade Duska to go with me."

At once, Steele had taken up the project with enthusiasm, asking to be admitted to the party and beginning an outline of plans.

Saxon found himself shuddering at the idea of the girl's going to the coast where perhaps he himself had a criminal record. He had procrastinated too long. He had secretly planned his own trip of self-investigation for a time when the equatorial heat had begun to abate its midsummer ferocity. Evidently, he must hasten his departure. But the girl's answer in part reassured him.

"It doesn't appeal, Aunty. Why not get the Longmores? They are always ready to go touring. They've exhausted the far East, and are weeping for new worlds."

Saxon went back early that night, and once more tramped the woods. Steele lingered, and later, while the whippoorwills were calling and a small owl plaintively lamenting, he and Duska sat alone on the white-columned verandah.

"Duska," he said suddenly, "is there no chance for me—no little outside chance?"

She looked up, and shook her head slowly.

"I wish I could say something else, George," she answered earnestly, "because I love you as a very dearest brother and friend, but that is all it can ever be."

"Is there no way I can remake or remold myself?" he urged. "I have held the Platonic attitude all summer, but to-night makes all the old uncontrollable thoughts rise up and clamor for expression. Is there no way?"

"George"—her voice was very soft—"it hurts me to hurt you—but I'd have to lie to you if I said there was a way. There can't be—ever."

"Is there any—any new reason?" he asked.

For a moment, she hesitated in silence, and the man bent forward.

"I shouldn't have asked that, Duska—I don't ask it," he hastened to amend. "Whether there is a new reason or just all the old ones. Is there any way I can help—any way, leaving myself out of it, of course?"

Again, she shook her head.

"I guess there's no way anyone can help," she said.

Back at the cabin, Steele found his guest moodily pacing the verandah. The glow of his pipe bowl was a point of red against the black. The Kentuckian dropped into a chair, and for a time neither spoke.

At last, Steele said slowly:

"Bob, I have just asked Duska if I had a chance."

The other man wheeled in astonishment. Steele had indeed maintained his Platonic pose so well that the other had not suspected the fire under what he believed to be an extinct crater. His own feeling had been the one thing he had not confided. They had never spoken to each other of Duska in terms of love.

"You!" he said, dully. "I didn't know—"

Steele rose. With his hand on the door-knob, he paused.

"Bob," he said, "the answer was the old one. It's also been, 'No.' I've had my chance. Of course, I really knew it all the while, and yet I had to ask once more. I shan't ask again. It hurts her—and I want to see her happy." He turned and went in, closing the door behind him.

But Duska was far from happy, however much Steele and others might wish to see her so. She spent much time in solitary rides and walks. She knew now that she loved Saxon, and she knew that he had shown in every wordless way that he loved her, yet could she be mistaken? Would he ever speak, since he had not spoken at the cliff? Her own eyes had held a declaration, and she had read in his that he understood the message. His silence at that time must be taken to mean silence for all time.

Saxon had reached his conclusion. He knew that he had hurt her pride, had rejected his opportunity. But that might be a transient grief for her. For him, it would of course be permanent. Men may love at twenty, and recover and love again, even to the number of many times, but to live to the age which he guessed his years would total, and then love as he did, was irremediable. For just that reason, he must remain silent, and must go away. To enter her life by the gate she seemed willing to open for him would mean the taking into that sacred inclosure of every hideous possibility that clouded his own future. He must not enter the gate, and, in order to be sure that a second mad impulse would not drive him through it, he must put distance between himself and the gate.

On one point, he temporized. He was eager to do one piece of work that should be his masterpiece. The greatest achievement of his art life must be her portrait. He wanted to paint it, not in the conventional evening-gown in which she seemed a young queen among women, but in the environment that he liked to think was her own by divine right. It was the dryad that he sought to put on canvas.

If asked her with so much genuine pleading in his voice that she smilingly consented, and the sittings began in the old-fashioned garden at Horton House. She was posed under a spread of branches and in such a position that the sun struck down through the leaves, kissing into color her cheeks and eyes and hair. It was a pose that called for a daring palette, one which, if he succeeded in getting on his canvas what he felt, would give a result whereon he might well rest his reputation. But to him it meant more than just that, for it was giving expression to what he saw through his love of art and his art of love.

The hours given to the first sittings were silent hours, but that was not remarkable. Saxon always worked in silence, though there were times when he painted with gritted teeth because of thoughts he read in the face he was studying—thoughts which the model did not know her face revealed. At times, Mrs. Horton sat in the shade near by, and watched the hand that nursed the canvas with its brush, the steady, bare forearm that needed no mahstick for support and the eyes that were narrowed to slits as he studied his tones and wide as he painted. Sometimes, Steele lingered near with a novel which he read aloud, but it happened that in the final sittings there was no one save painter and model.

It was now late in July, and the canvas had begun to take form with a miraculous quality and glow. Perhaps, the man himself did not realize that he could never again paint such a portrait, or any landscape that would be comparable with it. Some men write love-letters that are wonderful heart documents, but they write them in black and white, with words. Saxon was not only writing a love-letter, but was painting all the his resolve did not let him say. He was putting into the work the pent-up love of such force that it was almost bursting his heart. Here on canvas, as though with some wonderful safety-valve, he was passionately converting it all into the vivid eloquence of color.

It had been his fancy, since the picture had become something more than a strong, preliminary sketch, that Duska should not see it until it neared completion, and she, wishing to have her impression one unspoiled by foretastes had assented to the idea. Each day after the posing ended, and while he rested and let her rest, the face of the canvas was covered with another which was blank. Finally came the time to ask her opinion. The afternoon light had begun to change with the hint of lengthening shadows. The outdoor world was aglow with gracious weather and the air had the wonderful, almost pathetic softness that sometimes comes to Kentucky for a few days in July, bringing, as it seems, a fragment strayed out of Indian Summer and lost in the mid-heat of the year.

The man stood back and covered the portrait, then, when the girl had seated herself before the easel, he stepped forward, and laid his hand on the covering. He hesitated a moment, and his fingers on the blank canvas trembled. He was unveiling the effort of his life, and to him she was the world. If he had failed! Then, with a deft movement, he lifted the concealing canvas, and waited.

For a moment, the girl looked with muted breath, then something between a groan and a stifled cry escaped him. She turned her eyes to him, and rose unsteadily from her seat. Her hands went to her breast, and she wavered as though she would fall. Saxon was at her side in a moment, and, as he supported her, he felt her arm tremble.

"Are you ill?" he asked, in a frightened voice.

She shook her head, and smiled. She had read the love-letters, and she had read, too, what silence must cost him. Other persons might see only wonderful art in the portrait, but she saw all the rest, and, because she saw it, silence seemed futile.

"It is a miracle!" she whispered.

The man stood for a moment at her side, then his face became gray, and he half-wheeled and covered it with his hands.

The girl took a quick step to his side, and her young hands were on his shoulders.

"What is it, dear?" she asked.

With an exclamation that stood for the breaking of the dykes he had been building and fortifying and strengthening through the past months, he closed his arms around her, and crushed her to him.

For a moment, he was oblivious of every lesser thing. The past, the future had no existence. Only the present was alive and vital and in love. There was no world but the garden, and that world was flooded with the sun and the light of love. The present could not conceivably give way to other times before or after. It was like the hills that looked down—unchangeable to the end of things!

Nothing else could count—could matter. The human heart and human brain could not harbor meaner thoughts. She loved him. She was in his arms, therefore his arms circled the universe. Her breath was on his face, and life was good.

Then came the shock of realization. His sphinx rose before him—not a sphinx that kept the secrets of forty dead centuries, but one that held in cryptic silence all the future. He could not offer a love tainted with such peril without explaining how tainted it was. Now, he must tell her everything.

"I love you," he found himself repeating over and over; "I love you."

He heard her voice, through singing stars:

"I love you. I have never said that to anyone else—never until now. And," she added proudly, "I shall never say it again—except to you."

In his heart rose a torrent of rebellion. To tell her now—to poison her present moment, wonderful with the happiness of surrender—would be cruel, brutal. He, too, had the right to his hour of happiness, to a life of happiness! In the strength of his exultation, it seemed to him that he could force fate to surrender his secret. He would settle things without making her a sharer in the knowledge that must shadowed their love. He would find a way!

Standing there with her close to his heart, and her own palpitating against his breast, he felt more than a match for mere facts and conditions. It seemed ridiculous that he had allowed things to bar his way so long. Now, he was thrice armed, and must triumph.

"I know now why the world was made," he declared, joyfully. "I know why all the other wonderful women and all the other wonderful loves from the beginning of time have been! It was," he announced with the supreme egotism of the moment, "that I might compare them with this."

And so the resolve to be silent was cast away, and after it went the sudden resolve to tell everything. Saxon, feeling only triumph, did not realize that he had, in one moment, lost his second and third battles.

An hour later, they strolled back together toward the house. Saxon was burdened with the canvas on which he had painted his masterpiece. They were silent, but walking on the milky way, their feet stirring nothing meaner than star-dust. On the verandah, Steele met them, and handed his friend a much-forwarded letter, addressed in care of the Louisville club where he had dined. It bore the stamp of a South American Republic.

It was not until he had gone to his room that night that the man had time to glance at it, or even to mark its distant starting point. Then he tore open the envelope and read this message:

"My Erstwhile Comrade:

"Though I've had no line from you in these years I don't flatter myself that you've forgotten me. It has come to my hearing through certain channels—subterranean of course—that your present name is Saxon and that you've developed genius and glory as a paint-wizard.

"It seems you are now a perfectly respectable artist! Congratulations—also bravo!

"My object is to tell you that I've tried to get word to you that despite appearances it was not I who tipped you off to the government. That is God's truth and I can prove it. I would have written before but since you beat it to God's country and went West your whereabouts have been a well-kept secret. I am innocent as heaven is my witness! Of course, I am keeping mum.

"H. S. R."

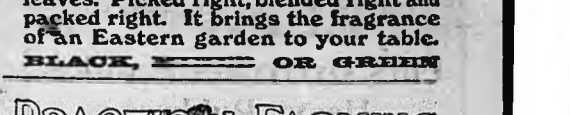
Victim of a Fly

DR. ALBERT C. PERVILL,
Brooklyn physician, who is slowly dying of "sleeping sickness." He was bitten by the tsetse fly five years ago while in the Belgian Congo, and has been a helpless invalid ever since. Seldom does a victim last more than two years.

Peace Hint in Wool Buying.

Germans hope that the war will be over in a few months' time is believed in London financial circles to be indicated by the fact—news of which has leaked out in the city—that the bulk of the Argentine wool clip has been bought on German account and the remainder by American houses. It is understood that the wool bought for Germany is to be stored in Argentina until after the end of the war, and this action is taken to point to German preparations for the future and a hope that she may be able to ship the wool before next year's clip is available.

"Why, what in the world has become of your watch? The one you used to have had a handsome gold case." "I know it did, but circumstances alter cases."



Fresh and Refreshing

"SALADA" B76

is composed of clean, whole young leaves. Picked right, blended right and packed right. It brings the fragrance of an Eastern garden to your table.

BLACK, MIXED OR GREEN

PRACTICAL FARMING

The Feeding of Heifers.

I have at various times dealt with the feeding of heifer calves during their first year, and have always placed the emphasis on growth, writes "Herdsman" in Farm and Dairy. I believe in feeding calves liberal quantities of whole milk, then skim milk, and then finally good liberal feeding with grain and the best hay that the farm produces. This same feeding system during the yearling stage of growth would develop a fat, pudgy animal of inferior dairy quality. During the yearling stage, I am to develop capacity. Good pasture is an excellent place for the yearling heifer. During the winter months the very best roughage should be fed, such as alfalfa or well cured clover, corn ensilage, and roots, but I would strictly advise against feeding much grain during this period of the heifer's life. For the small quantities that are fed, I prefer ground oats. The soiling system of feeding yearling heifers is no good. If the dairyman has no pasture, I would advise him to rent pasture land.

During the two-year-old stage, I would feed more liberally. Our heifers are timed to freshen at 30 months and the drain on the heifer's system from the 24th month to the 30th month is great. I would avoid getting the heifers overfat; at the same time I like to have them freshen in right good condition. During the last month or so I like to feed a handful of ground flax seed in a very thin gruel of bran mash once a day. And right here I want to make a confession.

Every dairy cattle man with whom I have talked and who has had long experience, has confessed that he has had more trouble with heifers during their first calving period than with mature cows. A large percentage of the calves come weak and not a few are born dead. I have not had more trouble than most good dairymen, but this is a condition that has always puzzled me. May it be that certain feeds are more desirable than others at this period? In a recent issue of Hoard's Dairyman, the results of experiments at the Wisconsin Experiment Station are summarized, and I would like to give their summary reproduced:

Effect of Feed Particulars.

"Sixteen young heifers, all of apparent equal vigor, were selected. Group No. 1 was fed the products of wheat; group No. 2, the products of oats; group No. 3, the products of mixed grains, wheat, oats, and corn; group No. 4 was fed on the products of corn. Mark well that each group was supplied with the same amount of protein and other feed constituents. It was not long before the effect of the feeding was clearly seen in the physical condition of the heifers. The wheat group showed the least thrift, the oat group next, the group fed on mixed grains next. The corn fed group was greatly superior to the others in this respect.

"When it comes to calf bearing, this disparity of results was shown in a very marked manner. The wheat group and oat group lost all of their calves, the mixed grain group did a little better, while the corn fed group produced four well-developed and vigorous calves. There seemed to be something in the corn that aided greatly in the pre-natal nourishment of the foetus, as well as an improved condition of the mothers themselves."

This looks to me like a careful, intelligent experiment. I have never been very favorable to corn feeding, sticking close to my oats and bran with a little flax seed and oil cake. This experiment would make it appear that it would be worth while to mix considerable corn or corn products along with the oats. Let's try it.

Cement Ice House.

The following hints for a small, concrete ice house are from Farmers' Bulletin 623, United States Department of Agriculture:

The building may be constructed of solid concrete or of concrete blocks. The foundation trenches should be dug 10 inches wide and 2½ feet deep, and filled with concrete proportioned one part cement, 2¾ parts sand and 5 parts broken stone. Above the ground level the walls may be made either of concrete blocks, laid up in a one-to-two cement-sand mortar or of solid concrete. For the solid walls above the ground level the concrete should be proportioned one bag of Portland cement to three cubic feet of sand and five cubic feet of crushed rock, or one part cement to six parts back-run gravel.

In building up the concrete walls, movable forms are used for holding the wet concrete in place until it hardens. These forms should be three feet high and extend entirely around the building. After filling the forms with concrete it should be allowed to stand for a day in order to harden, when the forms may be loosened, moved up, and again filled.

During the construction of the walls ⅜-inch reinforcing rods should be used, spaced 18 inches apart, running in both directions. Stagger the rods by placing half of them three inches from the outside edge, and the other half three inches from the side edge of wall. Embed two rods, or an old wagon tire cut in two and straightened, in the concrete two inches above the door opening.

For holding the plates on top of the walls sink a ½-inch bolt 10 inches long, head down, six inches into the concrete.

Lay a 4-inch concrete floor on the natural ground, and on top of this lay three inches of cork-board insulators embedded in hot asphalt, followed by two inches of concrete sloped one inch in four feet to trash drain. The floor should be finished with ½-inch Portland cement plaster.

The cork-board insulation should be erected on the walls and ceiling in a ½-inch bed of Portland cement mortar, mixed in the proportion of one part of Portland cement to two parts of clean, sharp sand. All vertical joints should be broken, and all joints made tight. A ½-inch Portland cement finish to be applied to the walls and ceiling as well as to the floor.

In many cases it will be cheaper to crib the walls to their full height instead of using sectional forms, as a part of the form lumber can be used in the roof and ceiling, and the remainder can generally be used to advantage on the farm.

Social Aspirations.

"She likes publicity, eh?"

"Does she? Why, she thinks the society column ought to make an item of it when she gives a little breakfast to a tramp."

Water always freezes on the surface first, because that comes into contact with the air, and its heat is carried away.

Does Pain Interfere?

There is a remedy

Sloan's Liniment

Read this unsolicited grateful testimony—

Not long ago my left knee became lame and sore. It pained me many restless nights. So serious did it become that I was forced to consider giving up my work when I chanced to think of Sloan's Liniment. Let me say—less than one bottle fixed me up. Mrs. C. Campbell, Florence, Tex.

MOTHER SEIGEL'S SYRUP

AND BANISH STOMACH TROUBLES

JOHN'S HOUSE TEMPER CONQUERS

INFLUENZA

Catarrhal Fever Pink Eye, Shipping Fever, Epizootic.

And all diseases of the horse affecting his throat speedily cured; colts and horses in same stable kept from having them by using Spohn's Distemper Compound. It is a doctor often cures; one bottle guaranteed to cure any case. Safe for brood mares, baby colts, stallions, all ages the same dilutes. Most skillful scientific compound. Acts quick. Best veterinary specific. Any druggist or delivered by manufacturers.

SPOHN MEDICAL CO., Goshen, Ind.

A MOTHER'S DUTY TO HER DAUGHTER

Her Health Must Be Carefully Guarded as She Approaches Womanhood.

The mother who calls to mind her own girlhood knows how urgently her daughter is likely to need help and strength in the years between early school days and womanhood. It is then that growing girls droop, become feeble, bloodless and nervous. Nature is calling for more nourishment than the blood can supply. Signs of distress are plainly evident in dull eyes; pale cheeks, weak and aching backs, fits of depression and often a dislike for proper food. These signs mean anaemia—that is bloodlessness.

The watchful mother takes prompt steps to give her girl the new, rich, red blood her system calls for, by giving her Dr. Williams' Pink Pills, which transform weak, anaemic girls into a condition of perfect health, through the rich, new blood these pills actually make. No other medicine has ever succeeded like Dr. Williams' Pink Pills and thousands of weak, disheartened girls have proved their worth. Miss Mabel Sinclair, Cobourg, Ont., says:—"About three years ago I was very sick, nervous and run down girl. At the least excitement I would tremble and faint away, and the slightest noise would annoy me. I had severe pains about the heart, and would often take dizzy and smothering spells. I lost in weight and the color all left my face. My mother got all sorts of medicine for me, but all failed to do me any good and I was still going down hill. One day we read in the newspaper of a similar case cured by Dr. Williams' Pink Pills and the next time my mother went to town she got three boxes. In a short time I felt the Pills were helping me, and from that on every day they helped me more. I took altogether nine boxes and felt like a new person. I was ready for all my meals, gained in weight; the color came back to my cheeks, and I was again enjoying perfect health, and have ever since enjoyed that blessed condition. I earnestly advise all weak girls to give Dr. Williams' Pink Pills a fair trial, as I am sure they will do as much for them as they did for me."

You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from the Dr. Williams Medicine Co., Brockville, Ont.

DRUGS BADLY NEEDED.

Medical Practitioners in England Are Working Under Handicap.

The scarcity of some of the most important drugs in England has become so acute that medical practitioners are handicapped greatly, especially as it is difficult to find substitutes for some medical products now unobtainable except in the smallest quantities.

This great scarcity has resulted in fabulously high prices being quoted. Thus atropine is worth between six and eight cents a grain (more than its weight in gold), while cocaine is worth more. Both these drugs are indispensable in opthalmic surgery. The scarcity of atropine is due to the dearth of belladonna, the raw material from which it is extracted, which is obtained from Central Europe.

How to Save Your Eyes

Try this Free Prescription.

Do your eyes give you trouble? Do you already wear eyeglasses or spectacles? Thousands of people wear these "windows" who might really dispense with them. You may be one of these, and it is your duty to save your sight before it is too late. The eyes are neglected more than any other organ of the entire body. After you finish your day's work you sit down and rest your muscles, but how about your eyes? Do you rest them? You know you do not. You read or do something else that keeps your eyes busy; your work your eyes until you go to bed. That is why so many have strained eyes and finally other eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches; they never cure. This free prescription, which has benefited the eyes of so many, may work equal wonders for you. Use it a short time. Would you like your eyesight to disappear as if by magic? Try this prescription. Go to the nearest wide-awake drug store and get a bottle of Bon-Opto tablets; fill a two-ounce bottle with warm water, drop in one tablet and allow it to thoroughly dissolve. With this liquid bathe the eyes two to four times daily. Just note how quickly your eyes clear up and how soon inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment, but marvelously effective in multitudes of cases. Now that you have been warned don't delay a day, but do what you can to save your eyes and you are likely to thank us as long as you live for publishing this prescription. If your own druggist cannot fill this prescription, send $1 to the Valmas Drug Co., Toronto, for a complete Bon-opto Home Treatment outfit—tablets and all.

One of the Animals.

"Now, Dorothy," said the teacher to a small pupil, "can you tell me what a panther is?"

"Yeth, ma'am," lisped Dorothy. "A panther ith a man that maketh panth."

Minard's Liniment Cures Colds, Etc.

Suspicious Tailor—There, stand in that position, please, and look straight at that notice while I take the measure." Customer reads the notice—a "Terme cash."

Minard's Liniment for Diphtheria.

THE NEXT WAR.

Will Be as to Whether Man or Insect Shall Inhabit the Earth.

Sir Harry H. Johnston, the well-known African explorer, is convinced that the greatest enemy that man has to face in the future is the insect conveyors of disease germs, and that we are engaged in a war that must be fought to the bitter end to see whether man or insect shall inherit the earth. In a recent article in the "Nineteenth Century" entitled "The Next War," Sir Harry says that the whole curriculum of our schools should be overhauled and that half the subjects taught should be dispensed with. Instead of Euclid, he would teach entomology; for algebra he would substitute elementary zoology, botany and chemistry. No farmer should be permitted to farm who cannot satisfy a county board that he understands the elements of hygiene and the cause and effect of the diseases generated in manure and farmyard filth. Africa is being ravaged by germ diseases simply because the white man has stopped the racial wars that kept apart the tribes that now infect one another; and the same thing has happened in India, tropical America, and Polynesia. Sir Harry ascribes the origin of caste in India to an instinctive dread of germ diseases on the part of the Aryan invaders, and their consequent attempt to hold themselves aloof from the native inhabitants. The misery caused by vermin is not the least serious of the many forms of wretchedness brought about by the present war.

GOOD MAY RESULT.

20,000,000 Lives Will Be Two Years' War Toll.

"The total destruction of life during two years of war will reach 20,000,000 persons," declares Prof. Louis C. Parkes, of the British Government Health Service, at the annual meeting of the Royal Institute of Sanitarians.

The speaker expressed the hope, however, that this loss of life might somehow prove a blessing in disguise, resulting eventually in a distinct improvement in European civilization.

"In the last ages," said Professor Parkes, "evolution of higher types in animal and vegetable life has generally resulted from cataclysmic changes, and great destruction by plague, pestilence, and famine has led to an advance in civilization. So it is possible that this Armageddon may be of ultimate benefit to humanity."

Touching on the lowering of birth rate in Great Britain, the speaker declared that every country in Europe has shown a decreasing birth rate during the last decade, with the exception of Bulgaria, Rumania and Ireland.

WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches colds which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this she either should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

THE STUDENT'S RESPONSE.

By Dr. E. T. Slemon, B.A.

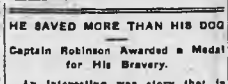
The text-book page fades small and dim,
The classroom walls grow close around,
The call to Learning dies within,
Its voice as if it ne'er had been;
The world vibrates with sound.

The air is filled with noise of war,
The student's soul-responsive springs,
To give his brain, his brawn, his life,
To do his bit, in the awful strife,
The Huns'-sleep rancour brings.

His books, his gown, he casts aside
His fathers' plans he argues vain,
His sweetheart's sighs, his mother's tears;
"Enlist, Enlist," is all he hears,
His fighting instincts reign.

The crowded transport bears him far,
He joins with steel, and fire, and shell,
To crush the frenzied Prussians' pride.
And give to all, by them denied,
Free homes, uncursed of hell.

There, hid in dug-out's dingy maze,
Hurls his mustard, all obstructing gun,
He hurls blind death and deathless woe,
'Gainst mankind's mad, insensate foe,
Till victory is won.



Not there alone the storm and strife,
Midst cannon's roar, and victors' cheer;
But in the watch of solitude,
In hearts engloomed in saddest mood,
Through boundless nights of fear.

For not a shot flies blind with death
And not a stab of steel is pressed,
But hearts at home grow chill and cold,
With torturing doubts and pains untold,
That rack some loving breast.

Yet wounds world-o'er, without, invisible,
Grim death untold, on land, at sea,
Man's universal waste and blight
We'll suffer on, to bring the light
Of peace!—Liberty.

Ottawa, Dec. 25, 1915.

A Tasty, Snappy Toast—for luncheon or evening "snack" is Triscuit, the shredded whole wheat wafer. Has the delicious, nutty flavor of baked wheat. A real whole wheat bread for any meal with butter, soft cheese or marmalade. Full of nutriment and full of "chews." As a toast for chafing-dish cookery it is a delight. Always toast it in the oven to restore crispness. Made in Canada.

HE SAVED MORE THAN HIS DOG

Captain Robinson Awarded a Medal for His Bravery.

An interesting war story that is current in England is told by the New York "Sun": The Caucasian, an English merchantman, was chased by a German submarine. The steering gear of the vessel was destroyed by a shot from the submarine and she had to stop. Captain Robinson, her skipper, gave a little Pomeranian dog, seven months old, to his second officer to put into the boat, but in passing the dog down, one of the men let it fall into the water.

When the captain entered the boat he saw the dog swimming toward the submarine. Without hesitation, he jumped overboard and swam almost a quarter of a mile before he could overtake his little pet. On reaching him, he placed him on his shoulders, and as the submarine had by this time drawn up to him, he laid hold of her in order to regain his breath.

The commander of the submarine, in broken English, said to him: "I was about to blow up your ship because you didn't stop, but I will not do so for your brave act in saving the little dog."

The captain swam back to the boat with the dog resting on his shoulder. For two days he feared that, owing to the exposure, the little dog would not recover; but it did get well at last.

The National Canine Defence League has awarded a medal to Captain Robinson for his humane action.

BRITAIN'S STATE TOWN

New Munition Area Run Entirely by the Government.

Great Britain's first national kinema theatre stood on the left hand; beyond it the first national grocery shop. A stone's throw away were the sites of the first national laundry and fire-station. At the latter is a fine motor fire engine to guard these new national treasures.

A woman stepped from the back door of a national cottage "K 3 West" and after a calculating look at the grey national sky, pegged some national washing on a national clothesline.

Imagine a whole township run from start to finish as a national or Government enterprise. The Ministry of Munitions founded this town, and its site is "Somewhere in Great Britain," plumb in the middle of a vast new munitions area.

It came about in this way. The Munitions Ministry wanted huge new works in open country, but with readily available housing for thousands of workers. There was no other way for it, so in building the munition works they built also a township for its workers to live in, and this first national township is the result. It has been given the name Cut Georgetown, after David Lloyd George, Minister of Munitions.

FOOD FACTS.

What An M.D. Learned.

A prominent physician went through a food experience which he makes public:

"It was my own experience that first led me to advocate Grape-Nuts food; and I also know from having prescribed it to convalescents and other weak patients that this food is a wonderful rebuilder and restorer of nerve and brain tissue, as well as muscle. It improves the digestion and patients gain, just as I did in strength and weight, very rapidly.

"I was in such a low state that I had to give up my work entirely and go to the mountains, but two months there did not improve me; in fact I was not quite as well as when I left home. My food did not sustain me and it became plain that I must change.

"I began to use Grape-Nuts and in two weeks I could walk a mile, and in five weeks returned to my home and practice, taking up hard work again. Since that time I have felt as well and strong as I ever did in my life.

As a physician who seeks to help all sufferers I consider it a duty to make these facts public."

Trial pkg. 10 days on Grape-Nuts when the regular food does not seem to sustain the body will work wonders.

"There's a Reason." Name given by Canadian Postum Co., Windsor, Ont.

Ever read the above letter? A new one appears from time to time. They are genuine, true and full of human interest.

CHEMISTS DISCOVERY.

New Use for An Explosive's Waste Product.

An interesting announcement of the discovery of a new method of utilising a waste product in connection with the manufacture of explosives was made recently at a meeting of the Society of Chemical Industry, in the Grand Hotel, Manchester, England.

In the manufacture of nitric acid, which is one of the most important chemicals for producing explosives, thousands of tons of a by-product are produced every week for which up to the present no remunerative use has been found. Owing to the strongly acid nature of the material, which is termed nitrecake, it is expensive to store, and its corrosive action on waggons and boats renders the cost of transport prohibitive.

Dr. J. Grossman, of Manchester, read a paper which dealt with the conversion of nitrecake into caustic soda, which at present is difficult to obtain, and commands a high price, and into cheap sulphate soda of the purest quality.

Still Singing Their Praises

DODD'S KIDNEY PILLS CURED HIS RHEUMATISM.

Mr. D. A. Brotherston Tells How His Rheumatism Disappeared Over a Year Ago and Has Never Come Back.

Victoria Harbor, Ont., Feb. 7th (Special.)—Cured of Rheumatism over a year ago by using Dodd's Kidney Pills, Mr. R. A. Brotherston, a well-known resident of this place, is still singing the praises of the great Canadian Kidney remedy.

"I was troubled with Rheumatism in my left hand, which would shift to my elbow and then to my shoulder," Mr. Brotherston says. "It was very annoying and painful at times, but I heard of Dodd's Kidney Pills helping others so I quit the liniment I was using and took six boxes of them. The rheumatism disappeared. That was over a year ago, but it has not returned.

"I know Dodd's Kidney Pills are good for kidney trouble both in my own case and through others who have used them."

There is more true philosophy in an inch of laughter than there is in a yard of sarcasm.

There'd be more happiness in this world if the average man would spend less time trying to understand his wife and more time trying to please her.

We're migh proud of our ancestors, but sometimes we wonder if our descendants will be as proud of us.

MURINE Murine is prepared by our Physicians, as used for many years in their practice, now dedicated to the Public and sold by Your Druggist. Try Murine to Refresh, Clean, and Strengthen Eyes after exposure to Cold Cutting Winds and Dust; and to restore healthful tone to Eyes Hardened and made Sore by Overwork and Eye Strain.

YOUR EYES

SEE NO HOPE OF PEACE.

German Chancellor Admits Force of Arms Cannot Bring End.

Gustav Schwappenkick, managing editor of the Deutsches Journal, who has just returned to New York from Berlin, where he acted as correspondent for the New York American, says:

Chancellor Von Bethmann-Hollweg made this statement recently to party leaders in the Reichstag:

"There have been no official peace negotiations so far. There have however, been unofficial conversations. The conferees were, as a rule, financiers of high international position. It was the general impression of the participants that all warring nations would be willing to enter into negotiations except England. Having failed to crush Germany by armed force, she hopes to succeed in an economic war.

"For this reason the war probably will last for some time," continued the Chancellor. "We may as well prepare for it. We must safeguard our food and other supplies. We must be independent of all overseas trade.

"It is my impression that there will not be extensive field operations for the present. Even if we occupied more of the enemy's territory it wouldn't alter the situation so far as England is concerned. We may straighten out our lines, take a port in Russia, improve our position in the west, but, generally speaking, no more great field battles are probable." Here the Chancellor paused, and added, "unless a campaign be embarked upon that will strike a vital blow at England."

A high military official said to me later: "Germany could take Paris. It would only be a question of how many men we were willing to sacrifice. But that wouldn't bring England to terms. We could take Petrograd. But suppose we drove the Czar out of his capital England wouldn't care. We could drive the Italian army into the sea. It would make no difference to England.

"The more territory we occupy the thinner our lines; the greater our difficulties in supplying them. Going ahead on such lines would help England more than us."

These two statements accurately reflect German sentiment.

Horrible Dream.

"I dreamed last night that I owned the earth."

"That was a pleasant dream."

"Quite the contrary. When the first of the month came around three million people threatened to move."

Who is Dr. Jackson?

For years he taught food chemistry, dietetics, and diseases of the digestive tract in one of the large medical schools of the continent. In his extensive experience in free clinics he worked out the formula for Dr. Jackson's Roman Meal a compound of whole wheat and rye with deodorized flaxseed and bran. It nourishes better than meat, prevents indigestion and positively relieves constipation or "money back." Ask your doctor. At all grocers, 10 and 25 cents. Roman meal is made by Roman Meal Co., Toronto.

Culture.

"My brother is going away to study culture," said the boastful boy. "Agri-culture on a farm, I suppose," remarked the giggly girl.

The Nova Scotia "Lumber King" says:

"I consider MINARD'S LINIMENT the best LINIMENT in use. I got my foot badly jammed lately. I bathed it well with MINARD'S LINIMENT and it was as well as ever next day.

Yours very truly,
T. G. McMULLEN.

Gibbs—"So you went after the job? I thought you believed that the office should seek the man." Dibbs—"I do; but this is a fat job, and I thought it might get winded before it reached me."

Minard's Liniment Cures Garget in Cows

Silence.—Judge—"I must have order in court. I must and will have less noise and confusion here. I have already disposed of three important cases without being able to hear one word of the evidence."

An Electric Umbrella.

An invention of great service in darkened streets has just made its appearance. It is an electric umbrella, and the light is obtained from a small flash lamp let into the handle, there being a small battery hidden in the stock. Other rather striking inventions announced are an illuminated kerb sign which lights up the name of the street—exceedingly useful this—and a rather clever looking glass arrangement for the prevention of collisions between vehicles in the streets.

The Paisley Advocate

PAISLEY, FEB. 16th, 1916.

—For these days when there are always more women at church services than men, here is a pertinent question by Youth's Companion: How many of the men who seldom go to church would choose to live in a town that had no churches?

—THE ADVOCATE holds that a soldier of the army should be rewarded for his labor upon the same basis as men in any other occupation, with additional rewards for the extra hazards to life, also that the government of the nation should assume the whole role of paymaster. It is gratifying to find that many Canadians have similar views upon this question, and that some of our parliamentary representatives are endeavoring to secure government action in the matter. A despatch from Ottawa says that Captain J. H. Burnham, member for Peterboro, wants the whole business of soldiers' pay, pensions and looking after Canada's disabled soldiers radically revised by Parliament. He has given notice of the following resolution in the Commons: That in the opinion of this House it is desirable that the Government should take into immediate consideration a scheme for the payment of overseas soldiers, whereby the rate of pay of the soldier may be sufficient to enable him to provide for his family, as in other callings, and further, that the lives of soldiers be insured by the Government for the benefit of the soldiers' family ties and dependents, and further, that a scheme of soldiers' compensation in case of disablement from wounds or sickness, analgous to workmen's compensations, be also carefully considered, to the end that the payment of and provision for soldiers be put upon a business basis commensurate with the nature of the service and the personal dignity of the soldier."

—An article in the Canadian Military Gazette points out the importance of developing good marksmanship in the new C.E.F. battalions by means of rifle shooting and the use of the target practice rod. "In the Franco-British wars of the middle ages," says the writer, "the British won not because of superior bravery, but because of their better skill in the use of the bow, the rifle, so to speak, of that day. In the present war the importance of accuracy in shooting cannot be overestimated, and anything that will promote marksmanship must not be overlooked. In his recent speech, the Minister of Militia proudly stated that the first contingent went to the front better riflemen than any body of troops of equal length of training." It is worth mentioning in connection with the foregoing quotation of a military authority that in Paisley a lot has been done to make marksmen of those who were likely to be called upon to use the rifle as a weapon of war, and among those who have gone from Paisley to the front or into training there are a goodly number who could qualify as sharpshooters or, as they are termed in the present war "snipers." The Paisley armory and ranges were the headquarters for rifle practice for years past under the direction of the local militia company officers. While many of those who thus acquired skill with the shooting irons are now past the military age, our younger men who are actually in the fray benefitted by the practice, as well as some who will yet be in the ranks. Practice makes perfect, and in no line of human skill does the old maxim hold more true than in the use of the rifle.

—The most of us are not disposed to urge that Canadian women take charge of the farm work and allow the men to enlist. But we note that the gentler sex are coming to the front in some branches of agriculture and stock farming. The winner of the 1915 pork production contest in North Dakota is a young woman. The judges awarded the prizes on the basis of the largest gain in weight in the shortest time and at the least cost. The litter of twelve pigs that the winner cared for weighed 2,593 pounds when they were 193 days old. As they had eaten $50.92 worth of feed, and were valued at six cents a pound, the net return was 54¼ cents a day. Not only did a girl win the first prize of $100, but there were eight other girls among the twenty-four young people who shared in the reward. This might be accepted as evidence of the girls' ability to run the farms while their brothers went to war, but it might be well to ask who would raise the feed for those porkers if the plowmen went away?

PROHIBITION, THE PEOPLE AND THE GOVERNMENT

It seems to us that those people who are opposing a referendum to the electors of Ontario upon the prohibition question, basing their opposition, as one of their circulars puts it, upon the ground that this is "a fight for Liberty against Tyranny," are shooting far wide of the mark. There is no such issue involved; neither is it a question whether we are willing, as one of the circulars puts it, "to be robbed of our freedom as British subjects," or to "have our private life controlled."

The real issue as we see it is simply this: whether or not the people of the province as a whole—not the prohibitionists only, not the anti-prohibitionists only, but all the people—shall have the right to pass upon a great question involving the material and the moral well being of the province. The question, in short, is, Shall the people of this great province be consulted or shall they be ignored in respect to this real and very vital issue? Were it for The Standard to answer the question, we should answer emphatically in the affirmative; should say decidedly that the people, who in the last analysis are the Government, should have a voice in determining whether a measure of this vital importance should or should not be put into effect? Were this done there would be no rape upon personal freedom; it would merely be a case of allowing the majority to determine and decide the entire question.

The Empire to-day is at war and in its stress it appeals to and trusts the people to do their full duty toward helping to overcome the war-mad Huns. It is a case of implicit faith and trust in the people. And as it is in this Titanic world battle, so it seems to us it should be in the lesser issue of prohibition or no prohibition; the people should be trusted and it should be put squarely up to them whether or not a prohibitory law shall be put into effect. How when the appeal is to the sovereign people there can be an infringement of personal liberty or interference with personal rights is quite beyond us.

Sir James Whitney when he was alive was known as a man who was bold enough to be honest and honest enough to be bold. We have faith in the wisdom and sagacity and in the courage and honesty of the brilliant man who has succeeded him, Hon. W. H. Hearst, and in the able men who are his cabinet counsellors to believe that they too are bold enough to be honest and honest enough to be bold, and that in this crisis they will put their trust in the people and give to them an opportunity to pass upon this most momentous question.

Whether they will do so or not remains to be seen, but whatever is finally determined upon by the Government let us once and for all have done with this silly talk of infringement of personal liberty and private life, because forsooth many people feel that prohibition is today one of the burning issues of the moment and that, divorced as it now is from politics, which unhappily was not the case in the last provincial election, the electors should be given an opportunity to pass fairly and honestly upon it.—Kingston Standard (Conservative).

SHARP ATTACK REPULSED

Dungeon Condition Relieved Just In Time By "Fruit-a-tives"

MR. F. J. CAVEEN

682 Gerrard St. East, Toronto.,

For two years, I was a victim of *Acute Indigestion and Gas In The Stomach*. It afterwards attacked my Heart, and I had pains all over the body, so I could hardly move around. I tried all kinds of medicines but none of them did me any good. At last, acting on the advice of a friend, I decided to try 'Fruit-a-tives'. I bought the first box last June, and now I am well, after using only three boxes. I recommend 'Fruit-a-tives' to anyone suffering from Indigestion, no matter how acute". FRED J. CAVEEN.

Simple Indigestion often leads to *Heart Attacks, Catarrh of the Stomach and constant distress of mind and body*. If you are bothered with any Stomach Trouble, and especially if Constipation troubles you, take 'Fruit-a-tives'.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Patriotic Meeting

— AND —

Recruiting Rally

at PAISLEY, on

WEDNESDAY, FEB. 23

Military Parade

At one o'clock p.m., sharp, there will be a parade of soldiers from detachments at Paisley and Port Elgin, who will march on Queen St., headed by the Military Band of the 160th Bruce Battalion.

A Public Meeting

will be held in the Town Hall, commencing at 2 o'clock, sharp, to be addressed by the following speakers:

MAJOR OSBORNE, of Headquarters staff at London, who was wounded while fighting with Canadian forces in France.

REV. MR. WALKER, pastor of Walkerton Methodist Church, who delivers a regular fighting speech.

LIEUT.-COL. WEIR, JUDGE KLEIN, MR. JOHN ROWLAND, local Clergymen and others.

Good musical numbers will be rendered by best local talent.

The chair will be occupied by Reeve Ballachey.

All places of business will be closed from 2 to 5 o'clock p.m.

Everybody welcome and everybody in town and surrounding country is invited to come out to see the big parade, hear the fine military band and the speakers. Take a half day off for this loyal demonstration. You will miss a great treat, if you fail to be there.

GOD SAVE THE KING!

JUDGE KLEIN, Pres. Bruce War Auxiliary

GEO. McKAY, Secretary

LOCAL AND DISTRICT NEWS

Handsome Patriotic Grant

At the 77th annual general meeting of the Gore District Insurance Company on the 7th inst, the following motion was carried unanimously: Moved by E. W. Nesbitt, Esq., M.P., of Woodstock, and seconded by Mr. John Sutherland, Sr., President of John Sutherland & Sons, Limited, of Guelph, that the members of the Company in annual meeting assembled recommend the Board of Directors to make a donation of $50,000 to the Canadian Patriotic Fund. This handsome donation to the Patriotic Fund was approved by the Directors and the meeting joined heartily in singing the National Anthem on the occasion. The members are to be congratulated. It shows that they are not unmindful of the tithes through which we are passing and that they are desirous of doing their full duty towards Canada and the Empire.

Parcels Were Welcome

Pte. Alex Blue wrote from Belgium on Jan. 22nd to Mr. Paul Oltsher: "I received your parcel along with Geo. Welsford's last night as we came from the firing line for a rest, and say, it was nice and tasty, and I did enjoy it. Many thanks. Well, Paul, Belgium is nothing but a shell-torn battle-field at present, but as one looks around he can see it has been a beautiful country and very nice buildings in it. But when a coal box hits a building it makes it look as if it had not been there. I was standing in the front line one day last week when I heard a coal box coming. I knew it was going over alright, so I watched where it would hit. It seems Fritz thought he had something in an old barn back of the firing line, as he dived about seventy over, and if I remember rightly only one shot hit that barn—but it sure did put it out of business. And I remember another that fell short of where he was hitting. A ball of fire shot out of it about forty feet out, then a cloud of black smoke which I believe would cause harm to anyone within a radius of 150 yards, as some of the shrapnel came around where I was standing. It is deafening sometimes when the guns are roaring to be near them, but we get used to them. We have been under some heavy firing out here, but as luck happened we have not had many casualties. As to when this war will be over, I have no idea, but hope it may be soon. All the boys from home are well. I see that a few more boys have enlisted. Well, that's fine. There are enough of them out here from Bruce to form a battalion, as I have met a lot of them in different battalions. If I get back home I will be able to tell you more. I am not as fat as I was in England or Canada, as I have lost about 40 pounds. Give my respects to all.

The Late Patrick O'Hagan

Another Bruce pioneer has passed away in the person of Patrick O'Hagan, of the 8th con of Elderslie. Mr O'Hagan died on Saturday in Guelph, whither he was spending some weeks with Mrs O'Hagan's relatives, in hope of recovery. He was stricken with paralysis last July, from which he rallied for some time, and hope was entertained that his life might be prolonged, but he continued to fail during the past few weeks until last Saturday morning, when the end came very suddenly. Patrick O'Hagan, who was born in Ireland, was a little boy of five or six years of age when his father, the late John O'Hagan, sr. moved into the township of Elderslie about sixty years ago. He therefore witnessed and shared in the true pioneer life of Bruce. He was one of four brothers—Eugene, John, Patrick, and Thomas—the only surviving one now being Dr Thos O'Hagan, the well known writer. The late Mrs T Hanley, of Greenock, was an only sister. It may be safely stated that the late Patrick O'Hagan was as fine a type of man as could be found in the county of Bruce, and one of the most popular men in the township of Elderslie. He was a man of marked character, marked integrity and with a sympathy so large that everyone whose hand he touched became his friend. He represented for a number of years the township of Elderslie in the municipal council, and had he been ambitious of municipal honors there is no gift in its keeping that he could not have secured. Like his brother, the late John O'Hagan, jr., Patrick O'Hagan was not only a very successful farmer, but his interest in well bred stock gave him a prominence among the stockmen of the county. He was a man of eminent judgment, and a man as well of firm and fixed convictions. A Roman Catholic in religion he lived all his life among his non-Catholic neighbors and friends respected and beloved by everybody for his singular kindness and thoughtfulness and the charity of his heart which quietly went out wherever there was need or suffering or sorrow. About ten years ago Mr. O'Hagan married Miss Hannah Barrett, of Guelph, who survives him.

The funeral took place on Tuesday morning to Chepstowe, the family burial place. The long cortege, when it reached Chepstowe was added to by many of the deceased's relatives and friends residing in Greenock. The last solemn rites were celebrated in the Chepstowe Catholic church, Rev Father Goodrow being celebrant, with Rev Fathers Zettler and Cape deacon and sub-deacon respectively. Rev Father Zettler, pastor, preached the funeral sermon. The pall-bearers were immediate neighbors of the deceased—Job Turner, Sandy Mitchell, John Bangerman, Albert Lowes and Wm Miller.

The Late Mrs. Wm. Maher

The late Mrs. Wm Maher, who passed away at the residence of her daughter, Mrs. Patrick McCurdy, on Jan. 23rd, was born in the township of Albion, Peel county, and was married in King township. It is 52 years since Mr. and Mrs. Maher moved to Paisley, where they resided about twelve years, and about forty years ago they came to Elderslie where Mr. Maher was engaged in farming until six years ago when he quit active work, and for the past few years Mr. and Mrs. Maher have lived with members of their family. Mrs Maher was in her 78th year. Besides her husband there are left to mourn the loss of a kind and loving wife and mother a family of three sons and four daughters as follows: Edward, of Chesley; Samuel, of Owen Sound; Albert, of Waukesha, Man; Mrs Patrick McCurdy, 1st con. Ell.; Mrs Sol Wood, Toronto Junction; Mrs Howard Anderson, Owen Sound; Mrs. John White, 13th con. Sullivan. Interment took place in St. Andrew's cemetery on Jan. 25th

New Red Cross Society

A Red Cross Society has been organized in S.S No 15 Bruce, with the following officers: President, Miss N McOllrirky; Vice-Pres., Mrs. Wm Mc[illegible]; Sec.-Treas., Miss E. Greaves.

"Granny" Chamberlain

Hacking Coughs

"For Hacking Coughs that rob you of your sleep till your system becomes so run down that you are in grave danger of Pneumonia or Consumption, the kind that almost tear you to pieces, that make your head ache, your throat sore and inflamed, take

Chamberlain's Cough Remedy

It soothes and heals the inflamed air passages, stops the tickling in the throat, and by its tonic effect enables you to throw off the disease. Chamberlain's Cough Remedy is quite different from the ordinary cough medicine, for it not only soothes but also heals, so that the effected parts are restored to a healthy condition and the danger of a future attack is removed. I firmly believe that it is the best and most reliable preparation ever produced for coughs and colds."

Yours for Health —Granny Chamberlain

PRESENTATION TO SOLDIER

On Monday night a company of people assembled at the home of Mr Andrew Bain, con 17, Greenock. The object of the gathering is clearly explained in the following address to the soldier son of the household:

To Pte Andrew Bain:

Dear Friend—We, your friends and neighbors, have learned that you, our comrade and friend, may at any time be called from our midst, since you have responded to the call of our noble Empire to defend her against a powerful and treacherous foe. We desire to express our profound appreciation of your loyalty, courage and unselfishness in enlisting for overseas service. We cannot help but feel deep regret that the pleasant relations that have always existed shall now be interrupted for a time at least. However, as we go about from day to day at our common tasks we shall think of you, talk of you, and pray for you, and trust that in the new surroundings in which you will be placed and the different tasks in which you shall be engaged, you will sometimes think of your friends and neighbors. Needless to say, you will be missed very greatly in the community because of your cheerful disposition and of your willingness in giving assistance in the various social functions that have occurred in that neighborhood. Yet we sincerely cherish the hope and earnestly pray that the severance of our happy relations may only be temporary, and when, the conflict over and the battle won, you may return in health and strength of body and mind, and with much honor, to your home in Greenock, where a hearty welcome shall always await you from your friends and neighbors. As a slight token of our esteem and good wishes for you, we ask you to accept this wrist watch. Signed on behalf of your friends and neighbors,

Harvey Neilly,
Willie McFadden,
Geo Gilchrist.

The address was read by Mrs G W Gilchrist and the presentation was made by Wm McFadden.

After Pte Bain had responded to the address a programme of songs, speeches and music was carried out under the direction of Mr Harvey Clark as chairman, following which the young people enjoyed dancing for a few hours.

NOT PRO-GERMAN

To the Editor:

I have been informed by one of our citizens that a story is in circulation to the effect that my father (F Schnitker) has manifested "German sympathy" by talking in favor of Germany and is a pro-German. Such statements are absolutely false and untrue. It is true that he held a position in the Germany army during the Franco-German war, but when he was free to do so he left Germany to get away from its military rule and Kaiserism. For over thirty years he has lived in Bruce Tp, where he has earned a livelihood for himself and family and built up a competency, and has been loyal to the king and country of his adoption. Nor will he ever be a traitor to the flag under which he is now living and enjoying such freedom. The story of his being pro-German is ridiculous, and the person or persons who set the falsehood going might well find some more honorable and effective way of demonstrating their loyalty at the present critical time. It is quite right that treason should be punished, but to persecute and annoy one who is innocent of such a charge by attempting to make him appear guilty in the public eye is very discreditable to any true British subject. It is rank meanness, as well as an injustice, which should not go unpunished.

Signed on behalf of my father.

Fred Schnitker, Jr.

PERSONALS.

Well-known Women.

Chatham, Ont.—"I was sick for about four years. Got very weak, could not eat to amount to anything. I got very thin and had no strength at all. I was very much discouraged at times—thought I was never going to get better. I could not walk a block without feeling all tired-out. I took different medicines but did not get the help I needed. A friend of mine advised me to try Dr. Pierce's Favorite Prescription. I began to take it with the 'Pleasant Pellets' and by the time I had taken two bottles I was well on the road to recovery, and in six months I was entirely well. My appetite came back and I gained in flesh. Now I am as strong and healthy as any one could wish to be. I owe it all to Dr. Pierce's medicines and I am glad of the opportunity to give testimony in their favor; they have done wonders for me."—Miss Thelma Farrer, 141 E. King St.

Chatham, Ont.—"I have taken Dr. Pierce's medicine with good results. I was weak and run down, lost my appetite and got very thin. I took 'Favorite Prescription' and 'Pleasant Pellets' and these two medicines built me up in a very short space of time so that I felt as well as ever. I found them to be all that is recommended of them; they are good."—Mrs. Wm. Warren, Cor. Taylor & Grand Ave., E., Chatham, Ont.

Every woman who has backache, headache, low spirits, sleepless nights, owes it to herself to speedily overcome the trouble before a breakdown causes prostration.

Dr. Pierce's Favorite Prescription is a non-alcoholic remedy that any ailing woman can safely take because it is prepared from roots and herbs with pure glycerine, containing tonic properties.

To Our Subscribers

Our Mailing Lists

have been corrected right up to Feb'y 5th, and all payments on subscription are duly credited, by a change in the date on label.

The date to which subscriptions are paid is indicated by the month and figures found thereon.

If the label reads Jan 17, it is paid to Jan 1st, 1917. A label marked Jan 16 is paid to Jan 1st, 1916—and so on down. Where the figures read anything less than 17 the subscription is in arrears and the subscriber has a little duty to perform to get right with the publisher. Do it now, and save a little money.

Look at Your Label.

$1.00 Rate will be Accepted Until March 31st.

WE do not wish to spring the increased subscription rate upon any subscribers without giving ample time to pay up to the end of 1916 at the old rate of $1 per year. Therefore we have decided to defer enforcement of the new rate until March 31st.

DEATH OF MR. JOHN TOLMIE

Mr John Tolmie, ex-M.P., died at his home in Kincardine on Thursday night, Feb 10th, as the result of a fall in his cellar the previous night. He fell headforemost down the cellar stair to the cement floor, sustaining a fractured skull. He appeared to rally from the blow, but never really regained consciousness. His daughter, with whom he lived, gives the opinion that Mr Tolmie mistook the cellar door for the hall door, the two being side by side.

Mr Tolmie was one of the best known and most popular men among the people of Bruce county, also known and respected widely throughout Canada for his lovable personal qualities as well as for his keen business sense and shrewd political judgment.

He was born at Belgowan, Inverneshire, Scotland, Aug 30, 1845, and came to Canada in 1868. He spent his first sixteen years in this country on a farm on the 2nd con of Bruce Tp., then going to Kincardine town to take the management of the salt works there.

Mr Tolmie had a long political career. He served first as councillor in Bruce Tp and then as reeve for two years. Later he was deputy-reeve of Kincardine for a year and mayor for two years. He was first elected to the Commons in 1896 as an independent Liberal candidate, and re-elected in 1900. In the election of 1904 he was not a candidate, but in the by-election in 1906 he was returned for North Bruce and re-elected in 1908. In 1911 he was defeated, but was again chosen as candidate of the Liberal party for the next general election.

Mr Tolmie was a thoroughgoing Scot, with all the geniality and camaraderie that the lover of Scottish poetry and song possesses. He was a good story-teller, a popular political campaigner and a man who made and held friends.

Mr Tolmie was twice married, first to Maggie Patterson of Lucknow, and second to Alice Robertson of Madoc, who also predeceased him. A son and daughter by the first marriage are living.

ELDERSLIE COUNCIL

Tp Hall, Feb 7th, 1916

Council met on above date; members all present. Minutes of last meeting read, adopted and signed.

A number of accounts were read, also a communication to the local Board from the Provincial Board stating that after Feb 1st the Provincial Board would supply free of charge through the local boards: smallpox vaccine, diphtheria antitoxin, tetanus antitoxin, anti-meningitis serum, anti-typhoid vaccine, and Pasteur preventive treatment for rabies, the only charge to be for containers.

Major Hay, of Paisley, also submitted a statement, certifying that five young men from Bruce Tp had been duly enlisted and attested.

Three tenders were received for supplying the cedar culled for, the tender of Ross McLennan being accepted.

The auditors' report was presented and adopted.

The Goderich road committee were instructed to get notice on the speed of autos through the township, also to put up north, south, east and west of Underwood, as this is a dangerous corner with autos passing at high speed.

Accounts to the amount of $117 85 were passed and council adjourned to meet on March 11th, when pathmasters, pound-keepers and fenceviewers will be appointed.

J G MacKay, Clerk

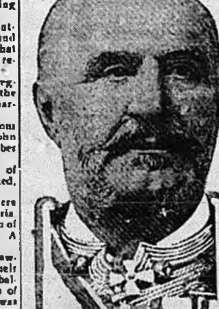
Recruits at Tiverton

Below is a list of the 34 enlisted recruits who are training at Tiverton under Lieut W L McKay: Mark Nicholson, Albert Preston, Robt Shrieder, Oliver Wright, G C Walker, Wm G Campbell of Tiverton; Alex M McDonald, John Sinclair and Bill Mooney, of Base Line; Wm Stevens, Angus Norman, Don A McDougall, John McKinnon and Mal McKinnon of 10th Kincardine; Geo D McArthur, Percy Barnes, Joseph and Hugh Sproule of 9th Kincardine; Wm Clyde McKerman, John Thompson and Albert Wm Groves of Glenelg; John H Inkstay of Underwood; John Alex Robinson, Wm T Robinson, Alex I Shepherd, Gordon Smith and Wm Arol Mewhinney of 6th Bruce; Jas Thomson and Ed A Taylor, of 2nd Bruce; Chas A Salmon, of 12th Bruce; Ed Chapman, of Lily East; Arch Mathieson, of Armour; Percy Heath, of Armour; John Kitchen, of Detroit.

MONTENEGRO

The area of Montenegro is 5,603 square miles.



The first railway in Montenegro was opened in 1908.

Montenegro has now some 40,000 men under arms.

To behead one's enemy is the final joy of the Montenegrin.

The mail transit from England to Montenegro takes four days.

The Montenegrins belong to the Serbian branch of the Slav race.

KING NICHOLAS OF MONTENEGRO

"Thou mayest as well take away my brother as my rifle," is the proverb of the Montenegrins.

A large portion of Montenegro is uncultivatable, consisting of forest and mountain pasture and bare limestone.

Prisoners in Montenegro wander about, meet friends, join in festivals, and are known only by the dull music of a clanking chain.

I OWE MY HEALTH

To Lydia E. Pinkham's Vegetable Compound.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would echo all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."—Mrs. Rose Stoffel, Moore Avenue, Washington Park, Illinois.

We wish every woman who suffers from female troubles, nervousness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

F. PURDY

GERMANS GRIND RUSSIAN POLAND

HARSH MEASURES TAKEN TO TAX POOR PEOPLE.

Everybody Above Fifteen Means Old Current for Passport and Photograph.

A leading member of the Polish Independence party tells something in the following article of German rule in Russian Poland:

The financial exploitation of Russian Poland by the German authorities has assumed in certain parts of the country the form of strange varieties of speculation. Thus, for instance, in Lods, where great quantities of coal are required for fuel in the houses and in those factories which are working at least a small fraction of the time, the German authorities (the police office) have introduced a monopoly in coal and coke. No one is allowed to provide himself with coal by any other channel; certain stores bought by the manufacturers without the intermediary of the German authorities have been confiscated.

The German authorities are exacting 4s. 5d. for a sack of coal which certainly did not cost them more than 2s. 2½d. The coal is taken from around Dombrova, mostly from the "Saturn" Mine, which belongs to the same Lodz manufacturers to whom the coal is subsequently sold at such preposterous prices. Even the coal which the town of Lods is compelled to supply for fuel in the buildings used by the German authorities and army has to be bought from those same authorities.

For a sack of coal which formerly cost 2s. 5d. the German authorities now charge 4s. 2½d. The police office has been making about £20 on each railway truck of coal, and all in all, hundreds of thousands of pounds. The humanitarian president, Von Oppen, had promised for some time to give back part of those profits, £900, to meet the needs of the town, but he soon forgot his promise.

In some localities the population has been forbidden to buy provisions from anyone except the German commissariat officers; these were importing without exception valueless cattle, fixing for them arbitrary prices. Similarly, the "Warenein-fuhr," which monopolizes the trade in flour, fixes very high prices for it.

Exchange Manipulation.

The German authorities have been making a considerable amount of money by speculating on the money exchange. Certain fees are accepted from the population only in silver roubles, which are valued very low, while in other cases only marks have been demanded. Especially in the payment for coal the German authorities have refused to accept their own war bank paper ("Darlehen-scheine), and draw out of the country the silver coinage and bank-notes, saying sententiously, "German coal must be paid for with German money." As a matter of fact, the coal in question is taken from the Polish district of Dombrova.

The German authorities are fixing taxes and raising those which existed before the war. Although all trade had stopped before their order for payment of taxes was published, the said order demands payment of all taxes on industry, threatening first a fine of £250 in default of payment, and further fines afterwards. According to their calculations Lodz alone ought to pay them more than £100,000 of trade taxes.

While all kinds of fees are drawn from the country the German authorities are showing extraordinary ingenuity in exploiting it whenever they are compelled to make investments indispensable to them for military reasons. Thus, for instance, they frequently force local bodies to pay for the repair of the railway or road which they take over in their own military interest. Similarly, the entire burden of the upkeep of Russian prisoners of war and invalided soldiers at Lodz has been thrown on the town.

Fines and Fees.

Incredibly high tariffs have been imposed on the import into Russian Poland of goods which are indispensable to it—for example, oil, soap, food, etc. Fines and contributions are imposed on towns on the slightest pretext. Besides all this, the country has been ruined by fiscal exactions in the shape of fees for passports and temporary passes. For tickets from one railway station to another simply fantastic prices have been fixed. A temporary pass is required for a journey from one district to another. (There was a time when such a pass was required even for going from one village to another.) Political reasons hardly come in here, because anyone can obtain a pass on payment of a certain fee. But these fees are simply incredible; for a pass to the nearest place one has to pay 2s.; to a place further away, 3s.; and so on. These passes rise as high as 10s. to 20s. In a country with a population of several millions, districts, connected by economic, administrative, and family ties, had been isolated from one another by the war for a whole month; the fees, therefore, for temporary passes now bring in every month hundreds of thousands of pounds.

In June the fiscal ingenuity of the Germans invented a new source of income. Everybody above the age of 15 has to have a passport with a photograph. For children below the age of 15, common passports without photographs are admissible. The passport does not give its holder any rights, or entitle him to move from one place to another. Thus, if under the passport law, only two million passports are issued, the German Treasury will obtain £1,000,000. According to the order of Field Marshal von Hindenburg, published June 9, if anyone in the occupied territory should be found after August 1, 1915, without a passport, he will be liable to imprisonment for a term not exceeding 10 years, or in case of extenuating circumstances, to a fine of from 10s. to £300. This system of robbery proves that the Germans do not expect to remain in Russian Poland. One does not ruin economically a country in which one expects to stay.

COOLED HIS GERMANISM

Carlist Says He Saw Kaiser's Order To Slaughter.

The Paris "Matin" prints the following, written by Count Melgar, former secretary and confident of Don Carlos, and now a leading member of the Carlist party, the sympathies of which are strongly pro-German:

"I was at Frohsdorf when the war broke out. I was then Germanophile and was pleased over the prospect of German success, on which I counted. I hurried to Vienna, and the first thing I saw was the secret document written by the German Emperor to the Emperor of Austria, to inform him of the order given to carry on a far of extermination.

"My soul is bursting with grief,' wrote the Kaiser, 'but it is absolutely necessary to put everything to fire and the sword; men and women, children and aged must be slaughtered; not a single tree must be left upright, nor a roof intact.' With such a system of terror, the only one to be followed against a people so debased as the French, it is certain that the war will not last two months, while by proceeding with humanitarian consideration it might be prolonged for years. I am having recourse, then, whatever it may cost me, to this method, which, in spite of appearances, will greatly diminish bloodshed.'

"Such atrocious words made the first breach in my admiration for Germany. A few days later I read in an evening paper a speech delivered by the Kaiser to his soldiers in which he declared that he had learned that two French military officers had entered Metz and poisoned the garrison wells with cholera microbes. Then I understood that such a man was not merely cruel but a shameless liar and calumniator.

"I also had an opportunity of learning of the grief of the Russian Ambassador, who told one of his friends how he had, in an interview with Emperor Francis Joseph, declared his Government ready to make important concessions to avoid war.

"The aged monarch had yielded to his prayers and authorized him to telegraph to Petrograd that all danger of war was over. The next morning the Ambassador was hurriedly summoned to the Emperor, who said that he was obliged to take back his word, as the Kaiser Wilhelm had telegraphed to him, 'If Austria is afraid, Germany fears nobody, and to burn the bridges I have just declared war on Russia.'

"This revelation compelled my conversion. I felt sure that the Kaiser Wilhelm, instead of being the instrument of God, was inspired by the devil."

DIED FOR LOVE OF HORSE

Quaker Killed After Long Trip to Bring Meas of Oats.

M. Philippe Millet, in his war notes in the Paris Temps, tells a touching story of the heroism of a member of the Society of Friends and the A.S.C., whose name he gives as Staunton.

Mr. Staunton was serving his country at the front as chauffeur attached to the staff, since his conscience would not allow him to shed blood. One day he took pity on a stray horse and led it back to the stables, giving it into the care of a groom named Baker. On visiting his protege some time afterwards he found it looking very lean.

"It is not its faulty," said Baker. "We are not getting any more oats."

"Good," replied Staunton, "I will go and fetch some," and he started off, though it was not his turn to go for supplies.

"I met him," says M. Millet, "just before he was on his homeward journey, and I asked him mechanically if the roads were any less 'unhealthy' than they had been for some days past?"

"I had not much trouble in getting here," was his quiet answer, "but I fear it won't be very pleasant on the way back."

"The next morning," writes M. Millet, "I went to look for him. I found him bent over the wheel at the far end of a bridge. A shrapnel bullet had pierced his heart.

"Thus died Staunton, the Quaker, for the love of a horse."

"Are you better off for getting married?" "Yes; formerly I had good quarters." "And now?" "Well, now I have a better half."

Little Johnnie—"Ma, was Robinson Crusoe a circus acrobat?" Mother—"I don't know. Why?" Johnnie—"Well, here it says that after he had finished his day's work he sat down on his chest!"

Strange British Rations in Africa.

Two British officers of the force in the Cameroons superintending the shipments of bananas as they are gathered from the trees and packed off to the troops advancing on the strongholds of the Germans in the Cameroons. The poular uniform of the British officer in that country is "shorts" and sun helmets.

SERVANTS OF KING KILLED IN ACTION

CHARGED INTO THE FOREST AND WERE LOST.

Sandringham Employes Annihilated In Battle With the Turks.

Of all the tales of gallantry told, and yet to be told, of the desperate fighting in Gallipoli, none perhaps will surpass the heroism of the Norfolk Territorials, with whom the King's Sandringham servants went to fight. Of them, Sir Ian Hamilton wrote in his now historic dispatch: "Among these ardent souls was part of a fine company enlisted from the King's Sandringham estates. Nothing more was ever seen or heard of any of them. They charged into the forest and were lost to sight and sound."

Writing of the magnificent charge into the "misty unknown," a correspondent, writing from Kings Lynn, says: "It is a story of the men who never came back. Of Colonel Beauchamp and 16 officers, who led 250 men across ploughed open fields, thinking of nothing but the order, 'Anafaria must be taken by dusk.' Today only a dozen, it would seem, are alive as wounded prisoners in Turkish hands, some day to tell a tale, perhaps, that shall add a silver lining to one of the most glorious but saddest records of the British army."

It Is a Breathless Story.

"Think of every eligible man of the King's Sandringham estates engulfing in a body and forming a nucleus of C company; men whose wildest 'thrills' had been talk of a recalcitrant bull on the royal estate. Others from office stool and counter. Twelve months of skilled training, in which Col. Beauchamp was a past master. A pleasant cruise across open blue seas on board the Aquitania, and a midnight landing on an enemy's unknown and unmapped coast.

"'Anafaria must be taken by dusk.' That was the responsibility intrusted to them for more than two and a half miles, across open country which would not shelter a field mouse, these Norfolk neophytes to gunfire charged. Maybe it was the very gallantry of these superiorities that was their undoing. The Turks could not face that thin line of glittering Norfolk steel. They broke and fled.

"Bold and confident, Colonel Beauchamp, waving just a simple Malacca cane, outpaced his men. 'On, the Norfolks, on!' 'Come on, the Holy Boys'; came the resounding echo from those ardent souls close upon their leader's heels.

"The fighting grew hotter; the Norfolks came into a terrible enfilading fire on both sides. Shrapnel and machine guns swept the earth bare of those men whom the Turkish infantry could not face. Exhausted by thirst and decimated by the fire, into the woods they continued. And then—who knows? Only 12 survive, and they are wounded prisoners.

King's Estates in Mourning.

"So to-day, the little villages of West Newton and Derbingham and the cottages on the King's estates are all in mourning. Gardeners, keepers and woodmen have paid the great sacrifice. Aching hearts are scarcely less heavy because the King himself has tried again and again to secure a release from suspense. These women, materially, want for nothing. Every family receives from the King the same pay as if its man was at home.

"Corporal Blott, who was attached to the C company, the King's company, is a prisoner, but is unable to throw any light upon the fate of his comrades. Once a week he is allowed to send a postcard to his mother, but 'it was just a jumbled up affair,' says Blott. After capture he was marched 90 miles in four days to his internment camp, and now his four-line postcards just contain requests for money, food and clothing.

"Colonel Beauchamp was last seen alive in the village of Anafarta. He was walking arm in arm with his adjutant. He carried his service coat on his arm and was still encouraging his brave followers. 'Big 'em out, boys; stick it through them.' It was his last heard order to his men to clear the village of Turkish snipers. The village subsequently appears to have come under heavy artillery shell fire. May be it was followed by an overwhelming sweep of Turkish reinforcements while literally swamped the surviving Norfolks."

RESERVIST FINED $500

Punished For Writing About British Air Defences.

Simply because he sent a letter to a naval friend interned in Holland containing remarks about British air defence preparations, Percy Kearne, an English reservist, has been fined $500 for breach of the defence of the realm act and narrowly escaped imprisonment.

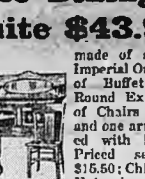
Kearne has done good work in serving his country, and the War Office gave him a certificate of loyalty, but the Judge held that the regulations about sending information of a military nature out of the country, even to a fellow patriot in a neutral country, was a dangerous proceeding which must be severely punished.

The national reservist sent a letter to a naval flying lieutenant interned abroad telling him of the progress made in improving the air defences of London, merely with the idea of giving him some news which would interest him, and knowing well that the naval lieutenant would never dream of communicating it to anyone connected with the countries with which Britain is at war.

The letter never reached the naval lieutenant, for it was intercepted. The authorities said they were perfectly satisfied concerning Kearne's loyalty, but it was a serious offence for people even to collect military information. Kearne said that in writing the letter, it never struck him for a moment that he was doing the slightest wrong. He wrote the letter to the naval lieutenant to cheer him up, because since his internment abroad he has made an unsuccessful attempt to escape, which had made him very despondent.

The magistrate said that there was not a scintilla of suspicion that he had to deal with anything of the spying order. Kearne was a loyal Englishman, a useful soldier and a good worker, but he had committed a grave indiscretion which "cried aloud for a penalty as a warning to other people."

The magistrate said he was loath to impose a term of imprisonment, but felt the pecuniary penalty must be a large one.



Believing the penalty to be incommensurate with the offence, a number of members of Parliament are trying to get the War Office to obtain a remission of it.

"Beware, my son, of loose methods. Do you know how they generally end?" "No, sir; how?" "In tight places."

"The man who tells us of our faults is our best friend," quoth the philosopher. "Yes; but he won't be long," added the mere man.

It takes an unusually smart man to speak seven languages, but it takes a smarter one to remain silent in one.

Complete Dining Room Suite $43.90

made of selected hardwood. Imperial Oak finish, consisting of Buffet, China Cabinet, Round Extension Table, Set of Chairs (6 regular chairs and one arm chair. Upholstered with leatherette seats). Priced separately; Buffet, $16.50; China Cabinet, $10.00; Extension Table, $10.75; Set of Chairs, $9.90. Freight paid for Provinces of Quebec and Ontario.

We defy competition. Our prices are the lowest in the Dominion of Canada. Write for our special catalog.

FAMOUS OLD MOUNTAIN

Ararat Has a Conspicuous Place in History.

"Mount Ararat, where there has been hardly a moment's peace since Noah and his ark grounded upon its massive shoulder, is at present the huge, troubled boundary mark between the Ottoman Empire and Russia, and under the shadows of the historic peak the fighting lines of Osmanli and Russian have been swaying back and forth, never far beyond the flaws of the frontier," begins a bulletin issued by the National Geographical Society.

"Ararat is the hub of Armenia, of the original home of the Haik people. It is also the centre of what has ever been the most troubled area on earth. Tribes of Europe and Asia have fought each other here since the dawn of history, and the remnants from the battles have settled as neighbors, hating, despoiling, massacring one an other.

"Ararat is one of the most impressive of earth's mountains, for it rises sheer to the clouds out of an immense plain.

"The dominant mountain is split into two peaks, Great and Little Ararat. Great Ararat rises to a height of 17,000 feet above the level of the sea. Little Ararat, where the boundaries of the Ottoman Empire, of Russia and of Persia meet, reaches an altitude of 12,840 feet. Though the snow line here is very high—14,000 feet—the dome of Great Ararat is covered with glittering fields of unbroken white.

"A vast wealth of legend surrounds the mountain, which has always deeply impressed the imaginations of the peoples who have wandered, passed or settled beneath it. The Armenian priests long believed that the wonderful mysteries of its summit might never be surveyed by human eyes, and all thought of scaling Ararat was considered almost in the light of sacrilege.

"The Armenians have also held that they are the first people after the flood, the immediate descendants of Noah, so to speak; for the first village that Noah founded after the abandonment of the ark was Nakhitchevan, and the Armenian thinks that his people were the first race of men to grow up in the world after the flood.

"The name of Ararat means 'high.' The Persian name for the mountain, Kohi-Nuh, means 'Noah's Mountain.' It has been determined by the natives that the Garden of Eden was placed in the valley of the Araxes.

"Noah's wife was buried in this valley near the mountains, and grapes are still grown there whose vines are the direct descendants of vines planted by Noah."

BIRD'S WONDERFUL JOURNEYS

The Plover Flies 5,000 Miles Without a Stop for Food.

The golden plover leaves Nova Scotia, and flies without a stop, straight to South America, wintering on the Pampas of Argentina, a journey of some 5,000 miles, 2,500 being over the ocean, without a stop even for food. On the Pacific side the golden plover leaves the Aleutian Islands and goes 2,500 miles to Hawaii without a rest, and winters in the southern hemisphere from the Society Islands to Australia. With this bird it is the northward trip that is slow, and the eastern group crosses the continent of South America, Mexico, the Great Plains and across Canada to its arctic nesting grounds, while the western birds go up the Malay Peninsula and along the Chinese and Siberian seaboard.

Wonderful as it is, this enormous journey of 12,000 to 15,000 miles each year, there is at least one bird whose annual trip exceeds the plover's by several thousand miles, we are told in "St. Nicholas." The arctic tern starts from Greenland to within 3 deg. of the North Pole, spends its summer in the land of continuous day, and in its migration goes to a region in the antarctic equally near the South Pole. In its round trip it may cover as much as 21,000 miles—nearly equal to flying around the world at the Equator! In all the year the only time it experiences full darkness is during the few nights passed in the neighborhood of the tropics, for its summer about the North Pole is one long day, as is its winter about the South Pole. But, although this is much the longest journey made by any bird, it is not in some ways as remarkable as the plover's, for the tern is a seabird, and can at any time dive into the water and feed on the abundant supply of fishes and other marine animals, while the plover is really a land bird, incapable of feeding at sea. So it has to fatten up before leaving its summer home, and make half of its enormous autumn journey without food.

"TURKISH CARPETS" MADE IN IRELAND

TOY INDUSTRY GROWS ALSO IN EMERALD ISLE

New Old for Capture of the Enemy's Trade in War Time Recorded.

Ireland is no longer incorrigible of her own things, but once in a while she still overlooks a native achievement. For instance, Manchester has just told Dublin that Ireland now manufactures "Turkish carpets" which would deceive the elect of Constantinople, writes a Dublin correspondent of the New York Sun.

Turc-Irish carpets are now added to Turc-Irish cigarettes. It is a bold bid for the capture of enemy trade in war time. Costly carpets can hardly be regarded as a war industry, but the Donegal factories, from which the Turc-Irish specimens come, are conquering the instinct of economy by sheer merit. Even now there are enough orders to keep the workers employed. The skill and beauty of the work makes steady progress in the calm highlands. The design and color of the carpet which was exhibited at Manchester ravished the expert eye, and we are told, charmed an order from an Egyptian connoisseur.

Carpet Manufacture.

The manufacture of hand-tufted carpets is about fifteen years old in County Donegal and has given employment to hundreds of peasants who have inherited through all the troubled ages of Irish history the subtle flair for form and color that distinguished their Celtic ancestors. The Kildare carpet factory, which was reorganized on a commercial scale about five years ago, has succumbed to the stress of war. It specialized in large carpets of the gorgeous and expensive sort which finds patrons in American millionaires and the managers of international hotels. To-day even these persons and institutions are cutting their carpets according to their cloth. So the Kildare industry languished, but it has now come into the hands of the firm which deals miss extensively in General carpets and will be reopened with a good backing of capital. The successful struggle of the Irish carpet industry in war time is made still more noteworthy by the fact that like all other textile industries, it is suffering from the scarcity of dyes.

War industries are booming in Ireland. The woollen factories are humming night and day. The only shadow on the growth of the munition shops is the fear of the subtlance that Dublin may be made a scheduled area. Irish agriculture is enjoying golden hours. Naturally, however, the smaller and more artistic home industries have suffered. The men are at the war or in the fields and workshops. Many of the girls are making munitions.

Lace Industry Suffers.

The demand for the minor luxuries of life is declining with every new pamphlet that issues from the Irish War Savings Committee. There is talk of a commercial glass factory in Dublin, but the little industries in stained glass and enamels have fallen on evil days. The lace industry, a very important affair in rural Ireland has been hard hit, and there is some depression in the famous centres in Kerry, Cork and Limerick.

There is one cheerful feature in the outlook for Irish home industries and it is mainly due to the enterprise and energy of the country's educated women. They have called a new industry into existence to redress the balance of the old. In the notable Irish number of the "Times" which was published on March 17, 1913, a writer wondered why Ireland had never adopted the industry of toy-making. Soon after the outbreak of war, the great millinery shops in Dublin and Belfast were obliged to dismiss a large number of seamstresses and many of these probably would be destitute to-day if a band of good ladies—including the leading suffragists—had not come to their help. Workshops for the manufacture of dolls and other toys were started in Dublin and Belfast. Some hundreds of girls are now employed and the number is increasing rapidly. Fortunately the financial results are most encouraging. The industrial associations, which are the barometers of Irish industry, say that most of the new toy factories are selling as quickly as they can produce. One may hope that the toy industry is now firmly established in Ireland.

The Farm Barn--Your Factory

By EDWARD DREIER.

What do you want your barn for? That's a funny question, you say. But is it? No. Decidedly NO. If more of us decided a lot of these foolish questions beforehand we would be better satisfied later on, but we go on and think we need a certain thing and we get it. After a while we wonder why in the Sam Hill we ever got it—isn't it right?

Now, about this barn business. You know you need a barn, and you have an idea about what you want, but have you ever gotten down and figured out why you want all these things you have planned on? "I guess so," you say, but honest, now, have you figured EVERYTHING? Not so much, you have't.

Big Canadian manufacturers of barns after twenty years' experience are still learning. Bill Jones comes along and he says, "There's a farmer out near where I live who had his barn burned last year and he immediately built another—just the same as he did before. Timber frame, covered with wood. Well, the other day lightning struck it and burned it down. I asked him why he didn't build fire-proof, and he says to me, 'I never thought about it.'" Now what do you know about that?

Yes, manufacturers are learning new things every year and they're putting them into their plans if they're good and taking out the old no account things which don't help. Years go, they never figured on sunlight and ventilation helping any in the production of a good herd, and here to-day they're figuring if there isn't some way that they can get more sunlight and more pure air into their stables.

In the old style barn, windows used to be set on the outside and the window ledge used for a storage place for the brush and currycomb and for a lot of bottles. It wasn't long before the place was full of dirt and dust that got into the milk and we'd "get it" from the women folk when we got to the house with dirty milk. To-day we have our storage chest where we keep the bottles and the cleaning outfits and we set the windows flush with the inside of the wall so that the dirt can't find a place to settle down.

Picking Out the Site.

"Now, just where am I going to build that barn," you say.

That's worth while giving a lot of thought to. Get right out into the back yard and walk around. Walk off a couple hundred yards and take a look. Go out to the road and figure just how the building is going to look from there. Decide about where you want it and then figure out if it will be handy to your other buildings. You know there isn't nything like saving steps when it comes to chore time.

"Huh, I'm young and able to get around," says you, but you arne't always going to be as spry, and every step you save adds a little bit to the length of your life. Save steps and you'll be a lot happier. You get your work done quicker and then you can sit down and read your paper.

Now pick out a well drained site and lay the building out North and south and you want to get all the sunlight possible into the stable. Sunlight will keep sickness away from your stock and if a little forethought will get it into the stable you'll save a lot of money in veterinary bills—and that sure is worth while.

Figure so that you can have a sheltered yard to the south of the building so that your stock can get out on nice sunny days in the winter time. Be sure and have this well drained so that the cattle won't have to stand in mud after a rain or during spring time.

Locate a place for a manure pit so that you will be able to run the manure carrier right into it. This manure pit is something you surely want to have. You'll get more value out of your manure by having it in a pit where all the chemicals can't leach away. Any of the good cement companies can give you instructions on building a pit and the cost is very low—you'll save more in a year by the added value of the manure than the whole thing will cost.

Perhaps along during the year when the work is slack you could build this yourself and also put in a cement feeding floor in the yard, so that the cattle will not trample the feed into the dirt and waste a lot of it. The feed saved by feeding on a cement floor will soon pay for all the work and material.

Back a little way we were speaking about the sheltered yard for the stock. This could be built with any old boards you have around the place, but if you have to buy new lumber, it would been uch better to buy corrugated iron, as it can be erected quicker, makes a much better looking fence and will outlast wood by about twenty years.

Get a piece of paper and lay out your building and show where the other buildings are. Then for the next few days or weeks you can figure any little changes you want so that you can have the building just where you want it and where it is going to do the most good.

About Getting the Right Size

The first thing, after the site has been chosen, is to get the size of the building figured out. How many cattle have you, how many horses, how many more do you expect to have in the next ten or fifteen years? Don't forget to look ahead. You may need a dozen or so more stalls and now is the time to make the plans. The best way to do is to get in touch with someone who knows just how to plan a barn and get his help.

Laying Out the Stables.

Government experts put the correct width of a barn at from 36 to 40 feet. This gives room for two rows of animals, plenty of working space, and lets the sunlight reach clear across the room from the side windows. Horses should never be stabled in the same room with dairy cows, so two rows for the cows is about all you need. Of course, if you are keeping an extra large herd you will need a wider barn, and you can arrange for that in your plans.

The success of the barn as a farm factory depends on the layout of the stables.

To my mind, planning stables can be divided up into three divisions, which are as follows: The stable

Modern Steel Truss Barn Under Construction.

with the stalls running lengthwise in two rows; the stable with part of the stalls running lengthways and part running crossways at one end, and the stable divided up into a series of cross passages with the animals standing in rows across the building.

The first of these is best adapted for a dairy stable, and is of a width from 36 ft. to 42 ft.—36 ft. being the ideal width. This allows for all the animals to be easily fed from the centre feed passage. A farmer can have a silo at one or both ends, and by arranging a cross passage about the centre of the stable every part can be reached with the fewest possible steps.

The second type, shows part of the stalls lengthways of the stable and part crossways. The cows are arranged in two rows, with a central feed passage. A cross passage is placed near one end just in front of the horse stalls and answers as a feed alley. This arrangement, while being quite economical in space and saving many steps for the farmer, does not provide sufficient light, and

The Barn When Completed.

the silo can only be arranged at one end; also there are less stalls than in the first type.

The third layout is where all stalls run crossways with the barn. This barn is only adapted for stock raising, because it is almost impossible to properly light it and make it as sanitary as is required for a dairy stable. This type, when fairly wide, holds quite a large number of animals, but it can never be made as satisfactory as either of the other types.

The great beauty of a barn with two rows of stalls running lengthways is, that the supporting girders under the barn floors can form one continuous line from end to end, and every supporting post will be in line. These can line both crossways and lengthways with the barn, and light can penetrate to every part.

Ventilation is also provided for by the openings distributed along the wall, and in this way fresh air comes in behind the animals and foul air leaves the stable just above the side walls. This avoids drawing the foul air across the mangers, where the animals would breathe a certain amount of it. Taking everything into consideration, this is the most economical and sanitary stable the farmer can erect.

New What Type of Barn Will You Build.

After you get the site picked out you must decide upon the most important question—the type of building to erect.

The old log barn is a thing of the past except in new settlements where there is plenty of timber and where it is hard to get cut lumber. The timber frame barn is gradually losing its popularity, on account of the hard work in getting suitable timbers and on account of the immense amount of room taken up inside by upright posts and cross timbers. Of later years the plank frame barn has been very popular as all the main members can be built up of two inch plank and there are no cross timbers.

On account of the millions of dollars lost by fires, caused by lightning and sparks from threshing engines, steel has come into very general use in the building of farm barns, and today we have what is practically a fireproof barn.

This barn, like the plank frame type, has no heavy solid timbers, but is made up with two inch lumber. Steel trusses of heavy angle steel take the place of all centre uprights and cross timbers, giving a clear space from end to end and from floor to roof. This type of barn will hold about thirty per cent. more hay or grain than the old style barn and is the strongest type known.

Several hundred of this type of barn have been erected in Ontario and Quebec during the last three years and are giving wonderful satisfaction. Farmers find that they can get lower insurance rates, handle their crops cheaper and more quickly, save money in erection and have greater satisfaction.

The outside of the barn is entirely covered with metal, corrugated iron being commonly used for both roof and sides, though the metal shingle is used on many roofs. At the eaves a metal cornice covers all openings, metal covered doors, metal sash fitted with fireproof glass and metal ventilators go to make up the full metal covering, so that not an inch of outside wood is exposed.

These barns are fireproof from all outside causes and when fitted with ground connections (a copper cable running from the corners of the barn to the ground) are absolutely lightning proof.

The metal covered barn—the one with the wide open spaces inside—is the one for the modern farmer. With this type of barn he runs no risk of losing his crops and stock by fire; he has a barn which will last for all time and always give him satisfaction.

Building a barn begins with plans —so get the right plans. There are many metal companies who give barn service. Investigate thoroughly and get a barn which you will always be satisfied with.

To save breakages it is well to provide the small child, just able to feed himself or herself, with white enamel-ware cups, saucers and plates. This ware looks quite dainty, and is practically proof against breakage.

THE SUNDAY SCHOOL

INTERNATIONAL LESSON.
FEBRUARY 20.

Lesson VIII.—The Christian Brotherhood at Jerusalem, Acts 4. 32 to 5. 16. Golden Text: I Pet. 3.22.

One very obvious thing needs saying about this experiment in communism. It was the unforced outcome of the kindly feeling for the Christian brotherhood stimulated by the conviction that the Advent was very near, and all worldly arrangements were temporary. It worked badly, in that it brought out a shocking consciousness of the weakness of human nature, even within this idyllic family life.

Verse 32. Multitude—The regular word for the rank and file of the church. They realized Paul's ideal as expressed in Phil. 2. 2.

33. We see again what the twelve received as their one function, the gospel of the resurrection including the delineation of His life and words who by that resurrection was declared to be "Lord" (compare Rom. 1. 4).

34 For—A striking link: "great grace" comes when brotherly love has had its perfect work. Possessors—Was the rich young ruler among them? one wonders.

36. Barnabas—The actual origin of this name is thought to be "son of Nabo," the messenger of the gods in the Babylonian pantheon. But no doubt Jews who could use it would always assume it to mean "son of prophecy," deriving it from the (cognate) word regularly used for prophet in the Old Testament. The Greek equivalent here is a combination of exhortation and (margin) consolation —encouragement is fairly near. It is the first noun in Phil. 2. 1. Son of has its usual meaning, like son of peace, children of wrath, etc. It is noteworthy that Barnabas should have received (from the apostles this appreciative sobriquet from his gifts of Paul! In Acts 14. 12 we find the latter identified by the Lystrans with Hermes—the Greek counterpart of Nebo! —"because he was the chief speaker." Cyprus—whither he went back (Acts 15. 39) on a missionary tour after his parting from Paul.

5. 1. Ananias—or Hananiah, a common name meaning "grace of Jehovah."

2. It is not expressly stated that they retained the bulk of the money for themselves, but the certain part that they offered suggests this rather strongly.

3. Peter—As in the Gospel story, the regular mouthpiece of the twelve. To lie to the Holy Spirit—Put in this blunt way, the hearers could realize the stupidity of the cunning Tempter's suggestion. It seemed so clever to get the credit of generosity, and the money as well.

4. Peter's words bring out the absolutely voluntary character of this communism. They had all embraced it, but only because they wanted to. Ananias had simply to say that he had brought part of the money, and the gift would have been gratefully accepted. But that meant taking second place after those who had given their all; for in this community the widow's two mites out-valued one of Dive's two millions. And Ananias and Sapphira were not the last to covet a good position in a subscription list beyond any act of generosity of which their left hand was not to know. It should be noted that Peter's reading of the man's thought was was the exercise of a most unusual but well-recognized human faculty; modern church (and even secular) history can afford reliable parallels. Then hast not lied unto them, but unto God—No word was spoken. Ananias, whose name is a byword for lying as that of Judas is for treachery, never "told a lie" at all.

5. The sequel is very easy to understand: the tremendous shock and surprise of detection, where they thought themselves perfectly safe, was quite enough to cause death—many a man has died beneath a lighter stroke than this. And when Peter says the form of this judgment, which he did not predict, it was an easy step to the intuition about Sapphira. The central fact of the whole story is the Real Presence that threw every detail of these deeds into vivid relief. Ananias was like a murderer doing his crime in the blackness of night, on whom a powerful searchlight suddenly falls and pursues him pitilessly.

"It's a risky business the making of pointed remarks about your neighbors." "Why?" "Well, you see, you may have to swallow them."

If a man would put only his own property in his wife's name it wouldn't be so bad, but as a rule the most of it belongs to other people.

Save the strips of white fat from sirloin steak, render them out in a slow oven, put them into a bowl, beat them to a cream, add a few drops of lemon juice, a pinch of salt, and you have fat that can be used as butter in a cake.

Many people do not know the value of banana skins in cleaning tan leather suit cases and similar articles. Rub the leather well with the inside of the skin, then wipe off any excess of moisture with a dry cloth, finishing with a good polishing with the cloth.

The Housewife's Corner

When Oranges Are in Season

There are so many simply prepared orange desserts, and now that oranges are so plentiful in nearly every part of the country, we all enjoy them to the fullest. The following orange dainties will be found delicious and attractive if the recipes are carefully followed:

Delicious Orange Marmalade.

Cut three oranges and one lemon into thin slivers in a bowl and cover with hot water. Let stand 36 hours, then cook one hour. Measure one cup of sugar to cup of juice and cook 20 minutes. The marmalade will then be ready to put into glasses. If a greater quantity is desired, this recipe may be doubled and redoubled with perfect satisfaction. The thin-skinned oranges are best for marmalade.

Orange Filling for Cakes.—A most delicious orange filling is made by bringing one-half pint of milk to a boil and adding a level teaspoonful of cornstarch. Cook for about five minutes, stirring constantly. Have the yolks of three eggs well beaten with three tablespoons of sugar, and stir into the milk mixture; cook a moment longer, then remove from fire and add the grated rind of one large orange. When the mixture is cold and thick, add the juice of one-half orange and spread between two layers of thin sponge cake. This is particularly appetizing as a luncheon dessert, and is so easily made that the most timid cook need not hesitate to attempt it.

Orange Cake. — Half cup butter, one cup sugar, two cups flour, one teaspoonful salt, three-quarters cup of milk, three eggs, three rounded teaspoons of baking powder. Cream butter and sugar, add eggs and milk alternately with the flour and salt and baking powder last. Beat vigorously and bake in a moderate oven. Icing —Put one cupful of fine confectioner's sugar into a bowl. Add one tablespoonful of boiling water and two tablespoonfuls of orange juice. Mix until the sugar is moist. Spread on the cake carefully, adding more boiling water, if necessary, and put sections of orange around the outer edges of the cake.

Boiled Orange Icing—Two cups of granulated sugar, one-half cup of boiling water. Let this mixture come to a boil slowly and then boil seven minutes, or until it spins a thread. Pour over stiffly beaten whites of two eggs, and lastly beat in the juice of one-half an orange and the grated peel of a whole orange. This is a particularly attractive cake.

Orangeade.—Mix together the juice from a half dozen oranges; add the juice of two lemons. Boil one cupful of sugar with three cupfuls of water for 12 minutes. Add to the orange and lemon juice. Serve very cold. This may be bottled and kept for some time.

Angel Puffs.—One-third of a cup of butter creamed with one cup of granulated sugar. Beat two eggs very light and add alternately with one-half cup of milk and one and three-quarter cups of flour. Add three teaspoons of baking powder very carefully and bake in muffin pans in a rather quick oven. Serve with the following sauce: Beat the whites of two eggs until very stiff, and gradually add one cup of powdered sugar and the strained juice of two oranges and one lemon. The grated rind of one-half orange may be added last.

Orange Sponge.—To one-half box of gelatine add one-half cup of cold water and allow to stand for 15 minutes; pour over this one pint of boiling water, add one cupful of granulated sugar and stir until thoroughly dissolved. Add one cupful of strained sugar juice and the juice of one lemon, stir in about two tablespoonfuls of sugar and set aside to cool. When nearly set add the stiffly beaten whites of three eggs and whip until frothy. Then allow to harden and serve very cold with sliced oranges and lady fingers.

Candied Orange Peel—Remove the peel from four thin-skinned oranges and cut into slivers. Cover with cold water and bring slowly to a boil. Repeat this three times and then allow peel to cook slowly until soft. When cool, after draining carefully, cut away any white portions remaining on peel and dip in a syrup made by boiling one-half cup of water and one cup of sugar until the syrup is thick and ropes. Cook peel in syrup several minutes, then drain and roll in fine granulated sugar slightly sprinkled with powdered ginger.

Orange Syrup—Select ripe, thin-skinned oranges. Squeeze the juice through a sieve, and to every pint of juice add one and one-half pounds of sugar. Boil this mixture slowly and skim as long as any scum arises. Then take off stove, allow syrup to get cold and bottle it. Two tablespoonfuls of this syrup mixed with melted butter makes a fine sauce for plum pudding. Three tablespoonfuls in a glass of ice-water makes a delicious beverage. This is a very old recipe.

Orange Salad.—Scoop out the pulp from carefully halved oranges with a pointed spoon and mix with chilled and seeded Malaga grapes, chopped cherries and tiny pieces of apple. Fill the halved skins with this mixture, set on the ice for three hours and serve as a salad on a single leaf of Romaine lettuce with a lightly seasoned French dressing.

Orange Rings—Slice whole oranges without removing the skins and place in wheel shape on a flat glass dish. They will prove a most pleasing addition to a heavy dinner; use as you would mints. They are easily eaten without soiling the fingers by breaking the rind in one place and eating around it.

Comforts for Grandmother

Grandmother received sandbags on her last birthday that have proved a perpetual comfort during many slight ailments. For every sort of pain and ache in which warmth is soothing — for frequent and distressing neuralgia, headache, backache, twinges of rheumatism etc—she has always resorted to hot-water bags, or cloths wrung out of hot water for soothing applications. Of late years she has been impatient over the trouble in preparing these comfort-dispensers. She would continue being "miserable" when in need of soothing hot applications, rather than to heat the water and fill the rubber bottle, or prepare the hot cloths, or to call upon someone to prepare them for her.

An energetic little granddaughter, visiting the family, learned of her liking for hot applications for every real or imagined ill, and of her dislike for preparing them. As she was well versed in the subject of "first aids" she immediately solved the difficulty by substituting sand bags for the hot-water bottle.

She made the bags of stout pieces of ticking or drilling about eight inches long, two pieces of the same size, sewed all around twice on the sewing machine for extra strength and durability in retaining the sand, with a small hole in one corner for filling with dry sea sand. Covers of soft cloth or flannel were made to slip over the drilling for extra comfort and strength. The bags were filled only a little more than half full to keep them soft and pliable "to fit the aching spots," as the practical girl lovingly explained to grandma. Several bags were made, as neuralgia and rheumatism sometimes demand a number of hot applications and it is easy to heat many as to care for a single bag.

When placed in a warm oven or quickly turned and heated through and through over a warming pan on top of a gas range or a little stove when there is no fire in the kitchen stove, they are pronounced much less trouble than "slopping with hot water," the hot sand is not so intensely hot as the hot water bottle, and it retains its uniform, soothing warmth for a long time.

Useful Hints

Every housekeeper should read all the books on domestic science that she possibly can.

When coffee and scalded milk are served in equal proportions it is called cafe au lait. It is nutritious.

Never expose an opal to heat or it will crack. Clean it with cold water, softened with a tiny pinch of soda.

It saves time and energy to dry dishes in a wire dish drainer set close to the dish pan on the kitchen table.

If making buttonholes in stuff that ravels easily, mark the buttonholes and stitch around before cutting.

If a child seems very much exhausted do not allow it to eat a hearty meal, because the food will not digest properly. No good housekeeper allows one ounce of fat to be thrown away. If it cannot be used in cooking put it in the soap fat can.

For light colored stockings that show leather stain put two tablespoonfuls of borax in enough water to wash five pairs of hose.

Don't throw away old stockings — fold them a great many times and use for holders. Or put them in a mop handle for a mop dry.

Sifted wood ashes makes a very good paste for cleaning and cooking utensils. Put it on a damp cloth and polish the dirty spots.

Onions should be taken out of the ground as soon as they are well formed. Let them lie on the ground until they are cured in the air; then spread them thinly in a dry place.

Heated air is very hard on cut flowers. They should be set in a cool place at night, and in the morning put into water up to their necks. Floating them in the bathtub is very effective.

If you do your own kitchen work have a bottle of lemon juice and glycerine in the kitchen, and when you take your hands out of the water apply the mixture while the hands are damp. This will prevent rough and dry hands.

Sliced oranges and grated cocoanut makes a very good winter desert. A layer of oranges on a layar of cocoanut, and so on until the dish is full, ending with the cocoanut; add enough sugar to sweeten, and it is ready to serve.

GLAMIS

Recruiting has been very encouraging to Lieut McKay. The following from Glamis and the surrounding country within 3 3-4 miles have responded to the call: Wm Clyde McKeeman, Jos Sproule, Ted Chapman, John Kitchen, John Thompson, Albert Groves, James Lymon, Wendel Russell, Norman Somerville, James Durand, Charles Russell, Mac McKinnon. Add to these the four who are at the front—Dan McDermitt, Finnie McKinnon, John McKinnon and Alex Rowan—all of whom went from Calgary, but were Glamis and 10th boys before going west. Mac McKinnon is a brother of Finnie and John, and all are sons of Mrs Arch McKinnon. Their sister, Miss Elizabeth, is also in France, with the Red Cross, so this family is certainly doing its full duty for king and country.

Mr. Alvery Smith, who met with the misfortune of having one of his legs badly crushed some weeks ago, and was taken to Kincardine hospital for treatment, has sufficiently recovered to be moved to his father's residence at Inverhuron, and is improving nicely. It is hoped he may soon be able to get home and be around at his work again. The neighbors and others have been very kind in seeing that his family's needs are looked after.

Seven new members were added to the roll of St. Paul's Presbyterian church on the occasion of last sacramental service. Under the administration and leadership of Rev Mr Reith this congregation is in a flourishing condition.

The Baptists here have in Mr. McCauley an earnest, diligent and conscientious servant of the Master. The interest taken in his efforts to build up the cause was manifested by the large attendance at the series of special meetings closed a few days ago, in which able assistance was rendered by Mr Barker of Port Elgin.

Miss Vera Dagg, from Holland, Man., is visiting at the home of her grandparents, Mr and Mrs Splann.

Mr and Mrs John Kitchen (nee Miss Alice McCormick) and young son have moved here with their household effects from Detroit. Mr Kitchen has enlisted with the 160th and is training at Tiverton.

Thos Osborne, from Trout Creek, Muskoka, was renewing acquaintances here last week.

Mr and Mrs John Carr, of Cut Knife Creek, Sask, who have been here for some time, left last week for their western home.

Mr and Mrs Thos Splann, from the west, are visiting his parents here.

It is rumored that ErnieCunningham is expected home from Saskatchewan to enlist with the home boys in the 160th Batt.

MOUNT HOPE

Mr and Mrs Thos Evans, of Owen Sound, spent last week with friends here.

Mrs Matchett, of Arkwright, is visiting Mrs Palmer.

Mrs Peacock, sr, has been confined to the house with a severe cold for the past few weeks. Glad to know she is improving.

A few from here attended the funeral of the late Lawrence Crowe, son of David Crowe, at Southampton on Thursday last.

Mrs R Oldrieve and Mrs A E Wark spent the week end with friends in Owen Sound.

Mr Milne, of Chesley, is renovating the Methodist church. He expects to have it completed for anniversary services on Sunday next.

The Ladies' Aid met at the home of Mrs M Herron on Thursday. The ladies are busily engaged in sewing for the soldiers.

Mr Stanley Harron, of Tara, is again in our midst working with R C Wolfe.

Mrs King, of Dobbinton, is visiting her daughter, Mrs Ernest Wark.

Barns Bros, of Owen Sound, have completed the well which they were drilling for G Moukman. They went down some hundred feet, we understand.

A number from here attended quarterly meeting at Ebenezer on Sunday last.

Mr E Thompson, of Gillies Hill, called on Thos Moukman on Sunday.—Leader cor.

CASTORIA

WILLOW CREEK

As a result of the recruiting meeting held at Underwood last Thursday, Vernie, son of Mr Henry Giesz, is one of those who enlisted in the 160th Batt., and a few more of the boys here are giving the question their serious consideration.

UNDERWOOD

Mrs R J Scott, of Saugeen, is visiting friends down the 10th.

Miss Nellie Keoch, 2nd of Saugeen, is visiting her friend, Miss Mary Johnson.

Miss Rita Reibel, of the townline, spent a few days last week at Mr Wm Steinhoff's.

Miss Minnie Drummond is visiting friends in Tiverton.

Mr Harvey Inkster is busy installing a new oil engine in his grist mill.

The recruiting meeting held here on Thursday night was well attended, the hall being filled. A splendid program of speeches and songs was provided. Four recruits were signed up: Robt Nuttall, David McNaughton, Joe Hodge, Verne Giesz, also Earl Begg and Albert Abbs on Monday.

Underwood Oddfellows are a bunch of loyal ones, and in order to aid recruiting they have decided to give to each member who enlists a fine military wrist watch. The men who are the officers of this progressive lodge are: J P G, A Coleman; N G, Wm A Cole; V G, Fred Thede; Rec Sec'y, Geo H McKay; Trees, J B Richardson; Warden, W Avis; Con, Archie McKay; O G, Coll McDougall; I G, Joe Hyde; R S N G, Dave McNaughton; L S N G, S Roppel; R S V G, R Nuttall; L S V G, Chas Drummond; R S S, Robt Robinson; L S S, Thos Curry; Chap, Walter Thene. The Lodge now has a membership of 106.

EIGHTH CON BRUCE

Mrs Knapp, one of the pioneer residents of this line is about to leave for Chesley shortly to reside with her daughter, Mrs Alexander. A short time ago a large crowd of her friends and neighbors gathered at her home and presented her with a beautiful black silk dress and purse. A nice impromptu program was given. Councillor Peter Dobson was chairman. Among those who took part were ex reeve A McLean, J B Struthers, and others, all of whom spoke in complimentary terms of Mrs Knapp and of her ability in managing the farm. The following address was read by Mrs Cameron and the presentation was made by Mrs Lyman Knake:

DEAR MRS. KNAPP,—We learn with great that you are about to leave this neighborhood, where you have spent over forty years of your life, and where you have been so long and favorably known. We realize that your removal from our midst is not so much a matter of choice, as of necessity on account of your declining years and failing health, and the great responsibility you have so successfully and cheerfully borne since the death of your husband 16 years ago. It is, indeed, a credit to you, the way you managed your fine 150-acre farm, and by hard labor and economy you have made a home for yourself and daughters of which they and you may be justly proud. We have assembled here to-night to say good bye and to wish you many years of happiness in your new home, and we also ask you to accept this dress and purse as a small token of our appreciation of your kindness as a neighbor and friend with whom we have been so long associated. You have ever been willing to help in time of need and we can assure you we shall miss you very much, but we know that with your estimable daughter, Mrs Alexander, you will be surrounded with all the care and comfort a dutiful daughter can bestow. Signed on behalf of your friends and neighbors, Mrs Cameron, Mrs McLean, Peter Dobson, Wm Young, Robt Brown.

SECOND CON ELDERSLIE

Mrs C Smellie is at present confined to her room with a severe attack of lagrippe.

Hezekiah Nicoll, who is home a visit from the west, spent a part of last week with his brother Thos on this con.

Roy Maxwell, a former resident here, has enlisted in the 160th Batt.

Mrs Green, sr, is still confined to her room from a very severe attack of lagrippe.

Mr and Mrs John Anderson left for their home in Calgary on Friday last.

A large number from this con attended the recruiting meeting in Geneva church last Friday evening.

At 5 o'clock p m on Feb 2nd a pretty wedding was solemnized at the home of Mr and Mrs Alex Anderson, Scone, when their eldest daughter Miss Tilly was united in marriage to Mr Walter McGregor, of Gull Lake, Sask. Rev Mr Langton was the officiating clergyman. Guests to the number of about 40 were present, and a very enjoyable evening was spent. Mrs McGregor has been a very active church worker and a member of the choir in the Baptist church, and will be much missed here in social circles. In the course of a few days they will leave for their home at Gull Lake where the groom has a large farm. Their many friends here wish Mr and Mrs McGregor a happy and prosperous voyage on the sea of life.

GLAMIS

Quite a lot of the young people took in the Narva box social and report a good time. They made $60 for the Red Cross.

On Saturday night the young people of the Baptist church presented Albert Groves and Mac McKinnon with wrist watches. They met at 7.30 at Mr Groves', then proceeded down the 10th to the home of Mrs Archie McKinnon and gave Mac a surprise. The addresses were as follows:

TO MR ALBERT GROVES:

Our Dear Friend and Brother—We, the young people of Glamis Baptist church and congregation, have gathered here to express our appreciation of your presence and companionship through the days that have passed all too quickly. We are sorry that you are going from us now, but we trust that you will soon return. And we admire the manliness and courage that have led you to offer yourself for His Majesty's service. There will be much of hardship and sacrifice in the army of King George, but we are assured that you will bear whatever comes manfully and well. You will never forget your home or the training you have received there. You will not forget your friends in Glamis, and you will know that we have not forgotten you. Accept this wrist watch as a slight token of the esteem in which we hold you, and remember that the gift is accompanied and will be followed by the wish that you may return to us even stronger and more noble than you go from us.

Duncan McLennan,
Margaret McKinnon,
John Currie.

TO MR MAC MCKINNON:

Our Dear Friend and Fellow Worker—We, the young people of Glamis Baptist church and congregation, have come here to voice our admiration of the spirit that leads men and women to give themselves in service for others. Our country's need is a serious one, and you have answered to her call. We are not unmindful of the fact that this means, and will mean, sacrifice for you and for others. But we remember that nothing heroic has ever been accomplished without the accompanying hardship and heartrendings, and we are confident that you will be equal to your share of the difficulties and dangers and struggle for right in which our Empire is engaged, and to which your brother and sister are so nobly giving themselves. As a small evidence of our friendship and appreciation, accept this wrist watch, and know that we shall not forget one whose presence and fellowship we are so loath to lose.

Duncan McLennan,
Margaret McKinnon,
John Currie.

Mrs Reith returned on Saturday from Toronto.

Miss Kate Urquhart, of Tiverton, who has been visiting her friend, Miss Flossie McLennan, returned to her home on Monday.

Lieuts McKay and Bland visited our burg on Wednesday and dined at Mr Jos Cunningham's.

Ptes Clyde McKeeman and Albert Groves Sundayed at home.

TURNER'S

Mrs John Schrank has returned home after spending a few weeks with friends in Hamilton.

Mr and Mrs Ezra Thede were calling on their friends before returning home to the west.

Mr and Mrs Joe Hyde, 4th Bruce, spent Monday with his mother here.

Mr John C Pollock is moving into Port Elgin, where he purchased the house owned by the late Mrs Maas.

Mr and Mrs Snider, of Port Elgin, spent Sunday with Mr Gibbons.

A number from here took in the concert in Port Elgin on Monday night.

Mrs A McLeod spent Sunday with her mother, Mrs Pollock.

PINKERTON

Mr Albert Pinkerton spent Saturday in Walkerton.

A number from here attended the box social at Narva on Friday evening and report a fine program proceeds of the evening united to $61 40.

Rev Mr Gale attended the funeral of the late Rev Mr Mullen, so well and favorably known here, at Fergus on Wednesday of last week.

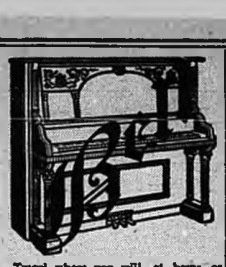
Miss Hattie Gale is visiting friends at Alma.

A number attended the carnival at Paisley on Friday evening last.

No services will be held in the Presbyterian church on Sunday next, owing to the anniversary services at Cargill, which will be conducted by Rev Mr Mason, the former pastor.

MARRIED

JOHNSTON—CORBETT—At the Rectory, Tara, on Feb. 9th, by Rev. J. S. Johnston, Mr. Alex Johnston, of Keppel Tp., to Miss Mary Eva Corbett, of Arkwright.



GIBBONS—MCARTHUR—At the residence of the bride's mother, on Feb. 11th, by Rev. R. H. Sawer, Sarah, daughter of Mrs. Chas. McArthur, 14th Bruce, to Edward Norman Gibbons of Osage, Sask.

DIED

O'HAGAN—At Guelph, on Feb. 13th, Patrick O'Hagan, of Eldersl'e, aged 66 years.

Paisley

WILLISCROFT

Anniversary services will be conducted by the pastor, Rev M Neilson, in Williscroft Baptist church on Sunday, Feb 25th, at 11 a m and 7 p m. Everybody welcome. On Monday evening an oyster supper will be served in the basement of the church. Adults 35c, children 20c. Come and enjoy yourselves.

CANTIRE

(Intended for last week)

During Monday's blizzard, while attending to his stock, Mr Irwin Eason turned out a bunch of calves to the watertrough. After feeding he hurried to get the calves in again, but by this time no trace of them could be found. Irwin lost no time making a detour of the neighborhood, but failed to locate them. About an hour afterward he received a phone message from his brother Jack who had gone to Chesley on business, stating that he had found them at Chesley station. As the storm was too severe to allow of them being brought home then they were taken care of by Wat Brown.

Mr Jas Blue, accompanied by his mother, Mrs W A Blue, have returned from a two weeks' visit with friends at Big Bay.

$1.00 per Annum in Advance
$1.25 if not so paid

Important Notice!

As I am leaving Paisley for some time at least, I have signed over all the book accounts in connection with the business here for the last two years, to be settled at the office in the store, either by cash or note, before the end of February. After that all those not settled will be placed for collection. At least 75 per cent. of all goods sold on credit for the past two years would be worth at least one-third more in value now. Please attend to the settlement of your accounts at once, as the new firm that takes possession about the 1st March will not assume these outstanding accounts.

New Recruiting Officer

Lieut McConnell, of Chesley, has replaced Lieut Parker, who went to take a special course at the military school in London. The new officer is making an active canvass, and the list of recruits is growing longer.

Red Cross Supplies Shipped

The following articles comprised the shipment sent last week by Paisley Red Cross ladies, made during the preceding month: 8 flannel shirts, 1 muffler, 50 face cloths, 6 handkerchiefs, 1 pair pillow cases, 2 pair wristlets, 57 pairs socks.

Book of War Poems

"Songs of Heroic Days" is the title of a neat volume of inspiring poems from the versatile pen of Dr. Thos O'Hagan, dedicated "To the brave Canadian hearts that beat and battle for the cause of freedom and the safety of the Empire." For sale at McArthur's bookstore.

Successful Sales

Auctioneer Pearce had two very successful sales last week. On Wednesday he disposed of $2000 worth of stock, etc., in just about three hours at Mr. Duncan McKinnon's, Elora road north. At R. H. Penion's, 4th Saugeen, on Thursday, some big prices were realized. Calves a few months old brought $30, while cows sold at from $96 to $110.

Excursion to Paisley Rink

Fourteen Port Elgin ladies comprised a skating party at Paisley rink on Wednesday of last week. They came down by train, and were on the ice both afternoon and evening. They were delighted with the outing, and pronounced the Paisley rink the best they have been in. Weekly winter excursions to this popular recreation resort may yet become the vogue in neighboring towns.

Had Another Operation

Mr. Jas. Rowley, of Greenock, is in Guelph hospital and has undergone a second operation within a few months. In August last the appendix was removed, and Mr. Rowley was steadily returning to his normal condition, but recently fell, jarring the tube which was still in the wound, and injuring that region of his system so that further treatment became necessary. He came home on Tuesday.

Surgical Operations

Thelma, daughter of Mr Minto Jackson of 2nd con Elderslie, underwent an operation for ear and throat trouble, and at the same time Rosy, daughter of Mrs Wm Campbell of Vesta, had her tonsils removed from her nose. The patients are for a few days under the care of a trained nurse at the Belmoral hotel, where the operations were performed. Dr McKelvey of Toronto was the specialist, assisted by Drs Houston of Paisley and Laird of Southampton.

Are You Going West this Spring?

If so, bear in mind that the Canadian Pacific Railway offers the finest possible equipment and exceptionally good train service; operating through standard and tourist sleepers, also dining cars to Winnipeg and Vancouver, via one of the most picturesque routes in the world. If such a trip is under consideration, apply to any C P R agent for full particulars, or write W B Howard, District Passenger Agent, Toronto, Ont.

Battalion Band Instruments

—Messrs. John Rowland of Walkerton, John R. Shaw of Woodstock, and Wm. Krug of Chesley, have donated $100 each towards purchasing instruments for the Bruce battalion band. As the instruments, which have been ordered in England, will cost $1200, and of this the Bruce county council have donated $500 and the above trio $300, there still remains a balance of $400, to be made up by some means, to complete the purchase. —Herald and Times.

Our Great Sale is Over

Our Stock-Taking is completed and now for our Spring trade.

With the arrival of the Spring Goods to fill all lines depleted by our 10 Days' Sale, we are now ready for business in all the wants for Spring.

See our RUGS, POLES, SQUARES, CURTAINS, WINDOW SHADES and all the wants of housekeeping.

H. B. PUTNAM & SON

Recruiting Brisk Again

After a week's lull there was a wave of activity in the local recruiting camp. Following are those who signed up since last issue:

Harry Jack, of Paisley (as bandsman)
Earl Tooke "
W. Acret "
Chris Parker "
John Devine "
Harold Marshall "
Thos McGregor, 6th Bruce
R. H. Mills, 12th Bruce
Robt White, 10th Bruce
Albert Ewers, of Lockerby

Bert Tooke wanted to enlist a few days ago, but was rejected because of physical defects.

Reception to Pastor

Paisley Baptists accorded a hearty reception to their new pastor, Rev. M. Neilson on Thursday evening last, in the lecture room in rear of the church, a large number being present. The chair was occupied by Mr. Jas. A. McNeill. The programme included addresses by F. S. MacLachlan, Roger Darroch and Thos. Powell, in which a note of cordial welcome was sounded for the pastor, his helpmeet and family, to which Mr. Neilson responded in his address. A report of the recent S.S. convention at Guelph was given by Stewart Dewar. Miss Edna Sparrow gave a recitation, Miss Dewar a reading, Art Pfaff a solo and the choir a selection. A dainty tea was served by the ladies. The occasion afforded a splendid opportunity for the pastor to become acquainted with his congregation, and was much enjoyed by all present.

ORDER YOUR SPRING SUIT TO-DAY

While a blizzard is blowing and the thermometer is making low bumps, customers may not think the time opportune to order a Spring Suit. But, it is. Weather changes quickly these days. Moreover, there is a decided advantage in getting your order in early.

JUST LIKE POE'S FAMOUS MYSTERY

EXTRAORDINARY MURDER EXCITES FRANCE.

Detectives Think Vicious Ape May Have Killed Mlle. Marie Christophie.

An extraordinary murder mystery exciting France just now is said to repeat the most remarkable and essential feature of Edgar Allan Poe's famous and gruesome tale, "The Murders of the Rue Morgue."

The most plausible explanation of this present French murder mystery is that it was committed by a great ape. This is the theory upon which the police are now working. Thus one of the most fantastic stories ever imagined seems to have been re-enacted in real life nearly 100 years after it was written.

In the present case the victim was a young woman, Mlle. Marie Christophie, aged 24, belonging to an old and wealthy family, living at 43 Cours Sablon, at Clermont-Ferrand, an important French provincial city.

The family consisted of the daughter, Marie; her mother, and a brother Jean Christophie, one year younger than herself. They enjoyed a large income, and lived in a fine old house. The son was called out as a soldier on the outbreak of war, but obtained a comfortable position on the staff, which enabled him to live at home in Clermont-Ferrand.

Mademoiselle Christophie occupied a bedroom on the fourth floor of the house. At half-past two in the morning agonized shrieks in different tones and cries of "Fire!" coming from this house were hear by the neighbors. The firemen broke into the house, and hurried to Mademoiselle Christophie's room, where the fire was burning.

They found that it was already nearly extinguished, and soon put an end to it. Jean Christophie and his mother had apparently been busily engaged in trying to put out the blaze. The big old-fashioned wooden four-poster bedstead, with canopy, had been partially burnt up.

In the midst of the ruins, by the side of the bed, lay the dead body of Marie Christophie.

Her Body Bore Scars.

In due course a judicial inquiry into her death was begun, and at once the interesting fact was established that her death was not due directly to the fire or to suffocation caused by it. She had received severe blows on the head from a blunt instrument probably capable of causing death. She had also received injuries in many parts of the body.

Jean Christophie said his sister was subject to heart disease, and thought that when she found that a fire had broken out she had an attack of this disease, which killed her.

"How do you explain that your sister's body bears marks that show she was beaten to death?" asked the judge in the case.

"I do not belive she was beaten," said young Christophie. "I believe the injuries to her head were caused by the top of the bed falling upon her. I think the other injuries were due to her falling on the table and chair by the bedside in her terrified condition."

The Mother Arrested.

The case remained an utter mystery for many weeks. Then the local newspapers began to hint at a shocking state of affairs. They said that Mme. Christophie was devoted to her son and was not fond of her daughter.

At last three rumors culminated in the arrest of Mme. Christophie and her son for causing the girl's death. If the great war had not been raging this would certainly has been regarded as one of the most famous criminal cases ever known in France.

The Christophies—mother and son—made a most effective defence. They engaged the ablest lawyers in France to represent them. Mme. Christophie said she was overcome by horror at the charge, but her son fought igorously against accusations.

He explained that the family had many enemies in the Department on account of ancient quarrels, and that they had inspired these attacks on them. He pointed out how reasonable was the original explanation of the tragedy.

Then it became known that the police of Clermont-Ferrand were working on the theory that an ape had committed the mysterious crime.

This led enterprising reporters to the discovery that the police had kept a remarkable record of fingerprints found in and about the room where the tragedy occurred and upon the body of the dead girl.

Some of the injuries on the body of the girl were, it was reported, apparently caused by fingers and thumbs of enormous strength. They were not the fingers and thumbs of young Christophie, and they differed in type from those of any other man preserved in collections of fingerprints. The same fingerprints were found on the back of a chair in the bedroom and upon the window pane.

"Climbed Up Rain Pipe."

Five monkeys were found by the police in Clermont-Ferrand, but they were all small, and their fingerprints could not possibly have been confused with those of a man.

It was clear that if one of the simian family was concerned in the tragedy it must have been a great ape, such as an orang-outang or a chimpanzee. If that was as it must have belonged to a wandering showman who had passed through the town at the time.

A theory has been put forward that the ape escaped from its house or cage during the night, ran through the empty streets of the town, and was attracted by the light in the fourth-storey window of the Christophie house. Then the ape ran up a rainpipe, reached the window, entered the room, attacked the girl, beat and choked her to death, and upset a lamp in the struggle. Finally it escaped in the way it came.

An Important Clue.

When the facts in "The Murders of the Rue Morgue" were so ingeniously cleared up by Poe's fictitious detective, M. Dupin, it was found that the ape had been surprised shaving itself with its owner's razor, that the owner pursued the animal through the streets, and that it ran up a lightning rod, carrying the razor to the women's room, where it slaughtered them.

The unintelligible sounds heard coming from the room had not been dwelt on very strongly in the Clermont-Ferrand case but the curious discoveries about fingerprints add a modern scientific element to the latest mystery.

ENEMIES OF FIGHTING MEN

Insects Which Make the Soldiers Life Miserable.

Insects which prove such a nuisance to the fighter in time of war are simply those which affect man in time of peace, but owing to the different circumstances which arise in wartime, their effects are more violent and more persistent. Roughly speaking, we can divide these pests into two categories:

Those which pierce the skin of men or of animals on which the soldier is to a great extent dependent—for instance, the horse; and

Those which interfere with his food supplies.

It is only a few years ago that the spread of the bubonic plague was associated first with rats and then with rat fleas. The commonest rat fleas in all tropical and subtropical countries infest man, and if they should have fed upon a plague-infected rat and subsequently bite man, their bites communicate bubonic plague. Plague—the old English "Black Death"—is a real peril in the armies now operating in Asia and in certain parts of Africa.

Just as some fleas attack one species of mammal or bird and avoid closely allied species, so the human flea has its favorites and its aversions. There is a Turkish proverb which says, "An Englishman will burn a bed to catch a flea."

Perhaps the most important of biting insects is the mosquito, certain species of which convey malaria—a disease which has probably played a bigger part in the history of the world than that conveyed by any other insect.

Finally, we come to a series of insects while affect the food of soldiers and sailors. One is the flour-moth, whose larva burrows through the soldier's biscuit and not only consumes a considerable portion of it, but renders it so unpalatable that Sergeant Daniel Nicol, of the 92 Gordon Highlanders, tells us that, "during the expedition to Egypt, in 1801, some vessels were dispatched to Macri Bay for bullocks and others to Smyrna and Aleppo for bread, which was furnished us by the Turks—a kind of hard, dry husk. We were glad to get this, as we were then put on full rations, and our biscuits were bad and full of worms; many of our men could only eat them in the dark."

The biscuits became infected during the cooling which takes place between the baking and packing. The adult insect is a perfect nuisance in flour mills. So persistent and numerous are these moths at times that they clog the rollers with their cocoons and sometimes completely stop them. The webbing of the elevators in the mills gets covered with them and with their silky skeins, and then the elevators stop working. So uniform is the temperature of the mill and so favorable to the life of the insect that they complete their life-cycle in England in two months, and in the warmer parts of America even more rapidly. Six generations at least may be produced a year.

Now that the war is spreading in the Near East, a word or two should also be said about an allied species of insect which infests at times 50 per cent. of the figs of the East. It is a moth which is spread all over the world, and is catholic in its taste, although it flourishes on rice, bran, dried apples, maize, and a great many more or less nutritious foods. It lays its eggs in the figs while they are being dried in the sun. From the egg a small maggot emerges.

There is a better half in every wedding—but, says the cynical friend at our elbow, the best man does not get her.

If all women were compelled to dress alike there would be more vacant pews in fashionable churches.

Short-sighted people seem to think all others should look through their glasses.

Suggesting a Warrior in an Arctic Expedition.

Protective-coloration winter uniforms, in the form of white clothing have been adopted by both the Italians and the Austrians for outpost work in the winter war in the Trentino, where the snow covers the hills and valleys in one wide, unbroken white expanse. With the same completeness with which the Italian authorities equipped the army for the field, the Italian War Office, during the past autumn months, saw to it beforehand that a serviceably designed winter campaigning kit was provided for use, where necessary. The new kit, which an outpost sentry is shown wearing, not only renders a soldier practically invisible amidst snow, but also serves to protect him from the piercing cold. It effectually covers the head and shoulders, and keeps the feet dry, in addition to maintaining the warmth of the body, and allowing free action of the limbs (Trove).

FURIOUS BATTLE HIGH IN THE AIR

ENDS WITH THE GERMAN'S PLUNGE TO DEATH.

Only Took Thirty-five Seconds to Drop Best Part of Two Miles.

A remarkable description of a battle in midair between an officer of the Royal British Flying Corps and a German airman whose machine was brought down is contained in the following letter written by the British aviator to the London Times.

"Yesterday being the first fine day, I had instructions to go up in an F. 2. with 'P.' as observer, to take some photographs over ——. It was about the most unpleasant job going, as the numerous woods about there are absolutely bristling with 'Archies' of no mean prowess, as I can testify, having had, perforce, to sample some of their wares on many a reconnaissance of late.

"It took us roughly an hour to get up to 9,000 feet, which time we spent between —— and ——, climbing, climbing and climbing still. The air was pretty full of machines, it being the first fine day for some considerable time. We saw no Huns, though we afterward heard that there were three hanging about behind their lines, and worrying a number of our fellows doing photography. Twenty to 12 found us east of ——, not far short of 10,000 feet up, and distinctly chilly.

Scrappy in Air Battle.

"A biplane and a monoplane appeared east of us, the biplane leading, with ample evidence of being in a hurry, with the monoplane—which appeared to be one of our Moran type —overhauling it hands over fists. We were about 2,500 feet above the Huns,' and when within about a mile I got a glimpse of the monoplane's top wing. Black cross—in a white base. Good enough!

"Down went the F. E. nose almost vertically; 2,000 feet we came down while the air speed indicator went up to 160 m.p.h. and then stuck—not having been designed for the purpose of exceeding recognized limits. I expected the F. E. to fold up under the strain any moment, but she stood it like a rock! By this time the other two machines were almost vertically below us—the Hun had caught up the biplane and was emptying his gun into it at fifty yards range. It subsequently transpired that just at this moment he had put three bullets in the observer's arm and one through the main petrol tank, with the result that the precious fluid was pouring all over the pilot, observer and fusillage.

"I started pulling the F. E. out of her nose dive about 2,000 feet above the Hun, as too sudden a shock would inevitably have crumpled her up. The consequence was that we found ourselves above and behind the unfortunate Teuton, and within twenty yards of him. To my mind he never saw us until we opened fire. Twenty rounds of lead were planted into the back of his neck, though they apparently did not hit him. He then turned his attention to us, turning left-handed and passing directly below us. This necessitated our getting on to a perpendicular bank and doing a complete circuit to see where he'd go to. The little beggar was describing circuits round us while we did a sort of 'inner circle,' conducted, of course, with a perpendicular bank; but, owing to the fact that our speed was so great and that we were doing complete turns in about twice the length of our machine, the centrifugal force was so great 'P.' couldn't hold the machine gun on its mounting; it swung down, and though the whole gun only weighs twenty-eight pounds he could not pull it up square.

"Things being at the moment distinctly unsatisfactory, we weren't sorry to see the Hun head for home. After him we went, both diving hustlily, while 'P.,' more familiarly known as 'Pongo,' gave him the rest of the drum—another twenty-eight rounds.

Quicker Than "Archie."

"I was beginning to get a little anxious, as we were getting very low and expecting 'Archie' to get us any minute, when we got him. A lucky shot found its billet and the pilot was no more. The evolutions that machine describes falling 7,000 feet, with no man at the wheel, were extraordinary, viewed from above—first it wheels up, then right way again, a loop, several cartwheels, a nose dive, more loops, and several turns onto and off its back, sideways, until it was lost to sight almost on the ground. Good enough!

"By this time another F. E., a Bristol scout, and two Q.C.'s had arrived, but—fortunately for me—too late to claim a share in the finale. The next I remember doing was looking at my watch—12.46. The incident over, we started climbing again, as those infernal photographs had to be done. At this point the engine began to have a say in the matter, and one cylinder decided to strike. So homeward we wended our weary way. Quite an ovation on landing—the only person who wasn't cheery was the unfortunate observer of the Q.C., who entered into the commencement of the scrap. The satisfaction of knowing that the Johnny who'd pushed three holes into his right arm—considerately avoiding to touch the bone—had been properly 'strafed,' didn't bear any weight.

"The Major was delighted, as it was the first machine of this type to show up in this quarter. A number of Fokkers, as the German Moranes are called, have been giving our machines a lot of trouble down south, and it is rather thought that this one may have been a picked pilot sent up to put some more heart into the other machines working in this sector of front. For his first appearance he had certainly done remarkably well, driving off three of our machines and wounding an observer. For speed and climb he left our machines absolutely, so he was well out of the way.

"I must say that he was the first German we have run across who put up anything like a real decent show, and our jubilation is tinged with regret at the loss of a very gallant fellow. So much for the episode itself.

"We got back satisfactorily to a late lunch, and soon after having entered up our report as to whether or not the machine was worth salving, were granted permission to go up to the wreckage. X and I with a flight sergeant from my flight and a mechanic set out about 4 by car . . .

A walk of 500 yards brought up to a line of trenches and dugouts about 100 yards from the German trenches, though screened from those nearest us by a slight rise in between. Then we were in unpleasant proximity was soon apparent, as the 'phewl phewl' of the bullets came with most disturbing regularity. All the time star shell magnesium flares went up and made you stand still as a rock, as the least movement would give one away. But by now we had reached the wreckage.

New Flier's Last Plunge.

"As far as I gathered, viewed from the ground, the fall was full of excitement and our troops for four miles along the lines had stood up and cheered to a man for several minutes on end. In fact a few had said to the officer in command of the battalion—so he told us—that they all felt it was worth four days discomfort to see it come down 7,000 feet, as the engine was going all the time, and it only took thirty-five seconds to drop the best part of two miles. You can imagine the pace it was going when it hit the ground. Finishing its descent in a nose dive, as I said, with its engine going, it first struck the top of a dugout. It would seem that fellows watching its descent and seeing its course to be headed toward them had taken refuge in the dugout. The roof was built of trunks of trees of reassuring dimensions, covered with three feet of earth.

"The impact was so great that owing to the weight of the engine it had gone slap through the roof and buried its nose into the bottom of the dugout, leaving a portion of its tail, outside, but the rest so telescoped as to occupy not more than a cubic yard. Reinforcing the fact that this type of machine has an all steel frame and that behind the pilot's seat there is nothing of weight, it helps to emphasize at what colossal speed he must have been travelling. The four occupants of the dugout were all wounded as a result, but none seriously.

"Of what we saw in the dugout, ten feet by twelve, by the light of an electric torch, through the smoke, the time being midnight and shells going off all round, I shall never forget as long as I live.

"As memories of a very gruesome occasion I have got two decoration ribbons which the observer was wearing, though no medals were found; one of the ribbons is that of the Iron Cross. I have also the magneto from the engine and a pistol for firing colored flares to range their anti-aircraft batteries on our machines, a portion of the fabric and plans, though the crosses from the wings had already been collared—and a few regimental buttons from his tunic, which we shared out to the mechanic and sergeant with us."

PROHIBITION IN RUSSIA.

"Soakers" Have More Money Than They Know What to do With.

"That Russia will continue after the war to be strictly teetotal nobody believes." So says John Foster Fraser in his book, "Russia of To-day," written after a close-at-hand study of conditions in the Czar's domains.

"The sale of light beers and wines is fairly certain to be allowed in time. But it is a matter of doubt whether ever again the spirits of any kind will be permitted.

"Vodka was the curse of Russia, and with its departure Russia is like a man joying a new strength after a desperding illness.

"As one who has travelled all over Russia, knowing it in peace-time, time of revolution, and of war, I have to report that prohibition has been good for the country. I do not imagine there is one person in a hundred thousand who would raise his hand to return to the old condition of things. There has been a considerable decrease in crime since Russia became teetotal; the number of cases of insanity has declined; the suicides are reduced in number.

"During all the time I was in Russia, although I ran into varying degrees of opinion, I met no one who disputed the benefits of the change. Manufacturers told me that enforced abstinence increased industrial efficiency by 25 per cent. Workingmen earn more, and though the war has increased the cost of living, their families are better off than before the war, because none of the hard-earned roubles go in vodka.

"I have come across few things more amusingly pathetic than men, who have been 'soakers' for years, finding themselves with money which they did not really know what to do with because the usual channel is closed to them. The Russian workman is a simple-minded, good fellow, and it is really a fact that in many cases he stopped work because he was getting money that he had no use for. His imagination was limited. But gradually he bought himself another pair of trousers and his wife a coat and gaudy handkerchief to tie over her head, then a blue shirt for himself, and boots for the children, and ultimately a gramophone. He sees all these things in this life and his 'missis and kiddies' batter fed. He is working no harder than he did formerly, and he feels there is something of a miracle at work.

"He is getting an idea of how much he used to spend on vodka. He can hardly believe it, but he sees the consequence, and he really does not want to go back to the stuff. The Russian woman is just as sprightly with her tongue as her sister in other lands, and 'mother' is very explicit as to what she will do to any body who opens the vodka shops again. Pawnshops are doing badly. The latest returns of the savings banks show that deposits have increased six-fold. The poorer folk of Russia put in the savings banks over £50,000,000 more during the first year of the war than they did the year before the war."

CANADA PAYS THE PENALTY

Carelessness is the Cause of Most of the Fires

An analysis of the fire losses in 1914, as compiled by the Monetary Times, discloses some interesting conditions. This statement substantiates and verifies the charge that carelessness is the cause of seventy-five per cent of Canada's fire loss.

It would naturally be expected that the greater number of fires would be in factories using power of fires for manufacturing processes, and where accumulations of shavings and other waste are exposed to fire from friction, spontaneous combustion, or other causes.

Such is not the case. By far the greater number of fires were in buildings in which none of these risks occur. Factories contributed only 59 fires, various mills only 12; laundries, 5; engine houses, 1; machine shops, 3; sawmills, 12; foundries, 2; white power-houses, blacksmith shops, canneries and others had a clean record.

Against this and constituting a record which should be a disgrace to any county, were 676 fires in dwellings, 138 barns and stables, 384 stores, 48 hotels, 46 business sections and blocks, 26 warehouses, 18 offices, 11 schools and colleges and 29 sheds.

Some of the causes of the fire were: lamps and lanterns, 20; defective and overheated stoves, furnaces and chimneys, 113; sparks from chimneys, 41; candles, etc., 6; ashes, 8; matches, 69; cigar and cigarette stubs, 15; defective gas appliances, 21; oil stoves upset and exploded, 13; spontaneous combustion, 18.

All of the foregoing causes may be overcome by the exercise of only ordinary precautions. Not one of them needs to be repeated during the current year. Canada cannot afford to burn up her resources as she has been doing. As in Great Britain, there is need of husbanding all our available assets for the great national work in hand, and it behooves Canadians to make every effort to reduce in a large degree the fires resulting from causes entirely under control.

Men are judged by their actions, women by their looks, and mules and onions by their strength.

Wrinkles are a Confession—

Advancing years are first realized by the change that becomes noticeable in the complexion. If you pay attention to the first almost imperceptible lines, how easy it is to avoid the unsightly wrinkles that surely follow. Wrinkles are a confession to rather Time. The skin must be kept firm and smooth by proper attention and treatment.

"Ouzo" is a skin food and wrinkle chaser. It builds up firm, elastic tissue, removes wrinkles fills out depressions, prevents dryness of skin caused by excessive winds, and restores to your complexion that fine appearance of freshness and youth.

"Ouzo" is put up in handsome oval bottles, and until the Drug Stores in Canada are completely stocked we are filling mail orders. Don't be substituted.

Send 5c coins to-day for trial bottle, sufficient for six weeks' use. We pay postage to any address in Canada.

Unit Manufacturing Co., Limited,
Dept. A, 470 Roncesvalles Ave., Toronto.

The Housewife's Corner

Home Problems Solved.

This is the time of the year when the average woman lets her thoughts turn to clothes for spring and summer. She may not have all she needs for the remaining days of winter, but her mind will glide away easily from such deficiencies, as she sees the new materials displayed in all the stores.

In order to have more summer gowns many a woman becomes her own dressmaker. Patterns are easy to get and to follow; and if she has a natural instinct for dressmaking, and is fond of sewing, several pretty gowns, of which she is the sole creator, come from the sewing room during these late weeks of winter.

There is, however, one obstacle in the way of the would-be dressmaker if she is the mother, housekeeper and maid-of-all-work besides, and that obstacle is the lack of time, the need of a few more hours in her already busy day. She requires more than a mere snatch of time, but just as she becomes interested in her work she may be obliged to stop; and when she comes back to her sewing an hour or two later, she loses more time hunting her thimble or trying to find out where she left off.

Much more might be done by employing a little system, by bringing the imagination into play, or possibly by combining the two. One woman who makes most of her own and her children's clothes accomplishes much more than the average woman by planning ahead, even by pretending that she is expecting a visit from a seamstress!

In order to get the time in which to entertain that imaginary dressmaker, she works very hard for two or three days before, cleaning the house and cooking. She makes out her bills of fare for the whole time, and orders everything that will keep. She arranges for the children to carry their luncheons to school upon those sewing days; and when putting them up, she puts up one for herself, and takes it to the sewing room.

She tries to get to work at 9 o'clock, and sews until 12; then eats her luncheon and rests until 1 o'clock. She stays upstairs until 5, and asks her friends not to visit her, nor to call her up on the telephone on those days. Of course, there will be some unexpected interruptions, but these she tries to guard against. At 5 o'clock she stops work, goes out of doors for a short time, and then starts preparations for dinner. She finds, so she says, by following this plan that in two days she can get a great deal more done and she is much less tired than by doing a little for several days.

Another woman, who appears to accomplish a great deal of sewing, says that it is done by always keeping a bit on hand downstairs, so that if a neighbor drops in, or if one of the family offers to read aloud in the evening, she has something ready to do, and does not have to hunt for either work or materials.

While on the subject of spring sewing, remember new cotton material is better for being shrunk. Here is a way of doing it which appears to be better than shrinking the goods in the piece. This new way is to cut and make the garment from the new material, leaving the hem unsewed; then put the dress into a basin of cold water, to which salt or turpentine is added to set the color, and after soaking it for a few minutes, hang it out to dry, letting the water drip and pinning to the clothes line, so that the hem, or the end where the hem will be, hangs down. When the dress is dry, dampen if necessary, in order to press smoothly; then turn up the hem, and stitch.

Cake Recipes.

Afternoon Tea Cakes.—Half pound flour, two ounces butter, one ounce powdered sugar, half pint milk, one egg, a pinch of salt. Sift the flour and salt. Rub in the butter, stir in the sugar and add the milk and egg, the yolk and white beaten to a froth together. Make light dough and roll out half an inch thick. Cut into rounds and bake in greased tin 15 minutes in hot oven.

English Scones.—Half pound flour, two ounces shortening, two ounces currants, two ounces sugar, two tablespoons milk, a pinch of salt, one heaped teaspoon baking powder. Sift flour, salt and baking powder, rub in shortening, add sugar and currants. Stir in enough milk to make stiff make stiff dough. Do not roll out but put in round heaps on a greased tin and bake in hot oven for 15 minutes.

The rest of these recipes are for riches cakes, but not at all difficult to make and are a little different from the usual.

Hungarian Loaf Cake.—Half pound flour, ½ pound powdered sugar, 6 ounces raisins, 2 ounces candied peel, 1 teaspoon soda, ½ pound rice flour, 6 ounces butter, 6 ounces Sultanas, ¼ pint milk. Cream butter and sugar, sift in flour, add other dry ingredients, heat milk and dissolve the soda in it, then mix with rest. Bake in moderate oven about 2½ hours, but test by piercing with a skewer before removing from tin.

Madeira Cake.—One-half pound flour, two teaspoons baking powder, two eggs, one slice citron peel, one-quarter pound butter, six ounces granulated sugar, three-quarter gill milk, pinch of salt. Cream butter and sugar. Beat eggs and add them alternately with the flour and salt to the butter and sugar. Mix in enough milk to make thick batter; lastly stir in the baking powder and pour into well-greased lined tin. Put slice of citron on top and bake one hour in moderate oven.

Sultana Cake.—12 ounces flour, six ounces sultanas, one egg, one tablespoon baking powder, milk as required, six ounces margarine or butter, six ounces brown sugar, one ounce mixed peel, one-half saltspoon salt. Sift flour, salt and baking powder; rub in shortening, add sultanas, sugar and finely chopped peel. Beat egg and add; then stir in enough milk to moisten. Put in greased lined tin and bake one and one-half hours in moderate oven.

Raisin Cake.—Twelve ounces flour, six ounces sugar, three teaspoons baking powder, two gills milk, one-quarter teaspoon spices, three ounces dripping, three ounces margarine, one egg, six ounces raisins. Sift flour and rub in shortening, add sugar and well-beaten egg and milk. Beat five minutes, stir in raisins and spices and put in a paper-lined tin. Bake one hour.

Rich Plum Cake.—One pound flour, four ounces butter, three-quarter pound raisins, two ounces glace cherries, three eggs, one teaspoon grated chocolate, six ounces margarine, ten ounces sugar, six ounces currants, three ounces mixed peel, two ounces almonds, one-half teaspoon mixed spice, milk as required. Cream shortening and sugar. Sift flour, beat eggs and add them alternately to creamed mixture. Add fruit peel, almonds, chocolate and spices. Beat very thoroughly, adding milk enough to moisten. Line tin with two layers greased paper. Put in mixture and cover with greased paper. Bake three to four hours. Leave 24 hours before icing.

Useful Hints.

Clean artificial teeth with fine salt.

Olive oil will clean aluminum ware and keep it free from rust.

Linseed oil will repolish furniture which has become scratched.

Fat for frying should be boiled before the article to be fried is dropped into it.

Soak fresh water fish in water into which a little lemon juice has been squeezed.

To fasten labels to tin cans add one teaspoon of brown sugar to one quart of paste.

A heavy chalk mark laid a finger distance from your sugar box will keep ants away.

Put charcoal in the bottom of pots for plants which are liable to become pot rooted, especially ferns.

When starching colored clothes the starch should be very blue, rather thin and very free from lumps.

Water in which potatoes have been boiled is the best thing with which to sponge and revive a silk dress.

Put a little soap into hot starch with the soap shaker. The iron will then seldom stick to the clothes while ironing.

If too much bluing has been put into the rinse water all bad effects will be avoided if three or four tablespoonfuls of household ammonia is added.

Soak your lamp wicks in vinegar and dry before using. The light will be much more brilliant, and this will also prevent their easily smoking.

Rub eight ounces of icing sugar through a sieve; mix to a stiff paste with a dessert spoonful of the white of an egg lightly beaten, and a teaspoonful of cold water; add sufficient essence of peppermint to taste; roll out and cut into rounds; lay on a grease proof paper for three or four hours to dry, and you will have good peppermint "sweeties."

A PROPHECY

What Women Will be Like in the Year 2016.

Every other man you meet is willing to be a prophet, and tell you when the war will end. But what would you say to a man who would venture to prophesy a hundred years ahead?

There is such a man — M. Jules Bois, the distinguished French writer. A century or so hence, according to M. Bois, all classes will live in the country or garden cities a good distance from the towns.

Travelling, by them, will be extremely rapid and cheap, following an enormous development of all methods of conveyance, from pneumatic railways to flying cars.

The average height of Europeans and the average length of life will be increased. Entirely new views on womanly beauty will prevail. Woman herself will have changed, her beauty being combined with muscular power and courage, which is rather a hard knock for present-day ladies.

The man who praises the baby wins the mother's smile.

SCENE AT HARTMANNSWEILERKOPF, IMPORTANT ALSATIAN HEIGHT

The now-famous heights of Hartmannweilerkopf has been the scene of some of the bloodiest fighting in the present war, having been taken and retaken over a dozen times. It is now in the hands of the French and constitutes the key to a very important position. Desperate fighting for the eminence goes on daily. Before the war it was a thickly wooded forest, but now only the blackened stumps of the trees remain. The photograph shows French bomb-throwers ready to cast their deadly missiles from one of the commanding trenches of the height.

NAVAL STRATEGY WAS SUCCESSFUL

BRITAIN KEEPING GERMANY OFF THE SEAS.

Concentration and Initiative Succeeded in Bottling Up Their Fleet.

What the British fleet has done in 1915 is the subject of an exhaustive article in the Daily Telegraph by Mr. Archibald Hurd. In the course of this article Mr. Hurd Writes:—

"Concentration and initiative—in these two words lies, in large measure, the secret of our success at sea. The fleet sprang a surprise on the enemy in the early days of August, 1914, from which he has never recovered. It took the offensive and thus dedicated strategy. Our fortunes at sea have been in contrast with our fortunes on land for that reason.

For a time the German cruisers in distant waters seemed to have things their own way. Authority was not distracted from its primary purpose in the North Sea—the containing of the High Seas Fleet.

"'All in good time,' it was said in so many words, the other seas will be swept clear; we refuse to be diverted from our strategy, which we are convinced is as sound as it is simple. The nation may be worried by losses of merchant ships here and there; they do not seriously matter; what matters is that the enemy should be thrown back on the defensive war.' Was the policy a success?

"If the war has not yielded all that officers and men anxiously anticipated in the early days of August last year, it has given us in these islands peace, and even prosperity. We might have anticipated as much. It was, it is true, assumed by some persons that the Germans would not relinquish without a struggle all the added strength which the seas offer to a nation in the throes of war. Some effort would surely be made, either by a 'bolt from the blue' in the early days or by crafty use of some chance or carefully prepared opportunity, to interfere with our command of the ocean communications.

No German Flag on Seas.

"These expectations have not been fulfilled; for a year and a half the battleships of the High Sea Fleet have only ventured on one occasion beyond the narrow limits of their protected waters; excursions in the Baltic have met with repeated disasters; since the close of 1914 the German flag, naval or commercial, has been banished from every ocean.

In former wars no blockade operations ever succeeded in keeping all an enemy's ships in fort; from time to time squadrons have eluded the most careful watch and got away to sea, as witness the French squadron which escorted Napoleon's army to Egypt in 1798, and Villeneuve's escape to the West Indies in 1805. During the present war the enemy has only once moved a single battleship from behind the protection of his mines and the defence of the shore guns.

"That is a remarkable fact. Not a German battleship has been in the open sea for many months; not a German battle cruiser has been outside the Zareba since the opening of the present year, when the Blucher was sunk and the Derfflinger and the Seydlitz damaged; so far as is known, no protected cruiser has ventured beyond the limited area of water which the Germans are able to control. The enemy's main fleet has lost touch with the sea.

Influence on Morale.

"What the influence on the morale of officers and men has been, to what extent they have lost the sea habit, whether their gunnery has suffered—are questions upon which each of us can speculate. But this at least may be said. During the last seventeen months or so the British fleet has had all the sea room which the world's oceans offer, while the German high sea fleet has been confined within an area so small that an American would not describe it as a lake.

"What is probably hardly realized is that the record of the British fleet in the present war has no parallel in history. In the past enemy frigates always succeeded in getting out of ports, however carefully watched; when there were no mines and submarines to harrass the blockading force—and doing great injury to overseas possessions and trade. Since the battle of the Falkland Islands the only damage done to our merchant ships has been inflicted by submarines; that has been relatively small in home waters since the offensive-defensive measures were developed.

"The extent of the success of the fleet is not to be judged by battles or engagements, but by the power which it has been instrumental in creating. The whole fabric of our life in these islands hangs on one thread. The comparative measure of prosperity which we are enjoying is traceable to our command of the sea. The widespread character of our military operations is due to the same cause.

HOSPITALS OF PETROGRAD

Are Said to Be the Most Up-to-Date in Europe.

According to Mr. Wm. Barnes Stevens, who has spent twenty-six years in Russia, the Petrograd hospitals are in some respects the most up-to-date in Europe. In "Petrograd, Past and Present" (Grand Richards), he says:

These vast buildings are supported by a tax levied on every peasant, working man or woman in the capital—an equitable system of taxation secured by simply affixing a stamp to the passport of every member of the working class once a year when he or she goes to the police-office to have it vised or renewed. The expenses of the host of officials required to administer, for instance, the English National Insurance Act is thus saved. Had the municipal authorities to support an army of clerks for the collecting and tabulating of the tax there would be very little left for hospitals themselves. In all the town hospitals, everyone who has paid the tax, which amounts to one rouble (2s.) a year, is attended free of charge.

The apothecaries' and chemists' shops are all under the supervision of the Crown, and by experts are said to be unrivalled both in the quality of the drugs supplied and the care taken in making up prescriptions. Each quarter of the city has its own special apothecary, carrying on his business under Government inspection. Should there be any serious complaint the Imperial privilege, or licence for dispensing, is taken away and bestowed on someone more worthy.

A long sentence doesn't worry a reader as much as it does a criminal.

THE SUNDAY SCHOOL

INTERNATIONAL LESSON, FEBRUARY 27.

Lesson IX.—The Seven Helpers, Acts 6. Golden Text: Gal. 6. 2.

Verse 1. Grecian Jews—A special use of the word Hellenist, to describe Jews who were brought up in the Dispersion and had been accustomed to speak Greek. Many of them would take the first opportunity they could get of removing Palestine. Hebrews were (properly) dwellers in Palestine whose language was Aramaic, though they would generally understand Greek. The cleavage between the two classes depended most of all on the fact that the Bible of the former was the Septuagint, while "Hebrews" used the original. Note that Paul (Phil. 3. 5) insists that he was "a Hebrew and the descendant of Hebrews," although Greek was for him as much a native language as Aramaic, and he was entirely familiar with the Greek Old Testament. Neglected—"Were being overlooked"; the sequel is enough to show that it was quite unintentional. The Hellenists were largely newcomers, and it was very natural that the widows of men who had been in the city all their lives should be noticed first.

2. It must be remembered that the twelve had a message to give which could not be delegated. Other men could preach as well—hardly one of them could match Stephen, far less Paul. Many other men could organize charity better than they. But they could tell what they had seen and heard of the words and works, the death and resurrection of Jesus; and in this they could have no substitutes.

3. The method proposed is very significant for the history of the Christian ministry. These officers of the church "poor stewards" we should call them in British Methodism—are to be elected by the whole membership, and installed by the twelve. The conditions are that they must be members, of well-recognized character and not only men of judgement, but deeply spiritual. For the Spirit is needed just as much for "serving tables"—that is, the counters over which money is paid—as for preaching or praying. There were to be seven, the sacred number, an additional reminder that this was no "secular" work which the twelve rejected as not good enough for them. Note they are never called "deacons"; we need not discuss the later tradition that gave them the name, but the New Testament knows nothing of the application. Another point over this business the twelve will transfer to them work they had hitherto done themselves.

4. The prayer—Literally, it is put first as the outstanding feature of Christian meetings. The ministry—Or service; for the word is significantly identical with "serve tables" in verse 2. The word—"The gospel."

5. The translation above tries to imitate the Old Testament flavor which Luke here, as so often, gets out of the Septuagint to give an aroma to his phraseology. They chose a band of whom every member bore a Greek name. Were the Hellenists in such an overwhelming majority? But if it was an unfair representation, by which the "Hebrew" widows would suffer, were the twelve likely to endorse it? Philip—See Acts 8. 5, etc.; 21. 8. He is the only one besides Stephen of whom we hear anything more. The Acts must not be expected to supply biographies of the seven when most of the twelve are passed by. Nicolaus—One might almost suggest that he is precisely described in order to distinguish him from some other Nicolaus—the one whose name was attached to the antinomian sect of the Nicolaitans?

6. Laid their hands—A symbolic figure familiar in Old Testament ritual. It suggested, as it does in many primitive religions, the passing on of grace and special functions from one person to another. It was destined to give rise to a most unapostolic succession of superstitious ideas, but was perfectly simple and very suggestive in its origin.

7. Priests—This marks the climax of the humiliation of the proud high priests: their own order is changing its Sadducee principles for the gospel of the resurrection. Were obedient to the faith—Compare Rom. 1. 5 (margin). Faith is a monarch demanding a very practical loyalty. Stephen's brief story is to show us that.

THOUGHTS FOR THE DAY

We learn from failure much more than from success.—Smiles.

The situation that has not its duty, its ideal, was not yet occupied by any man.—Carlyle.

Take my word for it, the saddest thing in the world is a soul incapable of sadness.—Cassandra.

The stars — those preachers of beauty which light the universe with their admonishing smile.—Emerson.

Like alone acts upon like. Be what you wish others to become. Let yourself and not your words preach. —Amiel.

The darkest shadows of life are those which a man himself makes when he stands in his own light. —Lord Avebury.

UNTAMED ZULU AND HOTTENTOT

ARE FIGHTING BRAVELY IN THE PRESENT WAR.

Africa's Undaunted Black Men Are "Civilized" by War.

The conspicuous gallantry of the negro soldier in the present war under conditions directly opposed to those which composed his environment and training for centuries past has demonstrated his celerity of imitation. The race has always been the most adept at copying the white race and in no way has it emulated its companion race more closely than in the adaptation of modern warfare and Aryan courage in restrained discipline.

In fact, no transformation from savagery to civilization was ever performed with more thoroughness and speed than that of the tropical African to the regular British trooper.

Ancestors Were Zulus.

Less than a generation ago he was a wild, untamed Zulu and Hottentot, fighting wildly and singly through the jungle, rebellious against all discipline and order, fierce and determined to resist until death all of the white man's propaganda. To-day, drilled, ordered and tractable, he fights on a half dozen frontiers, vieing with the Sikh and the Gurkha for the title of England's most loyal subject.

His youth was spent in the wilds, his father roamed the brush, naked, tattooed, with a spear and wicker shield in hand, the lone, or at best the disorganized tribal fighter. Now he marches in ranks uniformed as his comrade Britisher, armed in the utmost of modern technique, and fights as coolly and steadily as any Highlander.

Asked No Quarter.

When the savage fought he made one impetuous assault and died like a fanatic lunging at his enemy's heart. If he triumphed, which was seldom, against the invader's rain of lead, he massacred the prisoners and the wounded. Now he can control himself in the gruelling hours of waiting in the trenches and in the patient watches of the night. In the charge he is more at home, but there have been no substantiated charges of his brutality or savagery in the event of victory.

Civilization has made a modern soldier out of him in every particular. During the American civil war negro regiments were utilized by the North in the latter years of the contest and proved themselves valiant in the extreme. Given the proper officers and the desired enthusiasm they were a match for any opponents.

Less Susceptible to Pain.

Scientists maintain that the savage feels pain less acutely and is not so sensitive to nerve-racking agony as the white, and they state that such unparalleled fearlessness as the native troops show is partly due to this absence of dreaded suffering. Travelers relate many instances of how savages in the jungle endure the most frightful pain without a single tremor.

Be that as it may, there is no doubt but that the negro trooper who falls for England, France or Germany in the present fighting does so for a certain patriotism and that in his last hour he feels the pangs as surely as does the hypersensitive Frenchman.

AUSTRIAN VIEW OF BRITISH

Enveloping the Whole World Like a Shroud.

Discussing Great Britain's share in the war the Austrian Socialist organ, the Arbeiter Zeitung, says that conscription, even if it does no more than secure the filling up of gaps caused by losses, is yet of the highest significance for the continuance of the war. It must be recognized that Great Britain is carrying on the war as a land power in a degree never before seen in any coalition wars in her history. The insurmountable barrier of the seas surrounding the country saves her from spending her strength in defending her own land. There is no threatening foe to compel her to rush forces to the frontier. The British have time on their side. The sea, to which they owe so much, permits them to make good without any serious disadvantage the negligence in war preparations in the war itself.

It even increases their power. For wherever the strength of the enemy appears to be growing weak there ever we see at first a promise and then, in part at least, a reality, some of the hundreds of thousands of Kitchener's recruits to renew the enthusiasm of the war in the veins of the Entente. And so it is Great Britain which spins the threads—the endless threads of black misfortune which envelops the whole earth like a shroud—and is due more to her favorable geographical situation than to her determined persistency that Great Britain is able to postpone the decision on the Continent.

A man seldom does anything the way a woman thinks it should be done.

The Paisley Advocate

PAISLEY, FEB. 23rd, 1916

—A statement of the "Dry Ontario" returns by counties shows that in Bruce county the petitions were signed by 7,784 voters, which is 74 per cent of the 10,481 who marked ballots for the Ontario elections in 1914.

—Since the Russians captured Erzerum the other day and put the Turks on the slide we've all chirped up wonderfully. When the Balkan States chained in with Germany a few months ago it really looked as if every ten-year-old boy now living would have to get into uniform at 18 before the war could be settled to the satisfaction of the Allies. To day we can almost see the end of the struggle within three years from the time it began.

—There are over one thousand military officers, graduates of the schools at London; Toronto and Kingston, who are still without appointments for overseas service, although the majority of them are anxious to participate in the fighting. The latest proposal to get these men to the front is to form an officers' base battalion, from which specialists could be drafted for any branch of the service.

—The people of Belgium are still in need of assistance from the more fortunate inhabitants of the world. They deserve another lift from Canadians especially, as they sacrificed their all in the fight against a military foe that would, if possible, make a colony of this Dominion and deprive us of the civil freedom we prize so highly. "Unless we can get more assistance, hundreds of thousands of the seven million people still in Belgium will actually starve," says the president of commission for relief. Send contributions to the treasurer of Belgian Relief, Montreal, or leave with THE ADVOCATE.

—The "Dry Ontario" petitions from all the province make a prodigious package. It is reported that two of the largest motor trucks obtainable will be required by the Citizens' Committee of One Hundred to transport the documents to the Parliament Buildings on March 8th at 2 o'clock p.m. Between twenty-five and thirty thousand temperance advocates are expected to accompany the petition, and the executive committee is now busy choosing the speakers and making other arrangements. A large procession, including over a thousand motor cars, will be organized. The lists of signatures on the petition will be bound, each county or town having its own book.

—Hon. W. M. Hughes, the Labor Premier of Australia, is in Canada at present, and through his utterances Canadians are being made better acquainted with the people of our antipodean sister dominion. "The cornerstone of the edifice of democracy is compulsory military training," he said in an address at Ottawa. "I represent labor, especially in the Australian Common wealth, and every laboring man knows that this is a fight in which every civilized nation is interested, and in which all the liberties for which they have fought for centuries are at stake." Priemier Hughes declared that the system of compulsory military training in Australia had enabled his Government to mobilize promptly a great fighting force, and to officer that force with trained men. Already the Commonwealth had sent overseas 140,000 men, while 243,000 was the total of enlistments to date. By the end of June the Commonwealth would have called to the colors fully 300,000.

—Medical scientists are making effective attacks upon the diseases that have been most strongly entrenched against human life. Some are so optimistic of the results as to say that within a comparatively short period consumption will almost disappear. A campaign to immunize every resident of Illinois against diphtheria is being undertaken by the State Board of Health. The Board is furnishing free to physicians complete outfits for making scientific tests to determine what persons are naturally immune from the disease. Those found susceptible to it are advised to be immunized by the use of antitoxin. The test is painless and causes no discomfort. It is made by injecting a small amount of diphtheria toxin diluted with salt solution, into the skin of the forearm. If the blood of the person tested contains a sufficient quantity of natural diphtheria antitoxin, there will be no reaction, indicating that the small area of redness will disappear in a day or two.

—Bank cheques are often given in payment of accounts and the 2c war stamp left off, accidentally, perhaps. An accident of this kind is liable to a fine of $20 which was imposed on a business man in Ottawa recently and another in Toronto last week.

LOCAL AND DISTRICT NEWS

Mysterious Man Suicides

The community was startled on Friday by the report of a suicide at Lucan, the victim being George McCrackin, who was employed by Mr. Peter McArthur at farm work. The deceased had been there since last September, and when he arrived in search of work had the appearance of a tramp. He was very reticent in manner, and in the intervening months never disclosed anything regarding his life or history, so that very little is known about him. About the only statement he made was that he came from Toronto. The only clue to further information is a letter addressed to him from D. D. Griffith, of Barrie Island P.O. in the Manitoulins, which would indicate from the contents that McCrackin had lived at that place. Since coming to McArthur's he sometimes went for a walk at night without returning until morning, so that after saying he was going for a walk and did not turn up from Thursday night to Friday forenoon, nothing was thought of it by his employer's family, and no search was made for him, but on Friday afternoon the two sons, James and John McArthur found his dead body lying, frozen stiff, in the bush, where they had gone for a load of wood. Death was caused by a cut about four inches long across the throat, which severed both arteries and windpipe. The axe with which the deed was done, was a new one that had not been used since first sharpened. He had apparently deliberately drawn the blade across his throat and was able to stand the axe up against a tree before he fell in the throes of death and rolled about eighteen feet away. Before removing the body coroner Gegg was called over the phone. Dr. Gegg took the evidence of several persons, but considered that it was so plainly a case of suicide that an inquest was not necessary. A funeral was held on Monday forenoon, conducted by Rev. G. C. Little, of Paisley, and interment was made in Lucan cemetery. The deceased was apparently 32 or 33 years of age.

Threatened His Wife

Norman McDougall who has been separated from his wife for about eleven years, got into the toils for having acted in a threatening manner towards her and Alex McDowell, the hired man who lives with her on her farm, 4th con Bruce. McDougall has been out west, but recently returned to this county, and in December paid his wife a visit at the farm. Then he went up to visit friends at Allenford, and from there wrote letters that sounded dangerous. Mrs McDougall advised the authorities here, who endeavored to keep track of his movements, but he came down again in an ugly mood. Upon his going out to the farm on Tuesday of last week both Mrs McDougall and McDowell became badly frightened. They telephoned neighbors, some of whom lent their presence and thus probably averted any resort to violence on the part of the invader, if that were intended. Constable Leitch was also called up from Paisley, and drove out with Dan Sparrow. This was after dark, and on their way out they met McDougall on the road, and stopped to apprehend him, when he went through the motions of pointing a revolver towards them and warned the constable not to get out of the cutter. Although not armed for a pitched battle, the latter stepped out on the road, but concluded it was better not to approach McDougall closely. They followed him for some distance, but did not take him that night. Next morning, however, he was secured at the home of Mr Geo Jackson, where he had stayed over night, and brought to town. Upon being brought before Magistrates Gibson and Baldachey he was committed for trial at Walkerton, and was given a hearing before Judge Klein. The Judge found that the threats contained in letters were very vague, and would not warrant his conviction on the charge, and McDougall was given his freedom. Articles of separation were drawn up between McDoug all and his wife when they parted eleven years ago, each taking their share of the property at that time. Now McDougall apparently seeks to extort more money, if possible.

Armstrong Guilty and Must Pay Heavy Costs

When Jack Armstrong had a couple of convictions chalked up against him by a magistrates' court a few weeks ago it only brought out his fighting qualities. He would take the case to a higher court. THE ADVOCATE'S mild reference to his dirty whiskey trick irritated Armstrong. He characterized our paragraph as scandalous and threatened to make it hot for the publisher, a proceeding he was invited to commence right along with. His ardor for litigation has been somewhat cooled, if not congealed, by the judgment handed out from Osgoode Hall, Toronto, where his action to quash the convictions by Magistrates Gibson and Baldachey was presented before the Chancellor. It is very gratifying to the prosecution as well as the bench to find that action was fully vindicated and judgment sound. While one of the convictions is quashed on a technicality, Armstrong is pronounced guilty on both charges, and is to pay all costs. Although relieved of paying one fine of $20, the total expense to Armstrong will be over $225. Following is the report from Osgoode Hall:

Rex v Armstrong—G H Kilmer, K C, for defendant, moved for order quashing two convictions: (1) For unlawfully attempting to induce Wm I Hyde to swear falsely: (2) for unlawfully attempting to induce Neil McArthur to swear falsely. J. R. Cartwright, K.C., for the Crown.

Judgment: There is nothing in the first point as to the want of certainty in the information and conviction. There is no merit in the objection that judgment was given by one justice and the other absent. It appears from the papers that the magistrates had conferred and come to a conclusion, giving reasons in writing, signed by both, that the defendant was guilty and had signed, both of them, the actual conviction. This objection is overruled and the conviction as to Hyde witness stands affirmed with costs.

As to witness McArthur, the offence is defined thus: "Every one who on any prosecution under this act tampers, etc." This a special statutory offence which contemplates that the prosecution has begun. It does not say before or in view of a prosecution, but on it as an existing proceeding. Mr. Justice Ramsay, in a careful judgment on a cognate offence, says it is essential to the existence of the offence that there should be a judicial proceeding pending at the time that the offence is alleged to have been committed. Here the alleged offence occurred before there was any prosecution. I think this conviction must be quashed. I give no costs, as all other grounds fail and the witness was tam[illegible]

THE FAMILY PHYSICIAN

"Fruit-a-tives" Is the Standby in This Ontario Home

BOWMANVILLE, Ont., Aug. 26th, 1912.

"My wife was a martyr to Constipation.

We tried everything on the calendar without satisfaction, and spent large sums of money, until we happened on "Fruit-a-tives". We have used it in the family for about two years, and we would not use anything else as long as we can get "Fruit-a-tives."

J. W. HAMMOND.

"FRUIT-A-TIVES" is made from fruit juices and tonics—is mild in action—and pleasant in taste.

50c. a box, 6 for $2.50, trial size 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

HORSE IS NOT DEAD

A farmer visiting in a western city writes that a splendid pair of heavy harness horses drove up to the door of his hotel as he was standing there. When he remarked that it was a fine pair the hotel proprietor said that his wife bought all her goods of the store to which these horses belonged because she liked to see them drive up to the door. The horses were fitted out with attractively mounted, well polished harness and hitched to a handsomely painted attractive delivery wagon, making altogether a very distinctive appearance.

Many a city woman's heart beats with pride to see a turn-out of that character stop at her front door. It has a great advertising value. Just to have the store's name linked with such a highclass delivery is worth much; to have those horses stop before their doors is worth more. It brings trade. This principle is well understood by successful merchants in large cities. The famous turn-outs of department stores have been maintained for their advertising value.

Certainly the pride in the horse is a natural human impulse. No mechanical turn-out can be quite so beautiful, distinctive or fascinating. We shall always like horses and want to see them. There will always be rivalry between horsemen to see which can own the best and present them to public view in the best form. Carriage makers report substantial increases in the demand for horse-drawn vehicles. The number of heavy harness horses seen on the streets, especially in the east, seems to have increased. For years the saddle horse has been gaining steady popularity for city pleasure purposes. The pride in the horse is largely responsible for this permanent esteem of turn-outs and pleasures in which the horse is a factor.

NAIL READING

Your finger nails are as sure an index to your character as your handwriting.

Broad nails indicate a gentle nature, while those who have red and spotted nails are fighters, and have a disposition to be cruel. White spots on the finger nails denote misfortune. Persons with narrow nails are ambitious have a keen love for scientific knowledge, and are quarrelsome. Round nails show a great desire for knowledge in general and liberal sentiments; also, that their possessors take great pride in their own accomplishments, and are rather hasty. Small nails indicate a small mind and an obstinate and secretive nature. Nails that grow into the flesh at the sides or points denote that their owners are given to luxury.

WORST OF WRITERS

But Poor Would Disfranchise All Who Couldn't Write

"Tell the gentleman who copied this despatch to write a larger round-er hand, to join on the letters in the words and to use blacker ink." Thus wrote Lord Palmerston, who was himself the most careful and beautiful writer, and a great stickler for care and legibility in this respect, to the Duke of Argyll in 1851. But his admonitions were evidently not taken to heart by Parliamentarians, for in 1867, when the House of Lords was in committee on the reform bill, the clerk of the House received an amendment the writing of which was so bad that he could neither read it nor learn who had sent it. It afterward transpired that Lord Lyttleton was the writer and that the amendment proposed the disfranchising of all persons unable to write.

BALLACHEY, LAIDLAW & CO.

CANADA'S FISH

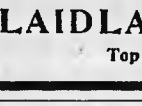
Development of Canadian Fisheries Requires Education at Both Ends

Education has been the keynote at conferences on fisheries held by the Fisheries Committee of the Commission of Conservation. Dr. J. W. Robertson urges the necessity of supplying maritime districts with schools to train boys and young men for the fisherman's vocation, while Mr. D. J. Byrne, President of the Canadian Fisheries Association, emphasized that, to increase the consumption of fish in Canada, consumers must be educated to realize the value of fish as food, not simply as an occasional change in diet, but as a nutritious staple that should appear on the table at least twice a week. There was a general conviction that Canada's harvest from the sea is neither properly garnered nor adequately utilized, merely through ignorance of the proper methods and a lack of appreciation of the value of fish.

Mr. Byrne referred to the great need for better methods of shipping fish by express, as well as of storing it after it reaches the retailer. It is necessary to keep the fish in good condition right from the time it leaves the sea till it reaches the consumer. He pointed to the example of the Old Country, where special fish trains are run, which have precedence over all other trains, even the mails. The Canadian fisherman's proper market is the home market, but until, by judicious encouragement, the public can be stimulated to demand more fish, this valuable commodity will not receive its merited attention.

SEX NO OBJECT

"Professor" Who Has Married Both Sexes Now Retires Into Hospital



"Professor" Eugene de Forrest" has just been arrested in America for posing as a man for over a quarter of a century. After her arrest an extraordinary story came to light. Professor de Forrest, who has been well known for years as a teacher for the stage, confessed that she had been twice married, once as a husband and once as a wife. At the time of "his" arrest "he" was engaged to another girl. Professor Forrest's real name was Mary Bradley, and in that name she married a man named Hart and lived as his wife for eighteen years. On his death she took to wearing man's clothes. She had been an actress and played many male parts so that she was thoroughly accustomed to wearing a coat and trousers. "I was always unhappy when dressed as a woman," Professor Forrest confessed when arrested. "My thoughts have always been those from a man's point of view. I did not dress in men's clothes for notoriety, but because I felt that they were the proper clothes for me to wear." Professor Forrest, who is sixty-two years of age, is now in an American hospital where her curious mental twist is being studied by American medical experts.

Never Can Tell

Silliicus—It isn't a wise plan to judge a man's age by his appearance.

Cynicus—No, maybe he's married.

Old Sight and Old Age.

Old age is a matter of years.
Old sight is a question of glasses.
If you find difficulty in reading, while for distance your sight is good you require old sight glasses.
Old sight shows itself at about forty.
A competent optician should be consulted.
We examine eyes free and guarantee satisfaction.

A STOPPED WATCH

—one that will not go AT ALL—does not cause as much bother as one that runs now fast, now slow, in an erratic fashion.

The first you don't pretend to depend upon—the other is a constant source of annoyance.

Most people can afford a watch, but no one can afford an uncertain fast and slow one.

And when our Repair Department is so close at hand there is really no excuse for carrying anything but an accurate time-piece, no matter what the first cost was.

Consult us about any watch troubles that may arise.

I. SHOEMAKER

Jeweler and Optician

STILL OUR COUSINS

The Wonderful Friendship Which Still Exists Between Canada and States

A prominent American has written: "Four thousand miles of frontier separate us from Canada. Along that entire front there has been no fort and on the great inland sea which lies between no ship of war, for well nigh a century. There is nowhere in the world a more splendid people than those Canadian neighbors. For us and them to drift along in a sort of fool's paradise with no strong and definite arrangement which will insure them and their sons and us and our sons against the insanity of war is stupid. We have been lucky for a hundred years because nothing has disturbed our dreaming, but we are infinitely stupid, now that we realize the brutal possibilities of present-day civilization, in continuing conditions fraught with such hideous consequences. It would be as savage and as monstrous for us to fight with Canada as it would be for California to fight with Oregon. There is no natural reason why we should—and yet, who shall say what may happen while they assert and we assert that our rights as nations are paramount to our several rights as individuals, as human beings?

A Young Man of Mark

"Do you think your boy will leave footprints on the sands of time?"

"He'd leave 'em anywhere. Just look at that carpet."

W. H. DAVISON

Good for the Whole Family

"Granny" Chamberlain

"A good cough remedy is one that can be depended upon to cure coughs. Not one that cures some particular cough, but coughs in general.

It must be a cough remedy that can be relied upon for all the different coughs that are so prevalent. While the causes of all coughs are primarily the same, yet the condition of the patient is what makes the difference in the nature of the cough itself. Coughs of healthy persons are easier to cure than the coughs of invalids. The powerful convulsive cough of a large man is harder to cure than the cough of a baby. If you get a remedy that will cure a large man's cough and yet not be too powerful for the baby, you have a good cough remedy.

Chamberlain's Cough Remedy

is just this kind of remedy. It is good for any member of the family. It relieves coughs of all kinds. It is the product of much thought and study to produce an ideal cough remedy. It is composed of things which cure easily and soothingly without harming the most delicate tissues of the throat. It acts as easily and safely on the young as on the old, and is the ideal remedy for coughs, colds, croup, influenza, whooping cough and bronchitis."

Yours for Health.—Granny Chamberlain's

New Taxes for Dominion Finances

Sir Thomas White, in his budget speech last week outlined proposals for a new tax, which this time falls on shoulders able to pay—upon corporations of whatever sort which are earning excessive profits in war-time. There are but two revisions of the tariff schedule and these minor ones.

While, in a sense, the new taxes are in the nature of taxes on war profits, since they apply particularly to every company which is making abnormal profits during war times, they are at the same time all-embracing. Every business, big or little, which is making big returns on at least $50,000 capital invested, will have to give up one-quarter of the profits above seven or ten per cent dividend to help the Government finance the war.

This time it is the consumer and the farmer and the salaried man who escape.

The limitation with regard to exempting companies having a capital investment of less than $50,000 does not apply to any trade or business dealing in war munitions or war supplies of any kind. Many of these latter companies belong to the mushroom class, which have sprung up since the war with a small capitalization, but which are making large profits out of war orders. They will have to give up one-quarter of all profits over ten per cent of the capital stock.

Sir Thomas White estimates the profits above the "fair annual return in normal times" which are being reaped by various corporations and companies in Canada at $100,000,000 to $120,000,000 per annum. He proposes $25,000,000 to $30,000,000 of these profits.

The taxation on profits will cover the period from Aug. 4, 1914, when the war began, to Aug. 3, 1917, when it is hoped the war will have ended,

"Upon individuals, firms, partnerships and associations" the tax is one-fourth of all profits above ten per cent per annum when the capital employed is over $50,000.

Upon all incorporated companies—such as banks, railways, trust companies, and commercial and industrial corporations—the tax is one-fourth of all profits above seven per cent per annum on capital stock. The minimum capital limitation does not apply to companies which have war orders.

Non-Canadian companies will pay pro rata on the profits from the Canadian end of their business.

Insurance companies are required to invest in Dominion bonds and debentures, thus taking a part of the next domestic war loan. They escape the tax on profits.

The machinery for collecting the taxes and assessing profits is left entirely in the hands of the Finance Minister.

Only two tariff changes are made. The duty on apples is increased by 50 cents per barrel — a protective measure for the British Columbia growers—and illuminating and lubricating oils are made dutiable at half a cent per gallon. The increased duty on oils is estimated at 500,000 per annum.

THE NEW FARMERS' INSTITUTE

Among the many organizations having for their object the advancement of Ontario agriculture none has been of greater service, nor had a wider field of usefulness than the Farmers' Institutes. Organized in 1884 by Dr. James Mills, late of the Ontario Agricultural College, they have made steady growth during all these years and have proved an influential agency in promoting discussion and developing increased interest in the business of improved farming.

It is true that there are many agricultural associations among farmers, breeders and dairymen in this province, but none has brought the work of the Agricultural College, the Experiment Station and the methods of the most successful farmers to the attention of the every-day farmer in such simple, attractive and instructive way as the Farmers' Institutes through its staff of speakers have done. That this work may go on more intensely than has been done in the past, it is the intention of the Department of Agriculture to unify all the agencies having for their object the improvement of agricultural conditions in this province, and also to bring all classes of the community whether urban or rural into closer contact with each other by the formation in each county in the province of what is known as "A County Board of Agriculture." The object of the new organization will be to interest all classes of the community in the work of the farmer and in the homes of the people, by holding meetings at different centres throughout the county, by fostering social gatherings at least once a year, by affording practical demonstrations in different methods of farm work and in the development of live stock.

Membership in the new organization shall embrace men on the farm, in the professions, in business and mercantile pursuits.

The work of the new organization shall be under control of a Board of Directors formed from representatives of Farmers' Clubs, Agricultural Societies, Boards of Trade, Municipal Councils, Horticultural Societies, Women's Institutes and other kindred organizations who shall be under the direction of a superintendent appointed by the Department of Agriculture.

This matter is being discussed at the series of Institute meetings being held throughout the province during the present winter and the new organization will be effected at the annual meetings to be held during the month of June. The proposed organization has a splendid field of opportunity before it for at no period in the history of this country has the interest in rural population been so strong as at the present time, and any organization having for its object the bringing closer together and encouraging a more sympathetic relationship between those who happen to live in the town and those who live on the land must have a magnificent future before it.

They Hadn't Heard the Bell

A salesman who had been working a small midwestern town wished to catch a train which passed through it about half an hour before noon, and asked the village landlord to serve him before the regular dinner hour. Soon he was admitted to the dining-room, where a fairly good meal was spread before him. But flies were so numerous that the landlord had to stand behind his chair and shoo them with a napkin. "Great Scott!" exclaimed the salesman, "I never saw so many flies." "Flies!" retorted the landlord, scornfully. "Shucks! this ain't nothin'. If you want to see flies, just wait till I ring the bell for dinner. They 're all out in the stable now."

To Our Subscribers

Our Mailing Lists

have been corrected right up to Feb'y 5th, and all payments on subscription are duly credited by a change in the date on label.

The date to which subscriptions are paid is indicated by the month and figures found thereon.

If the label reads Jan 17, it is paid to Jan 1st, 1917. A label marked Jan 16 is paid to Jan 1st, 1916—and so on down. Where the figures read anything less than 17 the subscription is in arrears, and the subscriber has a little duty to perform to get right with the publisher. Do it now, and save a little money.

Look at Your Label.

$1.00 Rate will be Accepted Until March 31st.

WE do not wish to spring the increased subscription rate upon any subscribers without giving ample time to pay up to the end of 1916 at the old rate of $1 per year. Therefore we have decided to defer enforcement of the new rate until March 31st.

Why "Anuric" is an INSURANCE Against Sudden Death.

Before an Insurance Company will take a risk on your life the examining physician will test the urine and report whether you are a good risk. When your kidneys get sluggish and clogged, you suffer from backache, sick-headache, dizzy spells, or the twinges and pains of lumbago, rheumatism and gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed two or three times a night. This is the time you should consult some physician of wide experience—such as Dr. Pierce of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Send him 10 cents for sample package of his new discovery, "Anuric." Write him your symptoms and send a sample of urine for test. Experience has taught Dr. Pierce that "Anuric" is the most powerful agent in dissolving uric acid, as hot water melts sugar; besides being absolutely harmless it is endowed with other properties, for it preserves the kidneys in a healthy condition by thoroughly cleansing them. Being so many times more active than lithia, it clears the heart valves of any sandy substances which may clog them and checks the degeneration of the blood-vessels, as well as regulating blood pressure. "Anuric" is a regular insurance and life-saver for all big meat eaters and those who deposit lime-salts in their joints. Ask the druggist for "Anuric" put up by Dr. Pierce, in 50-cent packages.

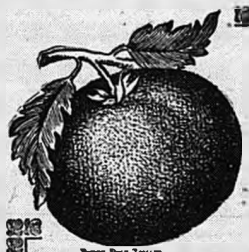
STRENGTH AND BEAUTY

Come with Dr. Pierce's Golden Medical Discovery. This is a blood cleanser and alterative that starts the liver and stomach into vigorous action. It thus assists the body to manufacture rich red blood which feeds the heart, nerves, brain, and organs of the body. The organs work smoothly like machinery running in oil. You feel clean, strong and strenuous instead of tired, weak and faint.

A Woman's Problem

How to Feel Well During Middle Life Told by Three Women Who Learned from Experience.

The Change of Life is a most critical period of a woman's existence, and neglect of health at this time invites disease and pain. Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Read these letters:—



Philadelphia, Pa.—"I started the Change of Life five years ago. I always had a headache and backache with bearing down pains and I would have heat flashes very bad at times with dizzy spells and nervous feelings. After taking Lydia E. Pinkham's Vegetable Compound I feel like a new person and am in better health and no more troubled with the aches and pains I had before I took your wonderful remedy. I recommend it to my friends for I cannot praise it enough."—Mrs. Margaret Grassman, 750 N. Ringgold St., Philadelphia, Pa.

Beverly, Mass.—"I took Lydia E. Pinkham's Vegetable Compound, for nervousness and dyspepsia, when I was going through the Change of Life. I found it very helpful and I have always spoken of it to other women who suffer as I did and have had them try it and they also have received good results from it."—Mrs. George A. Dunbar, 17 Roundy St., Beverly, Mass.

Erie, Pa.—"I was in poor health when the Change of Life started with me and I took Lydia E. Pinkham's Vegetable Compound, or I think I should not have got over it as easy as I did. Even now if I do not feel good I take the Compound and it restores me in a short time. I will praise your remedies to every woman for it may help them as it has me."—Mrs. E. Kiesling, 931 East 24th St., Erie, Pa.

No other medicine has been so successful in relieving woman's suffering as has Lydia E. Pinkham's Vegetable Compound. Women may receive free and helpful advice by writing the Lydia E. Pinkham Medicine Co., Lynn, Mass. Such letters are received and answered by women only and held in strict confidence.

Byron Pink Tomato

FREE

A post card addressed to us as below, with your name and address only on the other side, will cost but one cent. Drop it in the nearest mail box, and it will bring promptly a copy of our illustrated 80-page catalogue for 1916. With it will come also—free—a 15c packet of

Byron Pink Tomato

A perfectly formed tomato, the Byron Pink is uniform, large, and attractive. The flesh is firm, and the flavor delicious and full-bodied. It is a robust grower and a heavy cropper. It is an ideal tomato for forcing. You are going to buy seeds anyway; then you might just as well send for our catalogue and get this free premium for yourself.

The Catalogue tells about the other valuable premiums which we give with every order.

Also in dentistry, expert mouth and horse certificates for exportation. Has special treatment for milk fever. Office and residence ...se opposite the old Northern Hotel.

THE Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER VII

A short time ago, Saxon had felt stronger than all the forces of fate. He had believed that circumstances were plastic and man invincible. Now, as he bent forward in his chair, the South American letter hanging in limp fingers and the coal-oil lamp on the table throwing its circle of light on the foreign post-mark and stamp of the envelope, he realized that the battle was on. The forces of which he had been contemptuous were to engage him at once, with no breathing space before the combat. Viewing it all in this light, he felt the qualms of a general who encounters an aggressive enemy before his line is drawn and his battle front arranged.

He had so entirely persuaded himself that his duty was clear and that he must not speak to the girl of love that how, when he had done so, his entire plan of campaign must be revised, and new problems must be considered. When he had been swept away on the tide that carried him to an avowal, it had been with the vague sense of realization that, if he spoke at all, he must tell the whole story. He had not done so, and now came a new question: Had he the right to tell the story until, in so far as possible he had probed its mystery? Suppose his worst fears proved themselves. The certainty would be little harder to confess than the presumption and the suspense. Suppose, on the other hand, the fighting chance to which every man clings should, after all, acquit him? Would it not be needless cruelty to inflict on her the fears that harried his own thoughts? Must he not try to first arm himself with a definite report for, or against, himself? After all, he argued weakly, or perhaps it was the devil's advocate that whispered the insidious counsel, there might be a mistake. The man of Ribero's story might still be some one else. Surely, he had not been the embezzler, the libertine, the assassin! But, in answer to that argument, his coldeg logic contended there might have been to his present Dr. Jekyll a Mr. Hyde of the past. The letter he held in his hand of course meant nothing more than that Ribaro had talked to some one. It might be merely the fault of some idle gossip in a Latin-American cafe, when the claret flowed too freely. The writer, this unknown "H. S. K." had probably taken Ribero's testimony at its face value. Then, out of the page arose insistently the one sentence that did mean something more, the new link in a chain of definite conclusion. "Since you best it to God's Country and went West—" That was the new evidence this anonymous witness had contributed. He had certaintly gone West!

Assuredly, he must go to South America, and prosecute himself. To do this meant to thrust himself into a situation that held a hundred chances, but there was no one else who could determine it for him. It was not merely a matter of collecting and sifting evidence. It was also a test of subjecting his dormant memory to the stimulus of place and sights and sounds and smells. When he stood at the spot where Carter had faced his executioners, surely, if he were Carter, he would awaken to self-recognition. He would slip away on some pretext, and try out the issue, and then, when he spoke to Dunka, he could speak in definite terms. And if he were the culprit? The question came back as surely as the pendulum swings to the bottom of the arc, and rested at the hideous conviction that he must be the malefactor.

Then, Saxon rose and paced the floor, his hand convulsively crushing the letter into a crumpled wad.

Well, he would not come back! If that were his world, he would not re-enter it. He was willing to try himself—to be his own prosecutor, but, if the thing spelled a sentence of disgrace he reserved the right to be also his own executioner.

Then, the devil's advocate again whispered seductively into his perplexity.

Suppose he went and tested the environment, searching conscience and memory — and suppose no monitor gave him an answer. Would he not then have the right to assume his innocence? Would he not have the right to feel certain that his memory so stimulated and still inactive, was not only sleeping, but dead? Would he not be justified in dismissing the fear of a future awakening, and, as Steele had suggested, in going forward in the person of Robert A. Saxon abandoning the past as completely as he had perhaps abandoned previous incarnation?

So, for the time, he stilled his fears, and under his brush the canvases became more wonderful than they had ever been. He had Dunka at his side, not only in the old intimacy, but in the new and more wonderful intimacy that had come of her stricken, weighed love. He would finish the half dozen pictures needed to complete the consignment for the Eastern and European exhibits, then he would start on his journey.

A week later, Saxon took Dunka to a dance at the club-house on the top of the hills of the ridge, and, after she had tired of dancing, they had gone to a point where the brow of the knob ran out to a jutting promontory of rock. It was a cape in the dim sea of night mist which hung upon, and shrouded, the flats below. Beyond the reaches of silver gray, the more distant hills rose in mystic shadow-shapes of deep cobalt. There were stars overhead, but they were pale in the whiter light of the moon, and all the world was painted, as the moon will paint it, in silvers and blues.

Back of them was the softened waltz-music that drifted from the club-house and the bright patches of color where the Chinese lanterns swung among the trees.

As they talked, the man felt with renewed force that the girl had given him her love in the wonderful way of one who gives but once, and gives all without stint or reserve. It was as though she had presented him unconditionally with the key to the archives of her heart, and made him possessor of the unspent wealth of all the years.

Suddenly, he realized that his plan of leaving her without explanation, on a quest that might permit no return, was meeting her gift with half-confidence and deception. What he did with himself now, he did with her property. He was not at liberty to act without her full understanding and sympathy in his undertakings. The plan was one of infinite brutality.

He must tell her everything, and then go. He struck a match for his cigar, to give himself a moment of arranging his words, and, as he stood shielding the light against a faintly stirring breeze, the miniature glare fell on her delicately chiseled lips and nose and chin. Her expression made him hesitate. She was very young, very innocently childlike and very happy. To tell her now would be like spoiling a little girls' party. It must be told soon, but not while the dance music was still in their ears and the waxy smell of the dance candles in their nostrils.

When he left her at Horton House, he did not at once return to the cabin. He wanted the open skies for his thoughts, and there was no hope of sleep.

He retraced his steps from the road and wandered into the old-fashioned garden. At last, he halted by the seat where he had posed her for the portrait. The moon was sinking, and the shadows of the garden wall and trees and shrubs fell in long, fantastic angles across the silvered earth. The house itself was dark except where the panes of her window still glowed. Standing between the tall stalks of the hollyhocks, he held his watch up to the moon. It was half-past two o'clock.

Then, he looked up and started with surprise as he saw her standing in the path before him. At first, he thought that his imagination had projected her there. Since she had left him at the stairs, the picture she had made, in her white gown and red roses had been vividly permanent, though she herself had gone.

But, now her voice was real.

"Do you prowl under my windows all night, kind sir?" she laughed happily. "I believe you must be almost as much in love as I am."

The man reached forward, and seized her hand.

"It's morning," he said. "What are you doing here?"

"I couldn't sleep," she assured him. Then, she added serenely: "Do you suppose that the moon shines like this every night, or that I can always expect times like these? You know," she she taunted, "it is so hard to get you to admit that you cared that it was an achievement. I must be appreciative, mustn't I? You are altogether reserved and cautious person."

He seized her in his arms with neither reserve nor caution.

"Listen," he said in an impassioned voice, "I have no right to touch you. In five minutes, you will probably not even let me speak to you. I had no right to speak. I had no right to tell you that I loved you!"

She did not draw away. She only looked into his eyes very solemnly.

"You had no right?" she repeated in a bewildered voice. "Don't you love me?"

"You don't have to ask that," he avowed. "You know it. Your own heart can answer such questions."

"Then," she decreed with womanlike philosophy, "you had a right to say so —because I love you, and that is settled."

"No," he expostulated, "I tell you I did not have the right. You must forget it. You must forget everything." He was talking with mad impetuosity. "It is too late," she said simply. "Forget!" There was an indignant ring in her words. "Do you think that I could forget—or that, if I could, I would? Do you thing it is a thing that happens every day?"

From a tree at the fence line came the softly lamenting note of a small owl, and across the fields the strident shriek of a lumbering night freight.

To Saxon's ears, the inconsequential sounds came with a painful distinctness. It was only his own voice that seemed to him muffled in a confusion of roaring noises. His lips were so dry that he had to moisten them with his tongue.

To hesitate, to temporize, even to soften his recital, would mean another failure in the telling of it. He must plunge in after his old method of directness, even brutality, without preface or palliation.

Here, at all events, brutality were best. If his story appalled and repelled her, it would be the blow that would free her from the thraldom of the love he had unfairly stolen. If she turned from him with loathing, at least anger would hurt less than heartbreak.

"Dou you remember the story Ribero so graphically told of the filibuster and assassin and the firing squad in the plaza?" As he spoke Saxon knew with a nauseating sense of certainty that his brain had never really doubted his identity. He had futilely argued with himself, but it was only his eagerness of wish that had kept clamoring concerning the possibility of a favorable solution. All the while, his reason had convicted him. Now, as he spoke, he felt sure, as though he could really remember, and he felt also his unworthiness to speak to her, as though it were not Saxon, but Carter, who held her in his arms. He suddenly stepped back and held her away at arms' length as though he, Saxon, were snatching her from the embrace of the other man, Carter. Then he heard her murmuring:

"And did you notice his look of astonishment when I came. Did you catch the covert innuendoes as he talked—the fact that he talked at me—that he was accusing me—my God! recognizing me?"

The girl put up her hands, and brushed the hair back from her forehead. She shook her head as though to shake off some cloud of bewilderment and awaken herself from the shock of a night mare. She stood so undeadily that the man took her arm, and led her to the bench against the wall. There, she sank down with her face in her hands. It seemed a century, but, when she looked up again, her face, despite its pallor in the moonlight, was the face of one seeking excuses for one she loves, one trying to make the impossible jibe with fact.

SIR BRYAN MAHON.

A Fine, Dashing Soldier of Fifty-three With Good Record.

A Mahout is a person who, by the aid of a small sharp spike, controls an apparently unwieldy and unintelligent bulk, and it may be that this fine soldier earned this sobriquet in the service for a somewhat similar attribute. General Sir Bryan Mahon, who is in command of the British forces in Saloniki, is called by that name in the army.

Sir Bryan Mahon is only 53, and is therefore, one of the "young" generals. He has been a cavalryman all his service, and first went into the 8th Hussars when he was 23. He was not long in obtaining his baptism of fire, as things went in those piping times of peace, for when the Khalifa first began to proclaim himself as the reincarnation of the prophet's first lieutenant, he went to Egypt. This was in 1896.

In the Dongola show he got a D.S.O., and in the fighting that followed higher up the Blue Nile, Atbara, Omdurman, and Khartoum, where K.

General Mahon.

finally brought the Khalifa to book, he got a first brevet lieutenant-colonelcy and later on a brevet colonelcy and the Order of the Fourth Class of the Osmanieh. Lord Kitchener has always known what a good man Sir Bryan is, and so when the South African war broke out he was safe for a command. He got a cavalry brigade, and after tronje had been smashed at Paardeberg and Sir John French had galloped his cavalry's tails off in that melodramatic expedition to Kimberley, Sir Bryan set out to drive the Dutchman away from Mafeking. "R.-P." and his gallant friends in the little Transvaal town were hard pressed and on short commons when "The Mahout" turned up to relieve the pressure.

When in India, to which land he went back after South Africa, Sir Bryan commanded the 8th Lucknow Division.

Parenthetically, "The Mahout" is a very fine bridge player and a tremendous consumer of cigarettes, and if anyone in our army is ever going to smoke one in the Yildiz Kiosk it will be he.

BEDS MADE OF PAPER

Latest Luxury in Germany "Where All Goes Well."

Luxury succeeds luxury in "that Germany, where, as the Imperial the people, everything continues to go well. The newest delight for those possessing people, according to the Munich Medical Journal, is paper beds, with paper sheets and pillow cases:—

Material for matresses and bedding has reached such a fanciful price as to make it unattainable to most sections of the people. Necessity, however, has brought forth the right man. Dr. Bergengrun has now discovered that excellent bedding and matresses can be made from sheets of paper well pasted together and filled with tree leaves.

Very favorable opinions are also expressed as to the value of paper bed sheets and pillow cases, which are as easily available as the, paper matresses.

But may the German Michael defend the unhappy son of the Fatherland, remarks the London Daily' express, who is compelled by free necessity to sleep between the Hamburger Nachrichten and the Deutche Tageseitung!

The Virtue of the Natural Leaf
is perfectly preserved in the sealed
"SALADA" B104
packet. Young tender leaves only, grown with utmost care and with flavour as the prime object, are used to produce the famous Salada blends.

PRACTICAL FARMING

What a 100 Acre Farm Should Produce.

Previous to receiving your letter I had read the article in your December 31st issue, and I would offer the following criticisms of the conditions of affairs on this one hundred acre farm. Perhaps you will not agree with me in every point, but I certainly think that, with the limited knowledge which I have regarding this proposition, the criticisms are justified, writes Mr. E. S. Archibald, Dominion Animal Husbandman in Canadian Farmer.

A hundred acre farm of good character soil should be producing a great deal more than this hundred acres mentioned. In looking over the statement one finds that the live stock kept amounts to only 4 horses, 7 milch cows, 12 head of young cows, 15 pigs of all ages, and 20 ewes; yet in the accounts one notices items for the purchase of hay, 5 or 6 tons; straw, 1 to 2 tons, and chop for cattle and pig feed amounting to over $70, with a total for feed purchased of $177.25. A hundred acre farm should produce average crops approximately as follows:—

10 acres of corn ensilage.....150 tons
8 acres of potatoes and turnips and mangels, say 900 bushels of potatoes and 1,200 bushels of turnips and mangels.
5 acres of peas .....100 bushels
5 acres of wheat .....200 bushels
15 acres of oats or mixed oats and barley 900 bushels.
20 acres of hay .....40 tons
15 acres of rough land and bush.
20 acres of pasture.
4 acres of building sites, roadways, lawn, orchard, etc.

This is a rough calculation which, of course, would be varied depending upon the layout of the farm, the character of the soil, and the character of farming carried on. Many hundred acre farms in Western Ontario produce a great deal more than above estimated. This foodstuff would be sufficient to feed at least twice the number of live stock maintained thereon.

Either the hundred acre farm mentioned is very poorly farmed or the soil must be in a very poor state of fertility, and needs very radical steps in improvement. A hundred acre farm which is not capable of providing hay, grain, and other feeds for the small number of live stock carried thereon could not be profitable.

One notices in looking over the statement that two men are maintained on this farm, and considering the feeds raised there is far from sufficient labor to keep two men busy, especially during the winter months, with the small number of live stock which is being kept. Aside from this, one notices the special charges for cleaning well, sawing wood, and the like, which might be easily done by these men.

Again, one notices such items as $30 for the grazing of cattle. If this hundred acre farm cannot produce 35 tons of hay and provide sufficient pasture for the 7 milch cows and 12 head of young stock, it must be most unprofitable. Again, one notices that four 2-year-olds should have weighed at least 1,000 pounds each, which means that they were sold at only 5 cents per pound live weight. Probably they were worth no more, but had they been properly finished they might easily have sold for two to three cents more per pound live weight. The ridiculous part of the meat question is that the four 2-year-old steers did not produce as much income as was expended on the household for the butcher bills.

Again, the seven cows produced approximately 0 gallons of cream and 46 pounds of butter per cow, or a total of approximately 70 pounds of butter per cow. The cow which does not produce 300 pounds of butter per annum on a hundred acre farm valued at $100 per acre is a losing proposition.

Generally speaking, this hundred acre farm is not producing either in field crops or in manufactured products, namely, beef, pork, and dairy products, one-quarter of the amount which it should. However, in this statement one notices that improvements to the fields, etc., if such were made, are not credited; also that improvements in the stock, if such were made, are not credited. One also notices that the twenty ewes have produced no income either in lamb, mutton or wood.

Generally speaking, the following suggestions for the immediate improvement of conditions might be made:—

1. To increase the production of the farm two, three or four times, as soon as possible, by a good system of rotation, better tillage method, and probably better selection of crops, together with manuring, etc. Details of this phase of the work may be had free upon application to the Field Husbandry Division, Central Experimental Farm, Ottawa.

2. To increase the production of the live stock on the farm. If these cows cannot produce, by the best commercial feeding methods, more than they did during the past year, they had better be sold immediately and replaced by cows which can show a profit. If the feeding methods are faulty, these should be improved immediately so that the cows may have an opportunity to prove their worth. This also applies to the handling of the pigs and the sheep.

3. The cash incomes from this farm must be increased two or three times. The present income is out of all proportion to the necessary expenditures and also to the large amount of labor which is being maintained. There is sufficient labor on this farm to produce a cash income from the stock and also from the fields of at least five times the present income. Generally speaking, the expenditures seem to be very fair for a farm of this size, especially where improvements are being made, with the exception of the items for the purchase of feeds and for the grazing of stock, which certainly appear unnecessary, considering the limited stock maintained.

AFTER MEALS

When digestion fails, whether from loss of tone, climatic changes, overwork, or errors of diet, nothing so soon restores tone and healthy activity to the digestive system as the root and herb extract—Mother Seigel's Syrup. If tones and clears the system of the decayed products of Indigestion—the fruitful cause of headaches,

TAKE THE DIGESTIVE TONIC

languor, acidity, heartburn, flatulence, brain fag, and biliousness. It makes food nourish you, and thus builds health on good digestion.

MOTHER SEIGEL'S SYRUP.

The usual 60 size contains three times as much as the trial size sold at 25c per bottle.

PINK EYE

DISTEMPER CATARRHAL FEVER AND ALL RUNS AND THROAT DISEASES

Cures the sick and acts as a preventative for others. Liquid given on the tongue. Safe for breed mares and all others. Best kidney remedy. Sold by all druggists and turf goods houses, or sent, express paid, by the manufacturers. Booklet, "Distemper, Cause and Cure," free.

SPOHN MEDICAL CO.,
Chemists and Bacteriologists. Goshen, Ind., U.S.A.

TONIC TREATMENT FOR THE STOMACH

The Modern Method is Most Successful in Treating Indigestion

The old-fashioned method of treating indigestion and stomach troubles are being discarded. The trouble with the old-fashioned method was that when the treatment was stopped the trouble returned in an aggravated form. The modern method of curing indigestion and other stomach troubles is to tone up the stomach to do nature's work. Every step toward recovery is a step gained, not to be lost again. The recovery of the appetite, the disappearance of pain, the absence of gas,—are all steps on the road to health that those who have tried the tonic treatment remember distinctly. Dr. Williams' Pink Pills are a blood-builder, tonic medicine, every constituent of which is helpful in building up the digestive organs, and is therefore the very best remedy for chronic cases of stomach trouble. Thousands of cases like the following prove how successful this treatment is:—Miss Amy Browning, Cornith, Ont., says:—"I have found such great benefit from Dr. Williams' Pink Pills that I would be ungrateful if I did not publicaly say a good word in their favor. I was badly run down and my stomach was in a very bad condition. All food distressed me, and left me distinclined to eat. I suffered from nausea and dizziness and frequent sick headache, and this was further aggravated by pains in the back and sides. I was in this condition for several years, and although I had got medicine from several doctors it did not help me. Then I heard of Dr. Williams' Pink Pills and began taking them. I am glad to say that they soon helped me, and now I am as well as ever; can eat all kinds of food with relish, and have not an ache or pain."

You can get these Pills through any dealer in medicine or by mail, post paid, at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

DEARTH OF SERVANTS.

London Girls Forsake Domestic Work For Places Vacated by Men.

As these months of war time pass one cannot fail to notice how women in London are steadily giving up the domestic side of life, the sphere of work to which they are particularly well suited, and in ever increasing numbers are seeking employment along totally different lines, says a London letter.

The problems of domestic service become more acute every day. Wages are raised, every inducement is offered, but the women and girls deliberately shun such posts. The dearth of servants is a question that requires looking into, and one finds that on all sides girls are leaving good homes, where they are well paid, well fed and well housed, to take positions that, though apparently attractive, really entail far harder work and many disadvantages.

HOW YOU MAY THROW AWAY YOUR GLASSES

The statement is made that thousands wear eyeglasses who do not really need them. If you are one of these unfortunates, then these glasses may be ruining your eyes instead of helping them. Thousands who wear these "windows" may prove for themselves that they can dispense with glasses if they will get the following prescription filled at once: Go to any active drug store and get a bottle of Bon-Opto tablets; fill a two-ounce bottle with warm water and drop in one Bon-Opto tablet. With this harmless liquid solution bathe the eyes two to four times daily, and you are likely to be astonished at the results right from the start. Many who have been told that they have astigmatism, eye-strain, cataract, sore eyelids, weak eyes, conjunctivitis and other eye disorders, report wonderful benefit from the use of this prescription. Get this prescription filled and see if you may so strengthen your eyes that glasses will not be necessary. Thousands who are blind, or nearly so, or who wear glasses might never have required them if they had cared for their eyes in time. Keep your eyes before it is too late! Do not become one of these victims of neglect. Eyeglasses are only crutches and every few years they must be changed to fit the ever-increasing weakened condition. So better see to it that you, like many others, get clear, healthy, strong, magnetic eyes through the prescription here given. If your own druggist can not fill this prescription, send it to the Vaimas Drug Co., Toronto, for a complete Bon-Opto Home Treatment outfit—tablets and all.

Nothing Lost.

Hobson—My wife never wastes anything.

Dobson—No?

Hobson—No. If it's edible, it goes into the hash; and if it isn't, it will do to trim a hat!

Minard's Liniment Cur Diphtheria.

True.

Though misery loves company
I notice all the while
That company is fonder of

POLITE PERSONALITIES.

Genial Gossip About Some Well-Known People.

General Smith-Dorian is called "Smithy" by his soldiers.

Prince Arthur of Connaught is named after the Duke of Wellington.

How many Cabinet Ministers have been down a coal-mine? At least, one. Mr. McKenna, when he was Home Secretary, descended one of the pits at the Atherton Colleries in order to inspect the arrangements for the safety and convenience of miners.

His mind still directed on war inventions, Sir Hiram Maxim, in his South London experimental workshop, is an interesting figure. Like all inventors, he has had a lot to put up with. Twenty years ago, when he began experimenting with flying-machines, people declared that his reputation was ruined for life, as he was essaying the impossible.

When Lord Haldane was at the War Office he was "chipped" about the number of recruits for the Regular Army, otherwise qualified, who were rejected for cause of defective teeth. His answer was that he would be sorry to undertake the daily care of the teeth of the Army. In the present war dentists are kept working seven days a week to get intending recruits' teeth right.

Vedrines, the amazing French Aviator, is achieving fine things against the Germans, and small wonder, for no passion is stronger in him than hatred of the Huns. This hatred is nothing new; he felt it long before the war. Once, when the world was at peace, Veldrines flew over German territory. "And," he says, "when I was a few kilometers up, I looked down upon Germany, and spat upon her—not once, but three times!"

Mr. Rudyard Kipling, is a great Imperialist, and often "talked Empire" with his old friends, Cecil Rhodes, in former days. He differed from his friend, however, in being an early riser, and one morning when he was staying at the South African magnate's house, he had to wait hungrily hour after hour for his morning meal. When Cecil Rhodes eventually got up, it was to find every tree in the garden plastered with the legend: "I—want—my—breakfast—Kipling."

STORMY WEATHER HARD ON BABY

The stormy, blustery weather which we have during February and March is extremely hard on children. Conditions make it necessary for the mother to keep them in the house. They are often confined to over-heated, badly ventilated rooms and catch colds which racks their whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will not fail to break up colds and keep the health of the baby in good condition till the brighter days come along. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

NARROW ESCAPES.

Saved From Death in Baltic by a Cigarette Case.

"One bullet went clean through my pocket, struck my notebook, and stayed there. I have it still. It was my first hit, and so I have kept it as a souvenir." Thus wrote an officer from Flanders some time ago and the incident is typical of many occasions when men have been saved from death and disablement by some object they were carrying about their person.

Not very long ago, a private in the 4th East Yorkshire Regiment was saved from death by a cigarette case over his heart. The missile lodged in the inner cover of the case, and the cigarettes were badly damaged, but no other harm was done. A Lancashire soldier was also saved by a cigarette-tin and a penny in his breast pocket.

Bishop Taylor Smith tells how a captain in the Coldstreams was wounded by a shell. When he was examined the doctors found a Bible in his hip pocket. The piece of the shell had struck the Bible and gone through the pages. Had it not been for the Bible the officer's spine would have been shattered. Curiously enough, the missile had stopped at the ninety-first Psalm, and the officer's father, who had given him the Bible, had written a verse from that Psalm on the fly-leaf.

Shaving-soap, tobacco-pouches, letter-cases and books of all descriptions have saved the lives of many soldiers, but the most extraordinary lifesaver was a mouth-organ which was smashed to pieces by a bullet as it rested in the left breast pocket of Private Keighley, a Canadian. It was found afterwards that the mouth-organ bore the legend, "Made in Germany."

For One-Armed War Veterans.

For the use of one-armed war veterans there has appeared on the market in London a combination knife and fork. The knife is at one end of the handle, so that the crippled soldier may cut his meat. At the other end of the handle is affixed the fork. The user merely turns the instrument around when he gets ready to convey the food to his mouth.

When you lose money and gain wisdom, the loss is your gain.

A POWERFUL LAMP.

Will Likely Be Used on the Battle-field of Europe.

Edison's latest lamp is perhaps a bit too bulky for use in the ordinary home, but it is calculated to be very popular on the battlefield of Europe, for it confesses to harboring 3,000,000 candle power.

Every known means has been employed by the warring nations to turn night into day. Skyrockets, floating white lights, fires and immense searchlights have been used to guard against surprise. In many cases the searchlights used were so bulky that they had to be transported on heavy wagons, together with large generators of electricity. The roads were not built to stand much heavy traffic and often the lights were lost when they became mired.

Edison has employed a small and simple carriage for the transporting of his lamp. It is supplied with electricity from his famous improved storage batteries. These batteries will give the lamp a greater power than that now boasted by any of the searchlights in use in the English and French armies. It is claimed that the new lamp is light enough to be carried aloft in an airship.

Dr. Jackson's Roman Meal Pancakes a Digestible Delicacy.

and golike ordinary pancakes are a really valuable food. Because of their granular character they will not disorder digestion or ferment. They may be safely fed to a baby. Roman Meal also makes most delicious porridge, gems, muffins, steam pudding, bread, etc. All may be eaten hot without fear of distress. All nourish better than meat and positively relieve constipation or money refunded. At your grocers', 10 and 25 cents a package.

BITS ABOUT BEASTS

They All Have Their Own Little Peculiarities.

You think you know something about animals, eh? Well, let us put your knowledge to a few simple tests.

Frogs, to begin with. Can they breathe with their mouths shut? Certainly they can. As a matter of fact, they always do. If they kept their mouths open, they would suffocate.

Next, hares. When do they close their eyes? Answer, never. You see, they havn't any eyelids, so they can't. But they have a thin membrane, which performs the service of eyelids when they are asleep.

Are pigs good swimmers? No—shocking bad! Their forelegs are the trouble, being set too closely under them for aquatic sports.

What is the color of a horse's eyebrows? That's a difficult one. Think hard, and then learn that a horse hasn't any eyebrows.

You may like to know, in addition, that turtles and tortoises have no teeth; that parrots, unlike the majority of birds, can move both mandibles of their beaks; and that fishes never masticate. They simply haven't time between breaths. But perhaps you know that the zig-zac is about the only kind of bird a crocodile does not relish for its supper.

Still It Was Fatal.

"What did your father die of?" the doctor asked an Atchison negro who was being examined for life insurance.

"Ah don't know, boss," he replied, "but it wasn't nothing serious."

A GOOD CHANGE.

A Change of Food Works Wonders.

Wrong food and drink cause a lot of trouble in this world. To change is first aid when a person is ill, particularly from stomach and nervous troubles. As an illustration: A lady was brought around to health again by leaving off coffee (Tea is just as injurious because it contains caffeine, the drug found in coffee) and some articles of food that did not agree with her.

She says:

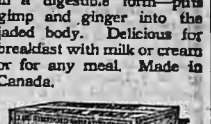
"For a number of years I suffered with stomach and bowel trouble which kept getting worse until I was ill most of the time. About four years ago I left off coffee and began using Postum. My stomach and bowels improved right along, but I was so reduced in flesh and so, nervous that the least thing would overcome me.

"Then I changed my food and began using Grape-Nuts in addition to Postum. I lived on these two principally for about a month. Day by day I gained in flesh and strength until the nervous trouble had disappeared. I feel that I owe my health to Postum and Grape-Nuts.

"Husband was troubled, for a long time, with occasional cramps, and slept badly. Finally I prevailed upon him to leave off coffee and take Postum. After he tried Postum for a few days he found that he could sleep and that his cramps disappeared. He never went back to coffee." Name given by Canadian Postum Co., Windsor, Ont.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c packages.



Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

A Million Mothers behind the purest, cleanest, most nutritious of all cereal foods—Shredded Wheat. They have tested it and found it best for youngsters, best for grown-ups—a food to work on, to play on, to think on. Contains the life of the wheat in a digestible form—puts ginger and ginger into the jaded body. Delicious for breakfast with milk or cream or for any meal. Made in Canada.

55 FRENCH GENERALS KILLED.

List of Paris Notables on Honor Roll of Professional Men.

Tout Paris, which is a combined French Blue Book and directory, gives in its 1910 edition, just issued, a list of Paris notables who have "died for their country." In this list are names well known in politics, literature science, the arts, the bar and high officials and officers of the army. The roll call, as it is called, totals 3,084 persons, all of whose names are printed in bold-face type.

The honor list is based on information furnished by the families of the victims. It includes the names of 55 generals, 91 colonels and 155 lieutenant-colonels. Among the professions the civil engineers had the largest number of dead, totalling 133. The lawyers came next with 110. Other professions listed are: Men of letters, 82; artists, 53; Catholic clergy, 28; Protestants, 3; architects, 20; actors and singers, 18; doctors, 13; Diplomatic Corps, 8; sculptors, 10; composers and musicians, 4; the Institute of France, 1; judges, 1; inspectors of finance, 7; notaries, 5; and brokers, 2. The select clubs of all kinds in Paris lost a total of 338, including a number of titled persons.

Stopped in Time.

"Yes," said the young singer, complacently, "I had a great reception after my song last night. The audience shouted 'Fine! Fine!'"

"Good thing you didn't sing again," said the cynic.

"Why, what do you mean?"

"They would have yelled 'Imprisonment!' the next time."

Rubber Famine in Germany.

Rubber is worth more than its weight in gold to Germany. There is no other substance more in demand and harder to get. It is necessary in the manufacture of war munitions as well as in the thousand and one articles in everyday life. The fact that there are practically no rubber-tired vehicles now sows how great is the rubber famine in Germany.

HAVE YOU ECZEMA?

Would you like to end that terrible itching, that burning pain; to heal those horrid sores?

You have tried all sorts of fatty ointments, lotions and powders. Put them aside now and give Nature a chance as represented by Zam-Buk.

Zam-Buk is made from herbal essences; is a natural healer. Is not something you have to send to the end of the world for, and pay a heavy price! Every druggist will sell you Zam-Buk and for 50c. only. Just give it a fair trial and incidently give yourself ease by the quickest route. See name on box:—

HOW EXPLOSIVES KILL

Awful Effects of the French Shrapnel Shells.

It will be recalled that on the morrow of the battle of the Marne returned combatants related strange stories of the aspect of certain German unwounded corpses, says London Tit-Bits. Death as seen so instantaneous that the bodies remained in a lifelike posture, some shouldering a rifle, others pipe in mouth. In a communication made to the Academy of Medicine, M. Rene Arnoux asserts that the phenomena was due to the efficacy of the French explosives. Within a 15-yard radius of the point where the shell explodes the displacement of the air is so intense as to destroy the equilibrium of pressure on the interior and exterior of the human body. The gas contained in the blood is thus liberated, causes a distension of the blood vessels and arteries, and, ultimately bursting those organs, induces sudden death. This argument is confirmed by the state of the bodies, which often showed the heart and liver greatly distended and numerous internal hemorrhages.

When the Grave Yawned for Him

Sandy Goulette Took Dodd's Kidney Pills for Bright's Disease.

Now He Can Do His Days Work As Well As He Could Ten Years Ago—Offers Proof Of His Statement.

Old Fort Bay, Labradore, Que.—Feb. 14th, (Special.)—Cured of Bright's Disease when the grave yawned before him, Sandy Goulette, an old settler here, wants all the world to know that he owes his life to Dodd's Kidney Pills.

"I was swollen out of shape from head to foot. I was so short of breath I could hardly speak," Mr. Goulette states. "The doctor could do nothing for me. The minister gave me the holy sacrament and a good old priest came and told me that I could not live much longer.

"I was sick all winter and in the spring. I telegraphed two hundred miles for two boxes of Dodd's Kidney Pills. I took three pills the night they came and I got relief before morning. I took Dodd's Kidney Pills and they cured me.

"If anyone doubts this statement they can write me and I will give them names of people who know me and who will vouch for me. I am able to do my day's work as well now as I could ten years ago."

Dodd's Kidney Pills are no cure-all. They simply cure the Kidneys.

Of course, no bachelor likes being roasted, yet it is no more uncomfortable than being married and kept in hot water.

Fairville, Sept. 30, 1902.
Minard's Liniment Co., Limited.
Dear Sirs,—We wish to inform you that we consider your MINARD'S LINIMENT a very superior article, and we use it as a sure relief for sore throat and chest. When I tell you I would not be without it if the price was one dollar a bottle, I mean it.
Yours truly,
CHAS. F. TILTON

Persian Grain.

The great arid wastes of Persia would lead one to believe that the country does not produce sufficient grain to supply the needs of its population. Such, however, is not the case, and considerable quantities of grain are exported each year. The principal grains grown are wheat, barley and rice. Corn is planted in small quantities, but is only used for roasting ears. Oats and rye are seldom sown. Except along the Caspian coast Persian agriculture is dependent almost entirely on irrigation. The agricultural implements used in Persia are of the most primitive kind. Plows are made from forks of small tree with the addition of a share of iron. It is stated to be doubtful, however, whether the yield of grain would be greatly increased by using modern plows, as there is no sod and this crude implement seems to stir the soil fairly well.

A Dainty Touch.

"And her mann husband thinks she's extravagant."

"Why?"

"Just because she insists on having Fido's monogram stamped on his dog biscuits."

Minard's Liniment Cures Garget in Cows

Bradford's New Distinction.

Bradford, the famous centre of Britain's woolen industry, is quite elated over the discovery that in Boiling Hall, the famous mansion on the outskirts of the city that was recently turned into a municipal museum of antiquities, it possesses the ancestral home of Mrs. Woodrow Wilson, wife of the President of the United States. For Bradford is pretty certain that this will mean a rush of American visitors after the war is over, and trans-atlantic sightseers, as everybody knows, are a highly profitable commodity.

Minard's Liniment Cures Colds, Etc.

Sure Proof.

Pessimist—Is he prosperous, do you think?

Optimist—Is he? Why, he owes twice what he owns.

CANTIRE

Mrs Robt Muir, of Glenaunan, is visiting her mother, Mrs Peter Reid.

The old fourth concession has responded nobly not only to the appeals of the Red Cross, but also to the appeal of the recruiting sergeant. The following young men have signed with the 160th Bruce Batt at Chesley: Jack Cass, Mal McKillop, Willie Johnston, Barney Bowie, Irwin Esson and John Woods, and Geo Fletcher who is now training at Shorncliffe.

On Friday evening last friends and neighbors to the number of fifty assembled at the Esson home to express their good will to Mr Irwin Esson, who has enlisted for overseas service. Mr A D McKay ably discharged the duties of chairman. After briefly explaining the purpose of the gathering Irwin was called to the centre of the room and presented with a complimentary address and beautiful gold ring. Although taken by surprise the guest of the evening made a suitable reply, thanking the friends for their gift which would always be cherished as a remembrance of their good will. The company amused themselves with games, music, etc, and after doing justice to the splendid lunch provided by the ladies the party dispersed wishing the young soldier a safe return. Below is the address:

DEAR FRIEND IRWIN—When we heard of your decision to enlist it was with deep regret at losing you, yet with pride in being represented by one of ourselves in the great enemy that our Dominion is raising to fight our battles on the foreign field to protect Canada from being devastated by the curse of war and cruelties of an enemy who has in other countries committed atrocities which make us shudder, and has trampled on the rights and liberties of weaker nations. With all these facts before you, you are willing to leave all those who are dear and dear to you and have responded nobly to the call to arms, not for the conquest of territory but for the righteous cause of liberty, morality and humanity, for the destruction of tyranny and militarism, and for the restoration of peace and democracy to the world. We wish to show our appreciation of your act and our feeling toward you by asking you to accept this flag as a token of our esteem, and hope some day in the not distant future, when our Canadian boys shall march victoriously home, to welcome you back to Bideaside. Our parting words to you will be to wish you Godspeed and pray that He may keep you safely. Signed on behalf of your friends and neighbors.

Donald Reid,
Alex Gowanlock,
A D McKay.

WILLISCROFT

The anniversary of Williscroft Baptist church was observed on Sunday, Feb. 20th, the services being conducted by the pastor, Rev Mr Neilson. The church was occupied to its full capacity both morning and evening. On Monday evening an oyster supper was served in the basement of the church, following which a lengthy entertainment programme was rendered in the auditorium. Addresses were given by Revs. Laugton, Howat, Bundy and Wills, also Messrs. J A McNeill, T Powell, F S McLachlan and Jas Rushton, solos by Mrs Bell, Messrs A Pfaff and T Powell, duett by Rev Mr Langton and Mr Powell; recitations by Mr C Crawford, and an anthem by the choir. The chair was occupied by Rev. Mr. Neilson.

UNDERWOOD

Miss Margaret Johnson is visiting at Mr John Drummond's, in Kincardine.

Ptes Earle Begg, Robt Nuttall, Albert Abbs, David McNaughton and Herbert Inkster started training in Tiverton on Monday.

Mr and Mrs Wm Brown, of the Boundary, visited on Sunday at Mr D McNaughton's.

Ptes Jim Thompson, Tom Palmer and Clyde McKeeman spent Sunday with friends here.

The icemen are making the most of this cold snap. Hugh McLean got his in last week, and Mr W G Cole is busy getting it up for the butter factory now.

Miss Marion McArthur is visiting at Mr John Thornburn's on the 10th con.

ELORA ROAD NORTH

Mrs Neil McArthur is spending a few days at the home of her daughter, Mrs Robt McKinnon of Dobbinton.

Mr and Mrs John S Campbell are away on a visit to their relatives in Huron county.

Mr and Mrs Dave Bryce gave a pleasant little party to their friends last week.

Mr and Mrs Donaldson, of Southampton, are staying at Mr John S Campbell's.

Mr Duncan McKinnon's sale was attended by a large crowd and almost everything was sold at a good figure.

CARGILL

Pte Alex Thompson, of the 71st Batt., spent the week end at his home here. He doesn't expect to make many more trips this way, as his battalion is one of the next to cross over to Europe.

Lou Cliff and Phil Sparling have laid off the khaki and are wearing civilian clothes again, as they were not able to pass the last medical examination. They are naturally a disappointed pair, but have the satisfaction of knowing that they have done all they could and answered the call of their country.

W. D. Cargill, M.P.P., spent over Sunday in Toronto with his family.

W. J. Loughleen returned home Saturday night after a week's absence from the village, the time being occupied in visiting the various Masonic lodges in the district, he being the D.D.G.M.

Miss Phillip, of Listowel, spent the week end with her friend Miss G. Keeling.

Three members of the Royal Bank staff here donned the khaki on Saturday last—Fred S. Kirvan, Jas Martin and Henry Young enlisting on that day. This brings the number of recruits who have enlisted here up to about thirty, and is surely going some for a little burg like this, with only 300 population.

Perhaps the Telescope scribe was wrong when he took it as a sign that, because one of our bachelors was learning to bake, he did not intend to either enlist or get married. He may be learning the art of cooking so that he can help run a field kitchen.

Canvassers were out during the past week getting signatures on a proposed mail route running from the post office here. This route will take in part of the 8th, 9th 10th and 11th of Greenock, and parts of the 5th, 6th, 7th and 8th of Brant. We understand that a goodly number over the required signatures were secured, so no doubt the route will be opened.

Ambrose Zettler, who has been assisting at the Grand Trunk depot here for a considerable time, has been transferred to Port Elgin, and gave the freight its last "high ball" here on Saturday.

Mr Shoultice, of Chepstow, is learning the harness making at Mr John Reaburn's.

One of our country stalwarts expected his damsel off the 9.36 train on Thursday night last, upon the arrival of which the two were to attend a ball at Pinkerton. As luck would have it the train was very late that night, not getting in until midnight, and when it did pull in the girl was not aboard, so not caring to go to the ball alone our youth went home and tucked himself safe beneath the quilts. Better luck next time.

Quite a number from here attended the box social and ball at Pinkerton on Thursday.

Several from here attended the Tom Marks concert in Walkerton on Wednesday and Thursday evening.

The anniversary services in the Presbyterian church here on Sunday and Monday were most successful. The weather on both days was very favorable and a goodly number were present. On Sunday Rev Geo Mason, of Harriston, a former pastor, preached two excellent sermons. A tea meeting was held on Monday evening and an entertainment immediately after this, consisting of solos, quartettes, choruses, recitations, speeches, &c.

Wm Brownscombe is the latest recruit to the 160th. Our honor roll continues to grow.

Our principal, Mr Ruttle, says that beginners wishing to enter the knowledge factory may do so on March 1st.

Flem Keyes is home on a visit from Woodstock.

EBENEZER

Miss Olive King, of Arran Lake, is visiting at Mr Delght Potts'.

Mr and Mrs Sam Rathwell are visiting at Mr Sam Fleming's.

Miss Annie Matheson, of the 12th Bruce, is visiting at Mr G Grant's.

Miss Acey Robinson, of Port Elgin, is visiting at Mr Frank Quigley's.

The young people are taking advantage of the good roads and the good ice at the new rink, and large sleigh-loads are in attendance every night. Some nights there are over 100 on the ice. On Thursday evening a hockey team, composed of soldiers of the 160th Batt of Tara, drove over and played a friendly game with the Ebenezer team. It was a very interesting game, in which neither team could get much of a lead. At half-time the score was tied. In the last half the soldiers started the scoring and the home team tied it up again in a few minutes. The score remained tied until the last five minutes, when the soldiers scored twice, the final score being 5-3 in favor of the 160th. The ladies served the players with a delicious lunch after the game.

GLAMIS

Those who took in the banquet at Tiverton for the recruits on Wednesday last were: Duncan McLennan, Mrs J K McLennan, Hector McLean.

A new family moved to our burg, that of Mr Alex McSweeney. They are living in the Tom Gordon house.

Mrs Kitchen (nee Alice McCormick) was visiting her sister, Mrs Griffith, on the 5th of Kincardine.

Miss Lizzie Ferris, of Toronto, is visiting her parents on the boundary.

Mrs Chas McKinnon has had quite a sick spell, but we are pleased to report that she is much better and able to be around again.

Born—On Feb 19th, to Mr and Mrs Alex Gilchrist, 2nd con, a son.

Fred Attoe, who visited relatives and friends here, was married on Tuesday, Feb 15th, to Miss Myrtle Crathers of Muncey, Ont. The young couple left immediately for their future home at Cut Knife, Sask.

Tom McIntosh, of Stratford, is visiting his home here.

John Ferris is visiting friends at Dundalk.

Miss Pate, who has been visiting the Ferris family for some weeks, left last week for the west.

Lorne Carr has taken a position in the Royal Bank at Kincardine.

CASTORIA

ORESHAM

Mr Geo Pace has a young recruit at present, who intends making his home with Mr and Mrs Pace. George says he is going to make a splendid recruit for the winter, and in the spring may enlist with the 160th Bruce Batt

Mr and Mrs Wm Rose were visiting friends at Chepstowe and other points the fore part of the week.

Mr Wm Parker made another business trip to Wiarton last week.

Little Alex McDougal, jr, fell lately and fractured one of the bones in his arm.

Mr Angus Annese spent Sunday at his aunt's on the second of Bruce.

Quite a number of the youths took in the Pinkerton box social last week, and all report a good time.

Mr Jas A McKinnon was confined to the house with lagrippe, but is out and around again.

Miss Marion McArthur, who spent a few weeks with her aunt, Mrs John Thornburn, returned to her home this week.

It is reported that some of our young gals here intend joining the scouts. We hear that Miss Jane Annese is the first to sign up.

STORIES OF THE LATE JOHN TOLMIE

How He Became King

How the late John Tolmie became "King of Bruce" has been told before, but will bear retelling. The Gaelic for "King" is "Righ" pronounced "Re," and a Highlander addressing a letter to him when he was Reeve of Bruce thought he was translating the word Reeve into English when he addressed him as "John Tolmie, King of Bruce." He often used to tell the story, and the name stuck.—Review.

He Was Non-Suited

Mr Tolmie was a great friend of the late Hon Dr Landerkin, and he used to tell a "good one" that the Doctor "got off" on him once. It was after the election of 1896. Mr Tolmie had been a widower for several years and the Doctor one night at dinner pointed to a woman seated at another table and said: "John, that woman is a widow and she is worth four hundred thousand. I think I can get her for you if you will give me a reasonable commission." Mr. Tolmie told him to go on with it and if he succeeded he could name the commission. For two days he inquired how the Doctor was getting on and the doctor was able to report progress. On the third day the following conversation took place: "Well, Doctor, how are you getting on with that fair widow?" "Oh, it's all off, John." "Why, what went wrong?" "She saw you." Mr. Tolmie, who was able to appreciate a joke at his own expense, took pleasure in telling this one.—Toronto News.

Died Suddenly

The last call came very suddenly to Mr Jas. Alexander, of Eden Grove, on Tuesday. While reclining on a couch he expired without a struggle. The only indication of anything being wrong at the moment was that the newspaper he had in his hand dropped from his grasp, which was noticed by his son. The deceased had not been in good health for some time.

A THOUGHTFUL GIFT

Send THE ADVOCATE to the absent member of the family or to the distant friend. It is as good as a letter from home and is a weekly visitor. You can better imagine how the home paper is appreciated when you are absent yourself and a copy is forwarded to you.

AUCTION SALE
— OF —
Farm Property

The undersigned has received instructions from James Donaldson, administrator of the estate of John Donaldson, deceased, to offer for sale by public auction at the Belmoral Hotel, Paisley, on

Saturday, March 11th

At two o'clock in the afternoon, all and singular that certain parcel or tract of land and premises situate, lying and being in the Township of Bruce in the County of Bruce, and being composed of 74 acres 16 in the 11th concession of the said Township of Bruce, containing by admeasurement one hundred acres, be the same more or less. On said lands are said to be a frame house, barn 40x80 with stone stables, artesian well with wind mill, good orchard, 85 acres of good pasture and road for cultivation, and 15 acres of bush and stable. The property is situate about 8 miles from Paisley and 18 miles from Port Elgin. The property will be offered for sale subject to a reserved bid.

Terms of Sale—Ten per cent of the purchase money at time of sale and the balance in thirty days thereafter.

For further information and conditions of sale apply to

D FORRESTER, per to R C PEARCE, Auct.
Solicitor for Vendor R R No 2, Paisley
Paisley

THE SLACKER

Is an expression used to those who have not found it convenient to join the ranks. The expressions may be right, but those who use it should be careful they are not in the same category.

The conditions at the present time are sufficiently grave to warrant the enlistment of every young man, but there are conditions which may warrant their refraining from becoming a recruit in the ranks.

At the present time the great call is for production, and the conditions in the older parts of Ontario are that in order to maintain this production the farmer's boy must remain on the soil. There boys may wish to enlist and we are led to believe that many of them would do so, and their parents would not say "nay," but their duty which is less spectacular is at home, and in staying at home they are doing more and making as great personal sacrifices as many who are now fighting in the trenches.

There are on the other hand many young men in the towns and villages who might and who should at the present time be wearing the khaki. They are fellows who have no dependents, or only dependents indirectly, and could and should be willing to fill the ranks, leaving the farmer's boy at home to help the older people in the fields and in the production of the foodstuffs that the Empire requires for ultimate victory.

We have sympathy almost for those boys on the farm who have felt strongly the call to arms, but they are filling a much nobler sphere as they are, and until the young men in the towns have been enlisted their duty is at home.

Likewise the duty of the young fellow of physical ability in the town who is unattached and whose labor can be dispensed with, is equally marked. The trail is blazed for him and he is not doing his full duty to the country until he is in the ranks behind the flag.—Ex.

—THE ADVOCATE office has a splendid stock of wedding stationery and calling cards on hand, also the most beautiful styles of type, so we are able to turn out the finest lines of wedding invitations, announcements, cards, etc. We can do work fit to invite the best of people to a wedding, so why pay two or three times as much to city printers or engravers for something that isn't a whit better for the purpose? See our samples.

—Lloyd George does not favor running munition plants on Sunday. He prefers several shifts working through the week. He has found, through observation, that working on seven days a week tends to decrease, rather than increase, the output, and Lloyd George is right. A lot of men tried, for purposes of dollar snatching, to commercialize the Sabbath, but the old rule of one day's rest in seven still rules.

PAISLEY, ONTARIO, MAR. 1, 1916

$1.00 per Annum in Advance
$1.25 if not so paid

Important Notice!

As I am leaving Paisley for some time at least, I have signed over all the book accounts in connection with the business here for the last two years, to be settled at the office in the store, either by cash or note, before the end of February. After that all those not settled will be placed for collection. At least 75 per cent. of all goods sold on credit for the past two years would be worth at least one-third more in value now. Please attend to the settlement of your accounts at once, as the new firm that takes possession about the 1st March will not assume these outstanding accounts.

Ladies' Tailoring

No trying on or worrying. Just leave your measure and we'll attend to the rest. All the newest goods and latest styles from which to make your selection. Satisfaction guaranteed.

I. S. Cruickshank

Kissed and Made Up

Under an assumed name an Owen Sound lady engaged with a family in Wiarton a short time since. She was giving excellent satisfaction and it was thought the servant girl question had been settled, when suddenly a man appeared claiming to be her husband, and then the cat got out of the bag. According to her story he drank, abused her, and she preferred going out in the world and earning her own living. He has a story, too. But they got together, talked it over, smoked the pipe of peace—he promised to vote for a dry Ontario, and Cupid began to revive his work, and they both returned home happy.

ADVERTISING RATES

Subscription Price—$1 per annum in advance. If $1.25 not so paid. To United States subscribers $1.50 per year in advance.

—Our millinery department is again in operation, under the direction of Miss Kerr, of Dutton. Miss Kerr comes to us well recommended, and our customers are assured of courteous treatment.
Ballachey, Laidlaw & Co.

—Five Roses, Rainbow, Purity, Cream of the West, and Stark's high-grade flours, also Bran and Shorts, Batchford's Sugar and Flax, Caldwell's Molasses Meal, and full line of Poultry Foods and Tonics. Always in the market for coarse grains. E. O. RICKEL.

CARD OF THANKS

Mr. Donald Darroch and family wish to convey their most heartfelt gratitude to their neighbors and other friends who so kindly extended their help and sympathy to them in their recent bereavement.

CARD OF THANKS

Mr. Jas. Maxwell and family desire to thank their friends for the many acts of kindness shown them during the illness and after the death of Mrs Maxwell. Deeds of kindness are imperishable and will always be cherished by the bereaved ones.

APOLOGY

The undersigned desires to apologize for statements he made at the recruiting meeting on Wednesday evening regarding the management of the skating rink, the statements having been made through a misunderstanding on my part as to the circumstances, and my not being aware of the arrangements for the evening, and also to say that Mr Dewar was not at all to blame in the matter.
H. McCONNELL, Lieut.

—Mr N Lowes is visiting in Montreal.

—Mr and Mrs Fred Foster were up from Clifford over Sunday.

—Fred A. Lewis, piano tuner, expects to be in Paisley about the last of March.

—Miss Zeta Black, of Clifford, is visiting her Paisley friends for a few days.

—Mrs. Brigham, of Allan Park, has been visiting her mother, Mrs. John McMahon.

—Miss Jean Fullerton, of Paisley, won first prize at Tiverton carnival in the ladies' fancy costume.

—Miss Rushton, of Candiac, Sask, is visiting at the home of her sister, Mrs. S. Davison, Greenock.

—Dr. Allen is back in his office again after an absence of four weeks from an attack of pneumonia.

—Mr. Scott, from Moosejaw, was visiting his uncle, Mr. Robt. Stoddart, and other friends in Elderslie last week.

—Mr. D. H. Sparrow and family are moving back to the farm at Williscroft this week, after a couple of years town life.

—Mr. Thos. Turnbull, of Dundas, was up last week to attend the funeral of his mother, who died at Teeswater and was buried at Queen Hill on Thursday.

—Messrs. Archie and John Darroch, of Detroit, also Mr. and Mrs. Arch. Watters, of Newark, N J., were over to the funeral of their brother, the late Neiven Darroch.

—Signaller Wilfred McGill was home from Ottawa for a couple of days last week visiting his father and friends before his corps leaves for the Old Country.

—The ladies of Dunblane Red Cross Society held a social in the church on Tuesday of last week, and realized in the neighborhood of $20. A good program was given by local talent.

—Mr John C McKinnon, from Kinmount, Alberta, who has been visiting his parents, Mr and Mrs John McKinnon, 8th con Bruce, for some weeks, left a few days ago for his home in the west, where he has lived for nine years.

—Mr. Charles A McGillivray, youngest son of Mrs. D. McGillivray, 12th Bruce, has joined the engineering staff at Edmonton, and is now training at Ottawa for overseas. This is the third son of this family who has enlisted, Neil and John C. being already in England.

Tea Room Booms

Under the management of the country ladies, business at the Red Cross tea room is booming. The ladies of Elora road north were in charge on Saturday last, and the proceeds amounted to $36. This makes a record that will be hard to beat.

Red Cross—S. S. No. 9, Bruce

The Red Cross workers of S.S. No. 9, Bruce, packed a box of supplies on Feb 25th, containing the following: 4 sheets, 56 handkerchiefs, 300 mouth wipes, 91 pillow cases, 10 towels, 11 pairs surgical socks, 36 surgical shirts, 8 pair pyjama suits, 6 flannel shirts, 30 pair socks, 9 bath towels, 31 pillows.

Five More Recruits

The following applicants have been accepted by the recruiting officer at Paisley for the 168th Batt. since last issue:

Bert Mewhinney
Bert Tocke
Sam Babcock
Chas Garland
Roy Heppenstall

Two others who offered themselves were rejected—Fred Simmons, who is under age, and John Thompson (Mill St.), because of defective eyesight.

To Residents of the Municipality of Paisley

In view of the fact that in different parts of Ontario various infectious diseases of a serious nature have become epidemic, the Board of Health of Paisley is making a strong effort to prevent any such outbreak in our village.

We invite the co-operation of our citizens.

In case where there is a communicable disease, no matter of how slight a nature, it should be reported at once to the board of health in order that effort may be made at once to prevent any further spread. If there is any doubt at all as to the nature of the disease, the family physician should be called, in order that the disease be diagnosed and reported.

Section 53 of the Health Act reads thus: "Whenever any householder knows or has reason to suspect that any person within his family or household, or boarding or lodging with him, has any communicable disease, he shall, within twelve hours, give notice thereof to the Secretary of the Local Board or to the Medical Officer of Health."

Section 109 states that "any person neglecting to report such disease shall incur a penalty of not less than $25 or more than $100."

H. E. GAGE,
Medical Officer of Health.

Our Great Sale is Over

OUR Stock-Taking is completed and now for our Spring trade.

With the arrival of the Spring Goods to fill all lines depleted by our 10 Days' Sale, we are now ready for business in all the wants for Spring.

See our RUGS, POLES, SQUARES, CURTAINS, WINDOW SHADES and all the wants of housekeeping.

H. B. PUTNAM & SON

—Mr. R. H. V. McArthur, of the Royal Bank staff, left to-day for Toronto, where he will spend a short time before taking a new position elsewhere.

—A young man from the country who got loaded up with fire water lately and started in to break windows while in town, was prosecuted by constable Leitch. When brought before the magistrates he pleaded guilty on two charges—for being drunk and destroying property—and was fined $25 and costs.

Mentioned for Special Daring

A young man well known in Paisley has been specially mentioned in the Canadian Rye Witness' official report in the person of Lieut. Jas. Bell, who is a son of Mr. and Mrs. W. D. Bell of Chesley, and a nephew of Mr. Jas. Stark of Paisley. He is with the 18th Battalion, and the skilful night reconnaissance in in which he took part was mentioned the official report printed in Canadian dailies as follows: "The following night a daring reconnaissance was made by a patrol of our 18th Battalion under Lieuts. Baxter and Bell. In spite of hostile fire our patrol crossed the enemy's wire, and getting close under the parapet at one of the strongest points in this section of the German defences, succeeded in bringing in information of considerable value. The enemy's trenches were heavily manned at the time, but our patrol withdrew without casualties. Full reports on sections of the enemy's entanglements have been secured by Sergeant Mason and Corporal Rowlinson of our 49th Alberta Battalion, who on successive nights spent several hours making examinations."

ORDER YOUR SPRING SUIT TO-DAY

While a blizzard is blowing and the thermometer is making low bouns, customers may not think the time opportune to order a Spring Suit. But, it is. Weather changes quickly these days. Moreover, there is a decided advantage in getting your order in early.

THE Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER VII.—(Cont'd).

"I suppose you did not catch the full significance of that narrative. No one did except the two of us—the unmasker and the unmasked. Later, he studied a scar on my hand. It's too dark to see, but you can feel it."

He caught her fingers in his own. They were icy in his hot clasp, as he pressed them against his right palm.

"Tell me how it happened. Tell me that—that the sequel was a lie!" She imperiously commanded, yet there was under the imperiousness a note of pleading.

"I can't," he answered. "He seemed to know the facts. I don't."

Her senses were unsteady, reeling things, and he in his evening clothes was an axis of black and white around which the moonlit world spun drunkenly.

Her voice was incredulous, far away.

"You don't know?" she repeated, slowly. "You don't know what you did?"

Then, for the first time, he remembered that he had not told her of the blind door between himself and the other years. He had presented himself only on a plea of guilty to the charge, without even the palliation of forgetfulness.

Slowly stealing himself for the ordeal, he went through his story. He told it as he had told Steele, but he added to it all that he had not told Steele—all of the certainty that was building itself against his future out of his past. He presented the case step by step as a prosecutor might have done, adding bit of testimony to bit of testimony, and ending with the sentence from the letter which told him that he had gone West. He had played the coward long enough. Now, he did not even mention the hope he had tried to foster, that there might be a mistake. It was all so horribly certain that those hopes were ghosts, and he could no longer call them from their graves. The girl listened without a word or an interruption of any sort.

"And so," he said calmly at the end, "the possibility that I vaguely feared has come forward. The only thing that I know of my other life is a disgraceful thing—and ruin."

There was a long, torturing silence as she sat steadily, almost hypnotically, gazing into his eyes.

Then, a remarkable thing happened. The girl came to her feet with the old lithe grace that had for the moment forsaken her, leaving her a shape of slender distress. She rose buoyantly and laughed! With a quick step forward, she threw her arms around his neck, and stood looking into his drawn face.

He caught her in his arms almost savagely.

"Don't!" he commanded, harshly. "Don't!"

"Why?" Her question was serene.

"Because it was Robert Saxon that you loved. You shan't touch Carter. I can't let Carter touch you." He was holding her wrists tightly, and pressing her away from him.

"I have never touched Carter," she said, confidently. "They lied about it, dear. You were never Carter."

In the white light, her upturned eyes were sure with confidence.

"Now, you listen," she ordered. "You told me a case that your imagination has constructed from foundation to top. It is an ingenious case. Its circumstantial evidence is skilfully woven into conviction. They have hanged men on that sort of evidence, but here there is a court of appeals. I know nothing about it. I have only my woman's heart, but my woman's heart knows you. There is no guilt in you—there never has been. You have tortured yourself because you look like a man whose name is Carter."

She said it all so positively, so much with the manner of a decree from the supreme bench, that, for a moment, the ghosts of hope began to rise and gather in the man's brain; for a moment, he forgot that this was not really the final word.

He had crucified himself in the recital to make it easier for her to abandon him. He had told one side only, and she had seen only the force of what he left unsaid. If that could be possible, it might be possible she was right. With the reaction came a wild momentary joyousness. Then his face grew grave again.

"I had sworn by every oath I knew," he told her, "that I would speak no word of love to you until I was no longer anonymous. I must go to Puerto Frio at once, and determine it."

Her arms tightened about his neck, and she stood there, her hair brushing his face as though she would hold him away from everything past and future except her own heart.

"No! no!" she passionately dissented. "Even if you were the man, which you are not, you are no more responsible for that dead life than for your acts in some other planet. You are mine now, and I am satisfied."

"But, if afterward," he went on doggedly, "if afterward I should awake into another personality—don't you see? Neither you nor I, dearest, can compromise with doubtful things. To us, life must be a thing clean beyond the possibility of blot."

She still shook her head in stubborn negation.

"You gave yourself to me," she said, "and I won't let you go. You won't wake up in another life. I won't let you—and, if you do—" she paused, then added with a smile on her lips that seemed to settle matters for all time—"that is a bridge we will cross together."

CHAPTER VIII.

When he reached the cabin, Saxon found Steele still awake. The gray advance-light of dawn beyond the eastern ridges had grown rosy, and the rosiness had brightened into the blue of living day when an early teamster, passing along the turnpike, saw two men garbed in what he would have called "full-dress suits," still sitting over their cigars on the verandah of the hill shack. A losing love either expels a man into the outer sourness of resentment, or graduates him into a friendship that needs no further testing. Steele was not the type that goes into an embittered exile. His face had become somewhat fixed as he listened, but there had been no surprise. He had known already, and, when the story was ended, he was an ally.

"There are two courses open to you," he said, when he rose at last from his seat, "the plan you have of going to South America, and the one I suggested of facing forward and leaving the past behind. If you do the first, whether or not you are the man they want, the circumstantial case is strong. You know too little of your past to defend yourself, and you are placing yourself in the enemy's hands. The result will probably be against you with equal certainty whether innocent or guilty."

"Letting things lie," demurred Saxon, "solves nothing."

"Why solve them?" Steele paused at his door. "It would seem to me that with her in your life you would be safe against forgetting your present at all events—and that present is enough."

The summer was drawing to its close while Saxon still wavered. Unless he faced the charge that seemed impending near the equator, he must always stand before himself at least convicted. Yet, Duska was immovable in her intuition with so many plausible, masculine arguments that he waited. He was packing and preparing to return to Puerto Frio, to be shipped to New York. Some of them would be exhibited there. Others, to be selected by his Eastern agent, would go on to the Paris market. He had included the landscape painted on the cliff, on the day when the purple flower lured him over the edge, and the portrait of the girl. These pictures, however, he specified, were only for exhibition, and were not under any circumstances to be sold.

Each day, the more the necessity of his investigation, and argued it with all the forcefulness he could command, but Duska steadfastly overruled him.

Once, as the sunset dyed the west with the richness of gold and purple and orange and lake, they were walking their horses along a hill lane between pines and cedars. The girl's eyes were drinking in the color and abundant beauty, and the man rode silent at her saddle skirt. She had silenced his continual argument after her usual decisive fashion. Now, she turned her head, and demanded:

"Suppose you went and settled this, would you be nearer your certainty? The very disproving of this suspicion would leave you where you were before Senor Robero told his story."

"It would mean this much," he argued. "I should have followed to its end every clue that was given me. I should have considered the possibilities, and I could then with a clear conscience leave the rest to destiny. I could go on feeling that I had a right to abandon the past because I had questioned it as far as I knew."

She was resolute.

"I should," he urged, "feel that in letting you share the danger I had at least tried to end it."

She raised her chin almost scornfully, and her eyes grew deeper.

"Do you think that danger can affect my love? Are we the sort of people who have no eyes in our hearts, and no hearts in our eyes, who live and marry and die, and never have a hint of loving as the gods love? I want to love you that way — audaciously — taking every chance. If the stars up there love, they love like that."

Some days later, Mrs. Horton again referred to her wish to make the trip to Venezuela. To the man's astonishment, Duska appeared this time more than half in favor of it, and spoke as though she might after all reconsider her refusal to be her aunt's traveling companion. Later, when they were alone, he questioned her, and she laughed with the note of having a profound secret. At last, she explained.

"I am interested in South America now," she informed him. "I wasn't before. I shouldn't think of letting you go there, but I guess I'm safe in Puerto Frio, and I might settle your doubts myself. You see," she added judicially, "I'm the one person you can trust not to betray your secret, and yet to find out all about this mysterious Mr. Carter."

Saxon was frankly frightened. Unless she promised that she would do nothing of the sort, he would himself go at once. He had waited in deference to her wishes, but, if the thing were to be recognised as deserving investigation at all, he must do it himself. He could not protect himself behind her as his agent. She finally assented, yet later Mrs. Horton once more referred to the idea of the trip as though she expected Duska to accompany her.

Then it was that Saxon was driven back on strategy. The idea was one that he found it hard to accept, yet he knew that he could never gain her consent, and her suggestion proved that, though she would not admit it, at heart she realized the necessity of a solution. The hanging of his canvases for exhibition afforded an excuse for going to New York. On his arrival there, he would write to her, explaining his determination to take a steamer for the south, and "put it to the touch, to win or lose it all." There seemed to be no alternative.

He did not take Steele into his confidence, because Steele agreed with Duska, and should be able to say, when questioned, that he had not been a party to the conspiracy. When Saxon stood, a few days later, on the step of an inbound train, the girl stood waving her sunbonnet, slenderly outlined against the green background of the woods beyond the flag-station. A sudden look of pain crossed the man's face, and he leaned far out for a last glimpse of her form.

Steele saw Duska's smile grow wistful as the last car rounded the curve.

"I can't quite accustom myself to it," he said, slowly: "this new girl who has taken the place of the other, of the girl who did not know how to love."

"I know more about it," she declared, "than anybody else that ever lived. And I've only one life to give to it."

NEW PERILS OF WAR.

Wounds and Resultant Tetanus Cause Most Casualties.

The ratio between deaths by disease and deaths by wounds is reversed in the present war as compared with the Boer War. In South Africa disease was responsible for a large percentage of the casualties, whereas in the trenches in France disease has been reduced to a negligible minimum. The wounds in the South African war were usually neat bullet holes, which looked as if made with brad-awls, while in the present struggle not only have shells and bombs brought new and terrible kinds of wounds, but a highly cultivated soil full of micro-organisms, such as tetanus, have added new dangers to the most trivial kind of flesh wound.

The difference between sources of casualties in the two wars was the subject of a lecture before the Royal College of Surgeons by Sir Anthony Bowlby, who attended the King during his recent accident in France. He laid the destructiveness of modern warfare to close-range fighting and the use of high explosives. Shells have such varied effects that there are no typical shell wounds. Even rifle bullets tear the tissues badly, owing to their terrific velocity at short range. In Africa the bullets travelled a half mile or more and lost their force. Bombs and hand grenades throw up large quantities of trench dirt, which enters the wounds and infects them. Men when wounded, usually fall into mud and water in Flanders, or into the dust, if it is summer.

Sir Anthony said the building of communicating trenches had, however, considerably lessened the danger of infection. In the early days of the war, before this means of passing under cover to the rear was tried, wounded men had to be kept in the advanced trenches until night afforded some protection to the stretcher-bearers, for any attempt to collect the wounded in daytime drew the enemy's fire. One man he treated lay for 16 days before he could be rescued and consequently lost both feet as the result of gangrene. Now the men are carried out of the trenches by means of chair stretchers, which get around the corners. But men falling in front of trenches have to be rescued at night as formerly.

Not only the time elapsing before aid is received but the physical condition of the men due to lack of food, drink or sleep must also be taken into account in estimating their chances of surviving.

Germany's Chancellor.

The German Chancellor, Dr. Von Bethmann-Hollweg, is one of the many German statesmen that owe much to the personal favor of the Kaiser. His friendship with the War Lord began when they were fellow-students at Bonn, where they were both members of the famous Borussia students-corps of the University. Before his elevation to the Chancellorship in 1909, Dr. Von Bethmann-Hollweg had had little or no experience of foreign affairs or diplomacy—a fact taken at the time to signify the Kaiser's intention to have a puppet rather than a pilot at the helm.

True to the Last.

"Yes," said the traveller, "my wife's mother was the most admirable housekeeper that ever lived. Poor soul, she was eaten by cannibals in Africa."

"You don't mean it."

"Alas! it's true. Why, when the savages had thrust her into the cauldron and she was beginning to cook, she cried out faintly with her last breath, 'Don't forget the salt and pepper.'"

The man who can contribute and will not is a traitor.

A quail on toast is worth a dozen in the other fellow's game bag.

There's a Subtle Charm about the delicious flavour of

"SALADA" B105

This flavour is unique and never found in cheap, ordinary teas. Let us mail you a sample. Black, Mixed or Green.

Raising the Dairy Cow

A profitable cow cannot be raised in a year. It dates back to the ancestors and if they were unprofitable the chances are that their progeny will be unprofitable, and vice versa. Having bred right, the dairyman must start his feeding when the calf is the embryo stage, by properly caring for the mother, and then be prepared to care for and feed the young calf from the time it is dropped, the proper rations required to produce strong, lusty animal. It is well known that a neglected heifer calf never makes the most profitable dairy cow. The value of the calf at birth depends largely on its breeding, but the feed and care it receives while young is an important factor in deciding its future usefulness.

Whether or not the calf is allowed to run with the cow the first two or three days is a matter of custom, but it should receive whole milk for the first two weeks at least and then gradually be made accustomed to skim-milk. The change may be made at the rate of one pound per day, and increased until the calf is getting about fifteen pounds of skim-milk per day. Many feeders fail to have their calves do well when fed on skim-milk, and immediately decide that skim-milk is of little value as a feed for calves. Other feeders will point with pride to a thrifty, sleek-looking calf, and be particular to mention that it was raised on skim-milk. Why the difference? The one has neglected to pay attention to keeping the pen clean and dry; the milk warmed to blood temperature; the pails clean, or the same amount of milk fed at regular intervals. These things are important, and attending to them or not attending to them is the difference between success and failure.

Skim milk contains all the nutriment found in whole milk for the building of bone and muscle. It merely lacks the fat content, which goes to supply heat and energy in the body. This can be supplied by the cereal grains or linseed meal, at a lower cost than by feeding the fat of milk. Neither whole nor skim-milk is sufficient in itself for the growing calf. The calf should be taught to eat concentrates, as ground oats, linseed meal or bran, and alfalfa or clover hay. By putting a little meal in the bottom of the pail after the milk is finished and keeping fresh meal and hay before the calf, it will soon learn to eat. After it has become accustomed to eating, only as much as it will clean up, should be fed. A calf six weeks old will usually eat from one-half to one pound of concentrates per day. An important point is to keep the feed box, pen and pails perfectly clean. With proper attention along with suitable grains and roughage, a thrifty calf should gain from one-and-one-half to two pounds per day. The calf should not be to fatten the calf, but to keep it in a vigorous, growing condition, especially when being raised for dairy purposes.

If the calf is dropped in the fall it will be able to go on pasture in the spring and look after itself. If it is a spring calf, it will be best to keep it in the stable or paddock all summer in order that it may receive attention. As a yearling, the best winter quarters will be to run a number of them loose in a large box stall or sheltered shed. It need not be too warm, as nature will supply them with a coat of hair sufficient to keep them warm. Silage, roots and good clover hay, with a little salt and plenty of water, will bring them through the winter in prime condition. The heifers should be bred to drop their first calf at about thirty months of age, and then milked as near the full year as possible, it being claimed that a heifer that is only milked seven or eight months the first lactation period will have a tendency to go dry in succeeding years after milking about that length of time.

It is a good plan to frequently handle the heifer before she freshens the first time. Less trouble will then be experienced in getting her accustomed to being milked. As the dairy animal is more or less of a nervous disposition, kindness at all times is essential if the highest returns are to be secured. The cow will also give a larger flow of milk throughout the year if fed and milked at regular intervals.—Farmer's Advocate.

Good Stable Arrangement.

Owing to the scarcity of efficient farm help and also to lessen the cost of winter milk production, we have found it necessary to have the stable equipped as conveniently as possible In our stable the cows stand in two rows, running lengthwise of the stable, both rows being fed from the same alley, which I think reduces the work of feeding a great deal. We have a silo at each end of the feed alley, the silage being thrown directly from the silo into a feed truck and from this is pitched into the mangers.

The different grains are mixed in the granary overhead, coming down a chute into another feed truck, which can be wheeled to wherever required, thus doing this part of the feeding with as few unnecessary steps as possible. The cattle are watered from individual basins, which are supplied from a tank in the barn, the water being pumped to this with a small gasoline engine.

The stable being reasonably wide gives ample room behind each row of cows to drivet hrough with the manure spreader, and in this way the manure is hauled directly to the field and spread with very little extra labor.

By using these few conveniences, an abundance of light, good ventilation, and punctuality, winter dairying becomes more of a pleasure than a drudge.—Gordon Harrison in Farm and Dairy.

GOOD DIGESTION

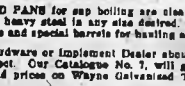
When your digestion is faulty, weakness and pain are inevitable and disease is invited.

Mother Seigel's Syrup corrects and stimulates the digestive organs, and banishes the many miseries which arise from indigestion.

FOR 40 YEARS THE STANDARD REMEDY

MOTHER SEIGEL'S SYRUP

FOR STOMACH AND LIVER TROUBLE



At all Druggists, or direct on receipt of price, 50c. and $1.00. The large bottle contains three times as much as the smaller. A. J. Wayne & Co., Limited, Cook Street, West Montreal.

COLT DISTEMPER

You can prevent this loathsome disease from running through your stable and cure all the colts suffering with it when you begin the treatment. No matter how young, SPOHN'S is safe to use on any colt. It is wonderful how it prevents all distempers, no matter how colts or horses at any age are "attacked." All good druggists and turf goods houses and manufacturers sell SPOHN'S by the bottle or dozen. SPOHN'S MEDICAL CO., Chemists and Bacteriologists, Goshen, Ind., U.S.A.

GALVANIZED STEEL PANS

GALVANIZED PANS for sap boiling are clean and sanitary. Made up of heavy steel in any size desired. We also supply wagon tanks and special barrels for hauling sap.

A single bottle will convince you

Sloan's Liniment

Arrests Inflammation. Prevents severe complications. Just put a few drops on the painful spot and the pain disappears.

THE ACUTE PAIN FROM NEURALGIA

Permanently Cured Through the Use of Dr. Williams' Pink Pills

A clever medical writer has said that "Neuralgia is a cry from the nerves for better blood." In other words, neuralgia is not a disease—it is only a symptom, but a very painful one. Neuralgia is the surest sign that your blood is weak, watery and impure, and that your nerves are literally starving. Bad blood is the one cause—rich, red blood the only cure. This gives you the real reason why Dr. Williams' Pink Pills cure neuralgia. They are the only medicine that contains in correct proportions the elements needd to make rich, red blood. This new, rich blood reaches the root of the trouble, soothes the jangled nerves, drives away the nagging, stabbing pain, and braces up your health in other ways as well. In proof of these statements Mrs. A. T. Oulton, Little Shemogue, N.B., says:—"A few years ago my mother was in intense sufferer from neuralgia, which was located in her face, head and shoulders. The pain, especially in her head, was intense. She doctored for some time without getting relief and there seemed to be no ceasing of the pain whatever. Instead it seemed to be extending and her whole nervous system became affected. Finally she decided to try Dr. Williams' Pink Pills. After taking them for a while the pain in her head became less severe, and of course this was a great relief to her. Under the continued use of the Pills she felt herself growing better and stronger each day until she was no longer a sufferer and was completely cured, and has felt no symptoms of the trouble since."

You can get Dr. Williams Pink Pills from any medicine dealer, or by mail, post paid, at 50 cents a box or six boxes for $2.50, from The Dr. Williams Medicine Co., Brockville, Ont.

INVENTS ANTI-WIRE GLOVES

Englishman Devises Method of Handling Entanglements.

Among the inventions now being tester by the British War Office officials is one credited to George Lynch, a well known travellor, of a method of destroying wire entanglements.

The Westminster Gazette, describing the invention, says the method consists of the use of apair of gauntlets made of ordinary khaki cloth lightly padded with cotton wool treated with a peculiar powder, rendering the material practically impervious to the sharpest metal points. Thus, a soldier is enabled to grasp or pull the most formidable type of German barbed wire without the slightest fear of the spikes penetrating his hands.

The fabric is waterproof, and the gloves can be insulated for the purpose of gripping electrically charged wires. The claim is even made that when made into vests or leggings the material is strong enough to turn shrapnel splinters.

A company has been formed to develop the invention. The War Office already has ordered some supplies and the substance has been successfully tested in the Russian army.

His Name.

Visitor—"Well, my little man, and what are yob called?" First Boy—"Jule, sir." Visitor—"You should say 'Julius.'" Turning to another boy—"Well, my little fellow, what is your name?" Second Boy—"Billions, sir."

MEN AT FRONT ARE SPENDERS.

Reporter Assumes Role of Huckster For a Day.

So much has been said about the way the soldiers are robbed by hucksters who manage to circulate just behind the front and offer a miscellany of goods for sale that the French Chamber has sent commissaires to the front to investigate the question. These hucksters are generally residents in the military zone and obtain permission to carry on a trade in objects ranging from a piece of soap to an anthology of French poets as a recompense for the losses they have suffered.

A newspaper man who had left the army from illness determined to become a huckster for a day to see what there was in the business. His experiment seems to show that at the bottom, the fault, of it exists, is due as much to the inherent desire felt by human nature to buy something when the opportunity has not occurred for sometime.

About 6:30 one morning he laid out his little stock on the steps of a church in a little village of some thirty houses, for or five of which were still intact. To his right he placed the soaps, of many colors, and the perfumes to the left, letter paper, collections of songs and in the middle knitted goods, socks, etc., under which were hidden a few bottles—not bottles containing alcohol, the risk of prison would have been too great—but of coca wine, quinquina and such aperitifs of legal degree of spirit.

"How much is the mirror?" asked his first customer.

"One franc (20 cents)."

It was a little mirror sold at 2 cents in Paris, but it was taken at ten times the price without an attempt to bargain.

Ten cents for a glass of coca wine as big as a thimble, yet the bottle was emptied in five minutes! Five cents a sheet of paper with Joffre's portrait. An automobilist paid 8 francs ($1.60) for a bottle of eau de Cologne and offered two 5 franc bills. He refused to take change and was delighted with a child's trumpet to make up the remaining 40 cents. He at once began to blow it and his comrades to dance to his music.

For men who had just come back from six days burial in the trenches to buy something meant civilization and life. The seller was soon cleared of all his goods. What had cost him $10.40 had cleared $46.20, a profit of more than 500 per cent.

Before leaving the village the amateur huckster handed over the $46.20 to the Captain of the section to be used to add some delicacies to the men's rations.

The officer smiled and invited the donor to lunch, adding a few words which showed that officers are no more free than men from the desire to buy something. "If you have anything left we will buy it."

KEEP LITTLE ONES WELL IN WINTER

Winter is a dangerous season for the little ones. The days are so changeable—one bright; the next cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds and by their use the baby will be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

RED CROSS PUBLICITY.

Goderich Red Cross Society has shipped supplies to the value of $3,484.

Saskatchewan Provincial Red Cross has a membership of 4,500.

A Co-operative Elevator Company in Saskatchewan has given $1,000 to the Saskatoon Red Cross.

A Red Cross worker in Wolfville, N.S., has put up over 400 jars of fruit for Red Cross hospitals.

Grain Growers' Guide, a Western agricultural paper, has raised $659 for its Red Cross fund.

Collingwood Red Cross has a membership of over 500 and has raised $8,686 in money and supplies.

Manitoba Red Cross has a membership of 7,519 and collected the past year nearly $120,000.

Barry Red Cross has ten auxiliaries in the surrounding country.

Hamilton Steel Co., is making the Red Cross a donation for 1916, of $5,000 payable quarterly.

Commodore of Royal Victoria Yacht Club, Victoria, has given to Red Cross a steam yacht valued at $10,000.

Employees of Imperial Oil Co., Sarnia, have given $1,000 to Red Cross Society.

In Alberta 1,200 Red Cross "Mite" Boxes have been distributed to private homes.

Newmarket Red Cross realized $3.50 by auctioning two turnips contributed by a farmer.

Wolfville citizens gave $355 to No. 7 Stationary Hospital being equipped by Nova Scotia.

It is an difficult to estimate the true value of the Red Cross as it is to appraise the value of any community of public hygiene and sanitation. Still, we know the terrible ravages of plagues and diseases in times past and no one is disposed to deny that the cost of public hygiene returns a valuable profit in disease immunity.

Similarly the value of the Red Cross consists fully as much in the suffering it prevents as in the misery it actually alleviates.

The terrible suffe rings of Serbia in the first year of the war illustrated the value of an efficient Red Cross. Serbia triumphantly resisted the first Austrian invasion, but decimated by disease coupled with lack of Red Cross supplies, fell an easy prey to the next invasion.

If the soldier remains days after his wound without medical attention, his chances of recovery are slight. The aim of the Red Cross is to get wounded into its hospitals as soon as possible, but to do this it requires an elaborate and expensive organization as near the front as possible.

The proof therefore that the Red Cross is doing is to be found, not in terrible conditions of suffering, but in a perfectly functioning system of relief work which reduces suffering to a minimum. It is the comfort, not the agony of the wounded which is the best test of Red Cross value.

Dr. Herbert Bruce the well known Toronto surgeon who has been on active service in France, has stated that our Canadian Red Cross is famous beyond all other Red Cross Societies for its sympathetic treatment of the patients. So that even the English and French wounded express a wish to be taken to a Canadian hospital.

This kind of Red Cross service which Canada has won an enviable reputation, is only possible with perfect equipment and with continued generous contributions from our Canadian public.

"WAR HAS JUST BEGUN."

Russian Soldiers Are Warned Not to Waste Ammunition.

All hoxes of ammunition being dealt out to Russian soldiers now are marked:

"Don't waste your ammunition; the war is only just beginning."

Posted in every public building in Russia, from railway station to restaurant, are notices reading:

"Speaking German is strictly forbidden."

The penalty for violating this rule may be three months' imprisonment.

The British Foreign Office has issued instructions to all British Consular officers in allied as well as neutral countries to see whether British subjects within their districts are associating with persons of belligerent nationalities. Offenders are to be warned once; if they persist in associating or even talking with an enemy either in a business or social way, their British passports will be cancelled.

The regulation, already being enforced, applies chiefly to British subjects in neutral countries and to those doubtful ones who have become naturalized subjects of King George while preserving their German, Austrian and Turkish sympathies.

TO SAVE EYES

Is the Object of This Free Prescription—Try It If Your Eyes Give You Trouble.

Thousands of people suffer from eye troubles because they do not know what to do. They know some good home remedy for every other minor ailment, but none for their eye troubles. They neglect their eyes, because the trouble is not sufficient to drive them to an eye specialist, who would, anyway, charge them a heavy fee. As a last resort they go to an optician or to the five and ten cent store, and oftentimes, get glasses that they do not need, or which after being used a few months, do their eyes more injury than good.

Here is a simple prescription that every one should use: 1 grains Bon-Opto, 3 ounces water. Use three or four times a day to bathe the eyes. This prescription and the simple Bon-Opto system keeps the eyes clean, sharpens the vision and quickly overcomes inflammation and irritation; weak, watery overworked, tired eyes and other similar troubles are greatly benefited and oftentimes cured by its use. Many reports show that wearers of glasses have discarded them after a few weeks' use.

It is good for the eyes, and contains no ingredient which would injure the most sensitive eyes of an infant or the aged. Try it, and know for once what real eye comfort is. If your own druggist cannot fill this prescription, send $1 to the Vaimax Drug Co., Toronto, for a complete Bon-Opto Home Treatment outfit—tablets and all.

Probably the best housekeeping plan is not to mortgage the house.

THOUGHTS FOR THE DAY

Work without hope draws nectar in a sieve.—Carlyle.

Thought once awakened does not again slumber.—Carlyle.

Always add, always walk, always proceed.—St. Augustine.

In this world a man must either anvil or hammer.—Longfellow.

Here is a chastity of honor that feels a stain like a wound.—Burke.

The war is going to produce a regenerating force among the people and this force will find expression in the drama.—Mme Sarah Bernhardt.

Those who are not going to help His Majesty's Government and their fellow-countrymen are going to help the enemy.—Mr. Duke, M.P.

John Bull is a bad starter, though a good finisher. Yet the hare cannot be sure of always waking in time to win the race. It may oversleep itself.—Mr. D. Macleane.

If instead of a gem, or ever a flower, we could cast the gift of a lovely thought into the heart of a friend, that would be giving as the angels must give.—George Macdonald.

In the teaching of the children let us fling to the winds our pedantry and teach them the great facts of humanity and of material environment around them.—Mr. Mackinder, M.P.

Ottawa Girl's Message of Hope

TELLS TIRED WOMEN OF DODD'S KIDNEY PILLS.

Miss Logan Tells How They Relieved Her of Pains and Aches So Many Run-down Women Know.

Ottawa, Ont., Feb. 21st. (Special).—"I am glad to say I have found Dodd's Kidney Pills have done me a wonderful lot of good." So says Miss Gladys E. M. Logan, of 264 Queen Stree, this city.

"I suffered from drowsiness and sharp pains across my back. My sleep was broken and unrefreshing. I had headaches and was subject to neuralgia and rheumatism. I was depressed and low-spirited and troubled with palpitation of the heart.

"I was always tired and nervous and very sensitive and there was hollowa under my eyes.

"For two years I was in this worn-out condition, often having to lay off for a day or two. I was attended by doctors and wasted money on useless medicines, but I only found relief when I used Dodd's Kidney Pills."

Miss Logan's statement is a message of hope to thousands of women in Canada. They are suffering just as she suffered. She wants them to know they can find relief in Dodd's Kidney Pills.

COSTS $70,000,000 DAILY.

Sir George Paish Says Year of War Means $25,000,000,000.

Sir George Paish, one of the really great economists of Europe, said when interviewed recently: "Up to October 1st, or after the war had continued for fourteen months, it had cost £14,-000,000, or $70,000,000 a day.

"The current rate of expenditure in the war, if continued for a year, would total about five-thousand million pounds sterling, or twenty-five thousand million dollars—a sum even less conceivable by the average mind."

Would Obey Orders.

The foreman swore at Cassidy for not fully loading up his hod. The hod, he said, would hold so many bricks, and Cassidy must take a full load up the ladder every trip.

One morning the supply of bricks ran out and Cassidy, after gathering every brick in sight, found he was still short of the proper number. He yelled up to a workman on the fifth story.

"What do you want?" asked the workman.

"Throw me down wan brick," shouted Cassidy, "to make good me load."

Minard's Liniment Cures Distemper.

Quick Way.

LOST IN WAR TIME.

The Pathetic Story of a Little French Girl.

One day last spring the little town of Roi-de-la-Somme, in France, was unexpectedly shelled by the Germans, and a Canadian chaplain describes the scene as he saw it. Life was going on as usual, mothers were busy in the homes, children playing on the streets. In a few moments all was wild confusion, everyone seeking safety, mothers rushing wildly about searching for their children who had been at play. Some found them—some did not.

Among the number who was not found was a little lad about eight years old named Julien Decaux. He was playing football when the shells came among them and ran with the others for safety. One of the British car drivers a few weeks later when coming from Boulogne saw a little fellow, dirty, half-naked and lonely about three miles from the town. He seemed lost, and he was. It was Julien Decaux. He told the chaplain that he had never seen his mother since he was playing on the square that day; he was the only child of his parents. Can you imagine the broken-hearted mother hunting for the little lad while he wandered about among the troops for three months? The chaplain took him to the chief of police and they are trying to hunt up Julien's mother. The police wanted to keep him meantime, but he get a firm grasp on the chaplain's leg and emphatically declared that he was going to stay with "mon capitaine." He is staying; if his parents can be found he will be restored to them—if not, the chaplain will see that he has a good home.

An Easy One For Newrich.

Mrs. Newrich had been told by her caller that a certain dinner party had "wound up with great eclat." When her husband came home she asked him what "e-kla" meant.

"Why, that's the dessert, I guess," said Newrich. "Didn't you ever eat a chocolate e-kla?"

The Best Breakfast Possible

Dr. Jackson's Roman Meal porridge properly made in a double boiler, and not stirred after first making it. Read directions on package. Better make night before for early breakfast. In double boiler and warm in the morning while dressing, by allowing to sit in boiling water. Thus it's delicious and very nutritious. It prevents constipation, however cooked. Ask your doctor. At grocers', 10 and 25 cents.

Flashing Lights.

Mrs. Brown—My husband is the light of my life.

Mrs. Smith—So is mine. One of the kind that smokes and goes out at night.

Minard's Liniment Cures Diphtheria.

Her Idea of It.

He—I am joining the Seventy-fifth infantry.

She—My brother Jack is in the Seventy-sixth. So glad you two boys will be near each other.

Masonville, June 27, '15.

Minard's Liniment Co., Limited.

Yarmouth, N. S.

Gentlemen, — It affords me great pleasure and must be gratifying to you to know that after using 36 bottles of your Liniment on a case of paralysis which my father was afflicted with I was able to restore him to normal condition. Hoping other sufferers may be benefitted by the use of your Liniment, I am,

Sincerely yours,

GEO. H. HOLMES.

Not So Particular.

"Uncle, why did you never marry?"

"I never found a girl who would have me."

"Uncle, somebody's been fooling you. Our sex isn't that particular."

Minard's Liniment Cures Garget in Cows

Playing Too Safe.

The defendant in a case tried in a western court had been duly convicted of theft, when it was seen, on "proving previous convictions," that he had actually been in prison at the time the theft was committed.

"Why didn't you say so?" angrily demanded the judge of the prisoner.

"Your honor," said the man, apologetically, "I was afraid of prejudicing the jury against me."

Minard's Liniment Cures Colds, Etc.

Mary—"Mrs. Delancy says her little girl has learned to play the piano in no time." Alice—"Yes, I heard her playing just that way the other day."

Accommodating.

Recruiting Officer—We can't pass you. Two fingers are off your right hand and you couldn't pull a trigger.

Applicant—Oh, that'll be all right, sir. I'd just as lief be an officer and carry a sword.

Recruiting Rally

Attracted an Overflow Crowd of People on Wednesday

Rousing Speeches

Inside and Outside the Hall

Band and Soldiers March

If the citizens of this little burg and surrounding country are not now fully alive to the war issues it is no fault of the orators who were heard at the demonstration on Wednesday last. The leading speakers were two real soldier men who spent months in the Belgian and French front trenches, and know what they are talking about when they depict the atrocities of the Huns, and plead for more men to go out and fight against them. To none of us have the horrors of the situation been before so realistically presented. The impassioned oratory of Capt Dancey and the soldierly address of Major Osborne will ring in the ears of all their hearers for many a day, if we mistake not, and many impressive arguments were advanced by the other speakers as well. The patriotic fervor of the occasion did not have immediate results, as only one person came forward to the recruiting desk at the afternoon meeting, and none at night, but the leaven is working and eventually this locality will, we believe, produce its proportionate quota of recruits towards completing the enrolment for one 160th Bruce Battalion, C E F.

About 90 soldiers were in line for the march, including the Paisley and Port Elgin squads headed by the splendid battalion band of 20 players. The Port Elgin men were driven here by farmers' teams and the band came by train. After parading up and down Queen St, all marched into the town hall, where the speakers held forth. Hundreds of people who came were unable to get into the hall, but were not altogether crowded out of the proceedings as Major Osborne, who has a stentorian voice, easily made himself heard in an excellent address delivered to those standing in the market square.

Reeve Ballachey was chairman at both afternoon and evening meetings.

Judge Klein was the first speaker. In the course of his address he referred to the organization and work of the Bruce County War Auxiliary. Paisley, he said, had done as well as any other place in the county as to enlistment. He stated there were then 817 men enrolled in the 160th, and Bruce had made more rapid progress in the organization of its battalion than any other county in the province so far. Conscience, he said, should be a guide to those who are fit as to whether they should enlist. If Canada is conquered by the Germans we would have to pay a war indemnity equal to $200 a head.

Our quartette of local ministers were all called upon and gave short addresses in which they showed their sympathy and support of the military efforts.

Mr John Rowland, of Walkerton, pointed out that only 210 more men were needed for the Bruce battalion. "If the Kaiser does come to Canada," this speaker put it, "the deed of your farm wouldn't be worth the paper it is written on, nor the money you may have lent out on mortgage," While Bruce County is making a very liberal grant to the patriotic funds, after all it only amounts to $1.91 a year for the average farmer.

Capt Dancey has no hesitancy in proclaiming his assurance of the success of the Allies. Victory is ours, he said. Prussianism and militarism are beaten to-day. He does not feel as a Canadian, however, that Canada has done its duty in connection with the great struggle which is protecting our freedom. In Scotland not a man physically fit is left. Unless we do much better Canada will be damned in the eyes of the British Empire. If Australia can give 300,000, then Canada, in proportion to population, can give 750,000. The young men thronging the dancing pavilions, the pool rooms and the skating rinks in this country with no sense of duty in this hour, have no right in the citizenship of free Canada. Why should another go to fight for your freedom while you remain at home? The protection we have enjoyed is due to what can be expressed in two words: 'British navy.' But for that navy Canada would have been devastated, with mothers, sisters and sweethearts sharing the fate of the women of Belgium. Capt Dancey told in heroic terms of the exploits of British soldiers, 71,000 of whom had fought against 950,000 Germans. He called upon the men of Bruce not to keep their sons on the farm, but send them forth to avenge the deaths of those noble defenders. There is something higher in this life than a selfish spirit. That man who puts forth an effort to restrain his son from enlisting is a traitor to his country. The coward and traitor has no right to live on free Canadian soil. Our public men have to deal with problems such as the weeding out of life that spirit of selfishness and indifference. The pro-German should be given internment. Canadians are not just to themselves in their leniency towards those who, after enjoying the protection of the Union Jack and the beneficence of Canadian freedom, are not loyal thereto. Again and again the speaker rallied the men of Bruce to take the field. We boast of our British citizenship and descent. If all it represents is good enough to live for it is good enough to die for. He showed how small is the tremendous (?) sacrifice we consider we are making when compared with that of the mother country. It is absolutely wrong to think that this war is England's war and not ours. It is as much Canada's as any other part of the Empire. And do not feel that you are not needed because of the immense quantity of munitions and millions of British forces not in the field. It is the right and duty of Canadians to fill the gaps, and uphold the confidence cherished by Belgians for the khaki standard. The bleeding heart of little Belgium calls to day, and the young men of Canada must do their duty in a voluntary spirit by going to the support and relief of the Allies.

Rev Mr Walker, of Walkerton Methodist church, specified the reasons for asking men to enlist. He also pointed out that to die on the battlefield does not mean that the life has been a failure, even in the case of a young man with all of life before him. Rather may be termed a failure the man who has lived for 60, 70 or 80 years and then lies down and dies, after having lived only for selfish purposes and aims. The speaker feels he would not dare take the responsibility of saying to anyone that he should go. But let every man be true to his duty.

Major Osborne first briefly reviewed the events leading up to the war, and spoke of the crimes of the German fiends in their Belgian campaign. In all his 32 years of soldiering he never saw even black troops of India or Africa commit the atrocious deeds he saw had been committed by German soldiers in Flanders. In mentioning conscription, he said he would rather be a dead man in Belgium than leading a company of conscripts. Comparing Australia and Canada, we have not done as much as we should, nor as much as we will and must. As Canada had the largest representation of troops at the coronation, surely we should come forward now with the largest force in war time. He expressed the opinion that conscription will come in Canada if the men do not come forth. Conscription is on the statute books of Canada and only needs an order-in-council to put it in force. It is a criminal offence for anyone to attempt to prevent a man from enlisting.

At the evening meeting, when the hall was again well filled, Major Osborne gave an account of his 32 years career as a soldier. He is descended from a long line of Irish soldiers, has seen service in India, was with Kitchener at Khartoum, and with Buller in South Africa. He recited the glorious example of loyalty on the part of a German soldier from Canada in the present war, also related his experience and gave many examples of noble heroism that came under his notice during the time he was in the Flanders campaign. The tyrannical discipline of German army system was exemplified in the instance where a German soldier would not smoke in the presence of his officer, though they were both prisoners in a dugout in the British lines. If you were a young man in Germany, he said, you would not have the privilege of saying whether you would enlist. It would be said to you, "Report at 10 o'clock tomorrow morning," and it would be to-morrow morning.

Capt Dancey opened with a slam at the politicians of Canada, and admonished them to forget the minor issues of partyism, local option, &c, while the war is on, and get into the great struggle in which we are not only fighting a foe but fighting a devil. He had heard Germans boast of the devastation and the blood of women that had been shed. Among other horrors he had witnessed in Belgium was that of seeing 200 forms of men and women taken out of a single well. The world does not know half the truth as to the Prussian atrocities, he declares. There is not a savage race on the face of the earth that are not a thousand times better than the Prussian militants. Belgium cries to heaven to be freed, but the people of Paisley seem to think more of pink teas than the misery of their fellows in Flanders. Knitting socks and sending comforts to soldiers is only a small affair compared with what womankind can do in using her influence for sending her own or others' sons to fight. The wrecks there are on the highways and by-ways of that war-scarred land! But women here seem to think more of a new hat. His heart had been stirred by looking into the homes in Belgium, and he had come back to Canada and found women absolutely indifferent and oblivious to what was occurring. He mentioned the instance of a Belgian girl who waded through three miles of inundated lands to give information that enabled the Allies to capture a German staff and 2900 soldiers. After that journey the girl was laid up in the hospital for three weeks with nervous prostration. For the care of our wounded soldiers this country should be prepared to go to the very depths of financial bankruptcy if that becomes necessary. In making his appeal for local recruits Capt Dancey said he had heard of there being farmers with five sons who would not spare one to fight for home and country. Those who had worn the uniform and taken the king's money in peace times should be prepared to offer themselves now. He declared there would be two or three battalions raised in Bruce yet.

The parade music by the battalion band and the concert selections given inside the hall enlived and varied the proceedings nicely.

Capt. Dancey is a Canadian by birth and a journalist by profession. While in the Old Country he took a commission in the Royal Munster Fusiliers, which corps was among the first Imperial troops to be sent over from Britain to face the Germans as they started to overrun Belgium and France. To hear something of the story of that bloody campaign, with its horrible accompaniment of Hun barbarism and brutality, fall from the lips of one who had participated in those glorious deeds of British soldiering, and had also been an eyewitness to the atrocities that shocked the civilized world, indelibly impressed all with the reality of the charges that stand against our inhuman foe. Capt. Dancey's words carried conviction to any hearers who entertained doubts as to the truth of cable reports read in newspapers during the early part of the campaign, or were inclined to accept the denials issued by the barbaric fiends and diplomatic liars who have since been convicted before the world through evidence obtained by the Bryce commission. Capt Dancey later travelled for four months through Germany and learned a great deal about the aristocratic military system that seeks to overthrow the freedom of more democratic countries. Is it any wonder that Capt Dancey and Major Osborne, after experience against that murderous onslaught of the German hordes, and their insight of the Prussian machine, should lift their voices in such fervent appeals as they are making for for men, and more men, to help crush the enemy.

Standard Bank Has Progressed In All Its Departments

Annual Statement Shows Great Increase of Deposits during Year, while Cash Reserves and Quick Assets are Exceedingly Strong

Record Very Gratifying Both to Shareholders and Public

Although the abnormal conditions that have prevailed in the commercial, financial and industrial world during the past twelve months would naturally lead one to expect a curtailment of business, and a serious falling off in our banking institutions, yet the annual statement of the Standard Bank of Canada, as of the 31st of January, 1916, which appears in another column of this paper, notwithstanding these conditions shows marked improvement in all the departments of the bank's business and the steady progress and strength of this efficiently managed bank.

The deposits now amount to $43,090,252.77, and show an increase during the year of $5,058,344.00, indicating the unbounded confidence enjoyed by the Bank on the part of the public, and affording a striking evidence of the rapidly accumulating wealth of the Dominion.

Another feature that might be referred to is the exceptionally strong position in which the Bank stands as regards both its cash reserves and quick assets. These together amount to the large sum of $18,414,819.09, or over 42.72 per cent of its deposits. The earnings of the Bank for the year have enabled the directors to pay to the shareholders a dividend at the rate of 12 per cent, to set aside $100,000 as provision for possible depreciation in securities held by the Bank, to contribute $15,000 to the Officers' Pension Fund, to pay the new tax levied by the Government on the Bank's circulation, $28,095.52, to contribute $20,000.00 to the Red Cross and other Patriotic Funds, and to carry forward to the credit of Profit and Loss Account the sum of $61,646.89.

This is, indeed, an excellent record, and must be very gratifying, not only to the shareholders, but to the public at large, who are particularly concerned in the progress of the financial institutions of this country.

THE ROLL CALL

Mrs. Jas. Maxwell

Jane Hope, wife of James Maxwell, departed this life on Sunday, Feb. 20th, the funeral taking place on Thursday, Feb. 24th. Deceased was born in Cumberland, England, in the year 1844, and came to Canada with her parents in 1855, settling near Brampton where they resided for five years, and in 1860 moved to the township of Elderslie. She was married to James Maxwell in 1869 and settled on their bush farm on the townline of Sullivan, where they resided for ten years and then moved to Ellengowan where they lived for 29 years. Eight years ago they retired from the farm and took up their residence in Paisley. Deceased was stricken with paralysis over three years ago. She leaves to mourn for her a loving husband, three daughters and four sons: Mrs. Nelson McMahon, Paisley; Mrs. Peel Brown, Owen Sound; Miss Alice, at home; George and John, on the 2nd con. Elderslie; James and Edward, at Ellengowan. Mrs. Maxwell was a member of the church of England and when in good health was a faithful attender at the Church of the Ascension, where her remains were taken and the burial service was conducted by the rector, Rev. L. W. Diehl, who made a kindly reference to the deceased and the motherly smile with which she greeted friends in recognition during her long illness. The interment took place in the Chesley cemetery beside her three children predeceased. A strange coincidence is that the deceased was buried on the 47th anniversary of her wedding day. Mr. Maxwell and family in their bereavement have the sincere sympathy of their many friends and acquaintances which was shown by the very large congregation assembled at the church service, and also by the flowers laid upon the casket.

"Her voice, her touch, her smile,
Those love-springs flowing o'er,
Earth for its little while
Shall never know them more."

John McKinnon

On Thursday last the Angel of Death gently laid hands upon one of the most respected pioneer residents of this section and piloted his soul to the last haven. Mr John McKinnon had risen that morning in his usual good health, and after partaking of breakfast sat in his arm chair reading, as was his habit. About 10 30 o'clock his daughter, Miss Phemie, who was in the house at the time, noticed his quietude, and upon looking closely found that her father was not breathing. The chord of life had apparently been severed without causing a tremor or a pain in the aged frame. Mr McKinnon was one of the best known men in the Queen Hill section, where he came as one of the first settlers and lived on the farm until old age caused him to relinquish active duties. For several years he has lived on Rose St., Paisley, with his son. We hope to have a more extended sketch of his life for a future issue. The funeral took place on Saturday afternoon, service at the house being conducted by Rev G C Little, assisted by Rev Mr Sawers of Queen Hill. Interment was made in Port Elgin cemetery. The surviving members of the family, five daughters and one son, were all here for the funeral, viz: Miss Swatwell of Port Elgin; Mrs Neil McArthur of Paisley, Misses Christena, Isabella and Euphemia of Toronto, and Peter of Paisley. Rev Alex McGillivray, of Guelph, a nephew of deceased, was also among those present. The pall-bearers were: Peter Thompson, Alex Ernston, Alex Bell, Arch Bell, Alex McGillivray and Dilman Stafford.

Neiven Darroch

Apoplexy was the cause of the death of Neiven Darroch, eldest son of Mr. Donald Darroch, of 7th con. Elderslie. On Sunday, Feb. 20th, the deceased was as well as usual, but as he retired to bed for the night he felt a pain in his head, which proved to be an attack of apoplexy which ended his life on Thursday, Feb. 24th. The subject of this sketch was born in Arran Tp. in 1870, but removed at an early age with his parents to the present family home in Elderslie. Partially disabled in childhood by sunstroke, he nevertheless did not allow this to embitter his cheerful, kindly disposition, nor prevent him taking his full share in life's activities. A sincere and consistent christian, his life showed the fruits of his convictions. His father, three brothers and five sisters mourn the loss of a devoted son and brother. The funeral was held on Saturday to Henderson's cemetery, 7th con, Arran. The services were conducted by Rev. M. Neilson, of Paisley Baptist church.

A Nonagenarian

Elizabeth McBeath, relict of the late Francis Watt, passed away on Feb. 19th at her home in Chesley. Deceased was born near John O'Groat's house in Caithnesshire, Scotland, and emigrated to Canada in 1833. She came to Elderslie with her brothers, the McBeaths of 2nd con., in 1854, and was married in 1860 to Mr. Francis Watt who predeceased her 21 years. Mrs. Watt lived on the 8th con, Elderslie until five years ago when she moved to Chesley. Only one brother of a family of ten, Thomas McBeath living in Paisley, survives her. During this aged lady's illness and fifteen months in bed she was given the most unwearying attention of a daughter with whom she lived. In the passing of Mrs. Watt the oldest member of Geneva church and the oldest resident of Chesley has crossed the great divide.—Enterprise.

BORN

LESLIE—In Bruce, on Feb. 25th, to Mr. and Mrs. Geo. Leslie, a daughter.

STEWART—In Greenock, on Feb 28th, to Mr and Mrs R W Stewart, a son.

DIED

MCKINNON—At Paisley, on Feb. 24th, John McKinnon, aged 85 years and 3 months.

DARROCH—In Elderslie, on Feb. 24th, Neiven Darroch, aged 45 years, 8 months and 5 days.

TURNBULL—In Teeswater, at the home of her daughter, Mrs. Gourlaiock, Mrs. Turnbull, formerly of Queen Hill, aged 86 years.

Old Sight and Old Age.

Old age is a matter of years.
Old sight is a question of glasses
If you find difficulty in reading,
while far distance your sight is good
you require old sight glasses.
Old sight shows itself at about forty
A competent optician should be consulted.
We examine eyes free and guarantee satisfaction.

A STOPPED WATCH

—one that will not go AT ALL—does not cause as much bother as one that runs now fast, now slow, in an erratic fashion.

The first you don't pretend to depend upon—the other is a constant source of annoyance.

Most people can afford a watch, but no one can afford an uncertain fast and slow one.

Add—when our Repair Department is so close at hand there is really no excuse for carrying anything but an accurate time-piece, no matter what the first cost was.

Consult us about any watch troubles that may arise.

W. H. DAVISON

Why Best for Babies?

"Granny" Chamberlain "I am often asked why Chamberlain's Cough Remedy is best for babies. Well, there are several reasons:

First: It is perfectly harmless and can be given with every confidence to the youngest or most delicate child.

Secondly: It contains no alcohol, opium, chloroform, morphine or any other narcotic.

Thirdly: Children like it, and no persuasion is needed to get them to take it.

For the above reasons alone it is impossible to get a better medicine for babies than

Chamberlain's Cough Remedy

But aside from its safety it relieves coughs and colds, is the best remedy known for croup, and when given as soon as the croupy cough appears it will even prevent the attack."

Yours for Health — Granny Chamberlain

JUSTICE (?)

A Toronto landlord sued a tenant for $25 rent, which the latter claimed he had paid. When the case was heard in court the tenant appeared without a lawyer, probably not only believing in the justice of his cause, but reasoning that the fee a lawyer would demand would exceed the amount at issue. He lost his case, but the judge told him that he would certainly have won, if he had retained counsel.

Is the popular idea that courts are tempered with justice to be thus rudely shattered? Is a man to get justice only when he can invest in a high class of legal talent? Are our judges simply mere arbitrators to pass on the merits of a debate between lawyers, just as an umpire in a school or church debating society does?

When members of a debating society grapple with such a question as: "Resolved that General Grant was a greater military leader than Napoleon," and the judge decides in favor of the negative, we have never believed that the decision settled for once and all the point in dispute, but that the winning speakers were most skilled in the use of oratorical weapons than their opponents.

Now, with the decision of the Toronto judge before us, it appears that when John Smith beats Tom Jones in a legal action, the merits of the case do not figure, but simply that Smith had a better lawyer than Jones was able to retain.—Dundas Star.

—It is given out at Toronto as an understood thing that this Province is to have a vote on total prohibition. Through unofficial sources the news has leaked out that in all probability the Government will bring before the House this session a bill providing for total prohibition in Ontario, which, after the usual preliminaries, will be put to the people in the form of a referendum, to become effective, if carried, without any further reference to the Legislature.

More Canadian soldiers are needed on the fighting line, and the sooner Bruce county batallion completes the course of training and is ready for the field the better. With the Germans threatening to break through the French line at Verdun, from whence they would head straight for Paris and London, there should be no necessity of arguing the question with any intelligent, able-bodied Canadian between the ages of 18 and 45. The gaps must be closed with battalions of soldiers, and Canada must continue to send her men until the Allies have fought the Huns to a standstill.

—Sir George Foster is a statesman and politician who ought to know something of the workings of the patronage system as it exists in Canada. This is what he had to say about it in a recent speech at Ottawa:

> I have been in public life for thirty-four years, and during that time I do not know of one case where political patronage ever helped the status of the bench, the civil service, a member of Parliament or the Government. On the other hand, it is always the cause of the dry rot which breaks out and destroys. I hope that in the white light of the present great struggle the two parties will agree to do away with the evil. If there is any laxity in public virtue or corruption, in ninety-nine cases out of one hundred it is due to the baleful effects of party patronage.

The Latest from the Front

A letter from Sergt. Andy Babcock, received by Ross McKenzie, gives the following news from Paisley boys in the trenches under date of Feb. 9th: "We are having splendid weather here at present. Of course we had our share of the disagreeable stuff—rain, mud, and more rain and then some more mud. However, I think the worst of the winter is over here now, and we are not sorry. In your note you asked me to send you a souvenir. I am sorry to say that we aren't allowed to send any war souvenirs from here in the line of shrapnel bullets, French, Belgian or British, of which we can get plenty. I suppose they get enough to carry through the mail without carrying that junk, as it is pretty heavy. I am writing this from the reserve billets about a mile from the firing line. I get THE ADVOCATE quite regularly, and I can assure you I enjoy it very much. It is fine to get a detailed account of everything that is going on in the old burg. All the other Paisley boys are quite well. Gordon Daniels and Jack McDougall have transferred to the Pioneers, so I see more of them now. They used to be in the transport section, you know. My brother Tom has transferred to the trench mortar battery from the 1st Battalion, and he likes it fine. I haven't seen him for three months, but we write occasionally to each other. Sam Tooke is his same old self, and is in the same company as I am. Alex Blue is in C Co., and is standing it alright. Sam Fleming is over in England. He was invalided across there about three months ago. I think rheumatism was his trouble. Hope everybody is well in the old burg, as this leaves me."

THE JOY OF BEING ALIVE AND WELL

Restored To Health By "Fruit-a-tives" The Famous Fruit Medicine

MDE. ROCHON

Rochon, P.Q. March 2nd, 1915.

"I have received the most wonderful benefit from taking 'Fruit-a-tives'. I suffered for years from *Rheumatism* and change of life, and I took every remedy obtainable, without any good results. I heard of 'Fruit-a-tives' and gave it a trial and it was the *only medicine that really did me good.* Now I am entirely well; the Rheumatism has disappeared and the terrible pains in my body are all gone. I am exceedingly *grateful to 'Fruit-a-tives' for such relief,* and I hope that others who suffer from such distressing diseases will try 'Fruit-a-tives' and get well".

MADAME ISAIE ROCHON.

The marvellous work that 'Fruit-a-tives' is doing, in overcoming disease and healing the sick, is winning the admiration of thousands and thousands.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

A Real Optimist

It was in the far south, where the orange blossoms grow and nobody gets out of the way of anything unless he rolls off a log to do it.

"How's times?" asked the tourist.

"Pretty tolerable, stranger," responded the old fellow, who was sitting idly on the stump of a tree. "I had a pile of brush to burn and the lightning set fire to it and saved me the trouble of burning it up."

"That was good."

"I had some trees to cut down but the cyclone levelled them and saved me the trouble."

"Remarkable! But what are you doing now?"

"Waiting for an earthquake to come along and shake the potatoes out of the ground."

Benefits of Education

The benefits of education were the topic of conversation at the village club—no, not pub, please! Old Farmer Ricks was asked to give his views on the matter, as his son had been to college.

"Well, I don't know much about eddycation," replied the sturdy old chap, "but I do know as when our Robert came back from that college place he started to teach me agriculture. But I soon settled him." The remark ended in a chuckle.

"What did you do?" asked the listener.

"Set him to round up a swarm of bees," was the brief reply.

"Was the experiment a success?"

"Well, partly. It didn't hurt the bees, and it kept Robert out of the way for nearly two weeks."

A THOUGHTFUL GIFT

Send THE ADVOCATE to the absent member of the family or to the distant friend. It is as good as a letter from home and is a weekly visitor. You can better imagine how the home paper is appreciated when you are absent yourself and a copy is forwarded to you.

THE STANDARD BANK OF CANADA

THE 41st Annual Meeting of the Shareholders of the Standard Bank of Canada was held at the Head Office of the Bank, 15 King St. West, Toronto, on Wednesday, the 23rd of February, 1916. A large number of Shareholders were present. The President, Mr. W. F. Cowan, took the chair, and the Secretary read the following report:—

The Directors beg to submit to the Shareholders the Forty-first Annual Report and Statements of the Bank as of the 31st of January, 1916, together with the Balance Sheet of Profit and Loss Account, showing the results of the year's operations.

It will be observed that Deposits have increased by the sum of $5,058,944, and now amount to $43,099,050;

The Circulation by $574,560, and now amounting to $3,271,763;

The Cash Assets amount to $12,892,147;

The Quick Assets show an increase of $2,548,451, and now stand at $18,414,889;

Loans to the Public $33,942,914, as against $31,426,114 a year ago.

The Net Profits, after making provision for cost of management, accrued interest on deposits, rebate of bills discounted and providing for bad and doubtful debts, amount to $563,401, being equal to 18.78 per cent on the capital, or 8.04 per cent on capital and rest. This amount added to the balance of $53,140.63 brought forward from last year, makes the sum of $616,542.00, which has been appropriated as follows:—

Four quarterly dividends at the rate of 13 per cent per annum amounting to	$390,000.00
Contributed to Officers' Pension Fund	15,000.00
Contributed to Patriotic and other Funds	20,900.00
Government Tax on Circulation	29,095.31
Reserved for depreciation in the value of securities held by Bank	100,000.00
Balance carried forward	61,646.89

Branches of the Bank have been opened during the year at—Eston, Sask.; Lomond, Alta.; Wooler, Ont. (sub. to Trenton), and in Toronto, Bathurst St., opposite Arthur St.; Eglinton, No. 2451 Yonge St., and closed at Consecon, Ont.; Crescent Heights (sub. to Calgary, Alta.), Dunsford (sub. to Lindsay), Hamilton Mountain (sub. branch), Locust Hill, Ont. (sub. to Markham), Malvern, Ont. (sub. to Markham.)

The number of branches now open is 121.

During the year the Bank subscribed to the Dominion War Loan for $1,000,000, and was allotted $537,800, on account of its subscription.

The usual inspection of the Branches has been carefully made during the year and it affords me pleasure to record the zeal and efficiency of the staff.

The auditor, Mr. Geoffrey T. Clarkson, of the firm of Clarkson, Gordon & Dilworth, Toronto, whose report is appended, is eligible for re-election as auditor for the ensuing year.

W. F. COWAN, President.

W. F. COWAN, President. GEORGE P. SCHOLFIELD, General Manager.

AUDITOR'S REPORT TO THE SHAREHOLDERS.

I have compared the above Balance Sheet with the books and accounts at the chief office of The Standard Bank of Canada, and with the certified returns received from its branches, and after checking the cash and verifying the securities at the chief office and certain of the principal branches on Jan. 31st, 1916, I certify that in my opinion such Balance Sheet exhibits a true and correct view of the state of the Bank's affairs, according to the best of my information, the explanations given to me, and as shown by the books of the Bank.

In addition to the examination mentioned, the cash and securities at the chief office and certain of the principal branches were checked and verified by me at another time during the year, and found to be in accord with the books of the Bank.

All information and explanations required have been given to me, and all transactions of the Bank which have come under my notice have, in my opinion, been within the powers of the Bank.

G. T. CLARKSON, Chartered Accountant,
Toronto, February 12th, 1916. of Clarkson, Gordon & Dilworth, Toronto, Canada.

The usual motions were passed, and the scrutineers appointed reported the following gentlemen elected as Directors for the ensuing year: Mr. W. F. Cowan, Mr. Wellington Francis, K.C., Mr. W. F. Allen, Mr. F. W. Cowan, Mr. H. Langlois, Mr. T. H. McMillan, Mr. G. P. Scholfield, and Mr. T. H. Wood. At a subsequent meeting of the Directors Mr. W. F. Cowan was re-elected President, and Mr. Wellington Francis, K.C., Vice President.

Toronto, February 23rd, 1916. G. P. SCHOLFIELD, General Manager.

WOMAN HAD NERVOUS TROUBLE

Lydia E. Pinkham's Vegetable Compound Helped Her.

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I have also had my oldest girl take it and it did her lots of good. I keep it in the house all the time and recommend it."—Mrs. DEWITT SINCEBAUGH, West Danby, N. Y.

Sleeplessness, nervousness, irritability, backache, headaches, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

D. FORRESTER, B.A., L.L.B.
BARRISTER, SOLICITOR AND NOTARY PUBLIC
OFFICE—TOWN HALL, PAISLEY

MEDICAL

DR. H. E. GAGE, Physician, Surgeon and Accoucheur. Specialist in Diseases of the Eye, Ear, Nose and Throat. Late house surgeon Kingston General Hospital. Office hours —8 to 9 a.m., 1 to 4 p.m. Successor to Dr. O'Neill.

DR. C. J. F. HOUSTON, Honor Graduate of Toronto University. Licentiate of the Royal Colleges of Physicians and Surgeons of Edinburgh and Glasgow. Post-graduate Coombe Lying-in-Hospital, Dublin. Late assistant Edinburgh Eye Infirmary. SPECIALTY—Diseases of the Eye, Ear, Nose and Throat. Successor to Dr. Morrison.

DENTAL

DR. A. H ALLEN
DENTIST, formerly of Toronto.
Graduate of the Royal College of Dental Surgeons of Ontario. Honor Graduate of Toronto University Dental Department. Master of Dental Surgery. Graduate of the Dr. Meyers' Post Graduate School of Prosthetic Dentistry, New York. Office over Morse Grocery store, opposite the Post Office.

VETERINARY

R. B. GRANT, V. S., Graduate of Ontario Veterinary College, Toronto. Government inspector of contagious diseases; apply Tuberculin test in cattle. Also inspect export stock and issue certificates for same. Oxygen gas treatment for milk fever. Office and residence opposite the old Northern Hotel.

The Housewife's Corner

Recipes for Thrifty Cooks.

Chocolate Cake.—If it is desired to make a chocolate cake it will be necessary to cut down the amount of shortening used, in order to avoid making the mixture too rich. Two squares of melted chocolate, or four tablespoonfuls of cocoa dissolved in boiling water, added to the recipe given above will make a fairly rich chocolate cake.

Hot Water Gingerbread may be made as follows: One cup of molasses, one scant teaspoonful of soda, one tablespoonful of ginger, one-half teaspoonful of salt, one tablespoonful of shortening melted, one-half teaspoonful of salt, one-half cupful boiling water, two cups of flour. Mix the ingredients in the order given and beat well. Bake in a shallow pan in a rather hot oven about 20 minutes.

Kidney Saute.—Wash beef or lamb kidneys, skin, halve downward, removing pipes and all white portions, scald with boiling water and cut into slices. Have one tablespoonful butter or more, according to amount of kidneys, sizzling in pan, add kidneys and saute for a few minutes. Add one can tomatoes (with some of the liquid drained off), dash of onion juice and of pepper, cover and let simmer until almost cooked. Add salt, and finish cooking. Wash and stir frequently to prevent burning. Serve on toast.

Salt Fish Dinner.—One pound codfish, one-half pound salt pork, two cups milk (skimmed will do), two tablespoons each of fat and flour, speck salt, dash red pepper. Cut codfish into strips, soak in lukewarm water several hours, and cook below boiling point until tender. Cut pork into one-fourth inch slices, cut gash in each piece, fry slowly until golden brown and remove, pouring off fat. Out of two tablespoons fat, flour, seasoning and milk, make cream sauce. Put codfish on platter, with pieces of pork around it. Serve with boiled potatoes and cream sauce.

One Egg Raisin Cake.—One pound seeded raisins, two tablespoons butter, two tablespoons cinnamon, two cups sugar, one teaspoon allspice, one cup strong coffee, one cup water and one cup brown coffee. Latter gives cake rich brown color. Boil this mixture five minutes and set aside to cool. When cool, add beaten egg, flour and baking powder, sifted into flour. Mix thoroughly, and put into well buttered pan. Bake three-quarters of an hour in moderately hot oven.

Rich Cake.—One and a half pounds flour, one pound castor sugar, one pound butter, one pound sultanas, one half pound currants, one half pound raisins, one and a half ounces mixed peel, one nutmeg, one teaspoon mixed spice, one teaspoon flavoring, one teaspoon carbonate soda, one tablespoon vinegar (put on soda in a teacup last of all), six eggs. Cream butter, put sugar in, beat eggs up and put in gradually. Warm basin, put in butter and beat up with a wooden spoon. Mix fruit, flour, etc., and gradually add it to butter and eggs. Add soda and vinegar last, and a little milk if required. Make a good stiff batter so that it will drop off the spoon but not run.

Parker House Rolls.—Parker House rolls are sometimes called pocketbook rolls, because they are folded over in much the same way as a pocketbook folds. These are usually served for dinner, although they are very good for breakfast, also. Two cups of flour, four teaspoonfuls baking powder, one tablespoonful sugar, one-half teaspoonful salt, three tablespoonfuls butter or fat, three-quarter cupful milk. Sift the flour, salt and baking powder together, add the butter and mix thoroughly. Then add the milk gradually. When well mixed turn onto a floured board, roll out one-fourth of an inch thick and cut with a large biscuit cutter. Make a crease in the centre of each round, spread with melted butter and fold one edge over onto the other, pressing the edges together. Place in greased pans and bake in a quick oven for twenty minutes.

Chocolate Cake.—Work one-fourth cup butter until creamy, using wooden cake spoon. Add one cup sugar gradually, beating constantly, then two squares melted, unsweetened chocolate and two well-beaten eggs, one-half cup milk and one and one-third cup pastry flour (once sifted), mixed and sifted with three tablespoons baking powder and one-half teaspoon salt. Turn into buttered and floured cake pan and bake in moderate oven forty-five minutes. Remove from pan to cake rack, cover, with white frosting and spread frosting evenly with thin layer of melted, unsweetened chocolate, with back of spoon. To prepare pan, grease first with melted fat, applying with butter brush. If butter is used, melt it first and let stand on back of range. Salt will fall to bottom of dish. Just before putting cake mixture in pan, dredge pan with flour, invert and shake pan to get rid of superfluous flour.

Household Hints.

Rice is very nourishing and should be served in many different ways.

Rice pudding sweetened with brown sugar will have a much richer flavor.

Scraped raw potatoes put into decanters will clean them if left for two or three days.

Always put the scrubbing brush to dry with the bristles down. This will save the brush.

Carrots are delicious boiled until tender, and then served in a gravy made of white stock.

When the provision of meat is rather small, serve soup to take the edge off the appetite.

Never buy spices in large quantities—they lose their flavor before you can use them up.

If you want to be sure that the bread pudding will be light, add a little baking powder to it.

Lemon juice and cayenne are excellent used in French dressings, instead of black pepper and vinegar.

A very little glycerine smeared around the glass stoppers of bottles will keep them from sticking for a long time.

After roasting a piece of meat, which is to be served cold, wrap it in cheesecloth while hot. This preserves the flavor.

A good breakfast toast is made by dipping the slices of bread in a pint of milk to which a beaten egg and a pinch of salt are added, and frying.

To prevent a knitted jersey from shrinking—Stitch a band of washing silk or soft linen the size of the waist inside it. It will keep it in perfect shape.

To keep yolks of eggs fresh—If only the white is needed cover the yolks gently with a little cold water, so as not to break it. It will keep fresh for several days.

When the chimney does not draw well, try opening the windows in the room for a few minutes before starting the fire and see if that will not help the draught.

To freshen a velvet tam hat hold the crown over boiling water and brush the nap up with a stiff, fibre clothes brush. Be careful not to touch the velvet till it is dry.

WORK FOR THE DISABLED.

Crippled Soldiers May Become Cigarette Makers.

Major Astor, owner of an estate at Cliveden, England where the Canadian Red Cross Hospital is situated, is erecting a workshop where permanently disabled patients may learn woodworking prior to being discharged to civil life. Cigarette making will also shortly form an industry for Cliveden men who have lost an arm. They will be able to do this with the aid of machinery. The new enterprise will start in a few weeks, and is expected almost to pay its own expenses from the start. Wages will be paid to the workers, but the money so earned will be withheld until the man is discharged from the army, thus providing him a small capital with which to re-enter civil life. This new addition to the usefulness of the hospital is undertaken under the auspices of the Lord Roberts Memorial Workshops schemes.

Col. Gorrell and his staff at Cliveden and all the Canadians have their hands full. To revisit, the hospital there is to find that at an institution which twelve months ago was pretty well confined to a covered tennis court, has now spread itself over the adjacent gulf links. The long wards of asbestos construction are always full, and are called after the different provinces of Canada. Last Friday 158 patients arrived, and were all transferred from the railway some miles distant, examined, and put comfortably in bed inside of an hour and ten minutes. Canada has reason to be proud of its hospitals at Cliveden.

TAIL IN HIS LIFE-SAVER

The King Crab Uses It to Put Him on His Feet

The king crab uses his tail for a life preserver. Probably you can't imagine what a use animal wants of a life preserver. If you watch this creature long enough, either along the beach or in an aquarium, you'll find out. He's got a shell on his back and a long, spiny tail that looks as if it could be used as a weapon of defence.

Sometimes the king crab gets turned over on his back. His feet are all curled up in the shell, so he can't touch anything with them; therefore when he's on his back he's helpless.

This is where the long tail comes in as a life preserver. The king crab sticks the point of the tail in the sand and lifts himself until he makes an arch with his body. Then he swings sidewise, back and forth, until with one final effort he flops himself over right side up at last.

Along the Jersey coast they reckon the beginning of summer by the king crabs. About the time of the full moon in June, they say, the king crabs come upon the sand to lay their eggs. Men and boys go down on the beach with wagons and shovels and scoop up the crabs by the bushel. Then they feed them to the poultry.

One thing at a time, and that done well, is a very good motto, as many can tell.

RESIGNS FROM ILL-HEALTH

GENERAL JAN C. SMUTS

SIR H. L. SMITH-DORRIEN.

Sir Horace Lockwood Smith-Dorrien who has for a short time been in command of the British troops operating against the Germans in East Africa, has been forced to resign on account of illness. He has been succeeded by Lieut-Gen. Jan C. Smuts, who is Minister of Defence in South Africa. Sir H. Smith-Dorrien, formerly had command of the second army in Flanders, and received great praise for his leadership here.

THE SUNDAY SCHOOL

INTERNATIONAL LESSON. MARCH 5.

Death of Stephen—Acts 7. 1 to 8. 3; Golden Text: Rev. 2: 10.

Verse 54. These things—The biting summary which closes Stephen's survey of the national history. They had received divine messages throughout their annals, and had always neglected the message and persecuted the messenger. Stephen is applying afresh the parable of the wicked husbandmen. But for them "the most unkindest cut of all" was in his declaration that they had "not kept" the law of which they were so proud. Like Paul (Gal. 3. 19), Stephen holds the usual Jewish view that the law was delivered by angels; later reflection on the awful holiness of God tended to explain the naive theophanies of earlier records as appearances of angels. Cut—Literally, "were being sawn asunder in their hearts, and were gnashing," etc.; the verbs describe their emotions through the part of the speech summarized in verses 51 53. Heart is a little misleading to us, for it includes more than our word implies. Stephen never touched their heart, in our sense; he roused every passion, stung pride and bigotry to fury, till all around the assembly could be heard the physical signs of a wild beast rage.

55. Being—A stronger verb is used which reminds us that this is no new influx of "Holy Spirit" bringing the beautiful vision. It had been with him in full measure all through. Jesus—The human name is very significant. Here only is he standing at the right hand; he has risen from his throne to welcome his first martyr.

56. Opened—Not the usual word in this connection, but stronger. In days when the sky was conceived as a series of concentric transparent spheres, material and solid, it was natural to picture them "cloven" (Mark 1: 10) to reveal the spiritual realities behind. The Son of man—the favorite title for himself on the lips of Jesus, but only here used by another. There has been acute controversy as to its primary implication; but the best view seems to be that which links it with Dan. 7. 13. By calling himself "Son of man," Jesus was claiming to be the Fulfiller of the apocalyptic vision. We remember that he sealed his own doom at the trial by quoting that very verse (Mark 14. 62). It will be found that nearly always in the Gospels the recognition of this allusion adds obviously to the force of the saying.

57. The sting of Stephen's recantation was in its recalling so vividly the declaration of Jesus just referred to, although they had crucified him—he was on the right hand of Power after all! They stopped their ears against a hateful fact that was making its appeal. What was Saul of Tarsus thinking of when he joined (or led) the uproar? Let the ought of Acts. 26. 9 point toward the answer.

58. Cast him out—For in their frenzy of wrath they were careful to keep all the parts of the law that did not matter. Compare Heb. 13. 11, 12. Witnesses—Who had to take the responsibility of casting the first stone—which in a normal execution would be intended to produce insensibility or death. See Deut. 17. 7. So when Jesus bade the sinless cast the first stone at the adulteress, such a person would by his life be a silent witness against a sinner. Laid down their garments—The outer garments; any hot work was done "in shirt sleeves," as we should say. The tense of the verb stoned suggests that the cruel work was prolonged. Young man—Presumably under thirty. How he "kept the garments of them that slew" Stephen, he recalls himself in Acts 22. 20. It is obvious that he was of commanding position, as is shown also by his being intrusted with the special mission of Acts 9. 2. Delssmann's thesis (in his fascinating monograph Saint Paul),that he was an artisan, is based on facts easily explained otherwise and seems quite untenable. His father had Roman citizenship (Acts 22. 28), and sent him to study under the greatest of rabbis (Acts 22. 3); that he cut him off when he became a Christian was to be expected, and Paul then had to keen himself. Every Jew had to learn a trade. Saul—A natural name for a Benjamite. For use among Gentiles he had the similar-sounding name Paullus. Compare Silas—Silvanus, Symeon—Simon, Menahem—Menander, Eliakim—Alcimus, etc.

59. Calling upon—The object of the verb is contained in the address, Lord Jesus. Note how naturally at this early period the Man of Calvary becomes the recipient of prayer, and the same prayer that Jesus offered to the Father (Luke 23. 46).

60. The dying prayer goes back directly to Luke 6. 28. It is not likely that Stephen had ever heard how the Lord had fulfilled his own command. Three evangelists pass over his prayer for the executioners and others responsible for his death, and (as the margin in Luke 23. 24 hints) the saying was not known in the church till after our Gospels were written. Probably the centurion told the story years after; only he and his four men heard them spoken. Lay not—Literally, weigh not, a figure from weighing money that represents a debt. Compare Matt. 26. 15, where the same verb is used. For sin as a debt to God compare the Lord's prayer. Fell asleep—The verb gives us our word cemetery (that is, a dormitory, sleeping place). It had long been in use for Sleep's "brother death"; but when we read the typical words of the Roman Catullus's lovely poem—"For us, when once our brief day has set, ther abides one unending night when we must sleep"—we feel that the idea has with Christ come into a new world.

8. 1. Consenting—And Paul himself tells us (Rom. 1. 32) that approval of an evil deed is even worse than the doing of it: there is an element of hot blood eliminated which may dilute the guilt. Except the apostles—The reason is not very clear. Was it that they, like James the Lord's brother, observed Jewish piety so faithfully that they were overlooked? It is hardly likely. We may suppose that they felt that duty bound them to Jerusalem till a clear mandate came, and that they succeeded in hiding till the storm spirited down.

2. Devout—Proselytes, not Jewish born. They naturally felt peculiar devotion to the memory of the first heroic martyr.

3. Laid waste—Paul's own word (Gal. 1. 23); literally, sacked, appropriate to Huns sacking a town. Is repeated in Acts 9. 21.

The individual who hates mankind is generally a close student of his own nature.

Most of us believe in doing to others as we would have them do to us. But we generally wait for them to do it first.

"I always believe in saving something for a rainy day." "How much have you saved?" "Oh, I haven't saved anything, but I believe in it."

"That man invariably agrees with what I say," said the argumentative person. "Rather complimentary." "Not at all. He would rather agree with me than pay attention to what I am saying."

Mrs. Ryan—They do be afther sayin' that old man Kelly has got locomotor taxy." Mrs. Murphy—"Well, he's got the money to run wan av them if he wants ter, bit I'd rather have a good horse any day."

FRANCE SURE OF VICTORY

New Guns and Explosives Will Blast Out the Germans.

This war will not end in a draw or a stalmate. The military authorities of France make this statement most positively.

It is part of the German campaign for peace, now that Germany realizes that all hope of a favorable outcome for her is ended, to speak of deadlocks, said one of the French War Office officials recently. France knows this is "victory year."

General Joffre himself, in his order to the army on January 1, said that the 1916 is to be one of glory for French arms. Other generals have been more free in characterizing 1916 as "victory year."

To prevent the public from being impressed by statements to the effect that neither side could win a decisive victory, some of the French authorities now are willing to show part of the positive proofs which they have of the certainty of their coming victory. These proofs are located at the great French armament and munitions factories at Creusot.

At present the work of the Creusto plants has been so far advanced, the results of the tremendous exertions put forth there during the last year and a half are so noticeable and the production of the plant has been so huge that it is considered there is no longer much need of making a mystery of the chief work that has been going on or of concealing the enormous production of the factories. Should secrets get out now it would be too late for Germany to profit by it.

France worked feverishly in her armament preparations and the work is practically done, so far, at least as it is considered necessary for the great effort which is to be put forth this year by the army in order to achieve the decisive victory. It now is admitted that at Creusot plants not only the greatest steel-making and ammunition-making talent of the country was mobolized, but also the great inventors and authorities in the departments of chemistry and physics.

France to-day is equipped with new model guns, with new types of rifles, and, above all, with new kinds of powder, and these are so far superior to what France's enemies are known to have that they form the chief basis for the Government's certainty of being able to blast its way triumphantly through the armored trenches on the western front and to destroy a substantial part of the enemy's military forces, unless he withdraws and accepts the peace conditions which will be imposed.

RUSSIA REDIVIVOUS

Graft and Inefficiency Are Fast Vanishing There.

The beginning of a tremendous, if not spectacular regeneration of internal Russia is strikingly apparent to any observer of Russian affairs, who is familiar with the disorderly condition in Russia six months ago, compare it with the effective industrial and military machinery of to-day.

An Associated Press correspondent who left Russia when its military fortunes were at the lowest ebb, with an inadequately provisioned and munitioned army, and inefficient internal management not only defeating the chances of military achievement for the moment, but creating a spirit of uneasiness and criticism among the people which threatened national solidarity, returned to find the country thoroughly reorganized.

Graft and bribery had been seemingly to a great extend weeded out. Officials bound to be incompetent and engaged in intrigues, who had held up munition contracts and clogged the wheels of the machinery of army equipment and provisioning, and in general conducted the business of war as if it were an operation for their personal profit, have been dismissed.

A great factor in the increased strength of the Russian army is the character of the new troops, which are vastly superior in intelligence and training to those with which Russia started the war, and the greater confidence and higher spirit of the whole army, based on the knowledge of plentiful equipment. One of the most prominent leaders in the Duma informed the Associated Press that the principal questions which would occupy the attention of that body were: The creation of a new system of co-operative societies, which proposed to eliminate the present excessive profits by reducing prices of ordinary commodities to a normal level; new legislation issuing from towns and municipalities, which are flooded with refugees to care for and govern the new population; extension of the franchise in order to meet a situation in which the major part of the enfranchised citizens are at the front, and an attempt to improve transportation facilities.

Judge (to prisoner)—"How big was the stone you threw; was it as big as my head?" Prisoner (smiling)—"Yes, your honor, but not so thick."

Detective—"Now give me a description of your missing cashier. How tall is he?" Employer—"I don't know how tall he is. What worries me is that he is $7,000 short."

ANZAC "BAGGED" OVER 200 TURKS

TROOPER W. E. SING, THE CHAMPION SNIPER.

Australia's Noted Rifle Shot Played the Enemy at His Own Game.

A graphic account of the wonderful work of an Australian marksmen on the Gallipoli Peninsular, written by Private Frank Reed, another Australian, is published in the "Cairo Evening Mail." The Central News correspondent sends the following extracts:

Trooper W. E. Sing may well be termed Australia's champion rifle shot, for during the time he was on Gallipoli he accounted for over 200 Turks. Of course, during enemy attacks he probably shot many more; but as a sniper he knows that over 200 fell, owing to his excellent marksmanship.

Sing's sniping methods were somewhat similar to those of the Turks he played them at their own game, and beat them badly. His "poky" was so close to the Turkish trenches that their artillery rarely troubled him. Comfortably ensconced in his nest, Sing lay with a couple of telescopes focussed on likely places. An officer lay near with another telescope. So afraid were the Turks of these unlucky spots that the patient sniper often lay a whole day without getting a glimpse of the enemy. On other days the Turks (new troops probably) looked for trouble. They walked boldly into view at a bare 500 yards, and Sing, as he toppled them over, exclaimed, "It's too easy to be called sport."

"Spotted" by the Turks.

At first, the enemy had not the slightest idea whence the death dealing bullets came. Often Sing would bag a Turk, and the enemy would blaze furiously at some of our loopholes a hundred yards away. But after a time they located him, and the sand bags and bushes around his "posy" were riddled with bullets. On one occasion a bullet found its way through the loophole badly wounding a sergeant who was observing the slightly wounded Sing. Another sergeant took the telescope, and Sing, after having his wound dressed, resumed his sniping.

One day a Turk who knew the danger spot bobbed up his head for an instant and then disappeared. The imperturbable Sing never moved—just kept his rifle focussed on to where he knew the Turk must show up. A couple of minutes later a head appeared in the sun then the shoulders, then the chest. There was a sharp crack of the rifle. The Turk threw up his arms and collapsed in an ugly heap. The marker notched another to Billy Sing.

Wanted the Other Chap.

A well-known general once crawled up into Sing's "posy" to observe for him. Sing was in a bad mood, for he was blowing hard and he had missed a man—actually missed a man at 300 yards! "I'll have to start and learn shooting again," he said, disgustedly. Just then a hat showed on a parapet 500 yards off. Once more Sing sighted and waited. Soon a head appeared, and Sing pulled the trigger. As he fired two things happened. A gust of wind blew strongly across the valley, and the keen-eyed Australian knew that it would deflect his bullet at least a foot to the right. He swore softly to himself, but as he fired another Turk poked up his head right next to the first one and received the bullet fair in the face. "I say, sir," said Sing, "I'm awfully sorry for that poor old Turk. I never meant to hit him. I wanted the other chap. I don't think I'll count him."

WEIRD INVENTIONS

Britons Offer Many Devices to Scare Germans

Snares for submarines, frighteners for Zeppelins and traps for the Germans in the trenches, are but a few of the weird devices produced by amateur inventors that the British Munitions Inventions' Department is called on to consider. One look by the expert settles their fate, with rare exceptions, for most of the inventions are ignorant of the science of mechanics.

These appliances as a rule look like the work of professional humorists. But their authors are annoyingly in earnest. As an example of the kind of schemes the department is asked to consider, one man proposed this scheme: the department is asked to consider, one man proposed this scheme for catching submarines. Ships equipped with a running noose of steel rope and a plate glass window in the keel where to engage in the chase. When the watcher at the plate glass window reported a submarine, the men on the deck would pull the noose around the body of the unsuspecting victim, then haul up and bring it as a prize into harbor. Another invention ignoring the mechanical details, invented hopping motors to use in breaking through the Germans' lines.

The motors, heavily armored and bristling with guns were to jump like grasshoppers over obstacles and the trenches. Half a million spring-legged motors, according to the inventor would end the war. There have been many types of "Zeppelin strafers" submitted. But non has been adopted

It's good for little girls, too

Everybody—young and old—loves the rich, delicious flavor of

EDWARDSBURG "Crown Brand" CORN SYRUP

It is a daily treat—the perfect sweet. Just what the children should have on Bread—costs far less than butter or preserves. Delicious with Hot Biscuits, and Batter Cakes. Gives a new delight to Baked Apples, Blanc-Mange and Puddings. Makes the best Caudy you ever tasted.

"LILY WHITE" is a pure white Corn Syrup, not as pronounced in flavor as "Crown Brand". *Your Grocer has both Brands, in 2, 5, 10 and 20 pound tins—or can easily get them for you.*

The Canada Starch Co. Limited, Montreal

AUSTRALIA RULES GERMAN ISLANDS

NATIVES LIKE THE CHANGE TO BRITISH SWAY.

Proclamation in Pidgin English Announced New Master—Big Strong Fellow.

Whatever the ultimate destiny of the black, ugly, barbarous, and yet pathetically childlike people of what was until the war German New Guinea—that is to say, whether, when the grand settlement takes place, they will remain under the Union Jack or be returned to their erstwhile masters—it is certain that they are happier under the Australian military administration than they would have been had Germany been victorious in the Pacific. Notwithstanding the Commonwealth insists on keeping itself "white," it must be said for it that a just and kindly spirit has animated it in its relations with and its attitude towards the natives in Papua, which is Australia's one dependency, and, for a year or more, the aborigines of Kaiser Wilhelm's Land and the Bismarck Archipelago. These last have, by reason of the war, become Australia's charges.

In a bash of pidgin English words for the better understanding of the colored populace Col. Holmes signalized the seizure of those colonies of the Kaiser something more than a twelvemonth ago in a proclamation beginning like this:

"All boys belongina all place you sarry big fellow master. He strong feller to much. You like him all ship stop place; he small feller ship belongina him; plenty more big feller he stop place belongina him; now he come here to take him all place. He look out good you feller, now he like you feller look out good along him. Supposing other feller master he been speak you. 'You no work along new feller master,' he gammon. Supposing you work good with this new feller master he look out good along with you; he look out you get plenty good feller Kaikaid (food); he no fighting black feller boy along notaing ...."

The purport of this proclamation was that the "new feller master," King George, personified in the Australian military, would see to it, if the "black fellers" obeyed the law and did not fight with each other, steal each other's wives, or practice cannibalism, they would be well treated; and this promise has ben lived up to.

Floggings Abolished.

One of the best executives in the Commonwealth, Col. S. A. Pethebridge was sent from Melbourne to Rabaul in New Pomerania to act as administrator when Col. Holmes and his troops had been withdrawn, and one of the first acts which marked the Australian regime was the abolition of flogging of natives on plantations, except inheinous cases. Planters and the Germans remaining in Rabaul say that the Australians have in this made a mistake, because unless a planter has power to whip a "boy" plantation discipline suffers; but, however this may be, there is no doubt that under German rule flogging was far too often and much too severely resorted to, so much so that in at least one case a native plantation hand committed suicide rather than undergo punishment by his brutal German employer. Nor were lashes the only thing under the former Governments for it is on record that some German planters cut off the toes of refractory "boys," and otherwise mutilated them.

Of course it will be offered in extenuation of this that the average Papaun or New Pomeranian is lazy, treacherous, greedy, brutish, and, at heart, anthropophagous; and that the only principle to be followed in dealing with him is to keep him in a state of fear; yet the Australians have done much for and with the natives in Papua, and they are managing their wards in the former German possessions with neither the rigor nor the exploitation, one or both of which Germany displayed toward subject races. Indeed, the Papuan is not the hopeless savage that he is credited with being, as Christian missionaries and equable and promotive government have proved. So there is a like good prospect for the New Pomeranians and all the rest of the peoples in the Bismarck Archipelago.

A Scene at Rabaul.

A pleasant pen picture is afforded by Lieut. W. H. Phipps, of the Australian garrison. Rabaul, in a recent issue of the Sydney Sun. Writing under the date of October 31 the lieutenant says:

"Tumultuous cries from the natives signal to the whole population of Rabaul the incoming of a steamer from Australia. A merry lot they are, these laughing 'boys' hurrying to the wharf to assist in unloading cargo and wheeling it along the trackway to the garrison and private stores.

"Here they come, in gayly colored lava-lavas from waist to knee, frisking up their wooly hair with wooden combs, setting in place blossoms of scarlet hibiscus, variegated poinciana, or the fuchsia, like poinsettias. Nose and ear ornaments, necklaces of teeth of dogs or flying foxes, arm and leg bands which do duty as pockets, and perhaps some brass jewelry are worn by these merry wharf laborers, who turn working into play. Here is some strapping fellow with white hair which to-morrow will be carroty, for it is in process of bleaching, with lime as the agent. All have teeth blackened by much chewing of betel nut. They joke and slap one another playfully as they run along under the flame trees, and then to the wharf bridging the bright green shallows of the opaline bay.

"At the ship's side they are formed into gangs in control of 'Number One boys' and all day long they work and shout and play, making more noise than progress, but still doing plenty for the few shillings a month paid for the labor. Around the ship and out on the bay are the catmarans of visiting natives, marketing pawpaws, sourops, limes, coconnuts, yams, sweet potatoes, pigs, and fowls. Further off are trading schooners and the motor boats of the garrison. Fringing the harbor are coconnut palms, bending graceful heads to the sea breeze. And under the trees are 'Marys' (women) cutting grass with long knives, stopping frequently to point at the ship unloading, and to shout welcome to acquaintances.

"Life in the garrison town of Rabaul would be dull without these dusky, full-grown children. Not all are of New Britain. Many have come from New Guinea and smaller islands. Some have made paper (signed indentures), some are free, and some are 'calaboose,' boys serving sentences for crimes ranging from petty theft to murder. 'Paper' and free 'boys' mostly desire to be policemen, for police 'boys' wear belts, carry rifles, and have military drill.

"White men in the garrison are kind to the natives; sometimes they spoil them, especially the house servants. As desired, though some make attentive waiters and passable cooks, they are careful nurses. White missionary women have 'boys' to carry the children when out walking."

"Are all these things injurious to my health?" asked the patient after he had inspected the list of things he must not eat. "No," said the doctor, "but you've got to economize somehow if you're going to pay my bill."

Willie (looking curiously at the visitor)—"Where did the hen bite you, Mr. Jones? I don't see any marks." Mr. Jones—"Why, Willie, I haven't been bitten by any hen." Willie—"Mamma, didn't you tell papa Mr. Jones was dreadfully henpecked?"

FOR THE THRONE OF ALBANIA

PRINCE WILLIAM OF WIED AND THE PRINCESS

The German and Austrian Emperors are said to be planning a triumphal re-entry into Albania for this couple. Prince William was driven out of Albania after a short rule and has had a most checkered career. He is the Kaiser's choice for King of the little country.

AMERICAN DECLARES BRITISH VICTORIOUS

SITUATION AT PRESENT QUITE CHEERFUL

Only Way for Germany to Win is to Defeat the British Fleet

The New York Tribune editorially demonstrates by analysis the portentous fact of "Germany's" defeat.

It is not without design for the editor, Mr. Frank Simonds, who is regarded as the ablest writer in America on the military problems of the war, chooses the moment at which the German successes in the field seem to be at high tide in order to emphasize the inexorable fact that Germany is facing irretrievable defeat.

He starts by pointing out that the absolute mastery of the seas established by Great Britain constitutes the most decisive factor in the whole war. In losing the ability to use the sea, he says Germany has lost a decisive battle far more serious than that at the Marne. He proceeds: "The right to use the sea Germany can regain only in two ways—by compelling Great Britain to relinquish the command of the seas or by complying with the terms fixed by Great Britain as the price of the use of seas. One would think the consequence of victory, the other of defeat.

Territory Doesn't Count

"But up to the present moment Germany has not been able in the smallest way to exert any force upon Great Britain to compel her to give up the mastery of the seas. Every effort made by the Germans has ended in a decisive defeat. If you get against the German occupation of 8,000 square miles of French territory the British control of the sea you have measured the exact condition between the contending Powers of the West.

"It is plain that no hardships of France is comparable with that of Germany; because France, thanks to British sea power, is able to get coal and iron from abroad. She has now been able to reorganize her industrial establishments in such a fashion that what used to be made at Lille, Roubaix, St. Quentin and Tourcoing—that is, the things essential of national life and comforts—are now made elsewhere. Now, if peace were to be considered today, it is evident that Germany would have to evacuate France and Belgium as well. In no other day could she persuade the, British to permit her ships to sail the seas, and she has no present means of compelling such British consent. But this would be to restore things to their exact status before the war.

Sacrifices in Vain

"It would mean that for her tremendous sacrifices Germany had gained nothing from France or Great Britain, but had lost her colonies. Concededly the British would not make such a bargain. Then what?

"Either Germany would have to offer more or she would have to continue in a condition which would mean the paralysis of her industrial establishments. She might make peace with France and with Russia and with all her continental enemies, but she would not be one step nearer the freedom of the seas than was Napoleon after he had conquered the continent. She could, to be sure, send her manufactures to Russia and France if they were prepared to resume friendly relations, but would they? There one strikes at the heart of the real disaster this war has already foreshadowed for German industry.

"Before the war Germany dominated the Russian markets. She was able through the terms of the treaty of Frankfort to sell advantageously to France. But both Russia and France have taken back their economic freedom. Both have strongly indicated their purpose to discriminate hereafter against German manufactures.

Beaten on Markets

"Unquestionably British products and conceivably those of the United States will receive more favorable tariff treatment than Germany after the war is over. Again, up to the present moment Great Britain has completed with Germany on equal terms in her home markets and those of her colonies. Nothing is more certain than that after the war there will be imperial preference between France, Great Britain and their respective colonies.

"In France, Russia, and to some extent even in Italy, the losses of German commerce have been swept away. In addition, there has been created an anti-German feeling which will not disappear for years, as will act against German interests. In such a simple matter as shipping it is entirely unlikely that France and Great Britain will ever again permit Germany to use their harbors as ports of call in trans-Atlantic trade, and in Mediterranean and Far East transport.

"As an offset what has Germany gained? Her conquest in Belgium and France are valueless save only as they provide a basis for bargaining with Great Britain over the blockade. They look imposing on the map, but actually Germany is in the position of a burglar who has got into a house and gathered up the silver but cannot get away with it. In her war with Great Britain and France, therefore, it is plain that Germany has been beaten."

Germany Cured for Madness

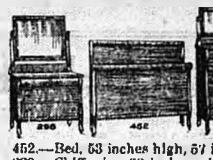
Turning to the Yap, the New York Tribune contends that not even the most sweeping victories can compensate her losses. If she retained her Staves there would soon be a revolt against her. Europe would never consent to the establishment of a dream of German expansionists, the East will enable her to resume her commercial life because the British fleet blocks the way.

"In conclusion, the Tribune expresses the belief that Germany, despite the bombing of her public speakers, has been cured of her madness, and her dream of world-power has vanished into thin air. "Germany has lost the war because she went into the war determined to win world-supremacy, and she is coming out of the war at the very best, very heavily burdened with debt, leaving Great Britain her chief rival, organized for war on something like the German basis, and having lost the world-markets in which she found her greatest prosperity before the war."

INDIA LOYAL TO BRITAIN

No Truth in Stories of Revolt, Says British Authority

The New York World correspondent has obtained from high sources a statement of conditions in India. Regarding the prevalent reports from Germany of revolutionary tendencies in India, which recently have received wide publicity in the German press and in despatches to neutral countries, it was emphatically asserted that there is absolutely no truth in them, despite the fact that everything pointed to the conclusion that German agents were busy before the war trying to foment a revolution.



It was asserted that the trial of Indian conspirators who were hatching a revolution before the European war showed these agents had worked assiduously in America and that German agents undoubtedly gave them assistance.

It is declared that no unrest exists in India, because of the German beasts that it soon will be an object of attack.

Founder of Turkish Navy

The Turkish navy of the past owed almost its existence to an English sailor, Hobart Pasha, a bold buccaneer who was born into the Victorian age, he retired from the English navy in 1862, and during the American war he became a blockade runner with hairbreadth escapes innumerable. After the war he entered the Turkish service, suppressed the Cretan rebellion by intercepting the supplies from Greece and then reorganized the Turkish fleet so well that the Sultan appointed him marshall of the empire. Hobart Pasha also enjoyed the unique distinction of being twice struck off the British navy list for breach of the foreign enlistment act and twice reinstated there. And he died in 1886 with the rank of a British Vice Admiral.

BIG DEVELOPMENT AHEAD FOR CANADA

WAR WILL HELP US, SAYS BARON SHAUGHNESSY.

Old Ties Will Be Broken Up and Thousands Will Turn to New Land.

"After the war is over I believe that Canada will put into operation the biggest national land settlement scheme in the history of the world."

This was the statement made in Montreal in an exclusive interview with a special correspondent of the Wall Street Journal by Baron Shaughnessy, president of the Canadian Pacific Railway, and a leading force in the directorate of the Bank of Montreal, Canada's premier banking institution.

"Every authority in Canada who is interested in giving great attention to the formulation of a new immigration policy," he continued. "Our intention is to bring the maximum number of people here. We shall, however, prevent the resources of the mistakes made in the past by paying far greater attention to bringing the right class of people here, and—what is equally important—seeing that they are properly placed when they get here, either on the land or in industrial occupations, according to their abilities."

Settlers Will Flock In.

He told how the Canadian Pacific had absolutely shut down on the selling of land to anybody but actual settlers, and exhibited a remarkable series of departmental reports dealing with the settlement policy which the company now has in force on all the vast agricultural lands owned by them. This shows that the company not only provides settlers with land, but builds on each farm a house, puts up fences does some plowing, and supplies cattle. For this the company asks one-twentieth part of the purchase price in cash, and the settler is given 10 years to pay off the remainder. During that time the settler has the benefit of guidance from a big organization of experts in agriculture and farmest husbandry.

"That," he said, "is the kind of scheme we are now hoping will be carried out on a national scale after the war, by means of the united efforts of the Dominion and Provincial Governments. If my advice and influence are of any avail, we shall see in Canada the biggest thing in the way of land settlement that the world has ever known.

"Those of us who are familiar with the work of securing immigrants know that on the European continent, and in England as well, there are a great many men who would have little or to come to this country or to the United States but were more or less tied to the small plots of land they were cultivating, and therefore hesitated to break up their homes and leave for a new country. These men have been disturbed by the war and their ties have been broken. any of these will come here to start again and rehabilitate their broken fortunes.

More Manufacturing, Too.

"Then again, there are many thousand of strong, healthy young men with ambition who hitherto have been engaged in indoor occupations who will hesitate, I think, with the experience of active service and the outdoor life, about going back to their old occupations. They will want to try farming. If we formulate a scheme to get them started, with a reasonable degree of knowledge of farming careers, I believe they will be very glad to avail themselves of it. That is what we must do.

"I don't look for any rapid improvement in business," Lord Shaughnessy continued, "but I think we have passed the bottom of the down grade and are climbing towards the summit again. It will take some time to reach the summit, but I cannot help feeling that we have passed the worst. The condition of Canada might be likened to that of a convalescent. We have past the worst and may now look for continuous improvement."

Lord Shaughnessy said he looked for a large export business to be built up. Canada had the resources to provide many of the things that will be required in Europe for reconstruction purposes, as, for instance, iron and steel manufacturers.

"If I may attempt to offer a prophecy," remarked Lord Shaughnessy, "I would say that as a result of the war we are going to see a new light in manufacturing and industrial conditions, and that our manufacturing industries will broaden out and cover a far greater field than they ever did before."

THE WAR'S TERRIBLE WOUNDS

Surgeon Points to Destructiveness of High Explosives

Wounds inflicted in the present war are far more serious than in any previous modern war, declares Sir Anthony Bowlby, the King's surgeon who treated King George after his recent accident in France, and nothing is more astonishing than the damage done by very small fragments of high explosive shell.

Lecturing to the Royal College of Surgeons, Sir Anthony Bowlby showed how a bomb barely as big as a baseball exploded into hundreds of pieces ranging from large fragments to a kind of thick dust. He illustrated this by a film showing the number of fragments from a British bomb exploded under water to preserve the pieces.

Thirty thousand of these bombs said Sir Anthony, were used by the British in the attack on the Hohenzollern redoubt, and each of them cost a dollar to manufacture.

Wounds inflicted by modern projectiles, he said, could in no way be compared with those of the Boer war. The bullets of the South African battles produced much less smashing and rending wounds than the pointed bullets of today. Wounds from shell fire, not very frequent in South Africa, were now as numerous as those inflicted by bullets. The injuries seen in the Boer war were infinitely less severe and the complications due to them fewer and less serious than those of the past year in France.

In dealing with the effects of shell fire wounds, the royal surgeon said the wounds were such as he had never seen in the worst machinery accidents of civil life. He had seen gaping wounds as large as a clenched fist caused by quite small fragments, which evidently owed their power of destruction to the extraordinary velocity with which they travelled and to their ragged edges.

This rending asunder was the special characteristic of all typical gun shot wounds, and it had been shown that the injury caused by the bullet was wholly due to the wave of compressed air which the bullet drove in front of it and which expanded within the tissues.

"I think," said Sir Anthony, "that the thing that would strike most forcibly any observant person brought into a room filled with a large number of wounded men just brought down from a big fight is that nearly all of them are asleep in spite of wounds which one would think would cause such suffering as to render sleep impossible."

An extraordinary operation has just been performed on a wounded British soldier at Sunderland hospital. When at the front a piece of shrapnel struck him on the head and dislodged a piece of bone. The Sunderland surgeons took strips of bone from the patient's shin and filled them into the skull cavity, which was 3 inches by 4 1-4 inches. The new bone knitted with that of the skull, and the patient rapidly recovered. He is now walking about with no sign of his injury except for the scar on his head.

HEARING NOT LISTENING

English Lawyer's Experience in an Indian Court

In the course of a visit to Nagpur, the capital of the Central Provinces, writes Mr. Stanley Coxon in his Indian reminiscences, I heard of an amusing ending to a civil case. It was an appeal case, and on one side was a Mr. Stanyon, an English barrister, and on the other, a number of native pleaders. The arguments on both sides had been heard, and the case closed for judgment.

Suddenly one of the native pleaders got up and addressed the court once more. Mr. Stanyon suffered it for some time, but losing patience, he also stood up, and addressing the court, said, "Your Honor, I would beg with all respect to point to the court that my learned friend opposite is entirely out of order in addressing the court, and if I may be permitted to say so, the court has no right to be listening to him."

The court, who at that time was writing, put his head over the desk, and said, "Mr. Stanyon, it's a great piece of impertinence on your part to assume that the court is listening to him."

CARGILL

Mr and Mrs Geo Welsford, former residents here, who left some months ago to reside in Oshawa, are here on a short visit before taking up housekeeping in Guelph, where Mr Welsford has a position.

Miss Emma Loughleen visited her niece at Walkerton on Saturday.

Rev H Fiddis and Miss Groves, of Sheffield, Ont, visited at the parsonage over Sunday. Mr Fiddis occupied the Methodist pulpit on Sunday evening in the absence of his brother, Rev W J Fiddis, who was taking his brother's work in Sheffield.

Mr Norman and Miss Eleanor Jordan are back from a month's visit with friends in Grand Valley and other points.

Mrs John Clark and Miss Reta spent last week with friends north of Eden Grove.

Mr W D Cargill, M L A, left on Monday morning to attend the Provincial Parliament, which opened this week.

Pte Wellie Loughleen, of C Co, 71st Batt, stationed at Galt, spent over Sunday at this home here. This may be his last trip home, as his battalion is likely to sail shortly.

W J Loughleen and R Hood attended a Masonic gathering at Teeswater on Thursday last.

Mr Fred Balsdon returned from Toronto on Saturday, where he attended a meeting of the Hardware Dealers' Association. He was accompanied home by his brother, Mr John Balsdon, of Pickering, who will spend a few days visiting here.

Mr Fred Grice arrived from Toronto on Friday night, having driven a team of heavy horses from that city to use on a farm near Dunkeld, and which he takes possession of this week. The trip was made in three days, which was good going for a heavy team. It must have seemed slow to Fred, though, after having made the same trip several times in about as many hours in an auto.

Mr and Mrs R A Fowlie held a gathering on Wednesday evening in honor of the three bank clerks who recently enlisted. About forty young people attended and spent a very pleasant time in playing games and other amusements.

Mr Smith, of Walkerton, has been appointed teller in the bank here to take the place of Fred Kirkham, who has enlisted in the 160th.

The ladies of the Red Cross held a shower on Thursday last, and with the goods received made up two large parcels for the boys from here who are now at the front, viz, Capt Hanmore, Trooper Harold Grice, Ptes Wm Thompson, Ed Doerr, John Yorke and John Anderson. The parcels contained candy, gum, tobacco, combs, socks, etc, and will be appreciated by the boys.

James Alexander is the new junior in the Royal Bank.

PINKERTON

On Thursday evening of last week a party of the youth and beauty of this village and vicinity journeyed to Glamis and spent a very enjoyable evening at the home of Mr. and Mrs. D. Robertson. An upset occurred on the way home, but no serious damage was done.

Pte Elmer Gregg returned to Galt this week after having been home on sick leave.

Mr. Neil Murray, who has been visiting in the States since Christmas, returned last week to Mr Jas Andrews'.

A large number from here attended the funeral of the late Jas. Alexander, of Eden Grove, on Thursday.

Miss Myrtle Desmond left for Toronto this week to begin training as a nurse in St. Michael's hospital.

A surprise party from the 10th con. arrived at Mr John Wilson's on Thursday evening, and a most enjoyable time was spent.

CASTORIA

For Infants and Children
In Use For Over 30 Years
Always bears the Signature of Chas. H. Fletcher

ELORA ROAD NORTH

Mr John Rae had a wood-bee and dance last Monday.

Kenneth McNeill is visiting in Toronto.

Miss Dolly McLean, of Burgoyne, visited her sister, Mrs John Walker, last week.

Although Saturday was a stormy day, the ladies of the Elora road north, had a very successful afternoon in the tea-room.

Quite a number of people from here attended Mr John McVeety's sale at Burgoyne last Thursday.

GLAMIS

Mr and Mrs Peter McKinnon, who have been visiting friends around here for the past few months, have left for their home in Sask.

Mr Jim McCormick, who spent the winter with his parents here, has left for his home in Alberta.

Mrs Beaton, wife of the late Pipe Major Beaton, of Toronto, and young daughter, are visiting her brother and sister here, Mr Jas Thompson and Mr Alex McSween.

The recruiting meeting in the Presbyterian church on Friday was well attended. Speakers were Mr Foulter, Methodist minister from Tiverton, Lieut McKay, Capt Bland, and Trooper Kingston of Chesley, a returned soldier. Solos that were very much appreciated were rendered by Misses Glass and Campbell, Mr McLennan and Trooper Kingston. Quite a number of the young recruits of the 160th Batt were present and lunch was served to them in the basement after the meeting and to all those who took part in the programme. After lunch a presentation was made of a wrist watch to John Thompson.

Mr Jack McKeeman is in Toronto on a business trip.

Mr Crehe Leddicoat, who has been visiting friends here has returned to Sask.

Last Saturday, Feb 26th, was the 64th anniversary of Mr and Mrs J C Maclaren's married life. Quite a record. Very few live to see that many years together. Mr MacIntyre is quite healthy although going on his 93rd year. Mrs MacIntyre is 86, and is quite smart considering her age.

News came on Tuesday of last week of the death of Mrs Ann McLean, widow of the late Duncan McLean, who predeceased her a number of years ago. Mrs McLean died at her daughter's in Toronto, and was a sister of Mrs J C MacIntyre, and a sister-in-law of the late Mrs Lawton, of Paisley.

Mr W L Oliver, who is well known around Glamis, has received his commission in the 202nd Batt of Edmonton. He is serving under Col P E Bowen, who left Edmonton with the 9th Batt and was invalided home after being gassed. He is organizing what is known as the Spectamen's Battalion and will leave in the near future for overseas service.

Edgar McAfee enlisted with the 160th Batt at Tiverton.

A sleigh load from Pinkerton spent Thursday at D Robertson's.

Walter McKenzie of Kingarf enlisted with the 160th Batt, and will train in Tiverton.

VESTA

About 125 friends and neighbors gathered at the home of Mr and Mrs John McCurdy on Feb 9th, to give a right royal send off to W S McCaw, who recently enlisted in the 160th Batt at Walkerton. A large number of soldiers accompanied Mr McCaw from Walkerton, including Sergt-Major Britton. There were also soldier friends present from Owen Sound, Port Elgin and Eden Grove. An excellent programme was rendered by local talent, also songs by Sergt-Major Britton, Ptes Wright and Burdis. W J Fortune was chairman and gave a splendid speech on the cause and effect of the war. Speeches were also given by Sergt-Major Britton and Mr David Walks. After singing the National Anthem Pte McCaw was called forward and a highly complimentary address was read by Miss Kathleen McCurdy and the presentation of a wrist-watch and purse was made by Miss Ida Shouldice. The address was as follows:

To W S McCaw:

Dear Willie—We, your friends and neighbors, knowing that you have signed the honor roll, deem it our duty to meet here and spend a social evening together before your departure for the front. You are giving up the pleasures and comforts of this country to take up the trials and discomforts of military camp life. We therefore ask you to accept this wrist watch and purse in remembrance of your past friendship with us, and every time you use this watch may you think of the townline people and the many happy hours you have spent with us. Hoping that you may return safe and well after doing your "bit" for King and country. Signed on behalf of your friends and neighbors,

JIM SHOULDICE,
WM MCCURDY.

Pte McCaw made a suitable reply, thanking his friends for their gift, which he said he would always prize. In addition to the addresses mentioned, a programme was rendered consisting of a children's chorus, "Good Luck to the Boys of the Allies;" a ladies' chorus, "We'll Never Let the Old Flag Fall;" a recitation, "The Bruce Battalion," by Miss Margaret McCaw; recitation, by Janet McCaw, "No Time to Lose," and a ladies' chorus, "The Maple Leaf." Miss Edith Fortune was organist. After the programme dancing was indulged in till near morning, music being furnished by the famous Vesta string band. In the first dance every lady had for her partner a lad in khaki. A bounteous repast was served at midnight. Everybody was delighted with the big time spent at the gathering in honor of the brave boy from Vesta who has volunteered to do his bit for King and country.

SAUGEEN COUNCIL

The Saugeen Council met on Feb 10th. All members present. The auditors' report was received and accepted. Tenders for cedar were received from J W Anderson at $28, R W Campbell $27, C McEvers $25. The tender of C McEvers was accepted. The following accounts were ordered paid: T W Darlington, grant on allotment $15; John Campbell, gaoler on enlistment, $15 (these men enlisted in 1915 and were overlooked); Jas Struthers, treasurer Port Elgin, share of cost of Division Court 1909 to 1915, $43.45; F W Elliott, registering births, marriages and deaths, $8; John McVinnie, removing ice jam at Nelson's bridge, $8; Thos Stanlor, removing ice jam on river road, $6; W J Pierson, repairing river road, $1.50; J W McKinney, auditor, $6; Geo S Webb, auditor, $6; Jos Thomson, spikes, 15c; Council meeting Nos, $12.45.

After appointing pathmasters, poundkeepers and fenceviewers, the council adjourned to meet at the call of the reeve.

F W ELLIOTT, Clerk.

SECOND CON. ELDERSLIE

Mrs R J McGill spent a few days in Toronto recently.

Miss Cora Maxwell spent Sunday week with friends on this line.

Mr and Mrs Alex McGregor attended the funeral of a cousin in Brant on Saturday.

Assessor Walks started out on his annual rounds last week, but had to lay off for a few days owing to an attack of la grippe.

Mr Gribble, sr, has been confined to his room for the past two weeks with an attack of weakness.

A large number from this con. attended the funeral of the late Mrs Jas Maxwell on Thursday last. Deceased was a resident of this con. in her girlhood. George and John are sons of deceased, and Mrs John Ward is a sister. The sympathy of this neighborhood goes out to these friends in their time of sorrow.

Little Thelma Jackson, who was operated on by a Toronto specialist in Paisley last week, was removed to her home here on Saturday last. At time of writing she is improving nicely, and it is hoped will soon be all right again.

Owing to the severe storm last Sunday the 2nd con. S. S. was called off.

WILLOW CREEK

John Wittig had the pleasure of entertaining Pte McKeeman at his home for a few days last week.

Miss Lizzie Robinson is visiting her brother on this line.

Mr and Mrs Geo Berndt have returned to their home in the west.

Born—On Feb 25th, to Mr and Mrs John Lunow, a daughter.

John Hyde and Mrs Dan Munro have returned home from Bay City. The former's daughter is improving nicely.

GIBBONS—McARTHUR

A very pretty wedding was solemnized on Wednesday, Feb 9th, at the home of Mrs Charles McArthur, townline Saugeen and Bruce, when her eldest daughter, Miss Sadie, became the bride of Mr Edward Norman Gibbons, a prosperous farmer of Osage, Sask. Promptly at 4 p.m. the bridal party took their places under an arch of evergreens and Dorian Jacks with wedding bell. The bride, who looked charming, was dressed in champagne silk and wore a wreath of orange blossoms, while her sister Bell, who acted as bridesmaid, looked lovely arrayed in embroidered voile. The groom was ably assisted by William Kelly, another westerner, of Keppel, Sask. The ceremony was performed by Rev R H Sawers in the presence of about fifty relatives and friends. After congratulations a sumptuous wedding dinner was served. The evening was spent in tripping the light fantastic. The gifts to the bride were numerous and useful, showing the high esteem in which she is held in the neighborhood where she has resided since childhood. She will be missed by a large circle of friends and acquaintances, but more especially by her mother, whose right hand she has been since she was a little girl. After a short honeymoon spent in Toronto and Barrie the young couple will proceed to their home at Osage, Sask., where they will be followed by the good wishes of all.

Thus it is our daughters leave us,
Those we love and those who love us—
Just when they have learned to help us,
When we are old and less upon them.

ARRAN COUNCIL

Council met Feb 12th, all the members present.

Applications for positions of collectors were received, who, on motion of Johnston and Scarrow were appointed.

The auditors' report was submitted and revised and ordered to be printed.

Communication from Dr Armstrong, M O H, declining to accept the salary fixed by council, $75. No action taken.

From the County clerk, asking for a full copy of the assessment roll of 1915, as county council had asked that all municipalities send in a copy of 1915.

The contract of printing was given to The Leader, Tara, at $60 for 1916.

Captain Damard and Reeve Grant, of Tara, asked the council for assistance to defray the expenses of patriotic demonstration in Tara on the 23th inst. $50 was granted.

Orders to the amount of $110 were issued, and council adjourned until 12th of March, when pathmasters, poundkeepers and fenceviewers will be appointed.

H T POTTS, Clerk.

Red Cross, S.S. No. 15, Bruce

After being organized two weeks the Red Cross workers of No. 15 Bruce made their first shipment on Saturday, consisting of 20 pillows, 36 pillow cases, 18 sheets, 20 helpless shirts, 9 day shirts, 30 pairs socks, 460 mouth wipes, 20 face cloths, 26 wash cloths.

A PROMINENT NURSE SPEAKS.

Many Nurses in Canada and Elsewhere Say the Same.

Chatham, Ont.—"Being a nurse I have had occasion to use Dr. Pierce's Favorite Prescription quite a lot. I always recommend it to my patients and it has been a wonderful help to many of them. I never knew of a case where it failed. I have a patient who is using it now and she is doing fine since taking it. I have taken it myself and got the very best results. I consider it the best medicine there is to-day for women who are ailing."—Miss. Edith Moore, 30 Degge St., Chatham, Ont.

THAT WEAK BACK

Accompanied by pain here and there—extreme nervousness—sleeplessness—maybe faint spells, chills or spasms—all are signals of distress for a woman. She may be growing from girlhood into womanhood—passing from womanhood to motherhood—or later suffering during middle life, which leaves so many wrecks of women. At any or all of these periods of a woman's life she should take a tonic and nervine prescribed for just such cases by a physician of vast experience in the diseases from which women suffer.

Dr. Pierce's Favorite Prescription has successfully treated more cases in the past 50 years than any other known remedy. It can now be had in sugar-coated tablet form as well as in the liquid. Sold by medicine dealers or trial box by mail on receipt of 50 cents in stamps. Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets clear the complexion.

—Mr. Howard Henderson, of Elderslie, will not be able to work his farm this year on account of having his leg broken, and has rented it to Mr. John McAllister. Mr. Henderson will have a sale on March 15th.

—Mr. and Mrs David Walks Elderslie, announce the engagement of their youngest daughter, Margaret F., B A., (Queen's, '12), to Ernest R. Struthers, B.A., M.B., (Toronto, '12), eldest son of Mr and Mrs. R. G Struthers, Galt, Ont., both of Hwaihing, Honan, China, the marriage to take place in May.

Big Egg

Mr. M. Maurer, of Elderslie, has a hen that is entitled to the championship, as she recently produced an egg that measured [illegible] in a day or [illegible]. Who beats that?

Paisley Red Cross

A special meeting of the Women's Red Cross Society will be held on Friday, March 10th, at 3 p.m., to discuss important business. A full attendance is requested.

Paisley Boys Across the Sea

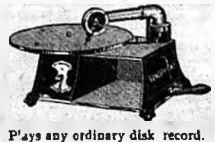
Artillerymen Leslie Shaw, Guy Purdy and John Hamilton, are three more Paisley boys who are now training in England, having gone over with the latest contingent. They are at Brandshott Camp.

School Board

The regular meeting of the School board was held on Monday evening. Members present—D. McKenzie (ch'n), J. R. McBride, D. Forrester, Rev. L. W. Diehl. Salaries were authorized to be paid for February, also account of H. Baker for 70c, and P. B. More $21.10. A motion was passed that in future all proposed purchases of new equipment, &c., must be submitted to the Board before purchase is made.

Red Cross Tea Room

The ladies of U.S.S. No. 8, Greenock & Elderslie (Jackson's) will have charge of the Red Cross tea room on Saturday, March 11th, where the buying public can be assured of getting full value for their money. Produce of the first quality, full measure and good weight. In addition to the usual lunch they will have for sale cream, butter, buttermilk, fresh eggs, potatoes, home-made bread, pie, cake, etc. Parties buying cream will need to bring jars for the same.



Westward Ho! Again

Young men from the west who have been spending the winter with friends in this section are hieing themselves back to the prairies, in haste to get ready for the opening of spring farming operations. Not a few of the men returned doubly armed for the battle of life, having in their vacation consummated matrimonial alliances with young ladies in their old home communities. Among those who left for the west during the past week were Mr. and Mrs. Sam Rathwell, Mr. and Mrs. Jas McLaren, Mr. Ken McLaren, Mr. Sterling Fraser, Mr and Mrs George Fletcher.

Formerly Lived Here

The late Duncan McArthur, of Edmonton South, who passed away after a short illness in the Strathcona hospital, was one of a family who, prior to going west about 1886, lived on the farm now owned by Mr. H. Rudolph on the townline Bruce and Saugeen. He was 60 years of age, and is survived by one daughter and two sons—Miss Jessie, in Edmonton; Gordon S., of Coronation, and Norman, now in France with the second University contingent. Three sisters and two brothers are living—Mrs. McCrimmon, of Edmonton; Mrs. M. McInnis, of Calgary; Mrs. A. Campbell, of Saugeen; Rev. John McArthur, in New Zealand, and Peter McArthur, in Calgary.

Our Great Sale is Over

OUR Stock-Taking is completed and now for our Spring trade.

With the arrival of the Spring Goods to fill all lines depleted by our 10 Days' Sale, we are now ready for business in all the wants for Spring.

See our RUGS, POLES, SQUARES, CURTAINS, WINDOW SHADES and all the wants of housekeeping.

H. B. PUTNAM & SON

Two More in Toronto

Boys who were born in Paisley but have been living elsewhere for some time are rallying to the colors every day. Clarence Stait has joined the 180th Batt. in Toronto, and Kirk Hyde is signed up with the 167th. The latter is in Paisley for a few days visiting his relatives and friends.

Varying the Soldier's Life

Paisley people are endeavoring to make the life of the young soldiers training here comfortable and happy. The ladies have fitted up the council chamber as a rest room, the council having granted the use of that room and the auditorium for purposes of entertaining the boys in khaki. The Young People's Guild of Knox church had the boys attend a social evening in the church. On each Sunday officers and men have been invited to parade to one of the churches for the morning service, which they have done. On Friday evening the young ladies of the town entertained the soldiers and other young men in the hall. One evening last week Mr. and Mrs. Geo. Welsford gave them a special supper at their restaurant. The soldiers reciprocated in a good measure by holding a dance in the hall on Wednesday evening last, which was attended by a large number from both town and country, and a most enjoyable time spent by those who love the many movement. Splendid music was furnished by an orchestra from Owen Sound. The boys had the hall decorated in a style that excelled anything of the kind seen there for some years, and was indeed creditable to their artistic skill and taste.

ORDER YOUR SPRING SUIT TO-DAY

While a blizzard is blowing and the thermometer is making low bumps, customers may not think the time opportune to order a Spring Suit. But, it is. Weather changes quickly these days. Moreover, there is a decided advantage in getting your order in early.

WHAT'S COMING TO THE GREAT BULLY

AN ENGLISH WRITER ON THE WAR SITUATION.

What the German Emperor Hopes For and What He Is Sure To Get.

"In the spring," the Kaiser has been hinting to his tired people, "will come peace."

The words sound very comforting in the ears of his soldiers, who have no longer the same enthusiasm for war that they had sixteen months ago, when Paris seemed within their grasp, says a writer in London Answers.

They are a very gullible lot, these Huns, and they forget that on the debit side of the Kaiser's promises are already heavily overweighted. They were to be back in the dear Fatherland "before the fall of the leaves"; they need have no fear, they were told, as to a second winter campaign; they were assured Russia would give in when Warsaw was entered.

Method in His Madness.

None of these things has happened; yet they are ready to believe the smooth words of the same voice telling them there will be peace in the spring.

Not that the Kaiser would not be glad to have peace, not merely in the spring, but any time between then and now. He may be mad, but there is considerable method in his madness.

A good chess player knows when he is beaten, and does not go on to be mated. The Kaiser looks ahead, and, though his armies occupy much of the Allies' territory, he sees only too well that the task of holding these enormously-extended lines must prove, before long, too great a strain for the depleted manhood resources of Germany to sustain.

Before the vision of the Kaiser passes the spectre of his great prototype, Napoleon, who, within eighteen months of his entry into Moscow, was an exile in Elba.

Peace in the spring would suit the Kaiser very well. He could afford to be generous to the Allies. His terms, we might be sure, would be particularly favorable to us, because our preparations have planted a wholesome dread in his heart, and because he knows that we have a habit of going on to the end, and that, though we begin badly, we generally end well.

Germany Hard at Work.

Also the remark of the acute Italian observer lurks unpleasantly in his mind: "The British only win one battle in any war, but it is the last battle."

But what the Kaiser hopes for and what the Kaiser believes he will get are two different things. He hopes for peace in the spring; he prepares for greater exertions than ever in the spring.

Germany is full of fair words, whose note is the reasonableness of peace at the present time; the words are to hearten the soldiers in the trenches, and to impress such neutrals as are not alert to German guile.

Germany is also full of newly-trained troops, who are to make a last attempt to break through to Paris. German instructors are busy drilling raw German recruits, and German engineers are feverishly repairing gaps in the line to re-establish railway communication between Berlin and Constantinople. The Near East, which is one great whispering-gallery, murmurs: "Egypt in the spring!"

The German mind is incapable of any honesty. When the Germans talk loudly of peace, it is time to prepare for war; when they hope for peace, one knows instinctively that they believe the reverse will happen.

Potsdam's Biggest Bluff.

"Peace in the spring," is the biggest bluff that Potsdam has yet perpetrated. If it deceives the German people, it does not hoodwink the Allies, who are just beginning to get into their stride in this war.

So far from there being peace in the spring, the most terrible fighting yet witnessed in the campaign will take place. All the signs point in this direction.

Germany is saving her young men for a great offensive in the West, and is using her third-class elderly troops to make good wastage. Russia is equipping enormous armies, and is calling up youths, who will be twenty-one in 1917, a year before their time. Japan has mobilized her industries to supply the millions of Russian troops with munitions of which they stand in great need—viz., rifles and heavy guns.

The war factories of America are pouring a constant stream of munitions into Russia's far-Eastern base, and when the British munition effort reaches its fullest scope, and our twenty new arsenals are in full blast, we shall be able, with the supplies from Japan and America, to equip any number of Russian troops up to six millions.

Italy is constantly calling up new classes to the colors, and long before the spring the Serbians, whom she is to rearm and revictual, will provide 200,000 of the bravest and most seasoned troops in the Balkans. The Belgian army, drawing new formations from the classes recently called up, will be even more formidable by the spring. France is calling to the colors her lads of eighteen and nineteen, and passing all able-bodied Frenchmen into her armies; while Britain and the Colonies are making a feverish effort to have the Empire represented by anything between four and five million men.

By the spring six million men—three and a half million Allies, two and a half million Germans—should be facing one another in the West. In the East, five million men—three million Russians, two million Austro-Germans—should be at grips. On the Austro-Italian Front two million men should be locked in deadly combat; while in the Balkans a million and a half men should be fighting to decide whether the Crescent shall still wave o'er the minarets of Constantinople.

Britain's Answer.

"Peace in the spring" means that fourteen and a half million men will be fighting possibly the decisive battles of the greatest conflict in history.

Twenty months will have elapsed since the day when the first Uhlans crossed the Belgian frontier, the vanguard of a huge army, assured of victory by all the resources that forty years' resolute preparation could give.

The German army then was at its zenith. By all human calculation, it stood to win. In the spring of 1916, when Professor Muensterberg, the friend of the Kaiser, says he knows there will be peace for certain, Germany stands almost as good a chance of being beaten as she did in August, 1914, of conquering Europe for barbarism.

We have been slow, and we have made many mistakes, but we have also done things well. We are not spellbound by this latest German plot; we know what, indeed, the spring will bring forth. Two thousand Government-controlled war factories in Great Britain, working at full pressure, are the best answer to the German bluff.

I have before me a letter from a gunner at the front:

"When the Germans worry us with their Jack Johnsons," he writes, "we send over ten to their one!"

Five to One.

My friend may be exaggerating a little; but it is true that we can command double the shells that the enemy can spare, and if the prophecy of M. Millerand, the former French Minister of War, comes true, in the spring or thereabouts—and there is no reason for the contrary—we should have five shells to every one of the enemy's.

Do you know what five shells to every one of the enemy means? It means that we can smash his most elaborate defensive organization, sweep away his wire, and leave huge gaps for our powerful infantry to pour through. It means that, as our men advance, we can cut off the German reinforcements from the main body by an impenetrable curtain of fire.

The Kaiser knows this. Only too well he realizes the forces against Germany that should ripen in the spring. He wants peace before Germany is beaten. He wants peace while the German armies still bivouac on enemy soil. He wants peace before his deluded Huns become dangerously weary of the incessant fighting; and, above all, he wants peace before the economic strain on his people becomes too intolerable.

"Peace in the spring!" How little does it correspond with the realities of the situation! Peace, forsooth, with the certainty of fourteen and a half million men then struggling for mastery, with the advantage for the first time on our side.

DOGS LOCATE ZEPPELINS

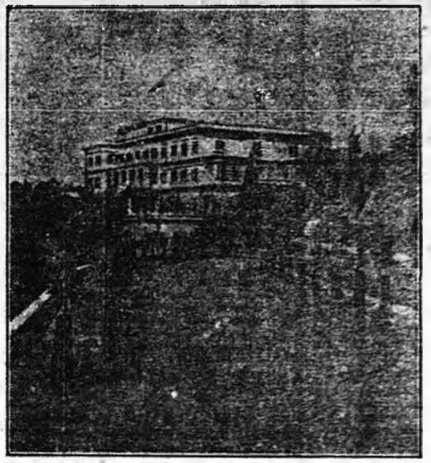
Became Uneasy During Latest Raid Over England.

The bombardment of Scarborough, England, over a year ago by German cruisers led to some interesting statements as to the sense of hearing possessed by pheasants, and there can be little doubt that the senses of birds and animals are in some instances almost uncanny.

In one of the latest Zeppelin raid nights, a man who possesses a kennel of retrievers said that about the time the Zeps. were over his locality his dogs were plainly uneasy. Shortly after eight o'clock, he states, the dogs commenced to growl and then to snarl.

"I could hear nothing unusual," he states, "beyond the low growling of the dogs, and in the darkness nothing could be seen. I was unable to quiet them in any degree. By and by they did calm down, but it was only for a few minutes that there was peace, for the dogs suddenly jumped up and repeated their antics." Aware that there had been a Zeppelin raid, but later, on making inquiries, he found that at the time his retrievers commenced to show signs of irritation the Zeps. were actually in the vicinity. The keen hearing of the dogs had undoubtedly located the invaders.

Qualification.



She—Father doesn't want me to marry you. He says you are too thrifty.

He—Why, of that's the case, he ought to like me, eh?

She—But you are so spend-thrifty, dear.

CORFU AND KAISER'S HOUSE IN ALLIES' HANDS

The Kaiser's yacht, Hohenzollern 2, is seen at the left, while the vessel at the right is the English royal yacht Alexandra, on which the British royal family have frequently visited their relatives in Greek waters. The great house shown in the lower picture is the Achilleion (the house of Achilles), built for the Empress of Austria, used by the German Kaiser as a summer resort, and recently seized by the Allies and used as a hospital for wounded soldiers. Both pictures are reproduced from The Christian Advocate.

GAS NIGHTMARE IN THE TRENCHES

"THE MOST MERCILESS WAR IN HISTORY."

College Professor Writes of Services as Sergeant in French Army.

The horrors and tribulations of life in the trenches are vividly depicted in a letter written from Champagne to Professor Weston of Williams College, by J. Norton Cru, once professor of French at the same institution, who is serving as a sergeant in the French army. Unmolested and undisturbed, Professor Cru scribbled the epistle in an underground passage while the enemy's big shells exploded above.

Gas is the only thing that is really feared in the trenches, according to Mr. Cru, and the forces are kept busily engaged combating gas attacks. The war is characterized by him as "the most merciless in history." No truce, even for the burial of the dead, is allowed, and consequently innumerable corpses are rotting as they fell months ago in "no man's land." Extreme difficulty is experienced in procuring sufficient quantities of water. When ground is won from the enemy this difficulty is increased because the Germans, knowing the exact locality of the water pumps, keep firing salvos of shrapnel all around them. As told by Mr. Cru, the soldiers because of the scarcity of water do not wash for weeks, the little procured at great peril being used for making coffee, one cup of which is at times allowed a man.

Down in a Tunnel.

The letter is as follows:

"I am writing you by the flickering light of a candle end, seated in a red velvet armchair dragged out of some ruined house. It is broad daylight above, but I am in a kind of tunnel in the bowels of the earth, access to which is gained by a series of stairs leading down from the trenches. This tunnel is wide enough to accommodate on each side of a central passage a series of bunks one above the other, ship fashion, and some of us are lucky enough to have straw mattresses. And so, away down underground, I am writing tranquilly while big shells are bursting up above.

"In this vast plain we have little fear of attack, for it would take time to cross the intervening space between the lines, and our artillery would have plenty of time to act effectively against the assailants. On the other hand, the plain is very favorable for the use of gas, and this is the only thing we fear; consequently we are busy protecting ourselves against gas attacks, and we have now found many ways of combating this treacherous method of fighting.

Dirt Falls in the Soup.

"We live as though hygiene had never been invented. I must say that a man thinks little of germs when he is bombarded with big shells, and he eats with appetite, although much dirt has fallen in the soup from the narrow sides of the trenchlike lanes that lead from the kitchens, a mile or two in the rear, up to the firing line. Sometimes water has to be fetched from a pump after a long journey through winding trenches; sometimes when the ground has been won from the enemy he knows where the pump is and keeps firing salvos of shrapnel all around it.

"Now, Champagne is very dry (no pun intended), and we experienced lately the scarcity of water and the decided objections the Germans had to our approaching the pumps. We went unwashed for two weeks, the little water we got at peril of life being used to make coffee, just one cup a day for each man. Sometimes when I come to think of it I can't believe that I have been here for more than a year playing my part in the most merciless war in history.'

"For the first time no truce is allowed, no white flag is used, no possibility of burying the dead or of picking up the wounded, except at peril of life, and that is why so many corpses are rotting as they fell in 'no man's land,' that weird stretch of ground between the lines; that is why so many wounded cry vainly for help and are left to die a horrible death after two, four or even six days of agony. I have seen such things and still cannot believe it.

Africans Take Prisoners.

"At the beginning of the war we had to co-operate one day with the Moroccans. These are star troops for attack, but they adapt themselves with difficulty to the tranquil life of the trenches. That day they took a large number of prisoners whom we saw pass by, piteous, lamentable, exhausted by our informal bombardment. I can still see those Africans bearing their wounded to the rear across the field where big shells were raining down and throwing eruptions of earth into the air. They walked with their rapid, lithe step, impassive in that hell.

"I saw the post for the wounded, where a crowd of Africans, dressed as we see them in Tunis, were lying on stretchers on the ground, raising themselves on their elbows to drink the coffee which the nurses poured out for them and smoking cigarettes with a tranquil air, their clothes covered with earth, their bandages red with blood, which filtered through. Others lay stretched out, dying amid the whirling of the motors of the Red Cross ambulances ready to carry them to the railway stations.

All that filled and blocked the main street of a little ruined village. The German lines were formerly at the very edge of this village, now they are far back, and out of curiosity I visited what was once our first line. In the wire entanglements I saw what remained of three Germans killed months before. Only skeletons and fragments of uniforms and boots remained.

A Shot From Wife.

McGinnis is no Adonis, and his temper is in direct ratio to his lack of personal beauty. Mrs. McGinnis also is rather peppery of temper and is rather inclined to "get back" at her husband during the course of a quarrel.

One such altercation had been had the other evening, but things soon quieted down and McGinnis had regained his temper and thought his wife had, too. But he was speedily undeceived.

Mac had been playing with the baby and observed, "Every time the baby looks into my eyes he smiles."

"Well," said his wife, with an ominous gleam in her eye, "it may not be exactly polite of baby, but shows he has a sense of humor."

Probably Father.

A young man and a young woman lean over the front gate. They are lovers. It is moonlight. He is about to leave, as the parting is the last. He is about to go away. They swing on the gate. "I'll never forget you," he says, "and if death should claim me my last thought will be of you." "I'll never see anybody else or love them as long as I live." They part. Six years later he returns. His sweetheart of former years had married. They meet at a party. She had changed greatly. Between the dances the recognition took place. "Let me see," she muses, with her fan beating a tatoo on her pretty hand. "Was it you or your brother whom I used to know?" "Really I don't know," he says; "probably my father."

Why They Grew

Lulu was watching her working among the flowers. "Mamma, I know why flowers grow," she said; "they want to get out of the dirt."

BRUSSELS IS SPY INVESTED.

Agents of "Kultur" Manage to Keep Themselves Busy.

So far as a considerable number of the people of Brussels are concerned, the German occupation constitutes a moral as well as a physical martyrdom.

A private correspondent, whose letter has reached the Hague through a friendly diplomatic channel, says that the German system of espionage has reached such a point that the more nervous minded of the people live in a state of perpetual dread.

"There is an army here of more than fifteen hundred spies," he writes. "These are well paid, but they are paid by results; they live extravagantly, and when funds are low more victims must be made. There are spies of every grade and species.

"There is the society woman, such as that relative of von Bissing who succeeded in forming a little court of her own and who herself attends the society teas in private houses and at the fashionable confectioners in order to organize her espionage; there is the one-time factory Agent who, taking advantage of his pre-war connections, worms himself into financial and industrial circles; there is the officer's or professor's wife who frequents middle class coteries; there is the demi-mondaine who keeps an eye on the theatres, the cafes and the boulevards, and there are men in hundreds who penetrate like ants into the innermost recesses of private life.

"The letters we receive from our dear exiled friends we may neither keep nor answer, for a domiciliary visit may be made at any moment, and on the slightest pretext, or none at all, both men and women may be hurried away to the Kommandantur, and thence to prison after a mockery of a 'trial.'

"Two days ago I was reading the war report posted at the corner of the Boulevard Botanique an the Rue Royale. There we were, a silent little group. A man joined us and began to read the news aloud, with painful slowness, almost spelling out the words. Coming to a number he read 'seven thousand' instead of seventy thousand,' the words appearing on the notice board.

He got no further. A man forming part of the group placed his hand on his shoulder, and dragged him along to the Kommandantur. We were lucky to escape arrest for having heard him make the blunder.

"In the tramway car from Brussels to Terrueren I saw a man arrested because he carried a parcel wrapped in a copy of a London paper, the date of which was September, 1914.

"In the Rue de Flandre I saw two brewer's men being marched off as prisoners because, after unloading a heavy barrel of beer, they had remarked, "The Kaiser himself could not do it as neatly."

"I could cite hundreds of astonishing facts, but it would bore you, as they are all more or less of the same category."

Somehow an engaged couple usually think all the insane people are in asylums.

NOT STRAFING ENGLAND NOW

GERMAN'S BEGINNING TO SEE THE LIGHT.

Intrigues of Von Tirpitz Party Threaten the Imperial Chancellor.

A Scandinavian correspondent of the London Times writes: "I recently had a visit from an old university friend, belonging to a neutral country, who has lived in Germany since the beginning of the war, has associated with well informed industrial circles, and consequently has acquired some inside knowledge. According to him the most striking fact is the change of tone which has taken place in Germany.

"The 'Gott strafe England' sentiment is a thing of the past. The pre-arranged declarations in the Reichstag about the Baralong affair do not really count. Many university men who signed the various manifestations about German innocence and British perfidy at the beginning of the war now feel positively ashamed. They express their astonishment in quoting their names to them by saying that they did not know the exact wording.

Seeing the Light.

"The 'Liberals' also begin in private to admit that the German version of the diplomatic preludes to the war tragedy will not stand closer examination and they even recognize Germany's rasp-sensibility toward Belgium.

"The intrigues of the Von Tirpitz party have been and still are a danger cloud threatening the Chancellor. Admiral Von Tirpitz has been induced to retire, but his staff has so far remained intact. The renewed press campaign against the Chancellor is not only carried on by Count Reventlow, but in various foreign newspapers have been furnished inspired articles. It is reported, however, that the Kaiser disarms the views of the diplomatists and disapproves of the Zeppelin raids on England, which, in his opinion, are senseless, being of no military importance and only calculated to make friendly relations with Britain more difficult after the war.

Mischievous Peace.

"This eventually is still hoped for in German diplomatic circles, which cling to the belief that a peace, however its outward appearance can be so arranged as to create future trouble between Great Britain and Russia.

"The German diplomatic service is still the favorite object of abuse among the German public. It is understood that the Colonial Secretary, Dr. Solf, regards himself as the only possible Foreign Secretary after the war and is confident of defeating the ambitions of Count Von Bernstorff, German Ambassador at Washington."

96 PER CENT. SOLDIERS CURED.

Report From the American Women's War Hospital.

Ninety-eight per cent. of the wounded soldiers treated at the American Women's War Hospital have been cured or improved, according to a report just issued on the second thousand cases handled by that institution. The hospital is at Paignton, South Devon, with Sir William Osler as consulting physician and Dr. Penhallow as chief surgeon.

The report shows that of the surgical cases sixty-three per cent. were cured and thirty-three per cent. improved. The same percentage of cures and improvements was secured in medical cases. In the thousand cases there were but five deaths, or considerably less than one per cent.

The principal fact with which relief is given to men on the battlefield immediately after they are wounded is brought out by the statistics of the report. Of the total wounded cases, one-quarter of them had received immediate first aid field dressing, and an additional thirteen per cent. had received this field dressing within fifteen minutes. Another twenty-five per cent. had been treated on the field within one hour of being wounded, while a small remaining percentage were treated within a few hours, and a very few after a long delay of forty-eight and seventy-two hours.

Gas-poisoning is one of the principal causes of the cases treated, and while typhoid has been largely reduced, there were seven cases. The number of amputations was fourteen, which, considering the number of serious cases, was an exceptionally favorable showing.

As showing the different classes of wounds received in action, the following percentages were given on perforating wounds: shrapnel, 12 per cent.; shell, 2 per cent.; bullet, 69 per cent.; grenade, 1 per cent. In surface wounds the percentage of shrapnel injury is greater and of bullet injury less. The wounds from bayonets is the smallest, being less than one per cent.

If a man ever becomes civilized it is through the influence of some good woman.

Woman's Health Needs Constant Care

Work and Worry Leaves Her a Victim of Many Distressing Ailments

Every woman's health is peculiarly dependent upon the condition of her blood. How many women suffer with headache, pain in the back, poor appetite, weak digestion, a constant feeling of weariness, palpitation of the heart, shortness of breath, pallor and nervousness. If you have any of these symptoms you should begin today to build up your blood with Dr. Williams Pink Pills. Under their use the nervous energy of the body is restored as the blood becomes red and pure and the entire system is strengthened to meet every demand upon it. They nourish every part of the body, giving brightness to the eye and color to the cheeks and lips.

Mrs. Jas. S. Francis, Oakwood, Ont., says: "I should have written long ago to tell what Dr. Williams Pink Pills did for me, but I suppose it is better late than never. In June, 1913, I had to go to an hospital for an operation for female weakness. I was in the hospital for a month, before I was able to get home. Three weeks after this I started for a trip to the Pacific coast, in the hope that my health would further improve. On the way I stopped to visit a sister in Southern Alberta, and on arriving at her home (after a 35 mile drive), I was completely done out. I found my sister ill, her baby having been born the week before. As there was no one to help, I had to take care of the child and do the household work, and in the three weeks that passed before my sister took charge I was completely worn out, and again poorly ill. However, I started on my westward trip, and decided to stop off at Banff, where I remained a week, but it did not seem to help me, and I resumed my journey. On the train I took sick, and could eat but very little. I was alone, my condition was pitiable. First the porter wired ahead to North Bend for a doctor to see me. The doctor wanted me to leave the train and go to a hospital, but I determined to continue my journey to Vancouver. The medicine the doctor gave me did not help me, and I was getting worse all the time. And then a young man who had the opposite berth asked me if I would try Dr. Williams Pink Pills and gave me a box he had. I used these and the porter got me two more boxes, and by the time I reached my journey's end I was feeling some better. I stayed two months on the coast, and continued taking Dr. Williams Pink Pills all that time. I had gained in weight and appearance, and when I started for home I felt better than I had done for years. Now I always keep Dr. Williams Pink Pills in the house, and both my husband and my young daughter have been benefited by their use. I bless the day that young man on the train gave me his box of pills, otherwise I might never have tried them, and would have still been an invalid."

You can get Dr. Williams Pink Pills from any medicine dealer or by mail, at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

MILLION WORKING FOR NAVY.

Official Figures Given — Fighting Strength Over 300,000.

The magnitude of the work going on in the navy is shown in a letter from the Admiralty to Sir Gilbert Parker, answering his inquiry in the British House of Commons. The navy proper had 146,000 officers and men when the war broke out, now increased to 320,000, with authority granted for a further increase to 350,000 officers and men, besides 67,000 naval reserves. There are also 85,000 men engaged in work at Royal dockyards and other naval establishments and several times that number on Admiralty work under contract and sub-contract.

There are also the men engaged in getting coal for the fleet, dockside workers and civilian crews of colliers, oilers, mine-sweepers, supply ships, etc., and men and women engaged in making clothing and preparing food.

Thomas J. Macnamara, Financial Secretary of the Admiralty, adds: "If asked to put the matter in a sentence, I should say that for every man in the navy, of whom there are something like 300,000, there are certainly two persons and possibly even three at work on ship construction, repairing and contributing to the general efficiency and fighting ability of the fleet."

An aggregate of more than a million persons engaged in various branches of naval work is thus shown.

GUARD THE BABY AGAINST COLDS

To guard the Baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little ones stomach and bowels working regularly. It is a recognized fact that where the stomach and bowels are in good order that colds will not exist; that the health of the little ones will be good and that he will thrive and be happy and good-natured. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Williams Medicine Co., Brockville, Ont.

In Relief Work

LADY ALASTAIR INNES-KER.

One of London's wealthiest society women, who is indefatigable in relief work. Her husband is a brother of the Duke of Roxburghe.

HOW AMERICANS VIEW THE GREAT WAR.

By Chas. M. Hice, Denver, Colo.

In the U.S. the individual right of property has always been regarded as one of the most sacred of all human institutions. Tenfold here, upon property rights is one of the blackest of sins, and hence imperialism finds it impossible to understand America.

But it is just this abhorrence to the sin of trespass that has lent the peculiar sanctity to all American treaties with Canada as with the rest of the world, for which the country is noted.

The U.S. has 100,000,000 of people Canada has 10,000,000, and though we need many things that Canada possesses, it is unthinkable that "We should take what we want and explain afterwards" is in German policy. There is not a fort from Maine to Victoria along the 3,000 miles of the Canadian frontier, but if we adopted Germany's policy we would have to erect fortifications all along the route, and keep one or two millions of men drawn from farm and factory to defend them, and our neighbor would have to do the same. In some European states the nation is everything, the individual nothing. Thank Heaven! This worship is confined to the Central Powers, and chiefly to one of these. Absolute power is always prolific of mistakes, and this is the sequence of endless adoration, for it destroys the ruler's power to think in straight or consistent lines. Flattery is sure to conceal weakness, and no man is so unfortunate as the man who is put on a throne and lifted up beyond the reach of plain truth—telling.

No ruler is charged with more serious diplomatic blunders than the Kaiser.

He was dead sure that England would remain neutral, because of a little dispute with Ireland. Italy will be a German ally because of the Triple Alliance. Belgium will be neutral, and allow us to trespass on her property and destroy her homes if we promise indemnity when the war is over. France is unprepared and weak and we will have Paris within three weeks.

An alliance with Turkey will bring on a holy war, in which all Islam will join. Japan will hold Russia in check, and leave us a free hand in the Balkans.

The Czar will be attacked by Bulgaria, Italy and China, etc.

These are but a few of the Kaiser's many diplomatic blunders, but they demonstrate the danger of elevating a man to the throne in whose presence fawning men burn incense, and pour forth flattery to nauseation.

The Kaiser was the first to send forth a hostile and aggressive army, but he had no difficulty, it seems, in convincing his people that it was in self-defense—to save the empire from Russian barbarism, and like nonsense.

But Belgium's gallant defense cost Germany the most important weeks of the war, and her high water-mark in the war was reached when she was within twenty miles of Paris.

Intoxicated with the prospect of victory, like Napoleon at Austerlitz, the waves are fast ebbing away to a fatal Waterloo that surely awaits him.

The question America is seriously considering is, shall Germany be allowed to lay ruthless hands upon smaller states whose territory she may chance to covet? If this is not to be rebuked, where will it end?

We recall that a German professor published in the North American Review two or three years ago, an article in which he said that "once Germany is victorious in Europe, the "Monroe Doctrine" will go, and the U.S. will receive the thrashing she so richly deserves." That this echoes the sentiment of the German people there can be little doubt, and the duty of preparing is thus made evident. The same war vultures, with black wings that brood over Europe as heralders of poverty, sorrow and death, are liable to migrate to new fields, and America may be the next to supply the harvest of death. But I greatly mistake if they find America as unprepared as peaceful Europe was when the Kaiser set hostile foot on Belgium soil.

The martial spirit of this great country is being aroused as never before since 1861—goaded on without doubt by the tragic lessons taught by the present relentless struggle.

A nation that sneers at its solemn treaties is not to be trusted in any way, and the only safety for America lies in being abundantly prepared to repell any aggression, and assert her rights, come what may.

This conviction is rapidly settling down upon American thought to-day, and every effort is being put forth to strengthen her defenses, and increase her naval strength.

The capacity of a democracy to quickly employ its resources is proverbial, as history demonstrates.

Like Canadians, born and matured under civil and political freedom America has a heritage to fight for, and has never been found lacking in those stern qualities that make the invincible, daring and unconquerable soldier.

Were a Boon to a Paisley Man

DODD'S KIDNEY PILLS CURED PAIN IN HIS BACK.

Mr. Jas. A. Bryce Tells Why He Recommends Dodd's Kidney Pills to All Who Suffer from Kidney Disease.

Paisley, Ont., Feby. 28th (Special).—"I can highly recommend Dodds Kidney Pills to anyone suffering from pain in the back," says Mr. Jas. A. Bryce, well known and highly respected in this neighborhood. "I had been troubled with a pain in my back for about a year.

"Reading the self-examination page in Dodd's Almanac led me to believe that my trouble came from my kidneys so I sent and got a box of Dodd's Kidney Pills. Before they were done I was feeling as well as ever.

"Dodd's Kidney Pills were certainly a great boon to me."

Dodd's Kidney Pills act directly on the kidneys. By putting them in condition to do their proper work they accomplish the cures so regularly reported. Healthy kidneys make pure blood and the man or woman who has pure blood coursing through their veins can laugh at nine-tenths of the ills of life.

WAREHOUSE FOR GERMANY

Holland is Aiding the Enemy With Foodstuffs

The London Daily Mail sent an investigator to Holland to ascertain the effect of the British blockade. He contributes a three column article, the gist of which is that after patient and careful enquiry, he has come to the conclusion that Holland is being used by the Germans as a warehouse from which goods are taken daily to the German factories, cities and troops.

"The Dutch cities," he says, "are swarming with German merchants. Eggs and spice, trading freely. Dutch commerce is inextricably entangled with German interests and German capital."

MURINE Murine is prepared by our Physicians, as used for many years in their private practice, now dedicated and the Public are invited to try it. Janet Knew

An old tenant on Queen Victoria's Balmoral estate used to be greatly concerned when the Queen went driving on Sunday afternoons. She even ventured to speak about it. The Queen, who allowed a good many liberties to her tenantry, smiled, and said to the woman—"But, Janet, the New Testament tells us distinctly that the Sabbath was made for man." "Aye," said Janet, severely, "I know it does; and I think none the more of the New Testament for that."

Will Crush Germany.

The British Ministry replies to the Kaiser's encouragement to his people with declarations of still firmer determination, and more certain hopes of victory. In spite of the German successes, the British statesmen assert that the crushing of Germany is near at hand, and that England will soon enter the field with a force of men and a supply of ammunition against which Germany's waning resources cannot hope to contend. The English bankers are also full of defiance to Germany. They point out how Germany's credit is rapidly falling, while the resources of Great Britain are scarcely touched.

Minard's Liniment Cures Burns, Etc.

Off to School, Full of Vim and Pep

—Don't cram their little "tummies" with greasy meats, starchy potatoes or other indigestible foods. One or two Shredded Wheat Biscuits with hot milk make a warm, nourishing meal that supplies all the material needed for their growing bodies. The perfect food to study on, to grow on, to play on. The crispness of the shreds encourages thorough chewing, which develops sound teeth and healthy gums. Being ready-cooked, it is so easy to prepare a warm, nourishing meal with Shredded Wheat in a few moments—no kitchen worry or work.

Made in Canada.

GERMAN BLOW CANCER.

Progressive Deterioration of the Enemy's Military Strength.

An allied diplomatist, discussing the progress and prospects of the war with a Reuter representative, mentioned the feelings of depression and impatience that are expressed in various quarters. In regard to this he said:

"Yes, I suppose people are looking for big victories, and fail to discover anything of this character during the past months. People seem to forget that we are wearing down the enemy and that every month his losses in killed and wounded are such that in many respects they cannot be replaced. This we know for a fact.

"Apart from the question of public opinion, there are also indications that all is not well in enemy military circles. News reaches us of disputes among the German generals, and there is reliable information that the Emperor's illness—whatever may be its nature—has had a depressing effect.

"So far as the enemy is concerned, there can be but one result. I should liken his position to that of one who is afflicted with slow cancer."

Proud Father—"I believe my dear, that the baby knows as much as I do." Mother (gazing at the infant)—"Yes, poor little fellow."

Notice to Stallion Owners

The inspection of stallions under the Ontario Stallion Enrolment Act, will commence March 23rd, 1916. All applications for enrolment and inspection, accompanied by the proper fee, must be in the Secretary's office, Parliament Buildings, Toronto, by March 15th. In case of applications received after March 15th, inspection will only be made at increased expense to owners. Address all communications to R. W. Wade, Secretary, Ontario Stallion Enrolment Board, Parliament Buildings, Toronto.

WOMEN BEST ARMY COOKS.

British War Office Finds Them Efficient and Economical.

The work of the British "Woman's Legion" has demonstrated conclusively that trained women operating in their own sphere—particularly in the camp kitchens—are immensely superior to untrained men.

Last August the employment of the first women cooks was sanctioned by the War Office. The scheme was put forward by Lady Londonderry when the appalling wastefulness and inefficiency in the various camp kitchens became evident.

One hundred women cooks were taken. Twenty were installed at the Convalescent Hospital at Dartford Camp, and the plan was spread to Epsom, Eastbourne, and Alnwick, and will be to Blackpool, always with a marked improvement. At the Blackpool Convalescent Camp alone 160 women will be employed.

An Army School of Cookery at which women instruct has now been inaugurated for the training of military cooks who will serve at the front. Thirteen women are already engaged in this work.

Use Any Household Recipe

with Dr. Jackson's Roman Meal and bake anything from it. If you like, eat hot from the oven. It won't ferment. It makes most delicious baking, prevents constipation, is very nutritious, relieves constipation or "money back." That's why a leading physician says it's a godsend to humanity. Especially try it in porridge, pancakes, and gems, but successfully follow directions on package for making porridge. For an early breakfast, cook the night before in a double boiler without stirring and warm in the morning by setting in boiling water while dressing. At grocers' 10c and 25 cents.

Made by the Roman Meal Co., Toronto.

Not Backward.

Country School Teacher—"You notice that boy who stands at the foot of his class? Well, last summer he was the brightest boy in school."

Committeeman—"He is now. I notice the foot of the class is nearest the stove."

Minard's Liniment Cures Diphtheria.

More Portable Shape.

A Lancashire weaver recently joined the army, and, after being at Plymouth three months, was allowed home on a week's furlough.

Visiting his old factory, he was encountered by the genial head of the firm with a smile, and—

"I hope they made a new man of you?"

The soldier replied:

"Aw'll tell yo' what they've done, sir. They've ta'en th' hump of mi back an' put it on mi chest, and it's a lot easier to carry nearw."—London Answers.

NOTICE TO STALLION OWNERS.

The inspection of stallions under the Ontario Stallion Enrolment Act will commence March 23rd, 1916. Stallion owners will notice that horses inspected in the Fall of 1914 do not require to be inspected at this time but all other horses inspected previous to the Fall of 1914, which were not then eight years old, must be inspected in order to be enrolled for 1916. Application should be made at once to the Secretary of the Ontario Stallion Enrolment Board, R. W. Wade, Parliament Buildings, Toronto.

In the Same Boat.

Sam had come home from school—hungry as usual. Tossing his spelling book on the kitchen table he hastened to the pantry and began an investigation of cake box, cupboards, and cooky jar.

Suddenly the back door bell rang. Leaving his unprofitable search Samuel went to answer. On the steps stood an unshaven, long-haired man whose clothes needed a tailor and a laundry worker.

"I'm hungry," began the stranger, in a low, agrieved tone, "and should like something to eat."

"Well, so'm I," confided the boy, "but you know Ive been a huntin' for ten minutes an hain't found a thing!"

Minard's Liniment Co., Limited.

Gentlemen,—My daughter, 13 yrs. old, was thrown from a sleigh and injured her elbow so badly it remained stiff and very painful for three years. Four bottles of MINARD'S LINIMENT completely cured her and she has not been troubled for two years.

Yours truly,

J. B. LIVESQUE.

St. Joseph, P. Q., 19th Aug., 1900.

A Fine Stream.

A country gentleman in Ireland, having a small sporting estate to sell, advertised it, and soon afterwards a gentleman called to see him about it. "Well, sir," said he, "I have been over that estate you advertised, and find it all right except that fine trout stream you mentioned." "It runs through the wood in the lower part of the meadow," said the landowner. "What! That little brook? Why, it doesn't hold much more than a spoonful. I am sure if you were to empty a pail of water into it it would overflow. You don't call that a fine stream do you?" "Faith," said the owner, blandly, "if it were much finer you couldn't see it at all."

The Paisley Advocate

PAISLEY, MAR. 8th, 1916

—No bye-election result in this Province in recent years has given such general satisfaction to both political parties as the one held in Peel Co. a few days ago. The turning down of a member of the Legislature who dabbled in war profits is a reproof that should not be lost upon politicians generally. The incident is accepted as an evidence that the electorate is becoming more conscientious and less partizan.

—Politics seem to have got into a dirty mess in western provinces. Manitoba recently had a thorough housecleaning, and now Saskatchewan appears to be badly in need of a similar process. Grafters should be evicted from office wherever they are found. The liquor trade had a hand in muddying the Saskatchewan political puddle. Investigations are afoot to prove whether or not the Scott Government and its supporters are guilty of accepting bribes from brewers and hotelmen.

—Should Ontario go dry for the war period, the Hearst Government propose to allow the electors to express their wishes in regard to prohibition after the war, should they desire to do so. This announcement was made by Hon. T. W. McGarry in a speech at Toronto on Friday night. It is the feeling of the temperance people that once prohibition is placed upon the statute books of Ontario it will not be erased therefrom after a trial, but will stay put as local option has done in hundreds of municipalities throughout the province. The liquor party, however, will never be satisfied to allow their traffic to be killed by a single blow. They will try a come-back, that is certain. However, if Old Man Ontario really goes in for total prohibition and finds it agrees with his constitution, there will be considerable difficulty in persuading him to change the treatment again, even when the war disturbance is over. With the House at Ottawa also seriously discussing total prohibition, there is a possibility that Canada may go dry from coast to coast.

How Soldiers Are Paid

A statement as to the method of payment of troops and the basis upon which certain sums are withheld was given to the House of Commons at Ottawa last week by the Minister of Militia. Ten dollars is withheld from the pay of the soldier while in Canada as a set-off against issues of clothing, etc. If the man deserts or is discharged for misconduct, this amount is forfeited. While in England fifty per cent of the pay is deducted, and in the case of men guilty of misconduct, the officer commanding has authority to direct that such men be given the same rate of pay as the British soldier. While at the front, in compliance with the British army regulations, pay is issued in limited amounts of six dollars a month, but men at the various stationery bases receive more. When there is assignment of pay enough is kept back, spread over months, to build a credit equivalent to the amount assigned. When this amounts to fifty per cent no more is withheld. Amounts withheld are paid to the men on their return to Canada or discharge from the force, but men at the front receiving smaller pay receive a balance up to fifty per cent of their pay on leaving for England. In case of death all monies standing to the credit of the soldiers are paid to his heirs, under the provisions of the law.

VILLAGE COUNCIL

The council met on Wednesday, 1st March, at 8 p m. All members were present except Mr George. The minutes of last meeting were read and adopted.

Messrs McKeracher and Galbraith addressed the council requesting the free use of the council chamber and occasional use of the town hall for the volunteers for overseas service.

Communication read from the Ontario Municipal Association stating its objects and soliciting membership fee.—Filed.

Letter read re equalization appeal of county council from Messrs Robertson & McNab, and from A Collins with bill of share of costs.

Nicholls — Move — That this council grant the use of the town hall free of charge for entertainments on behalf of the volunteers for patriotic purposes.—Carried.

Move—Sparrow—That the use of the council chamber be granted free for a rest room for the volunteers on Saturdays from 2 o'clock until 10 p m, on Sunday from 2 until 5 p m, and on all other days of the week from 4 until 10 p m, with light and heat, but these privileges may be withdrawn at any time, the town supervisor to be in charge.—Carried.

The audit for 1915 was presented and ordered to be printed.

The following accounts were passed: A Leitch $41 65, W T Howe $25, J H Hamer $21, R B Barnes $3 94, J W Brown [illegible], Ellis Bay 50, Firemen's pay $33 25, I Collins $60, I Shoemaker $5, H S Putman $8, John Stoddart $6, the clerk, postage, &c, $6 91, Elect Light Co $ [illegible], Weighmaster $ [illegible].

LOCAL AND DISTRICT NEWS

Assizes Court

The County Assizes Court opens at Walkerton next Tuesday. The suit of Angus Mallaney vs P C Kennedy, an soldier for damages for injuries sustained by the plaintiff being accidentally by a bullet fired from a gun in the hands of defendant, in Paisley, is on the docket.

160th Batt. News

Sergt. Jas. Patterson, of Paisley, went to London last week to take a course in machine gun sergeant, and Corp. Wilmer Sparrow went to Walkerton to take up the instructional course for sergeant. Some new appointments are made in the Battalion. Lieut. Horace Parker, a Paisley boy, has been placed in the machine gun section at Walkerton. Harry Chadwick, a former lieutenant in the Teeswater company of the old 33rd Regt., but late of Saskatoon, has taken a commission as captain of D Co. in the 160th Batt.

McDougald Sues McDowell

Norman T. McDougald resents the intrusion of another man upon the domestic hearth which he abandoned some years ago, and has entered an action for damages against Alex McDowell for alienating the affection of his wife. If the action is proceeded with it will likely be heard in the High Court. McDougald had the papers issued for another proceeding last week, but by the time the chief witness, McDowell, had prepared to leave Paisley for Walkerton, word was received that the complainant had gone away, and the chapter was ended thus.

The Late Owen Webb

On Wednesday, March 1st, another of Greenock's pioneers passed away in the person of Owen D Webb. After about a week's ill ness the end came without a struggle, as those watching scarcely realized when life had flown. The subject of this sketch was born near Amherst, Nova Scotia, on Jan 7th, 1836. He came to Greenock Tp in the year 1856, and was married to Susan Bolton on Oct 18th, 1861. They knew all the hardships of pioneer life, having settled on a bush farm, the east half of lot 14, con 14. After partly clearing that they sold it and moved to lot 18, con 14, this being 100 acres of solid bush. Then after clearing most of that property they again sold, having lived there ten or twelve years. As that time they intended going west, but changed their minds and bought lot 16, con 15, where the deceased spent the remainder of his days. On Oct 28, 1911, Mr and Mrs Webb celebrated their golden wedding, and one of the notable events of the day was having with them Mrs Adam Purdy, in whose house they were married fifty years before. Mr Webb was a man of strong convictions. In politics he was a staunch Liberal and in religion a Baptist. The deceased is survived by his wife and a family of five—Mrs Albert Osborne of Port Elgin; Mrs Ben McLennan, of Hancock, Mich; Mrs Emery Towers, of Spokane, Wash; Geo Webb, on the 14th con., and Amos, on the homestead.

Hugh (Klondike) McArthur Shot

Toronto papers contained accounts of a shooting affray in which a former Paisley man had a bullet put through the side of his head. McArthur has been in Toronto since he left Paisley last year, and now lives at 859 Don Mills Road. The battle he came through was fought in a stationery store of J. Russell, at 129 Front St., and his opponent was Angus McKay, formerly a bank clerk. The Daily Star gives McArthur's story as follows: "I had never seen the man before," McArthur stated to-day. "He came into the store for a paper and I gave it to him. I just happened to be in the shop looking after the business while Mr. Russell was out on other business. I do that often as he has friends. This man, who gives his name as McKay, started to talk about the war. I started to talk. Then I thought from his language he favored the Germans. It began to get warm. He told me that the Germans would march on Paris. He said they would lick England, then they would come over here and take Canada. I didn't like that so I got pretty warm. He says his name is McKay, but no Scotchman would talk like that. I told him he must be a pro-German or he would never talk the way he was. I thought he had a German face and I told him so. He said the Germans would win. Then I told him that no German could lick me. With that I turned my back on him. I was facing the doorway looking out into the street, when I suddenly felt the bullet crashing through my face from behind. That was the first I had seen of the revolver or that I knew he really intended to fight. I think I must have lost my head then, for I went to him. He still had the revolver in his hand, but I snatched it from him and threw it away. Then I went at him with my fists. No, he didn't fire a second shot. I didn't give him a chance. Yes, he is pretty well beaten up, but I had to do it, for I think he intended to kill me." The bullet struck him behind the left ear, was flattened and deflected by the skull bone, travelled along the bone, and came out about the middle of the cheek. Judging from the appearance of McKay, the fight must have been a furious one. His face and head are so swollen and distorted that he was hardly able to give his story to the police. According to Inspector of detectives Kennedy, McKay tells the same story up to a certain point—the point where the fight began. "McKay says they argued about the battle of Verdun," the inspector states, "but he claims that McArthur attacked him first with his fists, and that he drew the revolver and shot in self-defence, after he had been beaten. He says he has been a travelled and carried the gun always." McKay is aged 34. He is a man about five-feet-five in height, while McArthur is much taller. As there are no witnesses to the fight, the police are now trying to sort out the two stories. After the fight McArthur ran out of the store to the Walker House. In the meantime Constable Holmes had been informed of the trouble, and rushed to the stationery store, where he found McKay lying on the floor, his face a mass of bruises. Both men were taken to St Michael's Hospital. McKay remained all night, under police guard, but McArthur was allowed to go to his home.

MARRIED

FLETCHER—MANNERS—At the residence of the bride's parents, on March 1st, by Rev. Mr. Bald, Mr. George Fletcher, of Vicarey, Sask., son of Mr. and Mrs. Jacob Fletcher, 10th Bruce, to Miss Catherine Ada, daughter of Mr. and Mrs. Adam Manners, North Line, Kincardine Tp.

VIOLENT ATTACKS OF DYSPEPSIA

Suffered Tortures Until She Tried "Fruit-a-tives"

St. Jean de Matha, Jan. 27th, 1914.

"After suffering for a long time with *Dyspepsia*, I have been made well by "Fruit-a-tives." I suffered so much that at last I would not dare to eat for I was afraid of dying. Five years ago, I received samples of "Fruit-a-tives" and after taking them I felt relief. Then I sent for three boxes and I kept improving until I was well. I quickly regained my lost weight—and now I eat, sleep and digest well—in a word, *I am fully recovered*, thanks to 'Fruit-a-tives.'"

MRS. CHARBONNEAU.

50c. a box, 6 for $2.50, trial size 25c. At dealers or sent post paid on receipt of price by Fruit-a-tives Limited, Ottawa.

THE LATE JOHN McKINNON

(Continued.)

A link of present and past, binding in its embrace sixty-six years of life in Bruce Tp., was rendered on Feb 24th by the death of the venerable John McKinnon. Deceased had a wide circle of friends and acquaintances, all of whom felt in his death the loss of a most esteemed and valued friend. Age, with its loneliness and decay, is offset by the attractions which betoken a deathless life. The hoary head is a crown of glory if found in the way of righteousness. The bowed wheat has a full ear. Welcome, then the message that comes to such an one. "Thou shalt come to thy grave in a full age, like a shock of corn cometh in his season." John McKinnon, born in Ross Mull, emigrated with his parents from the Highlands of Scotland in the

year 1840, being then 19 years of age. Needless to say, he took the Highlands with him in all that goes to make a worthy Celt. He was a true clansman, and though a man of broad sympathies, he loved his ain folk best. Had his advantages been equal to his natural abilities he would in all probability have been in the ministerial ranks. His capacity for theology was pronounced. As it was he followed farming, in which calling he played a worthy part in transforming the then bushwilderness into the present enviable township of Bruce. In a local way he enjoyed the distinction of not only being among the last of the old pioneers of Bruce, but as one always in demand at pioneer rehearsals. In politics he was a Reformer, and though never an aspirant after public office he always interestedly exercised his sacred privilege of the franchise. In 1876 he was ordained an elder in the North Bruce congregat he Presbyterian church, th ity infancy. He served in this ity until his retirement from the farm twelve years ago. As an elder he realized the sacred obligations of his office and lived and labored with whole-souled consecration. In old age he loved to partake of the sacrament in his old church, which to him, in view of past memories, was thrice sacred. On his last visit on entering the church grounds he drew himself up to his full height and quoted, with the love light in his eye, "Our feet shall stand within thy gates, O, Jerusalem!" To him faith has become sight. "A mighty prince has fallen in Israel," "One of the best men I ever met," are among the expressions one hears now of the departed.

Such, in brief, is a glance at the dear old saint of whom it might be said as of Nathaniel, "Behold an Israelite, indeed, in whom is no guile!" A debt of gratitude is due his many friends in Paisley and elsewhere for their many kindnesses and social amenities to the departed.

Mr. McKinnon was married in Paisley on June 24th, 1862, to Euphemia McGillivray, who predeceased him nineteen years ago.

Besides the members of his family, mentioned in last issue, the deceased is survived by four sisters—Mrs. John McLean, of Red Deer, Sask.; Mrs. John Bell, of 4th con. Saugeen; Mrs. Peter Gilchrist, of Glamis; Mrs. Archie McGillivray, of Port Elgin.

WILLOW CREEK

Mr John H Roppel was down to Walkerton last week on a business trip.

Pte Gordon Smith, of the 160th, spent a few days last week at Mr Chas Smith's.

Mr H Hunter is hauling gravel for the cement work on his new barn.

FOR FLETCHER'S
CASTORIA

THE STETHOSCOPE

A doctor hears some curious noises when he places the stethoscope against your chest to test whether you are fit or not. When the lungs are healthy, a pleasant breezy sound, soft in tone, is heard as the breath is drawn in and expelled. If the stethoscope conveys to his ear a gurgling or bubbling sound, the doctor knows that you are in what is known as the moist stage of bronchitis. In the dry stage of the same complaint the sound is a whistling, wheezy one. One of the signs of pneumonia is the soft crackling note that comes through the stethoscope. It is not unlike the sound that can be heard when your finger and thumb have touched a sticky substance, and you first place them together and then part them, holding them close to your ear.

Socialists Arrested

The Berlin Vorwaerts announces the arrest for high treason of ten German Socialists, including a woman named Setkin. They are charged with engaging in peace propaganda.

The Austrian fleet has been bombarded Durazzo.

An important British success is reported from Egypt.

Granny's Talk to Young Mothers

"Granny" Chamberlain "Few young mothers realize the extent to which a cold lowers the system and makes it susceptible to contagious diseases. It has been proved that the majority of diseases arise from germs, but it is not widely known that a healthy system will repel their attacks.

Mothers should never allow a cold to run for twenty-four hours without attention. If this is made a rule there will be less sickness for young mothers to worry over. A good reliable medicine for coughs, colds, croup and bronchitis should always be kept in the home where there are children. You may say that you have no confidence in cough medicines, but that is because you have never tried

Chamberlain's Cough Remedy

This medicine is thoroughly reliable and has stood the test of nearly half a century. No, it will not hurt the children—there is nothing in it that would ever injure the baby."

Yours for Health —Granny Chamberlain

A USEFUL HINT ON SELECTING DAIRY COWS

A Guide to the Farmer on the Problem of a Good Milker—Actual Butter Record Best Cheaper

There are good cows and inferior cows in all breeds, and the value of a herd must always depend largely upon the owner's selecting the right individuals in any given breed. A first consideration is yield of milk and butterfat; second, conformation of type and third, pedigree. The only infallible guide in the selection of cows is the actual butter record. The amount of butter from a cow is by no means solely determined by the quantity of milk she gives. It depends as much on the richness as it does on the quantity of milk. With heifers and dry cows judgment as to their value must largely be based upon conformation and pedigree.

Dairy temperament is indicated by a spare, angular form, large, bright expressive eyes far apart, a large, straight, prominent backbone and an active disposition as opposed to sluggishness. The spare, angular form indicates the absence of any disposition to lay on fat, and the large backbone, large bright eyes, broad forehead and general sprightfulness indicate a large amount of nerve or working power. Good feeding capacity is indicated by a long, deep barrel or coupling, a large muzzle and a good constitution. A good constitution is indicated by large, bright eyes, deep, broad chest, a large heart girth, large open nostrils and a soft, pliable skin, with plenty of secretion.

How to Prove Milk Tests

Good milk organs are indicated by a large, evenly-quartered, elastic udder, running well forward and back between the thighs; large, tortuous milk veins, running well forward and preferably branched. The teats should be of moderate size and squarely placed. Good quality is indicated by a loose, pliable skin, soft, silky hair, clean bone and a general refinement, especially in the head, neck, withers, thighs and limbs. The udder of the cow is frequently misjudged. Fleshy udders, no matter how large, are undesirable. They possess small milk-elaborating capacity and are more subject to disorders than moderate-sized, elastic udders. A point that needs emphasis is the importance of constitutional vigor in the animal. A good milker is one of the hardest worked of animals, and unless possessed of a good constitution she cannot do her maximum of work.

Dairy Herd Tip

With the average milk producer the cheapest and most satisfactory way of building up a dairy herd is to select good ordinary cows and breed these to a first-class pure-bred sire. Where this is done the selection of a sire is a matter of far greater moment than the selection of a cow, because where non-pedigree cows are bred to a pure-bred sire the calves will take on more of the characteristics of the bull than of the cows. The chief merit of the sire is determined by the butter-producing capacity of his mother, his sire's mother and so on down the line. Unless a bull is descended from good milkers he need not be expected to produce good milkers.

Food and Milk

Good food produces the best results, and it is for the dairyman himself to find out whether it pays him to feed it to his cows. One thing may be taken for granted—that the richness of the food of a cow correspondingly increases the richness of the milk, and this result is more noticeable in sound, healthy cows of the real dairy type, cows with highly developed milking qualities, and whose consumption of food goes chiefly to further this end, than in poor and neglected animals. The latter fail to do their best.

Good grass is an essential factor in the health and productiveness of dairy cows. To obtain these good general farming is needed, one to a large extent supplements the other. A dairy farmer who neglects his soil and pastures makes a great mistake. Poor pastures are largely answerable for poor milk production.

Every farmer should raise bees.

Dryness is more essential than warmth in the hog house.

Honey is an especially profitable crop for the fruit farmer.

Bees are easier to care for than chickens, and yield good returns on the investment.

Late sown carrots, beets, etc., store much better than those which are sown early and are too old when harvested.

Cut out and burn the old raspberry canes as soon as they are through fruiting. Cultivate the young shoots and keep out all the weeds.

Crops For Honey

Alfalfa offers one of the best honey making materials. Alsike is also valuable, as is sweet clover, which may be grown to advantage in most provinces.

YOUR OPPORTUNITY!

The Winter Term now on at the

NORTHERN Business College

Three practical, complete and up to date courses of study—Business, Shorthand and Typewriting, and Preparatory. Worthy students assisted to good paying positions. We have an extensive connection with the best business houses where our graduates are regularly employed. Write for pamphlet. Full information free. C. A. FLEMING, Prin.; G. B. FLEMING, Sec'y.

THE NEWEST REMEDY FOR

Backache, Rheumatism and Dropsy.

Kidney, Bladder and Uric Acid troubles bring misery to many. When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. Thence follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, dizziness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes chalky deposit. The uric acid sometimes forms into gravel or kidney stones. When the uric acid settles into the muscles and joints, it causes lumbago, rheumatism, gout or sciatica. This is the time to try "Anuric." Send 10c. for trial package. During digestion uric acid is absorbed into the system from meat eaten, and even from some vegetables. The poor kidneys get tired and backache begins. This is a good time to take "Anuric," the new discovery of Dr. Pierce for Kidney trouble and Backache. Neglected kidney trouble is responsible for many deaths, and Insurance Company examining doctors always test the water of an applicant before a policy will be issued. Have you ever set aside a bottle of water for twenty-four hours? A heavy sediment or settling sometimes indicates kidney trouble. The true nature and character of disease, especially those of the kidneys and urinary organs, can often be determined by a careful chemical analysis and microscopical examination—this is done by experts chemists of the Medical Staff of the Invalids' Hotel. If you wish to know your condition send a sample of your water to Doctor Pierce's Invalids' Hotel, Buffalo, N.Y., and describe your symptoms. It will be examined without any expense to you, and Doctor Pierce or his Staff of Assisting Physicians will inform you truthfully.

KNOW THYSELF!

Read all about yourself, your system, physiology, anatomy, hygiene, simple home cures, etc., in the "Common Sense Medical Adviser," a book of 1008 pages. Send to Dr. V. M. Pierce, Buffalo, N.Y., 10 cents in one-cent stamps for a cloth-bound copy. Customs prepaid.

Byron Pink Tomato

FREE

A post card addressed to us as below, with your name and address on it on the other side, will cost but one cent. Drop it in the nearest mail box, and it will bring promptly a copy of our illustrated 80-page catalogue for 1910. With it will come also—free—a 15c. packet of

Byron Pink Tomato

A perfectly formed tomato, the Byron Pink is uniform, large, and attractive. The flesh is firm, and the flavor delicious and full-bodied. It is a robust grower and a heavy cropper. It is an ideal tomato for forcing. You are going to buy seeds anyway; then you might just as well send for our catalogue and get this free premium for yourself.

The Catalogue tells about the other valuable premiums which we give with every order.

DARCH & HUNTER SEED CO., LIMITED, LONDON, ONTARIO, CANADA

HUSBAND SAVED HIS WIFE

Stopped Most Terrible Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Denison, Texas.—"After my little girl was born two years ago I began suffering with female trouble and could hardly do my work. I was very nervous but just kept dragging on until last summer when I got where I could not do my work. I would have a chill every day and hot flashes and dizzy spells and my head would almost burst. I got where I was almost a walking skeleton and life was a burden to me until one day my husband's stenographer told me husband if he did not do something for me I would not last long and told him to get your medicine. He has got Lydia E. Pinkham's Vegetable Compound for me, and after taking the first three doses I began to improve. I continued its use, and I have never had any female trouble since. I feel that I owe my life to you and your remedies. They did for me what doctors could not do and I will always praise it wherever I go."—Mrs. G. O. LOWERY, 418 W. Monterey Street, Denison, Texas.

If you are suffering from any form of female ills, get a bottle of Lydia E. Pinkham's Vegetable Compound, and commence the treatment without delay.

THE SHOE STORE

You should not fail to see our splendid showing of

Spring Boots and Shoes

The line includes some of the nicest values you have ever seen. They're stylish, new and up-to-date, built to comfort your feet, stand lots of hard wear and still look nice.

Just call and look over our line. You will save money by getting your shoes here.

Also in good export stock and horse certificates for same. Oxygen gas treatment for milk fever. Office and residence opposite the old Northern Hotel.

The Housewife's Corner

Clothes Are Grateful For Care.

Many women are careless in putting away hats, yet there is rarely a shape which cannot be altered into a new style, or if the hat is not used again the trimming may be. Carefully clean and free hats from dust, using for felt, velvet or beaver a soft camel's-hair brush, which will not scratch the fibers of the material. Roll ribbon or silk carefully after cleaning and sew or pin flowers to tapes and string them across the lid of a box. A hat supporter should be in every handbox, and this is easily made from a stick with a knob at the end, which should be padded so the hat can be pinned to it and thus kept from being jammed out of shape. Wads of soft paper should be used freely to keep the hat steady, in case the box is moved.

The life of shoes can be much prolonged, if they are properly put away. Both shoes and slippers should be treed. Trees are really not a luxury but an economy and cost as low as ten cents a pair. If, however, these are out of the question, stuff the shoes well with paper before wrapping each one separately; if kid or leather shoes are given a thin coating of ordinary vaseline before putting them away, they will be soft and pliable when they come forth in the fall and will not crack with the first walk.

Preservation of Furs.

Good furs are each year becoming more expensive, so it behooves those who have them to give them special attention. The Russian method of cleaning furs is excellent. Put some rye flour into a saucepan and heat as hot as the hand can bear it, stirring constantly; spread the flour over the fur and rub well into it, brush thoroughly with a clean brush or beat gently until the flour is removed. This method is for dark furs. For white furs such as white fox or ermine, dip a perfectly clean whisk broom into pure alcohol and mop the fur well with it, rewetting it often until the fur is soaked. Have ready as abundance of powder starch and with a flour dredger fill the wet hairs full of starch, working it down into the skin with the fingers. Then dry, powder again thickly and shut up in a box for two days. Beat out the powder in the open air with a whisk, shake and toss until free of starch. If moth larvae are discovered in furs, a solution of acetate of potash and spirit of rosemary, 15 grains to one pint, will destroy them. Work furs should be carefully wrapped, never packed tightly, or the fur will flatten. Muffs should be hung on a rod, stuffed with paper to keep in form, and furs not in a moth-proof closet should be carefully sealed in tar paper, or if newspaper must be used, camphor, moth flakes or spices had better be put in before sealing, as one is not always sure that every stray egg has been destroyed.

Draperies, carpets and rugs, if soiled, should be cleaned before putting them away. If out of reach of a professional, the amateur can accomplish splendid results. After removing as much dirt as possible by brushing and beating, wash the draperies in a gasoline soap solution, using a pound of good white soap to a gallon of gasoline, then rinse in pure gasoline. Carpets and rugs should be washed with this solution and then with clear gasoline and finally rubbed well with dry cloths. This will raise the nap as well as clean the carpet. It seems needless to add that this should be done in the open air, away from any building. Roll them on poles, scatter through them a preservative and seal in newspapers.

Choice Recipes.

Current Croquettes.—Pour one cup hot milk over two cups stale cake crumbs, stir and cook over boiling water for five minutes, then add one-half cup currants, one-half cup chopped nut meats and one-eighth teaspoon salt. Remove from fire, add immediately beaten yolks of two eggs, flavor with one teaspoon vanilla and spread on buttered plate to cool. Shape into croquettes, roll in fine crumbs, dip in beaten egg, roll again in crumbs and fry in deep hot fat. Serve fruit or foamy sauce.

English Brown Pudding.—Two eggs one-half cupful sugar, one-third cupful butter, one-half cupful bread flour, one tablespoonful warm water, four tablespoonfuls tart preserves (cherry or plum will do), one-half tablespoonful soda, and a few grains salt. Beat eggs very light, add sugar, then butter creamed very soft, then flour. Dissolve soda in water, add to mixture; beat well, stir in preserves, and beat until well mixed. Put in six well buttered individual molds and steam one hour. If one large mold is used, steam one and one-half hours.

Soup With Vegetables.—This soup is called "minestone" in Italy, and is very nourishing. The Italians make a meal of it alone. Chop one slice raw ham, three or four strips of bacon and a few stalks of celery. Cut small cabbage in finger-length strips and one carrot, one onion and one turnip into dice. Add one-half cup large red beans. If dried beans are used, soak over night before mixing with the other vegetables. Pour in one cup stewed tomatoes with one-half cup uncooked ribbon macaroni. Add two quarts water and a soup bone. Cook slowly one hour or more, season with salt and pepper and pass grated Parmesan cheese.

Cranberry Relish Pie.—One and one-half cups cranberries, one-half cup seeded raisins, one cup sugar, one tablespoon cornstarch. Wash and pick over cranberries, drop in saucepan containing hot water and cook until almost soft, but not mashed. Take up with skimmer and drop raisins into same water. As soon as well plumped out, drain and add to cranberries. Stir sugar through and fill pie tin that has been lined with paste. Roll another piece of paste, cut into narrow strips and lay across fruit lattice fashion. Lay strip around edge and press down. Bake in brisk heat until crust is nicely browned. When serving sift confectioners' sugar over.

Useful Hints.

Insects dislike both salt and alum.

Meat should not be salted before cooking.

Always boil new iron ware before using it.

Never apply hot water to frostbitten flesh.

During the winter it is proper to air blankets and bedding well.

Food cooked in vessels that are not thoroughly washed cannot have a good flavor.

Save time when knife cleaning by previously warming the knife board before the fire.

Turnips and beets are improved by adding one or two tablespoonfuls of sugar when cooking.

The clothes wringer will last twice as long if the pressure at the top is loosened after using.

When boiling vegetables never let them stop boiling until they are done, or they will be soggy and heavy.

To polish oilcloth add a tablespoonful of paraffin to the water used for washing it, and it will look as if polished with beeswax.

When mice have intruded into the pantry find their entrance hole and seal it up with soft soap heavily charged with red pepper.

For wagon grease or tar spots rub well with kerosene while the grease is fresh, then wash out in cold, soft water, using no soap.

To clean a greasy stove dip a cloth in dry soot and rub over the greasy places. Then apply shackleac and the spots will disappear.

BIRDS LIKE WAR SOUNDS.

Have Accustomed Themselves to the Noise of Explosives.

Bird life along the battle front appears to have been little disturbed by the continual pounding of the guns. Birds disappeared from the war zone after the battle of the Marne, and some naturalists attributed their migration to the din of war. They came back again, however, and little by little accustomed themselves to the noise of explosives and even find an advantage in being close to the conflict where there is ample nourishment around the soldiers' quarters. Doves and wild pigeons are the most abundant, while there are many cuckoos, thrushes, crows, magpies and jays. Starlings are very common, nesting in trees as close as they find them in the trenches. Monsieur Louis Rousseau, a well-known ornithologist, has discovered that the war has changed the character of these birds and made them thrifty. He has found their nests in the holes of dead oaks, with a provision of breadcrumbs stoged away prudently underneath. Doves fly about between the two lines, paying no attention to the bursting shrapnel, and none of them appears to be afraid of either aeroplanes, observation balloons or dirigibles.

Buzzards are everywhere along the front, and they seem to find particular amusement in circling around the observation balloons.

Monsieur Bousseau finds game very abundant in the section of the front where he is, due partly to the suppression of shooting since the war began, but mostly, he thinks, to the invasion which drove game ahead of it toward the Marne. Deer and stag are very numerous, in spite of a great deal of poaching on the part of the peasants. On the other hand, rabbits are very rare. Wild boars are seen in places they were never known to frequent; a litter of wolves was found in a ditch beside the road near which territorinis were digging a trench, and two others were found in an abandoned trench, 1,650 yards away from any stream. Polecats, martins and weasels have almost entirely disappeared, their places taken by rats and mice.

If some men had to work in order to earn a living they wouldn't live very long. Son: "I hope, governor, that when I attain to your years I'll know more than you do." Father—"I'll go you one better, my boy, and hope that when you reach my age you'll know as much as you think you know now."

THE SUNDAY SCHOOL

INTERNATIONAL LESSON.

MARCH 12.

Heroes and Martyrs of Faith—Heb. 11. 1 to 12. 2. Golden Text: Heb. 12. 1, 2.

Verse 1. Assurance—Of various renderings of this somewhat doubtful word—which occurs in Heb. 1. 3 as "substance"—the best seems to be suggested by a legal use found in papyri. The docket of papers in a public office, bearing on the possession of land, was called by this word, which answered etymologically to the Latin substantia: the papers "substantiated" a claim. Faith accordingly is the "title-deeds" of our promised possession. Throughout this chapter we find it describing the spiritual faculty which enables its possessor to treat the unseen and still future good as a present reality, when guaranteed by God's promise. This is quite distinct from Paul's use of "faith" as trust, or James's as creed. Conviction—"Test" (margin). The Greek is elenchos, which became a technical term for the method of Socrates, who exposed sham knowledge of cross-examination. Faith is accordingly the faculty which can sift things unseen, and select those which are real. The chapter is to show how the men and women of the canonized past—immensely different in character and spiritual achievement—exhibited this faculty of verifying promises truly from God, and when verified acting upon them as realized assets.

32. Gideon, the noblest of the judges, illustrates verse 1 peculiarly. Before the "test" of faith had put the divine leading beyond question he was timid and hesitant as a captain should be who is to risk lives on a forlorn hope. Once assured he can treat his contemptible little army as an already victorious host. Barak is an example of the same kind of faith on a smaller scale. Samson, whom we must not endow with Miltonic grandeur, tells us how faith could work in a man of one talent; he really believed that his strength lay in the hair that symbolized his Nazirite vow, and put forth that strength to the ruin of the foe. Jephthah, a mere robber captain, accepted victory as assured by the terrible price he offered, and never dreamed of withholding the price when the victory was won. Of David, enough to say that intense belief in the reality of God's promise is the one characteristic that redeemed a man of many grave faults, albeit of obvious and unlimited lovableness. He and Samuel and the prophets are a new and higher class, as the structure of the original suggests. Samuel is actually the founder of the prophetic order, whose whole function arose from the possession of faith.

33. Subdued dynasties, like Elijah or Samuel as kingmakers. Wrought—The integrity of Samuel's administration (1 Sam. 12. 4), and the picture of David's just reign (2 Sam. 8. 15) will illustrate. Obtained—Probably David again is in mind. See 2 Sam 7. 11, etc. Stopped—David's youthful exploit might be referred to, but the next clause shows that the writer has passed on to the book of Daniel.

34. Escaped, like Elisha at Dothan. Power—weakness, like Samson for his last exploit. War—The Old Testament abounds in illustrations of a thought classically expressed in Psa. 18. The story of the Maccabees rises above all, almost unique in history, as a true "holy war." The problems started by the teaching of Jesus had not yet emerged, and faith could work upon the battlefield without misgiving. Aliens—Philistines especially; Jonathan and his armor-bearer are in mind.

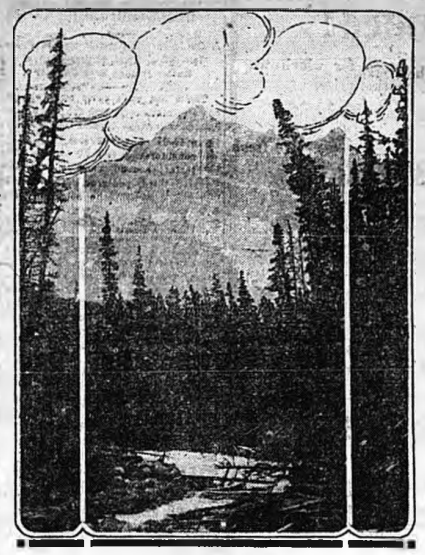
35. Women—the widow of Zarephath and the Shunammite are thought of. Others—The allusion is probably to the fine story in 2 Maccabees of the woman who saw her seven sons martyred for the faith of Israel: the woman's point of view is accordingly prominent here also. A better resurrection—Expressly alluded to more than once in that story. It will be remembered that in the days of Elijah and Elisha the hereafter was still dark, and nothing better than a return to this life could be dreamed of. Not till the gospel came did men fully know, but such glimpses as in Dan. 12. 3 were caught by the latest seers of the Old Testament.

36. Others—A different word in the Greek; the thought is apparently turning to new fields of illustration. The supreme prophet, Jeremiah, supplies this verse with comment from every part of his tragedy.

37. Stoned—Zechariah, son of Jehoiada, is the special example (see 2 Chron. 24. 20-22; Matt. 23. 35). Our Lord's allusions to the stoning of prophets may well take in other instances. Sawn—Such was in Jewish story the martyrdom of Isaiah. Tempted—It is hard to escape the impression of an anticlimax. A very slight change in the Greek will give the meaning adapted in the paraphrase. Sword—From Elijah's words in 1 Kings 19. 10. Compare also Jer. 26. 23. Sheepskins—The nearest parallel would be the skin worn by Elijah, adopted by later times as a kind of clerical garb. Compare Zech. 13. 4 for these wolves in sheep's clothing. But the reference is not very satisfactory, and the words may be quite general. Ill-treated—The word recurs in Heb. 13. 3 and Heb. 11. 25.

38. No worthy—For it is at bottom the subconsciousness of this unworthiness which prompts the world to be cruellest to men and women far above its own standard.

39. Witness borne—The word of verse 2, repeated at the end as a thesis that is now proved. Received not—For the best is always yet to be; only imperfect religions place their golden age in the past.



40. The thought that we never can be fully blest till we are all blessed together inspires Paul's magnificent picture of the destiny of creation in Rom. 8. "Thou wouldst not be saved alone"—Matthew Arnold's address to his great father—has the widest possible application.

12. 1. Witnesses—Not spectators. The word is attached closely to the keyword of the last chapter. The great names then have received witness from inspiration that they may stand on the roll of examples to mankind. In their turn they witness of the power of that faculty by which they did their deeds. Lay aside—The figure of the footrace in this verse is a link with Paul, whose perpetual use of it is characteristic of his lively sympathy with everything that was healthy in other people. The weight is hardly superfluous fat, of which a modern athlete would think; it is rather clothing, which a Greek gymnast (as the word itself implies) put away altogether. The sin is similarly pictured as a graceful robe which "closely clings to us" (margin). Patience—Rather, endurance, which should be substituted everywhere except in places like James 5. 7, 8, where a word describing "long-mindedness" occurs. It is important to keep the close connection with endured in verse 2.

2, 3. Author and perfecter—For faith is "begun, continued, and ended" in him whose earthly life was the supreme example of it, and his living Spirit the one power that can produce it in us. Hence the human name Jesus, for we are to realize the Unseen as he did in the days of his flesh. The lesson of Calvary here is that the joy of our Lord, in the present reality of redeemed humanity, a new heaven, and a new earth, empowered him to endure the most appalling torture man's fiendishness ever devised, and to treat as nothing the scorn and contempt with which men regarded the sufferer. Every example of faith recounted in the last chapter is only a broken light of him. Note that the supreme agony of the cross was the "gainsaying of sinners against themselves" as margin, beyond all question the right reading—the knowledge that men for whom he died would not let him save them. So if he despised shame it was not through proud indifference to men's thoughts of him. It was for their sakes that he cared, not for his own.

Severe Winter in Petrograd.

According to the Novoe Vremya, the present winter in Petrograd is the most severe in years, and there is considerable suffering. In the Wiborg section of the city the streets are no longer illuminated at night owing to the scarcity of coal, which has closed most of the electric light plants. The scarcity of coal is felt particularly by the poorer classes. Wood is in great demand, but that, too, is difficult to obtain. Because of lack of heat the schools have been closed for the winter. Within a few weeks forty persons have been found frozen to death in the streets.

MOUNT CAVELL, B.C.

This mountain has been re-named to commemorate the heroism of the British nurse who was put to death by the Germans some time ago. The peak rises to an elevation of 11,020 feet, and is visible for twelve miles from the observation cars of the Canadian Northern Railway. An excellent trail has been made, giving easy access to the mountain from the railway.

RUNS THE GERMAN WAR MACHINES

VERY DIFFICULT MATTER TO MEET THE KAISER.

Neutral Writer Describes Control Exercised by Gen. Von Falkenhayn.

Mrs. Hendrick Hudson, a neutral who has returned recently to France after a prolonged visit in Germany, has contributed a very interesting article to the Paris Temps, from which the subsequent passages are quoted:

"General Von Falkenhayn, who was placed at the head of the great general staff when Field Marshal Von Moltke fell into disgrace immediately after the battle of the Marne, is at the present hour the most powerful man in Germany. In regard to his antecedents, one knows that Von Falkenhayn, while a young officer, was obliged to give up his military career on account of having run scandalously into debt. He left for China, where he obtained employment in a commercial house.

"When the expedition against the Boxers was organized, in 1900, Von Falkenhayn was permitted to re-enter the army service, because of his valuable knowledge of the country in which the military operations were conducted. Since then he has risen steadily in rank, but he has not been able to shake off his previous reputation.

"Maximilian Harden, the well known journalist, was unsparing in his criticism of General Von Falkenhayn's selection as Von Moltke's successor. In his publication, the Zukunft, he declared that "it was a bad policy to intrust the fate of Germany to a gambler, even if he were a good one at the game.' This bold utterance caused the suppression of the Zukunft for a whole week.

Boss of the Kaiser.

"Being extremely jealous of his authority, General Von Falkenhayn keeps away from the general headquarters all persons whom he suspects of trying to gain the confidence of the Kaiser. Many court officials have on different occasions tried to get audiences with their sovereign, only to be invariably rebuffed by Von Falkenhayn. Sometimes the refusal is very curt and ungracious. In other instances diplomacy requires that some thinly veiled excuse be given. The chief of staff then usually informs the petitioner that His Majesty is just getting ready to depart for another front, but that he will grant the desired audience on his return to headquarters. This promise, however, is never kept. It is by such means that Count August zu Eulenburg, Grand Marshal of the Imperial Court 1890, has been prevented from seeing Emperor William for several months. The isolation of the Kaiser is an important factor in the plans of the militarist party. The ruler does not learn any more of the real situation and events than General Von Falkenhayn designs to let him know. William II. is to-day actually the prisoner of his own military camarilla."

A note of thanks to the cafe managers ended the celebration.

Better a homely wife than one who isn't home much.

THE LOST LEGION OF THE PRESENT WAR

NOT THE SLIGHTEST TRACE HAS BEEN MET WITH.

Fate of 5th Norfolks in Dardanelles the Biggest Mystery of Present Conflict.

The fate of a portion of the 1st Battalion of the 5th Norfolks in the abandoned Dardanelles operations will rank as the biggest mystery of the war. Rudyard Kipling's weird story, "The Lost Legion," has been matched, for Colonel Sir H. Procter Beauchamp, fifteen officers and 238 men have absolutely disappeared from human ken.

Sir Ian Hamilton has told how they charged the enemy's position, passed through a village, and on to a dense wood beyond, "pushing on, driving the enemy before them." The rest is silence. "Nothing more was ever seen or heard of them. They charged into the forest, and were lost to sight or sound. Not one of them ever came back."

The forest into which they charged was scoured through and through the next day, but not one of this band of heroes, dead or alive, was found. Though there have been reports of certain belongings having been recovered, there has been no verification of this. Not the slightest trace has been met with, despite every effort. They are the Lost Legion.

A Squadron Disappeared.

In the late South African War there was an instance of a British force apparently being swallowed into the ground. An entire squadron of the 18th Hussars galloped into the darkness and utterly disappeared. Nearly a week later it was found that the squadron had been captured by the Boers, who had lain in wait for the too adventurous body.

There were several such, but similar instances where large bodies of men were captured without leaving any trace. Here the parallel with the case of the Norfolks ceases, for the only men known to be captives in the hands of the Turks are one officer and twelve men who fell before the wood was reached, when the full body consisted of seventeen officers and 250 men.

In the earlier South African War, in December, 1880, the 94th Battalion left a station and disappeared. Many weeks later, little parties of footsore and ragged men wearily crossed the Natal frontier, bringing tidings of the Lost Legion. According to the tale of the survivors, the battalion had been surrounded by the Boers at Bronker's Spruit, and the colonel, with a number of men, had been put to death; the remainder had been disarmed and set adrift on the veldt.

The Mystery Explained.

A troop of the 10th Hussars once disappeared when out on active service in Afghanistan. In the darkest days of 1879 the troop went into the bitterly cold night, not a man living to tell the tale of disaster. Except for a riderless horse which galloped back to camp, no intimation of ill was received.

Long afterwards the mystery was explained by the finding of forty-six bodies, which were buried in one grave at Jalalabad. It is believed that the men took the wrong road, and tried to ford the Kabul River at an impassable part. The leading files were swept away by the running torrent, the others following until every man had been swallowed up by the swirling waters.

The same country provides an appalling example of a Lost Legion. In 1839 an army of 21,000 men, under Sir John Keane, entered Kabul. The story of what followed is too long to relate in detail. It is sufficient that there were massacres of high-placed British officers, a sixty-five days' siege of the Anglo-Indian Army, and a capitulation followed by a promise of escort back to India. The retreat began in severe weather, and of the 16,500 men who set forth, only one man, Dr. Bryden, lived to carry the dismal tidings back to General Sale at Jalalabad.

More English Spelling.

A reader who was amused by the little article in which the various pronunciations of the letters "ough" were illustrated sends us this amusing proof of the fact that the English language is as versatile in spelling one sound in a score of ways as it is in pronouncing one combination of letters after a dozen fashions.

"Mr. Hughes, on his son Hugh's cruise, took to booze when he heard the news that he would lose his dues and gain the noose if he did not use his shoes in the sloughs to take some views of the ewes, and also learn to make his u's and q's and spell his you's and queue's and who's and too's and to's and two's."

However, we must protest against rinsing "news" with "booze" or "lose"!

"The honest penny is better than the stolen dollar."

Employer—"Why did you leave the place in which you were previously employed?" Prospective Office Boy—"I think the boss was afraid if I stayed I might get his place."

THE Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER VIII.—(Cont'd).

Saxon's first mistake was born of the precipitate haste of love. He wrote the letter to Dunka that same evening on the train. It was a difficult letter to write. He had to explain, and explain convincingly, that he was obeying her expressed command only because his love was not the sort that could lull itself into false security. If fate held any chance for him, he would bring back victory. If he laid the ghost of Carter, he would question his sphinx no further.

The writing was premature, because he had to stop in Washington and seek Ribero. He had some questions to ask. But, at Washington, he learned that Ribero had been recalled by Government. Then, hurrying through his business in New York, Saxon took the first steamer sailing. It happened to be by a slow line, necessitating several transfers.

It was characteristic of Dunka that, when she received the letter hardly a day after Saxon's departure, she did not at once open it, but, slipping it dispatch-like, into her belt, she called the terrier, and together they went into the woods. Here, sitting among tall ferns with the blackberry thicket at her back and the creek laughing below, she read and reread the pages.

For a while, she sat stunned, her brow drawn; then, she said to the terrier in a voice as nearly plaintive as she ever allowed it to be:

"I don't like it. I don't want him ever to go away—and yet—" she tossed her head upward—"yet, I guess I shouldn't have much use for him if he didn't do just such things."

The terrier evidently approved the sentiment, for he cocked his head gravely to the side, and slowly wagged his stumpy tail.

But the girl did not remain long in idleness. For a time, her forehead was delicately corrugated under the stress of rapid thinking as she set her fingers clasped about her updrawn knees, then she rose and hurried to Horton House. There were things to be done, and done at once, and it was her fashion, once reaching resolution, to act quickly.

It was necessary to take Mrs. Horton into her full confidence, because it was necessary that Mrs. Horton should be ready to go with her, as fast as trains and steamers could carry them, to a town called Puerto Frio in South America, and South America was quite a long way off. Mrs. Horton had known for weeks that something more was transpiring than showed on the surface. She had even inferred that there was "an understanding" between her niece and the painter, and this inference she had not found displeasing. The story that Dunka told did astonish her, but under her composure of manner Mrs. Horton had the ability to act with prompt decision. Mr. Horton knew only part, but was complacent, and saw no reason why a trip planned for a later date should not be "advanced on the docket," and it was so ordered.

Steele, of course, already knew most of the story, and it was he who kept the telephone busy between the house and the city ticket-offices. While the ladies packed, he was acquiring vast information as to schedules and connections. He learned that they could catch an outgoing steamer from New Orleans, which would probably put them at their destination only a day or two behind Saxon. Incidentally, in making those arrangements, Steele reserved accommodations for himself as well as Mrs. Horton and her niece.

* * * * *

With the American coast left behind, Saxon's journey through the Carribean, even with the palliation of the trade-winds, was insufferably hot. The slenderly filled passenger-list gave the slight alleviation of an uncrowded ship. Those few travelers whose misfortunes doomed them to such a cruise at such a time, lay listlessly under the awnings, and watched the face of the water grow bluer, bluer, bluer to the hot indigo of the twentieth parellel, where nothing seemed cool enough for energy or motion except the flying fish and the pursuing gull.

There were several days of this to be endured, and the painter thinking of matters further north and further south, found no delight in its beauty. He would stand deep in thought, at the bow when day died and night was born without the benefit of twilight, watching the disk of the sun plunge into the sea like a diver. It seemed that Nature herself was here sudden and passionate in matters of life and death. He saw the stars come out, low-hanging and large, and the water blaze with phosphorescence wherever a wave broke, brilliantly luminous where the propellor churned the wake. It was to him an ominous beauty, fraught with crowding portents of ill omen.

The entering and leaving of ports became monotonous. Each was a steaming village of hot adobe walls, corrugated-iron custom houses and sweltering, ragged plains. At last, at town no more or less appalling than the others, just as the ear-splitting whistle screetched its last warning of departure, a belated passenger came over the side from a frantically-driven row-boat. The painter was looking listlessly out at the green coast line, and did not notice the new arrival.

The newcomer followed his luggage up the gangway to the deck, his forehead streaming perspiration, his none-too-fresh gray flannels splashed with salt water. At the top, he shook the hand of the second officer, with the manner of an old acquaintance.

"I guess that was close!" he announced, as he mopped his face with a large handkerchief, and began fanning himself with a stained Panama hat. "Did the—the stuff get aboard all right at New York?"

The officer looked up, with a quick, cautious glance about him.

"The machinery is stowed away in the hold," he announced.

"Good," replied the newcomer, energetically. "That machinery must be safeguarded. It is required in the development of a country that needs developin'. Do I draw my usual stateroom? See the purser? Good!"

The tardy passenger was tall, a bit under six feet, but thin almost to emaciation. His face was keen, and might have been handsome except that the alertness was suggestive of the fox or the weasel—furtive rather than intelligent. The eyes were quick-seeing and roving; the nose aquiline; the lips, thin. On them sat habitually a half-satirical smile. The man had black hair sprinkled with gray, yet he could not have been more than thirty-six or seven.

"I'll just run in and see the purser," he announced, with his tireless energy. Saxon, turning from the hatch, caught only a vanishing glimpse of a tall, flannel-clad figure disappearing into the doorway of the main saloon, as he himself went to his stateroom to freshen himself up for dinner.

As the painter emerged from his cabin a few minutes before the call of the dinner-bugle, the thin man was lounging against the rail further aft.

Saxon stood for a moment drinking in the grateful coolness that was creeping into the air with the freshening of the evening breeze.

The stranger saw him, and startled. Then, he looked again, with the swift comprehensiveness that belonged to his keen eyes, and stepped modestly back into the protecting angle where he could himself be sheltered from view by the bulk of a tarpaulined lifeboat. When Saxon turned and strolled aft, the man closely followed these movements, then went into his own cabin.

That evening, at dinner, the new passenger did not appear. He dined in his stateroom, but later, as Saxon lounged with his own thoughts on the deck, the tall American was never far away, though he kept always in the blackest shadow thrown by boats or superstructure on the moonlit deck. If Saxon turned suddenly, the other would flatten himself furtively and in evident alarm back into the blackness. He had the manner of a man who is hunted, and who has recognized a pursuer.

Saxon, ignorant even of the other's presence, had no knowledge of the interest he was himself exciting. Had his curiosity been aroused to inquiry, he might have learned that the man who had recently come aboard was one Howard Stanley Rodman. It is highly improbable, however, that he would have discovered the additional fact that the "stuff" Rodman had asked after as he came aboard was not the agricultural implements described in its billing, but revolutionary muskets to be smuggled off at sunrise to-morrow to the coast village La Punta, five miles above Puerto Frio.

Not knowing that a conspirator was hiding away in a cabin through fear of him, Saxon was of course equally unconscious of having as shipmate a dangerous as the cornered wolf to one who stands between itself and freedom.

La Punta is hardly a port. The shipping for this section of the east coast goes to Puerto Frio, and Saxon had not come out of his cabin the next morning when Rodman left. The creaking of crane chains disturbed his sleep, but he detected nothing prophetic in the sound. To have done so, he must have understood that the customs officer at this ocean flag station was up to his neck in a revolutionary plot which was soon to burst; that the steamship line, because of interests of its own which a change of government would advance, had agreed to regard the rifles in the hold as agricultural implements, and that Mr. Rodman was among the most expert traveling salesmen for revolutions and organizers of juntas. To all that knowledge, he must then have added the quality of prophecy. It is certain, however, that had he noted the other's interest in himself and coupled with that interest the coincidence that the initials of the furtive gentleman's name on the purser's list were "H. S. R.," he would have slept still more brokenly.

If he had not looked Mr. Rodman up on the list, Mr. Rodman had not been equally delinquent. The name Robert A. Saxon had by no means escaped his attention.

CHAPTER IX.

Puerto Frio sits back of its harbor, a medley of corrugated iron roofs, adobe walls and square-towered churches. Along the water front is a fringe of ragged palms. At one end of the semicircle that breaks the straight coast line, a few steamers come to anchorage; at the other rise jagged groups of water-eaten rocks, where the surf runs with a cannonading of breakers, and tosses back a perpetual lather of infuriated spray. From the mole, Saxon had his first near view of the city. He drew a long inhalation of the hot air, and looked anxiously about him.

He had been asking himself during the length of his journey whether a reminder would be borne in on his senses, and awaken them to a thread of familiarity. He had climbed the slippery landing stairs with the oppressing consciousness that he might step at their top into a new world—or an old and forgotten world. Now, he drew to one side, and swept his eyes questioningly about.

Before him stretched a broad open space, through which the dust swirled hot and indolent. Beyond lay the Plaza of Santo Domingo, and on the twin towers of its church two crosses leaned dismally askew. A few bare-footed natives sleuched across the sun-refracting square, their shadows blue against the yellow heat. Saxon's gaze swung steadily about the radius of sight, but his brain, like a paralyzed nerve, touched with the testing-electrode, gave no reflex—no response.

There was a leap at his heart which became hope as his cab jolted on to the Hotel Frances y Ingles over streets that awoke no convicting memories. He set out almost cheerfully for the American Legation to present the letters of introduction he had brought from New York and to tell his story. Thus supplied with credentials and facts, the official might be prepared to assist him.

His second step—the test upon which he mainly depended—involved a search for a yellow cathedral wall, surrounded with red flowers and facing an open area. There, Saxon wanted to stand, for a moment, against the masonry, with the sounds of the street in his ears and the rank fragrance of the vine in his nostrils. There he would ask his memory, under the influence of these reminders, the question the water-front had failed to answer.

(To be continued.)

SOLDIERS SING IN TRENCHES

The British Are Undisturbed By Mine Explosions.

A correspondent at British Headquarters in France writes: Some curious structures of concrete, like pepper castors in shape, have been built in places along the enemy front. They naturally get the attention they deserve. At one spot our men noticed a cupola had been constructed, or rather a turtle back, not very apparent. One of our howitzers was asked to try his weight at the object, and put over some shells with excellent aim. One went through the target, throwing up indistinguishable rubbish. When the smoke and dust cleared the turtle back was seen to be smashed, showing twisted iron girders within and a mass of wire, which looked like uncoiled springs, evidently the reinforcement of the concrete.

Possibly the nervousness of the Germans also accounts for their industry in mining towards whatever salient gives us some vantage. These mines are peculiarly horrible, for one never knows now, when interested in a corner of a fire trench, whether or not there is a volcano underfoot. The unconcern of our men, who manage always to be sure that such an unpleasant development of trench warfare has reached them, is astonishing.

Recently a colonel informed me with a grim smile that when, many hours after the German mine had exploded, his working party got at a few of his men who were imprisoned, the fellows were grinning when hauled out, and then began to sing amusing nonsense. Singing, indeed, is common in our fire trench.

The Welshmen not to be worried by any thought of hidden dynamite, make Eisteddfodau of their spells in the front line. The Germans are welcome to what they can make of men who, in winter trench warfare—and the second year of it—sing in a way which attracts the pleased attention of listeners who are musical.

And these mines are generally less successful than one could possibly guess. Our communique gave news of no fewer than five that had been sprung recently on quite a short front near the quarries north of Loos. The Germans must have hoped for great results from five mines not far apart and simultaneously fired on one night. Actually we had few casualties, and the Germans never had a chance of occupying the craters.

QUEEN WATCHED BY BEDSIDE

Consort of Italy's King Enabled Sick Soldier to Sleep.

The story of a complete tranformation into a Red Cross hospital of the historic and richly appointed Quirinal Palace in Rome, the winter residence of the Royal family, is told by Ambassador Thomas Nelson Page in the leading article in "The American Red Cross Magazine." Describing a tour of the hospital, with Queen Elena as guide, the ambassador writes:

"In a few minutes we were being shown everything under the personal guidance of her, who, had she not been the Queen of Italy, might, from her perfect knowledge of every detail and the simplicity with which she conducted us, have been imagined only a courteous and accomplished hospital matron, trained all her life to attend to precisely the duties of that position. It was hard to tell which was the more interesting reflection—that the Queen should be so simple, natural and perfectly informed as to every detail of the hospital, or that this perfectly informed, simple, natural mistress of a hospital was the Queen of Italy.

"One of the badly wounded, we heard, had asked the Queen the night they came to sit beside him, as he thought he could sleep and his fever would go down if she would stay with him. So she sat by his bed until late in the night when he had fallen to sleep."

Let us take care how we speak of those who have fallen on life's field. Help them up—not heap scorn upon them. We did not see the conflict; we do not know the scars.

Pat came along while Mike was painting a fence in tremendous haste. "What are ye wurrkin' so fast for?" he inquired. "Shure," said Mike, "I'm trying to get through paintin' the fence before my paint gives out."

Mrs. Nuwed—"When we got married didn't you promise me a new hat every season?" Nuwed—"But you never told me that there were about a dozen hat seasons in a year."

Keep Little Cuts and Scratches Clean with

Vaseline

Carbolated

Petroleum Jelly

A mild and effective antiseptic. Keeps sore spots clean. Heals quickly. Sold in handy glass bottles and in tin tubes at chemists and general stores everywhere.

Only Fine, Flavoury Teas are used to produce the famous

"SALADA"

blends. Every leaf is fresh, fragrant full of its natural deliciousness. Sold in sealed packets only. B 107

Social Conditions on the Farm.

During the year 1915, the Commission of Conservation conducted an agricultural survey on 400 farms in Ontario. The survey included 100 farms in each of the Counties of Dundas, Waterloo, Northumberland and Carleton. Various phases of farm life were investigated, and some interesting conditions presented.

Social conditions, and other incentives to keep the young people on the farms are to a great extent neglected, as may be seen from the following report of the survey.

Ten per cent. of the farmers visited have had boys leave and go to the city. Seven per cent. have sons married who are farming. Nineteen per cent. stated that they were following some form of book-keeping, but only one man was following a complete method. Sixty-seven per cent. take agricultural papers, seventeen per cent. take story magazines, and seventy-seven per cent. take a daily paper.

In 63 per cent. of the families visited there were young people over 14 years of age while 31 per cent. had a horse and buggy or an automobile for the young people. Sixty-one per cent. of the farmers attended some kind of community event or events during the past year, chiefly church socials and picnics.

Here it may be stated that the rural churches have a great opportunity to develop the social side of their activities, to reach more of the young people in the country and interest them in clean amusements, sports and recreations. The local fairs also are prominent among the community events attended by the farmer. In Dundas and Carleton counties no organized clubs for games were met with, while in Waterloo, 13 reported a football club, and in Northumberland, six reported baseball clubs. Only one of the 400 farmers visited mentioned attending a literary society. Twenty-five per cent. of the homes had no musical instrument of any kind; 30 per cent. had pianos.—F.C.N. in Conservation.

Systematic Farming.

Poor health drove Morris H. Crockett from the city to a little five-acre fruit and poultry farm in California. Previous to his removal to the country, Mr. Crockett had been a successful business man.

For the first three years he lost money. He had fancy and utility poultry, early and late apples, Logan berries, strawberries and rhubarb. Just why he was losing money, as did not know. The fourth year he decided to apply to his business of farming the same principles that he had applied to the city business of which he had been manager. This involved a bookkeeping system, and during all of that year he kept accurate accounts for every department of his little farm. At the end of the year he did away with fancy poultry, plowed up his rhubarb and strawberries, and specialized on early apples and utility poultry. These his books revealed, were the money makers. Since then, Mr. Crockett has done well. His accounts showed him how. Without them, he would long ere now have lost his farm.

There is room for similar systematic business accounting on every farm. The average farm of Canada is a mixed farm, with many sources of income. On almost every farm, we believe, one or more branches are being run at an actual loss and the income would be increased by its elimination. Other branches are particularly profitable, and these should be enlarged. The only way to know which branches to eliminate and which to enlarge, however, is to keep books. There is no better time to start than the present.—Farm and Dairy.

Growing Potatoes Without Potash.

Potato growers in past years, at least those who have made use of commercial fertilizers, have always favored a fertilizer with a large proportion of available potash. The closing off of the German supply of potash has rendered this fertilizing constituent extremely expensive and potato growers are now face to face with the proposition of growing potatoes with nitrogen and phosphorous only. In this connection, an experiment conducted at the Maine Experimental station will be of interest. Chas. D. Woods sums up the results of the experiments as follows:

"Throughout the growing season the vines on both the no potash plots were a distinctly brighter green and had a thriftier look than on the adjoining plots. The difference was so marked that it attracted much attention from visitors at the farm. Although some slight irregularities occurred in the yield from the different plots, the average figures show fairly consistent increases with the increase in potash. The plots without potash yielded 110 barrels, or 302 bushels of merchantable potatoes. The plots with two and five per cent. potash gave practically the same yields of 116 barrels, or 320 bushels per acre. The eight per cent. potash plots averaged to yield 120 barrels, or 331 bushels per acre. This is an increase of 10 barrels from the eight per cent. plots over the no potash plots. This amount is undoubtedly large enough to be significant, and to indicate that the potash increases the yield of potatoes in Aroostook county. On the other hand, 110 barrels (302 bushels) per acre is a good yield—considerably above the average, and nearly double the average in the county in 1915. So far as the results of this one year are concerned, they indicate that a profitable yield of potatoes can be obtained on Aroostook soil without the addition of potash for at least one year."

What is true of these soils applies in no less degree to our soils in Canada. There are few soils indeed in which there are not thousands of pounds of potash in the first few inches. This potash can be rendered available by incorporating humus into the soil and through cultivation, conserving the moisture.

FOR Indigestion and Biliousness

Indigestion, biliousness, headaches, flatulence, pains after eating, constipation, are all common symptoms of stomach and liver troubles. And the more you neglect them the more you suffer. Take Mother Seigel's Syrup if your stomach, liver, or bowels are slightly deranged or have lost tone. Mother Seigel's Syrup is made from the curative extracts of certain roots, barks, and leaves, which have a remarkable tonic and strengthening effect on all the organs of digestion. The distressing symptoms of indigestion or liver troubles soon disappear under its beneficial action. Buy a bottle to-day, but be sure you get the genuine Mother Seigel's Syrup. There are many imitations, but not one that gives the same health benefits. 1011

GLAMIS

Special meetings are being held in the Free Methodist church. Mr Baker, of Ann Arbor, Mich, is assisting Mr De Mille.

Mr and Mrs Dan McLean, who have been spending some months with friends on the 10th of Kincardine, have gone to Midland to visit friends there before returning to their home in Port Arthur.

Mr Kirktown and Miss Martha have gone down to Holland on a visit.

Miss Alberta Kirktown Sundayed at her home here.

The Oddfellows' patriotic dance held here on Friday night was a success as far as young men were concerned, but there was a shortage of the fair sex.

Ptes Clyde McKeeman, Mack McKinnon, Albert Groves, Joe Sproule and Jack Thompson are home and are busy hunting up more recruits.

Miss Olive Walker, of Teeswater, is visiting at Mr. Henry Purdy's and T Stewart's.

Mr McCauley left Monday morning to spend a few days with his parents at Tara.

We are sorry to report the illness of Mrs N McLean, on the boundary.

The Presbyterian Ladies' Aid held their monthly meeting at Mrs H Campbell's.

Miss Annie McDougald, of Underwood, is looking after her aunt, Mrs McLean, who is ill.

In the passing away of Mr Owen Webb the church and community have suffered a loss, especially the Baptist church, where he was a very active member when his health permitted him. Although in poor health for some time, the end came rather unexpectedly. The funeral on Friday last was largely attended, showing the respect in which he was held in the community in which he had lived so long.

A large number of the young people of Glamis drove over to Thomas McGregor's on Tuesday last and presented Tom with a wrist watch. The address was read by Mr McCauley and the presentation made by John Currie.

MR THOS MCGREGOR:

Our Dear Friend and Brother—We, the young people of Glamis Baptist Church, have gathered at your home this evening to bid farewell to another of our number. We are sorry to lose one more friend and fellow worker, but are proud of each who gives himself to fight our nation's powerful foe, and to stem the tide of evil that threatens mankind. We know that the step you have taken in enlisting for military service will mean hardships, danger and sacrifice, but we are confident that you have the manliness to endure the hardships, the courage to face the dangers, and the strength to make the sacrifice. Accept this wrist watch and know that it is accompanied with the sincerest good wishes. May you be protected in your service to king and country, and may you soon return to be among us once more.

HUGH MCARTHUR,
GEO PERCEY,
HECTOR MCLEAN.

Presentation and Address

On the eve of the departure of Mr and Mrs Wm McAngus and family from the 20th of Greenock to the townline of Bruce and Saugeen, a large concourse of friends and neighbors by pre-arrangement met on Friday evening of last week at Mr Roscoe Teeple's to give Mr and Mrs McAngus a good neighborly send-off, and to present each with a handsome rocking chair of solid oak covered with solid leather. Mr Richard Acton acted as master of ceremonies, while Mr W G Ritchie read a suitable address and Mr Teeple and Mr McKeeman presented the chair. Mr McAngus made a feeling reply to the address in which he said he hoped to be able at some time to return the compliment, after which the company enjoyed themselves in euchre playing and dancing to the skirl of Milton Acton's wicked little fiddle, the fun continuing well into the "wee sma' oors," when the company by much hand-shaking and good wishes for the departing friends, separated for their homes. Following is the address:

TO MR AND MRS MCANGUS AND FAMILY:

We, your friends and neighbors, have met here to-night to mark the occasion of your leaving us to take up a new home. It is now nearly twelve years since you came amongst us, during which time we have seen your family of mere tots grow up into budding manhood and womanhood. We have also during that time had your splendid assistance and co-operation in almost every undertaking in the locality, and while we fully realize that the best of friends must part, still we understand that you are not going so far away as to preclude our occasional meeting, and hope to on future occasions meet you with the glad hand, as in the past. As a slight token of our respect, please accept these chairs. Hoping that you may be long spared to enjoy them. Signed on behalf of the friends,

W. G. RITCHIE,
ROBT MCKEEMAN.

Homeseekers' Excursions to the Land of Wheat

Homeseekers' excursions to Western Canada at low fares via Canada Pacific each Tuesday March 7th to Oct 31st, inclusive. Particulars from any Canadian Pacific Agent, or W B Howard, District Passenger Agent, Toronto.

VESTA

A stirring event took place at the home of Mr and Mrs John McCurdy, on Monday evening, February 28th, when over 100 friends and neighbors gathered to do honor to their eldest son, Willie, who recently enlisted in the 160th Batt at Walkerton. A large number of soldier boys accompanied him from Walkerton. Mr W J Fortune was chairman. After singing the national anthem, Willie was called forward and a splendid address was read by Miss Margaret McCaw. While the presentation of a wrist watch and purse was made by Miss Ida Shouldice. Willie made a very suitable reply, thanking his friends for their gift and telling them how proud he was to don the khaki. Following this there was a program of speeches by Messrs W J Fortune and David Walks, a song by the house, "We'll Never Let the Old Flag Fall," recitation by Miss Ida Manley, song by the soldier boys, "Good Luck to the Boys of the Allies." At the closing "God Save Our Splendid Men" was sung by the ladies, Miss Elizabeth Smart presided at the organ. After the program, dancing was indulged in till the small hours of the morning. As usual, for the first dance every lady had a soldier-boy for a partner. A splendid repast was served at midnight. After lunch all the men crossed hands in a circle around the soldier-boy and sang "For He's a Jolly Good Fellow" and "We Won't Go Home Till Morning." Three rousing cheers were then given in his honor. Everybody went home delighted with the evening spent in honor of another townline boy who is proud to do his bit for the crushing of militarism. The address is appended:

TO PTE W H MCCURDY:

Dear Willie—Having learned that you have so nobly answered the call of your country, we, your friends and neighbors, deem it our duty to meet here to spend a social evening together before you take your departure from us in defence of the Empire. We feel deep regret at losing you, yet with pride in being represented by one of ourselves in the great army that our Dominion is sending to fight our battles on European fields. You have taken upon yourself the hardships and dangerous life of a soldier, yet we feel certain you will perform your duty, whatever it may be, with unflinching courage. Since your return from western fields you have been constantly among us, taking part in all our social evenings and sports, and we feel deep regret that such happy relations must be severed for a time, at least. We feel we cannot let you depart without some small token of our remembrance, and ask you to accept this wrist-watch and purse, not for its value but as a memento of our our friendship, and hope some day in the not far distant future, when our Canadian boys shall march victoriously home, to welcome you back to Vesta. Signed on behalf of friends and neighbors,

STANLEY MCCAW,
HOWARD MCCAW.

UNDERWOOD

Mr Geo Roppel has purchased the grist mill from Mr Harvey Inkster for $6,200, we understand. Mr Roppel has been forced by ill health to retire from the store.

Mr John Cole, of Dauphin, Man, with his little son Lawrence is visiting his parents here, Mr and Mrs Robert Cole.

Mr and Mrs Percy Brown started on the return trip to their home near Saskatoon on Wednesday after spending a few weeks at Mrs Caldwell's.

Corporal Jack Stannard and Pte Robt Nuttall are in Walkerton this week qualifying for sergeant and corporal respectively.

WALKERTON

While in Paisley last week, Mr John Rowland secured $10 from Mr Andrew Cormack, and $5 from Magistrate Gibson towards buying instruments for the Bruce Band.

A sad event occurred in Brant on Sunday morning last when Mrs Andrew Waechter, a young and highly esteemed resident of the township, passed suddenly away from heart failure following a week's illness of la grippe. Further pathos was lent to the event by the fact that her husband was lying helpless in bed at the time with two broken ribs sustained by being thrown out of his sleigh in Walkerton about a week previous. Two days after its mother's death their two months' old son succumbed to convulsions and was laid at rest with its parent in the casket. The sight of the deceased infant reclining on the arm of its dead mother in the coffin was one of the saddest sights ever witnessed in Brant.

Manager Cleo Clark handed over his large skating rink here to the 160th Bruce Battalion, who will transform it into a non-commissioned officers' training school, where about a hundred recruits from all over the county will assemble and be instructed in the duties of sergeants, corporals, etc. Competent instructors have been secured and the course will last about ten weeks. The rental of the rink for this purpose is $30 per week, or $300 in all, which sum the town council is putting up to finance the scheme. The billeting of about a hundred additional recruits among the homes here, was thought at first to be some problem, but we understand the militia have about secured the necessary accommodation already, which shows how quickly Walkerton rises to an occasion of this kind. Manager Clark, assisted by about a hundred soldiers, will commence removing the ice from the rink on Friday morning and expects to have the job completed in half a day. The rink will be turned over to the militia on Saturday and the school will open on Monday.—Herald and Times.

SECOND CON ELDERSLIE

Mr Rae, of Dornoch, visited at Alex Campbell's recently.

J B Allen attended the thoroughbred stock sale in Walkerton on Thursday last.

John Green is engaged with A Dawson for the busy log season.

Miss Flora Brown is out again after a two weeks' seige of la grippe.

Mrs Jas Allen has been confined to her room for a week with la grippe.

Miss Louisa Barkholtz is spending a few weeks with her aunt, Mrs Blain Fortune.

Mr and Mrs Allen spent Sunday with Paisley friends.

Mrs Dawson has been laid up for about two weeks with a healing eye, which is very painful.

CARGILL

Miss Clara Green left on Monday morning to visit friends in Fergus and other points.

Mr Fred Grice moved his family and household effects to his farm at Dunkeld last week.

Mrs W J Loughleen is home from a month's visit to her daughter, Mrs Gordon Young, in Woodstock.

Lieut Les Young, of the 71st Batt at Galt, was home over Sunday.

Mr A J Helm, of Cranbrook, visited at Mr C W Keeling's last week.

A number from here attended the minstrel show in Walkerton on Friday night. They report a good show.

Advertisements are posted up asking for tenders for a mail carrier for the new rural route to be opened soon. This route is about nineteen miles long, and if all put in tenders who say they will the route will not go abegging for a carrier.

Mr C W Keeling put through a real estate deal here on Saturday, when Mr H Spitzig disposed of his house and lot here to Mr Chas Hetzler, of Hanover, who takes possession shortly.

Mr W D Cargill, M L A, spent over Sunday at his home here, returning to Toronto on Monday.

Pte Fred Kirvan is away on a visit to his parents at Toronto prior to joining his battalion at Walkerton.

Pte Elmer Garland left on Monday morning for London, where he is to take a course in signalling.

Mr E Dietrich was off work for a couple of days this week with inflammation in his eye, caused by particles of steel becoming lodged in it while at work in the foundry.

Mr Ed Schnitzler is back from Trout Creek, where he has been working in the lumber woods.

Miss Myrtle Elder is in Woodstock on a visit to Mr and Mrs Gordon Young.

The young people of the Presbyterian church held a social evening on Monday.

CANTIRE

Presentations seem to be the order of the day. Pte John Woods, who has been in the employ of Russel Muir for the past couple of months, got a send-off from the people of this vicinity. The affair took place at the home of Mr Muir. Mr Jack Cass was also presented with a wrist watch and an address.

Mr Howard Johnston left on Tuesday for Earl Grey, Sask.

Miss Annie Reid, who has spent the winter with friends here, returned to her home at Hannah, N D, last week. She was accompanied by her mother, Mrs Peter Reid, who will visit members of her family in that state during the summer.

Mrs Jas Muir has been under the doctor's care recently with a severe attack of la grippe.

Mr Robt McConachy, who spent the winter under the old roof-tree, returned last week to his home in Lethbridge, Sask.

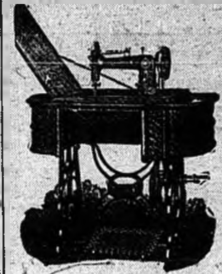
Little Clifford McPherson, who has been confined to the house with a severe attack of jaundice, is now convalescent.

Mrs Alex Gowanlock and daughter, Thelma, spent a week visiting friends in Saugeen.

Children Cry FOR FLETCHER'S CASTORIA

TURNER'S

Mr Northgrave, of Port Elgin, shipped a carload of hay last week.



Mr and Mrs Campbell, of Nanton, Alberta, returned to their home after spending a few months with friends.

Mr and Mrs Robt Durward, of Kincardine, were visiting friends here.

Mr Henry Dier, of Parkhead, is visiting his mother.

Mr Donald Beaton is visiting his sister, Mrs John Pollock.

Mr G Christie attended the sale of thoroughbred stock at Walkerton last week.

We handle the Goodrich, Raymond, New Williams, White, Singer and Standard, all the very latest models. Ball Pianos and Organs. Edison Phonographs and Records.

NOTICE

To Whom It May Concern:—

I, the undersigned wish to apologize for having on the 1st inst. made remarks derogatory to the character and ability of Major Thos. Hay and others. I did this in a heated passion caused by remarks made by other persons, and making it appear as though intimated from the above gentlemen. and I am satisfied that the remarks had no foundation in fact, and am therefore sorry, very sorry for the occurrence. I have always found them gentlemen, and they have always given me every assistance in my work.

H. J. W. McCONNELL, Lieut.
Recruiting Officer

Dated at Paisley
March 14th, 1916

—Miss Kate McBeath, of Goldie St., went to Guelph on Monday.

—There will be no meeting of the Women's Patriotic League this month.

—Mrs. Harry Rock, of Belmonton, is visiting at the home of her father, Mr. E. F. Boyle.

—Mr. John Collins had an operation for hernia a few days ago, and has since been progressing favorably.

—Mrs. Spence, Miss Spence and Miss Golder, of Southampton, were guests at Mr. E. F. Boyle's over Sunday.

—Mrs. Thos. Patterson of Steelton, and Mrs. David Beattie of Bothwell, are visiting here at the home of their sister, Mrs. H. Read.

—Miss Wankel, of Port Elgin, is taking charge of the millinery department of the Paisley Mercantile Co for the coming season.

—Clifford Express: Miss Bowes, teacher at Lisle' school, is very ill with pneumonia at the home of Mr. C. Schmidt. A nurse from Fergus hospital is in attendance. Miss Bowes has resigned her school.

—Mr S M Ferguson, of Leamington, has arrived to take charge of the Paisley Mercantile Co. Mr Ferguson comes highly recommended, and will be glad to meet all the old customers of Mr McFarlane's as well as many new ones.

—Mr. Alex McNeill, ex-M.P., and his son Malcolm, who have spent the past two years in Ireland, are leaving shortly for their home in Winton. Malcolm McNeill, who is a lieutenant and in connected with an Irish regiment, has been granted permission by the war office to join the 160th Bruce Battalion.

—Mr. and Mrs. A. B. J. Simons returned on Saturday from Hamilton, where they have been spending three months. Mr. Simons has been looking about for a position to which he can serve in connection with the overseas forces, but there is nothing open for a man of his years. He has already done his bit for Empire, however, having seen many years' service in the N. W. Mounted Police, also was with the Shiftcone Horse in S. Africa, so cannot be reproached for unwillingness to fight for his king and country.

—Dr Allen expects to be able to take up his regular Bible Class work every Sunday afternoon in the auditorium of Knox Church. This is a men's Bible class, and all men who are not already members of some Bible class are invited. None are too old to take part in this work. The larger the class the more interesting it will become. The soldiers are cordially invited. You have enlisted to fight for your earthly king. Come and study the more important commands of the King of Kings.

Hockey Match

Chantry senior N H L team is billed to play the Paisley Stars in the rink here on Thursday evening.

Schools and S.S. Closed

The three lower departments of the public school are closed for two weeks on account of the prevalence of measles in town, and there will be no Sunday school in any of the churches on the next two Sundays.

Woolen Mill Sold

Mr. J. S. Dewar has purchased the Fisher woolen mill building from the Standard Bank, and will convert the structure into a business block. We understand a couple of tenants have already been secured.

Red Cross Box Social

On St. Patrick's night, March 17th, a box social will be held in McGillivray's schoolhouse, No. 15 Bruce, in aid of the Red Cross. A first-class programme will be rendered. Admission 15c, ladies with boxes free. Reeve J. Johnson, chairman.

Tea Room Next Saturday

The Red Cross Tea Room will be in charge of ladies of Lockerby S. S. and 9th con. Eld. as far as Gillies Hill, on Mar. 18th. Tomato soup will be a specialty of the lunch menu. A lot of produce will be on sale at prices that give good value on every purchase—butter, new laid eggs, potatoes, homemade bread, buns, cake, pies, cream, buttermilk, etc. We invite householders to reserve as many orders for us as possible.

Death of Geo. B. Bell

The most profound regret is produced in this community by the death of Geo. B. Bell, principal of Paisley schools, which took place on Tuesday. Seized with a chill while at school on Thursday afternoon, Mr. Bell was taken home in a cutter. An attack of la grippe developed by Sunday into pleurisy. On Tuesday his condition grew much worse, and about 10 o'clock p.m. the patient succumbed to the attack. The funeral will be held Thursday afternoon, under Masonic auspices. Service at the house at 1.30 o'clock.

The Vanophone

SPRING GOODS

We have searched the markets for the very best and have now in stock a splendid assortment of Dress Goods of the latest materials of Silk, Wool and Cotton---the finest fabrics obtainable. Now is the time to make up your dresses and do your spring sewing.

Cash or Trade for Farm Produce

H. B. PUTNAM & SON

A Week of Winter

The big snow storm last week gave us a full-flavored taste of old-time winter. The large amount of snow that fell was blown into great drifts that filled the roads at every cut and along high fences, so that travel was off for a few days. Railway traffic was not interfered with, however, so the war news reached us regularly.

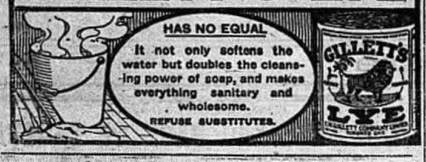
Thorobred Stock Sale

The Bruce County Pure Bred Stock Association held a successful sale at Walkerton on March 2nd, some 25 animals being disposed of. Mr. A. Miller, of Hiers road north, was fortunate in securing Lord Abbot—103703—which was pronounced by competent judges to be the choicest bred animal and the best individual offered that day. Prices ranged from $60 to $140.

Died Suddenly in the West

Mr and Mrs Eli Barnes, of 12th con Bruce, received word of the very sudden death of their third son Thomas, which occurred on March 4th at Vermillion, Alta. The deceased was a barber by trade and it was while he was at work shaving a man that he dropped dead beside the chair. He had been sick about New Year's with neuralgia of the heart. He was in his 36th year, and went west seven years ago. He is survived by his wife—nee Miss Pearl Greenslade—and two young sons. The remains of deceased were buried at Vermillion. The many friends here will regret to learn of his death, and join in extending sympathy to the bereaved ones.

ORDER YOUR SPRING SUIT TO-DAY



While a blizzard is blowing and the thermometer is making low bumps, customers may not think the time opportune to order a Spring Suit. But, it is. Weather changes quickly these days. Moreover, there is a decided advantage in getting your order in early.

WHAT ARE SAFE FOODS?

BY CAROLINE L. OVERMAN.

When you unpack the grocer's basket the cans and packages look pretty much alike, so far as labels are concerned. All have the name of the product, the name of the packer or seller, and the fine print description of the contents of the package which the Government requires. Usually there is some additional descriptive matter about the goods, writes Caroline L. Overman in To-Day.

These packages are certainly marked and we might infer hastily that they were all trade-marked, unless we stop to consider the true purpose of the trade-mark, when we shall see that many of them are not really trade-marked goods in the true meaning of the term. A food manufacturer puts a trade-mark on his goods so that the buyer who is pleased may be sure she is getting the same thing next time. He does not do this out of benevolence but in the hope that he may gradually accumulate a large number of buyers who will ask for his goods and definitely refuse to take anything else.

To do this he must preserve an unvarying high quality in every package that goes out identified as his. Otherwise his trade-mark becomes a warning instead of a guarantee.

One of the ways in which we can tell whether foods are really trade-marked or merely labeled is to look at the signature on the package. These are of two general classes. One comes out squarely somewhat in this form:

Packed by
The Good Goods Packing Co.,
Squaretown, Mass.

Note that it says definitely who makes or packs the foods and where the work is done. You can find the man and the place if you will take the trouble to do so. The other kind reads substantially in this form:

Packed for
(Well-known wholesale house)
New York City.

This last form may be varied by having the name of your own grocer and your own town instead of that of the wholesaler in the big city. At first thought this label would seem to be the safest of all. You know your grocer for an honest man and a good judge of food products. Why wouldn't a food package bearing his name be even better than one with the label of the manufacturer?

The reason is that it puts the responsibility for the purity, quality and cleanliness of the food in the wrong place—on a man who cannot afford to assume this kind of responsibility. The grocer is selling goods under keen competition. If he is a good grocer he wants to sell the very best that his customers will buy; but if the man across the street shows a fine looking brand of canned peas or a package of cereal at a lower price than his own goods he must meet that price. He must buy his merchandise wherever he can get it so that he can keep his trade and still make a profit. The keener the competition the further afield he must go for his supplies.

The country is full of food factories which make or pack foods and put on any label that the purchaser sends them. They have to do their work as cheaply as possible or lose their trade. Since no one knows where the goods are made or who finally eats them, it does not pay to follow the expensive methods of a first-class factory. Cleanliness is a large item in factory costs. Purity in foods is still more expensive. An apparently small adulteration of a food product may make the difference of a large sum yearly to the man who packs the food. How can we expect him to forego these advantages when his goods are sold with another man's name on the package?

When every package states clearly who makes the food and where it is made, it practically establishes an open-door policy for that factory. The mere fact of excluding the public would constitute a presumption of undesirable methods, as most trade-marked goods are made in factories where you are not only permitted to examine the methods but cordially urged to come for that purpose. In some such food factories women visitors are not only welcomed but very graciously entertained and shown every detail of the work.

In a well-known factory in New York State visitors are welcomed like long-lost friends or strangers with a royal introduction. They find a system of faultless cleanliness and perfect discipline. Preserves are made in silver-lined kettles; uniformed employees fill cans or bottles at immaculate tables. Even the lavatories have each an inspector who sees that employees wash their hands thoroughly at every visit. Skilled manicures are provided without charge. A flood of light illuminates every corner of every room.

This factory produces foods famous for their excellence and flavor. This is not an isolated instance. We have many fine food factories which furnish instances of this fastidious immaculateness.

The housewife who has hesitated to use ready prepared foods fearing that they might be less cleanly than those made in her own kitchen should take time to visit one or more of these open factories where well-known foods are prepared. She will be forced to admit that scientific cleanliness such as she finds there cannot be approached in a domestic kitchen. Raw materials are submitted to laboratory tests for purity and quality.

The magnitude of the operations is in itself an important element in cleanliness. It keeps each utensil for a specific use and the great mass of food handled makes any appreciable contamination impossible. The factory worker, unlike a domestic servant, is always under the eye of a superintendent. The agency of the human hand is eliminated as far as possible. Cleanly machinery cuts, slices, grinds, packs or performs any other necessary task, guided by fingers which never touch the food.

The factory has other advantages. Temperatures, employed for whatever purpose—baking, sterilizing, desiccating or whatever the process may be—are under perfect control. I have visited many food factories and talked with other housewives who have gone over the same ground and there was never any difference of opinion as to the excellence of method in a really good food factory.

The pride of the maker in a well-known trade-marked brand is the same as our own housewifely pride, but infinitely multiplied. His shining factory is to him the same as a spotless kitchen is to us. He makes the same unceasing effort for cleanliness and purity in food and gets the same admirable result thought on a somewhat larger scale.

Unquestionably the good food factory places at the housewife's disposal facilities and economies which she cannot get any other way, while saving her an incalculable amount of time and labor.

Unhappily all factories are not in this class. Why should a food packer put up with the nuisance of visitors when his product goes out unlabeled and unidentified for some other man to put his name on? With doors closed to outsiders factory practice tends to drop below the high standard maintained by the best firms. A cheaper class of labor is employed and the conditions of work are less attractive. The health and tidiness of employees is not scrutinized. The main object is to turn out as much work as possible in the least time and at the lowest cost. Even a conscientious manufacturer unable to get the price commanded by a high reputation finds that he must turn out goods that will take care of themselves in the market."

The most effective Pure Food law that can be passed would be one requiring every food package to bear the brand of its actual maker and the location of his factory; but such a law could be passed only after public opinion on this subject had been thoroughly aroused. Such brands deliberately solicit their approval and repeated purchase.

A sentiment is infinitely more important on food products than on other commodities. If the silk dress splits or the watch goes wrong or holes come too rapidly in the heels of new stockings, it is pleasant to have the guarantee of a reliable maker that the matter will be set right and you will not be in the long run a loser. If you have t such a guarantee you can still a rd to smile and reflect that you will know better next time. In the case of food the matter is more serious.

Sam Weller ate veal pies only when he knew the woman who made them. His rule is an excellent one for the modern housekeeper who wants to save labor and money by the use of the many excellent package foods she finds on her grocer's shelves. It is not difficult to keep on the safe side. You run no risk if you know the man who makes them.

THE FIRST PERISCOPE.

Ingenious Contrivance Invented by Rev. William Taylor.

The origin of the periscope is now under discussion, and the following extract from the writings of the well-known inventor of "Pepper's Ghost" gives the credit to the clerical profession.

Pepper wrote soon after the Crimean war: "During the siege of Sebastopol numbers of our best artillerymen were continually picked off by the enemy's rifles as well as by cannon shot, and in order to put a stop to the foolhardiness and incautiousness of the men a very ingenious contrivance was invented by the Rev. William Taylor, the coadjutor of Mr. Denison in constructing the first 'Big Ben' bell.

"It was called the reflecting spy-glass, and by its simple construction rendered the exposure of the sailors and soldiers, who would look over the parapet or other parts of the works to observe the effect of their shot, perfectly unnecessary; while another form was constructed for the purpose of allowing the gunner to 'lay' or aim his gun in safety.

"The instruments were shown to Lord Panmure, who was so convinced of the importance of the invention that he immediately commissioned the Rev. William Taylor to have a number of these telescopes constructed."

HERBERTSHORE TO KOKOPO.

Former Capital of German New Guinea Renamed.

Herbertshohe, the name of the former seat of government of German New Guinea, has by proclamation of Colonel Pethebridge, the Australian Military Administrator of the portion of the German Pacific possessions under British control, been changed to the name of Kokopo. This was the original and native name of the place. Herbertshohe is on the island of New Pomerania or New Britain. Herbertshohe was named after Count Herbert von Bismarck, son of the famous "Iron Chancellor."

It was Count Otto von Bismarck who annexed the unoccupied portion of New Guinea to Germany in the early 80's, and it was he who founded the German colonial empire. Some years ago for strategic and sanitary reasons the German Government had shifted the seat of government from Herbertshohe to Rabaul.

A Special From Our Catalog No. 16

Exactly as represented in illustration

DINING ROOM CHAIRS

Five small and one Armchair, in solid oak and solid leather. Regular $20.00 the set. Special price $13.90

We defy competition. Our prices are the lowest in the Dominion of Canada.

GRADUATING DOCTORS WILL GO TO ENGLAND

A. M. Blakely — A. B. Jackson. — E. E. McPherson.

Three more members of the graduating class in medicine at the University of Toronto, who have volunteered for service in the Orpington Military Hospital or elsewhere.

UNPRECEDENTED WAR EXPENDITURE

WILL NOT BE A LOSS IF SPENT IN THE EMPIRE.

Britain to Raise a Further Huge Sum to Finance War's Demands.

It is estimated if the struggle between civilization and kultur continues to the end of 1916, the total cost to all the belligerents will amount to approximately $60,000,000,000. The cost this year will reach 25 or 30 billions. Where is this money to come from and where is it to be spent?

The basic answer to the first question is that posterity will inherit the burden of "paying the shot." We will supply the "credit" and sign commitments to the future. The present inhabitants of the earth cannot pay for the organized, scientific destruction going on in Europe. The national debt of Great Britain, amounting to $3,280,000,000 in 1913, was contracted in the effort, happily successful, to exercise a merciful restraint over the first Napoleon... It was going down slowly during the last 100 years being reduced notably of recent years by about half a billion. Suddenly the "insane Hohenzollern" sets the world in flames, and the debt of Britain goes up to $11,000,000,000 in the first year. She is now preparing to secure another credit of $2,500,000,000. Great Britain is massing her resources in every department to provide for a struggle as prolonged as may be necessary.

But where will the money come from? There is only a certain amount of actual "money" based upon gold in the world. When the limit is reached, what then?

Germany Uses Paper.

It must be remembered that money is only a medium and that the real exchange is in goods. Foreign countries may demand money from us, but within the Empire credits can be arranged so long as we have confidence in ourselves as creditors. It would seem then that rather than send gold to foreign countries the Empire will get more and more into the way of depending upon its own resources, and that of the vast war expenditure outlined for this year Canada will receive as much as she can finance. That is, Canada will have to give the Mother Country and the belligerents credit, using all her own available capital for carrying on the work in our own country. As goods are really what we pay our debts with, our exports can grow as large as they like, and the outlook is for a continuance of last year's increase, on a bigger scale than ever. Munitions, raw materials and foodstuffs will be in greater demand than ever, and our duty is to produce, and still produce. Now, as never before, the natural resources of this country and our industrial organization are called upon in the service of the Empire and the Cause. Work is the duty of everyone who stays at home and no man need be out of employment. The problem for 1916 will be to get the men, and ever as the battalions grow the labor problem becomes more apparent.

"There will not be a dearth of men from the farm for overseas," said Hon. James Duff at the luncheon of the Canadian National Exhibition Association the other day, and the farmers will do all in their power to keep the wheels of production moving.

"When the war is over," said Mr. C. C. James, Deputy Minister of Agriculture in the Federal Government, "agriculture must be in a stronger position than when hostilities commenced. In Britain agriculture is a growing asset. Their flocks are greater, their acreage under cultivation is greater. Will we be doing our duty if we do not set ourselves to the same task? Canada is being tried. You have done well, so far, but keep the factories going, and this difficulty will be solved by you as well as by the fighters and the people."

200,000,000 Bushels to Go Yet.

The western crop has not by any means been all sent forward. In Alberta alone there are 5,000 private grain-bins filled with wheat, and it is estimated that not 50 per cent. of the crop has been moved out yet. The problem will be for the railways to get it out before the new crop commences to come.

In Liverpool the estimate is made of the amount of wheat expected to be shipped the world over before July 1, 1916. The figures for Canada are set at 216,000,000, the highest in the table, the United States coming next with 208,000,000. With wheat at well over $1 per bushel, Canada, at this rate, will receive $200,000,000 for distribution through regular business channels in the next four months.

Canadian Pacific officials say that the demand for western land this year so far as a result of the market for Canadian wheat, indicates that over double the number of acres will be sold this year as compared to last. In 1915 the C.P.R. sold $4,000,000 worth. In January alone this year $743,000 was received from land sales.

Trade Balance of $200,000,000.

For the first ten months of the Canadian fiscal year, ending March 31st, that is, up to the end of last month, the customs returns as issued from Ottawa show a trade balance in Canada's favor of $200,000,000. A year before the war at the height of our booming prosperity the trade balance was some $30,000,000 the other way. We have thus improved our position by $500,000,000 since the war. Two more months will increase the figures by another $50,000,000. Exports of domestic products totalled $685,205,000, an increase of $267,845,000 over 1914, or 80 per cent. Agricultural exports amounted to $218,000,000 in the ten months, an increase of nearly 100 per cent. Manufactured goods exported amounted to $166,000,000, an increase of $105,000,000, or the almost unbelievable proportion of 172 per cent. Mining exports were $52,000,000, an increase of $11,000,000, or 28 8 per cent. Similarly the exports of animals and their products, the products of the forest, and of the fisheries also showed increases such as before the war were utterly unlooked for. Imports increased also, as from our increased buying power they might be expected to do, but only to the extent of $18,000,000, which in itself is an evidence of wholesome national economy. Total trade in merchandise in ten months reached nearly $990,000,000, or almost as much in ten months as it amounted to for the full twelve, two or three years ago. Whatever the war does to us it cannot kill our prosperity, so long as we keep working away.

Big Order Coming.

In this connection it is of interest to note that immediate prospects for further war orders are announced by Colonel David Carnegie, expert ordnance adviser to the Minister of Munitions. He reports that both Kitchener and Lloyd George expressed high appreciation of the way Canada had thrown herself into the work of producing shells and war materials, a success the more remarkable in that this sort of work was not done here previous to the war. Britain will look to Canada for supplies of "fixed" ammunition in future. Previously Canadian manufacturers shipped the empty shells which were "fixed" or filled with the explosive in England. Canada has been doing part of this latter work for some time now, and will do more of it. A plant is now being built in Montreal which will be organized to turn out fuses and completed shells ready for firing.

Colonel Carnegie announced an order for six-inch howitzer carriages at a cost of $10,000 each, of which there will be a considerable number.

Correct Answer.

"Why isn't a nautical mile the same as ordinary mile?"

"Because it is knot."

We have not our choice to be rich or poor, to be in health or sickness, but we have our choice to worthy or worthless.

When you have lost money in the street every one is ready to help you look for it; but when you have lost your character every one leaves you to recover it as you can.

CANADA HAS GAINED PRESTIGE

THE DOMINION IS ADMIRED BY THE WORLD.

Lord Northcliffe on the Part Played in the War by This Country.

In an interview published in the Canadian Gazette, Lord Northcliffe chief proprietor of the London Times and London Daily Mail, says:

Far-seeing people who look to the future see that the world will not be in the hands of the Pacifists. They know that the proved nations of Canada, Australia, New Zealand, South Africa, Great Britain, France, Belgium and Italy will occupy a position which is greatly reinforced by a manhood that has been through the great test of a vast upheaval that has shaken the universe.

According to German calculations, Canada and the other dominions were to have risen in revolt against England when we were drawn into the vortex of a European war. Among the things that the Germans are rubbing their thick heads about is this great miscalculation. It is a mistake that has cost them dearly.

Turning to the already historic battles in which the Canadian forces have fought, Lord Northcliffe said: "Ypres, Festubert and Givenchy are battlefields which will live in the future as greater than Waterloo Throughout France, Great Britain, Belgium, and far away into Russia Canada now stands not merely a nation of great commercial capacity but as a people of immense courage and vitality."

Admired by Russia.

Upon the top of this reputation comes the news that the Dominion, with a population of some 8,000,000, is about to increase its contribution to the war to a magnificent total of 500,000 men. That news is already having its effect all over the world. Prestige counts for everything. Canada has already gained her prestige in the world struggle. I notice as the result that the Russian newspapers, which were hitherto merely interested in Canada as being a large place at the top of the United States, are now discussing the future relations of Canada and Russia. The Russians evidently want to hear more about the Canadians. The vast Russian Empire contains only some 50,000 miles of railway roads. They have begun to talk about your superb transcontinental systems, and are asking whether the men who built those roads cannot come to Russia and open up the vast territories that are, so far, quite unreachable to each other.

They are hearing about your wheatfields, your agricultural machinery. They want to know the manufacturing capacity of Canada. To their surprise the allies are finding that Canada can turn out an immense amount of munitions, and if munitions during the war, why not machinery after the war? To say you are a Canadian in Russia to-day is to need no other introduction whatever. Russia desires above all to shake off the commercial yoke that Germany has put around her neck, and she is looking to you to help. My personal acquaintances with both Canada and Russia convinces me that there are a score of reasons why trade relations between you two vast territories would in the future be of such a nature as would greatly benefit both countries.

Bigger and Bigger.

It is little more than 150 years since Wolfe put Quebec on the map of the Empire, and 30 years since the whistle of the transcontinental locomotive was first heard on the Pacific. It is only a few months since "Ypres" was on the world's tongue. To-day it looms largest in the world's history, and as the years go by it will grow bigger and bigger.

I have met a few Canadians who are not particularly enthusiastic over the war, continued Lord Northcliffe, but I never met one who confessed he would have stood by and kept aloof from this war.

Canadian charity, too, has shone out like a great star in a dark firmament. The results of "Our Day" tag collections have amazed people in Britain. But Canada's financial stability, her willingness to help finance the war, are two new lights on the Dominion. For more than a quarter of a century I have been an enthusiastic visitor to, and an admirer of, Canada, but I confess her efforts have surprised me. Sometimes in many parts of Canada I have met men who thought the future relations were all North and South, not East and West. How wrong they were!

Canada stands before the world to-day as a complete nation, a nation which has sent a larger army a greater distance than any in the world's history. If Canada sends her 500,000 men across, enlisted out of a population of 8,000,000, it will be a record unequalled.

"Prosperity has ruined many a man," declared the moralizer. "Well," rejoined the demoralizer, "if I was going to be ruined at all I'd prefer prosperity to do it."

NEURASTHENIA THAT FOLLOWS LA GRIPPE

Rest and a Tonic is the Proper Treatment Distinguished Medical Authority Says

There is a form of neurasthenia that follows la grippe. Doctors call it 'post-grippal" neurasthenia.

One of the foremost medical authorities of New York city in a lecture in the international clinics, said:

"Broadly speaking, every victim of la grippe will suffer from post-grippal neurasthenia also. Lowering of nervous tone with increased irritability is the most striking effect of the disease, languor of mind and body, disturbed, fitful sleep and vague pains in the head and elsewhere. The treatment calls for rest and a tonic."

If you have had la grippe read these symptoms again: "Languor of mind and body, disturbed, fitful sleep and vague pains in the head and elsewhere." If you have any or all of them it means that you are still suffering from the effects of la grippe and that you will not be well and free from danger of relapse until your blood is built up.

The treatment, says the distinguished physician quoted above, is rest and a tonic. Dr. Williams' Pink Pills, a non-alcoholic tonic, are particularly suited for building up the blood and strengthening the nerves after an attack of grippe. The rich, red blood expels the lingering germs from the system and transforms despondent grippe victims into cheerful, healthy, happy men and women.

If you have had la grippe do not wait for a relapse or for the neurasthenia that so often follows grippe, but get a box of Dr. Williams' Pink Pills now from the nearest drug store and begin the treatment at once.

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail, at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

PERSONAL POINTERS.

Specially Selected Notes About Famous Men and Women.

King Manuel is a first-rate domino player.

M. Briand, the French premier, never wears gloves.

Since the outbreak of war, Queen Mary has not purchased an evening gown.

Sir George Reid, the Australian High Commissioner, is a crack shot with a revolver.

Prince Alexander of Teck is now serving with the Belgian Army as British Military Attache.

The Duchess of Norfolk has a collection of parasols of all countries, said to be worth $500.

Sir Felix Schuster says that his experience in business has raised his opinion of human nature.

The Duchess of Connaught plays a good game of draughts, and the game is her favorite indoor recreation.

General Sir Douglas Haig is one of the best linguists in the Army. He speaks French and German perfectly.

The favorite dish of the Crown Prince of Sweden is a salad made of chicken, bananas, grape-fruit, and wine sauce.

King George has now two valets; in peace time he has three. The Kaiser has seven valets, the King of Spain five.

Four English messervants in the German Royal Household were interned in Germany a week after the outbreak of war.

Lieut. von Tirpitz, son of the German admiral, who is a prisoner of war in England, is the best lawn-tennis player in the German Navy.

One of the bonats of Dr. Von Bethmann-Hollweg, the German Chancellor, is that he has never had to pay a visit to a dentist since he was fourteen.

Autographed photographs of the Czar and Czarina were sold at a private auction in Petrograd for $2,500 each. The proceeds went to a war charity.

The Prince of Wales a little while ago had a pipe knocked out of his mouth by a flying fragment of a shell that burst within thirty yards of his Royal Highness.

The titles held by Lord Stamfordham and Lord Ribblesdale will become extinct owing to their heirs having been killed in the war, unless they are granted "special remainders" by the King, as was done in the cases of Lord Roberts and Lord Wolseley.

THE FIRST TASTE.

Acquired the Habit When a Boy.

If parents realized the fact that tea and coffee contain a drug—caffeine—which is especially harmful to children, they would doubtless hesitate before giving them tea or coffee to drink.

"When I was a child in my mother's arms and first began to nibble at things at the table, Mother used to give me sips of coffee. And so I contracted the coffee habit early.

"I continued to use coffee until I was 27, and when I got into office work I began to have nervous spells. Especially after breakfast I was so nervous I could scarcely attend to my correspondence." (Tea produces about the same ill effects as coffee, because they both contain the drug, caffeine.)

"At night, after having had coffee for supper, I could hardly sleep, and on rising in the morning would feel weak and nervous.

"A friend persuaded me to try Postum."

"I can now get good sleep, am free from nervousness and headaches. I recommend Postum." Name given by Canadian Postum Co., Windsor, Ont.

Postum comes in two forms.

Postum Cereal—the original form—must be well boiled. 15c and 25c package.

Instant Postum—a soluble powder dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both forms are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

THE ENGLISH ARE AHEAD.

How They Sent a Man to an Address By Parcel Post.

The parcel post has made its usefulness felt in many ways, unexpected as well as foreseen. But the English parcel post does one surprising thing that has not yet been introduced into our own system.

An Englishman wished to reach a customer living in a remote part of Balham, one of the suburbs of London, and it was very necessary that he find him quickly. Knowing nothing of the district, he called at the general post office at St. Martin's-le-Grand, to consult a directory. On explaining his case to a clerk, he was amazed to learn that he could be sent to the address by parcel post by paying a fee of three pence a mile.

The gentleman had never heard of such a thing, and it is said that very few persons in England know that it can be done. He was placed in charge of a messenger who was familiar with all parts of the city, and was soon on his way. The boy carried a printed slip on which was written a description of the "parcel" in charge, under the heading, "Article required to be delivered," and before leaving the customer's house both the customer and the gentleman had to put their signatures on the paper. The limit in weight for anything delivered by parcel post in England is generally understood to be eleven pounds, but there is one clause that reads, "A person may be conducted by express messenger to any address on payment of the mileage fee."

AN EXCELLENT REMEDY FOR THE CHILDREN

Mrs. Laura Jackson, Brantford, Ont., writes: "I have found Baby's Own Tablets such an excellent remedy for children that I have no hesitation in recommending them to all mothers." Thousands of mothers say the same thing concerning the Tablets. Once a mother has used them she would use nothing else. They are for sale at all druggists or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

CHILDREN MAKING SHELLS.

10,000 Boys Work in the Arsenal at Woolwich.

Ten thousand boys too young to fight are doing what they consider the next best service for their country—turning out munitions in the Government arsenal at Woolwich. In ordinary times many would have become office boys, clerks, or telegraph messengers, but to-day the majority come from points miles from the factory, and help the older men make the shells and guns needed by the men at the front.

The pay is attractive. A smart boy can earn $7.50 a week, or even $10, if he has a good machine and can keep steadily at work for as long as 12 hours a day. Parents who have to choose between putting their boys to learn a trade at $2 or $2.50 a week, and allowing them to go into the arsenal at the higher remuneration are naturally inclined to decide on the work which not only brings in the quickest return, but seems to be in the national interests as well.

Social workers who have the boys' welfare at heart are inclined to lament that so many should be entering what may not perhaps prove a permanent occupation. They say that their future is not unlikely to become a problem after the war, and that the country might well remember then that the great army of boy munition workers played no small part in the difficult times.

The daily life of these boys shows what sacrifices they are making. Thousands live an hour's journey from the factory, and some have to leave home as early as 6.30 in the morning, and cannot get back till 9.30 in the evening. All work 12 hours a day, starting at 8 and finishing at 8. They take the night shift, too, also for 12 hours, and often a boy may be seen asleep from sheer exhaustion on his way home in tramcar or train.

Every effort is made by the Ministry of Munitions to safeguard the health of the youngsters, but the problem is a difficult one. Eight-hour shifts are being made to improve the transportation facilities to and from the arsenal. One of the latest suggestions, and the one most likely to be carried out is to build miles of huts close to the arsenal, where the boys could live while engaged in shell-making.

"Cutting Off It's Retreat."

In the little village school room the children were very quiet and attentive, for the school-mistress was giving them an interesting and instructive account of a certain rat which had caused much annoyance in her household. "It was a great nuisance, children," she said, "and great was my satisfaction when, at last, it was tracked to its favorite haunt, and I and several others were enabled to cut off his retreat." "By the way," she added, as a king of after thought, "can any of you tell me what 'cutting off its retreat' means?"

Silence reigned for some moments, but at length a small girl put up her hand. "That's right, Ethel," said the mistress encouragingly. "What is 'its retreat?'" "Please, miss," answered Ethel at once, "it means its tail!"

Just a Straight and Simple Story

MISS BLANCHARD TELLS OF DODD'S KIDNEY PILLS.

They Cured Her Kidney Troubles and Other Sufferers Can Learn From Her Experience How They Can Find a Cure.

Paquetville, Gloucester Co., N.B.—Mar. 6th (Special)—Simple and straight to the point is the statement of Miss Jessie Blanchard of this place. She has tried Dodd's Kidney Pills and found them good and she wants everybody to know it. Miss Blanchard says:

"I suffered for a long time with my kidneys. I used Dodd's Kidney Pills and they cured me completely."

One simple statement like that is worth a dozen learned dissertations on Kidney disease. It tells the sufferer from kidney trouble just what he or she wants to know—that a cure can be found in Dodd's Kidney Pills.

For Dodd's Kidney Pills are no cure-all. They are purely and simply a kidney remedy. The reason why they cure Rheumatism, Lumbago, Diabetes, Bright's Disease, Heart Flutterings, Dropsy, Pain in the Back, and other diseases is that all these are either Kidney diseases or are caused by disordered kidneys. Dodd's Kidney Pills cure them by curing the kidneys.

The Original Method.

Katherine and Margaret found themselves seated next each other at a dinner party and immediately became confidential.

"Molly told me that you told her that secret I told you not to tell her," whispered Margaret.

"Well," returned Margaret, "I told her I wouldn't tell you she told me, so don't tell her I did."

Possible Reason.

There's nothing in drinking,
There's not a thing to it.
And maybe, I'm thinking,
That's just why we do it.

Notice to Stallion Owners

The inspection of stallions under the Ontario Stallion Enrolment Act, will commence March 23rd, 1916. All applications for enrolment and inspection, accompanied by the proper fee, must be in the Secretary's office, Parliament Buildings, Toronto, by March 15th. In case of applications received after March 15th, inspection will only be made at increased expense to owners. Address all communications to R. W. Wade, Secretary, Ontario Stallion Enrolment Board, Parliament Buildings, Toronto.

You Can't be Neutral on the food question. You have to decide between mere palate-foods that contain no nutriment and foods that repair the bodily waste. Shredded Wheat Biscuit is both a palate food and a muscle builder. You can keep in good health and at the top-notch of physical fitness by eating this delicious, ready-cooked, whole wheat cereal for breakfast, luncheon or any meal.

Made in Canada.

Britain and United States.

A few things that England has done for the United States:

Granted us our independence.

Outdistanced us in the race for democracy.

Laughed at some of our jokes.

Conferred citizenship upon others.

Appreciated Walt Whitman.

Relieved us of Henry James.

Furnished the only noteworthy example of respect for the Monroe Doctrine.

Fought hard for the worthy ideals for which we whimper.—New York Life.

Minard's Liniment Cures Burns, Etc.

Her Ups and Downs.

Lady (who was on a visit to her native town)—How is Mrs. Gabble? I haven't seen her for a long time.

Hostess—She is having her ups and downs.

Lady Visitor—And what may they be, I pray?

Hostess—Oh, running up hills and running down her neighbors.

Minard's Liniment Cures Dandruff.

Just Like a Queen.

An officer who has just been discharged from one of the London hospitals, has been telling me a delightful story of Queen Alexandra. One day Her Majesty visited the hospital, and chatted with my friend for a few minutes. "Do you know what she said to me?" he asked. "She sat on my bed for nearly five minutes, and as she was leaving said, 'I know your needs are well looked after, but if there is anything extra you would like, tell me.'"

More Important.

"What! A strange man walked off with my umbrella? Why, I have my name on it."

"That may be, but the other fellow has his hand on it."

NOTICE TO STALLION OWNERS.

The inspection of stallions under the Ontario Stallion Enrolment Act will commence March 23rd, 1916. Stallion owners will notice that horses inspected in the Fall of 1914 do not require to be inspected at this time but all other horses inspected previous to the Fall of 1914, which were not then eight years old, must be inspected in order to be enrolled for 1916. Application should be made at once to the Secretary of the Ontario Stallion Enrolment Board, R. W. Wade, Parliament Buildings, Toronto.

"I say, old chap, I'm in shocking luck. I want money badly, and haven't the least idea where I can get it." "Well, I'm glad to hear that, I thought perhaps you had an idea you could borrow from me!"

We have been using MINARD'S LINIMENT in our home for a number of years and use no other Liniment but MINARDS, and we can recommend it highly for sprains, bruises, pains or tightness of the chest, soreness of the throat, headache or anything of that sort. We will not be without it one single day, for we get a new bottle before the other is all used. I can recommend it highly to anyone.

JOHN WALKFIELD.
LaHave Islands, Lunenburg Co., N. S.

Subbubs: "I believe Swamphurst is unhealthy. Since we have lived out there my wife can scarcely speak above a whisper." Henpecke: Do you suppose I could find a house there?"

Minard's Liniment Relieves Neuralgia.

Despite the economising tendency of the war, Lord Lonsdale still smokes his big cigars. When in the right mood he is an excellent raconteur. His best story is that of an American traveller who spoke of having seen petrified forests in Texas, and petrified birds flying over them. "Come, come!" he was told. "That's surely against the laws of gravitation!" "Quite so," replied Ananias, not a whit abashed; "but, you see, the laws of gravitation there are petrified, too!"

Minard's Liniment for sale everywhere

A FAMOUS GRAPEVINE.

Supplies King George With 200 Bunches Yearly.

James Jack, keeper of the famous grapevine at Hampton Court Palace, England, has retired after thirty-two years active service as chief custodian of the King's vine. The vine was planted in 1768 by "Capability" Brown, the famous landscape gardener of the eighteenth century.

The vine is now considered one of the finest in the world. It stretches in wide perfectly trimmed squares, eighty feet by twenty-six, the whole length and breadth of the greenhouse. Two hundred bunches of grapes from it are sent to King George at Windsor every year. The grape is the old Black Hamburg.

Some years ago twelve bunches were shown at an exhibition of the Royal Horticultural Society and were awarded the Hogg memorial medal for special excellence and culture. Two of the bunches weighed 3 pounds 14 ounces each, and the whole twelve weighed about 42 pounds, an average of 3½ pounds each.

WASTE NECESSARY IN FOOD

Because our ancestors ate coarser waste with their food they developed a long bowel, mostly a muscular tube. This muscle was not intended for digestion purposes, but to carry off waste. We have inherited this muscular tube. Waste containing food is as essential to its proper function as light is to the eye. Because modern foods have little waste the human bowel muscles have weakened from lack of exercise. Constipation and indigestion have resulted. Dr. Jackson, who practised for years as an intestinal specialist, has devised Roman Meal, a food which has plenty of waste to exercise the bowel muscles and is also highly nourishing. It prevents indigestion and constipation. Most grocers sell it.

Made by the Roman Meal Company, Toronto, Canada.

Real Forbodings.

"My son," said the father impressively, "suppose I should be taken away suddenly, what would become of you?"

"Why," said the son, irreverently, "I'd stay here; the question is, what would become of you?"

Some men are such tightwads that they won't even lend trouble without good security.

PILES.

You will find relief in Zam-Buk! It eases the burning, stinging pain, stops bleeding and brings ease. Perseverance, with Zam-Buk, means cure. Why not prove this? All Druggists and Stores—50c box.

FREE Our handsomely Illustrated 156-page catalogue of Vegetable, Farm and Flower Seeds, Plants, Bulbs, Poultry Supplies, Garden Implements, etc., for 1916. Send for it.

John A. Bruce & Co., Ltd., Hamilton, Ontario
Established Sixty-six Years.

The Paisley Advocate.

PAISLEY, MAR. 15th, 1916

—Manitoba is next on the "dry" list of provinces. By a vote of two to one the people have declared that booze must be bounced on May 31.

—The new liquor legislation is to be brought up in the Legislature on Thursday. The parliamentary minds of Ontario seem now to be thoroughly impressed with the strength of public sentiment in favor of total prohibition of the liquor traffic. The result is likely to be the enactment of a measure by the Hearst Government that will cut out the retail selling of all intoxicating liquors during the war without taking the vote of the people at present. It is believed now that we will be given prohibition on trial, with the provision that we be allowed to express our approval or disapproval of the measure by a referendum to be submitted after the war. Under this Act, as now forecasted, we would probably have prohibition in force by August 1st, 1916.

—Toy-making is a great industry, giving employment to thousands of workers and millions of capital. It is a curious fact that the nation whose soldiers used little Belgian children as shields to protect them from the fire of British and French guns, the nation which rejoices when bombs dropped from Zeppelins kill innocent English children, the nation that exulted when the bodies of murdered children from the Lusitania floated on the ocean, is the one which before the outbreak of the war made toys for children all over the world. There was no sentiment in it. The Germans knew that every child throughout the world delighted to play with toys and every little girl desired a doll. It was a matter of business to supply the universal demand. In almost every Canadian household children played with German dolls and toys. Once a year the great Canadian department stores and the wholesale houses that supplied small retail stores with toys sent their buyers to Germany to purchase toys. Since the outbreak of the war, German goods of all kinds being excluded from Canada, the large department stores and the wholesale houses have found it exceedingly difficult to get toys to supply the Canadian demand and similar conditions prevail in every country of the British Empire. To meet the demands at home and from abroad for toys to take the place of those heretofore made in Germany, it is proposed to give some encouragement to the manufacture of them in Canada. Sir George Foster has arranged to hold a conference of makers and dealers and all interested in the selling of children's playthings and games, to be held in Toronto on March 28th, when an exhibition of all such goods will be made.

—It is becoming more evident every week that if Canada is to really send to the war the 500,000 soldiers promised, the Dominion and Provincial Governments will have to take a direct and very active part in the recruiting of such an army. Some system will have to be evolved by which all parts of the Dominion contribute a proportionate share of their population for fighting purposes. The bit and miss plan that has already put 273,582 men into khaki will never secure the half million aimed at. To show how unevenly the voluntary enlistments have been made up to Feb. 29th, we give the following tabular statement:

	Enlisted	Population
Ontario	110,776	2,523,000
Quebec	28,000	2,303,259
Mar'tm prov	24,148	937,000
Western prov	100,092	1,715,209

Not half the recruits from Quebec are of French origin. The city of Toronto alone enlisted twice as many as the whole province of Quebec. Other comparisons equally striking and disparaging to Quebec can be made.

There are many other phases of the recruiting problem that show the necessity of adopting more systematic methods of enlistment. More men are needed, but the problem of securing them cannot be all left to the indiscriminate system which worked very satisfactorily up to the time when it was not considered necessary to send more than 100,000 or 150,000 Canadians to the assistance of the mother country and her allies. Industrial and agricultural interests require a system that will be more universally fair in making the drafts of men for the half million legion.

The shortage of hired help is most serious in rural sections, and how to provide for the replacement of young farm hands is one of the problems that might—as we see it suggested from one county — be taken up by the locally organized war auxiliaries. In every town and village there are numbers of men past the military age, or physically unfit for military service, who could make themselves very useful on a farm, in a factory, mill, shop or store, doing the work that keeps occupied young men who would then be free to enlist. There are also many women and girls equally capable of filling men's places if they are only willing to undertake new tasks. Neither the able-bodied man nor woman who does next to nothing will fulfil his or her duty to this great free empire in which they have been privileged to enjoy life unless they are ready to fill a niche somewhere in the industrial life of the country.

Military service is not the only great service developing upon the patriot to day. There is an endless list of opportunities open to both menand women to assist in carrying on the work of the nation, even if they can't go into the trenches. The call is heard from the farm as loudly as from the field of battle for men to come out and help, and it should be heeded in the one case as readily as in the other.

A universal system of military training and recruiting of men for war is what we should have, and the need of a universal system of recruiting for the ranks of commerce and industry is equally urgent under a strain such as the world is undergoing at present.

LOCAL AND DISTRICT NEWS

The Measles Spread

It will be a lucky Paisley infant or juvenile that escapes an attack of the measles during this epidemic. The disease has become very prevalent during the past week, and many homes are luridly decorated with the red card. Had the regulations been properly observed at the outbreak of the disease it could have been cornered, but now it threatens to invade nearly home where the scaly has called once or oftener within the past fifteen years.

Must Acknowledge the Goods

The Grand Trunk Railway has now supplied all its agents in Canada Temperance Act counties with "Special form 38," which is a declaration that everyone must make who has liquor sent to his address. This affidavit must be made before a notary public or justice of the peace, and all shipments will be held until such formalities properly filled up. The Grand Trunk apparently recognizes that it is jointly responsible with the shipper and the consignee for liquor brought in for other than personal use and is not taking any chance.

Another Bluff

"Armstrong has won out and gets $200 back from the party" was the news that passed around the street on Friday afternoon, causing momentary consternation among a section of our citizens and elation to at least a few. Jack Armstrong had received a check by mail, which was claimed to be a rebate of $200 on the costs of the recent court proceedings arising out of liquor and intimidation of witnesses charges. The facts soon came to the surface, however. The check was the property of Armstrong's solicitors, but required his endorsement, and not a cent of its value was retained by him. The statements about his winning out, &c., were mere bluff, although they may have been made in ignorance of the true circumstances. Paisley town treasury has been enriched to the extent of that $50 fine and Armstrong gave the full costs of the high court action to quash the magistrate's conviction.

From Sam McGill

In remitting his subscription to THE ADVOCATE Mr. Sam McGill writes from Lochburn, Sask.: "I don't want to miss my ADVOCATE, as I consider it better than any letter I receive from down there. I will say, if you when I am located—35 miles north-west of Moosejaw, on the Outlook branch, one station north of the Elbow. This is a fine country to live in. The only drawback here is that water is hard to locate. I am all right in that respect as I have as fine a well of water as man could wish for. I have the dray business here, also Imperial oil agency, and like the place fine. There is a good class of people here, but all nationalities to deal with. We have had a nice winter here, but cold. The snow has not been over 14 inches on the level, but in some parts of southern Saskatchewan and in Manitoba the latter has been the worst they can remember. Hoping this will find you well, also all the rest of Paisley people, also Gibbies Hill people, and all the girls of Elderslie. Ha! Ha!

$100 Saturday at the Tea Room

The ladies of U.S.S. No. 8 Greenock & Elderslie (Jackson's), paid an afternoon and success in their Saturday afternoon at the Red Cross Tea Room, the proceeds reaching the century mark by the time the last sandwich was consumed. The tea room has become a Saturday afternoon place for the buyers of vegetables, dairy products, home-made cooking, fresh meats, etc., and the patronage is growing to such an extent that it occurs to us a weekly market might be made a permanent institution in the village. A market building was erected by Paisley council once upon a time, with a view to allowing the producers and consumers dealing direct with each other, but we never heard of a basketful of anything being marketed under that roof. The war has brought in many innovations in the way of improved management of business and public utilities, and possibly this very thrifty way of raising money for Red Cross work in Paisley may be the means of establishing a weekly market here. It only requires an organized co-operative movement to make it go. But, market talk aside, the ladies and farmers who supplied the products on Saturday and managed the lunch room are to be congratulated upon the success of their undertaking. The advertising they did accounts for some of the increase in the business. Printer's ink always helps when properly applied.

TOOK THE ADVICE OF HIS FRIEND

Stomach Trouble and Rheumatism Relieved By "Fruit-a-tives"

MR. L. LABRIE

704 Champlain St., Montreal.

"I have been restored to health by taking 'Fruit-a-tives'. For two years, I was a miserable sufferer *from Rheumatism and Stomach Trouble*. I became very weak, had frequent dizzy spells and when I took food, felt wretched and sleepy. I suffered from Rheumatism dreadfully, *with pains in my back and joints and my hands swollen*.

A friend advised me to try 'Fruit-a-tives' and from the outset, they did me good. After I had started the second box, I felt I was getting well and I persevered in the treatment. I can truthfully say that 'Fruit-a-tives' is the only medicine that helped me.

LOUIS LABRIE.

"FRUIT-A-TIVES" is the famous *medicine made from fruit juices.*

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

An Adventure in Vancouver

Mr. Jas. Hyde has returned to Paisley from Vancouver where he went in charge of a shipment of horses. He is in a somewhat debilitated condition, after having been knocked about by a taxi on the street in the sunset city. The auto was going at a reckless speed when it bumped into Mr. Hyde. The latter was thrown quite a distance by the impact. He stood the shock remarkably well, and was certainly in luck to get off without being made a total wreck. No bones were broken, but some painful bruises sustained. The drunken taxi driver, believing that the victim of his recklessness was killed, abandoned the car and fled from the scene. Mr. Hyde might have picked it up as a souvenir, but hadn't the time to spare. He is now taking home hospital treatment at the residence of his daughter, Mrs. G. B. Irwin.

White—Annes

A very pretty wedding was solemnized on Wednesday, March 8th, at the home of Mr and Mrs J Annes, 10th Bruce, when their eldest daughter Jane became the bride of Mr Alex White, an energetic and prosperous farmer of the same line. As the bridal party entered the room, being led by Miss E Annes (sister-in-law of the bride), the bride entered the parlor leaning on the arm of her father, and took her place beside the groom under an arch of Union Jacks and wedding bells. The bride, who was unattended, looked charming in pale blue silk with allover lace trimmed with crystal beading and wearing in her hair a wreath of lemon blossoms of the white. The ceremony was performed by Rev Mr MacNab, of Centre Bruce, the only guests being the intimate friends of the two families. The gifts to the bride were both numerous and costly, among them being a beautiful volume of the scriptures presented by Rev and Mrs MacNab. After congratulations a sumptuous four dinner was served. The rest of the evening was spent in amusements of different kinds. The bride and groom after sands left for their own home, the bride travelling in a suit of green broadcloth with hat to match. The happy couple carry with them the good wishes of the whole neighborhood. They will be at home to their many friends after the first of April.

Fletcher—Manners

A very pretty wedding took place on Wednesday evening, March 1st, at the residence of the bride's parents, Mr and Mrs Adam Manners, South Line, Kinloss, when their daughter, Katherine Ada, was united in marriage to Mr Geo Fletcher, of Viceroy, Sask., son of Mr and Mrs Jacob Fletcher of near Paisley. Rev Mr Bell, B.C.L., performed the ceremony. The bride entered the parlor on the arm of her father and stood under an arch of evergreens decorated with bells and roses. She wore a gown of white silk over lace and silk chiffon over net wearing a white net bridal veil with orange blossoms, and carried a shower bouquet of lilies of the valley and maiden hair fern. Miss Florence Manners, sister of the bride, played the wedding march, and little Mary Manners, a niece, acted as flower girl and was attired in pink, carrying a basket of white carnations and streamers. After the usual congratulations the guests sat down to a tastefully decorated table and partook of an excellent spread. The rest of the evening was spent in music and song. The groom's gift to the bride was a gold wristlet set with emeralds and amethyst, to the flower girl a bracelet with amethyst setting, to the pianist gold locket with settings. The bride's gift to the groom was a tie pin. Mr and Mrs Fletcher left on the early train Tuesday morning of last week for their home near Viceroy, Sask. The bride's going away gown was of Belgian blue silk, her travelling suit of navy blue serge and black velvet hat with white plumes. The gifts were numerous and costly showing the high esteem in which the young couple were held.

Death of Mrs. Bacon

Mrs. Ann B... on, relicted of the late Henry Bacon, of Yorkerton, departed this life on Thursday, March 9th, in her 93rd year. She was born in Grantown, Inverneashie, Scotland, on April 25th, 1823. Her maiden name was Ann Dunbar, her mother being a Grant of the well-known clan of the Grants, her father's estate being known as Clachnastane on the banks of the river Spey, a home known for its hospitality. Mrs. Bacon inherited in a large measure that spirit of hospitality, and although never mingling much in social circles, her door was ever open to her many friends and her genial disposition combined with her generous hospitality made one feel that they got a truly Highland welcome. She came to New York about the year 1853, and was married to the late Henry Bacon in March, 1855. The deceased is survived by four daughters—Mrs Bastone, of Detroit; Mrs. P. Potter, and Elderslie; Mrs. Schweiger, Hamilton, and Mrs. Stauffer at home, who for years has been her constant attendant; also four grandsons, three granddaughters, and two great-grandchildren. She was a life long Presbyterian, being a member of Old Kirk in Scotland, and ever since coming to Walkerton a member of what is now known as Knox church. The funeral was conducted by Rev. Mr. Wilson, the service at the house being largely attended. The pallbearers were Messrs. Dan McKechnie, R. H. McKay, D. McKerracher, S. A. Rife, P. Rourke, J. Hilbert. The floral offerings were many and beautiful.

WOMAN SUFFERAGE.

Its War Time Aspect.

London, Eng. The women of England are doing their duty. They are taking care of the wounded, or if they cannot assist in work of that kind they are adding their savings to promote the good work. They are knitting and sewing for the fellows at the front. The suffragists have given so little trouble to the government that it will undoubtedly soften the hearts of those in Parliament, since the "militants" have turned all their energies to aid the fighting men of England, and so suffergage may soon come after this terrible war is over.

Thousands of women in Canada have overcome their sufferings, and have been cured of woman's ills by Dr. Pierce's Favorite Prescription. This temperance medicine, though started nearly half a century ago, sells most widely to-day, because it is made without alcohol or narcotics. It can now be had in tablet form as well as liquid, and every woman who suffers from backache, headache, nervousness, should take this "Prescription" of Dr. Pierce. It is prepared from nature's roots and herbs and does not contain a particle of alcohol or any narcotic. It's not a secret prescription for its ingredients are printed on wrapper.

Many a woman is nervous and irritable, feels dragged down and worn out for no reason that she can think of. In ninety-nine per cent. of these cases it is the womanly organism that requires attention; the weak back, dizzy spells and black circles about the eyes, are only symptoms. Go to the source of trouble. When that is corrected the other symptoms disappear.

St. Thomas, Ont.—"I wish to say for the benefit of other women who suffer that I recommend Dr. Pierce's Favorite Prescription as a great help. I have personally recommended the same to many who in turn have been helped a great deal by its use."—Mrs. Fr. J. Iverson, 19 Oliver St., St. Thomas, Ont.

Rimless Glasses

Are Fashionable

Not invisible but nearly so.
They can be made up with either solid gold, gold filled (warranted 10 years), or nickel trimmings.
They are not expensive.
We adjust them so that they are perfectly adapted to the features.

A STOPPED WATCH

—one that will not go AT ALL—does not cause as much bother as one that runs now fast, now slow, in an erratic fashion.

The first you don't pretend to depend upon—the other is a constant source of annoyance.

Most people can afford a watch, but no one can afford an uncertain fast and slow one.

And when our Repair Department is so close at hand there is really no excuse for carrying anything but an accurate time-piece, no matter what the first cost was.

Our suit as about any watch troubles that may arise.

Wire!

All those who need Wire will profit by taking advantage of this golden opportunity to secure their requirements in that line before a further advance in price takes place. We have about half carload on hand yet to dispose of at the lowest price. We will be pleased to book your order for Wire and keep it till you require it.

We have a good stock Woven Fence on hand in different sizes.

"Ideal" and "Frost"

the only good reliable woven fences on the market. Don't let this grand chance slip. Take advantage of it for wire will go higher.

Our Distemper Cure is Guaranteed

W. H. DAVISON

"Granny" Chamberlain

Sore Throat

"You may not look upon it seriously, but a sore throat indicates a weakness in the bronchial tubes. If neglected it may soon develop into some chronic complaint.

People who are troubled in this way are most susceptible to influenza, contract pneumonia readily, and fall easy victims to consumption.

To remove this irritation, soothe and heal the inflamed membrane, there is nothing equal to

Chamberlain's Cough Remedy

It gives tone to the weakened tissues of the throat, strengthens the bronchial tubes, and at the same time builds up the system. When the throat is healthy, influenza or consumption germs cannot obtain a foothold. Above all things never neglect a child's throat, for it may mean years of suffering for it in after years."

Yours for Health.—Granny Chamberlain

Compulsory Service in Canada?

What the Militia Act Says

Whether the laws of Canada call for military service or not is a question that has arisen in connection with the discussion of conscription. A subscriber to the Kincardine Reporter having asked whether there is an act in force in this Dominion corresponding to the Conscription Act of Great Britain, the editor dug up the statuter and published the following extracts from the Militia Act, dealing with who shall serve and how called:

The male population liable to serve in the Militia shall be divided into four classes:

The first class shall comprise all those of the age of eighteen years and upwards, but under thirty years, who are unmarried or widowers without children.

The second class shall comprise all those of thirty years and upwards, but under forty-five years, who are unmarried or widowers without children.

The third class shall comprise all those of the age of eighteen years and upwards, but under forty-five years, who are married or widowers with children.

The fourth class shall comprise all those of the age of forty-five years and upwards, but under sixty years.

The said several classes shall be called upon to serve in the order in which they are referred to in this section. 4 E. VII, c. 23, s. 15.

When men are required to organize or complete a corps at any time, either for training or an emergency, and enough men do not volunteer to complete the quota required, the men liable to serve shall be drafted by ballot.

If there are inscribed on the Militia roll more than one son belonging to the same family residing in the same house, only one of such sons shall be drawn, unless the number of names so inscribed is insufficient to complete the required proportion of service men. 4 E. VII, c. 23, s. 7.

Every man of the Active Militia of the first or second class shall be required to complete the full period for which he volunteered or was balloted to serve, notwithstanding that during any such period of service he attains the limit age of thirty years, or forty-five years, as the case may be, according to his class. 4 E. VII, c. 23, s. 29.

ACTIVE SERVICE

The Governor in Council may place the Militia, on active service anywhere in Canada, and also beyond Canada, for the defence thereof, at any time when it appears advisable to do so by reason of emergency. 4 E. VII, c. 23, s. 70.

—To prevent the great wastage in military camps it is proposed to employ women cooks, etc., else have lessons in modern methods given by women at the training camps. The case has been proven in a convalescent camp in England where 2828 soldiers were cared for, in the month of October, and the sum of $4,500 saved under the direction of women folk, without detracting from the former bill of fare. Men don't appear to know anything about the "make-over" dishes by which the overplus, commonly called scraps, are utilized in attractive form.

Children Cry
FOR FLETCHER'S
CASTORIA

—Inspector Matt Beckett, of Owen Sound, captured a dray load of whiskey in that town on Tuesday of last week. The load, consisting of 15 cases, had reached there at 5 o'clock a.m., and was about to be delivered when the Inspector came upon it. The address labels had all been torn off the boxes, and the driver of the dray, which belonged to Davis, Smith, Malone & Co., will not give any information that will divulge the identity of the owner of the booze. The liquor is in possession of the Inspector yet.

—THE ADVOCATE office has a splendid stock of wedding stationery and calling cards on hand, also the most beautiful styles of type, so we are able to turn out the finest lines of wedding invitations, announcements, cards, etc. We can do work fit to invite the best of people to a wedding, so why pay two or three times as much to city printers or engravers for something that isn't a whit better for the purpose? See our samples.

BORN

FRASER—In Hildersle, on March 10th, to Mr. and Mrs. Clarence Fraser, a son.

DIED

BELL—At Paisley, on March 14th, Geo B Bell, aged 32 years, 3 months and 13 days.

A Serbian in Native Costume

This gaily dressed and happy looking individual with the long-stemmed pipe is a typical Serb—one of the thousands that fought so well against the Teutonic hordes. Holiday clothes such as these will be unknown for many years probably, most of the men of the country having worn nothing but military uniforms for so long, and there being no occasion for holiday raiment in Serbia nowadays.

LIQUID OXYGEN

It has long been known that liquid oxygen mixed with substances like cotton wool forms a powerful explosive, but serious difficulties were encountered in its practical use. A new method has now been discovered for handling this oxygen that makes it practical for commercial

Bags are filled with a special form of lampblack which are soaked in the liquid oxygen for a few minutes just before they are required for use.

If the bag is now lighted with a match it will burn quietly and very slowly, but if detonated it explodes with the force of dynamite, and the cost is much less.

Much less carbon monoxide is given off than by most other explosives, and there is no danger from a misfire as the oxygen will evaporate in a short time.

MERCURY BICHLORIDE

How to Prevent Accident by Mistaking For Other Medicines

Various methods designed to prevent the mistaking of bichloride of mercury for medicine, or some other harmless substance, have been proposed with the idea of making it possible to use this deadly poison as an antiseptic without incurring any danger. Two of the latest of these are extremely simple but evidently effective. One method consists in stringing the tablets together and then bottling them in the usual manner. A tablet can only be detached by cutting the string, and this apparently does away with all possibility of mistake. The other method is to incase the tablets in metal guards having sharp prings, so that it is impossible to swallow them. The tablet can be dissolved with the guard in place or can easily be removed from the guard.

To Economize With Gas

Always keep the main gas tap only half on. If it is turned on full the gas rushes through the pipes, and a great deal is wasted.

It is a great mistake to believe that the higher the gas is turned on the greater the heat and the quicker the saucepan will boil.

When the whole of the oven is not required, lower the "browner" or plain iron sheet halfway down, and use the lower half of the cooking. This will use very little gas.

Cut a sheet of very thin iron the size of the top of the gas stove with narrow raised edges. Put this on the stove after lighting the largest burner, and several saucepans can be kept boiling with that one ring.

Tea-growing in India

Scattered all over India we find the British-owned and managed tea gardens. From insignificant beginnings has grown up a huge industry, till we now have 600,000 acres growing tea, and employing 700,000 persons of both sexes. Producing 296,000,000 pounds, India sends her teas all over the civilized world. India is now the greatest tea exporting country in the world. Australia, New Zealand, Canada—all the British dominions beyond the seas—have [illegible] in this expansion of the tea [illegible]

FIRE NOTICE

RENNIE'S SEEDS

We desire to advise our customers that although we have suffered a very large loss in Sunday's (Feby. 16th) fire we have sufficient stocks stored at our warehouse at Long Branch and other warehouses in the city, to enable us to fill orders complete and to take care of the coming season's trade. We commenced shipping Monday, 21st, at noon and orders will be handled in our usual prompt manner.

RENNIE'S SEEDS

HEAD OFFICE, TORONTO, CANADA

All our branches have been supplied with their season's requirements.

THE

Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER IX. (Cont'd).

The official in charge of the Legation was away but was expected back that evening, or to-morrow morning at the latest. In the meantime, if the secretary could be of service to a countryman, he would be glad. The secretary was a likeable young fellow with frank American eyes. He fancied Saxon's face, and was accordingly cordial.

"There is quite a decent club here for Anglo-Saxon exiles," announced Mr. Partridge. "Possibly, you'd like to look in? I'm occupied for the day, but I'll drop around for you this evening, and make you out a card."

Saxon left his letters with the secretary to be given to the chief on arrival, and returned to the "Frances y Ingles."

He did not again emerge from his room until evening, and, as he left the patio of the hotel for his journey to the old cathedral, the moon was shining brightly between the shadows of the adobe walls and the balconies that hung above the pavements. As he went out through the street door, Mr. Howard Stanley Rodman glanced furtively up from a corner table, and tossed away a half-smoked cigarette.

The old cathedral takes up a square. In the niches of its outer wall stand the stone effigies of many saints. Before its triple, iron-studded doors stretches a tiled terrace. At its right runs a side-street, and, attracted by a path of clambering vine on the time-stained walls, where the moon fell upon them, Saxon turned into the byway. At the far end, the facade rose blankly, fronting a bare drill-ground, and there he halted. The painter had not counted on the moon. Now, as he took his place against the wall, it bathed him in an almost effulgent whiteness. The shadows of the abutments were inky in contrast, and the disused and ancient cannon, planted at the curb for a corner post, stood out boldly in relief. But the street was silent and, except for himself, absolutely deserted.

For a time he stood looking outward. From somewhere at his back, in the vaultlike recesses of the building, drifted the heavy pungency of incense burning at a shrine.

His ears were alert for the sounds that might, in their drifting inconsequence, mean everything. Then, as no reminder came, he closed his eyes, and wracked his imagination in concentrated thought as a monitor to memory. He groped after some detail of the other time, if the other time had been an actual fragment of his life. He strove to recall the features of the officer who commanded the death squad, some face that had stood there before him on that morning; the style of uniforms they wore. He kept his eyes closed, not only for seconds, but for minutes, and, when in answer to his focused self-hypnotism and goading suggestion no answer came, there came in its stead a torrent of joyous relief.

Then he heard something like a subdued ejaculation, and opened his eyes upon a startling spectacle.

Leaning out from the shadow of an abutment stood a thin man, whose face in the moon showed a strange mingling of savagery and terror. It was a face Saxon did not remember to have seen before. The eyes glittered, and the teeth showed as the thin lips were drawn back over them in a snarling sort of smile. But the most startling phase of the tableau, to the man who opened his eyes upon it without warning, was the circumstance of the unknown's pressing an automatic pistol against his breast. Saxon's first impression was that he had fallen prey to a robber, but he knew instinctively that this impression was not that of a man bent on mere thievery. It had more depth and evil satisfaction. It was the look of a man who turns a trick in an important game.

As the painter gazed at the face and figure bending forward from the abutment's sooty shadow like some chimera or gargoyle fashioned in the wall, his first sentiment was less one of immediate peril than of argument with himself. Surely so startling a denouement should serve to revive his memory, if he had faced other muzzles then!

When the man with the pistol spoke, it was in words that were illuminating. His voice was tremulous with emotion, probably nervous terror, yet the tone was intended to convey irony, was partly successful.

"I presume," it said icily, "you wished to enjoy the sensation of standing at that point—this time with the certainty of walking away alive. It must be a pleasant reminiscence, but one never can tell." The thin man paused, and then began afresh, his voice charged with a bravado that somehow seemed to lack genuineness.

"Last time, you expected to be carried away dead—and went away living. This time, you expected to walk away in safety, and, instead, you've got to die. Your execution was only delayed." He gave a short, nervous laugh, then his voice came near breaking as he went on almost wildly: I've got to kill you, Carter. God knows I don't want to do it, but I must have security! This knowledge that you are watching me to drop on me like a hawk on a rat, will drive me mad. They've told me up and down both these God-forsaken coasts, from Ancon to Buenos Ayres, from La Boca to Concepcion, that you would get me, and now it's sheer self-defense with me. I know that I never did you the wrong you are trying to revenge. God knows I am innocent."

Rodman halted breathless, and stood with his flat chest rising and falling almost hysterically. He was in the state when men are most irresponsible and dangerous.

Meanwhile, a pistol held in an unsteady hand, its trigger under an uncertain finger, emphasized a situation that called for electrical thinking. To assert a mistake in identity would be ludicrous. Saxon was not in a position to claim that. The other man seemed to have knowledge that he himself lacked. Moreover, that knowledge was the information which Saxon, as self-prosecutor, must have. The only course was to meet the other's bravado with a counter show bravado, and keep him talking. Perhaps, some one would pass in the empty street.

"Well," demanded Rodman between gasping breaths, "why don't you say something?"

Saxon began to feel the mastery of the stronger man over the weaker, despite the fact the weaker supplemented his inferiority with a weapon.

"It appears to me," came the answer, and it was the first time Rodman had heard the voice, now almost velvety, "it appears to me that there isn't very much for me to say. You seem to be in the best position to do the talking."

"Yes!" accused the other, excitedly. "You are always the same—always making the big pyrotechnic display! You have grand standed and posed as the debonair adventurer, until it's come to be second nature. That won't help now!" The thin man's braggadocio changed suddenly to something like a whine.

"You know I'm frightened, and you're throwing a bluff. You're a fool not to realize that it's because I'm so frightened that I am capable of killing you. I've craned my neck around every corner, and jumped at every shadow since that day—always watching for you. Now, I'm going to end it. I see your plan as if it were printed on a glass pane. You've discovered my doings, and, if you left here alive, you'd inform the Government."

Here, at least, Saxon could speak, and speak truthfully.

"I don't know anything, or care anything about your plans," he retorted, curtly.

"That's a lie!" almost shrieked the other man. "It's just your style. It's just your infernal chicanery. I wrote you that letter in good faith, and you tracked me. You found out where I was and what I was doing. How you learned it, goodness knows, but I suppose it's still easy for you to get into the confidence of the juntas. The moment I saw you on the boat, the whole thing flashed on me. It was your fine Italian brand of work to come down on the very steamer that carried my guns—to come ashore just at the psychological moment, and turn me over to the authorities on the exact verge of my success! Your brand of humor saw irony in that—in giving me the same sort of death you escaped. But it's too late. Vegas has the guns in spit of you! There'll be a new president in the palace within three days." The man's voice became almost triumphant. He was breathing more normally once again, as his courage gained its second wind.

Saxon was fencing for time. Incidentally, he was learning profusely about the revolution of to-morrow, but nothing of the revolution of yesterday.

"I neither know, nor want to know, anything about your dirty work," he said, shortly. "Moreover, if you think I'm bent on vengeance, you are a fool to tell me."

Rodman laughed satirically.

"Oh, I'm not so easy as you give me credit for being. You are trying to 'kiss your way out,' as the thieves put it. You're trying to talk me out of killing you, but do you know why I'm willing to tell you all this?" He halted, then went on tempestuously. "I'll tell you why. In the first place, you know it already, and, in the second place, you'll never repeat any information after to-night. It's idiotic perhaps but my reasons for not killing you right at the start is that I've got a fancy for telling you the true facts, whether you choose to believe them or not. It will ease my conscience afterward."

Saxon stood waiting for the next move, bracing himself for an opportunity that might present itself, the pistol muzzle still pointed at his chest.

"I'm not timid," went on the other. "You know me, Howard Rodman, speakin' in general, takes his chances. But I'm afraid of you, more afraid than I am of the devil in hell. I know I can't bluff you. I saw you stand against this wall with the soldiers out there in front, and, since you can't be frightened off, you must be killed." The man's voice gathered vehemence as he talked, and his face showed growing agitation. "And the horrible part is that it's all a mistake, that I'd rather be friends with you, if you'd let me. I never was informant against you."

He paused, exhausted by his panic and his flow of words. Saxon, with a strong effort, collected his staggered senses.

"Why do you think I come for vengeance?" he asked.

"Why do I think it?" The thin man laughed bitterly. Why, indeed? What except necessity or implacable vengeance could drive a man to this God-forsaken strip of coast? And you—you with money enough to live richly in God's country, you whose very face in these boundaries invites imprisonment or death! What else could bring you? But I knew you'd come—and, so help me I'm innocent."

A sudden idea struck Saxon. This might be the cue to draw on the frightened talker without self-revelation.

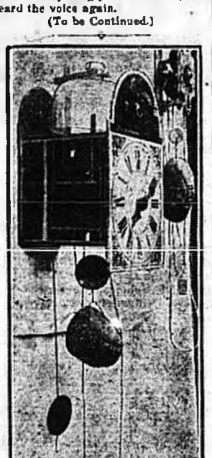
"What do you want me to believe were the real facts?" he demanded, with an assumption of the cold incredulity that seemed expected of him.

The other spoke eagerly.

"That morning when General Ojeda's forces entered Puerto Frio, and the government seized me, you were free. Then, I was released, and you arrested. You drew your conclusions. Oh, they were natural enough. But, before heaven, they were wrong!"

Saxon felt that, until he had learned the full story, he must remain the actor. Accordingly, he allowed himself a skeptical laugh. Rodman, stung by the implied disbelief, took up his argument again:

"You think I'm lying. It sounds too fishy! Of course, it was my enterprise. It was a revolution of my making. You were called in as the small lawyer calls in the great one. I concede all that. For me to have sacrificed you would have been infamous, but I didn't do it. I had been little seen Puerto Frio. I was not well known. I had arranged it all from the outside while you had been in the city. You were less responsible, but more suspected. You remember how carefully we planned—how we kept apart. You know that even you and I met only twice, and that I never even saw your man, Williams."



Through the bitterness of conviction, a part of Saxon's brain seemed to be looking on impersonally and marveling, almost with amusement, at the remarkable position in which he found himself. Here stood a man before him with a pistol pressed close to his chest, threatening execution, denouncing, cursing, yet all the while giving evidence of terror, almost pleading with his victim to believe his story! It was the armed man who was frightened, who dreaded the act he declared he was about to commit. And, as Saxon stood listening, it dawned upon him, in the despair of the moment, that it was a matter of small concern to himself whether or not the other fired. The story he had heard had already done the injury. The bullet would be less cruel. . . .

Rodman went on:

"I beat every effort in saving you, but Williams had confessed. He was frightened. It was his first experience. He didn't know of my connection with the thing. So help me, that is the true version."

The story sickened Saxon, coming to him as it did in a form he could no longer disbelieve. He raised his hands despairingly. At last, he heard the voice again.

(To be Continued.)

Stones Take Place of Copper Clock Weights

The shortage of copper throughout the German Empire is marked to such a degree, that not only have the copper cooking utensils (the pride of the thrifty German housefrau), been converted into food for rifle and gun, but even the ancient clocks with heavy pendulums of roper have been made to add to the war contributions. The picture shows some quaint old clocks in the Black Forest. The copper weights of the pendulums have been removed and stones have been substituted for them.

Pedigreed Seed and Plants Best

Pedigreed stock has long been recognized as the most valuable, and much stress has been laid on breeding stock from parents of known qualities. Strict breeding of seeds and plants will produce like results, if the work is consistently followed. In every orchard, small fruit plantation and vegetable or flower crop there are many plants that produce but little, while there are others that are heavy yielders. The percentage of non-producers is far greater than the unobservant person realizes. Still such plants are there only too conspicuously if one takes the trouble to observe them.

The time is rapidly coming when all nursery stock and seed stock will be propagated from known parentage. The plants and seeds will be as finely bred as the finest animals. There are a few nurserymen who realize this, and they are offering pedigreed plants and seeds, but the great majority of nurserymen and seedsmen are too busy making sales to bother with such matters. Those who purchase stock for Spring planting should not fail to locate these progressive dealers and place a portion of their orders with them, not alone to show confidence in well-bred stock, but to insure productive plantings.

To Cheap.

The Doctor—Madam, you must take more exercise. I should advise walking every day.

Mrs. Newlyriche—Walking? My dear doctor, you must be accustomed to attending poor people.

As a rule the man who only half tries fails absolutely.

How extremes meet—"What I mean by an upright man," he said, "is a downright honest man."

Salesman:—Now is your time. I have a motor that will climb the biggest hill on earth." Customer:—"That is no wonder—the last I bought from you tried to climb a tree."

Rich Yet Delicate—
Clean and Full of Aroma.

"SALADA"

is blended from selected hill-grown teas, famed for their fine flavour qualities. Imitated yet never equalled.

PRACTICAL FARMING

How to Protect Milk.

D. B. Ettera, of the dairy department of the Pennsylvania State College, in out-lining some of the essentials for the production of clean milk, emphasizes the necessity of feeding palatable and nutritious feeds which are free from mold or decay or any other defects which might injure the health of the cow or impair the quality of the milk.

roots and plants, such as rape, cabbage, turnips and other feeds with strong odors. These should be offered after milking, and the portions not eaten removed from the stable at least three hours before milking. Cows that are allowed to graze in fields several hours before milking time.

Many objections have been raised in the past to the feeding of silage, but these complaints are diminishing each year. Silage does not impart unpalatable flavor to milk as many have contended. The presence of such in the milk may be due to poor grade of silage, improper feeding or the absorption of the odor from the stable air. A reasonable amount of a good quality of silage should be removed before the next milking so that the stable air will not impart the odor to the milk.

The cow should have access to a clean supply of salt, and as much fresh, pure water as she will drink should be provided. Under ordinary conditions a cow will drink three times as much water as she gives milk, i. e. If she gives 30 pounds of milk, she will require 90 pounds of water per day. Water is essential, not only for milk production, but also for food digestion. In cold weather the chill should be removed from water offered to the cows.

The "Starter" in Butter-making.

In spite of dairymen's conventions and free literature on the subject of butter-making(the term "starter" or even the "ripening" of cream is entirely new to many makers of dairy butter.

To understand exactly what a starter is it is necessary to know something of the action of bacteria in milk, the production of flavors, and the formation of lactic acid. It is the lactic acid bacteria that causes sweet, fresh cream to assume a sour, acid taste, which is commonly associated with ripened cream. Butter churned from this ripened cream is preferred by the majority of people to that which is churned from sweet cream.

The flavor of butter depends almost entirely on the presence of the right kind of fermentation or bacteria in the cream; therefore, the scientists have developed a "starter" composed of a growth of the right kind of acid-producing bacteria, with which to ripen cream. If such a starter is used instead of allowing the cream to ripen naturally, there is a reasonable certainty of a desirable flavor in the butter.

A pure culture starter can be obtained from a dairy supply house or institution. The most important point is to make sure that it is really pure culture, of lactic-acid producing bacteria, and no other.

A good milk starter when ready for use should be softly coagulated, not too firm, and when stirred should appear smooth and even; not shiny, curdy or watery.

In ordinary farm butter-making the cream is separated from the milk as soon as possible after milking. It is then cooled to 60 degrees and a pure culture starter added at the rate of 5 to 12 per cent.

The best flavored butter is that produced when a small proportion of starter is used and when the cream is allowed to ripen as slowly as it would under natural conditions.

The use of a starter produces uniformity in flavor of butter produced from one churning and another, the general standard of quality of the butter is higher and its keeping qualities are improved, while the trouble often experienced in bringing cream to a state fit for churning is largely overcome.

Nothing for An Answer.

Teacher—Wait a moment, Tommy. What do you understand by the word deficit?

Tommy—It's what you've got when you haven't got as much as if you just hadn't nothin'.

Sense of Companionship.

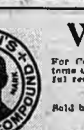
"He is never alone who is accompanied by noble thoughts."

"Or by a bank book calling for a substantial amount."

Vaseline
Trade Mark
Camphorated Cream

For chapped hands and lips and all irritations of the skin.

All the virtues of "Vaseline" Camphor Ice, in the form of a cream.



For sale at chemists and general stores everywhere, in glass, handy tin tubes. Various Substitutions.

Sloan's Liniment

Read this unsolicited grateful testimony—

Not long ago my left knee became lame and sore. It pained me many restless nights. So serious did it become that I was forced to consider giving up my work when I chanced to think of Sloan's Liniment. Let me say—less than one bottle used me up. Chas. C. Campbell, Florence, Tex.

SLOAN'S LINIMENT
KILLS PAIN

The Housewife's Corner

What Complicates Cooking?

It may be pleasant to sit down to a dinner of boiled soup, fried chicken, baked potatoes and steamed apple betty. But from the point of view of the woman who does her own work, this sort of a meal involves too complicated cooking. The meal in which several different processes, as boiling, frying, baking and steaming are all involved is the meal that is most difficult to cook and serve.

We do not quarrel with such meals served in hotels or in the home if there is sufficient service. But for the woman who does her own housework the meal involving different cooking processes is wasteful of time and decidedly wasteful of fuel and utensils. It is not possible to serve as easily a meal with boiled, baked, steamed and fried foods as it is the one-fuel meal in which all the foods are virtually cooked by the same method.

We wonder why our grandmother, with 16 children, could accomplish all the marvels that she did. Perhaps one little secret may be that when she baked she baked, and when she boiled she boiled, and that she did not attempt so many kinds of cooking at once. For instance, there is the time honored "boiled dinner" in which the meat, potatoes, vegetables and even soup were all cooked together. There was also the baked dinner, in which perhaps baked beans, baked potatoes and a baked pudding were served.

Now, although we may prefer different kinds of cooking at the same meal, we will not follow this plan if we are willing to conserve our time and energy. We will frequently, at least, follow the one-fuel meal and carry on only one kind of process at a time. For instance, there are many dinners in which everything can be a baked food. Such a one is a roast, baked potatoes, a boiled vegetable cooked, however, in its pot in the oven, and a baked pudding. It is just as easy to boil vegetables in an oven as it is to boil them on top of the stove.

Again, there is the steamer dinner, in which everything—meat, potatoes, vegetables and dessert—can all be put into a steam cooker over one hole and be ready at the same time. There is also the boiled dinner, which is preferably cooked in one large kettle, and good corned beef, good pot roast and other meats are delicious cooked with the vegetables, potatoes, etc.

If we are frying, it is best to make the meal almost wholly a fried meal, as a fried steak, accompanied with fried potatoes, fried peppers or tomatoes, or other vegetables which can be cooked on the top of the stove at the same time. The Mexicans and the Spanish know how to fry, but you will note that they fry vegetables along with the meat, and do not, like ourselves, have a fried meat, a boiled vegetable and a baked dessert, perhaps.

One of the most difficult points for the young housekeeper is to co-ordinate her cooking and to serve the different portions of the meal completely done at the same time. The reason this is usually hard is because she has to estimate the different time for different cooking methods. If on the other hand, she follows the same method at the same meal, she could accomplish her work with less effort. We do not mean that this should be done every day, but that co-ordinated cooking is easier and should be used to relieve the complicated cooking we generally follow.

Tested Recipes.

Cream of Celery Soup.—Put two cups chopped celery into saucepan with one quart cold water and cook until tender. In another saucepan have cooking two slices onion, blade of mace and two cups of milk. In twenty minutes strain into celery saucepan. Melt four tablespoons butter, add two tablespoons flour, seasoning with salt, celery salt and red pepper. Add celery and milk mixtures; cook five minutes and serve.

Grape Bavarian Cream.—One pint grape juice, one and one half teaspoons granulated gelatin, one-half cup boiling water, one cup sugar, one and one-half cups heavy cream. Partly cover gelatin with cold water, and when it has soaked five minutes dissolve in boiling water. Add sugar, and when melted, grape-juice. Stir mixture occasionally when cooling, and when it has barely begun to thicken fold in cream, whipped stiff. Pour into mold and let stand a few hours till cold.

Sausage, Country Style.—Separate string of fresh pork sausages, prick each sausage with fork, put all in shallow pan with boiling water to cover, and cook slowly for fifteen minutes. Drain and let sausages fry a minute to brown a little. Have ready flat baking dish filled with creamy mashed potatoes. Arrange sausages in row, side by side, on top of potatoes and bake in hot oven until sausages are well browned. Serve in same dish, garnished with parsley.

Spiced Pork Roast.—Four pounds fresh pork loin, one table spoon mixed pickling spices, one onion, eight sweet peppers, [illegible] salt and pepper. Sprinkle [illegible] with salt and pepper and [illegible] flour. Place in roasting pan and when flour has browned add pint of hot water and spices tied in cheesecloth. Slice onion over meat and bake three hours, basting freely with liquid in pan. More water may be added, if necessary. Split potatoes and put in pan with meat, half an hour before serving time. Make gravy from liquid in pan.

Fruit Tapioca.—One and one-half cups water, one-quarter cup prepared tapioca, pinch of salt, sugar to taste, fruit as needed. Sliced apples, canned or fresh peaches or pineapple can be used for this dessert. Place liberal layer of fruit in bottom of small pudding dish, sugar to taste, and if apples are used add a little cinnamon. Put water and salt in double boiler. When hot stir in tapioca and cook until clear. Pour this over fruit and bake until fruit is done. This can be told by trying with straw. Serve with whipped cream or thin custard sauce.

Household Hints.

When stewing apples add a few chopped dates; the improvement will be surprising.

Mustard mixed with warm water and a pinch of salt keeps its color for many days.

A cloth dipped into ammonia will often remove stains from the collar of a cloth coat.

Boot polish which has become dry can be successfully softened with a few drops of turpentine.

To keep lemons in a fresh condition place them on paper on a shelf with a tumbler turned over each one.

To keep your linen a good color drop a few pieces of camphor gum into the drawer in which it is kept.

Honey is very nutritious, and should be on the bill of fare of every person who wants to gain flesh.

Glassware should always be washed in a wooden bowl, and there will be far less chance of it's getting broken. Prunes cooked in the oven after soaking over night, seasoned and sweetened to taste, are much richer than if merely stewed.

Stick a pin through the cork of bottles containing poisons. This will prevent tragic mistakes when seeking medicines in the dark.

FERRETS ARE BOOMING.

The War is Helping Many Half-forgotten Village Industries.

One curious result of the war has been to revive some of the ancient, half-forgotten English village industries.

Flint-knapping, for instance, which has been carried on at Brandon, in Suffolk, for many generations, and which almost received its death-blow—but not quite—when the old flint-lock musket was superseded by the percussion-cap rifle, has recently been given a tremendous fillip owing to the demand for flints for tinder-boxes by the men at the front.

Charcoal-burning, again, which was a flourishing industry in the Sussex weald hundreds of years ago before coal was thought of, may now be seen in full swing there once again, the War Office having recently ordered large supplies for use in the trenches. Charcoal makes an ideal fuel for this purpose, being smokeless, and giving out an intense heat.

The charcoal-burner pursues his calling in the open air, and he works on an accepted formula handed down from earliest times through many generations. Green oak logs only must be used, and these are all cut to the same size, and stacked together in such a way as to form a low, conical-shaped heap.

This is then covered with freshly-cut turf, and set fire to; but it needs constant watching and attention, for if combustion proceeds too quickly the smouldering pile may burst into flame, when the resultant product will be, of course, not charcoal, but ashes. Ordinarily if proper care be exercised, the calcining process is complete in about twelve hours; after which the stack is left to cool for a few days before being opened.

The breeding of ferrets has been a village industry in England almost from time immemorial, but the demand for the little creatures had greatly fallen off during recent years. Now, however, owing to the insistent call for ferrets to kill the rats which swarm in the trenches in France and Flanders, the demand has jumped suddenly to far in excess of the supply, and prices have soared accordingly.

For a sadly sufficient reason, and one that will be at once apparent to everybody, the fashion for jet ornaments has been recently revived, more especially in the English border counties, with the result that a one-time flourishing Yorkshire village industry has been given a new lease of life. Amongst the Irish peasantry similar "mourning jewelry" is made from bog oak, the best varieties of which are nearly as black and lustrous and nearly as hard, as the best Whitby jet. This, too, is now being turned out in increasing quantities in hundreds of lonely cabins in those districts of Ireland where raw material is found.

Father Bull: "We'll have to stop every financial leak if we want to win this war."
Jack Canuck: "Leave it to me. I'll put another million acres under wheat."
Father Bull: "That is mere patchwork, my boy. Why not stop your forests from burning down? These acres of splendid timber at your door represent the easiest money you can ever lay your hands on."
Newspaper Note:—"The Canadian Forestry Association makes the statement that if Canada would take the simple measures to stop the plague of forest fires, the timber saved would pay the annual interest on the last Dominion loan of $100,000,000."

THE SUNDAY SCHOOL

INTERNATIONAL LESSON, MARCH 19.

Lesson XII.—Philip and the Ethiopian, Acts 8. 26-40. Golden Text: Acts 8. 30.

Verse 26. An angel—The manner of the divine monition is not explained. If we know the plain prose of the event we might say it was only some strange coincidence. Luke is mainly concerned with its being taken as the Lord's doing. Philip—One of the seven, as Acts 21. 8 makes fairly certain, and not the apostle. Desert, and therefore so absurd a place for an evangelist to travel in that the monition or impulse can only be divine.

27. A eunuch, and as such excluded from the congregation of Israel by the law. He could hardly have been a proselyte, but the Septuagint was open to him—the papyri of upper Egypt shows us how Greek was spoken in those distant regions—and in its pages he would come as near as he could to the true God.

28. Reading—Aloud, as the word usually implies. Since Greek MSS. were written without division of words or punctuation, reading aloud was the easiest way of taking in the meaning, and it became a habit. The prophet Isaiah—The book that bore his name. Chapter 53 lies, in fact, within the great section that was written a century and a half after Israel's time.

30. Understandest—The verb is that of which readest is a compound, but it is hardly possible to reproduce in English the play upon words. (Such plays were very common in Greek, and had none of the light associations our plays upon words carry.)

31. How can I—The history of the interpretation of Isa. 53 is a commentary on the question.

32. The quotation is from a very imperfect translation, so that we must study the Revised Version of the original, or some modern commentary to realize what the prophet meant. Of course detailed mistranslations do not affect the general sense. The "servant of Jehovah" in this great prophecy was Israel to begin with. Compare the scathing denunciation of his infirmity in Isa. 42. 1812. But as the prophet contemplates the work for which God has called Israel, he idealizes more and more, till at last his conception rises utterly beyond the reach of a nation, or the best men in it, or even such a prophet as Jeremiah. In chapter 53 we can only say that "he saw his glory, and he spake of him."

33. His judgment—In the Hebrew oppression and judgment—that is, an unjust trial. The Greek translator thinks of the absence of forms of justice. His generation—The Hebrew has as for his generation, who (among them) considered?

34. Answered—An idiom Luke has taken over from biblical languages, where the verb need not imply answering spoken words.

35. Opened his mouth—Another biblical phrase, appropriate to solemn and weighty utterance. This scripture was naturally the favorite Old Testament text for apostolic sermons. But it was a great advantage that on this occasion the preacher's text was chosen for him.

36. A certain water—The gospel preaching regularly began with the baptism of John (Acts1. 22), as our oldest gospel still shows (Mark 1. 4). This preparatory doctrine of cleansing, vividly presented in acted parable by baptism, was preached by the apostles as the necessary precursor of spiritual baptism, with "Holy spirit and fire." The eunuch has accordingly learned that he must break with his past and make open confession of his new Master. An interesting and ancient interpolation (verse 37) gives us Philip's reply and the eunuch's brief, but sufficient creed, "Jesus Christ is Lord."

39. The manner of Philip's disappearance is not explained any more than the outward form of God's message to him. The main thought seems to be that Philip's work is done and the preacher—like every true preacher—is thankful to efface himself and leave the happy soul alone with its newyfound joy.

40. Azotus—The Philistine city of Ashdod, where evangelist finds new work to do. In Caesarea he seems to have settled (Acts 21, 8), and found a sphere of service where there was enough to do for many years. His four daughters were also preachers; they fortunately lived in a place where the public ministry of women raised no scandal such as forced Paul to discountenance it in many churches.

IRELAND IS PROSPEROUS.

Never so Much Money There as at Present.

There never was so much money in Ireland as there is at present. The general prosperity of the country was the theme of the speeches of the chairman of all the leading banks which have just held their semi-annual meetings. The banks all maintained their dividends and all showed increased profits.

Roughly, it may be said that though £10,000,000 ($50,000,000) was subscribed in Ireland to war loans there is as much money in the banks as ever.

Several of the Irish banks have authority under an act of Parliament passed in 1845 to issue notes, and at the beginning of the war the crisis which had to be met in England by the issue of one pound treasury notes did not exist in Ireland, where the one pound note is an established feature of the currency. But as the act provides that money shall be held as cover against all notes issued in excess of the amounts scheduled in the act, and as there has been a great increase in the volume of business transacted in connection with the war and at the same time a contraction of the gold supply, the banks have issued notes greatly in excess of the figures provided in the act. To cover these they accordingly have had to lock up a great deal of idle money.

Reports from all parts of Ireland show the last harvest was very good and indicate at least a repetition of it this year.

An ounce of prevention is worth a pound of cure, and wit will also save a peck of trouble.

It takes a young man four times as long to button his best girl's gloves as it does his sister's.

DWELLERS IN THE DARK

BY DORCAS DOOLITTLE.

A class of our population, almost ignored, are the 4,000 lonely blind men and women of Canada. Because of their unobtrusiveness they are neglected more than any other class of our poor, and nearly all of them are poor. Even those whose families may not be in poverty, are poor, as it is so difficult for them to become self-supporting.

Between 80 and 90 per cent. of the blind of every civilized country are adults, some of them from childhood, others as the result of their occupation or from other causes. Canada has made no preparation to care for these people or to teach them to care for themselves, by any of the newer systems of training being tried in other countries. Now that numbers of blind soldiers may return from the war the unpreparedness is assuming serious proportions. In France the blind have organized the Valentine Hoye Association, named after Hoye, who, in 1784, introduced intelligent methods of work. They now have hundreds of blind soldiers who are taught the Braille system (the raised printing for the blind) and also a trade.

Great Britain has been preparing for a hundred years to properly care for the blind. They have the National Institute for the Blind, of which King George is the patron. Since the war St. Dunstan's Hostel has been established at an expenditure of thousands of pounds, all voluntary contributions, to care for the blind soldiers and sailors, of whom they some time ago had 148, among them several Canadians. This is now the centre of hope for the helpless. They are taught the Braille system of reading, stenography, gardening, mat and shoemaking and carpentry in Canada it used to be thought that the only trades the blind could learn were basket, broom and brush making, and a hundred years' experience have shown it impossible for him to thus support himself, because of the competition and the centralization of labor in these lines. But now under better methods the blind can undertake mental work and enjoy the proper pride of being self-supporting, at stenography, real estate, law or medicine. Mr. C. Arthus Pearson, the magazine writer, is blind. Dr. Babcock of Chicago, the best heart and lung specialist in the United States, a blind man, took the full course and graduated with a class of men who had their sight. He is the author of an excellent text book, accepted as an authority even in Canada. Many surgeons will not operate unless he has recommended it. Mr. Malloy, a blind graduate of Queen's College, is now a Professor of English. Sir Frederick Fraser, the blind principal of the School for the Blind in Halifax, is a strong opponent of the indiscriminate teaching of trades to the blind adult, and his former training and profession enable him to do good work in many lines impossible to one who has never had sight. This institution in Halifax is one of the finest in all Canada, and in all these there is almost no accommodation and no way of instructing blind soldiers. Ontario has a school in Brantford, but its system deals only with those of from seven to twenty-one years.

Montreal has the Mackay Institute for Deaf and Blind, the Nazareth Institute in charge of the Grey Nuns, and the Montreal Institute, which has a literary school and a broom-shop, where they now have in addition to their 16 inmates, 4 blind soldiers.

The Halifax school will take as many soldiers as possible, if it can be done without interfering with present arrangements and system.

The Government is working on the problem of how to prepare these men to be self-supporting, but if people had realized the great need and help had been given six years ago when it was urgently asked for by the Canadian Free Library for the Blind, there would not now be the heart breaking uncertainty that is harder for the returned soldiers than facing the German forces.

Ontario is the only Province that makes the education of the blind compulsory. A law was passed two years ago compelling parents to educate a child either at home or at a school.

The only public moneys given toward the education of the blind in Canada are Manitoba, $200; Alberta (through the kindly work of Mrs. McClung), several hundred; Ontario likewise gives a grant. All other funds are given by private subscriptions. In the West Toronto Free Library a whole floor has been set apart for the blind, with a splendid library, to which the Government gives a grant of $800, the best of its kind in America, and facilities for a class in Braille and in typewriting, are to be commenced.

Denmark, Russia, and France exhibit co-operation between state and private assistance for work for the blind. Denmark and France give free railway passes for the blind and their guides travelling on business within a certain radius of their place of residence. In New South Wales the blind are transferred free for vacations. The city of Manchester, England, gives them free passes on the tramways, renewing the passes each year. Before the war England had appointed a committee to investigate the whole question, but in England private benefactions will never be divorced from state aid, which is quite as it should be. It is very important that in Canada each province should pass legislation, placing workshops in towns or municipalities where necessary, these institutions to be supervised and managed with government assistance.

Mr. Swift, the general secretary of the Canadian Free Library for the Blind, Toronto, is an interesting and pleasing speaker, and is glad of any opportunity of giving information on this subject.—Canadian Countryman.

THE LEAGUE OF HONOR.

For the Women and Girls of the British Empire.

This league was formed in England in September, 1914, for the purpose of uniting all the women and girls of the Empire in upholding the honor of the nation and maintaining the strength of its men by prayer, purity and temperance.

Not to add to the many organizations it seeks to work through women's and girls' societies seeking to permeate, unite and strengthen them. Each on desiring to become a member signs the membership card bearing the words "I promise, by the help of God, to do all that is in my power to uphold the honor of our nation and its defenders in this time of war by prayer, purity and temperance." The membership card and badge are given on the receipt of ten cents, to any girl over twelve years who wishes to become a member. If any member does not already belong to some society of women working for the nation in this time of stress, she will be brought into contact with activities which can make use of her services.

The motto of the league is "Strength and Honor." "Not by might nor by power, but by my Spirit." The women of the nation are working hard preparing necessities and comforts for the men, but we must not in the demands of the physical overlook the spiritual side of our support of the men. Nor must we neglect to train and prepare ourselves to be ready to do practical work that may release some man for active service, if necessary, or to give the nation the benefit of trained hands and minds for philanthropic service. The Young Women's Christian Association, through its Dominion Council, 322 Bloor St. West, Toronto, is introducing this work.

HYSTERIA AMONG GERMANS.

Nervous Strain Causes "Nerves" and Insanity in the Army.

In the latest German newspapers and medical journals there are circumstantial statements about Germany's nervous strain in the war. Apparently the increase of hysteria and insanity has been far greater than most people imagine. A fine article in the Deutsche Medizinische Wochenschrift is by Dr. Meyer, a surgeon back from the front, and describes the nerve shattered effects of high explosives on the typical German recruit.

"We must allow," says this medical authority, "that the new offensive in the west and the poor quality of our recruits have brought with them an increase of hysteria." It appears from other communications that it has been necessary to have special wards in hospitals for the growing class of demented soldiers and nervous breakdowns. Evidently this subject presses more and more upon the public mind of Germany as the war wears on. Everywhere the press and the medical authorities, though carefully censored, go surprisingly far in laying bare the less theatrical side of war. The following passage from an article by Professor Gaupp is well worth quoting:

"There are plenty of men," writes the German expert, "men otherwise energetic and normal, whose nervous systems are not equal to the strain and hardship of modern warfare. The temper of their souls is not proof against the danger, cruelty and terror." The processor has coined a word, "granatkontusionen," to describe the effect of an exploding shell. Without causing a single external wound it produces a shock, a concussion of the brain and spine, which often leaves men unconscious for hours and even days. When they are awakened they are often deaf and dumb and demented, or they are delirious and rave over their experiences. This is the "schreghstyste" or war hysteria.

How Deptford Finances War.

Deptford, a southern suburb of London, has grown fired of flag-days, bazaars, and other methods of collecting for the numerous war-time charities. So it has passed an ordinance banning them all, replacing them with a scheme formulated by the Mayor. Under his scheme two cents a week from each family in the borough, these rentings a fund from which the Mayor will pay out specified weekly grants to the various war funds.

TENTH CON BRUCE

Remember the Red Cross box social in McGillivray's school, 12th Bruce on St Patrick's night. Last and best of the season.

Last week looked like a real old time Canadian winter.

Mr Neil McDonald, jr. has returned home after spending the winter with his uncle, Mr W McLean, Elora road south.

The citizens of the 10th of Bruce are making a presentation to the brave boys who have volunteered to keep the old flag floating.

Mr T S White spent the week end with friends in Huron.

Mr W H Brown left on Monday for a short visit to friends in Ashfield Tp.

The 10th of Bruce Baptist church will hold anniversary services on Sunday, March 19th. Rev Mr Neilson, of Paisley, will conduct the services at 11 a m and 7 p m, and on Monday, the 20th.

PINKERTON

Preparatory services were conducted in the Presbyterian church here on Saturday by Rev Mr Reith of Glamis. Seven new members were added to the roll. The sacrament of the Lord's Supper was dispensed on Sunday afternoon.

Mr Walter Birrell, who has been attending University at Toronto, recently enlisted in the engineers' corps. We wish him success.

Messrs Geo Chick and Neil Thompson visited in Walkerton last week.

Messrs Thos Birrell and J W Moffatt attended the monster prohibition parade at Toronto last week.

Children Cry
FOR FLETCHER'S
CASTORIA

WILLOW CREEK

Remember the Red Cross box social in McGillivray's school, 12th Bruce, on St Patrick's night. Last and best of the season.

Mr and Mrs Ezra Thede left for their home in the west on Saturday, also Mr and Mrs Wm Wrightson on Monday.

Mr and Mrs Joe Hyde, jr, are taking a trip out west. They left on Monday to meet their uncle in Toronto, who will accompany them to some part of that country.

Miss Rosetta Giesz is in Port Elgin for a few days.

CARGILL

Ezra Dietrich left on Saturday for Hamilton, where he will work in a foundry.

Harold Loughleed, of the Royal Bank, Drayton, spent over Sunday at his home here.

Mrs A Thompson spent Sunday with her husband, Pte Thompson, in Galt.

The funeral of the late Miss Annie Bowes took place from the residence of her sister, Mrs S Hettrick, on Friday afternoon, to Douglas Hill cemetery. The late Miss Bowes was, prior to her illness, teaching in a school near Clifford. She was well known here, having usually spent her holidays in Cargill. We extend sympathy to the bereaved friends.

Mesdames Matthews and Kyle, and Mr Horace Parker were in Toronto last week

Miss B Campbell, who has been at the parsonage for a month or so, left for her home in Petrolia on Saturday.

R A Fowlie made a business trip to Toronto last week.

Ray Sparling, of the G T R, Goderich, spent over Sunday at his home here.

Jack Balsdon returned home to Pickering on Saturday, after spending a couple of weeks visiting his brother here.

Mrs T P Hood was in Paisley on Monday.

ELORA ROAD NORTH

Remember the Red Cross box social in McGillivray's school, 12th Bruce, on St Patrick's night. Last and best of the season.

Mr Arthur Thomas left for the west last week.

Mr John and Miss Mary Richardson spent Sunday at Mr D Bryce's.

Mr Watson McKinnon and family are settled in their new home on the Elora road. Mr and Mrs McKinnon are no strangers, being well and favorably known to their neighbors.

Mr and Mrs And Rowand visited friends in Paisley on Sunday.

Mr John McNeill has returned from a trip to Toronto.

Mr Arthur Walker has been engaged in fixing his stable.

Councillor Clarence Fraser has an auto in readiness for the season of 1916.

Mr Jas Bryce was in Toronto for a few days last week.

Monday evening last was the occasion of a memorable social event at the home of Mr and Mrs Neil McArthur, the chief feature of which was a presentation made to their soldier son, who was home from Owen Sound on a week-end visit. About 80 people assembled to take part in the send-off to this stalwart empire defender. The following address was read by Mr D D Campbell, and the presentation was made by Miss Daisy Ewing. The purse contained $19:

To Pte John McArthur, 147th Batt, C E F:

We, your friends and neighbors, are gathered here to-night with mingled feelings of joy and sadness, as we learned recently that you have responded to the call of King and Country by offering your services to defend our homes. We are proud of you, because of the sacrifice you are willing to make, in giving up the pleasures and comforts of this country to take up the trials of military life. We therefore ask you to accept this purse and fountain pen as slight token of our appreciation of you as a man of this community. When you are absent from here, if it should be that you are called to active service in Europe, we have every confidence in you that you will defend the old flag, and we trust that you may be spared to return to your home. You may be assured that the kind thoughts and prayers of the community will follow you. We anticipate your return to our midst bearing all the highest marks of honor and distinction. Signed on behalf of your friends and neighbors,

Roger Darroch,
Isaac Beech,
Lawrence Winch,
Mac MacMillan.

GLAMIS

Mrs Finlayson and son Clarence spent Sunday at Port Elgin.

Miss Margaret Campbell, who has been home from Harriston for some weeks on account of illness, is well again, and is returning this week.

Miss Kirkton, who has been attending her invalid mother down in Holland for some months, is home again.

Mr Baker, of Ann Arbor, who assisted Mr De Mille in special meetings for two weeks, left last Wednesday.

Another of our young men has enlisted with the 166th Batt. in the person of Torrance McLennan.

Miss Lizzie Ferris, who has been visiting her home, is returning to Toronto this week.

Miss Alexia Fraser is spending a few days at her home here before leaving for the West.

Mr Graham has been quite poorly, but we hope to see him around again before long.

Mr McCauley has returned from Tara, where he was visiting his parents.

Mrs Farquhar Beaton and family have returned to Toronto after spending some time with friends and relatives here.

WALKERTON

Capt Arthur W McNally, who has been adjutant of the 160th Bruce Battalion, has been promoted to the rank of Junior Major in the force, Mr Thos Hay, of Paisley, who formerly held the position, having resigned from the job. Prior to the outbreak of the war Major McNally was captain of the Wiarton company of the 32nd Battalion, and left with the first contingent in command of a company of Vancouver soldiers for the front, where he was twice wounded by German shells. On returning to Canada on sick leave he was made adjutant of the 160th Bruce Battalion and later promoted to Major.

The first annual consignment sale of Shorthorn and Holstein cattle, staged in Walkerton on Thursday afternoon last by the Bruce County Pure Bred Stock Breeders' Association, drew a large crowd to town and proved a big initial success. Twenty-one animals were sold, the price averaging about $100 each. A two-year-old Shorthorn bull consigned by Henry Hanna, of Wingham, and the highest figure at the sale, Vale & Bowes, cattle dealers of Calgary, buying this animal in at $340. All told about $2000 changed hands under the hammer of Auctioneer Purvis, who conducted the selling end of the sale. This is to be an annual occurrence here and is expected will have the effect of stimulating the breeding of a more superior class of animals. President Thos Jasper and Secretary N C McKay were the prime movers in organizing the association and are deserving of much credit for the success that has attended their efforts.

Having been notified over the phone by a Paisley cob to be on the watchout for an accused man who was thought to have headed towards Walkerton, Chief Ferguson, the local sleuth, quietly enlisted and secretly gave thanks when he beheld his quarry walking a few days later boldly down the streets here. Going up he laid a heavy hand on the stranger and dragged him with great glee to the lock-up. It was not until he had him safely ensconced behind the bars and was out notifying the world of the capture that the chief learned that the Paisley police had already bagged their man, and that he had been taken to the Walkerton jail and been acquitted by the Judge, and that he was just out taking a stroll on the streets after the trial, when the big baton wielder from town, who hadn't been apprised of his previous capture, landed on the stranger and took him in. Although incensed at his second arrest, the victim thought on blighty of the Walkerton chief's dexterity that he wanted to take him to Paisley to trail and thrashed were soon he was in the jail after there.—Herald and Times.

ELDERSLIE COUNCIL

Elderslie, March 6th, 1916

Council met on above date, members all present except Mr Thomson. Minutes of last meeting read and adopted.

Lewis—Fraser—That the clerk advertise for men and two teams to work on grader, also man to operate same.

Cass—Allen—That Messrs Fraser and Lewis be a committee to arrange for men and teams to operate grader, with power to act.—Carried.

Fraser — Lewis — That the following parties be appointed pathmasters, poundkeepers and fenceviewers, and that a by-law be passed confirming same.—Carried.

Fraser—Allen—That this Board do now adjourn to meet again on Monday, April 3rd, at 1 o'clock p m, for general business.—Carried.

R C Pearce, Clerk.

Some think we'll have it rather dull
When the soldiers leave the town,
But if you only stop to think,
It's the same the whole world around.

It's been the custom until to-day
To follow up the fashion;
If you ask anyone to do the same,
They fly into a passion.

The fashion for the boys to-day
Is khaki hue and neat;
And if you do not wear it now
They will scorn you on the street.

Now do not stop and hesitate,
But be a soldier true;
And fight for King and country,
Now who will come, will you?

Go to-day and stand the test.
Your chances might be shallow;
But you can say you did your best,
Don't let them call you yellow.

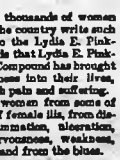
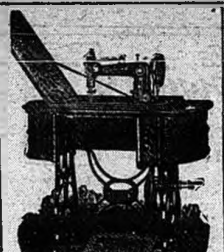
WHY WOMEN WRITE LETTERS

To Lydia E. Pinkham Medicine Co.



Women who are well often ask "Are the letters which the Lydia E. Pinkham Medicine Co. are continually publishing, genuine?" "Are they truthful?" "Why do women write such letters?"

In answer we say that never have we published a fictitious letter or name. Never, knowingly, have we published an untruthful letter, or one without the full and written consent of the woman who wrote it.



The reason that thousands of women from all parts of the country write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and suffering.

It has relieved women from some of the worst forms of female ills, from displacements, inflammation, ulceration, irregularities, nervousness, weakness, stomach troubles and from the blues.

It is impossible for any woman who is well and who has never suffered to realize how these poor, suffering women feel when restored to health; their keen desire to help other women who are suffering as they did.

LYDIA E. PINKHAM

The Farm of 75 acres, with good buildings will be offered for sale at same time, subject to reserve bid. Terms made known at time of sale.

R. C. PEARCE, Auctioneer

GERMAN ROYALTY
A MASS OF EGOTISTS

Head Hun and His Wife Lead the Way in Wonderful Boasting—Clown Prince's Designs Upon France

How supremely autocratic the Kaiser is is revealed in a book on German royalty which has been written by Baron Beyens, the Belgian Minister at Berlin for three years, up to the time of the outbreak of war.

"The new King of Bavaria," says the Baron, "who hides a fine and acute intelligence under a battered exterior; the King of Saxony, with the loud voice, the noisy laugh, and the soldierly figure; the King of Wurtemberg, most correct of gentleman; the amiable Grand Duke of Baden, and the other minor gods of the modern Germanic Walhalla are the very humble servants of the Kaiser.

"It is in vain for them to exchange with him, with a tone of equality, telegrams in which the affectionate use of the second person singular is a matter of etiquette. It is in vain for them to swell and puff themselves within the boundaries of their respective States, to address abundant speeches to their subjects, and to lend their presence on public occasions. For German policy they are nothing but the instruments of the wishes of the Master who lives at Berlin."

Kaiserin Scandal Tea

Baron Beyens also gives some interesting facts regarding the Kaiserin as mistress of her household. He says she has much to do. It is her business to still the little storms which arise at Court, to reconcile the Crown Prince and his father after every new escapade; and it fell to her to induce the Emperor to consent to the morganatic marriage of another of their sons, desperately in love with a maid of honour.

According to the Baron, however, it is quite a mistake to suppose the German Empress is a pacificist. "Are we always going to retreat before the French, and to put up with their impudence?" she remarked, after a certain incident in which French diplomacy triumphed over Teutonic intrigue.

The Actual Results
— OF THE —
DOMINION LIFE
are unexcelled.

A Typical Case

The holder of Policy No. 21 was assured on the Ordinary Life, reduction of premium plan. His premium was reduced by 15 per cent. in each of the years 6 to 10, by 25 per cent. in each of the years 11-15, by 40 per cent. in each of the years 16-20, and a reduction of 50 per cent. in the years 21-22. In the 22nd year we found that there was sufficient surplus to the credit of the policy to cancel all premiums. The insured was notified and at his request a paid-up policy, but STILL PARTICIPATING, was delivered to him.

District Manager — Listowel, Ont

Notice to Creditors

In the matter of the estate of George Sturgeon, late of the Township of Greenock, in the County of Bruce, Farmer, deceased.

NOTICE is hereby given pursuant to the Revised Statutes of Ontario, 1914, chapter 121, section 56, and amending acts, that all creditors and others having claims or demands against the estate of the above named George Sturgeon, deceased, who died on or about the 18th day of February, 1916, are required to deliver the last day of April, 1916, to send by post prepaid, or to deliver to the undersigned Solicitors for the executors of the said deceased their names and addresses with a full description of their claims and the nature of the securities (if any) held by them, duly verified by statutory declaration.

And further take notice that immediately after said last day of April, 1916, the said executors will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the claims of which they shall then have received notice, and the said executors shall not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by them.

Dated this 23rd day of February, 1916.

AUCTION SALE
— OF —
Farm and Chattels

There will be offered for sale by public auction on the north half of Lot 3, Con. 10, township of Greenock, by R. C. Pearce, Auctioneer, on

Friday, March 24th

the following chattels belonging to the Estate of the late George Sturgeon, namely:

1 mare rising 10 yrs old supposed to be in foal; 1 horse rising 10 yrs old, 2 cows supposed to be in calf, 1 barren cow, 1 heifer rising 2 yrs old, 2 steers rising 2 yrs old, 3 spring calves, 2 pigs 2 months old. 20 hens and numerous other articles.

At the same time and place there will also be offered for sale that valuable farm formerly known as the west half of lot 3, concession II, Greenock Township. The farm is one mile distant to the village of Pinkerton, and is about one and one-half miles from a school. The soil is of good clay loam and the farm contains 100 acres of good bush on the land. The buildings consist of a brick house of 1½ stories and 8 rooms with stone foundation underneath 45 ft x 26 ft, a pig pen and hen house. There is also a good well on the farm. There is about two acres sown to fall wheat which the vendor reserves and the rest of the farm is meant for harvest sown. There are 10 acres fall plowed and the remainder of the farm is seeded down. The farm will be offered for sale subject to a reserved bid fixed by the vendors.

Sale to commence at 2 o'clock sharp.

Terms of Sale of Chattels—All sums of $5 and under, cash; over that amount 8 months' credit will be given on furnishing approved joint notes, or a discount of 8 per cent per annum will be allowed for cash.

Terms of Sale of Land—10 per cent to be paid down on the property when sold, the balance of the purchase money must be paid at time of sale, unless other written agreement to purchase must be entered into, and the balance at the expiration of 5 days from date of sale without interest.

For further particulars or conditions of sale apply to

R C PEARCE, Auctioneer — ROBERTSON & McNAB, Vendor's Solicitors, Paisley, Ont.

Thorobred Bull for Service

THE undersigned has for service on his premises a thoroughbred Shorthorn bull, "Lord Abbot." Terms $15. AND MILLIE, Elora road north.

Shorthorn Bulls for Sale

TWO young Shorthorn bulls—one 11 months old and the other 21 months old, both red in color. Apply to JF BOWAND, R.R. No. 1, Port Elgin.

Notice

I WILL not have a bull for public service after April 1st this coming season.

Decrease in Population

—The population of British Columbia has been reduced nearly twenty-five per cent since the outbreak of the war, according to the Provincial Board of Health. The secretary of the Board places the decline at nearly one hundred thousand persons. Twenty-two thousand soldiers had gone to the front by the end of last year; the cessation of railway work caused an exodus of twenty thousand, and over fifty thousand left for other reasons. The births last year numbered nine hundred more than in the previous year.

ADVERTISING RATES

Subscription Price—$1 per annum in advance. If not so paid, To United States subscribers $1.50 per year in advance.

CARD OF THANKS

The undersigned desire to return their heartfelt thanks to all those friends who came to them in their hour of trouble, and contributed all that human kindness could suggest to befriend and comfort them. They specially appreciate the kind attentions of the Masonic brethren, the school board and the school pupils. When we reflect upon the many deeds of sympathy and love of the citizens of the town, it gives a silver lining to the dark cloud of death.

MR AND MRS DAVID BELL

Night Constable Wanted

APPLICATIONS addressed to me for the position of night constable for the Village of Paisley will be received up to March 31st.

J. C. GILMOUR, Town Clerk.

—Pte Wm. Bryce was home from Toronto over Sunday.

—Mrs. Buchanan, of Inkerman St., has been visiting in Southampton.

—Miss Beth McGillivray went to Toronto on Monday for a couple of weeks' visit.

—An old fashioned song service will be held in the Methodist church on Sunday evening next.

—Rev Mr Facey of Paisley Methodist church and Rev Mr Walker of Walkerton exchanged pulpits on Sunday last.

—Mrs. Mack McMillan and daughter, Phyllis, returned home after an extended visit to her mother, Mrs. John Fortune, Venta.

—Mr. George reports the transfer of 50 acres of farm land in "Petticoat Lane," Saugeen, which Mr. Wm. Beech purchased from Mr. Jacob Miller, of Arran.

—Mrs J P Gilbert and daughter left on Monday for their home in Castor, Alta, after spending the winter visiting at the home of her mother, Mrs D McGillivray, 12th Bruce.

—The ladies who have been making military shirts for the Patriotic League are asked to bring them to the Secretary, Mrs. D. McArthur, at the bookstore, on or before the end of the month.

—The Red Cross workers of No. 15, Bruce, made their second shipment on March 13th, as follows: 34 pairs socks, 13 flannel shirts, 21 surgical shirts, besides a quantity of old linen and mouth wipes.

Patriotic Sale of Pig

Mr Harry Rudolph, Elora Road north, donated a 7-weeks-old pure Yorkshire pig to the Paisley Recruiting League. The League is disposing of the pig by a patriotic sale, and tickets are issued for a draw to take place on April 1st, and whoever holds the fortunate number will win the pig. Tickets, 25c each.

Tea Room Next Saturday

The ladies of the 10th and 12th cons. of Elderslie will be glad to meet all patrons of the Red Cross Tea Room in Paisley on Saturday, March 25th. The bill of fare for lunch will include potato salad and cold ham. Choice, home-made baking, dairy produce, fresh eggs and vegetables for sale at moderate prices. Come in and make your selection early in the afternoon, and stay for lunch.

New Continuation Teacher

The Continuation classes resumed work on Monday, under the instruction of Mr Rendall, the late Mr Bell's colleague on the staff, and Miss Sinclair of Walkerton, a lady well qualified for the work. Miss Sinclair is not altogether a stranger to Paisley people, being a daughter of the late Donald Sinclair, Co Registrar, who was a prominent business man in Paisley prior to his removal to the county town.

Ministers in the 160th

At least two ministers of Bruce county have enlisted as private soldiers in the 160th—Rev. Mr. Barker of the Baptist church, Port Elgin and Rev. Mr. Foulter of the Methodist church, Tiverton. There are numerous others who are willing to accept the post of chaplain, but it appears reasonable that when that officer is chosen, one of those who have volunteered to go in the ranks should be selected.

Paisley Entrance Pupil Wins Honors

Double congratulations are due Reta Cormack, of the Entrance class of our Public School. She has won the first prize in the January competition in Art, given for a design for a table runner to be embroidered in silk. Added to this is the honor of having won the medal given by the League of Empire for their annual December competition of essays written by pupils between 12 and 14 years of age. Such pupils are a credit to the school.

Cities and Towns Asked to Help the Farmers

Hon. James Duff, Minister of Agriculture, has issued a circular, inviting the co-operation of mayors and reeves of the cities, towns and villages of the province in order to meet the deficiency in regard to farm labor with which the province is faced. He says in part: "There are residing in practically every city, town and village in the province a number of men who are not fully employed, including many who still enjoy health and vigor which would enable them to render excellent service at the present time. I have thought that you could render valuable assistance by bringing to the attention of such of these as may be residents in your municipality the urgent need which there will be during the coming season for their aid and experience. The local branches of this department, one of which is possibly in your county, if not in your town, will be glad to act as an intermediary, taking the names of those who will volunteer for service and also of farmers who desire help of this nature."

Cash or Trade for Farm Produce

H. B. PUTNAM & SON

Death of Lady Teacher

The death of Miss Annie Bowes, teacher at P.S.S. No. 11, Carrick, took place on Wednesday afternoon of last week at the home of Mr. Conrad Schmidt. Deceased, who was 51 years of age, took sick with pneumonia about three weeks ago, as a result of a heavy cold, and the best medical aid was unable to check the progress of the disease. Miss Bowes was a very fine person, and was very highly respected in the section where she taught.—Mildmay Gazette.

Farmer and Cattleman Enlists

Mr. Duncan Bell, a well known cattle dealer and farmer of Saugeen township, came to Walkerton last week and enlisted as a private in the 160th Battalion. Mr. Bell, who is tall and straight as a sapling, handed over his farm to his sister, who has been living with him on the place and who will run it while her brother goes forth to fight for the empire. Bell's example in donning the khaki will, it is expected, be a strong incentive to others in Saugeen to join the colors, and renewed recruiting activity in that neighborhood is looked for.—Herald and Times.

BORN

MacNEILL—At 88 Albany Ave., Toronto, on March 19th, to Rev. and Mrs. John MacNeill, a son.

DIED

McALLISTER—In Elderslie, on March 19th, Sarah Stone, belov'd wife of Malcolm McAllister, aged 69 years.

ORDER YOUR SPRING SUIT TO-DAY

While a blizzard is blowing and the thermometer is making low bumps, customers may not think the time opportune to order a Spring Suit. But, it is. Weather changes quickly these days. Moreover, there is a decided advantage in getting your order in early.

About the House

Useful Hints and General Information for the Busy Housewife

Dainty Dishes.

Pepper and Celery Salad—Three cups chopped celery, one cup broken walnut meats, pepper cups for individual service and mayonnaise sufficient to make celery and walnut mixture of right salad consistency. Fill pepper cups and set on ice. Garnish with nut meats and celery.

Apple cream is a tasty dessert. Peel and core tart apples; slice and weigh them and to three pounds take one cupful of sugar; put in a granite kettle with the grated rind and the juice of one lemon, two cloves and one in ch of stick cinnamon, simmer slowly until the apples are very tender, then rub through a colander. Scald one pint of fresh cream, mix with it the apple pulp and serve cold.

Planked Steak, Potatoes.—Heat plank through before placing meat on it. Brush meat over with olive oil, dust with pepper and salt and lay plank in broiling oven for fifteen or twenty minutes. When steak is nearly done, take plank from oven and garnish by pressing mashed potatoes through pastry tube in little nests around steak. Fill nests with buttered peas.

Onion Soup With Cheese.—Four medium sized onions, three tablespoons butter, one quart stock, American cheese, toast. Slice onions thin and cook them gently in butter until perfectly tender, but not browned. Add to stock and let simmer five minutes. Cut slices of cheese one-fourth inch thin and lay on toast. Set in oven until cheese melts, put slice of toast in each soup plate and pour soup over it.

Prune Souffle.—Wash one pound prunes thoroughly in several waters and soak over night in warm water to cover. Place over fire in morning with one-half cup sugar and simmer slowly until they are soft and tender. Stone and pass through sieve. Crack pits, chop kernels fine and add to prune pulp. Beat whites of three eggs very stiff and fold in. Place in baking dish and bake about twenty minutes, until puffed up and whites of eggs set. Have oven at moderate heat.

Jellied Chicken Salad makes a fine luncheon dish. Cut up into small cubes sufficient cold cooked chicken to make a quart. Season well with salt and pepper, add two cupfuls of celery cut fine, and moisten thoroughly with plain gelatine dissolved in a little hot chicken stock. Pour into pans the depth of about half an inch and set in a cool place until firm. At serving time, cut the jellied chicken in strips, arrange on a bed of lettuce.

To make walnut salad break the shells of some walnuts, remove the kernels carefully, blanch them to remove the skins, place them on a dish, squeeze over them the juice of one or two lemons, sprinkle with salt and pepper, and let them macerate for three hours, turning them about occasionally. At the end of that time they will be ready for serving, and will make a very nice dish arranged on a lettuce leaf. If the juice of some unripe grapes can be obtained, it will be preferable to the lemon juice.

To make codfish-balls shred one cup of raw codfish and press into the cup, put two and one-fourth cups of potato cubes in a saucepan, add the fish and cover with boiling water. Cook until the potatoes are tender, but not murhy. Drain in a colander, mash thoroughly. Add one-eighth of a teaspoonful of salt, a quarter teaspoonful of pepper, one tablespoonful of vegetable oil, beat with a fork until light and fluffy, add one egg well beaten and beat again. Shape into balls, brush over with beaten egg, toss in fine breadcrumbs and fry in smoking hot oil. Drain on white paper and serve hot, decorated with sprigs of parsley.

Jellied Apples.—Pare and halve tart apples, then core, making good sized cavity in each half. Put two cups sugar on to boil with two cups water and in about ten minutes add apples, letting them cook slowly until tender and transparent. Take out apples, drain and arrange in dish, filling cavities with orange or strawberry marmalade mixed with chopped nuts. Add enough water to syrup in which apples were cooked to make one pint, flavor with lemon extract and stir into liquid one tablespoon gelatin or jelly powder dissolved in a little cold water. If pink gelatin is not used, color pink with fruit coloring, and pour over apples in dish. When cold and firm, turn out and serve with custard sauce.

Household Hints.

Corn and milk-fed chickens are tenderest.

Cakes without butter require a quick oven.

No tea table is complete without a cream dish.

Pungent boiled linen into boiling water will set the stains.

It pays better to buy regular scrub brushes than to use up old rags.

Heavy warm bedroom slippers are cheap now they can be lined with shaker flannel.

When you have to keep the pint measure for melting chocolate, then it is wanted.

The vinegar in which pickles have been preserved can be used over and over again for the purpose.

When a man's winter suit is put away for the summer, great care should be taken that there are no matches in the pockets.

Black tights made from mother's old stockings, are good for the baby to wear when he creeps a great deal and washing must be saved.

If the rollers of the wringer become yellow and stained, clean them by rubbing the rollers with a cloth saturated with paraffin.

Paint brushes that are hard and dry will soften if put into vinegar and allowed to simmer for ten minutes. Then wash them in soapsuds.

When washing black silk stockings add a teaspoonful of vinegar to the rinsing water. This will keep them a good color.

It is said that if onions are parboiled for 10 minutes with a level teaspoonful of ginger in the water, they will cause no odor on the breath and no indigestion will follow.

To stew meat properly, be sure that the water is boiling when it is poured over the meat, stand it where it will simmer and add salt when the meat is half done.

Hard-boiled eggs will shell more easily if they are plunged into cold water when they are taken from the fire; allow them to stand in the water until they are thoroughly cold.

It is better to soak ham for several hours in cold water to cover, then put in a kettle covered with cold water brought to boiling point and cooked slowly until tender.

In the hot season the occasional cool day should be seized to do a lot of baking—such as a batch of cookies, or piecrust shapes that can be filled as the need arises.

When the spring of a window shade is run down, it is a good idea to wind it up with a buttonhook—putting the hook around the small metal end which is to be turned.

When the whites of eggs are used without the yokes, put the yokes in a bowl, cover them with water and keep them in the refrigerator. They can be used in some way.

If you want to peel oranges, pour boiling water over them and let them stand for five minutes. They will peel easily and all the bitter white skin will come off with the rind.

Breaded veal is delicious treated in the following way: Dredge with flour, dip it in egg and bread crumbs, brown it in hot fat, then cover with milk and cook in a very slow oven until tender.

There is no dish more convenient to have for dinner on wash day than baked beans. Put into the oven in the morning, add a little water to prevent their getting dry and at 6 o'clock they are ready to serve.

A way to use the end of the boiled ham is to put it through the chopper, add mashed potatoes, a raw egg, form into balls, dip in egg and cracker crumbs and fry brown in deep fat. This makes a good lunch or breakfast dish.

When scissors become dull, put a pin between the blades and rub it up and down, working the blades as in cutting. This will put a new edge on the scissors and takes but a moment's time.

WHERE TOMMY SCORES.

Comparison Between British and German Soldiers.

An interesting comparison of the British and the German soldier is made by Bishop Mercier in an article in the "Nineteenth Century":—

Of the British he says:—He has a human, healthy, elastic mind, irrepressibly gay, which can rise above the toils and perils that surround him, and can keep its balance spite of all that might drag him into despair or goad him into savagery.

The typical German, he observes, aims at being in all things pre-eminently serious, rational and scientific. He willingly puts himself into subjection to endless rules and regulations. His very patriotism is manufactured according to received formulæ and consciously paraded. How can such a man enjoy real freedom of mind or spirit, or spontaneously relax to indulge in a lighter vein? To allow himself such license, even where he is inclined to it, would endanger his ideal.

We need not be careful, Bishop Mercier proceeds, to do homage to our foe on the score of his conviction that unbroken seriousness befits the business of war. On the contrary, I believe it to be the main cause of his inhumanity, the prolific source of his cruelties and barbarisms. His dark, brooding intensity finds no relief and feeds upon itself.

And his loss is no less palpable in times of peace. For a nation which lacks a faculty for laughing lightly, irresponsibility and irrepressibly when occasion presents itself, misses much of the fullness of which human life is capable, and narrows the range of his intellectual as well as of its emotional activities.

Some men no sooner get a job than they begin to kick for a day off.

The Fashions

Spanish Combs and Scarfs Worn.

The Spanish influence, they call our tendency this season toward ruffles, flounces, laces, full short skirts, and basques. Whether it will really be an important issue in the summer fashions is yet to be seen; so far it is being noticed only in a strong leaning toward the deep Spanish flounce of lace on dance and dinner dresses, and on lingerie summer frocks.

In the fascinating Fandango, danced in the second act of Goyescas, the dancer wears a charming little frock of yellow, with two deep black lace flounces joined to veil the skirt from

7023-7041

Novel Skirt Drapery.

below a deep yoke depth; the frock is so dainty and graceful that it should incline us all to Spanish lace flounces.

The Vogue of Lace.

Much lace is being used on dresses aside from flounces. One of the favorite methods is to veil a deep band of lace in the bodice, as shown in our first illustration, and another use is shown in the sleeves and front panel effect on the other frock. The metal laces, rather heavy in weave, are especially effective for veiling purposes. The gold and silver bandings are most attractive. Often in the costume blouse the lace is attached to a fresh colored lining, or is veiled first with pale pink chiffon and the pink in turn veiled with the dark blue black, or other shade of the blouse.

Raglan and Drop Shoulders.

Becoming and graceful for all types is the drop-shoulder, especially when

6971-6959

A Charming Use of Lace.

the blouse or frock is fashioned of a soft, drapy stuff like crepe Georgette, chiffon or some of the soft silk crepes. The fad for trimming these soft materials with colored beads is one of the most artistic and effective notions we have seen for many a day. A blouse in Russian style, imported recently by one of our smart shops, was fashioned of a dull copper-colored crepe de Chine. It closed straight down the front and the raglan shoulders were outlined front and back with a banding of burnished beads, in several tones, shading from gold to copper. The loose waist was held in slightly at the normal waistline with a twisted cord of the beads with tasselled ends. It was a garment which could be appropriately worn with separate skirt for the street, without a coat.

While there are some rather complex ideas this spring, the majority of frocks and blouses are simplicity itself; anyone who can handle a needle can fashion them, if she will keep one or two important facts in mind: first, that the new shoulder line is sloping; second, that sleeves, while loose, should give an indication of the shape of the arm. A tight-fitting cuff will serve to do this becomingly; this, that skirts must curve over the hips, unless they are the full-gathered models, and must be as full below the hips as possible.

Many of the dainty sheer cottons, voiles, organdies, crepes and similar fabrics, are being made up in the regulation shirt-waist-dress style, with perhaps a bit of colored embroidery or a band or two of ribbon for trimming. Ribbon, in the soft summer colorings, picot-edged, or plain taffeta or moire, is being used quite extravagantly on frocks and blouses of all descriptions. They are dainty, summery, and may be easily tacked on or taken off when the frock requires tubbing.

These patterns may be obtained from your local McCall dealer, or from The McCall Co., 70 Bond Street, Department "W."

BABY BUNTING

"This isn't a healthy road for travelling in broad daylight," said Pinkerton. "Sw-w-wish! There goes another!"

With a wail of a lost spirit, suffering a very bad attack of toothache, a roaring shell screamed overhead, and Pinkerton and his companion wallowed in the mire for a brief spell, flat as flounders.

"Nary," replied the Engineer. "I should thing it isn't! But we ain't out here exactly for our health—what? Pah!"

He spat out a mouthful of germinous Flanders grit, and then raised his head, cautiously surveying the landscape.

There were only two of them on this trip—Pinkerton, because he was supposed to "know the road" (There wasn't any road, but that didn't matter), and the young Engineer, his companion. Pinkerton, travelling light, had his rifle and a few rounds of ammunition only with him.

The Engineer was unarmed. He was a pallid slim young man, with a face "sicklied o'er with the pale cast of thought," a tight, hard mouth, and crisp hair curling under his cap. Above his ears his hair showed grey, though he could not have been much over twenty.

But there is nothing unusual in that; many of the sappers and miners of the R.E. in this war are Methuselahs to look at. It is their job that makes them so.

This young-old man wore a grey jersey tightly drawn over his shirt. He was wearing shorts and running-shoes, and slung from his shoulder was a canvas bag. The general appearance of him reminded Pinkerton of the old paper-chasing days at school. But the illusion of hare-and-hounds ended at the contents of the canvas bag. Inside it, instead of turn-up copy books, there reposed sticks of dynamite.

The objective of this couple of adventurers was at present out of sight beyond a tuft of trees over the ridge known as "No Man's Cemetery." It was a small farmhouse perilously close to the German lines, and, though invisible now to Pinkerton and his companion, could be plainly seen from the British position. And it was in the way. It had to be removed. And it was in the way. It had to be removed, speedily, and with as little fuss as possible.

Two or three neatly-placed shells could have done it easily enough, but that would have disclosed the lair of the recently-arrived R.F.A. battery. And, until the time came for barking, that battery had to lie "dogo." So the pleasant little task of "lifting it" was handed out to Corporal Anstruther, with Pinky as guide, philosopher, and friend.

Night is generally chosen for these ticklish jobs, but this being an emergency "hustle," it had to be carried out in the full glare of day, somewhat to the natural annoyance of Corporal Anstruther, R.E.

At this moment a devil's dance of shell and shrapnel was going on overhead and all round; for some reason or other the German gunners were suffering from a very jumpy attack of nerves. Presently there was a lull, and Pinkerton and the Engineer took advantage of it to advance in a succession of desperate crawls to the ridge.

Here another fusillade opened, and the two took shelter under the lee of a huge recumbent German. This elephantine Hun advertised, very unpleasantly, the fact that he had been dead many days.

"Phew!" ejaculated Anstruther from his side of the body. "Kindly pass your gold-stoppered bottle of smellin' salts, Pinky. I'd rather be punctured than poisoned any day. Let's get a move on, and change it!"

So they changed it, and crawled along snakily toward the farmhouse.

There's somebody on the roof," said Pinkerton, as a bullet pinged past his ear.

"Sniper," replied the Engineer. "Wait until I get underneath him with this little box o' tricks,"—he patted his canvas bag lovingly—"then he'll wish he hadn't!"

The grim curve of his resolute mouth straightened out almost to a grin.

Thanks to the broken ground in the vicinity, they reached the farmhouse without further adventure, and Pinkerton's job, according to his instructions, was over. But he intended staying to see the game through—at a safe distance.

He watched Anstruther crawl toward a small lean-to, with a sloping roof of corrugated iron, built on to the northern end of the house. Carrying his precious canvas bag in his teeth like a retriever, the Engineer wriggled through the small window, and disappeared.

From his hiding-place behind the manure hill Pinkerton watched the house, and particularly the roof, with the keen eye of the trained observer. Nothing moved, above or below; the farmhouse appeared to be empty and desolate—even the sniper had vanished.

Then, very grudgingly, he crept round to the other side of the building, found an unboarded window pretty high up, hoisted himself by a sheer effort of muscle, until his eyes were level with the sill, and looked into the room for an instant, and no more.

At the sight which confronted him his grip gave way upon the edge of the window-sill, and he fell back with a thud. He felt his hair rise. A sudden diffusion of cold sweat drenched him like a shower bath.

Sitting in the middle of the room, at a small table was a mild-featured spectacled German, bald, fat and beaming. Though he was wearing the familiar grey uniform and the high boots of the Saxon regiment to which he belonged, he presented more the appearance of an amiable, retired pork butcher than a soldier.

On his knee was a small child, extravagantly dressed in black, with a big black bow in her yellow hair. In spite of her garb of orphan woe, she was laughing gaily as the fat, fatherly old German jigged her up and down on his knee to the gallop, no doubt, of something akin to the ancient refrain:

"Baby, baby Bunting,
Daddy's gone a-hunting."

The amazing, unexpected picture photographed itself indelibly upon Pinkerton's brain. It had been the merest lightning-flash of a snapshot, but he remembered every tiny detail of it ever afterwards—the merry light in the child's blue eyes, the flash of baby teeth as she laughed, the reflected beam of gaiety in the old German's countenance, his treble chin, the goggly gleam of his immense glasses, the shine of his bald head, the telephone at his elbow on the little table—even the huge signet ring on his finger.

In a few more seconds, according to the widest calculation, that farmhouse would be a splintered smash of ruin. Mr. Anstruther, R.E., was not a man to waste precious time. Already, no doubt, the fuse was laid, the young man in the football jersey deliberately ticking off the fateful seconds.

The problem was, what to do; the beat thing, the quickest—not an instant could be lost.

A thousand schemes flashed through Pinkerton's head, one tubbing over the other in confusion worse confounded. But it was instinct which sped him round to the other side of the house, to meet Anstruther wriggling backwards out of the little window.

The Engineer dropped lightly, turned, and saw Pinkerton, pallid and gasping, standing close by him.

"Scoot!" said the Engineer. "Beat foot foremost, or it will be Kingdom Come! Why, what's up man? You look as though you've seen a ghost!"

"Quick — quick — quick!" gasped Pinkerton, fighting for the words which would not come. "For God's sake! There's a kiddy in the house!"

"You don't say!" muttered the Engineer, jerking up his left arm, and looking at the dial of his wrist-watch. "In sixty-five seconds. . . . I might just do it!"

He made a wild dive for the little window, like a swimmer—hands up. Pinkerton saw his legs squirming as he wormed his body through the aperture, and himself rushed round to the other side of the house.

The latch of the door, which was closed, would not yield to his fumbling fingers. He hurled himself upon it shoulder foremost, with the old football charge. It gave way with a resounding crash. He staggered into the room.

The old German was still fondling the little French child. At the smash of the bursting door he gathered her to his breast with one arm, and seeing Pinkerton standing there, considered him, naturally enough, as an enemy. He grabbed his rifle, and fired it, one-handed, and clumsily at Pinkerton.

The noise of the explosion in the confined space of the small room was almost deafening. The bullet struck the ceiling high over Pinkerton's head. The child screamed.

"Out-out!" yelled Pinkerton. Give me the child, you—you idiot! This house is mined! In less than half a minute we shall all be blown to bits!"

"Ach! Ach!" jabbered the German, who did not comprehend. And as he was preparing to fire again, Pinkerton flung himself upon him, hit him a smashing blow under the jaw—it was cruel with so old a man, but necessary—and dragged the screaming child away.

And as he hacked out of the door, still urging the old man to follow him, he saw the bewildered Hun groping in a dazed fashion for the telephone-receiver. . . . .

Then he ran and ran, with the child half strangling him as he clutched at his neck. After all, perhaps, Anstruther, R.E., had managed to freak the fuse in time. There had been no explosion. Wonderful chap, Anstruther! He turned and looked back. There was the farmhouse, quiet, lonely, and silent as ever.

"I want to go back—back home!" wailed the frightened child, speaking in her native language, which Pinky understood. "Take me back home!"

She waved her little hand toward the farmhouse; then stared with amazed, wide-open eyes as the whole building suddenly collapsed. A puff of smoke shot out from the roof. Then there was a roar, and the shock of it flung Pinkerton and the child, unhurt, upon the soft earth.

Corporal Anstruther, R.E., had accomplished the first part of the task he had set out to do. As for the second—well, something must have gone wrong with the time-fuse. Or, perhaps, the amiable old Hun—the pork butcher in uniform—had blundered again.

We shall never know, for the record of Corporal Anstruther's career comes to an end, in the official list, thus:

"Anstruther, Jas., Corporal, R.E.—Missing."—London Answers.

New Records Created by The Sun Life of Canada

PROGRESSIVE business methods, backed by forty-five years of fair-dealing, have achieved for the Sun Life of Canada during 1915 records that are new in the Canadian life assurance field.

Assurances of over $34,000,000 issued and paid for in cash; Total Assurances in Force of over $250,000,000; Total Payments to Policyholders since organization of more than $52,600,000; Assets in excess of $74,000,000; a Cash Income of nearly $16,000,000 and an Undistributed Net Surplus of over $7,500,000—all are high-water marks in the annals of Canadian life assurance.

Their achievement maintains the established prestige of the Sun Life of Canada as

A Leader Among the Life Companies of the Empire

The following substantial and uniform increases registered during the past year clearly demonstrate the strength of the Company's position:—

	1915	1914	INCREASE
Assets as at December 31st.	$ 74,326,423	$64,187,656	$10,138,767 (15.8%)

1871 HEAD OFFICE MONTREAL 1916

AUSTRALIA TO GROW COTTON.

Needed for Shells and Vast Acreage Will Be Planted.

Cotton growing in Australia to help Britain and her allies was decided upon recently at a public meeting held at Mount Morgan, in northern Queensland.

It is recalled that toward the close of the Civil War in the United States, Queensland took to cotton culture to meet the English demand, which was enormous, and had been greatly increased by the impoverishment of the South; and in 1871 the cotton exports from Australia amounted to 2,500,000 pounds. When cotton growing recovered in the United States that country produced it in huge quantities and in order to dispose of it, sold it at such low figures that the Queensland growers could not compete with profit at the American price, and the industry finally languished. The present cotton-growing campaign owes itself to an article written for a Rockhampton newspaper by G. Stephen Hart, F. R. S. In the course of this Mr. Hart said:

"For 10,000,000 soldiers, one pound of cotton per man would mean about 4,500 tons. I do not know how many pounds of high explosives made from cotton, each soldier, on the average, uses in one year, but as a guide it may be taken that one pound of cordite is required for about 250 rifle cartridges, and 500 pounds of cotton makes one charge for one 15-inch shell for the Queen Elizabeth. That illustrious chemical savant, Sir Wm. Ramsay, has, with others, been asserting again and again that no cotton means no shells, and has at last prevailed upon the Allies to declare cotton a contraband of war. Cannot we, too, learn the lesson that no cotton means no shells, and that unless we have cotton in Australia we are defenseless? Shall we grow or import it. Or shall we sit down without it till we see if anybody comes our way.

"A number of fitters are to be used in Queensland to make shells. A single lathe, capable of making 20 shells a day, is gladly accepted. So would a contribution of 1,000 tons, or even 100 tons of cotton. From world statistics it may be taken that five acres of cotton plants yield one ton of cotton. The yield from perennial cotton, where unaffected by frost, is as high as five pounds of bolls or two and one-half pounds of lint. As the picking necessitates considerable labor, it would seem better for many to grow small areas of up to, say, five acres each, rather than for individuals to attempt large plantations."

HOW MINERS SWEEP THE SEAS.

A Skipper Tells of Trouble in the North Sea.

A thrilling story of a remarkable escape from destruction by a submarine mine is told by an East Coast skipper who for months past has been engaged in the dangerous work of mine sweeping. Setting sail from a port, he says: "Two days later we reached the mine field which had been sown in that region. We had not been there five minutes before we found a mine and disposed of it. Each day our work progressed, and we found more and more, and then the following remarkable incident occurred: While still sweeping I thought there must be something wrong with my sweeping gear, so I decided to haul the sweep in. We were getting the 'kite' up, when I saw another mine lying right on top of the 'kite,' where it had become entangled in the gear. It was a mine, too, and I shouted to the men to stop the winch, but before I could do anything to prevent it the mine got jammed between the 'kite' and the ship's side.

A tremendous explosion followed immediately, but, luckily, the mine was still practically below water. A tremendous column of water rose to a height of 150 feet, and great chunks of the stee' mine flew all ways, but no one was struck or hurt. A jagged portion weighing 101 pounds came flying through the windows of the wheelhouse, and after missing me by a few inches fell on the floor near my feet. Save for some minor injuries from the shattered glass, I was unhurt. The greatest excitement was caused by the immense column of water, which simply collapsed on our deck, washing five of the crew overboard. Fortunately, however, my partner's boat with whom I had been sweeping was able to pick the men up. Outwardly my craft appeared undamaged, but tons of water had filled. Thinking the ship was sinking, all the hands except myself and the sub-lieutenant hurriedly left in the small boat, which was undamaged. We proceeded to examine the vessel, and, satisfied there was no leakage as all, signalled to the crew to return, which they did. We were then taken in tow, and reached port next day.

CONQUER FEAR IN BATTLE.

Feeling of Dread That All Experience Is Banished.

German newspapers print opinions of soldiers on their sensations when going into battle, especially their experiences in regard to fear. They quote from an interiew in the Nouvelle Review, in which a French captain says that every soldier, no matter how brave, is momentarily overcome by a sensation of fear when going into battle.

"I know that every time I lead my company into battle fear comes upon me, not only for myself, but also for my men. And, strange to say, in the midst of the battle fear is banished entirely. One thinks of nothing else then but to vanquish the enemy."

A wounded German officer gives his impressions as follows:

"There is something we learn in war of which we can have no conception in times of peace, and that is the beauty of fear. The beauty of it consists in the victory of the soldier over fear. He who experiences this awful fear on going into battle and conquers it alone can know the joy of living. It makes a man richer and nobler; it strengthens his character, and develops his soul. He who once faces death, and survives, lives, so to speak, an entirely new and different life. Worldly and material things lose their former value.

"It makes a man deeply religious—not so much in the way of a churchgoer, but a firm believer in God and immortality. And after that the soldier no longer has any fear of death. He looks upon death merely as an incident in life."

CARE WITH WELL WATER.

Drinking Water May Be Polluted From Many Sources.

Melting snow, carrying with it in solution much of the refuse and decaying matter accumulated during the winter, constitutes a serious danger to the water supply from wells. Many wells are so constructed as to allow surface water to find its way around the tops, while in others, particularly dug wells, it seeps in through the brick lining near the top. Where there is any danger of this pollution it is a measure of safety to boil the water before it is used for human consumption.

For lining dug wells reinforced concrete has been successfully used. Concrete may be made practically impervious to water, so that a concrete-lined dug well can be polluted only from the bottom.

The water supply on the farm is always an important matter, and too much care cannot be taken in its location and protection. The farm well should be placed where the surface drainage from all possible sources of contamination is away from the well. If possible, it is advisable to provide impervious floors with watertight drains for farm buildings and stock pens. Under the same conditions concrete manure pits might well be provided not only to prevent the liquid manure from polluting the neighboring soil but to save the manure. No garbage, manure, or rubbish should be dumped into sinks or basins in the immediate neighborhood, and such basins should be fenced off and kept free from polluting matter. The house should be provided with some safe method of sewage disposal, while slops and garbage from the kitchen should be deposited in tightly covered garbage cans and disposed of by burying in the fields, burning, etc. The use of privy vaults and leaching or overflowing cesspools should also be absolutely avoided, as they are likely to be sources of the worst contamination.

Destroy the Early Fly.

The bright sunny days of March and April are an inducement for the housefly to appear. An early start in destroying these pests should be made on the first fly seen, and the good work should be consistently and effectively carried on. The destruction of the early fly will mean the saving of valuable lives, as there is no more persistent carrier and distributor of disease than the housefly.

Not to be Missed.

Wife—We must surely go to Egypt this year.

Husband—Why Egypt?

Wife—On account of those Pyramids. I see by this magazine that they are slowly wasting away. It would hardly do to miss 'em.

Proved His Secrecy.

Astounded Mother—Why, Tottie, you never told me you had invited so many children to this party!

Small Hostess—That's 'cause you said that I could never keep a secret.

TESTING BRITISH QUICK-FIRING GUNS

GO THROUGH HANDS OF HALF A DOZEN EXPERTS.

How Weapons of Warfare Are Tried and Proved Before Acceptance.

There is no weapon in use by our forces to-day which has to stand so terrible a strain as the quick-firing gun. This fires a projectile weighing about eighteen and a half pounds. It has a range of over four miles, and the shell, on leaving the muzzle, travels more than three hundred yards in the first second, says London Answers.

In all great gun factories there is a special department where this testing is carried out. First of all the barrel, from bore to muzzle, is accurately gauged with most delicate instruments.

Inside the Barrel.

Next, a gutta-percha impression is taken of the inside of the barrel. This is kept—filed, you might say—together with full particulars and description of the gun to which it belongs.

If all appears correct the gun is sent to the proving ground. Here the testing is most severe, the charges used being considerably heavier than those employed in actual warfare. It speaks well for modern workmanship that very few cannon show any signs of damage from this treatment.

Guns that have withstood the tests are then returned to the works, where the gauging process is gone through all over again. Inside and out, the whole barrel is carefully measured to see if there is any enlargement due to the heavy charges.

If the expert pronounces that the gun is satisfactory, off it goes to the grinding-shop, where the bore is lapped out with lead blocks in order to give a perfect polish and finish.

The final process is the "browning," which consists in treating the whole of the outside of the weapon four or five times over with a certain acid. This enables the metal to resist weather in a remarkable fashion.

Our field artillery is the finest in the world, not even excepting the German. It is also fairly modern. It was only ten years ago that we re-armed all our batteries. We built eleven hundred new guns, which cost rather over £600 apiece. At the Okehampton range on Dartmoor one of these guns established a record by firing twenty-nine rounds within one minute.

From Solid Steel.

As in a cannon, so in a rifle, the bore is the all-important part. While cannon are built up, the barrel of a rifle is made by boring out a solid rod of steel. These rods are fixed in a lathe, and bored out by drills, which enter at opposite ends and almost meet in the centre.

The first testing of the bored-out barrel is most ingenious. The breech end is sealed and made airtight. Then at the muzzle end is inserted a gauge which exactly corresponds to the correct bore.

If the diameter be absolutely true the air compressed in the barrel will support the weight of the gauge. If there is anything wrong the gauge drops.

After passing this test satisfactorily, the barrel goes to a man termed a "viewer," who places it on a stand so arranged that light from a mirror is reflected down the barrel. The viewer notes whether any of the rings of light reflected on the polished inner surface are irregular.

Passing the Viewer.

If they are, he marks the barrel accordingly, and sends it along to another man who makes the required alteration. His tools are so delicate that he can work to within the thousandth of an inch.

Back goes the barrel to another viewer, who, by means of magnifying glasses, is able to judge as to its perfect straightness to within the ten thousandth part of an inch.

Watch one of these men at work, and what strikes you most forcibly is not so much that he is able to gauge the barrel with such marvellous accuracy, but that he seems to discover by magic the exact spot where there is any departure from the straight.

He wastes no time about it, and, with a couple of sharp blows with a hammer, will instantly rectify a small error.

Every rifle goes through the hands of half a dozen experts before leaving the factory, and afterwards is put through severe firing tests, not only to make certain of the soundness of the barrel, but also to ensure that the sighting is as perfect as workmanship can make it.

Too Bad!

"I'm sorry you don't admire Mr. Grumpins," said the tactful woman. "His ancestors were very distinguished and estimable people."

"Yes," replied Miss Cayenne. "What a misfortune for his family that so many of them died."

The Worm Turns.

"How much are your $4 shoes?" asked the smart one.

"Two dollars a foot," replied the salesman, wearily.

Don't Hold Clothes Pins in Your Mouth.

So many accidents have been reported lately due to the carelessness of the housewife that a series of "Don'ts" have been proposed. A common habit and a very bad one is illustrated here. Holding clothespins or any other small household article in the mouth spoils its shape and ruins the teeth. Some of the other don'ts are as follows:

Don't risk your life cleaning windows from the outside.

Don't pyramid the furniture to make a perch from which to hang pictures. Get a stepladder and prevent a household calamity.

Don't trip in the house. Be careful in placing rugs on the floor.

Don't bump your head on open closet doors.

Don't grope in dark closets. Get a little electric torch and save yourself many unpleasant experiences.

Don't leave domestic implements on the stairs. A dustpan turns the stairway into a toboggan slide for unwary feet.

Don't try to negotiate the stairway with arms encumbered.

KING CHATS WITH SKIPPER.

Informal Visit to One of the North Sea Craft.

The King's sailor experience enables him to appreciate the work of mine sweeping and submarine hunting performed by the skippers and crews of the small craft that scour the waters of the North Sea, and recently he paid a visit to a boat which had the good fortune to do a piece of work that probably saved a transport from attack, says a London dispatch.

"When we got back into harbor," the skipper relates, "I got to know the King was coming, so we made the boat look a bit smart, and presently who should come along but his Majesty and Prince Albert, a lord and an admiral, and some more. I was all of a shake when they came alongside the quay, and the admiral said: 'Your Majesty, this is the ship, and that is the skipper.'

"Then the King stepped aboard. 'Skipper,' says he, quite nice and friendly, 'I am very pleased to meet you. I am very proud of you. You are a brave man, and so are all your crew.' Then he shook hands.

"I 'majestied' him at first, but when he called me skipper I just 'sirred' him, and he seemed pleased. He put his hand on my shoulder and walked with me forward, congratulating the crew, and having a look around.

"'Now, skipper,' said his Majesty, 'I should like to see where you sleep,' and down we went into the cabin.

"'It's a very nice little place,' said the King, and then he says to me, 'Which is your bunk, skipper?' 'This one, sir,' and there was a nice counterpane and pillow-case. The King felt it and said, 'Very nice and comfortable, too; you can sleep well there.' Then he asked me how we lived, and I said, 'Champion in the Navy.' The King shook hands with us again on deck, and then left."

VALUABLE HINTS.

A Few Spring Fire Prevention Suggestions.

Keep basements, attics and closets free from rubbish. Many fires originate in the rubbish heap.

Stovepipes which enter chimneys in attics, or other unused rooms are extremely dangerous. Such arrangement should be avoided.

Beware of the defective flue or chimney. Take down stovepipes and have them thoroughly cleaned, and have chimneys carefully examined at the same time.

Keep oily rags and floor polishing mops in metal boxes or cans, as they are liable to cause fires from spontaneous combustion.

Use care in the handling of matches. Keep them in metal receptacles and teach children how to use them. In putting away clothes remove all matches from pockets.

Bonfires have been the cause of much property damage. If one is necessary have it well removed from buildings and wooden fences, and before leaving it make sure it is thoroughly extinguished.

The safest place to use gasoline or other dry-cleaning compounds is out of doors, where the dangerous gases formed may be dissipated in the atmosphere.

True fortune-tellers, of course, only tell us what we want to hear.

SOLDIERS SLEPT AS THEY MARCHED

SOMNAMBULISTS MAKE RETREAT

Not a Groan, Not a Motion, Not a Complaint, Only Sleep.

A wonderful new sidelight is thrown on the glorious retreat of the British and the French from Mons to the Marne by Dr. George W. Crile, a distinguished American doctor, says Pearson's Weekly.

In a recently-published book he tells how the French and our original expeditionary force marched 180 miles in nine days and nights often fast asleep, continually fighting desperate rear-guard actions against seemingly overwhelming hordes of Germans.

"Only rarely were sufficiently long halts made for the men to snatch a few moments of rest," writes Dr. Crile. "Food and water were scarce and were irregularly supplied.

The point of paramount interest in that retreat is in the sleep phenomena experienced by these men."

"It has been shown that animals subjected to the most favorable conditions, kept from exertion or worry, supplied with plenty of food, and in good hygienic surroundings, do not survive longer than from five to eight days without sleep.

The Men Slept as They Marched.

"In this retreat from Mons to the Marne we have an extraordinary human experiment, in which several hundred thousand men obtained little sleep during nine days, and in addition, made forced marches and fought one of the greatest battles in history.

"How did these men survive nine days apparently without opportunity to sleep? They did an extraordinary thing—they slept while they marched. Sheer fatigue slowed down their pace to a rate that would permit them to sleep while walking.

"The unvaried testimony of the soldiers was that everyone at times slept on the march. They passed through villages asleep. When sleep deepened and they began to reel they were wakened by their comrades.

"They sleep in water, on stones, in brush, or in the middle of the road as if they had suddenly fallen in death. No man was safe who fell out of the ranks, for no matter on what pretext he fell out, sleep conquered him, and asleep many were captured.

"When we got back into harbor," the skipper relates, "I got to know the King was coming, so we made the boat look a bit smart, and presently who should come along but his Majesty and Prince Albert, a lord and an admiral, and some more. I was all of a shake when they came alongside the quay, and the admiral said: 'Your Majesty, this is the ship, and that is the skipper.'

"Then the King stepped aboard. 'Skipper,' says he, quite nice and friendly, 'I am very pleased to meet you. I am very proud of you. You are a brave man, and so are all your crew.' Then he shook hands.

"I 'majestied' him at first, but when he called me skipper I just 'sirred' him, and he seemed pleased. He put his hand on my shoulder and walked with me forward, congratulating the crew, and having a look around.

"'Now, skipper,' said his Majesty, 'I should like to see where you sleep,' and down we went into the cabin.

"'It's a very nice little place,' said the King, and then he says to me, 'Which is your bunk, skipper?' 'This one, sir,' and there was a nice counterpane and pillow-case. The King felt it and said, 'Very nice and comfortable, too; you can sleep well there.' Then he asked me how we lived, and I said, 'Champion in the Navy.' The King shook hands with us again on deck, and then left."

That the artillery men slept on horseback was evidenced by the fact that every man lost his cap.

"The complete exhaustion of the men is vividly told by Dr. Gros, of the American Ambulance, who, with others, went to the battle field of the Marne to collect the wounded. When the ambulances arrived at Meaux at midnight they found the town in utter darkness. At last they succeeded in awaking the Mayor.

Packed With Sleeping Wounded.

"'Can you tell in what village we shall find the wounded? We were told there were many here.'

"'My village is full of wounded. I will show you,' the Mayor replied.

"They threaded their way through dark streets to a dilapidated school building. Not a sound! There was the stillness of death. They rapped louder; there was no response.

"Pushing open the door they found the building packed with wounded—more than 600. Some were dying; every one was in a deep sleep. Bleeding, yet asleep; legs shattered, yet asleep. Not a groan, not a motion, not a complaint—only sleep.

"Surgical aid, the prospect of being taken to a good hospital, the thought of food and drink, of being removed from the range of the enemy's guns, awakened no interest. They had reached the stage of unconditional exhaustion, and desired only to be left alone. They slept on while their wounds were being dressed.

"After deep sleep for two or three days, during which they wanted neither food nor drink, they began to be conscious of their surroundings; they asked questions, the experienced pain they had discomforts and wants—they had returned from the abysmal oblivion of sleep."

A wonderful story—and a true one!

Depths of Mines.

The mines of the St. John Del Rey Company in Brazil have now reached very great depths. The lowest level is almost a mile below the surface, and still deeper levels are building. In a recent report the superintendent says that were it not for the rapidly increasing temperature, the mines could be worked profitably to "horizon" twenty-six (7,620 feet deep),—and even to a greater depth,—that is, of course, if the lode continued of the same size and richness. The temperature chart shows that the temperature of the rock at such a depth would be no less than 120 degrees at the moment of opening it. As the engineers see no way to increase the volume of ventilating air, they plan to cool and dry the air before sending it to the lower levels. In that way they think they can without discomfort follow the lodes to the depth of nearly a mile and a half below the surface of the earth.

The Paisley Advocate

PAISLEY, MAR. 22nd, 1916

BRUCE MUNICIPAL TELEPHONE SYSTEM

The attendance at the annual meeting of the Bruce Municipal Telephone System, held at Underwood on Friday last, although not as large as usual, was quite satisfactory, considering the condition of the roads. The meeting was exceedingly quiet and agreeable, which speaks well for the whole management, as well as for the fair judgment of the subscribers. Throughout the whole meeting common sense prevailed. President McNaughton occupied the chair and gave a good account of his stewardship, also very humorously explained his difficulty in keeping the other lads in their places.

J B Strathers, Sec'y, was called upon to read the report of the last annual meeting, which was adopted.

J G McKay, Treasurer, was asked to explain the financial statement, which, unfortunately, was hard to understand. It would appear that it was intended for the information of the commissioners, secretary and treasurer, who are familiar with the different items throughout the year. A motion was passed, asking the auditor to simplify his report in future, so that the average subscriber could understand it.

Commissioners McLean and Hunter dealt very ably with the various aspects of the situation, showing that they were quite in touch with the present and future condition of the whole system.

Mr McLean brought up two new questions which startled the audience. One was that of moving the Underwood switch-board to Tiverton on the ground of considerable economy and very much improved service. He intimated that service capacity from the south to the north and vice versa, would be 13 times greater, but intended to say 6½ times greater, than at the present time, there being only two trunk lines connecting the north with the south. This met with considerable opposition from the subscribers on Underwood central.

He also brought up the question of Bell connection. The Independent Telephone Association had some time ago asked the Dominion Railway Board to make an order so that the Bell Co would connect with independent companies and systems. The Railway Board recently made an order whereby the Bruce System would have to pay $300 per annum for loss of local business to the Bell in the various towns and rural sections as well. The executive of the Association appealed the decision to the high court for better terms, asking that the $300 item be eliminated from the order. With the expectation that better terms would be forthcoming before the next annual meeting, the question was discussed on Friday for the purpose of introducing it.

It was intimated that the private lines in towns were not paying their way, and some suggestions were made but no stated price was intimated by the commission. Those who took prominent part in this discussion were J J Hunter, D McNaughton, P A Malcomson, A P Mewhinney, and others. There was a telephone rate for the towns suggested by some of those speakers to illustrate their argument, but not from any authority whatever. For the benefit of those who could not attend the meeting, further explanations will be made in the local papers.

H, McLaren was again appointed auditor, and the old Board of Commissioners re-elected by acclamation.

Red Cross Box Social

S S No 15 (McGillivray's school, 12th Bruce) rounded up the sum of $130 at their box social on March 17th, and after the expenses are paid the balance will be handed over to the Red Cross Society organized in the school section this winter. The entertainment programme included string band music by Messrs A Archer, B Tooke and Jas Miller, with Mrs T Ellis as organist; vocal selections by Annie and Donald McArthur of Port Elgin, Daisy Foster, John H Thornburn and McLean Young; recitations by Ruth McDougall, John Temple and McLean Young. The boxes were sold by auctioneer Rankin, and some long prices were obtained. Reeve Jas Johnson was chairman.

LOCAL AND DISTRICT NEWS

Shooting Case at the Assizes

The only case on the docket at the Spring Assizes, which were held in Walkerton on Tuesday before Mr. Justice Sir William Mulock, formerly Postmaster General of Canada, was an action for $1500 damages brought by Angus McInnes, a Bruce township farmer, against P. C. Kennedy, a harness maker at Paisley, for injuries sustained in a shooting accident at Paisley. It seems that Kennedy took a small 22 rifle and went to hunt sparrows at the back of his harness shop. In firing at a bird in the top of a tree the bullet in some way was deflected and struck McInnes above the elbow as he was taking a short cut over a path on Kennedy's property about 150 feet away. Kennedy claimed that at the time of the mishap the victim was passing behind some shrubbery and that he did not see him when he fired. After the mishap Kennedy had the injured man taken to Guelph hospital and had the bullet, which was imbedded in the bone, removed by Dr. Lucy at his expense. Although Kennedy had expended nearly $100 in medical attendance, etc., on McInnes, yet the injured man wanted at first $500 and later raised his demand to $1500. The defendant Kennedy offered him $200 in settlement of the case, which was duly paid into court, but which the plaintiff stoutly refused to accept. Sir William Mulock, in addressing the jury, charged strongly against the defendant, and maintained that though he had furnished medical attendance and had done the decent thing, yet this did not relieve him from his legal responsibility in the matter. The judge intimated to the jury that the plaintiff was a farmer of 63 years of age and might never have the use of his arm again. He informed them that they could give the plaintiff damages for the wrong done him, the pain suffered by him and the pecuniary damages sustained by him. Expert evidence for the plaintiff was submitted by Dr. Farewell of Walkerton, and Dr. Chambers of Tiverton, and for the defendant by Dr. Lucy of Guelph, and Drs. Houston and Gage of Paisley. Notwithstanding that the judge charged strongly in favor of the plaintiff the jury brought in a verdict allowing him only the $200 which the defendant had already offered him and had paid into court. Each party was ordered to pay his own costs. D Robertson, K.C., for plaintiff; W. D. Wright of Owen Sound and D. Forrester of Paisley for defendant.—Herald and times.

Best Game Here in Years

The small crowd which turned out to see the exhibition game here on Thursday evening witnessed the best hockey played in the local rink for several years. The visitors brought over their best team to a man, and from start to finish the local youngsters made them go the limit. The first period ended 3—2 for Chesley, the play being just about as close as the score would indicate. During the resting period some of the visiting spectators offered even money that Chesley would win by five goals, and as is nearly always the case, they found takers. This seemed to put life into both teams, and the locals went on the ice determined to hold down the score. During the next half hour both sides pulled off some of the most exciting hockey ever seen here, and both goal-keepers had plenty of work to do. The forwards back-checked like fiends and broke up many promising attempts at combination when goals looked almost certain. Chesley had the score at one time 7—3, but the locals came back with three in quick succession, leaving only a single goal between them, with about ten minutes left to play. The hard pace now began to tell on the locals who had been out of practice since the league season closed, and Chesley found the nets three times before time was up. This left them still one goal short of their five-goal lead, but through some misunderstanding of the time-keepers the game was allowed to go on for two minutes longer, when the visitors again scored and time was immediately called. A dispute arose over the time and it was finally agreed to play two extra ten minute periods to settle it. After five minutes Chesley again scored and play had just been resumed when the lighting system went to the bad, leaving the rink in total darkness. As it took some time to discover where the trouble was the teams agreed to call the game off, leaving the score 11—6 in Chesley's favor with the game unfinished. The Paisley boys, with two exceptions, will all be able to play junior hockey next year, and as they were up against a senior team, consider that they made a really creditable showing, and are already beginning to figure out who their opponents will be in either the Northern League or O.H.A. junior final next year. The only thing they lack now is weight. The teams were:

Chesley		Paisley
Durst	goal	Wee Lee
Klenger	right defence	Heppenstall
McCaffrey	left defence	H Blue
Lamont	rover	Hopper
McDonald	centre	Elwes
Lastig	right wing	Forrester
McCaffrey	left wing	Diebl

From Leslie Shaw, in London, England

On Feb 27th Leslie Shaw, of the 47th Battery, wrote to his home here, stating that he was on six days leave in London, and found the city very interesting. He had been on the Strand, also Piccadilly and Leicester Square. "When we were coming into Waterloo station we saw some fellows coming home from the trenches for a few days' leave. You would hardly know them from a smartly dressed soldier of Toronto or Walkerton. They were mud from head to foot, and carried all their kit. They were old looking. I was talking to some of the fellows back from the front, and they say it is an awful place. Others say they don't mind it at all. So I guess we'll have to wait until we get there before we can form any opinion. The traffic of this city is wonderful. A person has certainly got to watch himself here. It is like fair time on Piccadilly often, and one has to use his elbows to advantage there. It seems an easy place to get lost in, as it is a centre from which about a dozen streets run, and when in the centre you don't know which street you came in on. I reside at the Maple Leaf Club, located in the old city of Westminster, so you will have some idea of how antique things are in this quarter. The Club is a place for soldiers only, and they do a great business. There are a lot of such places in London. The number of soldiers that stay in this city is enormous, nearly as many as civilians. If one saluted every officer met here he would be tired inside of half an hour. The halt and lame are very numerous, too." On March 1st Leslie wrote again, after visiting the National Art Gallery and the Wax Works, and there is so much to tell that he didn't know where to start. He stayed in the Club one afternoon, and about 4 o'clock they were visited by the King and Queen, when he got a close view of the royal couple as they talked to some of the boys. "Then we have been to Westminster Abbey. That is absolutely the grandest piece of architecture in London. I was in the royal chapel and the tombs. I have been over to Buckingham Palace. We got permission to go through the stable, and saw the horses and all the carriages used by the king and queen. The royal state carriage is 24 feet long itself. When the pole is in and the horses all hitched to it the outfit is 110 ft long. It weighs four (English) tons. The hind wheels are 6 ft, 1 in. in diameter. It was used by George III, and took three years to build. I never saw such grand horses and harness as were there. Were at the royal riding school, where we saw the king's horse also Princess Mary's horse, and carriages used for state occasions. When in the Abbey we saw where the kings were crowned. All the most important tombs are covered with sand bags for protection from bombs. Then in the Museum of War we saw models of ships and guns, medals and clothes worn by Duke of Wellington, etc, also all kinds of guns, spears and battleaxes. I can't write of all I saw so well as I could tell it."

KIDNEY DISEASE WAS KILLING HIM

Until He Used "Fruit-a-tives" The Great Kidney Remedy

HAGERSVILLE, ONT., Aug. 26th, 1913.

"About two years ago, I found my health in a very bad state. *My Kidneys* were not doing their work and I was all run down in condition. Having seen 'Fruit-a-tives' advertised, I decided to try them. Their action was mild, and the result all that could be expected.

My Kidneys resumed their normal action after I had taken upwards of a dozen boxes and I *regained my old-time vitality*. Today, I am as well as ever."

B. A. KELLY.

50c. a box, 6 for $2.50, trial size 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

The Late Geo. B. Bell
